Daily Evening Review

TUESDAY, AUGUST 1, 1882.

JOURNALISM.

We are asked by the *Lindsay Post* why we do not rebuke the *Mail* as well as the *Globe*, as being an equal offender. If they did offend in a similar manner we would express our disapproval of one as well as of the other, but we do not admit the similarity. We think that both journals, with many others, are to blame for the unnecessary violence of their language, for their continual abuse of their opponents, and for the personal nature of their criticisms. We show disapproval of this style of journalism by refusing to imitate it, without thinking it expedient to be perpetually lecturing our contemporaries. In fact we do not aspire to be censors of good taste in Canadian journalism, for it would be a larger task than we could well undertake.

We constantly find in the *Globe* what we do not find in the *Mail*, offenses not only against good taste, but against the commonest rules of morality. The *Globe* for instance is continually undervaluing and belittling our Dominion and mistaking facts in regard to it, careless that by so doing it is inflicting an injury upon the country, so long as at the same time it can thwart and attack its chosen rulers. Again, it is perpetually abusing those whom the people have delighted to honour, misrepresenting and vilifying them in the hope of lowering them individually in public estimation. With these two objects in view it shows not the slightest regard for truth, falsifying fact and documents, and never retracting when shown to be wrong. Neither does it have any consideration for the injurious effect of its words upon innocent private individuals so long as it attacks its opponents or its measures. For instance, its special commissioner, to bring into disrepute the National Policy, slandered the factory girls, of one locality it is true, but in such a way as to cast an imputation upon the whole body, for no reason was shown for considering it an exceptional case. The *Globe*, instead of disavowing him, in an editorial extended the insult by endeavoring to show that such was the general tendency of our fiscal policy. It systematically attacks manufacturers as robbers and extortioners, though many of its own friends have shares in factories. It derides the shareholders of land companies in the North-West as "blasted capitalists," "land sharks," &c., though many of the leaders of its own party have entered into such speculations, in some instances being at the head of them. Even private business men are slandered and falsely accused, as in a local case, if a point can thereby be made against the policy of the nation.

Now we cannot see how such gross dishonesty and want of truth can be justifiable in a journalist when it would not be tolerated in a private person, and we shall continue to protest against such outrages, even though we may ourselves be vilified for so doing.

In conclusion we may say that the *Post* was, with too many other journals, a ready imitator of the *Globe* in these practices, and it had not a word of reproach for the *Globe* till the party sustained a disastrous defeat and some one had to be blamed.

EDITORIAL NOTES.

THE HON. MR. CHAPLEAU, the late Premier of the Province of Quebec, has joined the Dominion Cabinet in the place of the Hon. Mr. Mousens, who is to be entrusted with the formation of an administration for Quebec.

WE observe that the *Dominion Review* is already being quoted by the opposition press as an independent periodical. Probably this was one of the objects of a strong partisan organ in masquerading as a neutral.

THERE is a double return for the second seat for Kings County, Prince Edward Island, both Dr. J. C. Robertson and Mr. A. C. McDonald being gassed.

DR. JOHN THORNBURN, Mr. A. D. DeCelles and Mr. Peter LeBour, have been appointed as the Board of Examiners under the Civil Service Act. An excellent selection has been made, and this genuine reform will have a fair trial.

THE fact that the subscriptions for the Quebec Government Loan, issued in the Province, far exceeded the amount required, is a very substantial proof of the confidence felt in the Ministry, in spite of the way in which they have been maligned by their opponents.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

THE BELGIAN FUGITIVE.

Suit to Recover the Bishop of Liège's Property—King Leopold Plaintiff.

BROOKLYN, July 30.—There is a suit now pending in the Supreme Court of Massachusetts in which Leopold II., King of the Belgians, is plaintiff, involving about \$340,000. There is a bill in equity brought by the King in his sovereign capacity against Leon Bernard, a Belgian subject, Henry Lee, Charles Fairchild, Charles A. Whittier, et al., at Boston, the three latter being well-known bankers and proprietors of the Union Safe Deposit concern. The defendant, Leon Bernard, was a subject officer and servant of the plaintiff, and the custodian of money and securities belonging to the plaintiff, derived from revenues of the Church and other sources, and was obliged to account and deliver such money and securities received by him in March, 1881. Bernard, as custodian, had in his possession money and property amounting to \$1,700,000, and is alleged to have converted some to his own use and to have fled from the kingdom, being since a fugitive from justice. About a year ago Bernard made his appearance in Canada, and it is claimed that from there he came to Boston and leased a vault of the remaining defendants, in which they believed and alleged that he deposited a large amount of the stolen property. The bill requires the defendants to make a disclosure of the fact if a vault was leased by defendants to Bernard and upon what terms and conditions it was so leased. An injunction has been obtained against the defendants, restraining them from allowing the said Bernard or any one in his behalf admittance to said vault, or from removing or interfering in any way with its contents. Bernard is the man recently arrested in Havana at the instance of the Belgian Government on the above charge.

THE SMITH'S FALLS RAILWAY ACCIDENT.

The Collision Caused by the Engineer Disobeying Orders.

OTTAWA, July 30.—Superintendent Spencer, of the Canada Pacific railway, has been investigating the cause of the recent railway accident at Smith's Falls. He states that the result of his investigations shows that the accident resulted from the neglect of the deceased engineer. It seems that Burns, the deceased, arrived at Irish Creek at 11.15 and left at 11.17 without orders, the freight train being due to leave Smith's Falls at 11.19. As a result of this the special engine came into collision with the freight train. Instead of taking the course he did he should have remained at Irish Creek to cross the train going from Carlton to Brockville. The relations of the deceased and others who were of opinion that the deceased met his death from his own negligence, and exonerate the railway company from any blame. It may be mentioned that the company paid all expenses incurred by any person on account of the accident. The loss to the company is estimated at between \$11,000 and \$12,000. It is a somewhat curious coincidence that a short time ago a son of the deceased engineer was dismissed from the employ of the company for running into a train near Standpoint from the very same cause, viz., acting without orders. The system of train despatching in vogue on the Canada Pacific may be considered almost perfect, from the fact that the only two accidents that have occurred on the road since its adoption were due to the fact that the engineers did not adhere to it.

MURDER AT NIAGARA.

The Body of an Unknown Man, Stabbed in the Back, Found Floating in the River.

THE people of the quiet little village of La Halle were considerably excited yesterday afternoon by the discovery of the body of a man in the Niagara river, who evidently had been murdered. Lawyer A. C. Calkins, of this city, was engaged in fishing in the river opposite the village about 2 o'clock, when his attention was attracted by the shouts of two women on the shore. On looking up he saw them beckoning to him to approach. He immediately headed his boat towards them, and on landing was shown the cause of their desire for assistance. Lying face downward in a few feet of water near the shore was the body of a man clad in a pair of pants and a woollen shirt. The latter garment was so disposed as to reveal the mark of a deep stab in the back near the shoulder blades. The theory of murder at once passed through the minds of those about—a number had gathered by this time—and the body was secured and brought ashore. It presented a sickening sight. The remains had been in the water for perhaps two weeks, and decomposition had advanced until identification was nearly, if not quite, impossible. A coroner from Lockport was summoned, and caused the remains to be cared for. The body was presumably that of a labourer in middle life. The face was smooth, and the clothing was of a dark hue, the shirt bearing marks of blood near the location of the wound. The mysterious case will be thoroughly investigated.—*Buffalo Courier*, July 28.

BOATING CASUALTY.

Narrow Escape of Two Mador Gentlemen from Drowning.

On Monday last the Rev. Mr. Neare, Incumbent of the English Church of this village, and Mr. R. W. Hicks, head master of the Model School, had a remarkably narrow escape from drowning while fishing in Moira Lake. Their boat, it appears, was a rather small one, and the wind being unusually fresh, they shipped considerable water. In endeavoring to bail it out they accidentally upset the boat, both being left foundering in the water. Fortunately Mr. Neare is an excellent swimmer, and by his exertions Mr. Hicks was assisted in the upturned boat, and held there, but not before he had gone down three times. They remained in this precarious position for some time, but were finally rescued by some boys who went to their assistance with another boat. Undoubtedly had it not been for the rev. gentleman's exertions and ability to swim, one or both would certainly have been drowned, as it is, neither one is probably any the worse for their involuntary immersion.—*Madoc Review*.

Bad Fatality.

ST. JOHN, N. B., July 30.—Mrs. John Babbitt and Maggie Chesnut, aged 25 years, daughter of Henry Chesnut, of Fredericton, were drowned on Saturday afternoon. Miss Chesnut and Mrs. Babbitt's little daughter were in the river bathing, and getting into a hole. Mrs. Babbitt rushed in to save them. She succeeded in rescuing her child, and then caught Miss Chesnut, but she being heavy, dragged Mrs. Babbitt into deep water and both perished. Mrs. Babbitt's body was recovered in a couple of hours in nine feet of water.

Just received a full range of
Genuine Tweed Waterproof Coats at
"Habiliment Hall."

SCOTLAND.

It is reported that the Duke of Sutherland is to open the Kildonan gold fields this season again.

A piece of rock and earth came thundering down the side of one of the precipitous peaks of Ben Loyal on the 4th of July, producing a tremendous sound, which was heard all over the neighbourhood.

In the House of Commons, on the 4th of July, Lord Colin Campbell presented a petition signed by 51,000 members and adherents of the Free Church in the Highlands in opposition to Mr. Dick Peddie's motion on Disestablishment.

A VAGRANT broke into London Castle on the 4th of July, and coming unexpectedly upon the house-keeper, was resolutely opposed by the courageous lady, who received severe injuries from the fellow before she let him go.

At a meeting in Larn on the 3rd of July, it was decided to memorialize in favour of the prohibition of the sale of intoxicants on board Sunday steamers on account of the scandalous and disorderly conduct of the passengers by these boats.

In spite of the protest of Councillor Fyfe, who moved that "women get no more latitude that they've gotten," a petition has been presented by Fyfe's Town Council in favor of the extension of the Parliamentary franchise to women.

On July 4th cesspayers and justices of the peace of the baronies of Gorey, Arklow, Ballynagar (South) decided to charge the rates with £20,000 to aid the improvements of Arklow Harbor. The Government have given a grant of £15,000 for that purpose.

THE Rev. Charles E. Piper, formerly of Pittfield, N. H., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

HALE'S Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

Pictures Framed on Shortest Notice

THE CONTENTED MAN,
Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Welland Canal Enlargement.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned,
and endorsed "Tender for the Welland Canal,"
will be received at this Office until the arrival of the
Eastern and Western Mail on FRIDAY, the 1st day of
SEPTEMBER next, for the deepening and comple-
tion of that part of the Welland Canal, between
Ramsay's Bend and Port Colborne, known as Section 21,
embracing the greater part of what is called "Rock
Cut."

Plans showing the position of the work, and speci-
fications for what remains to be done, can be seen at this
Office, and at the Resident Engineer's Office, Welland,
on and after FRIDAY, the 18th day of AUGUST next,
where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tend-
ers will not be considered unless made strictly in ac-
cordance with the printed forms, and, in the case of
firms, except there are attached the actual signatures,
the nature of the occupation and place of residence of
each member of the same; and further, an accepted
bank cheque for the sum of four thousand dollars
must accompany the respective tenders, which sum
shall be forfeited if the party tendering declines en-
tering into contract for the work, at the rates stated
in the offer submitted.

The cheque or money thus sent in will be returned to
the respective contractors whose tenders are not
accepted.

This Department does not, however, bind itself to ac-
cept the lowest or any tender.

By order, A. P. BRADLEY,
Secretary.
Department of Railways and Canals,
Ottawa, 18th July, 1882.

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable,

the discovery of which was the result of

many years' close study, in order to discover

the cause, the symptoms and the cure—viz.,

Consumption, Coughs, Colds,

Catarrh, Croup, Asthma, In-

fluenza, Pleurisy, Hoarseness,

Spitting Blood, Bronchitis,

and every species of oppression of the Chest

and Lungs, in all cases of which the Elixir has

been daily administered its efficacy has been

unvaryingly manifested, convincing the most

sceptical that

CONSUMPTION

is not incurable, if properly attended to—

namely, if the patient uses the Elixir in the

right manner, and in the right quantity, it will

cure the disease, and the patient will be

restored to his former state of health, and

will be able to enjoy the same, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

same time, and the same time, and the

CANADIAN INDIANS.

They Cross the Boundary and Claim Territorial Rights.

ST. PAUL, Minn., July 29.—St. Paul advises have been received from Captain Kellogg, of the 16th Infantry, stating that on July 28th his command of two companies of cavalry and one of infantry encountered a band of trespassing Canadian Cree, who were hunting buffalo in the vicinity of Milk River. They had been previously warned to leave or cross the line, but they had refused to go. Capt. Kellogg advanced, but the Cree, as soon as the troops showed their business-like intention, skeddaddled, and were pursued four miles, when they were captured, and all their arms and horses seized. Nine of the animals were identified as stolen from the whites and were retained, as were the arms and ammunition. The police were returned and the ride warned to cross the line forthwith or expect summary treatment. The capture will have a good effect upon Canadian Indians, who have of late been growing exceedingly mischievous and saucy. Capt. Kellogg's command will remain in the vicinity of Milk River and watch for other marauders. The heat has been intense, the mercury ranging about 96° in the shade.

Turtle Mountain Indians from the North-West Territory have crossed the boundary line and ordered off all the white settlers on the east end of the Turtle Mountains and refused to pay the customs imposed against them by the Pembina Agency. They claim the right to the lands and deny the legality of any law laying taxes on them. There were some twenty-five whites, many of whom had been on claim for several weeks. They had had an understanding with the resident chief, Kahlephah, a half-breed that they could settle on the prairie two miles from the mountain, and cut fuel on the mountain. They afterwards were given permission to cut timber for shacks.

Little Shell, a full-blood chief who has always lived on the Canadian side, but who claims to be head chief of the reservation, has been instigated by half-breeds living on the Canadian side to prevent the settlement of the country by white men. After his arrival he commenced to find fault, and a few days ago all the whites were ordered to leave within two days, force being threatened if they refused to comply. All remonstrance was unavailing, and Tuesday afternoon saw the last white man driven over the line. This chief, Little Shell, his squaw, and one other Indian, who came with them, see the only real Indians of the American side of the mountains. It appears that the resident chief, Kahlephah, offered Little Shell by declining to meet him in person, and they are not acting in concert. Kahlephah says he does not approve of Little Shell's action in driving the settlers entirely off, and that he had no talk with him. He believed in obeying the laws. Kahlephah demands of the Government a reservation beginning two miles east of Turtle Mountain, and running along the boundary line sixty miles, and extending south into Dakota forty miles. He did not and could not live in the same reservation with Little Shell, who he said was acting wrong.

It is thought the Canadian half-breeds see a chance to make something, and will make all the trouble they can for the white squatters. Last Sunday a meeting was held by Little Shell and agent McCollum was invited. He went and found 200 half-breeds present. He was asked to state his business, and he fully expended the Canadian laws through an interpreter, and requested all who moved into the United States to call on him and pay their duties, if any were due. Chief Little Shell extended his hand and answered:—"These are my lands and these are my people; they shall pay no duties and respect no Customs officers. I have as many more children across the line, I shall bring them all over. We recognize no boundary line, and shall pass to and fro as we please."—Globe.

TRADE NOTES.

The Craven Cotton Company (Limited) has been incorporated, with a capital of \$225,000. The directors are Messrs. Clayton Keltie, J. Cockburn, W. Buck and John Harris, of Brantford, and Jas. Salter, of London.

Messrs. McKinnon & McLean, of Eadsale foundry, on Saturday last, melted, in their new improved furnace, 4,500 lbs. weight of cast iron in one hour from the time the blast was put on the furnace. The fire was of Picton coke.

The Dominion Bridge Company, with a capital stock of \$500,000, and head quarters at Montreal, is applying for incorporation. The names associated with the enterprise are as follows: Messrs. Job Abbott and P. Johnson, both civil engineers of Toronto; Henry Macfarlane, of Stratford; Luke Lyman, of Northampton, Mass.; and A. Thon, of Montreal. It is believed that a large railway supply firm at Montreal is also interested in the concern.

A fine substantial stone building has been purchased in Prescott by Mr. John Carruthers, near Labatt's brewery, for the purpose of starting a wheel factory. There is only one factory of this kind at present in the Dominion. Presumably, a mammoth boarding house has been erected for the accommodation of the men employed, with one of the finest stables in this part of the province. There are to be in all eighteen buildings erected, several being mills. The gravel road is being straightened at this point, to accommodate the building to go up. This is done by permission of the county council. The immense water power along the Trent seems destined to be utilized.

The gun says that several new industries have sprung up in St. John since the fire, which have proved successful and been instrumental in attracting to the city a large number of skilled mechanics and laborers. It is scarcely necessary to say that shipbuilding is still pursued to a great extent. New Brunswick-built vessels invariably have a good rating, and yesterday I noticed quite a number of large ships on the stocks rapidly approaching completion. The various new industries connected with the railroads find employment for many. Then there is the nut and bolt factory from which the clink of many hammers and the thud of ponderous machinery resounds. And, who would believe it? There is a cotton mill in full operation, which is at all times run to its utmost capacity in the manufacture of cotton warp. These are signs of a gratifying enterprise.

Young Man Murdered.

St. John, N. B., July 30.—James Campbell, about 21 years of age, in a street fight at the corner of St. John and Water streets, Carleton, on Saturday night, was struck on the top of the head with some blunt instrument, and also received a blow on the neck, which caused paralysis. He was taken home, and lived till 2 o'clock this morning. The police have arrested six persons in connection with the affair: John McCannell, aged 23; John Powers, 20; John Best, 19; John Pratt, 17; Samuel White, 20; Geo. Goodson, 19—all of Carleton.

Grand Opening of the China Hall and Silver Bazaar

MACFARLANE WILSON.

FROM ALL OVER.

CHOLERA continues to spread in Japan. FORMER FIRES are raging in Massachusetts. AUSTRIA and Italy it is said intend subsidizing new lines of transatlantic steamers.

The prohibition amendment has been declared carried in Iowa by nearly 30,000 majority. Tax oil excitement of two years ago has been revived at Boston with greater intensity than on the previous occasion.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

The best in New York continues intense. Last week's record showed a greater number of deaths than any week for ten years past.

Rev. J. G. STEARNS writes: "I consider Perry Davis' Pain-Killer the best remedy I ever knew for Dyspepsia."

THE gifts of the late Edward B. Morgan to Wells College, at Aurora, N. Y., foot up about \$364,000.

In Jamaica the coffee and pimento crops are suffering for want of rain, but the sugar crop is the largest that has been known for many years.

Two and a half million and three million yen have been lost in the Japanese provinces of Sendai and Southern Kuman by fire and flood respectively.

D. O. JUD, Esq., U. S. postal card superintendent, Holyoke, Mass., says he has used St. Jacobs Oil with special benefit for rheumatism and neuralgia, and recommends it to his friends.

DAVITT, speaking at Antwerp on Saturday, pledged himself not to split the League upon the question of proprietary rights. He intends however, joining the Land Corporation scheme in opposition to the Landlords' Association.

A YOUNG thief, known as George Miller, was found to be a girl on being arrested at Canton, Ohio. She had for several years passed for a boy, even among the sneak thieves with whom she associated.

GRACE GREENWOOD says that Garibaldi left a sadly divided family. "The children of Anita do not harmonize well with the children of the peasant woman, Francesca, still less with the widow herself."

FELLOW'S Syrup of Hypophosphites saved the life of my wife, after her case became apparently hopeless from Tubercular Consumption. H. L. Harding, Nelsonville, O.

MR. BENJAMIN WEBSTER, the celebrated actor and manager, recently deceased, in a letter written immediately previous to his decease, claims to be a near relative of Daniel Webster.

MR. WEBSTER'S daughter is the wife of Mr. Levi Lawson, of the London Telegraph.

JOHN LAURENCE GOSBOR, an undergraduate in Durham University, England, was the other day sentenced to the Durham Asile to nine months hard labor for sending letters to the Dean of Durham with the intention of extorting money, by offering to disclose a Fiesian plot to blow up the cathedral.

THERE would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the Stomach and Bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

A COMMITTEE of persons eminent in art and archaeology has been formed in England for the purpose of resuming and completing the excavations at Ephesus, on the site of the temple of Diana, under the superintendence of Mr. J. T. Wood, who carried them on for so many years for the trustees of the British Museum.

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Stomach and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

THREE young girls were servants in Brown's eating house in Denver. They were 14, 16 and 27 years of age. Being dissatisfied with their occupation as well as with life generally, they agreed to commit suicide together, and borrowed 25 cents to buy arsenic. Two of the girls died of the poison after several hours of agony. The third was in a critical condition.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, nervous debility, inability, mental anxiety, languor, lameness, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

Narrow Escape from a Panther.

A Harvard student, William E. Nies, had a narrow escape from a panther in the Catskills a few days ago. He was stopping at a farm house near Potosville, and on the day in question was shooting in the mountains with a double barreled gun loaded with small shot. As he was eating his lunch he heard a rattle in the bushes near him but paid no attention to it. On his way home he heard the same noise and concluded that some animal was following him. He paused and presented his gun, when he saw a large panther preparing to spring upon him. He discharged the gun in the brute's face and sprang aside. The brute, blinded with the shot sprang forward, fell upon a ledge of rocks and remained stunned by the fall. The sportsman then made his escape, reaching his house breathless and safe.—Albany Argus.

We are constantly improving our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him.

"Habillment Hall."

Consequential Damages.

One of the most remarkable instances of the application of the doctrine of indirect damages is furnished by Mrs. Harriette Siddons' suit for \$2,500 against the state of Missouri. This suit is founded on the injury done her property occasioned by her house being carried off by a meal by visitors in search of mementoes of Jesse James, who died there. As Gov. Chittenden caused Jesse James to be killed, he is held to have put in motion the train of influences leading to the purloining of Mrs. Siddons' chairs and other household goods. Perhaps the lady has been reading the literature of the Alabama case, as revived by the recent discussion of the Geneva Award Bill in Congress, and has been impressed by Sumner's views on consequential damages.—New York Sun.

Personal: To Men Only!

The Volatile Belt Co., Marshall, Mich., will send Dr. Dyer's Celebrated Electro-Voluble Belt and Electric Appliances on trial for thirty days, to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

WHENCE comes the name of Rozodon? It is derived from two Greek words signifying "to preserve the teeth" and it deserves its title, for there is no preparation which will do this more rapidly, surely and pleasantly. The Consumption of Rozodon is immense.

A LONDON Druggist says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

Those affected with weak lungs, sluggish liver or Derangements of the Kidneys, should procure a package of Dr. Cassen's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

CAUTION—PRUDENCE—CARE—Beware of the medicine represented as just the same, or fully as good, as Dr. Smith's Great German Worm Remedy by dealers who sell the article that pays best, regardless of merit. Dr. Smith's Great German Worm Remedy is being endorsed by all as a pleasant, safe, reliable and prompt remedy for the removal of stomach and seat or pin worms from child or adult. It is easy to take, never fails, absolutely harmless, and restores after physic. Sold everywhere. Price 25 cts.

Will You Exchange

a case of

Dyspepsia or

Biliousness

for 75 cents?

It is actually

unwise to

agonize un-

dertheman-

arism on a

rising from

Dyspepsia,

Indigestion,

Disordered

Stomach and

Liver, when

this offer is

made to you

in your own

home in all

sincerity,

with an absolute certainty of

cure.

ZOPESA (from Brazil) cures

Dyspepsia and Biliousness. A

single dose relieves; a sample

bottle convinces; a 75 cent

bottle cures.

It acts directly upon the

Stomach, Liver, and Kidneys.

Cleansing, Correcting, Reg-

ulating, Zopesa gives energy

and vim to the Brain, Nerve,

and Muscle, simply by work-

ing wonders upon the Digest-

ion, and giving activity to

the Liver.

Out this out, take it to any

dealer in medicines, and get

at least one 75 cent bottle of

Zopesa, and tell your neighbor

how it acts. It is warranted

to cure Dyspepsia and Bil-

iousness.

Daily Evening Review

TUESDAY, AUGUST 1, 1882.

TOWN COUNCIL MEETING

A LENGTHY SESSION. MUCH TALK AND VERY LITTLE BUSINESS TRANSACTED.

The Lock's Bridge.—The opening of Rubidge street. A grant to the Band.—Smith Street Bridge to be raised.—Shall the Police Force be increased?—The Question of Hydrants.—May Cattle be Impounded.

A regular meeting of the Town Council was held on Monday evening in the Council Chamber.

PRESENT.—His Worship the Mayor, Councillors Cahill, Alford, McNaughton, Kelly, Patterson, Poussette, Wilson, Douglas, Rutherford, Menzies and Richardson.

The minutes of the previous meeting were read and confirmed.

COMMUNICATIONS.

From P. C. McGhee, asking for an assistant on the police force.—Received.

From Mr. Belcher, respecting the Smith street bridge.—Received.

From R. Hamilton, asking that the Smith street bridge be raised.—Received.

From Edmison and Wood, asking for the payment of damages to Alex. Davidson, he having broken a pane of glass through stepping into a hole in the sidewalk.—Finance Committee.

From Edg. Pearce, regarding the action of the County Council with reference to the swing bridge at the Locks.

From John Carnegie, Secretary of the Town Trust, asking for a levy of \$7,216.—Finance Committee.

From W. A. Morrow, Secretary of the School Board, presenting the requisition of the School Board for a levy of \$7,216 for school purposes.—Finance Committee.

From H. E. Wood and others, asking for improvements on London street.—Street and Bridge Committee.

From sixty-one ratepayers, asking to have Rubidge street opened from McDonnell street to London street.—Received.

From W. H. Robertson and others, asking for street improvements.—Street and Bridge Committee.

From B. Hudson, asking for street improvements.—Street and Bridge Committee.

From A. D. Faucher, asking for a license for a billiard table.—License Committee.

From J. Billington, Secretary of the Fire Brigade Band, asking to be allowed to sell the old instruments, and for a grant of \$300 towards the purchase of new ones, the new ones to be the property of the town.—Received.

ACCOUNTS.

The following accounts were read and referred to the Finance Committee, with the exception of that of G. A. Cox for insurance on the Smith street bridge, which was ordered to be paid:—

Henry Best	\$ 7
Toker & Co., printing for six months	45 47
J. Hartman	1 45
A. Hall	1 58
G. Statham	2 30
E. B. Edwards	22 56
Gas Company	12 00
G. A. Cox	7 50
E. C. Hill	5 50
G. A. Cox, insurance	30 00

THE LOCKS BRIDGE.

Mr. BELCHER was heard in reference to the swing bridge at the Locks. He said the bridge had been put in a temporary state of repair, but there was urgent need of a new swing bridge. The cost of an iron one would be from \$2,500 to \$3,000. A wooden one would not cost much less and would require constant attention and repairing. He did not think the bridge would be safe to remain till spring.

Councillor McNAUGHTON asked how long it was since the bridge had been built.

Councillor Poussette said the Council had adopted a resolution to put up an iron swing bridge, and they could not very well go back on it. It was desirable in the interests of the town to have a bridge at that place, and an iron bridge would be much better than a wooden one and would not cost over 25 per cent. more. He moved, seconded by Councillor RICHARDSON, that the action of the County Council with regard to the swing bridge at the Locks be approved; that an iron swing bridge be built accordingly under the direction of the Joint Committee of the Town and County Councils; that half the cost of the said bridge be paid by the town, and that this resolution be sealed with the corporate seal to give it the effect of a by-law.

Councillor McNAUGHTON raised the point in order that the motion required notice.

The Mayor said the matter had been before the Council before.

Councillor RICHARDSON said the engineer had examined the bridge and strongly condemned it, and he therefore seconded the motion. An iron bridge would be the cheaper one in the end.

Councillor RUTHERFORD said that as heavy loads were continually passing over it, something more lasting than wood was required.

The motion was carried.

GRANT TO THE BAND.

Mr. MILLAR, bandmaster, was heard. He said that the object of the band in making the instruments the property of the town was this, that the instruments had been purchased by private subscriptions, and men leaving the town had given them considerable trouble to collect them. If they belonged to the town they could be recovered by legal process. New instruments were greatly needed for the band, and he had already raised \$180 for that purpose by subscriptions.

It was moved by Councillor RUTHERFORD, seconded by Councillor MENZIES, that the petition be referred to the Finance Committee with power to act.

It was moved in amendment by Councillor Poussette, seconded by Councillor ALFORD, that the prayer of the petition be granted.

Councillor CAHILL said the band would not suffer by referring the matter to the committee. Councillor RUTHERFORD said that if the band now they were urgently in need of new instruments they should have approached the Council before. He was anxious to see the band sustained, but he wished to see it done in a proper manner.

Councillor Poussette said that the money would be well expended in giving it to the band. They entertained all our citizens, and were a credit to the town. The instruments had to be procured in England and it would take some time to get them here, and that was why they wished no delay in the Council. The instruments would be the property of the town and they could control them.

Councillor RICHARDSON thought the Council had property enough to look after without musical instruments.

Councillor Poussette moved, seconded by Councillor PATTERSON, that the sum of \$200 be granted for the purpose of aiding in the purchase of band instruments for the Fire Brigade Band, it being understood and agreed that the said instruments when purchased shall be the absolute property of the corporation; that the bandmaster be the custodian of the said instruments and accountable to the corporation therefor, and that such custodian shall at any time, when required by the Mayor, deliver the said instruments to the corporation.

After further discussion the petition was referred to the Finance Committee with power to act.

MR. BELL'S PIGEON-HOLE TABLE.

Councillor RUTHERFORD read the report of the License Committee, which was as follows:—

To the Mayor and Council of the Town of Peterborough.

GENTLEMEN.—Your committee beg leave to report that in the matter of the petition of W. Bell, your committee recommended that the Clerk be authorized to communicate with the proper authorities at Toronto, as to whether the License Commissioners have the power to refuse to grant a liquor license on the ground of the applicant having already obtained a license from the corporation to open a pigeon-hole table.

All of which is respectfully submitted.

A. RUTHERFORD,
Chairman.

Councillor RUTHERFORD said the Chairman of the License Commission had been spoken to, and he had confirmed Mr. Bell's statement that the license was refused on account of the pigeon-hole table. It was time to know who controlled the license.

Councillor CAHILL moved in amendment, seconded by Councillor ALFORD, that a pro rata amount of the money paid by Mr. Bell for the pigeon-hole table license be referred to him on his delivering the license to the Town Clerk, and that the Clerk be authorized to communicate with the proper authorities at Toronto to ascertain the power of the License Commissioners in the matter.

Councillor DOUGLAS said it was no use for the Council to do anything with license tables. The Commissioners could undo what the Council had done.

Councillor RICHARDSON said the Commissioners took the view that a pigeon-hole table and liquor were two bad things together, and they would not give a liquor license while the table remained. Mr. Bell gave up the table and took the liquor license, and the Council had no right to give back the money.

Councillor Poussette said the law as to the powers of the License Commissioners was unsettled, and nothing would be gained by sending to Toronto. Councillor RUTHERFORD said that it would be a bad precedent to refer to the Town Clerk, and that the Clerk be authorized to communicate with the proper authorities at Toronto to ascertain the power of the License Commissioners in the matter.

Councillor DOUGLAS said it was no use for the Council to do anything with license tables. The Commissioners could undo what the Council had done.

Councillor DOUGLAS said it was no use for the Council to do anything with license tables. The Commissioners could undo what the Council had done.

street be enclosed with a fence with a gate on each end and that it be used as a park.

Mr. BRADBURN was heard by the Council and said he was willing to pay for the street and to leave the value of it to arbitration, or he would give the south sixty-six feet in lieu of it, which could be made into a very nice park. If these propositions were not accepted, he would be willing to adopt Mr. Richardson's suggestion and would pay a portion of the cost of beautifying the grounds.

Mr. R. WEIR was heard, and said that before Mr. Bradburn had owned the property the people had used this street as a sort of park, but now they were deterred from this privilege. A petition had been sent in to the Council before Mr. Bradburn built there, but he built in the face of the petition. He contended that it would add to the value of the property behind this street if it were opened, and it would be much more convenient for those living there. The ratepayers were willing to grade the street if it were opened. They bought their property expecting to have this street opened, and it was their right that it should be done.

Councillor MENZIES moved, seconded by Councillor RICHARDSON, that the matter of the street used by Mr. Bradburn be left to the following Committee, viz., Councillors Richardson, Rutherford, Wilson, Douglas, Cahill and Patterson, they to report at the next meeting of this Council as to whether it can be sold, leased or opened up, or formed into a park for the public generally.

Councillor CAHILL moved an amendment to the effect that that portion of the street be set apart as a public park, but the motion fell through for want of a second.

Mr. E. BURNHAM was heard, and said on general principle, all streets should be opened, and the ratepayers could compel the Council to open this one.

The amendment was then put and lost, as was also the main motion.

POLICE ASSISTANCE.

The Council took up the Police Constable's communication asking for assistance.

Councillor PATTERSON moved that the Committee on appointments be empowered to employ four men on duty to daylight, and especially on Sundays.

Councillor RUTHERFORD favoured appointing one additional policeman permanently.

Some further discussion took place.

Councillor RUTHERFORD moved in amendment, seconded by Councillor MENZIES, that the matter of appointing special constables, be referred to the Committee on appointments with power to act.—Carried.

THE HYDRANTS.

Councillor PATTERSON moved that a certain number of hydrants, say twenty, be taken for fire protection inside the fire limits, and that the Fire, Water and Gas Committee locate the position of the hydrants.

Councillor McNAUGHTON said that if the hydrants were ordered they would have to be paid for by a general tax, not by a local tax as required by the By-law. He wished to encourage the Company, as they deserved credit, but he wanted to stick to the terms of the By-law.

Councillor MENZIES said the By-law required that the ratepayers should petition to have hydrants placed where they wanted them.

Councillor Poussette would like to aid the Company to the extent of the motion, but they could not consistently do it.

Mr. HAYMOND moved a resolution would not aid the Company, as it did not conform to the status or the By-law, and the company wanted nothing contrary to the By-law. They had a printed petition in conformity with the By-law, which they wanted signed and on it the Council could act.

Councillor PATTERSON said that the Council should take some steps to have the petition for hydrants signed. He suggested that Mr. Beavie be employed to go around with the petitions, but this suggestion did not appear to be favourably received.

Mr. E. BURNHAM was heard, and said that if what Mr. Hatton said was all the Company asked, he was satisfied. It was time enough for the Council to take action when petitions were presented in accordance with the By-law.

Councillor RUTHERFORD said that at the public meeting held last year the ratepayers were all very anxious to have the waterworks, and were even willing then to be taxed to protect the business portion of the town. The meeting and the Council had passed resolutions, upon the strength of which the Waterworks Company had gone on with the works, and were constructing one of the very best systems of waterworks known. It was someone's duty to see to the matter of the hydrants, as some action should be taken at once.

Councillor CAHILL said that when the central portion of the town had hydrants, they would still have to pay their share of the general fire department. He suggested that those who have protection from fire by hydrants be required to pay only half the cost, so as to equalize the fire expenses all around. Our fire protection was at present, he said, a very poor one, as the engine was almost played out.

Councillor PATTERSON said that Councillor Cahill's suggestion was unfortunately contrary to law.

The motion was withdrawn.

Councillor Poussette moved, seconded by Councillor KILLY, that it is expedient to absolutely prohibit the running at large of all cattle, horses, swine, sheep and geese, and that an officer be appointed to enforce the carrying out of the By-law to be passed with the object of such prohibition.—Carried.

Councillor McNAUGHTON called for the year and says, which the Mayor ruled that he was entitled to, but the councillor still continued to speak, the members left their seats and the Council broke up for want of a quorum.

THE BUSY END

Of our store is found in every part of it—in every department, and on all sides of it.

We are not disposed to say as much about it as are our customers, who remark the activity in every direction of what they compliment a well-ordered business.

All details of our trade have responsible supervision, and everything connected with each department is being, if possible, more carefully looked after than heretofore.

IN THE EXISTING

Circumstances of the increased cost of living, everybody who wishes to be economical should ask themselves where and how they can spend their money to the best advantage?

A great many people have the habit of dealing in certain stores and buying large quantities of goods, and paying for them too, without ever asking themselves, "Could I have done any better elsewhere?"

If they would only take a little trouble and look around and call on us, they would be generally surprised in a six months how much to their advantage it is to trade with us.

EQUALLY SO

In all particulars it is with the stranger or transient visitor, whether great or small, whose custom is as much a matter of consideration to us as those of long standing.

Hence as far as our business obligations on you, all are on the same basis, and equally recipient of our best work. And everything we have shall equal the expectation of those who pay their money for it.

Daily Evening Review

WEDNESDAY, AUGUST 2, 1882.

THE COSTIGAN RESOLUTIONS.

THE text of the reply of the Imperial Cabinet on the Canadian address in relation to Ireland is now published. We have no doubt that Her Majesty, as the Secretary for the Colonies says, will in this case, as in others, have regard to the advice of the Imperial Parliament and Ministry, but this constitutional practice does not, as we have already pointed out, preclude us, in common with other British subjects or bodies of subjects, from endeavouring to influence and mould that advice by a respectful petition or address. That is a privilege of all British subjects, and we shall continue to exercise it when we see fit.

We are told by Lord Kimberley that "Her Majesty will always gladly receive the advice of the Parliament of Canada on all matters relating to the Dominion and the administration of its affairs." We are as fully convinced of this as the noble Earl can be, but he ignores the fact that this very question is one most especially relating to "the Dominion and the administration of its affairs." We all remember the Fenian raids upon the Dominion with their attendant cost and inconvenience, and we know that it is not altogether out of the question that we may be put to future expense and trouble in the same manner. Now it is universally admitted that the Irishmen in the States have no quarrel with Canada, as a Dominion, and that their only object was to embarrass the British Empire. As long as they have a grievance against the Imperial Parliament and Government they may deem it advisable to repeat this manoeuvre at our expense though from no hostility to us.

Now the Parliament of Canada can do nothing by legislation to remedy this state of affairs, for the quarrel is not with us. They can only move the Imperial Parliament and Ministry, with whom the quarrel does exist, to undertake such legislation as will remove the grievance and relieve us from a liability in regard to which we have no responsibility. If this is not a matter relating to the Dominion it would be hard to find one.

In this connection it may be pointed out that Mr. Gladstone and his colleagues in his former administration, were responsible for our obtaining no redress from the United States Government for its connivance in these raids. With culpable indifference to the interests of Canada, which is one of the notes of British Liberalism, they assented to the preliminary condition of the United States, so limiting the terms by which various matters were referred to the Joint High Commissioners sitting at Washington as to exclude any consideration of the Fenian Raids. Sir John Macdonald, for not urging compensation for the Fenian Raids, is sometimes blamed by those who are too ignorant of the matter to be aware that he might as well have urged compensation for matters before the Declaration of Independence, for both were equally excluded from consideration, being withheld from the Joint High Commissioners by the special agreement of Great Britain and the United States.

It is Mr. Gladstone, the statesman, who cannot manage the United Kingdom, and who neglected a favorable opportunity for securing us redress, and has thereby left us open to further hostile attempts, from whom we are receiving a request not to interfere in these matters. In spite of his protest we shall hold ourselves at liberty to tender him advice whenever we think it needful, though with little hope of its having any good effect.

AN ANNEXATION ADVOCATE.

The Toronto Telegram says:—"Many of the disciples and admirers of the late Richard Cobden will no doubt have been surprised to see by a recent article in the Nineteenth Century that one of the dreams of the great free trader was the union of the Anglo-Saxon race in America in a grand continental republic. This of course means the absorption of Canada by the United States. The realization of this idea was to be brought about by the friendly concession of England, as well as the consent of the parties of the union. Had the Cobdenites of Canada adopted the ideas of the great apostle of free trade in regard to political questions as slavishly as they have in fiscal matters, they would be to-day strong advocates of annexation. Are we to assume that one who is held to be infallible in fiscal affairs is altogether shield when he enters the larger domain of politics?"

at "Habiliment Hall."

A PRINCESS OF ROMANCE.

Strange life-story of the Widow of the Last
Elector of Hesse.

Of the strange life-story that may be gleaned from that portion of the "Almanach de Gotha," dealing with dynastic and personal facts, few are more romantic than that which has just been concluded by the demise of Gertrude von Hesse, the widow of the late Elector of Hesse. Her titular description, taken from the German Civil-stands-register, or official obituary record, is in itself the skeleton of a three-volume novel. It runs as follows:—"Gertrude, Princess of Hesse, Countess of Schaumburg, nee Falkenstein, divorcée Lehmann."

This interesting personage, who died a few days ago at Prague, in her seventy-seventh year, was the daughter of a well-to-do wine merchant established at Bonn about the commencement of the present century. Endowed by nature with extraordinary personal attractions, she had several offers of marriage whilst yet in her teens and bestowed her hand, some fifty-eight years ago, upon a Prussian paymaster called Lehmann, then serving in the 7th Lancers, a regiment quartered at Marienwerder, in West Prussia. Shortly after her union to this person, she paid a visit to her parents in her native town, and during her stay with them made the acquaintance of Frederick William, Electoral Prince of Hesse and a captain of Prussian Cavalry in garrison at Bonn. The young officer who had quitted his father's court in consequence of a quarrel with the reigning Elector's mistress, Countess Reichenbach, and was, oddly enough, notorious for his disapproval of princely peccadilloes, fell desperately in love with "Miss Captain Lehmann," and soon proposed to make practical recantation of his high principles in her favour by carrying her off from her husband. The fair Gertrude, however, promptly gave him to understand that her views were exclusively matrimonial. She was, indeed, already a wife, but well aware that, when the happiness of a German man her apparent is at stake, "fly a doe accommodate avec le ciel," she suggested to the serene Highness that her husband, Lehmann, was a sensible and manageable fellow, open to reasons of a certain sort, and that in all probability a little judicious persuasion would convince him of the expediency of parting with his handsome spouse—for a consideration. Negotiations were opened between the husbands in case and in posse, resulting in a hard cash transaction, whereby Lehmann became the happy possessor of £15,000 sterling. Having pocketed this comfortable little competence he proceeded to instantly divorce his wife against his wife upon the plea of "incompatibility of temperaments," and as soon as the decree of "Scheidung," had been pronounced, Gertrude Falkenstein, ex-Lehmann, was led to the altar by her "All-Serenist" suitor, who a few months later conferred upon her the title of Countess von Schaumburg. The wedding took place in the autumn of 1811, the year in which popular discontent with the Elector William's regime in Hesse compelled that singularly dissolute potentate to nominate his son co-regent—a step which practically amounted to his abdication in favor of Frederick William.

Franz von Schaumburg, therefore, at that time in the zenith of her beauty, was bound to wait for the position and power to which she had aspired when she resolved to part from the husband of her girlhood's choice, who by the way, had been compelled to throw up his commission in the Prussian service by his brother officers and vanished into dishonorable obscurity with the price of his infidelity. Between 1831 and 1850 Countess Schaumburg bore her husband seven sons and two daughters. Early in the latter year she was created Princess of Hesse by the Emperor of Austria. On the Elector's death in 1875 she inherited the whole of his enormous fortune, invested in state securities and railway stock, which will be divided amongst her eight surviving children, the youngest of whom is a lieutenant in the 4th Regiment of Austrian Lancers.

The Alexandria Massacre.

Mrs. Ribton, whose husband, Herbert Panmure Ribton, was murdered in Alexandria on Sunday, June 11th, wrote as follows to her friends:—"Alexandria, June 15.—They have murdered my husband, and I am alone in the world, the only friends we had being killed with him. I know not what to do. All are dying, but where are we to fly to? My poor child saw her darling father killed, and was only saved herself by the mighty arm of God, being carried into a harem where they kept her till late at night, and then brought her home to me in disguise. May God remember them in the last day. Oh! what my poor child has gone through and the blows the brutes gave her. I do not know how she is alive. I only learned yesterday that my darling was dead. I hoped against hope that he might have been taken to some hospital, and so he was; but he was thrown naked on the ground, and mutilated that no one could know him. Oh! what will the English Government have to answer for at the last day? Good bye! This may be the last line you may ever have from me. If I get to a place of safety I shall surely write. Meet me in our Saviour's kingdom.—Your heart-broken sister. A.R."

As a remedy for sea sickness, for any irritation of the stomach and bowels, for canker of the stomach and mouth, for piles and hemorrhage and for all varieties of bowel complaints, Dr. Fowler's Wild Strawberry is nature's true specific.

The firm of J. & S. McKachen, Douglas, writes us June 1st, saying: "There is not another preparation we can recommend with so much confidence as Burdock Blood Bitters, as it invariably gives the best of satisfaction." Burdock Blood Bitters cures all diseases of Blood, Liver and Kidneys.

GENERAL DEBILITY AND LIVER COMPLAINT.
R. V. Pierce, M. D., Buffalo N. Y., Dear Sir.—My wife has been taking your "Golden Medical Discovery" and "Pillars" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from Liver Complaint, Poor Stomach, and General Debility. Yours fraternally, N. E. Harmon, Pastor M. E. Church, Elmhurst, Ill.

THE CONTENTED MAN.

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$2.00 on a purchase of 50 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYSONS.
A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

**KENDALL'S SPAVIN CURE.**

The most successful remedy ever discovered, as it is certain to effect a cure in all cases. READ FACTS BELOW.

From Rev. P. N. GRANGER.

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 28th, 1880.

Dr. B. J. KENDALL & Co., Gentles:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

BOSTON, Mass., March 15th, 1880.

B. J. KENDALL & Co., Gentles:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there, I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff and goes back to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. HARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain so to remove any lameness or other weakness, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, a-t-ing mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. We recently have ever met with such unqualified success to our knowledge, for benefit as man.

Price per bottle, or six bottles for \$6. All drug stores have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Keesburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q. Wholesale Agents.

NOTES BY EDITORS.

COMPENSATORY LINES TO J. S. HENDERSON, THE CELEBRATED HORSE TRAINER, ON HIS FIRST VISIT TO PETERBOROUGH.

His bill I read, they told in language clear
The great professor would exhibit here;
New training theory he professed to show;
Quick I received that I, for one, would go.

Between the Drill Shed, wildly I did stare,
Both at the champion and that biting mare;
He then, determined, and one day of fear,
She plunging, kicking, this a wounded deer.

To bridle her some daring man would dare,
Up on the loose stall came and took her hair;
Cap he had quarters, try to touch her head;
Her heels, like lightning, almost struck the road.

Undaunted stood the bold professor still,
Well knowing that the mare must yield to his will,
With steady eye and hand, and trampling pole,
He brought her quickly under his control.

His strong to conquer, all attempts were vain,
The bold McPherson over her must reign;
Yes, up she leaped, brought a change complete,
He almost fell and gave her down the street.

Proving his theory and his training skill,
And lather changed, subdued the stubborn will,
The not by harshness, not by force;
His motto is: "Show kindness to the horse."

Are his acts cruel, I can answer "No,"
No mouth rope sawing, causing blood to flow;
True, stern and bold, but yet so gently mild,
His cruellest action would not harm a child.

He seems by nature, or some inward source,
To reach the love-spring of the vicious horse;
Their nervous fears with love he seems to blend,
Showing through master, he is still their friend.

Reason itself approves the trainer's plan;
Much more upon the temper of the man;
If he attempts to govern by brute force,
Can he expect obedience from the horse?

Throughout the States, in Canada the same,
People and press applaud McPherson's name;
All who attend him willingly confess
He can—and will—do all he does profess.

The claim that he taught here his skill proclaim,
Adding their witness to his roll of fame,
A slight teacher—that they all allow,
Long may those well-trained horses deck his brow.

WILLIAM TILFORD.

Smith, August 2, 1882.

YOUNG'S POINT.

From Our Own Correspondent.

SAW LOGS AND STEAMERS.—More inconvenient than ever has been caused this season by the saw log drives blocking up the channel from this place to Lakeside. On Wednesday afternoon last the steamer Fairy took up quite a number of passengers for Holmes' Burleigh Falls Hotel, and had quite a number of passengers on her return to Lakeside. Among the number were Messrs. W. G. Ferguson, A. Hall and A. McNeil, with their wives and families. The consequence was, they did not reach Lakeside until 12 o'clock at night, instead of 8 o'clock in the afternoon, having been stuck among a drive of logs. Really this state of things has existed long enough, and your correspondent is credibly informed that a petition has been got up at the office of Messrs. Poussette and Roger in Peterborough, to the Governor-General to have these repeated complaints rectified as soon as possible. We understand that it is to be signed by the steamboat owners and the lumbermen, who are interested in these waters. The petition sets forth that the summer the whole control of these waters are in the hands of the Dominion authorities, the better for all concerned. Wipe out the interests of the local authorities altogether, and pay them for any reasonable duties they have incurred of late years. We have had too much of this meddling between the two Governments for some years back, therefore, we must call a halt. What is petitioned for, is a passage for the steamer and another for the saw logs by erecting booms and piers.

CRADLING WHEAT.—On Monday last Mr. Thom's Kettle, in the employ of Mr. George Chalmers, cradled five acres of heavy fall wheat from 6 a. m. to 6 p. m. Beat this who can?

BAIR BUILDING.—Mr. Chalmers is having erected on one of his farms here, a large barn. Size 52x25. He was cramped for room last year, therefore he is preparing in time this season to have lots of room for grain.

DISAPPOINTED HOCKEY PICKERS.—Two large uncovered buses belonging to Peterborough passed through here about 12 o'clock on Saturday night on the Huron for Burleigh Falls. There were about 40 young men and girls, and as they met with a cool reception from Jolly Jack of the Burleigh Falls Hotel with the firm word of no admission here, at this time on Sabbath morning, they had to wend their way homeward, and distribute their live cargo the best way they could for the remainder of the night. The next time they make up to make better arrangements beforehand. The guests staying at the hotel were more than astonished at their behaviour on a Sunday morning, turning it into a day of justification. Mr. Holmes had quite a few words with one or two of the party, who, seriously ought to have known better than to attempt to disturb the guests of his hotel. He threatening to summon them before Mr. Hutton, F.M., of Peterborough on Monday morning, had a good effect, as they quietly rendered their way southward.

CAMERINO.—A young man of the name of Long, no doubt, to show off to his comrades on the drive, what a smart fellow he was at running over the side in a small canoe, came nearly losing his life. A board or two was thrown to him, and after getting a considerable toasting about, two downwards, at the bottom of the slide, he managed to get ashore, fairly exhausted. This young man could not be coaxed to again attempt such a hazardous task. When will these young fellows take a lesson?

BURLEIGH BRIDGE.—Mr. Chas. Wynn, along with a gang of men, passed through here by steamer on Monday last for Burleigh Falls for the purpose of repairing temporarily the two bridges belonging to the county. It is the intention of the County Council to replace those and other bridges with iron ones in the course of a year or two.

SHINGLE MILL.—The shingle mill which is run by W. J. Kearns is doing an immense business, and owing to the great demand for shingles Mr. Chalmers intends to sell the present machine, which only cuts 11,000 shingles per day, and purchase a new one to cut from 16,000 to 20,000 per day, which will pay all concerned, and the supply will be kept up to the demand.

SAW LOG DRIVES.—Mr. Alex. Wynn, in the employ of Mr. Geo. Chalmers, passed through here on Monday last with a drive of 25,000 saw logs, bound for the Lakeside saw mills, to get cut into merchant lumber for shipping to the other side. Mr. Hilliard has also a large drive consisting of about 40,000 pieces, bound for Blythe mills, which will be run over here on Wednesday. Mr. Foster, foreman. Mr. Irwin, of Namsu Mills, has also a large drive of saw logs in the rear, and more drives to follow.

YOUNG, middle-aged, or old men, suffering from nervous debility or kindred affections, should address, with two stamps for large treatise, World's Dispensary Medical Association, Buffalo, N. Y.

MISCELLANEOUS.

A salt bed has been discovered at Exeter. ARCHBISHOP CROKER has advised Irishmen not to emigrate.

Twelve deaths from yellow fever have occurred at Metamora since Saturday. An organized band of highway robbers are spreading terror among the residents of the suburbs of Montreal.

A WESTMINSTER farmer fell in front of his moving machine on Tuesday and received fatal injuries.

At a fire on Water and Pike streets, New York, a million dollars' worth of property was destroyed yesterday.

CAPTAIN HOOPER, of the United States Revenue cutter Corwin, has been relieved of his command for swindling transactions during his cruise in search of the Jeannette.

LEWIS G. FOLGER, Esq., 25 Elizabeth street, (Chinatown), says he was cured by St. Jacobs Oil of a very severe attack of neuralgia in twenty minutes.

HALIFAX has been visited by what is supposed to be the army worm. Places where they have passed over are now as brown as though they had passed through a week's drought.

W. H. OROCK, Druggist, of Watford, under date of June 1st, writes that "Dr. Fowler's Extract of Wild Strawberry cannot be surpassed, when all other remedies fail then it comes to the rescue, and I find the sales large and increasing." Wild Strawberry positively cures all Bowel complaints.

A WATERPOUT and heavy rain caused a disastrous flood in Ohio yesterday. Hay and other harvested crops, and many bridges and buildings were swept away. It is feared that some lives have been lost.

The freight agents at Chicago have resolved to compel shippers to pay for the loading of grain for the East on cars. As the companies have paid these charges for two years, trouble is expected between them and the shippers.

The whaler Eclipse, of Peterhead, arrived at Lerwick, on the 4th July, from North Greenland, having caught 303 bottle-nosed whales and 500 old seals, estimated to give 250 tons oil. The Eclipse is quite loaded, being the largest cargo from the Greenland fishery for many years.

A GREAT Northern railroad train, with an 8-foot single driver outside cylinder engine, lately ran from Leeds to London, 182 miles, in exactly three hours—sixty-two miles an hour.

THROUGHOUT the present month of July the stomach and bowels are very liable to become deranged. The proper preventative is Dr. Casson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the bowels kept regular and the blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Folly, druggist.

RECENTLY in giving the children an exercise the teacher of Westfield school asked them to write down instances of the evil effects of drinking and smoking. The children responded by extensive lists of persons within their own knowledge and neighborhood. A complaint was made to the Board, and the teacher has been admonished.

SCHOLARSHIP is a depraved condition of the system often hereditary, and characterized by indolent humors, glandular affections, bad blood and a low condition of vitality that tends towards consumption, which is really Scrofula of the lungs. Burdock Blood Bitters cures Scrofulous diseases from a simple to an abscess, by purifying the blood, correcting the secretions and giving a healthy tone to each organ.

The indications of the approaching season seem to threaten an unusual amount of the various forms of bowel complaints. Our readers would do well to supply themselves with some reliable remedy like Dr. Fowler's Extract of Wild Strawberry, as a safeguard against sudden attacks of Cholera, Malaria, Colic, Dysentery, &c., that unless properly treated are often suddenly fatal.

BIRD-RIGHER AND CURELL.—W. E. Huettel, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

We are constantly improving our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him. "Habilitation Hall."

Aluminium Pens

The undersigned have been appointed Sole Agents in Peterborough for the above Pens manufactured by H. JACOBS & CO., London, England.

Price \$1.50 per gross, or 20 cents per dozen.

TOKER & CO.

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commences to fade away, even if it is a severe case. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful eruptions, and always produces a clear, healthy natural complexion of the skin. "Sulpholine" Lotion is sold by all Chemists. Bottles, 2s. 6d.

SULPHOLINE LOTION.—A FLUID PREPARATION IN SKIN DISEASES.—The most potent remedy to all Skin Diseases. "Sulpholine" has been used for years before being produced, nor is there anything else in the least degree comparable for its healthy action on the human skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Starlin, and every year it is used adds more and more favourably to its widely increasing reputation. It is, however, deeply rooted in the mind of the sufferer, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the unsightly, scurfy tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT. SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE
THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEADACHE, RHEUMATISM, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. King, London. Specially valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC cures all the nervous and muscular system, improves digestion, stimulates the spirits, recruits the strength. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC restores and develops the nervous system, enriches the blood, promotes appetite, dispels languor and depression, soothes the digestive organs. It is a powerful remedy for all the ailments of the system, from every kind of blood disorder, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 2s. 6d., 4s. 6d., 8s. 6d., 12s. 6d. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.—Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of nine pills and catenals for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head ache, depression, no appetite, flatulence, disagreeable taste in the morning, giddiness, disturbances of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acid on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 6d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

NATIONAL PILLS.—PILLS FOR THE LIVER, BILIOUSNESS, AND ALL SYMPTOMS OF CONGESTION OF THE LIVER, WHICH ARE GENERALLY PAINT BENEATH THE SHOULDERS, HEAD ACHES, DEPRESSION, NO APPETITE, FLATULENCE, DISAGREEABLE TASTE IN THE MORNING, GIDDINESS, DISTURBANCES OF THE STOMACH, AND FEELING OF GENERAL DEPRESSION. It acts the sluggish liver in motion, very slightly acid on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 6d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

WEDNESDAY, AUGUST 2, 1882.

LOCAL AND MUNICIPAL.

POLICE COURT.

ASSAULT.

TUESDAY, Aug. 1.—John White was charged by P. O. McFhee with assaulting Thomas Bell on Monday evening. He pleaded guilty, and was fined \$3 and \$4.50 costs, or in default twenty days in jail.

No Quorum.

There was no meeting of the Board of Education on Tuesday night, as there was not a quorum. Mr. Stevenson and Mr. Robinson were the only members of the board who were present at 8 o'clock.

B. C. Excursion.

The Little Christian Sunday School excursion to Icy Wold on Tuesday was a success in every way. It was largely attended, and nothing transpired to interfere with the enjoyment of the excursion.

To-night.

The music hall concert for the benefit of the Fire Brigade Band on the steamer Golden-Eye this evening should not be forgotten. The band is making a commendable effort to procure new musical instruments, and should be aided and encouraged in every way. Besides, the excursion will undoubtedly be a pleasant and enjoyable one, and will in the pleasure alone repay all who attend.

A Busy Street.

The residents on Charlotte street and those who have to use that thoroughfare still complain of the dust, and that with good reason. If the watering cart was only driven over in the morning, and it was given a good watering, it would be of great benefit. Two gentlemen living on Charlotte street are willing to pay fifty cents a day and have the dust laid, and would get up a large private subscription to have it done. Some steps should be taken towards this end, and the sooner it is done the better.

Something New.

Try our really delicious Water Ice, two flavours. Our Ice Cream in four flavours has been pronounced the best in town, without doubt. A nice variety of Cakes and Pastry always on hand. Our Confectionery is also very choice. Chocolate and Coconut Creams and Cream Almonds a specialty. Every thing manufactured on the premises can be safely guaranteed as good. Give us a call and be convinced that we are not making empty boasts. Don't forget the place, one door north of Bailey Bros., Humphreys & Carter.

A Big Purchase.

Mr. G. W. Bowers has, we understand, just completed the purchase of the vacant lot opposite the Stewart House, corner of Hunter and Water streets, having a frontage of 114 feet on Hunter street and 100 feet on Water street, at the price of \$66 per foot on Hunter street, in all \$6,394. Mr. Bowers has already been offered for this property \$7,500, which is the best evidence of the confidence existing among our well informed citizens of the future prosperity of the town. It is to be hoped that Mr. Bowers will not for the present build upon this property, as it is the only vacant lot in the town suitable for a post office and other government buildings, which may fairly be expected to be built here before long, when it is noticed that other towns of no greater importance, such as Chatham, for instance, have already obtained the erection of government buildings.

China Hall.

The display at China Hall at the corner of George and Simcoe streets, where Mr. Macfarlane Wilson has just opened a large and varied stock of china, glassware, plated goods and crockery of all descriptions is very attractive. A better stand could not have been obtained for this purpose. The exceptional size of the store and its thorough lighting from three sides with the beautiful articles tastefully arrayed on separate small tables makes the general view very brilliant and attractive, leading to expectations which a more minute inspection fully bears out. The front show window with its beautiful display of silver ware is greatly admired. The selection is in excellent taste and many of the pieces are of novel design. There is a large assortment of this class of goods. The majolica is especially beautiful. Mr. Wilson seemed to be doing a rushing business from the very start, and we have no doubt that his enterprise will be properly rewarded.

DECEASED.

David Wheeler found drowned in the Glen, above Givens.

This morning it was ascertained that David Wheeler, of the Maple Leaf Tavern, in Ashburnham, was missing from his home, and that he had been drowned in the river. These rumors were confirmed at about ten o'clock, when the body was seen lying in the water above Calcutt's brewery, in the tail of Rogers' race. Mr. F. Mitchell made the horrible discovery, and as once informed Mr. Craig, the village constable of Ashburnham, who, with others, proceeded to the place, and Mr. Craig drew the body out of the water with a pike pole. The pockets were searched, and only a small amount of silver coin found in them. Dr. Bell, coroner, was informed of the circumstances, but did not think it necessary to hold an inquest, as no person was willing to take an oath that there was any grounds for a suspicion of foul play, as is required by the law. The remains were carried to the home of the unfortunate man, and laid in a room in the upper chamber of the tavern. No marks were seen on the body, except a cut on one of the eyes, which might have been caused in falling into the river or by the pole in drawing him out, but it was only a slight wound.

Mr. Wheeler was last seen about ten o'clock on Tuesday night, and nothing strange or unusual was noticed in his manner. It is supposed that he left the house sometime during the night or early morning, and making his way towards the river, either fell or leaped into the water in Rogers' race, thus putting an end to his career on earth. It is stated that at the time the young man Fitzgibbon was drowned near Buckhorn, Mr. Wheeler said he also would be found drowned some day. Whether this was a presentiment or an expression of his intention it is impossible to say.

Mr. Wheeler was an old resident of Peterborough, having been in business as an hotel keeper in Peterborough, and latterly until the time of his death, he has been engaged in the same business in the Maple Leaf Hotel in Ashburnham, and was well known in the town and vicinity.

PERSONAL.

Mr. J. B. Dundas, of Lindsay, M.P. for South Victoria, was in town to-day.

THE WEATHER.

The weather probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes, Fresh to strong; easterly winds; continued unsettled cooler weather with occasional rain.

THE MARKET.

The attendance on the market this morning was a small one, and prices remain unchanged. Butter was selling at 30 cts. per pound, eggs 17 cts. per dozen, potatoes 35 per bushel, and other produce was selling at about the same rates as on Saturday.

RETURNED HOME.

A large party of campers, organized by Mr. Edward Green, returned home from a two weeks camping expedition last night. They struck camp on Glen Island, Stony Lake, and report it to be a very pleasant locality for those wishing to spend a holiday and enjoy the fishing, berrying, etc. Large numbers are seeking the shady nooks and cool breeze of our back waters this season, not from Peterborough alone, but also from sister towns and villages.

RAILWAY NOTES.

The Globe says that the following contracts have been let on the Ontario and Quebec railway, completing the list:—Section 21, Simmons & Lewis, of Ottawa; section 22, Macdonald, of Lacade; section 23, James McMahon, St. Catharines. By the terms of the contract the work must be completed in a year's time.

The tracks along by the Midland Station are being re-ballasted and the spaces between the tracks filled in.

Six new engines will shortly be placed on the Midland Railway. One of them will be used on the Grand Junction division.

The Globe says that all the five-mile contracts on the Ontario and Quebec between Sharbot Lake and Toronto have been let. The company will build the line from Perth to the Kingston and Pembroke Railway crossing.

LAZARUS.

A lacrosse match has been arranged between the Peterborough Club and the Young Shamrocks of Montreal, to take place on the grounds of the Montreal Club on the 19th of August. The Peterborough Club also contemplates playing with the Colborne, Port Hope and Kingston Clubs, while on their return from Montreal. The Peterborough Club tried to arrange a match with the Toronto Club (first twelve) for the 14th of August, but as that club has another match arranged for that day it could not be done. The home club, however, are trying to arrange a match for the 14th with the Marlboroughs of the same city, so that a first-class lacrosse match is still likely to be one of the attractions on the Civic Holiday. The members of our club are showing plenty of spirit and courage, and we wish them all success.

REV. J. G. STEARNS writes: "I consider Perry Davis' Pain-Killer the best remedy I ever knew for Dyspepsia."

Yarrow's Syrup of Hypophosphates saved the life of my wife, after her case became apparently hopeless from Tubercular Consumption. H. L. Harding, Nelsonville, O.

WHENCE comes the name of Sosodont? It is derived from two Greek words signifying "to preserve the teeth" and it deserves its title, for there is no preparation which will do this more rapidly, surely and pleasantly. The Consumption of Sosodont is immense.

There would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the Stomach and Bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

REVIEWS.

HARPER'S MONTHLY MAGAZINE.—The August number of Harper's shows no symptoms of the approach of the "fall season," for it is quite equal to its high standard. The frontispiece of Miss Susan Southwell's charming "Some Western Recollections" is a true description of a delightful worthy of a holiday visit. Mr. T. W. Higginson in "The First American" conveys much information as to the semi-civilized red men. The "Crimes of the Nansees" makes one long for the open water. Mr. Lathrop's "Spanish Vistas" are as fascinating as ever, thanks both to engravings and letterpress. "Some Worthies of old Norwich" is pleasant reading about some world-wide celebrities. Mr. G. W. Dawson in his description of "The Haidas" illustrates another phase of aboriginal life. Mr. T. E. Pendergast gives a very satisfactory account of the "Canada Pacific Railway and the New North-west," illustrated by a good map; he, an impartial observer, does not agree with the sombre views of some unpatriotic Canadians. In "Icebergs and Fog on the Northern Atlantic," Mr. J. W. Blackford shows the advantage of separate lanes for Atlantic steamers. Mr. A. A. Lippincott discourses enthusiastically on the "Use of Shakespeare on the Stage." Mr. Black's serial novel "Shandon Belle" fully sustains its interest, and there are shorter tales and several poems of exceptional merit. The editorial miscellaneities are of the usual excellence.

FROM BELLEVILLE.

The St. Andrew's Church excursion from Belleville comes to this town to-morrow, and arrangements have been made for their reception. The Drill Shed will be open for the excursionists to make use of it, and hot and cold water will be supplied to those who wish for it.

Boys' White Shirts, Men's White and Coloured Shirts, with or without Collar, in all sizes at "Habilliment Hall."

THE BUSY END

Our store is found in every part of it—in every department, and on all sides of it.

Were not disappointed say as much about it as we are our customers, who remark the activity in every direction of what they compliment a well-ordered business. All details of our trade have responsible supervision, and everything connected with each department is being, if possible, more carefully looked after than hitherto.

IN THE EXISTING

Circumstances of the increased cost of living, everybody who wishes to be economical should ask themselves where and how they can spend their money to the best advantage?

A great many people have the habit of dealing in certain stores and buying large quantities of goods, and paying for them too, without ever asking themselves, "Could I have done any better elsewhere?" If they would only take a little trouble and look around and call on us, they would be generally surprised in a six months how much to their advantage it is to trade with us.

EQUALLY SO

In all particulars it is with the stranger or transient visitor, whether great or small, whose custom is as much a matter of consideration to us as those of long-standing. Hence as far as our business obligations can go, all are on the same basis, and equally recipient of our best work and everything we have shall equal the expectation of those who pay their money for it.

BRIDGEMOUTH HOTEL.
LOUIS G. ROBERT, Proprietor. This hotel, which is pleasantly situated at Chemung Lake, (Bridgeport), six miles from Peterborough, has been thoroughly refitted and equipped, and has every accommodation. The hotel is lighted with the very best kerosene, and the food is of the highest quality. Good music, dancing and bowling. Everything first class and change moderate.
d1977 S. A. 20000.

ST. LAWRENCE HALL, Port Hope
THE Proprietor of the above Hotel desires to inform his old friends and the public that they have fifty minutes going west, and on hour and a half going east from Peterborough for tea at Port Hope, which will always be found ready at HAND.
Port Hope, Dec. 2nd, 1879.
d1977 S. A. 20000.

THE AMERICAN HOUSE.

MICHAEL HALPIN, Proprietor, Hunter Street
Peterborough. The house has been newly finished throughout. Fine sample rooms. Good dining and sheds, and an attentive hostler in attendance.
d1977 S. A. 20000.

DR. HALLIDAY,
SUCCESSOR TO DR. R. C. BURRITT, may be found day or night at the office lately occupied by Dr. Burritt.
d1977 S. A. 20000.

General.

J. H. TEMPERTON,
ROOF SLATER, McDonnell Street, Peterborough. Estimates given for all kinds of Roof Slating. Slates are a safe-guard from fire and superior to any other kind of roofing.
d1977 S. A. 20000.

ONTARIO LADIES' COLLEGE,
Windsor, Ontario.

Will Reopen September 7, 1882.

The large and increasing patronage of this institution is the natural result of an exceedingly pleasant situation, of unrivalled buildings and grounds, of the best modern school appliances (to be strengthened next session by a powerful reinforcing telescope, a new Becker Grand Piano, and the use of a Pipe Organ), and of the earnest and enthusiastic efforts of a large and gifted faculty. Charges Moderate. Send for circular to the Principal, J. J. MARR, M. A. d1977 S. A. 20000.

THE DAILY EVENING REVIEW is printed and published every lawful evening by TOWSE & CO., at their Home Book and Job Printing House, Market Block, George Street, Peterborough.

Daily Evening Review

THURSDAY, AUGUST 3, 1882.

UPPER CANADA COLLEGE.

The Toronto Telegram has the following editorial note:

"While the discussion about Upper Canada College and its teaching staff is going on, it is worth noting that the returns just published of the results of the matriculation examinations in the University of Toronto, show that fourteen pupils from the college passed, and that three scholarships, thirteen first-class honors, and five second-class honors were taken by pupils from the same institution. When the vigorous competition and the greatly increased efficiency of the numerous other schools are taken into account, this would seem to be a very fair proportion for the college. These have recently been some talk about superannuating some of the old staff, but surely the present composition of the position is, according to the above post, a very good one."

It may be very true that the Upper Canada College is doing well enough, but we object to its doing so at the expense of the whole province, when it is in reality only a High School for Toronto. But as if this were not sufficient, Mr. Crooks with his irrepressible habit of meddling and muddling in educational matters, must unnecessarily add to the expense to which we are put, by superannuating an effective staff that he may have another opportunity of making appointments which, to judge by the past, are likely to be unsatisfactory. It would be a good thing for the country if it were relieved from the burden imposed by the Upper Canada College and Mr. Crooks.

BURNING COLUMBIA WREATH.

An Island Farmer Takes the Gold Medal at the Paris Exhibition.

Amid the exciting news of the capture of Alexandria and the "buzz" of political aspirants, it will doubtless be of interest to our readers to learn of the success of one of our pioneer agriculturists. It seems that Mr. Robert Brown, of South Saanich, responded to the invitation given in 1878 by the Canadian Commission of the Paris World's Exposition, by sending a sample of wheat grown by him, and last week he had the pleasure of receiving a certificate from the Minister of Agriculture of Canada, stating that a gold medal had been awarded to him for the best article in that fine exhibition. This is not only creditable to Mr. Brown's presence in industry and pride in his adopted home, but is an honor to this district and the province. The sample sent was from a field of twenty acres that averaged 45 bushels to the acre. Now that an example has been set, we may confidently look forward to many similar honors being achieved by the tillers of our land. We have the highest soil, and the products only need to be seen to be appreciated abroad. All credit to Farmer Brown in Victoria Colonist.

THE CASE OF THE KIDNAPERS.

A Verdict of the Magistrate Returned Against Cooper and Ashley.

The tedious and protracted inquest touching the death of the young man Wm. Long on the night of July 19th has, was concluded on Tuesday night, by the jury returning a verdict of murder by Cooper and Ashley. The jury after an hour's deliberation returned a verdict of manslaughter against Cooper and Ashley, and Wm. Ashley, two of the young men now in custody. James Ferguson and Hugh Kelly were discharged, as there was no evidence against them. The hat worn by deceased on the night of the fatal assault was produced and identified by the brother of the latter. It was found on the night of August 1st at the Kingston road by Mr. McPherson. It was lying beside another hat which was claimed by Cooper, showing that deceased and Cooper must have been in a scuffle at or near the corner. The evidence of Hugh Wise was severely criticized by the coroner, who said that it was far from credible for Mr. Wise to testify that he had seen Cooper strike that night and heard a pistol shot over a fence—the fence at deceased's house—to get over there, see three men struggling, tell the coroner that he did not recognize any of the parties among the prisoners. Charles Phillips testified that he also went over the fence shortly after Wise did. He recognized Cooper and Ashley as the parties who were evidently quarrelling with deceased in the garden. He saw them get over the fence and afterwards walk up with him and Wise to the Kingston road, where the hats were found. Cooper had claimed his hat and witness took the other one—which afterwards turned out to belong to deceased—with him. The evidence against Cooper and Ashley as to their being in deceased's yard at the time of the alleged assault was very straight.

Cooper and Ashley were committed by the coroner for trial at the next session. — World.

Just received a full range of Genuine Tweed Waterproof Coats at "Habiliment Hall."

THE CANADIAN PEOPLE.

The Colored People of Canada Celebrate Emancipation Day.

On August 1st the colored people did not allow the stormy condition of the morning to keep them from celebrating this day, so popular among the colored race of America. From the country north and south of Ontario they poured in during the hours of the forenoon, and the eastern bound express brought a large number from Detroit, Chicago, Ill.; Louisville, Ky.; and the states of Alabama, Ohio and other States. The place of rendezvous was the drill shed, kindly proffered the committee by Lieutenant-Colonel Barker, of the 11th Battalion, where a sumptuous meal was provided. There were two processions, both from the Great Western railway depot to the drill shed, one in the morning on the arrival of the train from the west, and the other in the afternoon on the arrival of those from Toronto and Hamilton. The latter procession was very large, comprising 8 bands and 3 Oddfellows lodges in full regalia. The banners and quills of the Oddfellows were much admired along the route. After dinner, the crowd, numbering about three thousand, took itself to various kinds of amusements, and a little later in the afternoon the people were called together to hear the speeches of the day. The chair was occupied by the Rev. Mr. Scott, and Mr. Isaac Holden, prominent among his people and a prominent citizen of Ontario, was called to the platform, from which he delivered a stirring and encouraging address on the philanthropy of Wilberforce and his contemporaries who founded the first towns of freedom for eight hundred thousand slaves. He also dwelt with considerable spirit on the great emancipation in America which broke under the manacles of four hundred human beings. He closed his address by urging his people to make the best of themselves and lose no opportunity to cultivate all the humanities that their race might prove they were worthy the freedom given them. Mr. Hamilton, of Ohio, followed and gave a stirring speech. The citizens of Chatham, irrespective of color, turned out to honor the celebration. The mayor and council accepted an invitation to attend and they were in Tecumseh park during the afternoon. A more orderly celebration was never held in Chatham. The committee of management are superintending a grand banquet and ball in the evening at the night.

EXTRAORDINARY SHOOTING MATCH.

In Which a Police Magistrate and his Son Were Engaged.

FREDERICTON, N. B., July 31.—At 4 o'clock this morning four persons went down to the residence of Police Magistrate Geo. Street, and broke in from his chamber by knocking on the front door, and informing him that a sergeant of police had been shot, and that he was wanted right away at the police office. A pistol shot was then fired at him through the side light of the hall door. The ball struck the stair banister, near which the Police Magistrate was standing. He immediately seized a revolver, and ran to the front window, firing five shots at them, but did not hit them. They then proceeded up George street along Regent street to the corner of Charlotte, where a wagon was in waiting for them, in which they drove off down Charlotte street.

Sergeant Vandine, in company with the police and several special constables, went to the residence of George Lee, Westmoreland street, this afternoon, for the purpose of arresting Newton Lee, George M. Lee, and Theo. Virgo, for firing at the residence of Sergeant Vandine on Friday morning last with intent to do bodily harm. Sergeant Vandine entered the barn in the rear of the house, and while in the act of ascending the loft was fired at by some one in the barn. The whole charge of buckshot entered his arm. He immediately gave the alarm, and the barn was surrounded by the police, who kept up a rapid fire on him till Charlotte street was reached, where he sought refuge in a back bedroom in John Garrity's house, and was arrested there by ex-Sergeant Woodward and Philomena Phillips, who conveyed him to the police station. On being searched a quantity of shot and cartridges was found on his person. His nephew, Geo. M. Lee, was discovered some time after under a barn lying down along some manure with the pigs. On his way to the police station he dropped a revolver. He had a quantity of cartridges about his person when searched. The third man, Virgo, has not yet been seen taken, although the police and a number of the citizens are making their efforts to find him.

INQUEST IN THE BARN.

An Old Gentleman Miraculously Escapes Death—Seriously Injured, However.

For some time workmen have been engaged in filling up the gully which lies between the K. & P. R. R. tracks, near their new workshop. The earth was drawn from Farwell's field adjoining. Amongst the carters employed at this work was Mr. William Sheridan, aged 70 years. The men had dug for clay, working underneath a bank of earth some twelve feet high. The clay was scooped out, leaving an overhanging ledge, some four or five feet in thickness and proceeding back for quite a distance. Shortly before noon Mr. Sheridan backed in his cart for the purpose of having it filled. He was sitting on the front of the vehicle near the horse, and just as he got below the bank, it fell, burying the old gentleman right in his cart, crushing him down by a weight of some hundreds of pounds. The impression was that death would follow, but willing hands made the earth fly off in a few moments. Sheridan's head was uncovered, and it was found that his life had been miraculously spared. He was wounded severely, however. There was a very bad cut upon his forehead, from which the blood flowed freely. He was dug out as soon as possible and carried to a safe place where he was laid. Dr. P. M. Fenwick, who had been summoned in the meantime, arrived promptly on time and arranged for the removal of the injured man to his son's residence on Wellington street. Here he was carried on two boards, improvised as a stretcher. Later the doctor made an examination and found a dislocation and fracture of the great femur, the upper third; dislocation of the right humerus; a large cut on the forehead, and numerous bruises. Chloroform was administered while the dislocations were being reduced and the wound on the head stitched. It is questionable whether the injured man can recover. The accident was the result of carelessness. The workmen preferred to risk their lives by digging underneath the bank rather than going to the top and pitching the dirt into the carts. — Mail.

PARLOR.—Get your mouth full by using TRASKER, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent samples.

Circus to be Held.

MONTREAL, Aug. 1.—Robinson & Ryan plan to hold a circus here. It was wound up by the circus and the manager, Mr. Weather, is now holding a gallery full carrying 500 people, and sharpers sold a large quantity of bogus tickets. To-day the hall has gone to St. Hyacinthe to give "the entire thing," as he expressed it to a party claiming 5000.

The Voltaic Belt Co., Marshall, Mich.

will send Dr. Dry's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

In England the other day, a respectable young man, who had never before been convicted of swag-doing, was sent to goal for five weeks by a justice in Ashford for stealing five eggs.

HALL'S Ointment Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

Will sell by auction, on the above date, a number of valuable and desirable BUILDING SITES, situated in the Township of Northumberland, near the Midland Railway, intending purchasers can take the morning train from Toronto, Port Hope, Peterborough, Lindsay, and other stations. Tickets for the excursion will be issued at the actual rate of fare, and will be valid for the excursion on Thursday, the 10th. Plans and description of lots to be sold can be seen at the office of the Company, Port Hope, and at

H. A. WARD, Secretary. A. HUGEL, President.

THE CONTENTED MAN,
Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$3.00 on a purchase of 50 lb.

Prove it by inspecting my stock of JAPANESE AND YOUNG HUSBANDS.

A leading line of sweet and good growing JAPAN offering at 50 cents, formerly sold at 45 cents.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not hurt. READ PROOF BELOW.

From Rev. P. N. GRANGER,

At-Home of the Rev. P. N. Granger.

Dr. B. J. Kendall & Co., Toronto:—In reply to your letter I will say that I have been cured of my Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. I had been suffering from it for some time, and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a spavin was troubling me, I procured a bottle of Kendall's Spavin Cure, and with less than a month's use, he is as good as new, and I have not seen or felt this is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Respectfully yours, P. N. GRANGER.

Kendall's Spavin Cure is a powerful and penetrating agent, and is able to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, windgalls, corns, greasy swellings, and lameness, and all enlargements of the joints or limbs, by the application of this cure, and for any purpose for which a medicine is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

SOMETHING TO KNOW.

The Way in Which to Substantiate Persons Supposed to be Drunk.

The State Board of Health has issued from Sacramento a circular respecting the substantiation of persons supposed to be drunk, of which the following is a copy:

The cause for deep-water, especially on bathing being at hand, the State Board of Health issues the following advice and directions which may be profitably adopted in case of accident by drowning. They are simple, always available, require no delay, and can be effectively practiced by any intelligent person until medical aid can be obtained. Many lives are annually lost by drowning through ignorance on the part of bystanders of the proper method of resuscitation, and many sacrificed by the use of inefficient and improper means. The plan of treatment is the "Direct Method" suggested by Dr. Howard and adopted by the New York Life Saving Institution.

1. Instantly turn the patient downward, with a large firm roll of clothing under his stomach, and chest. Place one of his wrists on arms under his forehead, so as to keep his mouth off the ground. Press with all your weight, or with a force proportioned to the age of the patient, two or three times, for four or five seconds each time, upon the patient's back below the shoulder blades, so that the water may be pressed out of the lungs and stomach and drained freely out of the mouth.

2. Quickly turn the patient, face upward, with the roll of clothing under his back, just below the shoulder blades, so as to make the head hang back as low as possible. Place the patient's hands above his head, where they may be secured by a handkerchief or cord. Kneel with the patient between your knees, and fix your elbows firmly against your hips. Now, grasping the lower part of the patient's arched chest, spread his two sides together, pressing gradually forward with all your weight for about three seconds, until your face is nearly over the face of the patient. Then with a push suddenly lift yourself back. Repeat about three seconds; then again, repeating these motions blowing movements about eight or ten times a minute, for at least ten hours, or until the patient breathes naturally. If these efforts make no improvement, and the patient is found to be dead, and the water is in the lungs and pure air drawn in.

The above directions must be used on the spot the first instant the patient is taken from water. Loss of time. A moment's delay and success may be hopeless. Observe that neither apparent death nor much delay in the appearance of the signs of life afford just grounds for despair. Persistence is often rewarded by success, even after an apparently hopeless prolongation of insensibility. Act promptly and steadily, following closely the rules given. Fresh air is essential. Should the patient commence to breathe, be cautious not to interrupt the fresh neutral breath. If they be long apart, carefully continue between them the bellows-blowing movement as before. After breathing is regular, let the patient be rubbed dry and wrapped in warm blankets. As soon as the patient can certainly swallow, a little warm spirit and water may be given. Be cautious not to drink too much, or to eat, and regulate his course accordingly.

REMARKS.

From Our Own Correspondent.

WEATHER NOTES.—July now past has been on the whole a very favourable month, the temperature having been mostly of a medium nature, never falling lower than 45° on the morning of the 22nd, nor rising higher than 75° on the evening of the 25th and 26th, and 80° at one o'clock in the shade on the 29th, with a mean temperature at sun rise and set of 60°, while the corresponding average of July, 1891, was 65-71-81°. Rain fell on 18 days to the depth of 2.01 inches, while in 1891, rain fell on 18 days, Thunder storms occurred on six days with heavy rains in some localities, although here we have had no severe storms to report.

HARVEST PROSPECTS.—The crops have progressed very rapidly during the last month, owing to the continued gentle rains and the showers falling here on the 27th. These promises to be a fine crop of peas and oats, but some fields of white Russian wheat are badly rusted. Rye is not a promising crop, so far, owing to the lateness of sowing. The potatoes have a fine appearance with the prospect of more than an average crop, but the bugs have not been so bad for some years. Hay is almost secured now; timothy a fair crop but of clover scarcely any; the whole will be about ninety per cent of an average crop. The first barley was cut on the 25th and the first fall wheat on the 29th, being from eight to ten days later than usual.

HASTINGS.

BARY BURNED.—The Star says that during the thunder storm last Thursday evening the barn of Mr. George Lippert, residing a short distance from Norwood, was struck by lightning and burned to the ground.

BUILDING OPERATIONS.—The sound of the trowel, and the cry of "mort" is now heard from the new hotels in the course of erection, Mr. McNamara, of Peterborough, has the job of the brick work of both buildings and is rushing things.

MILITARY.—The arms, accoutrements and clothing, to replace those destroyed at the late fire, are expected to arrive during the week. It is very doubtful whether the equipment will be as complete as before, as very few, if any, battalions in the Dominion (thanks to Col. R. Gage) were as thoroughly equipped as the 57th. The members of this company will be notified on arrival of the stores, and as there are some funds in hand to be expended in target practice arrangements to that effect will then be made.

PORT HOPE.

ODD FELLOWS' DEcoration DAY.—The Odd-fellows of this town had their annual decoration ceremonies on Tuesday. A capital programme had been prepared and there was a large turnout at the cemetery, but just as they were commencing the rain had been threatening all day began to fall, thus interfering with the programme of the day.

We are constantly improving our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him. "Habillment Hall."

A MARRIAGE at Cobh, Wis., was between a widow aged 72, and her adopted son, aged 23. Her first husband had on his death bed advised the match, as a means of preventing the raising of certain legal questions regarding his estate.

CHARLES MOSEY was recently sent to Joliet penitentiary for five years as a desperate burglar. He swore not to serve out his time, and at a post-mortem examination of his body it transpired that, in order to keep his oath, he had eaten the phosphorus from a large number of lucifer matches.

The total number of journals published in France is 3,272, being 1,245 in Paris and 1,990 in the provinces. Of the former it is surprising to find that the most numerous class is financial (308), then medical (97), illustrated (88), fiction (81), political (71), law (64), Catholic (64), science (41), literature (30), and art (16).

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

A FIRE broke out in the ocean steamship Goleet while on her passage to Plymouth from New York. Owing to the admirable conduct of the captain and the crew, the flames were subdued after a hard fight, and the vessel proceeded on her voyage and reached port in safety.

THROUGHOUT the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Bowel Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation palmed upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, lagged, loss of energy, of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

"This book will fill a gap which is to be regretted has too long remained unfiled. We congratulate Dr. Sproule on his effort to supply the public with a concise and practical work on the subject."—Glasgow Lancet.

A work for the general public, giving plain and practical rules for the maintenance of health and prevention of disease. Sold by Booksellers. Price Sixty Cents.

WILL YOU EXCHANGE
a case of
Dyspepsia or
Biliousness
for 75 cents?
It is actually
unwise to
agonize under
dermatomy
ailments
arising from
Dyspepsia,
Indigestion,
Disordered
Stomach and
Liver, when
this offer is
made to you
in your own
home in all
sincerity,
with an absolute certainty
of curing you.

ZOPESA (from Brazil) cures
Dyspepsia and Biliousness. A
single dose relieves; a sample
bottle convinces; a 75 cent
bottle cures.

It acts directly upon the
Stomach, Liver, and Kidneys.
Clears, corrects, restores
the liver, Zopesa gives energy
and life to the brain, nerve,
and muscle, simply by work-
ing wonders upon the Digestion,
and giving activity to
the Liver.

Cut this out, take it to any
dealer in medicines, and get
at least one 75 cent bottle of
Zopesa, and tell your neighbor
how it acts. It is warranted
to cure Dyspepsia and Biliousness.

TOKER & CO.

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURING SKIN DISEASE.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin diseases, that have defied the skill of years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 6d.

SULPHOLINE LOTION, a FLUID penicillin in itself, is the most potent remedy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its healthy action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Martin, and every year it is used adds more and more favorably to its steadily increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent as a diminished appearance of the material, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NABBY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE
LIVER PILLS (without sugar).
THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, BRUISED, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent physicians to be the safest and mildest pills for every constitution. In Boxes of 1s. 1/2, 2s. 6d., and 5s. 6d. Sold by Chemists and Druggists throughout the world. Prepared by J. A. BARKER, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC
strengthens the nervous and muscular system, improves digestion, animates the spirits, restores the appetite. For debilitated health from the effects of lost vitality this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC
rouses and develops the nervous system, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neurasthenia, anorexia, indigestion, nervousness, biliousness, and all symptoms of disordered liver and dyspepsia. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a robust health secured. Bottles, 2s. 6d., 5s. 6d., and 10s. 6d. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.
Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of disordered liver and dyspepsia. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a robust health secured. Bottles, 2s. 6d., 5s. 6d., and 10s. 6d. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

JOHNSTON'S SARSAPARILLA
LIVER COMPLAINT, DYSPEPSIA
And for Purifying the Blood.
It has been in use for 30 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAINT, THE FLATULENCE ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others. It is made from Yellow Root, Hound-tongue, Sarsaparilla, Wild Cherry, Silliman, Dandelion, Cassia, Licorice, and other well-known valuable roots and herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

THURSDAY, AUGUST 3, 1882.

LOCAL AND MUNICIPAL.

The Volunteers Camp.

It is expected that our volunteers, will go into camp at Cobourg, on Sept. 5th, for their annual training.

Cheese Market.

At the cheese market on Wednesday, August 2nd, there were offered for sale 3,136 boxes, of which 1,308 boxes were sold at 10 1/2 cents per pound.

The A. B. C. Railway Guide.

We have received the August number of that very clear and well arranged A. B. C. Railway Guide, published by the New England Railway Publishing Co., of Boston.

Water Works.

An anonymous correspondent of the Examiner again talks of starting a local system of water-works. We have heard from these gentlemen before, thwarting others in every project, doing nothing themselves, but making abundant promises whenever their gall is stirred up by their jealous dread of the success of more enterprising men.

The Weather.

The weather continues warm and partly cloudy. The weather probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes.—Fresh to strong easterly winds, veering to the north on Friday; cloudy to fair weather with local rains.

Death of Mrs. Fotheringham.

We regret to learn of the death of Mrs. Fotheringham, wife of the Rev. Mr. Fotheringham, formerly pastor of the Presbyterian Church at Norwood, who has been travelling in the Southern States for the purpose of recuperating her health, but it seems without much benefit, as she has succumbed to the disease with which she was afflicted. The sympathy of many friends in the county will be extended to Mr. Fotheringham in his bereavement.

Something New.

Try our really delicious Water Ices, two flavours. Our Ice Cream in four flavours has been pronounced the best in town, without doubt. A nice variety of Cakes and Pastry always on hand. Our Confectionery is also very choice. Chocolate and Coconut Creams and Cream Almonds a specialty. Every thing manufactured on the premises can be safely guaranteed as good. Give us a call and be convinced that we are not making empty boasts. Don't forget the place, one door north of Bailey Bros., Humphreys & Carter.

On the Water.

There was a fair sized attendance at the moonlight excursion on the Golden Eye on Wednesday evening, which was for the benefit of the Fire Brigade Band. The steamer had a little trouble in getting out of the harbour, but soon sailed into the Little Lake and the music and dancing commenced on the large palace soon provided for that purpose. The steamer did not go down the river, but wisely we think—remained in the lake, and then the party enjoyed themselves till about eleven o'clock, when they returned to the wharf. The band was, of course, on board, and contributed by their music to the pleasure of the excursion.

Drowning Accident.

On Wednesday a sad drowning accident occurred in Steady Lake, by which a young man lost his life. Three young men belonging to a camping party were, we are informed, in a canoe on the lake, one of whom was Mr. Ernest Bell, son of the Rev. Mr. Bell, formerly of Lakefield and now of Bradford. There was a strong wind at the time, and the canoe began to fill with water to such an extent that it was about to precipitate the occupants into the water. Mr. Bell was unable to swim, and his two companions got out of the boat into the water, telling him to stay in and they would swim and save the boat ashore. But Mr. Bell, who was probably excited, leaped into the water also, and sank beneath the waves, with the end result above recorded. Mr. Bell was an intelligent young man and was very highly esteemed by his acquaintances. A party is going out from Lakefield to-day to search for the body.

A THRIVING INDUSTRY.

Activity at the Central Iron Works—A Peterborough Firm Strengthened From Without.

Although the present is what is termed a dull season of the year for the line of business carried on by local manufacturers of iron machinery, the founders in Peterborough are doing a lively business. We have noticed the extensive built and to be added to Mr. William Hamilton's foundry, and Mr. Peter Hamilton and Messrs. J. Whyte & Co. are also as busy, if not more so, than is usual at this time of the year. The business of the Central Iron Works has increased largely, and there is considerable activity in the foundry. In June last renewed strength was given to the firm of McLean & Brayshaw, the proprietors of the manufactory, by the addition of Mr. Law, civil and mechanical engineer, who has had a large and varied experience in different parts of the world, and the firm is now known as Law, McLean & Brayshaw. Since the 1st of June last the amount of wages paid to mechanics and workmen by this firm has increased five-fold, and still they have more orders than they can fill as promptly as they wish, and are engaging more men as fast as they can secure them, and the pay roll will be increased still further this month. Besides adding to the number of the mechanics employed by them, they have made and are still making large additions to their plant. A large amount of machinery has been ordered by the firm, and some of it is now on the way here, including new lathes, drilling machines, blower, cupola, &c. The large orders which the firm have for machinery, which are now crowding them with work, include machinery for the pulp mill being erected on Dickson's race, the iron roofing for that factory, and two pumps with a capacity of 300 gallons per minute. They are also filling orders for shafting and other machinery for Mr. Brodie's woolen mill, special pumps for the water-works at Bobcaygeon, work for the Government for the locks at Bobcaygeon, and for the water-works at Peterborough, besides a large amount of general work. It may be taken as a recognition of the capabilities of Peterborough as an industrial centre, that a gentleman of Mr. Law's skill and experience should locate in this town to carry on a manufacturing business, and Mr. Law's foresight is also shown by the fact that he decided to enter into business here, as the firm is not only doing a large local trade, but is extending its operations beyond that and is manufacturing for other places. We wish the firm continued and increased prosperity, as we also do all the manufacturing and other industries of Peterborough, which add to the wealth, growth and general prosperity of the town.

The University Results.

In an analysis of the honors taken by the students from the different schools at the recent matriculation examination at Toronto University, as published by the World, the Peterborough Collegiate Institute is shown to stand high as a training school. The schools which succeeded in taking ten honors or over, and the number obtained by each, are as follows:—St. Catharines, 30; Toronto, 28; Bowmanville, 19; Peterborough, 19; Upper Canada College, 18; Hamilton, 10; St. Thomas, 10; Whitby, 10. Thus Peterborough stood even with Bowmanville, the third in the list, in the number of honors taken, although Upper Canada College was four ahead in first-class honors. But besides this satisfactory exhibit there is another fact which counts in favor of the Peterborough school. At the school there was a class of six in training for matriculation, who they divided and three went to Queen's College, so that had the whole class gone to the Toronto University, or were the honors taken at both Universities counted, Peterborough would have stood at least as high as St. Catharines, the highest.

Excursion from Belleville.

The excursion over the Grand Junction railway from Belleville, under the auspices of the St. Andrew's Presbyterian Church of that city, arrived here at twelve o'clock to-day. The train consisted of nine cars, and the excursionists numbered about 300 persons. The Odd-fellows' Band accompanied the party, and played through the streets to the Oriental Hotel. Their playing and appearance were greatly admired, and with good reason, for they rendered the music in first-class style. The members of the band were met at the hotel by Band Master Miller, of the Fire Brigade Band. On their arrival a number of the visitors proceeded to the Drill Hall, where they partook of dinner in true picnic style, and the remainder made their way to the hotel, and after having dined they all proceeded to "do" the town, to see their friends and enjoy themselves in various ways. Among those who accompanied the excursion were Judge Lister, Sheriff Hope and Mr. Thos. Wills, County Treasurer of Hastings, who are on their way for a trip up the back lakes to the Georgian Bay.

Personal.

Messrs. E. B. Edwards, J. H. Burnham, H. B. Weller and J. Emerson started to-day to attend the Lake George Regatta. Others are expected to join them.

Mr. A. L. Davis and his wife have left on a visit to Cocoona, where they will spend some time.

Dr. G. Beck and Messrs. N. D. Beck and Harold Morrow have departed on a two months' visit to England and the continent.

Mr. J. R. Stratton, of the Examiner, left on Wednesday for a holiday trip to Winnipeg.

Mr. John Sowers and Mr. James Stanson returned home from Winnipeg on Tuesday night. Mr. Aaron Cox, of the Midland Railway, returned home from Europe on Wednesday at noon.

The Emerson International has the following: "The driving of piles for the foundations of the handsome brick block that F. E. Burnham is erecting on the corner of Dominion and Winnipeg streets is completed. The contract for doing the brickwork on the block has been let to Brown & Bryon, and the wood-work to McQuarrie Bros."

We were pleased to receive a call to-day from Mr. R. S. Bell, editor of the Belleville Intelligencer, who came up on the St. Andrew's excursion.

OUR BACK LAKES.

To the Editor of the Review.

DEAR SIR.—The natural advantages Peterborough possesses in her surroundings, in comparison with other places, put her in the front rank, not only for commercial activity, but as well for recreation and pleasure. When I came to Peterborough 21 years ago, after getting acquainted with the surroundings, I was struck with the idea, that nature by so lavishly bestowing her favours on this particular spot, had planned and marked out Peterborough's greatness. But strange to say, at any rate it seems so to me, very few of the public give it more than a passing thought, to appreciate these natural advantages, or they would not have remained in such a rude state for so long a time, but instead of recognising such favours with thankfulness, they are wantonly destroyed. What a pity that Oscar Wilde did not come to Peterborough to give us some lessons on the pathetic and beautiful, of which there is a great deficiency, not only here but all around us, and they badly need cultivation. Look at our beautiful Little Lake, what a source of pleasure close at hand, and how ruthlessly it is destroyed by refuse from the mill. What an inexhaustible source of pleasure are our back lakes offering us. I have often referred to them with pride to the outside public, and invited strangers to Peterborough from New York and Montreal to enjoy them, but after many attempts last year as well as this, we had to return in disgust, the lakes being completely blocked up. How long will the public have to submit to such a state of affairs? Are the lumbermen the sole owners of our waterways? Who is to be blamed for all this? That the Ottawa River is often blocked up with saw logs is sometimes excusable on account of its bounds and the narrowness of the river, but when lakes with a large expanse of water are closed up at the expense of the public, measures should be taken to remedy such grievances, from which the public have already suffered too long. There has of late been stirred up much dust about the disallowance of the Streams' bill; now, here is another case for Mr. Mowat and his Government to consider, and if they cannot give us our rights, the Dominion Government should be applied to. Will no one of our members take this matter in hand and bring it to a successful issue? I am sure that member will not only earn the thanks of the public, but will engrave his name in the minds of the yet unborn generations.

Thanking you, Mr. Editor,

Yours truly,

W. LEON.

Peterborough, August 3, 1882.

THERE would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the stomach and bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

CAUTION—PRUDENCE—CARE.—Beware of the medicine represented as just the same, or fully as good, as Dr. Smith's Great German Worm Remedy by dealers who sell the article that pays best, regardless of merit. Dr. Smith's Great German Worm Remedy is being endorsed by all as a pleasant, safe, reliable and prompt remedy for the removal of stomach and seat or pin worms from child or adult. It is easy to take, never fails, absolutely harmless, and requires no after physic. Sold everywhere. Price 25c.

Boys' White Shirts, Men's White and Coloured Shirts, with or without Collar, in all sizes at "Habilitation Hall."

THE BUSY END

Of our store is found in every part of it—in every department, and on all sides of it.

We are not disposed to say as much about it as are our customers, who remark the activity is every direction of what they compliment a well-ordered business. All details of our trade have responsible supervision, and everything connected with each department is being, if possible, more carefully looked after than heretofore.

IN THE EXISTING

Circumstances of the increased cost of living, everybody who wishes to be economical should ask themselves where and how they can spend their money to the best advantage?

A great many people have the habit of dealing in certain stores and buying large quantities of goods, and paying for them too, without ever asking themselves, "Could I have done any better elsewhere?"

If they would only take a little trouble and look around and call on us, they would be generally surprised in a six months how much to their advantage it is to trade with us.

EQUALLY SO

In all particulars it is with the stranger or transient visitor, whether great or small, whose custom is as much a matter of consideration to us as those of longer standing.

Hence as far as our business obligations can go, all are on the same basis, and equally recipient of our best work. And everything we have shall equal the expectation of those who pay their money for it.

Daily Evening Review

FRIDAY, AUGUST 4, 1892.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE SCENE OF OPERATIONS.

The hostile attitude of Russia—The Czar's Grounds of Complaint—Arabi Abandons his position—The Constantinople Conference—A Strike of Seamen on Transport Ships—Artillery and stores for Egypt.

RUSSIA SUPPORTS ITALY'S PROPOSAL.

CONSTANTINOPLE, Aug. 3.—The Russian representative in rejoining the conference yesterday gave no reasons for so doing. He announced that Russia also adhered to the proposal of Italy in regard to the Suez canal.

PROCEEDINGS OF THE CONFERENCE.

CONSTANTINOPLE, Aug. 3.—In the conference to-day the Russian representative expressed the view that the laws binding the conference required that Turkey should first endeavour to restore order in Egypt, and should Turkey not succeed, then the powers should undertake the task. The German and Austrian ambassadors concurred in this opinion. Lord Dufferin said he desired that Turkey should take action on the condition that the Porte declares Arabi Pasha a rebel. The Turkish Minister maintained it was impossible for the Porte to declare Arabi a rebel until the Ottoman flag was raised in Egypt. The Italian ambassador demanded that the reply of the Ottoman representatives that they accepted the conditions of the identical note be put in writing. The Ottoman representatives replied they must first obtain the sanction of the Sultan.

THE ENEMY'S POSITION ABANDONED.

ALEXANDRIA, Aug. 3.—The reconnaissance made to-day five miles beyond the Ramleh outposts are the most extensive yet made. The 38th and 60th Regiments advanced in two columns. The enemy's position was found almost abandoned, and with the exception of a few vedettes, none of their force was observable. A few shots were fired, but there were no casualties. The British returned at dusk.

DESTROYING THE RAILWAYS.

ALEXANDRIA, Aug. 3.—Arabi has again destroyed the railway at Mahallah, recently repaired.

THE OCCUPATION OF SUZ.

SUEZ, August 3.—Several hundred British marines occupied the town without resistance. They arrived just in time to save it from being burned. The Egyptian troops fled on the entry of the English.

SEVENTEEN PASHAS UNDER ARREST.

ALEXANDRIA, Aug. 3.—Seventeen pashas are imprisoned in the citadel at Cairo. All Sheriff Pasha has been arrested because he employed Greeks to guard his house.

THE Czar GETTING INCHES.

LONDON, Aug. 3.—It is stated that the relations between England and Russia have taken a very grave turn, the Czar being greatly incensed at the conduct of the British Government in seeking to intervene in Egypt independently of other powers. He said that previous to the Russo-Turkish war the late Czar proposed to retire the Turks to Asia Minor and make Turkey in Europe a monarchy, with the Duke and Duchess of Edinburgh as sovereigns of a state to be protected by all the powers, Russia to have free access from the Black Sea to the Mediterranean, and England to become sovereign of Egypt with the protection of the Suez canal. The Czar is reported as saying that England's attempt to seize Egypt and obtain the control of the Dardanelles without yielding to Russia's counter-consideration has given just ground for complaint.

ARTILLERY FOR EGYPT.

LONDON, Aug. 3.—The steamship Palmyra, with two batteries of artillery and a large quantity of ammunition, sailed for Egypt to-day from Portsmouth.

ENGLAND AND THE PORTE.

BERLIN, August 3.—An outbreak of serious differences between England and the Porte regarding proclaiming Arabi as a rebel is considered almost unavoidable.

STRIKE OF LASCAR SEAMEN.

CONSTANTINOPLE, August 3.—The Lascar seamen on the ships engaged for the Egyptian ex-

pedition have struck and refuse to go. They regard the mission as aggressive towards Mohammedans.

ARABI AND THE PORTE.

VIENNA, August 3.—It is reported that Arabi is negotiating with the Palace at Constantinople about a kind of parallel action between his own and the Turkish troops. It is said Arabi proposes that the Turkish troops should occupy Cairo while he will move to some central position in the delta, provided the Turks promise not to attack his rear.

UNDER WHICH KING.

PORT SAID, August 3.—The British consul has hauled down his flag on account of the unsatisfactory reply from the Governor as to the question whether he favoured Arabi or the Khedive.

ARTILLERY AND STORES FOR EGYPT.

CONSTANTINOPLE, Aug. 4.—Two transports started for Alexandria last evening with artillery and stores.

THE SEAMEN'S STRIKE.

LONDON, Aug. 4.—The strike of the Lascar seamen on the ships engaged to convey the expedition to Egypt will cause no inconvenience. Their place will be supplied by Englishmen.

MIDNIGHT TELEGRAMS

CABLE.

A SEVERE GALE.
LONDON, Aug. 3.—The Peterhead fishing fleet have been caught in a gale. Two hundred boats are missing.

CELEBRATION'S DINNERS.

LONDON, Aug. 3.—King Cotevayo and his 9 followers, who have arrived in England, between Cape Madeira and Plymouth, consumed 800 pounds of beef.

IMPORTANT STATEMENT.

LONDON, Aug. 3.—In the House of Commons this evening Mr. Gladstone proposed not to take up the Arrears Bill until Tuesday, as he did not wish to do anything precipitately before arriving at what might be a momentous decision. The statement was received with cheers.

THE FRENCH MINISTRY.

PARIS, Aug. 3.—M. de Freycinet absolutely declines to join any Ministerial combination.

STILL PLOTTING.

St. Petersburg, Aug. 3.—The imprisoned Nihilist Kyrylow has disclosed a long list of newly planned crimes against the Emperor and several high officials.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

POLICE STRIKING.
DUBLIN, Aug. 4.—A strike among the Irish Constabulary is threatened. 10,000 threaten to resign. The men demand increased pay and quicker promotion.

AMERICAN.

IMMIGRANTS DISEASED.

PITTSBURG, Pa., Aug. 4.—Over fifty Hungarian peasants, late importations to the Connelville coke region, are lying at Fayette county almshouse, sick with scurvy or blacking fever.

TO DEPOSE THE QUEEN.

LONDON, Aug. 4.—The solicitors of Wales who are connected in connection with the seizure of arms at Clerkenwell intend applying for a postponement of the trial until the October sessions owing to the sudden determination of the Crown to call as a witness the Mill street informer Connell, who it is said will prove the existence of a secret organization in Ireland, having for its immediate object the deposition of the Queen.

REDPATH'S DENIAL.

NEW YORK, August 4.—James Redpath denies that he ever wrote anything for the Times (Ireland) Herald whose editor has been served with a summons charging him with the publication of an alleged article by Redpath. Redpath also denies that he ever wrote an article inciting the murder of landlords.

TILDEN'S TAXES.

NEW YORK, Aug. 4.—The Tribune says that Tilden's counsel in the income tax suit have made offers of compromise, although these offers have not been accepted in the form in which they were made, it is not improbable that the government may withdraw the suit.

CONGRESS ADJOURNING.

NEW YORK, Aug. 4.—The Times' Washington despatch says that the expectations that Congress will adjourn sine die on Tuesday seem well founded, as nothing but determination to go on with the Tax Bill can prolong the session.

Our Apples in England.

The Gardener of London, England, says:—"The report which we have received from Messrs. J. W. Draper & Son, Covent Garden, the principal London agents for the sale of these fruits, indicates that the crop is most prolific this season. From personal observation we gather that in England the crop is comparatively a failure; in France a poor half crop is calculated upon; in Germany one-third crop only; in Holland only half a crop and in Belgium not half a crop—thus the prospects were never more favourable for shipments from America to England than they are this year. The American Apple trade, formerly monopolized by Liverpool, has during the last few years (in consequence of direct steam communication) been gradually diverted to London which market now competes favourably with that of Liverpool.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich. will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

We are constantly improving

our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him.

"Habillment Hall."

CANTERBURY.

A PURCHASE.—The Herald says that Mr. Workman, of Warkworth, who lost his cow mill and contents last week, purchased a grist mill from Mr. Charles Smith, of this village. Mr. Workman's loss is a heavy one.

ACCIDENT.—Mrs. George Smith met with an accident, lately, from the effects of which she bled profusely. Although her life seemed to weigh in the balance of a few days, we are pleased to learn that the hemorrhage has been checked, and she is now convalescent.

NEW BANK BUILDING.—The contract for the erection of the new bank has been given to Mr. Jas. Benor, his price being \$2,350. The building will be situated on Front street, on the lot directly north of Mr. Townsend's store. The workmen commenced to dig for the cellar on Monday last. The building will be completed early in the fall.

FERTILE RYE.—On the farm of Mr. John Roach, of Percy township, four miles from Campbellford, there grew last month a single stock of rye the product of a single grain, from which there sprung out a hundred and eighty "shoots" or "tassels." Mr. Roach has the stock still in his possession.

VISITOR FROM FLORIDA.—Our young Florida friend has promised to make the Herald a present of a young alligator, when he visits Campbellford this summer. He says the largest horse in the State of Florida is an iron-gray stallion, which was imported from Canada to Jacksonville. The people of that city often ask our correspondent if all the horses in Canada are like that one.

SAW MILL BURNED.—Mr. B. Workman had his new steam saw mill destroyed by fire on Thursday last. The fire caught from sparks from the engine. Mr. W's loss will be heavy as we believe he has no insurance. His stock of logs and chindle bolts were all burned.

ALLIANCE.

A SURPRISE PARTY.—On Wednesday evening, August 2nd, a number of the teachers of Allandale Sunday School went to the house of Mr. Alexander Connell in Allandale, and made his daughter, Miss Jane Connell, a present of a beautiful tea set of china, in acknowledgment of her services as leader of the choir for a number of years past. Miss Connell is soon to leave the neighbourhood, and her services will be very much missed in the Sunday School.

Royalty on the Travel.

The crowned heads of Europe are planning to enjoy the Summer season in the most approved style. The Emperor and Empress of Austria will go to Trieste this month, and thence into Italy, where they will be entertained by King Humbert and his Queen at Monza. The Royal pair of Italy will accompany their majesties of Austria back to Austria about the 1st of September, and then go to Berlin for a little visit. The King and Queen of Spain, with their daughter and the infantas Isabel, Paz and Euclia are at La Granja, the Spanish Palace, among the mountains of Segovia, where the Queen and her daughter will remain all summer. The King and the infantas will go to the seashore this month. The King and Queen of the Netherlands will spend the season travelling, visiting Wurzburg, Nuremberg, Augsburg, Halleberg and Lechl, and calling upon their majesties of Austria and Germany. The Crown Prince and Princess of Germany are now among the Alps. And, finally, the surprising announcement is made that the Czar and Czarina are to visit Copenhagen some time in this month, but the closest secrecy is to be observed as to the date and manner of their embarkation.

Utilize the Coal Ashes.

"Will coal ashes around raspberry and currant bushes injure or benefit them?" The application may be made quite useful. As the plants have very shallow roots, and often several stems contiguous, it is difficult in most soils to keep grass or other weeds down and the surface clean and open without wounding either the roots or stems; yet clean culture is one absolute essential for handsome, large, juicy, well-flavored fruit. If the ashes are sifted and the entire surface well covered, they smother all weed seeds, and if the stronger ones come up they are very easily uprooted off when the ashes are occasionally stirred. This stirring is a necessity to prevent the formation of a smothering air-tight crust. Another important gain from the ashes is the retention of moisture about the roots.—Outlook.

The Missing Coloured Couple.

WINDSOR, Aug. 2.—Alex. Bartles, Police Magistrate, says that the mystery hanging over the fate of the coloured Baptist preacher and his wife, supposed to have been murdered in Roadwick east and their bodies burnt, was cleared up yesterday by their appearance in their own proper persons at the celebration of the anniversary of the West Indies Emancipation in Chatham. It appears they got frightened at some threats made by the neighbors against them, and fled to Chatham.

Mothers! Mothers!

Are you distressed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, get once and get a bottle of MRS. WINDLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not another on earth who has ever used it, who will not tell you of once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle.

FRANKS.—Get your mouth full by using FRANKS,

the new wonder for the teeth and throat. Brush vigorously. See directions. 5 cent samples.

THOSE affected with weak lungs, sluggish liver or Derangements of the Kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

SCROFULA is a depraved condition of the system often hereditary, and characterized by indolent tumours, glandular affections, bad blood and a low condition of vitality that tends towards consumption, which is really Scrofula of the lungs. Burdock Blood Purifier cures Scrofulous diseases from a pimple to an abscess, by purifying the blood, correcting the secretions and giving a healthy tone to each organ.

JUST ARRIVED!

A. L. DAVIS & CO.,
South End Bookstore.

Late J. I. DAVIDSON.

Daily Evening Review

FRIDAY, AUGUST 4, 1882.

A BAD LOSS.

The melancholy death by drowning of Police Constable McGhee has inflicted a loss upon the community. Mr. McGhee filled a very important office, and did so in a most exemplary manner. The duties of such a position are of so delicate a nature that they are almost impossible to carry out without incurring adverse criticism and personal animosity. But so well did he adhere to the strict path of his duty, and so impartially did he exercise his authority, that there is hardly an instance of his actions being criticised, and few men have more personal friends or stand higher in public esteem. That he did not win this favor or the other hand by undue leniency and slackness in enforcing law and order, is proved by the peaceful, orderly state of our town. It is creditable to him as well as to the community that, in a town of this size peace and quiet should be so well preserved, especially when it is remembered that he was virtually our sole police officer, Chief Constable Johnston being too fully occupied with his street inspectorship and other duties entrusted to him by the Council to have much time for police duty.

DOUBLY TAXED.

This results of the matriculation examinations for Toronto University have been calculated by the Toronto World, and it appears that the Peterborough Collegiate Institute stands third in the list of honors secured. It even leads Upper Canada College by one honor. And while making this comparison it is only fair to point out the difference between the two institutions. Peterborough Collegiate Institute, with some assistance from the Provincial Government, to which we have to contribute our share, is maintained by the ratepayers of the Town of Peterborough, not only for their own benefit, but also for that of the County. On the other hand, Mr. Crooks' pet institution, Upper Canada College, is sustained as a mere high school for the wealthy City of Toronto, while the expense is borne by the whole Province, Peterborough again contributing its share of the cost. And not content with this, Mr. Crooks is now increasing the expense to the country of this Toronto institution by superintending efficient members of the staff to make new-fangled changes, in which he has such an inexhaustible but costly delight.

We must condemn this system as unfair to our town, and we feel convinced that our readers will agree in our condemnation. However necessary it may be for the public good that efficient system of education should be maintained, the burden is a heavy one and should not be unfairly aggravated.

It certainly is not fair that Peterborough, besides providing very liberally for the education of its own children, should be called upon, in addition, to contribute largely to the cost of the training of the children of the more wealthy and more highly-favored Torontoans.

Any hope for a removal of this injustice is, however, futile, so long as Mr. Crooks remains Minister of Education. We therefore trust that before long he may have to vacate that position, and for our part, we would prefer to see our educational system placed, in future, under the charge of a permanent Superintendent, instead of a Minister.

A MALICIOUS ATTACK.

As long as the attacks upon Mr. A. White, of the Midland Railway, were confined to a local paper of limited circulation among a community well aware of their baseless nature, we thought them too petty to call for notice, as they could do no harm.

But, now that the Peterborough correspondent of the Montreal Star, whose inaccuracies we have before now had occasion to notice, has taken upon himself to spread the libel, we think it time to interpose.

We can see no reason why Mr. White's private affairs and private hospitalities should be a matter for public discussion. If that gentleman gave his private guests champagne (which, however, he did not do) we presume he was entitled to do so without comment from those who were not fortunate enough to be included, and who perhaps are irritated because they did not receive an invitation. No doubt they will next debate to Mr. White whom he is to receive in his own house—they would be equally justified.

We do not see what Mr. White has to do with the old Midland Railway Company compromising with some of their creditors, and as a matter of fact, he was not in any connection with the company at that time. If the blow is aimed

at Mr. White's shoulders by the Midland Railway Company, we may mark that it is not an unheard of thing for a firm or company thus by the sanction of the law to free themselves from an incubus that is weighing them down. Freed from this debt the Midland has been placed in a position to amalgamate with other companies to extend its lines and to increase its facilities for doing business, to the great convenience of the public, and certainly an attack upon them comes with bad grace from Peterborough, which has thereby been made an important railway centre to its great benefit. The assertion in the Star that public opinion is generally against Mr. White for his private hospitalities is distinctly false and malicious. These attacks will do no injury to Mr. White who is well known to be a most efficient and zealous officer of the company, while at the same time most courteous and accommodating in his dealings with its customers. It is to be regretted that he should thus be exposed to the malicious and unfounded attacks of those whose equity he has acquired by protecting the interests of his company.

AN IMMENSE DOCK.

More than a Thousand Miles Long and as Many in Breadth.

The bishop of Montreal, whose residence is at Moose Factory, on the shores of the Hudson Bay, has arrived in Montreal from England after an absence of eighteen months. While in England he succeeded in raising \$40,000 towards extending missions to the natives of the diocese, which is 1,200 miles long and the same number of miles broad. There are four great tribes of Indians in the territory, spiritually presided over by the bishop, and these people have made considerable advances under the teachings of missionaries of the church of England in civilization and Christianity. The venerable bishop has been 80 years in the Hudson Bay Territory, acting as a missionary at first and for several years lately in the higher dignity of overseer of the work of a number of faithful missionaries under him. The difficulty of getting to his episcopal seat will be understood when it is stated that 500 miles of the latter part of the journey must be made in a canoe. The isolation from all means of communication is so great that a mail from Canada and the outside world generally only reaches the settlement three times a year. One ship per annum arrives at Moose Factory from Liverpool with supplies for the Hudson Bay Company's stations. There are 6 ordained missionaries laboring in the diocese, to which there will be an addition of one more, who is coming out shortly from England. Two of those now engaged are natives.—World.

A BRUTAL OUTRAGE.

Two Non-Union Sailors Terribly Beaten by Union Men at Kingston.

KINGSTON, Aug. 2.—Yesterday the schooner M. L. Higgle from Chicago arrived here and anchored out in the harbour. About 10 last night twelve men boarded the vessel and were met by Captain Thompson, who asked what they wanted. One of the party replied they intended to have a mattress. They then asked for the crew and forthwith commenced searching the vessel. The mates and two of the sailors were ashore. The two remaining sailors, Albert Moore and Jim Ellis, were subjected to brutal treatment. They were jerked upon the deck and their hands tied behind their backs, they were then hoisted into a dingle and carried off towards shallow water where they were thrown overboard, repeatedly pushed under the water and struck on the head. After dead than alive they were finally taken ashore, beaten black and blue and deserted. The harbour is full of American vessels and it is believed that the assailants were from Toledo and Chicago vessels. The President of the seamen's union was interviewed, and said that the Kingston union was in no way responsible for the outrage. This afternoon David Renshaw, of St. Catharines, John Cassidy of Howe Island, and David Griffith, a salt water sailor, were arrested. Moore, one of the victims, having identified them as being among the attacking party.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

Just received a full range of Genuine Tweed Waterproof Coats at "Habilitation Hall."

THE CONTENTED MAN.

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article bought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$2.00 on a purchase of \$5.00.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

MACK'S MAGNETIC NERVE CURE.

Is a Sure, Prompt and Effective Remedy for Nervousness in all its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Gout, Irritability, Seminal Weakness, and General Loss of Power. It repairs Nervous Waste, Rejuvenates the Jaded Intellect, Strengthens the Enfeebled Brain and Restores Surprising Tonic and Vigor to the Exhausted Generative Organs. The experience of thousands proves it as an invaluable Remedy. The medicine is pleasant to the taste, and each box contains sufficient for two weeks' medication, and is the cheapest and best. Full particulars in our pamphlet, which we desire to mail free to any address.

Mack's Magnetic Medicine is sold by Druggists at 50 cts. per box, or \$2 for \$5, or will be mailed free of postage, on receipt of the money, by addressing MACK'S MAGNETIC MEDICINE CO., Windsor, Ont. Canada. Sold in Peterborough by ORMOND & WALSH, and by all druggists everywhere. d126-w49-123

**KENDALL'S SPAVIN CURE.**

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

DEAR B. J. KENDALL & Co., Gentles—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on his regular harness work, when I discovered that a spavin was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can he touch the ground.

Respectfully yours,

P. N. GRANGER.

PERSEVERANCE WILL TELL.

From Rev. P. N. GRANGER, Presiding Elder of the St. Albans District.

DEAR B. J. KENDALL & Co., Gentles—In justice to you and myself, I think I ought to let you know that I have recovered two horses suffering with Kendall's Spavin Cure, one very large one, and don't know how long the spavin had been there. I have owned the horse eight months. It took me two months to take the horse out of the harness, and I turned him out for a few weeks when he became better, but when I put him on his regular harness work, when I discovered that a spavin was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can he touch the ground.

Respectfully yours,

CHAS. E. PARKER.

Kendall's Spavin Cure is made in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callosities, sprains, swellings, and lamenesses and all enlargements of the joints or limbs, or rheumatism in man and for any purposes for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet containing in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever been used with such unqualified success to our knowledge, for man as well as man.

Price per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Kewborough Falls, Vt.

Lacrosse Excursion.
The excursion on the Golden Eye to Idylwild on Thursday, under the auspices of the Peterborough Lacrosse Club, was a pronounced success. The attendance was large, the trip delightful and the stay on the island was enjoyable. A picnic party from Cobourg was met on the island, and together the excursionists enjoyed themselves by dancing and in other ways. Martin's string band accompanied the excursion and a large boom was attached to the steamer for the purpose of dancing on, which was taken advantage of, and the party returned about 11 o'clock, all thoroughly satisfied.

Boys' White Shirts, Men's White and Coloured Shirts, with or without Collar, in all sizes at "Habilitation Hall."

Daily Evening Review

SATURDAY, AUGUST 5, 1892.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE SCENE OF OPERATIONS.

Cairo Reported to be on Fire.—The Enemy Attack the British.—The Rebels Retreat.—Management Between Russia and England.—Occupation of the Suez.

RUSSIA AND TURKEY.

LONDON, Aug. 4.—In the House of Commons Sir Charles Dilke informed Baron De Worms that the Government had no information that Russia had surrendered an installment of the Russo-Turkish war indemnity to Turkey, or taken any other steps to promote Turkish intervention in Egypt against England's conditions.

SUSPICIOUS ACTION OF THE POWERS.

LONDON, Aug. 4.—The Times says it is impossible for England to view without apprehension the singular anxiety of the powers, which decline to lift a finger for the settlement of the main difficulty in Egypt, to undertake such easy work as the protection of the canal.

ENGLANDERS FROM INDIA.

BOMBAY, Aug. 4.—The Seaforth Highlanders have left for Suva.

RUSSIA AND ENGLAND.

LONDON, Aug. 4.—The Standard's correspondent at St. Petersburg says there is no longer a doubt that a divergence of view exists between England and Russia, which is exercising very prejudicial influence upon all attempts to harmonize English action in Egypt with legitimate rights and wishes of the powers. It is not unlikely this divergence will lead to the break up of the conference without tangible results.

MISTAKEN FOR ADMIRAL SEYMOUR.

ALEXANDRIA, Aug. 4.—Midshipman De Chair's arrival at Cairo on Sunday caused great excitement. He was conveyed in a closed carriage, accompanied by thousands of natives shouting, "The Sultan! victorious!" They believed the prisoner was Admiral Seymour.

CAIRO SAID TO HAVE BEEN FIRED.

ALEXANDRIA, Aug. 4.—It is rumored that the European quarter of Cairo has been fired. The report has created great excitement here.

ARABI LEAVING WAR CONTRIBUTIONS.

ALEXANDRIA, Aug. 4.—On Thursday a quarter of a million pounds for the service debt was collected in the provinces in obedience to the orders of Arabi Pasha. Arabi has 20,000 Bedouins, who will be sent to various parts of the coast. A Shetki says Arabi is in communication with the false prophet, and when beaten will not return to Cairo but to Wahed-Dakhal.

NOTES.

ALEXANDRIA, Aug. 4.—An armed train went to Meks fort to-day. A forty-pound breech-loader made beautiful practice on the Martini cartridges at six thousand yards. The shells burst in Arabi's earthworks. Arabi's threat to march Alexandria is believed to be intended to mask his retreat.

ARABI GIVEN THE LIE.

CONSTANTINOPLE, Aug. 4.—The Port denies Arabi Pasha's statement that the Sultan has deposed the Khedive, and would send troops to support the nationalists.

ITALY SURPRISED.

ROME, Aug. 4.—The activity of the British in occupying Suva has surprised everyone here.

HARD ON TURKEY.

ALEXANDRIA, Aug. 4.—The acting British Consul-General to-day warned all the banks against negotiating drafts of the Turkish Government.

MOVEMENTS OF THE REBELS.

ALEXANDRIA, Aug. 4.—Several trains with troops left Cairo for Tel-el-Kebir, half way between Cairo and Ismailia, where batteries are being erected.

ANOTHER BRUSH WITH THE ENEMY.

ALEXANDRIA, Aug. 4.—There was a skirmish this morning on the left front of the British lines. An attack made by the enemy was promptly repulsed. The enemy are in great force at Aboukir.

ENGLAND'S PRESENT STANDS HIGH.

VENUE, Aug. 5.—The news of the occupation of Suva produced a deep impression here. England's ascendancy is now practically acknowledged. Her calm determination and her stern resolution are making themselves everywhere felt, and her prestige stands on a higher level than it has for a long time past. The Austrian Cabinet is using its influence to bring about an understanding between England and Turkey.

TO COMMAND A BRIGADE.

ALEXANDRIA, Aug. 5.—Major-General Graham will command the British brigade at Baniak.

MIDNIGHT TELEGRAMS

CABLE.

A SEMI-OFFICIAL DENIAL.
PARIS, Aug. 4.—The statement that Bismarck instructed the German ambassador to express regret to De Freycinet at the latter's overthrow is semi-officially denied.

O'CONNELL'S STATUTE.

DUBLIN, Aug. 4.—The O'Connell statute was placed on its pedestal last evening amid the cheers of a large crowd.

LIMERICK PROCLAIMED.

DUBLIN, Aug. 4.—Limerick city has been again proclaimed under the eleventh section of the Repression Act. Anyone out of doors an hour after sunset is liable to arrest.

A THREATENING LETTER.

LONDON, Aug. 4.—Postmaster-General Fawcett received a letter to-day threatening his life.

THE ARREARS BILL.

LONDON, Aug. 4.—Conservative letters are divided as to the expediency of insisting upon the Lord's amendments to the Arrears bill. Lord Cairns and Mr. Cross are in favour of a compromise.

AMERICAN.

DISASTROUS FLOODS.

DETROIT, Aug. 4.—A Saline, Mich., despatch says the storm in this part of the country was one of the most destructive rainfalls known in this region for many years. Roads and bridges are swept away for miles; the Lake Shore cut-rails and tracks are washed out in many places; whole fields of corn and oats are worked out; wheat in shock destroyed; fences carried away; cellars filled, etc. The mill dam at this place went out, and taken altogether the damage reaches many thousands of dollars hereabouts. Loss between Ions and Grand Rapids, \$50,000.

AFTERNOON TELEGRAMS

From Despatches to the Review.

AMERICAN.

FORGERY.

BROOKLYN, Aug. 5.—The police are seeking for Henry Schultz, who deposited a forged check on the Herkimer Savings Bank, of Herkimer County, in Bushwick Savings Bank here and drew from \$1,600 to \$1,800 against it.

THE CROW INDIANS.

PORT KNOX, Montana, Aug. 5.—The Crow Indians are very restless. Many people fear trouble with them. They are stealing cattle, and recently had a fight with cowboys on Sweet Grass. Two cow boys were killed and four wounded. It is supposed that the Indian loss was six.

OPERATORS' STRIKE.

PITTSBURGH, Aug. 5.—There was considerable excitement among the telegraph operators here on Thursday owing to the prospect of a general strike of the Western Union Company in consequence of the strike at Denver. The city is the headquarters of the executive board of the United Telegraphers of North America, and a broad-based strike of telegraphers, numbering altogether 18,000 operators. After considerable discussion by the board, the strike was postponed, but was tolerably sustained by every striker.

MINISTERIAL OSCULATION.

CANTON, Ohio, Aug. 5.—The Rev. D. C. Hanselman, of the Disciples Church, is on trial before a committee of preachers on a charge by three female members of the congregation of hugging and kissing them, and attempting other improprieties. One woman says that after Mr. Hanselman performed the funeral services of her husband, he called at the house and suddenly kissed and embraced her several times. Hanselman alleges blackmail, and produces letters from the husband of one of his accusers, offering a settlement for \$300.

PUGILISTIC CADETS.

WEST POINT, Aug. 5.—Cadets Cook, aged 18, of Rhode Island, and Edward Scudder, aged 21, of Mississippi, had a regular pitch in fight. Cadet Alfred Jackson, of Massachusetts, acted as referee, and two cadets whose names are unknown, as seconds. Scudder was completely knocked out, although much larger than his opponent, and was taken to a hospital insensible. One report is that Scudder stood a terrific punishment for three-quarters of an hour. Another says he succumbed in three or four rounds. Cook is badly bruised and marked up. Cook is said to be completely unharmed. The two seconds, Cook and referee Jackson are all under arrest. An investigation has been instituted and will probably result in the dismissal from the academy of all connected with the fight.

STORMS AND FLOODS.

DENVER, Aug. 5.—Storms raged during the past two days in several sections of the State, causing floods, landslides, loss of life and great damage to property. The damage on the Colorado River to crops is estimated at \$100,000.

THE BOOK STORES—A CORRECTION.

To the Editor of the Review.

SIR,—I see an article in the Times of this date, which says that Mr. A. L. Davis has purchased the business in Davidson's old stand from me. If Mr. A. L. Davis has purchased it from me, I must have been asleep when I sold it, as I am not aware of any such sale, and I find my two clerks in the store as usual doing business for me. Where did the Times get its information. It certainly is news to me.

I am, yours &c., &c.,

THOS. MENZIES.

Peterborough, 5th August, 1892.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. De's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

We are constantly improving our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him. "Habillment Hall."

SUDDEN WHITE HAIR.

Some Wonderful Changes Caused by Grief, Fright, and Despair.

Some years ago a young lady, who was anxiously awaiting the coming of her husband-elect, received a letter conveying the sad tidings of his shipwreck and death. She instantly fell to the ground insensible, and so remained for five hours. On the following morning her sister saw that her hair, which had been previously of a rich brown colour, had become as white as cambric handkerchief, her eyebrows and eyelashes retaining their natural colour. After a while the whitened hair fell out, and was succeeded by a new growth of gray hair.

Staff Surgeon Parry, while serving in India during the mutiny, saw a strange sight. Among the prisoners taken in a skirmish at Chanda was a Sepoy of the Bengal army. He was brought before the authorities and put to the question. Fully alive to his position, the Bengalee stood almost stupefied with fear, trembling greatly, with horror and despair plainly depicted on his countenance. While the examination was proceeding, the bystanders were startled by the Sergeant in charge of the prisoner exclaiming: "He is turning gray!" All eyes were turned on the unfortunate man, watching with wondering interest the change coming upon his splendid, glossy, jet-black locks. In half an hour they were of a uniform grayish hue.

When the Emperor Leopold was about to make his grand entry into Vienna, the old sexton of St. Joseph's Cathedral was much troubled in his mind. Upon such occasions it had been his custom to take his stand on the piano of the tower and wave a flag as the imperial pageant passed by, but he felt that age had so weakened his nerve that he dared not again attempt the perilous performance. After thinking the matter over, he came to the conclusion that he must find a substitute; and knowing his pretty daughter had plenty of stalwart suitors, the old fellow publicly announced that the man who could fill his place successfully should be his son-in-law. To his intense disgust, the offer was at once accepted by Gabriel Peterashim, his aversion and the special favorite of the girl, who saw not with her father's eyes. On the appointed day, Vienna opened its gates to the new-made Emperor; but it was evening, or near upon evening, when the young flag-bearer welcomed the procession from St. Joseph's tower. His task performed, Gabriel would have descended from the airy height but found his way barred. Two wretches had done the treacherous sexton's bidding, and closed the trap door of the upper stairway, leaving the brave youth to choose between precipitating himself on the pavement below or clinging the cold night through to the slender spire, with but ten inches of foothold. He chose possible life to certain death; but when rescue came with the morning his eyes were sunken and dim, his cheeks yellow and wrinkled, his curly locks as white as snow. Gabriel Peterashim had won his bride at a fearful cost. —Chamber's Journal.

SIXTY JOURNALISM.

The Ottawa Citizen says:—

The following paragraph from the Cornwall Freeholder, is a specimen of the courteous attention Sir John Macdonald receives at the hands of gentlemanly Grit journalists:—

"Sir John is a cunning fox. He does not want to hang about Ottawa during the hot weather, and so he got the newspapers to announce that he was so seriously indisposed on Wednesday that he could see no visitors. The announcement excited considerable sympathy, and people said he should get away from Ottawa. Yesterday he was up and away to the seaside. That is where he wanted to go, and that is how he worked an excuse for leaving Capital, and neglecting the duties of his department, which he is paid \$6,000 a year to attend to."

Mr. Mowat and nearly all the other members of the Ontario Government are absent from the provincial capital at present, but the Journal in question will not attack them for "neglecting the duties of their departments."

FOUR SPURIOUS BAMES.

PHILADELPHIA, Aug. 1.—A strange story of deception and wrong practiced by a well-known woman on her too confiding husband has just been made known in this city. The woman in the case is Kate Richardson, who early in the last decade, married Silas Richardson, now a resident of this city. Her victim is John Scarlett of Wheeling, W. Va., who until 1875 had fair prospects of becoming a wealthy and prominent man. In the winter of 1874-75 John Scarlett came to this city on business. Kate Richardson had left her husband's home after a short and stormy period of wedded life. Chance threw Scarlett in her way, and he, becoming infatuated with her, readily induced her to marry him. He took her to his home in Wheeling. About one year later she came to this city, and soon after her arrival, while stopping at the house of Mrs. Jacob Atkinson, she procured a newly born infant from the almshouse, with the intention of presenting it to her husband as her own, but the infant died. Soon afterward however, she procured another infant, which she took to Wheeling and presented to her husband. Since then she procured two other babies, and brought them to Wheeling, successfully making her indulgent husband to find sustenance for three whose mothers were unknown. Only one of them survived. About one year ago Mrs. Scarlett returned to this city, but soon afterwards returned to Wheeling, and is now living with her husband and her almshouse child.

An Artilleryman Drowned.

KINGSTON, Aug. 3.—At B Battery's second day's shooting at the annual matches in the township of Pittsburg, an unfortunate accident occurred during the firing. Gunner Howard being drowned. He and one Donovan went in swimming, got beyond his depth, was missed, and before the body was recovered life was extinct. Howard was an Englishman, nineteen years of age, and was one year attached to the battery.

PEARLS.—Get your mouth full by using THAYER'S, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent samples.

Those affected with weak lungs, sluggish liver or Derangements of the Kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tally, druggist.

LARGE numbers of cattle are being carried off by cattle disease in Nova Scotia.

SATURDAY, AUGUST 5, 1882.

THE CENTRAL EXHIBITION.

This year the Central Exhibition for the Counties of Peterborough, Victoria, Durham and Northumberland is in due rotation to be held in Cobourg, on the 26th of September, and the two following days. Arrangements are being made to provide proper accommodation and to make the exhibition a success in every respect. The regular prize list amounts to \$2,500, and in addition there are special prizes offered for spring wheat, barley, "Scottish Champion" Fowl, pigs, &c., &c. A lecture is also to be given by Prof. Brown, of the Geology Agricultural College. Besides these more business like attractions, to provide amusement, there are prizes for a lacrosse match (a valuable cup), for the best boy rider, the best girl pianist, &c. The Secretary of the Central Association, and those of the contributing societies will gladly afford further information required.

We hope that the various Peterborough Societies will be adequately represented at Cobourg. Since these joint exhibitions have been established it is admitted that they have done much good, and that they have been as successful as was anticipated. Their continued success can only be assured by the localities which are not in any particular year to be the scene of the exhibition taking part in it, even if at a little additional trouble and expense. In order to derive the full benefit from such a system our agriculturalists and others should measure their strength with those of other sections, for it is by such competition that progress is most effectually encouraged.

Peterborough was in a manner the birthplace of this system of joint exhibitions for the four counties, and we hope that our people will contribute their full share to its maintenance.

EDITORIAL NOTES.

SOME of the meaner specimens of Reform journals are asserting that the "Tory" Local Government in British Columbia has been defeated. This is true as far as it goes, and is only a case of a dishonest suppression of the truth. Then they go on to utter a wilful falsehood by stating that this defeat shows that the Reformers are gaining power in the Provinces. The truth, as they well know, is that the defeated "Tory" Government gives place to another "Tory" Government. It is a mere local question.

THE Post Office Inspector has been in Port Hope and, in company with Colonel Williams, has inspected several sites with a view of selecting one for the new Post Office, which is to be built by the Government. As our population is larger than that of Port Hope, and the business in our Post Office is greater, we see no reason why we should not also have a Government building.

THE Independent Toronto Telegram in an article condemning the Railway grant made by the Mowat administration, says:— "John Sandfield Macdonald and M. C. Cameron were wiser politicians than some people once thought."

Mr. Sandfield Macdonald's plan was to give moderate aid to colonization roads that would open up and develop the country. Mr. Mowat's plan has been to squander extravagant grants upon localities where he had firm supporters, much of the money thrown away being lavished upon the wealthy and populous but glib riders in West Ontario.

THE MURRAY CANAL.

THE Brighton Ensign, a Reform journal, in an article entitled "The Globe's Correspondent on the Murray Canal," ably controverts the position taken by the Globe in this matter, and enters a forcible protest against it. As to one aspect of the case the Ensign says:— "It may appear presumptuous for us to criticize the writings of one of the great Globe's 'special correspondents,' yet when statements are made which are misleading and a positive injustice to many concerned, it becomes our duty to correct them, so far as our limited space will allow. The letters appeared in Wednesday and Thursday's Globe of last week, and are evidently inspired by Geo. W. McMullen or others acting in his interest and behalf. The part which that gentleman took in disclosing the iniquity of the events connected with the Pacific Scandal prove him to be a man of astuteness and ability, but when he undertakes to change the route of a canal to accommodate his own purposes and aggrandize the railway company which he represents, it becomes a much more difficult case even when assisted by the power and influence of the Globe."

Just received a full range of Genuine Tweed Waterproof Coats at "Habilitation Hall."

COBourg CAR WORKS.

The Sentinel Star says:—During the past few weeks a report has been most industriously circulated through town, that Mr. Crossen's Car Works were declining, and that he had found it necessary to discharge no less than a hundred and fifty men. It might also have been noticed that it was principally members of the Reform party who were circulating this report, and the alacrity and apparent gusto with which they imparted the information wherever they gained it, was astonishing. Here was a grand threat at the National Policy. What if it did tend toward injuring the greatest interest of which our town is possessed, and the one that gives employment to so many of our people, so long as that glorious institution, the great Liberal Reform party got a boost? It might also have been noticed that men of grit and proclivities, who find employment at these works, but still who are very prominent at elections in opposing the government, and the policy from which they derive their bread and butter, were just as industrious in circulating the report that Mr. Crossen had to discharge a large number of men, as others. It might therefore be conjectured that when a report was started, and seized upon with such avidity by the members of the Opposition party in town, it would not be long in finding its way outside and receiving many additions and comments from the Reform press, and such has been the case. Numerous Reform journals have taken hold of the report, and the N. P. has been completely annihilated with it. Now what are the facts? Simply these, that Mr. Crossen, like every other man having a large number of workmen under his employ, found it necessary to discharge fourteen men. Of these fourteen discharged, seven have since been taken on again. So that the one hundred and fifty discharged, some have got it as high as two hundred and fifty,—has dwindled down to seven men. But there are many things in connection with the works that are not so industriously circulated by our Reform friends and Reform journals. They have not circulated that Mr. Crossen has more men this year, even taking out those discharged, than ever he had before; neither have they circulated that Mr. Crossen is now prepared to put on far more skilled workmen, than the number discharged, if he can get them. Nor has it been circulated that if Mr. Crossen could have delivered the cars required to the C. P. R. by the 17th of July, he could have had enough work to have put on some hundreds more men than he has at present, but large as his works are he had not room. We would invite some of those grit journals that are insinuating the decline of the Cobourg Car Works, to pay these works a visit, and they will find a very lively concern. They will see a large brick office just completed. They will also see men preparing to erect another building for storing purposes; they will find that there is a large trip hammer for the works on its way, and they will be defamed by the hum of industry that will surround them. Come on brother chips; come on; if you go home and write up the Cobourg Car Works.

THE MUDIR.

The fact that Europeans still remain in Upper Egypt would indicate that the population residing beyond the limits of cities and larger towns, with their habitual wariness about going to war, have not as yet taken any direct or at least serious part in the outbreak. The action of the Governor of Minieh, 126 miles up the Nile from Cairo, was a perfectly natural proceeding for that official, when he refused to permit any interference with the administration of the railways. The province of which Minieh is the capital is agriculturally one of the richest in Egypt, and the Governor considers himself an important factor in the governmental machinery along the Nile. When travellers stop there he generally provides an elaborate Turkish dinner, the inevitable chibouks and coffee, and gayly caparisoned asses and donkeys on which to mount to visit the points of interest lying beyond the town. Then follows the *fandisier* with the Egyptian dancing girls, the *ghezzes*, which holds the party far beyond midnight to the sound of revelry and the rude native music. Few of the large towns along the river have ever had a heartier or more hospitable Mudir than Minieh. The town is simply a mud city of some fifteen thousand souls, dwelling near the bank of the river in all of the singular peculiar to the Egyptian habitations. In these settlements, and such as they are further to southward, the entire population—men, women and children—are made to work in the fields. It is between himself and the Khedive, through the Minister of the Interior, who manages the entire local administration. The Mudir has supreme charge of the taxation in his province, in fact, is king of the domain over which his jurisdiction extends. He must, however, be careful to see that every landed proprietor receives his share of the Khedive's revenue. He must also take the form not only of money, but also of the handsomest Egyptian maidens whom he can find in the province. Nor is their social quality respected. There have been, in years gone by, terrible reprisals on account of the ruthless desecration of the household. Among the more spirited Bedouine Arabs, whose daughters and sisters have been seized for the harem of the Mudir of the Khedive, the scheme of blood revenge has been developed, and retribution has followed until whole families have been swept away. It thus appears that the Mudir is but a slave of ruling power in Cairo, making the better Governor when he can exert in pandering to his immediate superior the Minister, and then to the Khedive. Thus it is when Arabi, now the supreme power at Cairo, calls on the six Mudirs of Upper Egypt for 500 horses and 650 camels, they will be forthcoming or the Mudirs will lose their positions.

If Cattarah has destroyed your sense of smell and hearing, Hall's Cattarah Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

BED-RIDDEN AND CURED.—W. E. Huettig, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks a solid walk about. By druggists.

H. A. WARD, Secretary. A. HUGEL, President.

Mr. B. SHORTLY

Is the only person in Town or County who has the privilege of making my Patent Check of all Checks. Be sure and get one.

Prof. J. G. McPHERSON.

Peterborough, August 3, 1882.

THE CONTENTED MAN.

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$3.00 on a purchase of 50 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

N. H. DOWNS'
Vegetable Balm
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.: Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis, and every species of oppression of the Chest & Lungs. In all cases where the Elixir has been administered its effects have been invariably successful, relieving the most inveterate cases.

CONSUMPTION
is not incurable, if properly attended to. Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, a hoarse dry, then a moist one, a loss of sleep, a loss of appetite, a loss of weight, a loss of strength, a loss of color, a loss of vitality, a loss of life. The Elixir cures the disease, restores the system, operates as a tonic to remove all morbid humors, and induces a healthy condition of the system. It is a powerful expectorant, from the system. It is a powerful expectorant, from the system.

IT HEALS THE ULTERATED SURFACES
and relieves the cough and makes the breathing easy. It soothes the throat and at the same time reduces the fever. It is free from opiate and is a safe and reliable remedy for all cases of Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis, and every species of oppression of the Chest & Lungs. In all cases where the Elixir has been administered its effects have been invariably successful, relieving the most inveterate cases. Price 50 cents and \$1.00. Sold every where.

DR. J. H. DOWNS, Proprietor.

MONDAY, AUGUST 7, 1892.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE CORNER OF OPERATIONS.

An Engagement with the Native Troops—The Enemy Hadly Defeated—Panic Among Christians in Constantinople—Russian Troops Ordered to be in Readiness.

MOORE TROOPS FOR EGYPT.

LONDON, Aug. 5.—The second battalion of the York and Lancaster regiment, 800 strong, embarked on the steamship Nevada at Kingstown to-day for Egypt.

A DISTINCTION FROM THE KHEDEVE.

PORT SAID, Aug. 5.—British troops have landed at Ismailia. It is stated the Khedive has authorized the English Admiral at Port Said to take what steps he thinks necessary in the canal, and has conferred upon him the title of Governor of the Isthmus.

HOSPITAL CORPS FOR EGYPT.

LONDON, Aug. 5.—The transport steamer Marston sailed from Portsmouth for Egypt with a detachment of the hospital corps, a number of the field hospital corps, 15 officers and 220 men of the Royal Irish Regiment.

THE INDIAN CONTINGENT.

BOMBAY, Aug. 5.—The first detachment of the main body of the Indian contingent, consisting of the 7th Bengal Infantry and 13th Bengal Cavalry, sailed for Egypt to-day.

SPAIN SATISFIED.

MADRID, Aug. 5.—Great satisfaction is felt here over the report that all the powers except Turkey and England have admitted the claims of Spain to be consulted in regard to the protection of the Suez canal.

A VICTORY FOR THE BRITISH.

ALEXANDRIA, Aug. 5, 6.30 p. m.—At 5 this afternoon the British troops, with number of field guns served by sailors attacked the advance guard of Arabi near Ramleh, between the Mahmoudieh Canal and the Cairo Railroad, firing upon the enemy's position from three sides. The engagement which was serious, still continues.

LOSSES OF THE ENEMY.

ALEXANDRIA, Aug. 5.—It is estimated that from two to three hundred Egyptians were killed yesterday. An officer and fourteen men of a Moustaphian regiment were captured. The prisoners were offered the option of returning to the enemy's camp. They all refused, saying there was great discontent there. Arabi sent as prisoners to Cairo some officers who asked what they were fighting for. The prisoners reckon the force at Kafr-el-Dwar at 1,000. A great movement of Egyptians is reported between Suez, Ismailia, Zagazig, and Cairo.

THE CONFERENCE.

CONSTANTINOPLE, Aug. 5.—In the conference yesterday Lord Dufferin accepted the principle of a collective protection of the Suez canal. The French ambassador reserved his opinion owing to the political crisis in Paris. The other delegates, including the Turkish representatives, accepted collective protection with the modification there should only be a provisional supervision of the canal. Lord Dufferin again insisted upon the proclamation of Arabi as a rebel.

TURKISH TROOPS FOR EGYPT.

CONSTANTINOPLE, Aug. 5.—It is stated on good authority that 3,000 Turks sailed to-night from Salonica for Egypt, via Suda Bay. Sixteen thousand more are under orders for the same destination. It is reported the British intercepted a courier bearing despatches from Arabi to the Sultan.

RUSSIA NOT FORGOTTEN.

BOMBAY, Aug. 5.—The Herald's Paris special says:—Clemence states that the Foreign Office at St. Petersburg has not forgotten England, who turned back the victorious Russian army from the gates of Constantinople which the treaty of San Stefano opened to it.

PARTICULARS OF THE VICTORY.

ALEXANDRIA, Aug. 5, 10 p. m.—The object of the operations to-day was a reconnaissance in force. Commencing at 4 o'clock this afternoon, a steady advance was made, the marines upon the railway line, the rifles upon the west bank of the Mahmoudieh Canal, and the South Staffordshire regiment and mounted infantry upon the east bank. The enemy were driven in from all the advanced posts, and compelled to bring into action all their troops available in from their principal line entrenchments at Kafr-el-Dwar, namely, about four battalions of infan-

try, a force of cavalry and several guns. The latter were completely silenced by the accurate fire of our forty-pounders. The Egyptian infantry held their ground with considerable steadiness. The marines on the railway, under the immediate command of General Alison, pushed the enemy back upon the second line of entrenchments. The marines were supported by the South Staffordshire Regiment and the Rifles. They suffered somewhat, but behaved with the greatest coolness and steadiness under heavy fire. The object of the movement, which was to compel a display of what force and guns the enemy had in front of the main position, was completely attained. This was ascertained by nightfall, when the British were slowly withdrawn. No accurate return of the killed and wounded is yet obtained. The enemy's loss is unknown. A large number of their wounded fell into the hands of the British and many dead were seen. A considerable number of the enemy were made prisoners.

GERMAN OPINION.

LONDON, Aug. 5.—A correspondent at Berlin says that the greater part of the German press, referring to the occupation of Suez by the British, acknowledged that England has acted wisely in occupying positions which now are of great importance to her.

THE UNITED STATES FLEET.

NEW YORK, Aug. 7.—Admiral Nicholson has been instructed by cable to hasten the departure of a vessel to Tripoli and Tunis, to remove the consular records from those places, and to dispose the vessels of his fleet along the Mediterranean coast so as to protect American interests in that locality. It is understood that previous instructions to the same effect were sent to Nicholson, but he has not reported his compliance with them.

THE BRITISH FLAG GIVEN OFFENCE.

CONSTANTINOPLE, Aug. 7.—An unpleasant feeling has been caused on account of the hoisting of the English flag on the public buildings, where the British occupied Suez. The Porte has been assured that the raising of the flag has no significance. The flag was that of consulate, and was hoisted in conjunction with the Egyptian flag. The explanation is not considered satisfactory.

PANIC AMONG CHRISTIANS.

CONSTANTINOPLE, Aug. 7.—Certain Mollahs have been particularly active lately. The bulk of the garrison is jealous of the ported Albanians and guards of Yildiz. The native Christians are uneasy. There was a groundless panic on Wednesday among them in Stamboul.

THE DEIGNERS OF RUSSIA.

ST. PETERSBURG, Aug. 7.—It is reported that the troops in Odessa and in the Caucasus have received instructions to hold themselves ready to embark for Constantinople in the event of war between England and Turkey. It is believed that the Czar would regard such a conflict as an interpretation of Providence, whereby the present nihilistic tendencies of the country might be overthrown and result in a complete pacification with the Emperor.

MIDNIGHT TELEGRAMS

CABLE.

COMMITTED FOR TRIAL.

TRAM, Aug. 5.—Kelly, the proprietor of the Tram Herald, was committed for trial to-day for publishing an article written by James Radpath. The vicinity of the court was crowded.

THE CONSTABULARY.

DUBLIN, Aug. 5.—According to telegraph advices from every part of Ireland, the constabulary are determined to have their grievances remedied or resign. Mr. Clifford Lloyd had the Limerick men paraded yesterday, and upbraided them for their conduct, saying that if they were soldiers they would be shot. The men replied they were not soldiers, and denied acting disloyally. They refused to withdraw their circular. The Inspector-General had them again paraded and asked them to withdraw the circular, and promised that if they did so, their claims would be represented to the Government and certain allowances made them. The men again refused and threatened to resign within eight days if they did not in the meantime receive a favorable answer. It was intimated to the officers that in consequence of Lloyd's language they would not parade for him again.

AMERICAN.

THE EIRA EXPEDITION.

HANOVERST, Aug. 5.—Letters from Sir Allen Young, commanding the Eira search expedition, dated Kermanshah, Nova Zembla, July 19th, state that all on the steamer Hope were well. The Hope had a stormy voyage. There was no news of the Eira, but a Russian captain boarded her off Nova Zembla at the end of last July.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE BOERS DEFEATED.

DURBAN, Aug. 7.—The Boers with a native contingent were defeated on the 28th of July, by Montagu with a heavy loss.

THE FRENCH CRISIS.

PARIS, Aug. 7.—It is stated that Duclerc has formed a Ministry.

CROPS BURNED.

BERLIN, Aug. 7.—A destructive fire occurred at Stavropol and along the Ruma River in the Caucasus crops covering an area of 80 square kilometres were burned.

AMERICAN.

TARRED AND FEATHERED.

TARPORT, Pa., Aug. 7.—On Saturday William Hall attempted to outrage a six year old girl. The citizens tarred and feathered him and drove him out of the town.

A CHILD BURNED.

ABILENE, Ka., Aug. 7.—The grainary and barn of Bishop Samuel Seok were burned on Saturday. The little daughter of the Bishop, who, it is supposed, set some hay on fire with matches, perished in the flames.

FALL OF A CHURCH.

STREUBERVILLE, Ohio, Aug. 7.—Yesterday the Christian Church building fell with a terrible crash. Had the fall occurred half an hour later a large number of people would have been killed or injured.

A STRANGE SUICIDE.

ST. LOUIS, Aug. 7.—John McMahon, a well known conductor of the Vandallia railroad, after drinking with some friends last evening took a nap, and on awaking shot and killed himself. The cause is unknown.

WOOL IN ONTARIO.

The *Monitory Times* says:—"Among the statistics of agriculture obtained by the Ontario Bureau of Industries, not the least interesting were those relating to wool. This journal has, as our readers know, pressed upon the attention of farmers and breeders for a year or two past, the need of making a change in the character of the wool grown in Canada from the coarse, long-stapled kinds, to medium or fine. The Secretary of the Bureau, in his pamphlet of last month, has the following upon this subject: "They, (the wool statistics), are interesting, however, as showing, first, the high average of wool clip that has been attained through years of careful breeding; and, secondly, that (in obedience to what appears to be an inexorable demand of fashion) Ontario farmers have already made some progress in the change from coarse woolled to fine-wooled breeds."

The figures relating to wool, which are as the pamphlet states, incomplete, the figures being expected to be considerably increased by later and revised returns, are given below:—

	Pounds.	Fine.
Lake Erie Counties....	527,193	61,469
Lake Huron do....	648,466	101,004
Georgian Bay do....	403,980	74,989
W. Midland do....	1,065,329	183,905
Lake Ontario do....	902,888	142,966
St. Lawrence & Ottawa Counties....	919,584	370,663
E. Midland Counties....	253,215	65,848
Northern Districts....	20,054	7,061
Total.....	4,740,617	877,974

It appears from this tabulation that the Algonquin, Muskoka and Parry Sound sections, which constitute the "Northern Districts" in the above, have the largest proportion of fine-wooled sheep. Next in order come the St. Lawrence and Ottawa, and then the East Midland Counties, while the West Midland, embracing Middlesex, Oxford, Brant, Perth, Wellington, Waterloo and Dufferin, exhibit the smallest proportion. The proportion of fine wool to coarse, upon the whole is about 184 per cent., or a total of 877,000 pounds out of 4,740,000 pounds. We trust to see, year by year, an increase in the proportion of short stapled wool grown by our farmers.

SCOTLAND.

It has now been definitely decided to build a permanent observatory on Ben Nevis.

The Kinross people are still fighting over rival water schemes, and another public meeting is to be held on the subject.

The Conservative party in Dumfriesshire have secured a candidate for the representation of the county at next election in the person of Sir Robert Peel.

The people of Troon are going to law regarding their right to the footpath through the Warren past Fullerton House, of which the Duke of Portland is trying to deprive them.

An attempt was made on the 8th of July to throw the Scotch Express to Manchester off the line near Charnon by firmly securing a large stone on the rail. Fortunately it was discovered in time.

The ancient burying-ground at Eoolfechan, in which rest the remains of Thomas Carlyle, has been greatly improved, the boundary wall having been rebuilt, walks formed, and all rubbish removed.

Excavations were about to be erected in the neighborhood of Motherwell or Wiewaw, in Scotland, for the manufacture of steel by the Gilchrist process. By this process first-class steel can be manufactured out of the lowest quality of Scotch pig iron.

The remuneration of the City of Glasgow Bank liquidator has, by private arrangement, been fixed at £25,000 in full of all claims up to the end of the liquidation, the apportionment of the money being left to the liquidators themselves. Their reports are to be approved in October, 1892.

On the 7th July a thunderstorm passed over Nova Scotia, when rain descended in torrents accompanied by hail-stones. The roads were turned into river beds. Many houses in Eranon and the surrounding district were flooded, and large portions of fields here and there were under water.

VICTORIA, B.C.

Special to the Review, Aug. 7.
A LABOR INFUX of Chinese is feared as soon as the restrictive law goes into force in the United States. Several vessels from Hong Kong to American ports have changed their destination to Victoria.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Those affected with weak lungs, sluggish liver or Derangement of the Kidneys, should procure a package of Dr. Cassen's Liver and Lung Compound. Each 50 cent package makes three pills of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

THE nearer we follow nature in the treatment of disease, the more successful we are. Dr. Fowler's Extract of Wild Strawberry is Nature's specific for Cholera Morbus, Dysentery, Colic, and all forms of Summer Complaints. Its speedy cures Canker in the stomach or bowels, and is safe for infants as well as adults.

We are constantly improving

our stock with the Newest Designs and Patterns, so that Man or Boy shall not ask for anything in the Gents' Furnishing Line but what we can offer him. "Habillment Hall."

JUST ARRIVED!

South End Bookstore.

Late J. I. DAVIDSON.

Daily Evening Review

MONDAY, AUGUST 7, 1882.

PROVINCIAL EXTRAVAGANCE.

As an excuse for the extravagance with which the Mowat Administration has increased the expenditure of this Province, till it is nearly double that which Mr. Sandfield Macdonald found sufficient, we are told that the expenditure of the Dominion has also been largely augmented, though at other times this increase is severely censured. There is, however, such a wide difference between the two cases, that the one cannot be fairly compared with the other. At the time of the Confederation, Canada consisted of only four provinces, and they were, in many respects, isolated and undeveloped. Since then, says additional provinces have been united with the Dominion, a third has been called into existence, and a territorial government has been provided for our western provincial possessions. To cover these scattered provinces, great and costly public works have been undertaken, such as the Intercolonial and Pacific Railways, and the improvement of our great inland water way. To complete our territorial title, the Hudson Bay Company had to be bought out, and Indian rights had to be satisfied, both with large sums. The consolidation of the older portions of the country, the settlement of the newer portions, the establishment of institutions and of a public service worthy of a great Dominion, have all been necessarily costly. A large share of the Provincial debts has been assumed by the Dominion, thereby increasing its expenditure for interest, while to the same extent relieving the Provinces. All these items, and many others, which need not be mentioned in detail, have unavoidably increased the expenditure. A poor like Canada could not be built up without cost—it would be as useless to expect the Empire of Germany or the Kingdom of Italy, to spend no more than did Prussia and Sardinia.

With the Province of Ontario the case is very different. There has been no such enormous extension, no such altered circumstances, as in the case of the Dominion. Of course, with the increase of population, of settlement and of development, there must be augmented expenses, but there has been no such growth as would account for or justify the startling increase of expenditure under Mr. Mowat's management. Much of the money has been absolutely wasted, as must, of course, be the case so long as he applies it to strengthen his own position with his supporters, and also to reward those who unhesitatingly serve his Dominion allies.

One very alarming feature of this question is that this extravagant current expenditure has been largely provided, not from revenue, but from capital. The surplus left by Mr. Sandfield Macdonald has been considerably diminished. An effort has been made to conceal this by stating the surplus to remain at about the same amount, but this is accomplished by taking into account various trust funds and non-productive assets, which might equally be added to Mr. Macdonald's surplus, when its impairment would be admitted. One indisputable fact remains, that the cash surplus is easily diminished.

Not is this the only weakness that Mr. Mowat has made upon the capital of the Province. Since he has been in power he has alienated land and timber, part of the capital of Ontario, and has applied the proceeds, to the extent of many millions, as if they were current revenue. It is as if a private individual were to sell some of his land year by year to meet his Christmas bills, and were then to boast that he had not exceeded his income. The result, in the end, must be bankruptcy.

These is the greater danger in this on account of the inelastic nature of the Provincial revenue. When the Dominion calls its hand, the settler augments the receipts by his consumption of dutiable goods, and so forth. Not so with the Province, for the increased revenue is so infinitesimal as not even to serve the increased expenditure. When our land and timber receipts fail us, we can only fill the gap by direct taxation, either levied by the Provincial Government, or by the municipalities to replace grants which would have to be discontinued.

We are drifting fast into this condition under the extravagant management of Mr. Mowat and his colleagues. The remedy is plain.

Pure Water.

Application is being made to the Lieutenant-Governor of Manitoba in Council for a charter incorporating the "Winnipeg Spring Water Company" for the purpose of supplying the city of Winnipeg and other places in the Province of Manitoba with pure spring water: John S. Dennis, Jr., Winnipeg; David Glass, Q. C., of Winnipeg; S. W. Vaughan, and Chester Glass, Toronto. The amount of capital stock is to be \$500,000. Shares \$100 each.

THE CANADIAN NORTH-WEST.

General Manager W. C. Van Horne and the Canadian Pacific.

Mr. W. C. Van Horne, general manager of the Canadian Pacific railway, was in the city yesterday, says the Chicago Tribune of 2nd. Mr. Van Horne informed a Tribune representative that there is not a word of truth in the reports that he intended to resign his position. He says he never contemplated any such action, nor was there any reason why he should do so, in his relations with the owners and officers of the road were of the most pleasant nature.

During the season, he stated, the Canadian Pacific will add 640 miles of new road to its mileage; 500 miles of this will be on the main line and the balance on branches. Construction is being carried on with the utmost rapidity, and from three to four miles of new track is being laid each day.

Mr. Van Horne speaks in glowing terms of the future prospects of the Canadian Pacific, and claims that the lands along its line are peculiarly adapted for the agriculture and particularly wheat-growing. He says the prospects for a big wheat crop this year are very bright, and he thinks the wheat raised along the line will average thirty bushels to the acre. While the crop prospects in the Red river valley are not as good as usual this year, owing to unfavourable weather, the prospects along the line of the Canadian Pacific indicate more than an average yield. The season in the Canadian Pacific country, Mr. Van Horne says, is short, but the crops mature and ripen much quicker than in this part of the country, because in that northern latitude the days are much longer. He thinks harvesting along the line of the Canadian Pacific will begin in about two weeks.

THE COUNTERFEITERS.

A Wealthy Man of Toronto Alleged to be With Them.

It was thought by the police some time ago that there was a gang of counterfeiters operating in the neighbourhood of St. Catharines. Within the last two weeks it has been reported that Mattland and Frederick, of the alleged St. Kitts gang, have been operating in Toronto. A number of 25 and 50 cent pieces are said to be from their forges. They are also reported to have counterfeited a number of \$5 American bills. Mr. Greenleaf, of Toronto, formerly of the Counterfeit coin detecting agency, stated to a private detective, who is said to be in the city, that Mattland and Frederick's money passed the money, while the real money was one of the wealthy men of Toronto. This private detective is not known to the police of this city and they do not believe that any such person is here. It is thought, however, that if there is one here that he must be a well known counterfeiter who is said to have peached on his former pals. James Nelson, alias Stacy, of Toronto, now in the city jail awaiting his trial for counterfeiting, was well acquainted in St. Catharines, and is believed to be with this gang.—Hamilton Times.

CHIEF.

OUR CRICKETERS.—The Herald says that we understand that the Omeas club received a challenge this week from one of Toronto's crack teams. On account of Mr. A. Williamson, one of our bowlers, getting his collar bone broken last week, we don't know whether the team will accept the challenge.

ANOTHER.—On Monday last at noon the village was thrown into a state of excitement by the cry of fire and the ringing of the fire bell, caused by an incident fire in Mr. Kinnell's saw and planing mill. The fire started in the engine room but fortunately was discovered in time to prevent a serious conflagration. Great praise is due to the fire company, as the men had the apparatus out and at the scene of action in less than three minutes after the alarm was given.

BOOMING.—Mr. S. English informs the Herald that he has been doing a large trade in grain cradles and harrows for this season; in fact his sales have doubled that of last year, and although he has been running his factory on over time could not supply the demand by some hundreds of orders. As soon as the reaping season is over he will commence getting out supplies for next season on a larger scale.

HABOC.

HORSE STRALING.—The Review says that Mr. Robert Rollins, of this village, came near losing his horse in Belleville, on Wednesday last week. The animal was in the stable of the Queen's Hotel and during the night was taken out by a discharged hostler named David Connor, who immediately left the city. A policeman saw the horse and rider coming out, however, and suspecting that all was not right, informed Mr. Soby, of the Queen's, when the stables were inspected and Mr. Rollins' horse was found missing. Three policemen were immediately started out on different roads in pursuit, the thief being overtaken and secured at Oshawa, where he was trying to dispose of the horse. He has been committed for trial.

FIREWORK FALLS.

ACCIDENT.—The Gazette says that last Monday evening a number of the village lads were amusing themselves and showing their balancing powers by running along the broad and flat top rail of the new iron bridge and sliding down the end, which slopes at an angle of about 90 degrees. The fun was kept up for some time, until Andrew McFarland, aged about 17, fell from some cause just as he reached the ground and broke both bones of his left leg, two or three inches above the ankle. He was at once placed under the care of Dr. Wilson, and at last account was doing well.

A Skeleton Found.

NEWBURY, Aug. 4.—The skeleton of a man was found in the Gamble Woods near here yesterday by some boys while berrying. At first it was declared to be the remains of the boy Swain, who disappeared about three years ago. A view of the remains, however, showed the skeleton to be that of an old man, there being a tuft of white hair over each temple. The two front teeth of the upper jaw are wanting. The deceased wore a checked shirt and dark trousers, and a hat, but no boots or other clothing or anything has been found to identify the unknown.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

Just received a full range of Genuine Tweed Waterproof Coats at "Habillment Hall."

Nothing to Laugh For.

Daniel And 4.—William Murray, who received injuries on the Canada Southern railroad near Trenton on Wednesday evening, from which he died, is said to have intended to commit suicide, as his brother George, who lives at Ridgeway, Ont., received a letter on Monday afternoon, dated Detroit, July 31st, in which he said he was discouraged and bidding his relatives farewell. The brother came at once to this city and called on Mr. Vinton, for whom deceased had been at work. The search was continued until late on Wednesday evening, when the brother took the train for home. When near the junction he found what appeared to be a man being run over by the cars, and getting off at the next station, he returned to the city, arriving at the hospital just as the brother died. There seems to be no doubt that the man intended to commit suicide by drowning, but that when he reached the water his courage failed him. He then took another and more rapid course, and threw himself before the train. Deceased lived with his parents at Ridgeway, having three years ago sold fifty acres of land he owned. He then went to Chatham, where he kept a heavy and safe stable. Although he lost all of his money by kept up appearances, and married a young girl from a neighbouring town; his bride learning that he was in straitened circumstances, returned to her parents, and refused to live with him or to receive the money which was sent her by letter from him, and it was after this blow that he wrote to his parents that he was discouraged, had nothing to live for, and was determined to die.—Mail.

THE CONTENTED MAN.

Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article sought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$2.00 on a purchase of \$20.

Prove it by inspecting my stock of JAPANS AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

Daily Evening Review

MONDAY, AUGUST 7, 1893.

LOCAL AND MUNICIPAL.

Clean Street.

There was a clean sheet at the Police Court this morning, no business coming before the court.

F. B. C.

The regular monthly meeting of the Boating Club will be held this evening at 7.30 o'clock in the boat-house.

Council Meeting.

A meeting of the Town Council will be held this evening in the Council Chamber at 7.30 o'clock.

A Good Chance.

A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the REVIEW office.

Notice.

Mr. McClelland's photographic studio, Simcoe street, (over Flavelle's feed store) will be closed until Friday noon, August 11th, in consequence of his having to attend to his branch at Bobcaygeon.

Personal.

On the staff of the force that is on its way from India to Egypt, appears the name of Major A. C. Toker, of the Bengal Staff Corps, as Deputy Assistant Adjutant General. Major Toker has many relatives in this district.

Fiscular.

Mr. J. M. Quinn and Mr. F. Henry did some good fishing in Rice Lake this morning, catching sixty pounds of fine bass in an hour. The fish in Rice Lake must understand how to bite, and these gentlemen how to haul them in.

The Weather.

The extreme heat still continues. The weather probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes, — and western St. Lawrence—Moderate south to west winds. Generally fair, very warm weather. Local thunder showers.

A Bathing Nuisance.

Some boys delight in swimming in the river near the Grand Junction bridge when the train is passing, and in running on the logs and making loud noises to attract attention. They should be stopped. Even if they do wear swimming trunks, which they do not all do, they should keep in the water and not exhibit themselves so prominently.

Midland City Lots.

We beg to call attention to the advertisement of the sale to-morrow by the Midland Land Company of Midland, and of the special excursion tickets to be obtained by intending purchasers. Midland, from its position, must become an important town; the facilities now offered by the Midland Railway, and those in prospect from the Trent Valley Canal, cannot fail to build it up. Such an opportunity of obtaining lots there should not be neglected.

An Old Resident Gone.

We regret to have to record the departure of another of our old land marks, Mr. John Reid, P. L. S., who had been ailing for some time, and died on Saturday night, at the age of 78 years. Mr. John Reid was one of the earliest settlers in this neighbourhood, having come to this country as a lad with his father and the rest of the family in 1818. Mr. Reid had been for several years a widower; he leaves a family of three daughters and one son, all unmarried.

A Malicious Act.

On Saturday night some evil disposed person or persons betook themselves to the corner of George and Simcoe streets, the new and handsome premises of Mr. Macfarlane Wilson, and maliciously went to work destroying valuable property. The new awning around the premises was torn, and the iron rods bent almost double. It will be remembered that some time ago almost every store in town that had those awnings was visited by perhaps some of this same gang, and used in a like manner. Surely such a state of things should not be allowed to exist in a town like Peterborough, where every facility is available for quelling the evil ways of the "night-hawk" that infest our town. Let the authorities move in the matter and put a stop to such diabolical and malicious acts.

Lacrosse.

We notice that it is stated in Saturday's Mail that the St. Catharines Lacrosse Club expect to play the Midlands of Toronto, on the 16th of August. The Midlands are expected to play here on that date.

Returned.

A large camping out party, captained by Mr. F. Hughes, who have been seeking pleasure in the north, and were camped on Hurricane Point, returned on Saturday night. They report having had a splendid time.

Death in the Pulpit.

The Rev. Mr. Garvey, Baptist minister, while officiating on Sunday at the Baptist Church, on the Communication Line, in Smith, for his son-in-law, the Rev. Mr. Radcliffe, suddenly fell dead in the pulpit while giving out a hymn. His remains are to be removed at five o'clock this evening, to be conveyed to Woodstock.

The Waterworks.

Having completed the laying of the mains for the waterworks down George street as far as Sherbrooke street, the men are now engaged in the same work on Hunter street west from George. The trench has been dug as far as Bethune street, and those laying the pipes are following closely.

Mr. McElroy's Funeral.

The funeral of the late Police Constable McElroy was largely attended on Saturday. The Town Council attended in a body, and the Belleville police force was represented by a detachment consisting of Sergeant McRadden and Constable Newton. The remains were interred in the Little Lake Cemetery.

Good Crops.

A prominent farmer in Ennismore informs us that he never saw the crops looking better and more promising than they do this year, and what has been out yields well. Fall wheat, he says, will yield about thirty bushels to the acre, barley is heavy and has not been colored, and other grains look well. The root crop, he says, will also be good.

Photography.

We have been requested to publish the following notice:—

"We the undersigned do call the attention of our customers and the public generally to the following fact. Our studies will be closed and business suspended from the 16th of August to the 24th, both days inclusive."

(Signed) JAMES LITTLE,
J. W. ERMANN,
G. B. SROOGA,
ROBERT SMITH.

Something New.

Try our really delicious Water Ices, two flavours. Our Ice Cream in four flavours has been pronounced the best in town, without doubt. A nice variety of Cakes and Pastry always on hand. Our Confectionery is also very choice. Chocolate and Coconut Creams and Cream Almonds a specialty. Every thing manufactured on the premises can be safely guaranteed as good. Give us a call and be convinced that we are not making empty boasts. Don't forget the place, one door north of Bailey Bros., Humphreys & Carter.

Railway Notes.

The Madoc Review says that upwards of 400 men are at present engaged on the construction of the Ontario Central railway, and Mr. Coe informs us they expect an addition of about 75 per week from the emigration department, for some weeks to come. The line has been located to the northern part of Tudor, the engineer Mr. Bolger, being at work pushing northward now. Work is actively progressing all along the line. The Norwood Register says that all the idle men and boys in the village have been engaged by Messrs. McDermid & Hendrie, to work on the O. & Q. Ry., between this village and the Indian river.

As Others see Us.

The Belleville Ontario, in its comments on the St. Andrew's Excursion here, says:— "Peterborough is a pleasant, enterprising and hospitable town, and contains many fine buildings. There seems to be a good deal of life in the place, and a disposition to reap all the advantages possible from railways and other facilities. The inhabitants are noted for a geniality that secures them many friends."

The *Intelligencer*, in its account of the same excursion, has the following friendly remarks as to our town:— "The afternoon was spent by all but a very few in sight-seeing, and certainly the comments passed were of a character highly favorable to the thriving and enterprising town, which bids fair to surpass Belleville in point of population, in a very few years, unless our city takes a 'fresh hold.' Peterborough is lively and progressive; she is destined to be an important railway centre, and the construction of the Trent Valley Canal will greatly aid her in her march of prosperity. May she continue to thrive and realize her greatest expectations."

Destructive Fire.

HAMILTON, Aug. 6.—The new building of the Tribune Printing Company was destroyed by fire this afternoon. The entire stock and the building itself are a total loss. The insurance amounts to \$16,000, distributed as follows:—Royal Canadian, \$6,000; Northern, \$3,000; Standard, \$6,000; Alliance, \$1,000. The water pressure was extremely light, and the fire had been burning some time before it was discovered.

PEARLA.—Get your mouth full by using TEASBURY, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent sample.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of *MRS. WINDLOW'S SOOTHING SYRUP*. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you as soon that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. 4250

Boys' White Shirts, Men's White and Coloured Shirts, with or without Collar, in all sizes at "Habilitation Hall."

RAILWAY CHANGES IN TORONTO.

The Canadian Manufacturer says:—

"There are probably few people either in Toronto or out of it, who fairly realize the importance of certain railway changes now in prospect and which must soon be accomplished. Two new roads, the Toronto and Ottawa, and the Quebec and Ontario are laying down their lines north of the present city limits. The object of going northward is founded upon engineering considerations. Along the Canadian the various railway tracks are near the level of Lake Ontario, a few feet more or less above it. A Grand Trunk train coming from the west makes a pretty steep descent running the few miles next to the city; and going on to Montreal, makes a steep ascent to Scarborough Heights. All this is to be saved by a new high level line, which keeps on the higher level all the way. The new line will not dip down from the heights to the west of Toronto; nor will it have to rise up to the level of Scarborough Heights east. It will take a level grade, and the grain will be tremendous. That is, on the freight traffic. The opinion has been advanced, further, that even passenger traffic may be changed. And that the location of the Ontario Legislative buildings may be decided by the new and rather unexpected fact that Toronto is to have another railway front to the north, in addition to the old combined maritime and railway front at the south. That will the new northern front amount to? We don't know; but we do know that some very energetic and capable business men, with the Grand Trunk and the Syndicate respectively to back them, are now engaged in making up Toronto's back line. The enterprise being patriotic, we may wish them both success."

MADOC.

KICKED BY A HORSE.—On Friday evening, as a young lad named Cottam was leading a horse to water in Madoc, something startled the horse which caused him to kick the boy on the head, fracturing the skull in a most shocking manner. The boy still lives, but it is thought impossible for him to recover. The lad is about 15 years old.

N. C. POLSON & Co., druggists, etc., Kingston, express themselves as surprised at the sale of Hardcock Blood Purifier in that locality, where potent medicines are hard to introduce, but say, "the gross last ordered a few days since, will convince you that the demand is good, and that it is giving satisfaction to our customers."

THE BUSY END

Of our store is found in every part of it—in every department, and on all sides of it.

We are not disposed to say as much about it as are our customers, who remark the activity in every direction of what they compliment a well-ordered business. All details of our trade have responsible supervision, and everything connected with each department is being, if possible, more carefully looked after than heretofore.

IN THE EXISTING

Circumstances of the increased cost of living, everybody who wishes to be economical should ask themselves where and how they can spend their money to the best advantage?

A great many people have the habit of dealing in certain stores and buying large quantities of goods, and paying for them too, without ever asking themselves, "Could I have done any better elsewhere?"

If they would only take a little trouble and look around and call on us, they would be generally surprised in a six months how much to their advantage it is to trade with us.

EQUALLY SO

In all particulars it is with the stranger or transient visitor, whether great or small, whose custom is as much a matter of consideration to us as those of long standing.

Hence as far as our business obligations can go, all are on the same basis, and equally recipient of our best work. And everything we have shall equal the expectation of those who pay their money for it.

T. DOLAN & Co
Nos. 1 and 2, Clinton's Block, Corner of George and Hunter Streets.

KENDALL'S SPAVIN OURE,
The most successful remedy ever discovered, as it is certain in the effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.

Dr. B. J. KENDALL & Co., Gentles:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STONINGTON, Mass., March 18th, 1893.
Dr. B. J. KENDALL & Co., Gentles:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there, I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and so much to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.
KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, knowing mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unequalled success to our knowledge, for beast as well as man.
Price per bottle, six or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & Co., Edinburgh Falls, Vt.

Daily Evening Review

TUESDAY, AUGUST 8, 1882.

KEEP FAITH.

We regret to find that the Town Council, with some exceptions, seems disposed to break faith with the Ontario and Quebec Railway Company. Last spring in consequence of an application from the Company, the Finance Committee recommended that they should be offered the alternative of a lease for twenty-one years of certain lots in the South Ward reservation, at a rent of \$1,000 a year, or a lease of Spaulding's Bay for ninety-nine years at a shilling a year, with the condition attached that they should fill up Spaulding's Bay. This report was unanimously adopted by the Council and a copy of the report was communicated to the Company.

At the meeting of the Town Council on Monday evening the Company signified by telegram their acceptance of the former alternative. Instead of the Council immediately taking steps to carry out their bargain, there was a motion made to refer the matter again to the Finance Committee, but after some discussion an amendment was carried simply receiving the communication. The Council subsequently adjourned for a month, thus leaving the affair in abeyance, and in fact treating the communication with contempt, and ignoring their bargain with the company.

Now we must express our strong disapproval of this action or rather inaction. In the first place we object to the Council placing our town under the imputation of breaking faith and repudiating its solemn contract. But more than this, we believe that such treatment of the Ontario and Quebec railway company is extremely shortsighted and injudicious. Here we have a company willing without any bonus to assist in making our town a great railway centre, and to aid in its development, yet instead of welcoming them we treat them with contumely. Is this the way to encourage them to do anything more for the town than they are compelled to do? With what face can we go to them hereafter asking any favours, when we will not even treat them with common courtesy or the simplest justice?

The sooner the Town Council reconsiders their extraordinary action the better for the good name and the interests of the town.

THE CIVIL SERVICE.

The legislation last session as to the Civil Service, the regulations that have since been framed for its operation, the excellent choice of the Board of Examiners, and their zealous entrance upon their duties, all go to show that Civil Service reform has been undertaken in real earnest and is to be effectually carried out. It is the old story—Conservatives have introduced salutary changes, while "Reformers" with nothing to reform" spent their energies in talk without any practical result. It is true that in opposition the self-styled "Reformers" have clamoured for Civil Service reform, and that one of their members introduced bills in regard to it, but they gave him the cold shoulder, and David Morgan has since died. The wounded number fifteen including the engineer and fireman. A steep descent of 212 feet to the mile leads into the depot. In going down this grade the brakeman lost control of the train, which was unusually heavy, and it dashed along down at the rate of a mile a minute, finally jumping the track. A number of miners from the Cranberry Mines were on the train, thus accounting for the long list of casualties. The latest intelligence received states that Conductor Morgan, who was in charge of the train is dead.

HAL's Catterah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

and obtaining all available postage, that they may have the opportunity of thus profiting. It is no wonder that under such a regime the cost of the service is rapidly being augmented without any adequate increase of efficiency, and is becoming so great as only to be met each year by treading upon our capital. Some more of our land, and timber on our minerals will have to be alienated to supply funds to satisfy Mr. Mowat's official works.

STABBED BY HIS BROTHER.

A Serious Affair.—A Young Man While in the hospital, died, this morning.

Last evening a young man named Nathan Macdonald, belonging to a respectable family residing at 27 Victoria street, went home shortly after seven o'clock in a state of intoxication, and lying down on the sofa to sleep. Shortly after his elder brother James returned from business and seeing the condition in which the young man was perceived him to go to bed, and made him comfortable for the night. After doing so he left the house and spent the evening at the theatre. Returning home about 11.30 o'clock he was told that his brother had partially recovered from the effects of the liquor he had drunk, and was preparing to go out. Going into the bedroom he remonstrated with the dissipated young man upon his conduct and advised him not to go out again. Instead of receiving the advice in the spirit which it was given, the hardened youth, after giving an angry reply went on dressing. James endeavoured to stop him, but without avail, and sitting down he again earnestly begged his brother not to leave his house. The young man who was standing before the bureau facing the glass, after listening in silence for some time turned suddenly and rushed at his brother with an open pocket-knife in his hand. Before the latter could do anything to avert the blow, he was stabbed several times in the neck, just below the right ear. So viciously were the blows delivered, that the blade of the knife broke against the jaw-bone of the assaulted man. The desperate youth then left the room and went to the kitchen, where he locked himself in. The wounded man who was bleeding profusely rushed out of the house to the residence of Dr. Fulton, on Victoria street, who attended to his injuries. He stated that Mr. Macdonald had a very narrow escape from death, and could attribute his escape only to the happy accident of the knife breaking on the jaw-bone. Had it not been for this the jugular vein would have been severed, and death must have resulted almost immediately. After his wounds had been dressed the injured man went to the nearest police station and gave information of the assault. Two constables were immediately dispatched to arrest the culprit. When they reached the scene they found that he had barricaded himself in his room, and when summoned to surrender threatened to cut the throat of any policeman who laid hands upon him. Notwithstanding his threats the door was broken open and he was found with an open razor in his hand, with which he menaced the policemen. He was quickly disarmed, however, and taken to the station. The prisoner bears a very bad character, and about a year ago was sentenced to six months' imprisonment for an aggravated assault upon his father. He was examined by the police upon this morning and remanded until Monday, in order to allow Dr. Fulton to make his deposition. —Witness.

A TERRIBLE ACCIDENT.

An Engine Jumped the Track and Several Passengers Were Killed.

TITUSVILLE, Pa., Aug. 5.—City was aroused to-day at noon by a loud and continued whistle, which was interpreted as an alarm of fire. The department responded immediately and hastened towards Valley Depot, from which the sound seemed to come. A far different sight to that expected met their gaze. The track of the Cranberry Coal Railroad for a distance of two miles was torn up and strewn with the debris, while close at hand were shattered fragments of an engine, and a long train of freight cars piled up twenty feet high. The rails were twisted and broken, and the cars reduced to splinters. Physicians and others were soon at the scene, rendering assistance to the wounded and carrying off the dead. Albert Valler a boy who works at the Cranberry Mines, was thrown against a tree and had his brains dashed out. Robert McHenry, who was in the mines, was not killed outright, but was badly injured internally and soon died. The body of George Merring, a Scotchman, was taken out from under a car. The top of his head had been crushed in, and he presented a shocking sight. His broken were strewn over the ground and the body was completely doubled up. The bodies were brought to the city and are now in custody of Coroner Cox.

LATER.—Charles McHenry, Frank Valler, and David Morgan have since died. The wounded number fifteen including the engineer and fireman. A steep descent of 212 feet to the mile leads into the depot. In going down this grade the brakeman lost control of the train, which was unusually heavy, and it dashed along down at the rate of a mile a minute, finally jumping the track. A number of miners from the Cranberry Mines were on the train, thus accounting for the long list of casualties. The latest intelligence received states that Conductor Morgan, who was in charge of the train is dead.

THE CONTENTED MAN,
Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making saving of, say \$3.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYGONS.

A leading line of sweet and good drawing JAPAN offering at 35 cents, formerly sold at 45 cents.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER, President of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

Dr. B. J. KENDALL & Co., Gents.—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bone be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 10th, 1880.

B. J. KENDALL & Co., Gents.—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used two bottles. The horse is entirely well, not at all stiff, and no bony to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, and in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callosities, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price per bottle, or six bottles for \$6. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by post order.

Dr. B. J. KENDALL & Co., Stoughton, Mass., Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents.

THE GREAT MICHIGAN FIRE.

A correspondent of the *Freeman's Journal*, who has lately gone over the territory devastated by the great fire in the forests of Michigan last fall, says his observations are completely confirmed the phenomena aside from the ordinary conditions of combustion were developed. In the first place the fire consisted at least two veritable storm centers which had the essential features of storms, and especially the spiral winds. The evidence is contradictory of the belief that this storm center, after it became fully developed, consisted of a heated body of air or gas in a state of combustion, which was constantly fed by the smoke and vapor driven to the center by the whirling winds and gases generated in the combustion of the pines and other resinous woods. This body of air, or burning gas, if it may be so called, by its heat acquired an accumulative force, but by the rapid forward motion of the fire was sucked forward and devoured, actually preceding the fire proper. It is evident that this body was of intense heat, possibly as great as 400° Fahr., at which point oxygen and carbon unite. That such a body of luminous vapor existed, detached from the fire, is asserted by many who saw it from a distance, and by those who were under it, but who escaped from the fact that it passed above their places.

The idea is further sustained by the fact that the fire jumped whole patches of inflammable slashings, and alighted beyond, lifting and falling in its forward motion like a balloon touching the earth. Pines in the center of broad fields burst into a blaze as if by explosion, and others nearer the fire escaped. A man in lighting the fire took off his trousers, fearing they would catch fire and burn him up, and left them in a furrow in the middle of a field remote from any combustible material. When he went to get them he found them burned, and six quarters of dollars that were in the pocket melted together. A set of spurs were served the same way at another place.

Mrs. Look and five children were burned to ashes, not that their bones remaining in the middle of the road, one hundred feet from any heavy timber. Gases driven by wind and heat, and perhaps the most conclusive evidence was the apparently spontaneous appearance of fire in stumps and fences where no sparks were falling. These blazes appeared of white light and indicated a chemical union of carbon and oxygen. Another general feature is the fact that the fire appeared to move forward in parallel lines of varying width, and that in these lines everything was burned and frequently to ashes. At the edge of the track a fence would be burned up, just as though it had been cut or sawed perpendicular to a house would be taken and the barn left; a wagon and a teaming mill were within five feet of each other, and the wagon was burned to ashes and the teaming mill not touched. It would be impossible under ordinary circumstances to burn a wagon without piling combustible material over it, but of this nothing but the fact was left.

Finally, the storm and fire disappeared simultaneously; that is to say the fire was dependent upon the storm, or secondary to it—that it was prevented from lingering in the track or from burning sideways. In from two to three hours the fire was practically out where it had passed, indicating that the prime cause of the rapid combustion was in the storm which had passed, and which was carried in the wake a condition of atmosphere opposed to combustion. This hypothesis explains pretty much all the phenomena except the balls of fire, which usually accompanied with what is known as "ball lightning," but which is a form of electricity wholly different by some, but recognized by Professor Loomis.

The statements of Ballington and Kabocks are contradictory of this ball lightning idea, and contradictory of the idea that these lights arose from the intense heat, or they themselves could not have survived it. Other statements are to the effect that the balls fell from the ground and exploded, running in all directions. This is explained by some who were not present, who say that it was not the intense heat of the pines ignited, carried by the wind, falling, scattering the burning pitch, about them; but it should be remembered that those people who saw this phenomenon were men who have lived amid forest fires all their lives and have seen all the ordinary phenomena, and are not of a class exactly visionary or imaginative. It is fair to assume the possibility of electrical phenomena incidental to this fire storm, both from the fact that it was a great combustion in the elements and because it differed from a storm only in the facts of the absence of rain and presence of fire. —Scientific American.

HISTORY OF A MESSAGE.

A telegraphic message is brought to the office, say Coughingwood, and the person desires to communicate with some one in Gaepe. The message is received by a clerk, who reads it over to ascertain if it is legible. Next an examination is made of it to find out if it bears a proper address, and this is followed by the words being counted and the number marked in the blank on the form. The amount chargeable is written on it, and the next entry indicates whether this has been paid or is to be collected on delivery. It is next sent to the operator who is connected with Toronto; after being carefully read over by him and signed with his letter initial it is duly despatched. At Toronto it is received and sent to Montreal, at Montreal the operation is repeated by sending it to Quebec, and at Quebec it is sent on to Gaepe. Here it is received by the operator, who acknowledges its receipt. It is then marked with the number of words, the time received, and the amount charged or chargeable. Every message has on it the means of identification, and if needs be it can be traced through all the persons who have had to do with it till the source of its origin is reached. After being copied it is placed in an envelope, which is addressed and sealed, and an entry made in the message book and on the messengers' sheet. The boy is sent out, and in a few minutes the dispatch arrives at its destination. This is the regular routine pursued, and the only exceptional circumstances connected with the imaginary telegram are the number of times it is transmitted before it reaches its destined place, though even the number indicated is not infrequently repeated. It will thus be seen that a message of ten words can now be sent about 1,400 miles for 25 cents, and considering the attendant circumstances it is a great marvel that the work is performed so faithfully and well, and that it so rarely happens that improper use is made of the important public and private secrets which the telegraph operators must of necessity have in their possession. In addition to the regular work involved in the transmission of a message it not infrequently happens that even after the great care and vigilance exercised, an address is faulty or deficient, and several office enquiries have to be made over the wires before the matter is set right. The great difficulty in facilitating rapid transmission is the writing of the public, and the most illiterate are not the worst offenders in this respect, for some bank officials in Toronto cause constant trouble from the fact that the messages they send almost invariably have to be re-written before they are placed in the hand of the operator. The result of investigation into complaints of errors proves that in nine cases out of ten careless writing is the cause. —Globe.

GARVEY'S OLD STAND—The Corner of George and Simcoe Streets, Peterborough.

MACFARLANE WILSON.

FROM ALL OVER.

A fire which destroyed a mill has been formed in the mill, near St. John's, N.B. A report that the mill had been made by a public meeting at Dartmouth.

Mrs. Scott has applied for a divorce on the grounds of the cruelty and passionate anger of her husband.

Exports from the North-Western States go to show that there is a probability that the wheat yield will be double that of last year.

\$100 reward is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

A TRACT of 30,000 acres of land has been purchased in Sumner county, Fla., for a colony from Duluth, Minn.

Ten men in what cheer, i.e., pay all the taxes of the place. And still they can afford to do business there.

A London surgeon says that only one fashionably dressed woman in 500 can draw a full breath with her clothes on.

A SHORTAGE in the water crop at Olean causes but little trouble, as water was never much used there save for washing purposes.

Harriet Johnson, a colored man of Oberlin, Ohio, claims that he was once a slave of Andrew Jackson, and that he is over 100 years old.

There would be little if any business during the day, except for the sale of a few barrels of wheat, and a few barrels of corn.

A WAGON in Ohio crossed a very steep embankment of the Ohio Central Railroad track and did other very serious damage. The loss is estimated at half a million.

We strongly recommend you to use Dr. Smith's German Worm Remedy, Worms, a pleasant, safe, reliable, and prompt remedy for the removal of Worms and Pin Worms from child or adult. It is easy to take, never fails, absolutely harmless and requires no after physic.

A PECULIAR disease, which causes cattle affected to lose the use of their limbs, has carried off upwards of 200 head in Colchester county, Nova Scotia.

A LONDON DRUGGIST says: "during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as that of Dr. Ross's Magnetic Medicine, advertised in another column of your paper."

"You are weak," said a woman to her son, who was representing against her marrying again. "Yes, mother," he replied, "so weak that I can't go a day without you."

How strange that many people would rather suffer a long time, believing they were recovering by scientific skill so-called, than be cured of rheumatism for instance—quickly by common sense—and St. Jacob's Oil. We take the latter plan and article, and observe too that the Rev. Bishop Gilmore endorses the remedy.

His Excellency the Governor-General and the Princess Louise are not expected to arrive at Rideau Hall, Ottawa, till late in the fall. It is understood that the Royal Highness will not leave Canada until she accompanies his Excellency on the tour of his term.

The Rev. Charles E. Finner, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

Those affected with weak lungs, sluggish liver or derangements of the kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

The most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market is this country, the Dr. Carson's Compound, which has been found to be a most reliable and powerful remedy for all diseases of the liver, lungs, and kidneys, and for all other ailments of the system.

An Eccentric Successor.
 Major Hiram Mills died last night at his residence, Richmond-square, of cancer, aged 86. He was a native of Virginia, and came here in 1861, having inherited a competency from his father, a planter. He was a total abstainer, strictly economical, and very benevolent, devoting a great part of his fortune during his life to benevolent objects. He was very reticent as to his former career, and left a legacy in his will requesting that no obituary be published. He was one of the oldest, if not the oldest, Freemasons in Canada, having joined a Southern Lodge in 1819. He was on the Board of every Protestant city charity. His sole living relative is his wife ten years his junior. It is rumored that he leaves the remainder of his fortune of \$30,000 to \$100,000 to charity in part now, and the remainder at the death of his wife. He was an Anglican churchman, but really unorthodox in religion. In his bequests he has made no stipulations that in no colleges receiving his bounty is drinking or smoking to be tolerated, and in hospitals as little drink to be used as possible. He was somewhat eccentric, had a sarcophagus made and vault erected some time ago, and offered \$30,000 in funds to the city, the interest to be paid for the poor annually, but he so hampered the bequest with conditions that the Council declined to accept. He was a member of the southern militia when young.

Just received a full range of Genuine Tweed Waterproof Coats at "Habillment Hall."

WELLAND CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this Office until the arrival of the Eastern and Western Mail on FRIDAY, the 1st day of SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Hamby's Bend and Port Colborne, known as Section 34, embracing the greater part of what is called "Rock Cut."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 18th day of AUGUST next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, except those are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque or cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
 A. P. BRADLEY,
 Secretary.

ROBBED

Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures Impotency (caused by excesses of any kind), Seminal Weakness, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at \$1 per box, or six boxes for \$5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

JOHN McKEE, Druggist, &c.,
 George Street, agent for Peterborough.

A POSITIVE CURE

Without Medicines
 ALLAN'S SOLUBLE MEDICATED BOUGIES,
 Patented October 16, 1876. On Box

No. 1 will cure any case in four days or less. No. 2 will cure the most obstinate cases, no matter how long standing.

No nauseous doses or rubs, capable or oil of mandarin, that are certain to produce dyspepsia by destroying the coatings of the stomach.

Price \$1.50. Sold by all druggists, or mailed on receipt of price. For further particulars send for circular.

J. C. ALLAN CO., 33 John street, New York. d22

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

HALL'S CATARRH CURE

Is Recommended by Physicians.

CURES

Catarrh of the Nasal Cavity—Chronic and Ulcerative Catarrh of the Ear, Eye or Throat. It is taken INTERNALLY, and acts DIRECTLY upon the Blood and Mucous Surfaces of the System. It is the best Blood Purifier in the WORLD, and is worth ALL that is charged for it, for THAT alone.

THE ONLY Internal Cure for Catarrh!

IN THE MARKET.

\$100! We offer \$100 for any case of CATARRH it will not cure!

WILLIAMS, Oct., March 22, 1882. My little daughter was troubled with Catarrh for two years, and was very much benefited by the use of "Hall's Catarrh Cure." She is now about cured. W. T. HOUSE.

WILLIAMS, Oct., March 20, 1882. I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if its use be continued for a reasonable length of time. W. H. HELLMER.

WILLIAMS, Oct., March 30, 1882. F. J. CHENEY & Co., Toledo, O. Gents.—Have sold Hall's Catarrh Cure for the last year, and it gives entire satisfaction. Yours truly, H. W. HOBSON, Druggist.

Hall's Catarrh Cure

Price \$1.50 per gross, or 20 cents per dozen.

TOKER & CO.

SULPHUR Lotion.—An EXTERNAL MEANS OF CURE FOR SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulphur Lotion" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, eczema, wash as it by night; whilst old, scurfing skin diseases, that have plagued the sufferer for years, however deeply rooted they may be, "Sulphur Lotion" will successfully attack them. It destroys the miasmata which cause these unsightly, irritating, painful eruptions, and always produces a clear, healthy natural condition of the skin. "Sulphur Lotion" is sold by most Chemists. Bottles, 2s. 6d.

SULPHUR Lotion.—A FLUID PREPARATION in the most potent remedy for all Skin Diseases. Nothing like Sulphur Lotion has ever before been produced, nor is there anything else in the least degree comparable for its healthy action on the human skin.

SULPHUR Lotion.—The first idea of Sulphur Lotion was taken from a prescription of the late Dr. Huxley, and every year it is more and more favorably received by the medical profession. Anyone, however deeply and hopelessly afflicted with Skin Diseases, should apply Sulphur Lotion as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHUR Lotion.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINT.
DR. KING'S DANDELION & GINGER LIVER PILLS—THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEAVINESS, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and most reliable pills for every complaint.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by J. B. King, London. Specially valuable for residents abroad and travellers.

PEPPER'S GINGER AND IRON TONIC

Strengthens the nervous and muscular system, improves digestion, stimulates the spirits, restores the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S GINGER AND IRON TONIC

It cures and develops the nervous system, cures the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuritis, agria, indigestion, leprosy of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 2s. 6d., next day, 1s. Sold by chemists every where. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Tonic and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND FODOPHYLLIN.

Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of jaundice, biliousness, and all symptoms of congestion of the liver, which are generally pained beneath the shoulders, head-ache, drowsiness, no appetite, furrowed tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It acts on the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Fodophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 6d., and 1s. 6d. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

JOHNSTON'S SARSAPARILLA

Daily Evening Review

TUESDAY, AUGUST 8, 1882.

TOWN COUNCIL MEETING

THE CITY FATHERS DISCUSS MATTERS
CONCERNING THE TOWN.

Resolution of sympathy—Rubidge Street to be opened—The Streets not to be used as Pasture Fields—Grant to the Mechanics Institute—The Mechanics Institute—Police Appointments—The Ontario & Quebec Railway.

A meeting of the Town Council was held in the Council Chamber on Monday evening.

PRESIDENT.—His Worship the Mayor, Councillors Cahill, Alford, McNaughton, Kelly, Patterson, Poussette, Wilson, Rutherford, Menzies and Richardson.

The minutes of last meeting were read and approved.

THE LATE P. C. MCGHEE.

Councillor RUTHERFORD moved, seconded by Councillor CAHILL,—That this Council records its deep regret on hearing of the death by drowning of Police Constable McGhee of the town of Peterborough, who for the past five and a half years has discharged the duties of his office faithfully to the entire satisfaction of this body and the unqualified approval of the community at large. The Council joins with their fellow-townsmen in lamenting the sudden death of a faithful public servant, a true Christian, a respected citizen and an honest man, and respectfully extend their condolences to his bereaved family in their great loss, and that a copy of this resolution be forwarded to his bereaved widow.

Councillor RUTHERFORD in moving the resolution said that he did not do it as a matter of form, as it would be endorsed by every one present. Mr. McGhee had done his duty faithfully as all, and especially the Police Magistrate, knew was the case. He eulogized the late constable, and mentioned several instances of his faithfulness in enforcing the by-laws of the town.

Councillor CAHILL fully endorsed all that was said by Councillor Rutherford and by the resolution. The proverb of no man getting his deserts until after his death was exemplified in this case. All agree now that Mr. McGhee did his duty faithfully and that it would be difficult to fill his place. While they were extolling his virtues here, he hoped that the Master had said to him, "Well done thou good and faithful servant, enter thou into the joys of thy Lord."

The resolution was carried unanimously.

COMMUNICATIONS.

From Mr. Fawcett, asking to be allowed to put up a wooden addition to the livery stable formerly owned by Mr. Henthorn, and he would put up a brick or concrete one in the fall.—Building Committee.

From W. L. Ogilvie, Toronto, offering to supply and erect the following:—One mile and a half of cast iron pipe, 6 inch, 8 inch, 10 inch or 12 inch as required, 25 hydrants, brick wheel and pump house, with a resident engineer, pump turbine wheel, excavating, boring, lead, placing hydrants and special castings for connections—the waterworks to throw water through 200 feet of hose, a distance of 85 feet from the nozzle—to be put in good working order, for \$17,000.—Fire, Water and Gas Committee.

From Bryan Lynch and 62 others, asking the Council to reconsider the former petition for the opening of Rubidge street, between McDonnell and London streets.

From Richard Pidgeon, Robert Adams, John Welsh, James H. Griffith, C. R. Fallis, James Gordon and R. H. Griffin, asking to be appointed to the position of assistant constable.

From A. Clegg and 30 others, eulogizing the late P. C. McGhee, and asking that no permanent appointment of a police officer be hastily made, and that advertisements be published asking for applications for the office.—Committee on Appointments.

From R. A. Morrow and 64 others, asking that the Council request the Water Works Company to place a sufficient number of hydrants for fire protection on the streets from Hilliard's Mill to Sherbrooke street.—Fire, Water and Gas Committee.

ACCOUNTS.

D. H. Morgan, \$ 3 50
H. Drake, hack hire 2 00
These accounts were ordered to be paid.

RUBIDGE STREET.

Councillor WILSON moved, seconded by Councillor Poussette,—That the petition of Bryan

Lynch and others, asking for the opening of Rubidge street, between McDonnell and London streets, be granted, that the Street Inspector have the street opened immediately and that the Council do indemnify him in the discharge of his duty.

The Mayor asked the Councillors to adhere to the rules of order. He was willing to hear any Councillor three or four times, on any question, but it was better to obey the rule of order of the Council.

Councillor McNAUGHTON advocated the opening of the street, urging that it was only justice to the ratepayers living there that it should be done. Moreover, if the Council did not open the street, the law was on the side of those ratepayers, and they would open it in spite of Mr. Dumble, Mr. Bradburn or the Council.

Councillor RUTHERFORD said he had always favored opening the street, but a proposition had been made by Mr. Bradburn which was referred to a committee, and at the last meeting he took the ground that they should wait for the report of the committee. No one had a right to keep a street closed, and there were other streets which should also be opened.

Councillor MENZIES thought that the only way to finally settle this matter was to open the street. Every street in the town should be opened.

Councillor CAHILL said that every means should be used to reconcile the ratepayers to having the street opened for a park, and allowing the trees to stand on it. This was what many of them wished, and he thought the petitioners would be anxious to have this done.

Councillor RICHARDSON said that Councillor Cahill's suggestion of a park might be tried for a year.

Councillor ALFORD supported the motion.

Councillor WILSON said that a park was not what the ratepayers desired.

The motion was put and carried *non con.*

BILLIARD LICENSE.

Councillor RUTHERFORD presented the report of the License Committee recommending that a billiard table license be granted to A. D. Faucher, and that he be allowed a rebate of three months.—Adopted.

THE POLICE FORCE.

Councillor CAHILL, in the absence of Councillor Douglas, the Chairman, read the following report of the Committee on Appointments:—

To the Mayor and Town Council of Peterborough:—

GERMANS.—The committee on appointments beg leave to report that, in accordance with a resolution passed at the last meeting of the Council, referring the matter of appointing assistant constables to them with power to act, they have appointed Messrs. Richard Pidgeon and Robert Adams, at a salary of \$450 each per annum. They shall not under the directions of the Mayor and Chief Constable and divide their hours of duty so that one constable at least shall be on duty at all hours, and further, that their appointments shall be subject to by-law No. 452, passed January 30th, 1882. All of which is respectfully submitted.

THOS. CAHILL,

Chairman *pro tem.*

The report was received.

THE CATTLE BY-LAW.

Councillor Poussette introduced a by-law to prohibit the running at large of horses, cattle, sheep, swine or geese, and appointing an officer to enforce the by-law.

On the motion being made for the first reading.

Councillor McNAUGHTON spoke in favour of extending cows from the by-law. There were, he said, 235 milch cows in town and 126 of these ran at large. If the by-law were passed it would have the effect of raising the price of butter and milk, which were dear enough now. The stray cattle kept down the weeds in the streets. He demurred at length on the benefits of the cow to the poor man. He was interrupted two or three times, and appealed to the reporter of the Review to mention it.

The Mayor asked the Council to give the speaker a fair hearing.

Councillor McNAUGHTON proceeded to expound the law, which he said was better than any by-law the Council could pass, and some of the audience outside the hall raising a laugh at a remark made by him, he said that if they were in his place they might do no better. He contended that cows did not injure the shade trees; it was unfair to charge them with what the boys did. We were getting too big for our boots. The Council should use great caution and not injure any poor owners of cows who could not pay for pasture. Having spoken for nearly fifteen minutes he sat down amid cheers.

Councillor PATTERSON said that stray cattle not only injured shade trees but were in gardens. The cows of rich men often ran at large.

The by-law was read a first time.

Council went into committee on the by-law, Councillor Menzies in the chair.

The Mayor moved that cows be excluded from the by-law.—Lost.

Councillor RUTHERFORD said it would be a hardship to impound cows. He thought it would be better to lay the consideration of the by-law over. He moved, seconded by Councillor Cahill, that the by-law go into force on the 31st of December.

Councillor PATTERSON said the By-law would not interfere with the cattle this year, and would give proper time to procure pasture.

Councillor RICHARDSON thought it would pay anyone to provide pasture or to feed cows at home. When running at large they were liable to be killed on the railroad.

Councillor McNAUGHTON again spoke at length in favour of excluding cows from the By-law, and suggested that some of the Councillors who favoured the By-law might have pasture to let.

The motion of Councillor RUTHERFORD was carried.

Committee rose and reported.—Adopted.

Councillor Poussette moved the third reading of the By-law.

Councillor RUTHERFORD moved in amendment that the By-law be referred back to the committee to provide that cows be excluded from the operation of the By-law.

The amendment was put and carried, but on Councillor Poussette asking to withdraw his motion for the third reading the whole matter was allowed to stand.

THE MECHANICS' INSTITUTE.

Councillor PATTERSON introduced a By-law granting \$100 to the Mechanics' Institute for the year 1882.

The CLERK, in reply to Councillor Menzies, said that no grant had been made to the Institute for this year.

The By-law was read a first time, passed in committee, read a second and third time and passed.

SPAUDING'S BAY.

Councillor CAHILL moved, seconded by Councillor MENZIES,—That the clerk be instructed to communicate at once with the commissioner of Crown Lands of Ontario with a view to securing for the corporation lots 3 and 4, south of Wolf and west of George street, this council believing that it is necessary that the corporation should have control of the said lots, as if they should fall into the hands of private parties it would interfere with the corporation in taking steps in dealing with Spaulding's Bay in the interests of the health of the inhabitants of the town.

Councillor CAHILL said that these lots were of little if any value, but it was desirable that the council should have control of them as he hoped they would soon undertake to fill Spaulding's Bay.

The motion was carried.

LAND FOR THE RAILWAY.

The Mayor read the following telegram:—

To H. H. Smith, Esq., Mayor:—

Please take the necessary steps to secure for the Ontario and Quebec Railway, lots of 10 and 11 north of Bank street, and 10 and 11 north of Perry street for twenty-one years at \$11 per annum, as recommended by your Finance Committee.

H. H. Smith,

Solicitor

Councillor RUTHERFORD said the offer of these lots was made on condition that they fill Spaulding's Bay.

The Mayor said the offer of Spaulding's Bay was a separate one.

Councillor MENZIES moved, seconded by Councillor RICHARDSON,—That the grant of lots 10 and 11 south of Bank street and 10 and 11 north of Perry street be referred to the Finance Committee to report to the council.

Councillor CAHILL thought it would be judicious to let the matter stand for the present. It would be a good thing to have the railway take the bay.

Councillor Poussette said these lots were in the hands of the Town Trust Commissioners, and they could only make a request to them which they might or might not grant. He moved in amendment that the communication be received.

Mr. JAS. STEVENSON said the commissioners had made an offer of these lots to another party, not knowing of the offer of the Council.

Councillor MENZIES thought this was an additional reason why the matter should go to the Finance Committee.

Councillor RUTHERFORD supported the reference to the committee.

The amendment for receiving the communication was carried.

THE WATERWORKS.

It was moved by Councillor Poussette, seconded by Councillor PATTERSON,—That persons requiring hydrants for water protection shall file their petitions with the Town Clerk, and such petitions when so filed shall be taken as referred to the Fire, Water and Gas Committee with power to act, and in the case of the Clerk reporting that any petition is insufficiently signed, additional signatures can be added, as if it had not been filed, and that the Chairman of the Committee report to the Council from time to time what action has been taken with said petitions.—Carried.

AN ACCOUNT.

Councillor PATTERSON moved, seconded by Councillor KELLY,—That the account of E. C. Hill for \$2.50, read at the last meeting of the Council, be paid.—Carried.

POLICE APPOINTMENTS.

Councillor Poussette said he would like to call the attention of the Council to the petition of influential citizens asking the Council to delay in appointing a permanent policeman. He thought the town would be better served if an experienced policeman from a distance was secured, who would have no personal friends here. Experience was necessary for this position.

Councillor CAHILL said Councillor Poussette's remarks would have applied to the late P. C. McGhee when he was appointed, yet he had filled the position satisfactorily. The appointments which have been made by the Committee were provisional.

The Council then adjourned for four weeks.

A Sad Case.

The removal of Mr. Joseph P. Wardle, a respectable farmer and stock dealer of Tilsonburg to a place of confinement as a dangerous lunatic is the sequel of a sad and domestic trouble. Some time ago Mr. Wardle took his wife to Ann Arbor to be treated in the hospital there for cancer, and it appears that she was finally cured. A few weeks ago she returned home. A letter received from Mrs. Wardle's cousin containing some reference to her conduct with the doctor fell into her husband's hands and first awakened his suspicions. Soon afterward, when at the postoffice, he was handed a letter addressed "C. D. Brenton," and upon stating that it was not his, he was assured by the clerk that his wife was in the habit of taking all letters so addressed. Thereupon Mr. Wardle opened the letter and discovered that it contained, in the vilest language, the proofs of his wife's infidelity. The letter came from Kingston, signed "John E. Welcomes," but was evidently in the handwriting of the doctor, who had attended Mrs. Wardle at Ann Arbor. When spoken to she acknowledged her guilt, and followed her husband's orders left the house and went west. It is said that Mrs. Wardle was not troubled with cancer, but made this an excuse for an annual or more frequent visit to the sanatorium of Dr. Welcomes. On Monday, July 21st, Mr. Wardle started for Buffalo with a car load of lumber, but before he arrived there his reason fled and he became so violent that he had to be secured. He was brought back to Tilsonburg, but it was found necessary to take him to Woodstock for safe keeping until he can be admitted into the asylum.

Personal To Men Only.

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

CONDENSED AIR BATHS.

Dr. Stone, manager of the "Condensed Air Baths" at Rochester, N. Y., is in town with a supply of interesting papers on this subject, which he desires to place in the hands of our citizens. This method of treating diseases is attracting considerable attention in Europe, in cases where medicines fail, and we think the paper deserving of a careful reading.

The Market.

The attendance on the market this morning was scarcely as large as usual, and the prices were no lower. Butter was selling as high as 25 cts. per pound, eggs 17 cts. per dozen, and potatoes were bought up quickly at 20 cts. per peck. For raspberries \$1.25 to \$1.50 per peck was asked, according to how full the peck was. For the small quantity of vegetables offered high prices were asked.

REMNANTS! REMNANTS!

Daily Evening Review

WEDNESDAY, AUGUST 9, 1892.

THE ONTARIO AND QUEBEC R.R.

To the Editor of the Review.

Sir,—After reading the proceedings of the last meeting of our Town Council, I assure you I feel perfectly ashamed of the dishonourable position in which they have placed the town with regard to their offer of a bit of land in the south end to the O. & Q. R. R. If ever I felt like kicking anyone, I did feel like kicking those Councilors out of the position of confidence in which we placed them.

It was their own proposition to the R.R. to give them a lease of the property in question, and now when the R.R. signify their acceptance and are about to commence construction on this land, they (the Councilors) appear to wish to back out of their offer.

A couple of years ago we would have given this railway a bonus of \$300,000, to pass through our town, and now that we are getting it without a bonus, I think it a most disgraceful proceeding to endeavour to beat them out of the use of a piece of land worth about \$2,000, which we through the above Councilors offered them a lease of for 21 years only.

I am not very well up in Municipal matters, but I think I am right in stating that the Councilors are under the Town Council (being appointed by it) and must do as they direct. I can well imagine with what kindly feelings to our Town, the managers of the O. & Q. R. R. will consider the manner our Council treated their acceptance of the Town's kind offer (small though it was) of this land.

Yes (they will say) Peterborough is a splendid place. Most generous and whole-souled Councilors has it (especially to come). Let the main workshop be erected there and give it every advantage in our power.

I think, Sir, I am safe in saying that the extraordinary conduct of the Council will be condemned by every property owner (outside of the Council) in Town.

Councilors, when you give a thing, give it with a good heart. More than half is in the manner of giving.

I beg to subscribe myself
Peterborough, August 8, 1892.

(We publish the above letter as coming from a substantial ratepayer, but while we sympathize with his object, we cannot agree with him in several respects. Our correspondent is in error in asserting that the Town Commissioners are under the control of the Town Council, and that they have not the power to sell the land in question. We also believe that he is mistaken in his apparent assumption that the Commissioners approve of the Town Council's breach of faith. If Mr. Poussette's motive was to avoid the greater evil of a reference back to the Finance Committee we cannot blame him, though we are surprised and disgusted that no member of the Council stood up openly and manfully for the honor of the town.—ED. REVIEW.)

HONOUR.

CONDENSED AIR BATHS.

Dr. Stone, manager of the "Condensed Air Baths" at Rochester, N. Y., is in town with a supply of interesting papers on this subject, which he desires to place in the hands of our citizens. This method of treating diseases is attracting considerable attention in Europe, in cases where medicines fail, and we think the paper deserving of a careful reading.

The Market.

The attendance on the market this morning was scarcely as large as usual, and the prices were no lower. Butter was selling as high as 25 cts. per pound, eggs 17 cts. per dozen, and potatoes were bought up quickly at 20 cts. per peck. For raspberries \$1.25 to \$1.50 per peck was asked, according to how full the peck was. For the small quantity of vegetables offered high prices were asked.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE SCENE OF OPERATIONS.

Ministerial Statements—35,000 Men Volunteer for Active Service—The British Claim a Victory—A British Ship Opens Fire and the Enemy Retreat—Russia Waiting an Opportunity.

THE POLITICAL CONDITION OF EGYPT.
LONDON, Aug. 8.—In the House of Commons to-day Sir Charles Dilke said no engagement with other powers for the regulation of the political condition of Egypt and the Suez canal after the restoration of order had been discussed or proposed.

VOLUNTEERS FOR ACTIVE SERVICE.
LONDON, Aug. 8.—Mr. Childers said the Government had no present intention of embodying the militia, but if the step became necessary it was satisfactory to know that 35,000 men had volunteered for active service. A number of naval officers had been promoted for services during the bombardment of Alexandria. Lord Berosford had been made captain.

A ROMANCING WAR CORRESPONDENT.
LONDON, Aug. 8.—The War Secretary states that the newspaper correspondent who sent from Egypt the exaggerated statement in regard to the outpost affair on Saturday will not be allowed to accompany the army.

GUARDING AGAINST TREACHERY.
LONDON, Aug. 8.—Arrangements have been made to prevent telegraphing information to Arabi Pasha from England.

CONSTANTINOPLE RUMOURS.
CONSTANTINOPLE, Aug. 8.—An official despatch from the rebel Government claims Saturday's engagement as an Egyptian victory. It says the English were pursued until night-fall. M. de Lesseps has sent a telegram to Constantinople declaring that the whole of Egypt has embraced the cause of the National party, and that the English will find everywhere a determined and intelligent defence to check their enterprises.

FIRING ON THE ENEMY.
ALEXANDRIA, Aug. 8.—The guns of the iron-clad Temeraire, lying opposite Ramleh, cover the ground between the British lines and the outposts of the enemy. The Temeraire has just commenced firing in consequence of the outposts making a forward movement.

LATER.—The enemy abandoned their position after the Temeraire had fired a few shots this afternoon. Two of those wounded in Saturday's fight died to-day.

THE ENEMY'S POSITION.
ALEXANDRIA, Aug. 8.—The enemy is entrenching at the sandy ridge, where the principal resistance was made on Saturday, and behind which numerous tents prove that reinforcements have advanced from Kafir-el-Dwar.

A MILITARY BRIDGE.
ALEXANDRIA, Aug. 8.—The British have built a bridge over the Mahmoudieh canal for the passage of guns.

BOY FOR LUXEMBURG.
BRUSSELS, Aug. 8.—It is reported that Prince Bismarck has given England carte blanche to go ahead in Egypt, provided England makes no opposition to Germany's acquisition of the Grand Duchy of Luxembourg.

THE SULTAN'S LATEST MOVE.
CONSTANTINOPLE, Aug. 8.—The Sultan has issued an order granting powers to Said and Asym Pashas to agree to the creation of an international police to protect the Suez canal, and instructing them to point out by proclamation the nature of his policy regarding Europe. Dervish and Server Pasha sail for Egypt this evening. The Council of Ministers has given instructions to Server. El Jawsab states that Arabi's troops will submit to Dervish immediately upon the arrival of a Turkish force in Egypt. Sultan Pasha has gone to Upper Egypt with a large number of Bedouins to prevent the retreat of the Egyptian forces from that district.

DRAFTS OF THE CONVENTION.
CONSTANTINOPLE, Aug. 8.—It is understood that the Turkish delegates will shortly present to the conference the drafts of the military convention with England.

A PROCLAMATION AGAINST ARABI.
ALEXANDRIA, Aug. 8.—The Khedive to-morrow will issue a proclamation declaring Arabi and his followers rebels, and accusing Arabi of massacre and pillage on the 11th of June, and of being the cause of the destruction of Alexandria and the massacre of Tantah and Benha. It is reported that Arabi has fifteen hundred men three miles from Ismailia, from which place the governor and his wife have fled to Port Said, and gone on a British vessel. Stone Pasha has arrived at Port Said to receive his family, who reached there accompanied by an escort, granted by Arabi at the request of the American Consul.

ITALIAN HOSTILITY TO ENGLAND.
ROME, Aug. 8.—The Italian papers continue to display very hostile feelings against England. They declare that the reconnaissance on Saturday was really a heavy defeat for the British, though thinly disguised by official despatches.

THE CONFERENCE.
BERLIN, Aug. 8.—It is stated here that the conference will be adjourned if the military operations in Egypt assume a more serious character, and will resemble to discuss the Egyptian question after the campaign is terminated.

REINFORCEMENTS.
LENIL, Aug. 9.—The 63rd regiment of Foot has been ordered immediately to reinforce the Indian contingent for Egypt. Three more batteries have been ordered to hold themselves in readiness for service.

NEW WAR VESSELS.
ATHENS, Aug. 9.—A commission has been appointed to proceed to England and contract for the construction of powerful war vessels costing 40,000,000 drachmas.

DRAGONS FOR EGYPT.
LONDON, Aug. 9.—The Royal Irish Dragoon Guards left Aldershot early this morning for Southampton, where they will embark for Egypt.

INDIAN TROOPS FOR EGYPT.
BOMBAY, Aug. 9.—Five transports with troops sailed for Egypt yesterday. Seven more will start to-day. General McPherson and staff start to-day on the Heydaspees.

AMERICAN AID FOR ARABI.
PHILADELPHIA, Aug. 9.—It is stated that 3 Irishmen will soon sail from here for Egypt to fight in Arabi's army. A member of the Grattan Branch of the Land League offered \$500 to defray their expenses.

MIDNIGHT TELEGRAMS

CABLE.

THE IRISH CONSTABULARY.

LONDON, Aug. 8.—In the House of Commons to-day Mr. Trevelyan denied that some Irish constabulary refused to go on duty. He said there is a feeling of discontent in the force because of the delay in the distribution of \$180,000 extra pay. The Government does not intend to do anything until the police withdraw from the agitation of the subject.

THE ARREARS BILL.
LONDON, Aug. 8.—The House says in the case of the House of Lords persisting in Lord Salisbury's amendment to the Arrears bill Parliament will be prorogued and will re-assemble immediately, when the Arrears bill will be re-introduced, and sent up to the Lords for reconsideration. Should it again be rejected it is probable the County Franchise bill will be introduced. Should that pass the Lords the enlarged constituencies will be at once appealed to; should the bill be rejected, the appeal will be to the country against the rejection and defeat of the Arrears bill. The dissolution of Parliament would probably take place in December.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

STEAMER AGROUND.

LONDON, Aug. 9.—The North German Lloyd's steamer Mosel, from Bremen for New York, is aground under Lizard Point. The position is precarious. All passengers were landed at Penzance. The Mosel has a hole through her bow. She struck at 8.30 this morning. Tugs have been sent to her assistance. The weather is calm and hazy.

SENTENCED.

LONDON, Aug. 9.—Walsh, arrested at the time of the seizure of arms at Clerkenwell and convicted on a charge of treason, has been sentenced to seven years penal servitude.

THE STRANDED STEAMER.
LONDON, Aug. 9.—The steamer Mosel had mails for New York. She also had a full complement of passengers and a full cargo. The steamer lies on the rocks with the tugs all round her. The passengers remain at Cadgrith Cove. There was no panic among the passengers and everything was very orderly. The Mosel is now full of water. She will probably be a total wreck. There was a dense fog when the steamer went ashore.

AMERICAN.

WHITE AND BLACK.

EASTMAN, Ga., Aug. 9.—After an officer killed Johnson (colored) here on Sunday, a colored mob killed Harvard, whom they mistook for the officer. The citizens armed themselves and a general engagement took place. Three negroes were killed and several persons were wounded on both sides, the negroes being routed. Subsequently a row occurred among some negro ex-slaves on a train leaving for Macon. A negro cut his wife to pieces. Pistols were drawn all around, and the conductor, in attempting to eject the man who did the cutting, was thrown from the platform with him, and his life was in imminent peril until he knocked the desperado senseless with a coupling link. At Macon several of the rioters were arrested.

RAILWAY LAW SUIT.
NEW YORK, Aug. 9.—It is stated that the practical result of the decision of United States Judge McCreey in the Hannibal and St. Jo Railway bond case is that the railroad shall pay the difference in the interest on the bonds which it paid before maturing. During trial it was estimated that if the money paid by the railroad to Missouri had been invested in the Missouri Bond Company, they would have to pay \$94,000, and is if in United States bonds, \$122,000.

DEATH OF AN ACTOR.
NEW YORK, Aug. 9.—Waldo H. Wilder, an actor, was arrested yesterday while intoxicated, and died in the cell of rheumatism of the heart, aged 46. He formerly ran a theatre in Rochester.

A VOCALIST DEAD.
BALTIMORE, Aug. 9.—Sister Agnes Gubert, probably the most noted teacher of vocal music connected with the Roman Catholic sisterhood of this country, and the possessor of a phenomenal voice, died here yesterday, aged 46.

A POLITICAL RIOT.
LYNCHBURG, Va., Aug. 9.—Yesterday at the depot Col. Waddy James, re-adjuster member of the Legislature, assaulted John E. Massey, a candidate for Congressman. James was attended by County Judge Claiborne. The attack created great excitement and a disturbance in which James was roughly handled, receiving a severe blow on the head. The passengers requested the detention of the train till Massey could be tried before the Mayor, which resulted in his acquittal. He then spoke to an immense crowd from the platform, and then proceeded to other appointments. The attack resulted from a statement alleged to have been made by James that Massey tried to buy his vote, which Massey denounced as false and slanderous.

Personal To Men Only!
The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

The nearer we follow nature in the treatment of disease, the more successful we are.
Dr. Fowler's Extract of Wild Strawberry is Nature's specific for Cholera Morbus, Dysentery, Colic, and all forms of Summer Complaints. Its speedily cures Canker in the stomach or bowels, and is safe for infants as well as adults.

Mothers! Mothers!
Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not another on earth who has ever used it, who will not tell you as soon that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and comes in the United States. Sold everywhere. 25 cents a bottle. 100-9

FRANKS—Get your mouth full by using FRANK'S New wonder for the teeth and throat. Brush vigorously. See directions. 5 cents sample.

JUST ARRIVED!

South End Bookstore.

Late J. I. DAVIDSON.

Daily Evening Review

WEDNESDAY, AUGUST 9, 1882.

A SHORT WAY WITH OPPONENTS.

The *Globe* in an article on Tuesday surpasses even its previous bad record. It actually becomes the advocate and apologist for murder. After a very doubtful story about some squatters at Qu'Appelle being ousted by a farming company it says:—

"If no squatters were to be allowed the rate of settlement would be cut down by one-half. The most active and enterprising of our sons would at once strike out for the States, where the people have learned by bloody experience that it is profitable to respect squatters' rights. Our Government will eventually come to recognize the same fact. The rights of squatters who have located before the fact of a grant is published must be respected. Any other manner of dealing with them will only provoke strife and bloodshed and interpose another bar to the progress of settlement."

Could there be a plainer attempt to incite to murder. Even in Ontario there are sometimes disputes as to the possession of land—would the *Globe* recommend a claimant, say in Ontario, who may consider himself aggrieved, to betake himself to his gun and his revolver instead of to the law courts. Or is it only when one of the parties is the grantee of a Conservative government that it is justifiable to murder him. Even so, fancy how unpleasant it would be for the Hon. Alexander Mackenzie, as president of a North-western Land Company, to be pursued with deadly weapons by an infuriated squatter.

We beg leave to doubt that the "most active and enterprising of our sons" would strike out for the States, "on account of the inducement of having 'learned by bloody experience' that there they could commit murder with comparative impunity. We believe they would continue to prefer a country, where even if they could not obtain redress from the Government, which we deny, they could at all events have recourse to impartial courts of law to maintain their rights."

The *Globe* has long shown that it hates Conservatives and loves the United States, but we hardly thought that it would go so far as to suggest the murder even of those who hold their titles from a Conservative government, or to advocate emigration to the States by showing that murder may be practised there. What next?

EDITORIAL NOTES.

In an article in reference to cotton manufacturers' profits, and to the assertions of free trade journals that they are excessive in Canada, the *Canadian Manufacturer* shows that the profits of our factories are not to be compared in magnitude with those that have been made in England. It concludes as follows:—

"We close with this question: Was it to England's glory and profit, or to her ruin, that Peel, and Lloyd George, and Samuel Motley, and Jacob and John Bright, made 100 per cent. on their investments? After this talk to us about some Canadian cotton factory."

Mr. BURNETT has met with the same fate as Mr. Amor de Cosmos, having been defeated in the election for the House of Commons. Of course his successful antagonist was another Conservative, for no others need apply for the popular suffrages in British Columbia.

Over forty thousand immigrants have already entered *Montreal* by way of Emerson this season. What are we to think now of the opposition ridicule of Sir John Macdonald's estimate of the immigration for the whole of this year at this amount?

The clause in the *Arrivals Bill* granting half a million of dollars to assist emigration from Ireland will be welcomed alike, both there and in Canada. We have room for all who will come, and they can hardly fail to better their circumstances.

BELLEVILLE.

SENTENCED.—The *Intelligencer* says that David Connor, the horse thief, was brought before Judge Frazer this morning, and convicted of the offence the particulars of which our readers are already acquainted with, and was sentenced to one year in Central Prison.

SKULL FRACTURED.—F. Arkles, son of Mr. Robert Arkles, fell down the long flight of steps leading up Meyers Hill from St. James street, on Friday night, and had his skull fractured. He is now lying in a precarious condition, the injury having seriously affected his brain.

The Rockport Free Stone Co., of New Brunswick, opened a quarry last fall on the Rockport shore. They have now one at Wood Point, and employ 80 men in all.

FOLLOWED AND KILLED.

An English Bankrupt Arrested at a Church Door in Toronto.

Superintendent of Police Anderson, of New-castle-on-Tyne, (Eng.), has been in this city since last Wednesday. During these days he and Detective Reid have been shadowing George Frederick Greaves, 45 years of age, a former piano and musical instrument dealer of Whitehaven and Newcastle, and at the conclusion of the services at St. James' Cathedral yesterday morning Greaves was taken into custody by these officers. Previous to making the arrest the detectives visited Greaves' house, and the English superintendent was immediately recognized by one of his sons, who hastened to the church to tell his father of his danger, followed by the police officers. He was taken to police headquarters. Greaves was arrested on a warrant issued at the instance of the English Treasury department and endorsed by Judge Ouler through the representations of County Crown Attorney Fenton. Greaves was also arrested at Quebec on July 18, on a cablegram from England, but released on the following day on a writ of habeas corpus as there was no warrant specifying any felony or crime. Superintendent Anderson arrived in Quebec via New York, on July 26, and found his man had quitted the ancient capital. Greaves came straight to this city and went to live with his wife and seven children at No. 3 Simcoe terrace. The warrant sets forth that prisoner was a bankrupt in business and surreptitiously disposed of his goods and chattels and quietly left the country, and defrauded his just creditors out of several hundred pounds. There is a specific charge of £400, which if proven will cover all the rest. Greaves will immediately be taken before a judge for examination.

A CASE OF LOVE AND BLOOD.

A Wife-to-be Widowed Married and Murdered by a Tramp.

TRIO, Aug. 7.—About three months ago Henry Delmaque, a French Canadian, and whose appearance betokened the tramp, reached Whalonsburg, a small village a short distance from the line of the New York and Canada railroad. Although there was absolutely nothing about him to win the favour of the gentler sex, he formed the acquaintance of Betty Wells, a widow with four children and considerable property, and married her after three weeks' courtship. Almost immediately after the marriage Delmaque sought, first by coaxing and then by threats to have the property transferred to him; but his wife steadily refused, saying that she held it in trust for her children. On Tuesday Delmaque said he was going to Port Henry, and asked his wife to accompany him. She consented, although Delmaque had been drinking freely. What occurred after leaving home Delmaque only knows. Towards midnight, as a farmer was driving a horse to his barn, a few miles from Whalonsburg, the peculiar actions of the animal attracted his attention. An investigation of the cause led to the discovery of the body of a woman in a shallow depression covered with earth and leaves. There were several gaping wounds in the throat. The remains were identified as those of Mrs. Delmaque, and a search was made for the husband, who was soon arrested. He had an examination to-day, and was committed to await the action of the grand jury. The citizens residing in the vicinity of the crime manifest a strong disposition to lynch the murderer.

GLANDERS.

Horrible Death of a Man Affected with the Disease.

A shocking case of glanders, resulting in the death of a man named Frank Carl, aged about 30 years, occurred a little over a week ago in Luther. The unfortunate man had been employed in Hathaway's mill, and having cracks upon his hands, it is supposed he caught the infection through the handling of some boards upon which horses affected with the disease had discharged the fatal poison from their nostrils. It is said there is no other way by which the infection could have been communicated, as he had nothing to do with horses. We have been informed the whole body of the unfortunate man presented a frightful appearance, and best medical aid was of no avail, and he died in great agony on Monday, the 17th of July. Carl was a married man, and leaves a wife to mourn his untimely death. His father and mother went to Red River some time ago, and are at present settled in that country. Persons having horses affected with glanders must be careful not to violate the law which orders that all such be destroyed. Persons of this class are no better than murderers, and should meet the severest punishment allowed by law.

A Surgical Revolution.

About two weeks ago a daughter of Mr. William Hindbrough, aged about 20 months, fell from her chair backwards, and in her struggles on the floor swallowed something which she had in her mouth, and which was supposed to be a half-pin, from the information that could be obtained. The child had been in a precarious state ever since, suffering excruciating pain. The attending physician, decided that an operation was necessary if the child's life was to be saved at all, and this morning performed it, with the assistance of Dr. Clarke. To the astonishment of the operating physicians and all concerned, the foreign substance was found to be, not a hair-pin, but a steel hat-pin a little over five inches long and having a large jet head, and which was found in the stomach and very successfully removed. A slight protrusion appeared on the left side just above the lower rib. This was cut into and the point of the pin was revealed. There are hopes for the recovery of the child.—*Owego Palladium*.

Lost in the Woods.

The wife of one of the Oka settlers was lost a short time ago under the following circumstances:—On the 7th ult. she had gone to the Musquash mills to sell some beadwork. While returning home, wending her way along the banks of the Black river, she lost her way, and wandered about for four days. Her husband went to Musquash to meet her, but returned home and gave the alarm that he could not find her. The whole band at once turned out, going in parties of from three to five in every direction. She was found on the third day of the search; by her husband and two others, in quite an exhausted condition, having spent four days and three nights alone in the bush. She had eaten nothing except one soda biscuit each day, and could not have held out much longer.—*Albion Herald*.

TONGUE POINT.

From Our Own Correspondent.

SUMMER HARDWOOD LOGS.—The steamer *Cruiser* has had the misfortune to break three fangs belonging to her crew, owing to coming into contact with hard wood logs that have sunk in the channels between this place and Lakeside. It is lucky the owner of these logs, a wagon maker of Peterborough, did not put his name on them, otherwise he would be called upon to pay some damages. The damages have cost the proprietors of the *Cruiser* \$30 already. I wonder if he will try to float hardwood logs next season. If he does the boats had better quit running.

CAMPING PARTIES.—A great many are availing themselves this hot weather by going up our back lakes to camp out. Among those that went up some few days ago was our old friend Mr. Post, formerly of the Ontario Bank at Peterborough, and now a resident of Guelph. His wife and family accompany him. Camping parties for our back lakes and tourists from the other side for Burleigh Falls hotel, are making things quite lively this season; nearly double the number pass through here than there has been since the Mount Julian hotel was burned down, nearly four years ago. It is really a very pleasant outing, and the fishing is excellent.

SAW LOGS.—John Montgomery, foreman for Mr. Irwin, of the Nassau Mills, passed through here last week with a drive of 15,000 fine logs. The logs that went through here ten days ago belonged to Mr. Hilliard. Everyone considered them the finest and longest logs that have been driven through these waters for a long time.

THE STEAMERS.—The captains of both steamers make loud complaints about the way they were detained with Mr. Hilliard's drive, between here and Lakeside; the foreman was very far from being obliging. It costs a good deal with a foreman to assist the boats through the logs. The captains will reciprocate any favors of the kind with pleasure, as it is very annoying to the passengers on board to be detained, more especially when they want to catch the train at Lakeside. I trust that that in future no more complaints will have to be made about any foreman driving these waters, when they can easily lend a hand to do so assist navigation.

THE HARVEST.—The farmers around this section are very busy at work, and all say the crop will be a good average one. Barley will be an A 1 sample this season, as the weather was dry when harvesting it. We had a fine rain around this section on Tuesday, which was very much needed and will do a power of good.

CRUELTY.—Our friend Kittles informs your correspondent that he did little the next day after cutting the five acres. He cut one acre more, making six acres that he cut. If anyone should notice this item, let him please mention the number of stamps he had to encounter in the day, and we will get someone to count his.

GENERAL DEBILITY AND LIVER COMPLAINT.—R. V. Pierce, M. D., Buffalo N. Y., Dear Sir:—My wife has been taking your "Golden Medical Discovery" and "Feltet's" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from Liver Complaint, Sour Stomach, and General Debility. Yours fraternally, N. E. Harmon, Pastor M. E. Church, Elmhurst, Ill.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carter's *Stomach and Bowel Bitters*, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

IT HAS STOOD THE TEST OF TIME.—For twenty-five years has Dr. Fowler's Extract of Wild Strawberry been before the people, and its popularity is to-day greater than ever, because it has proved reliable in the treatment of all forms of Bowel Complaint incident to the Summer season.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

President of the N. Atlantic Baptist.

St. Albans, Vt., Feb. 26th, 1880.
Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is now lame, neither can the bunch be feged.
Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.
R. J. KENDALL & Co., Gents:—In reply to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there, I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but it is doing for all what it has done for me, the sale will be very great.

Happily yours,
Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, epistaxis, curbs, calluses, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.
Send address for Illustrated Circular which will think give positive proof of its virtues. No remedy has ever met with such unqualified success as our knowledge, for best as well as man.
Price per bottle, or six bottles for \$5. All drug stores have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Essexburgh Falls, Vt.

Miscell.

Die Lewis accounts for the baldness of men in a simple way—their habit of keeping the head constantly covered. He says you never see a man lose a hair below where the hat touches the skull. It will take off as clean as you can shave it down to exactly that line, but never a hair below, if he had been bald for fifty years. The common black stiff hat, as impervious as sheet iron, retains the heat and perspiration. The little hair glasses, which bear the same relation to the hair that the seed wheat does to the plant above ground, become weak from the moisture and heat, and finally become too weak to sustain the hair. It falls out and baldness exists. A man with a good head of hair needs very little protection where the hair grows. "And yet," he says, "we men wear immensely thick hats, and what amounts to sheet-iron hats, and do not dare step out in a chilly atmosphere lest we take cold." It is silly, weak, and really a serious error. The Creator knew what he was about when he covered a man's head with hair. It has a very important function protecting the brain. Baldness is a serious misfortune. It will never occur in any who wear such a hat as I do, a common white stiff hat with 500 holes in the top, so that there will be more holes than hair. This combing, the hat will do it when you purchase your hat. If the nap be combed back the wrong way, and after the holes are made it may be combed the right way and, no one will observe the peculiarity. The hat will wear quite as long—the hat will wear considerably longer—because it is dry instead of moist; in brief, there is not a single objection to it, while it will certainly prevent baldness, keep the top of the head cool, and prevent much head-ache.

New Steamship Line.

Mr. Bentley says that there will now be a regular line between Montreal, Quebec, and Halifax to Antwerp and Havre. The first steamer the Ville de Paris, leaves Antwerp on August 18th, and the Ville de Cara on September 15th. The following vessels will then follow the two named:—The Ville de Montreal, Ville de Quebec, and Ville de Halifax. This will make up a fleet of five, and the vessels will trade between Antwerp and Havre to Montreal, discharge cargo, and re-load with Canadian consignments for Brazilian ports, where they will discharge Canadian cargoes, re-load for Canada, and when they reach Montreal will discharge and re-load for France. The trade will thus be seen to be distinctly German, French, and Canadian on the one side, and Canadian and Brazilian on the other. No cargo will be taken from Antwerp for Brazil, nor vice versa. The line between Canada and Brazil appears to have been doing very well, the delays on the route being caused by the chartered steamers in the United States. As the new fleet of the company will soon all be upon the line these delays will not happen again. Canadians will be able to ship goods or take passage without leaving the Dominion and running the gauntlet of the American Customs officers. The plans and models of the company's steamers are on view here in the Brazilian Consul's office, and show very fine passenger accommodations. When the Comte d'Eu returns from Brazil he will be able to go to France by the company's line, and will be put as the pioneer vessel of a new line between Canada and the West India Islands. At present the vessels of the line only stop at St. Thomas, and the change will, it is expected, be a good one. —Globe.

A Strange Business.

Who are the four o'clocks? No one but the industrious citizen who goes to his work before the sun rises in manner has any idea who the four o'clocks are. In the whole city there are but half a dozen of them. If you come down Yonge street between four and five any morning you will very probably observe two or three collarless men walking along the street with eyes steadfastly fixed on the sidewalk. These are the four o'clocks and they are hunting for the lost plunder of the previous day. I have observed that three live in the "ward," one emerging regularly by Elm street; the other two hunt in couples and make their exit from the ward near Alice street. Yonge and King are the streets they do first. The two who hunt together occupy each end of the sidewalk and it would seem they might be able to burrow a hole in the sidewalk, so intently do they stare. What they find I could not say; but they must make a strike sometimes, else why would they continue to follow the sidewalk day after day the whole season through? The newspaper route boys often pick up horsehoes, scissors, pens and the like and this is probably the nature of the plunder with which the four o'clocks enrich themselves. Doc Sheppard used to be the "boss" four o'clock, but his plunder was bigger and consisted of Goodenow's copper pipes and Grand Trunk scrap iron.—Toronto World.

A Modern Rip Van Winkle.

Among the many lookers-on about the capitol from day to day is a strange-looking man whom those who know him address as Marshall Norton. His name is A. Canning Norton, and he is, moreover, an ex-resident of Ohio. When Henry Clay was candidate for the Presidency Norton took an oath, to show his devotion to the Kentucky statesman, that he would never again shave or cut his hair till Clay was elected President. He kept his word during all the long years from that day to this, and now as he walks along the streets he looks like Rip Van Winkle searching for the village of Falling Water. His silvery hair and beard, now very long, streams in the wind in defiance of every effort to keep them in place. Mr. Norton has done much stamping throughout the country, and tells many reminiscences of campaigns in Ohio, where he has appeared many times in defence of the Republican platform. His present mission to Washington is for the purpose of defeating the confirmation of a successor to himself as Marshal of the northern district of Texas.

The Sublime Porte.

It is rather remarkable to find a well-informed paper like the Globe committing such a manifest blunder as to speak of the Turkish Porte as being of the masculine gender. It refers to it as he. If it were referring to the Sultan the case would be different, but the Porte is not the Sultan, nor is the Sultan the Porte. The Porte, or the Sublime Porte, as it is called, is the name given to the Turkish Government, not to the Sultan, just as in this country we speak of the Government as the Ministry. The origin of the term lies in the Oriental custom of holding courts and conclaves at the gates of cities and palaces. The Sublime Porte, which is the French for "lusty gate," being applied first to the high doorway of the Sultan's palace, and afterwards to his government generally. The universal employment of French as the diplomatic language throughout Europe explains the currency of the term in its French form.—Toronto Telegram.

FROM ALL OVER.

SMALLPOX is raging at Maple City, Minn.

The town of Gardner, Me., has been almost entirely destroyed by fire.

The discovery of an oil well at Arcola, Ill., has created a tremendous sensation.

Sensuous fires in the Caucasus are said to have destroyed a large quantity of standing grain.

Senator Adam Hope died on Monday in Hamilton.

The chief of the Tunisian insurgents, with 20,000 followers, threatens Tunis.

This contest between St. Jacobs Oil and rheumatism, was a walk over for the former.

North Heidelberg, Pa., has been visited with a fall disease, which carried off many cows. Farmers are excited.

The steamer Gold Dust blew up and burned to the water's edge near Hickman, Ky. Seventeen lives were lost so far as known.

The rebels in Peru have defeated the Government troops, and a Chilean garrison has been massacred by the inhabitants.

Two hundred striking freight handlers at New York have applied for work at the old rates. A number were taken on by the companies.

A boy named Lepinaw received fatal injuries while attempting to board a train in motion at Pike Creek station on the Great Western Railway.

Young, middle-aged, or old men, suffering from nervous debility or kindred affections, should address, with two stamps for large treatise, World's Dispensary Medical Association, Buffalo, N. Y.

A Hartford man has invented a machine which is to revolutionize the printing business. It sets the type, distributes them, and in fact does everything but furnish the "copy."

We strongly recommend you to use Dr. Smith's German Worm Remedy. Worms, a pleasant, safe, reliable, and prompt remedy for the removal of Stomach and Bowel Pin Worms from child or adult. It is easy to take, never fails, absolutely harmless and requires no after physic.

The Supreme Court of Vermont has decided that the Vermont Central and Vermont and Canada Railways still remain within the jurisdiction of the Court of Chancery, and neither company can get its road out of the receiver's hands until the debt is paid.

A LONDON DRUGGIST says:—"during the many years I have been in the drug business, I have never had a medicine that gave such general satisfaction, or for which there was such a large sale, as there is for Mack's Magnetic Medicine, advertised in another column of your paper."

N. C. POISON & Co., druggists, &c., Kingston, express themselves as surprised at the sale of Burdock Blood Bitters in that locality, where patent medicines are hard to introduce, but say, "the gross last ordered a few days since, will convince you that the demand is good, and that it is giving satisfaction to our customers."

THE Harmony Mills opened their gates after weeks of idleness yesterday. Not more than 20 hands applied for employment at all the mills, and it is doubtful whether sufficient will remain at work to keep one mill in operation. The strikers, numbering 5,000, remain firm in their determination not to return to work on the old terms.

Those affected with weak lungs, sluggish liver or Derangements of the Kidneys, should procure a package of Dr. Carson's Liver and Lung Compound. Each 50 cent package makes three pints of syrup. It is a valuable collection of roots, herbs and barks, and its results are wonderful. For sale by J. D. Tully, druggist.

KIDNEY COMPLAINT.—The secretion from the kidneys is often loaded with foreign and poisonous matter, a thick brickdust like sediment or a mucous collection forms. The kidneys are often inflamed and congested, causing pain and weakness in the back and many distressing symptoms. Diabetes, Bright's Disease, Dropsy, and all Urinary Complaints are promptly cured by this grand combination of diuretic, alternative tonics, &c., Burdock Blood Bitters.

Fatal Carcass.

BRANTFORD, Aug. 5.—One of those events which result from careless handling of firearms, and about which the public are being constantly warned, occurred at this place on Saturday evening last. It appears that while James Fletcher, an employee of Messrs. Haggart Bros. was in his house about five o'clock on the evening named, his wife took a revolver out of her husband's coat pocket in the presence of her sister, Mrs. Wm. Voden, who was sitting close by at the time. Mr. Fletcher had purchased the revolver for the purpose of shooting a dog, and had put two cartridges in it. He had discharged one the day previous and allowed the other to remain, the putting in of which had by some means escaped his memory. He consequently led his wife to believe that the weapon was unloaded. She, doubtless from curiosity, in halting it raised the trigger and snapped it, when it went off, shooting Mrs. Voden, the ball entering her breast. Mrs. Voden died at four this morning from internal hemorrhage. The ball penetrated the stomach, and from the symptoms must have impinged on the spine.

The Suez Canal.

MONTREAL, Aug. 6.—Aristide Lionais, residing here, was in the employ of De Lesseps during the construction of the Suez Canal from 1855 to 1870. He says the canal is practically indestructible. The only point at which the banks could be broken was between Port Said and Cantara, where the water of the canal was above the level of the country. The canal banks are ten feet high, but of such a thickness that it would take a force of 1,000 men four days to break them. The break would always be easily repaired. The only chance Arabi would have of controlling the canal would be by taking possession of the heights above it at Elfordane, where cannon could be placed, without being seen, that would knock any ship to pieces passing up the canal, and European troops could scarcely ever take the position if defended by determined men. De Lesseps is the finest man he ever knew. He thinks a great deal, thoroughly weighs a question before saying much about it, and having made up his mind cannot be turned. He is adored by the Arabs on account of the improvement he has brought about in their country, and the good pay they received for their work. So long as De Lesseps opposes England the Arabs will do his work.

SULPHURINE LOTION.—An EXTERNAL

Remedy for Eruptions of the Skin. It is used more
and more favourably to the daily treatment of
any eruption that will yield to "Sulphurine"
in a few days, and commences to fade away, even if it
seems past cure. Ordinary pimples, redness, blotches
acne, roughness, vanish as if by magic; while old, en-
during skin diseases, that have plagued the sufferer
for years, however deeply rooted they may be, "Sul-
phurine" will successfully attack them. It destroys
the germs which cause these unsightly, irritable,
painful affections, and always produce a clear, healthy
natural condition of the skin. "Sulphurine" Lotion
is sold by most Chemists. Bottles, 2s. 6d.

SULPHURINE LOTION.—A FLUID PREPARATION
of Sulphur, which is the most potent remedy for all
Eruptions of the Skin. It is used more and more
favourably to the daily treatment of any eruption
that will yield to "Sulphurine" in a few days, and
commences to fade away, even if it seems past cure.
Ordinary pimples, redness, blotches, acne, roughness,
vanish as if by magic; while old, enduring skin
diseases, that have plagued the sufferer for years,
however deeply rooted they may be, "Sulphurine"
will successfully attack them. It destroys the germs
which cause these unsightly, irritable, painful affec-
tions, and always produce a clear, healthy natural
condition of the skin. "Sulphurine" Lotion is sold
by most Chemists. Bottles, 2s. 6d.

SULPHURINE LOTION.—The first idea of
Sulphurine was taken from a prescription of the
late Dr. Pereira, and every year it is used more
and more favourably to the daily treatment of
any eruption that will yield to "Sulphurine" in a
few days, and commences to fade away, even if it
seems past cure. Ordinary pimples, redness, blotches,
acne, roughness, vanish as if by magic; while old,

phurine" will successfully attack them. It destroys
the germs which cause these unsightly, irritable,
painful affections, and always produce a clear, healthy
natural condition of the skin. "Sulphurine" Lotion
is sold by most Chemists. Bottles, 2s. 6d.

SULPHURINE LOTION.—The first idea of
Sulphurine was taken from a prescription of the
late Dr. Pereira, and every year it is used more
and more favourably to the daily treatment of
any eruption that will yield to "Sulphurine" in a
few days, and commences to fade away, even if it
seems past cure. Ordinary pimples, redness, blotches,
acne, roughness, vanish as if by magic; while old,
enduring skin diseases, that have plagued the sufferer
for years, however deeply rooted they may be, "Sul-
phurine" will successfully attack them. It destroys
the germs which cause these unsightly, irritable,
painful affections, and always produce a clear, healthy
natural condition of the skin. "Sulphurine" Lotion
is sold by most Chemists. Bottles, 2s. 6d.

Daily Evening Review

WEDNESDAY, AUGUST 9, 1882.

LOCAL AND MUNICIPAL.

For the North.

Another large party departed on the Lakefield train this morning on a pleasure excursion to the northern lakes, taking with them all the necessary articles for camping out.

A Good Chance.

A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the REVIEW office.

Notice.

Mr. McClelland's photographic studio, Simcoe street, (over Flavelle's feed store) will be closed until Friday noon, August 11th, in consequence of his having to attend to his branch at Bobcaygeon.

No. 3 Company.

No. 3 Company of the 57th Battalion will meet at the Drill Shed, Ashburnham, on Thursday evening at 7.30 o'clock, in order to make arrangements for going into camp on September 5th.

Runaway Accident.

On Monday a horse attached to a buggy containing Mr. Max Hamilton and his brother ran away in Ashburnham. Mr. Hamilton was thrown out and injured severely, but happily no bones were broken.

Fancy Goods.

Mr. C. B. Routley has taken time by the forelock and announces a fine stock of Christmas goods, and Christmas and New Year's cards. He will have a full stock in a few weeks. In lots of \$20 worth he can sell mouldings for frames much cheaper than they can be had at Toronto.

The Weather.

The rain of yesterday and last night has had the effect of lowering the temperature, and to-day is cool and cloudy. The weather probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes, and West St. Lawrence—West to north winds, clearing cooler weather.

Photography.

We have been requested to publish the following notice:—
"We the undersigned do call the attention of our customers and the public generally to the following fact. Our studios will be closed and business suspended from the 15th of August to the 25th, both days inclusive."

(Signed) JAMES LITTLE,
TWO, RIVERSIDE,
G. B. SPENCER,
ROBERT SMITH.

Lacrosse.

Owing to a misunderstanding the match between the Midlands and the home club has fallen through, and instead a match between the "Oshawa's" and the "Peterborough's" will take place on Monday next, the Civic Holiday. It will be remembered that the "Peterborough's" were badly beaten three years ago by this same club, and having improved wonderfully since, a splendid game may be looked for. As the visitors are said to be the strongest team in this district, the medal may hang in this match.

Cheap Sale.

The extensive sale of damaged goods at W. Fairweather & Co.'s is still going on, the goods consisting of dress goods, some of which are sold at half price, ladies boots, men and boys clothing at greatly reduced prices, heavy shirtings at low figures, all wool tweeds at about half their actual value, and a lot of remnants of pieces of valuable goods which will be sold low. These goods are selling rapidly, and to secure a good bargain an early call should be made, for if a call is made a bargain is almost certain to follow.

At Lake George.

A despatch from Lake George to the Mail says that the bulk of the Canadian party reached here on Monday night, and were most warmly received by their brethren of the United States. The whole camp turned out to meet them, and cheered them lustily. At the preliminary meeting this morning, Vice-Commodore Edwards invited the American Canoe Association to hold their next meeting at Stoney Lake, or some of the Canadian lakes in this vicinity. A vote of thanks was passed to Mr. Edwards, and the proposition will be considered. It is not unlikely that it will be accepted.

OTONABEE LODGE.

Reminiscences in the Early History of Peterborough—An Institution of the Olden Times to be Revived.

In 1846 a Lodge of Oddfellows was instituted in this town by a delegation of gentlemen from Montreal, and the following well known citizens were appointed the first officers, viz.:—Judge Hall, N. G., Charles Perry, V. G., William Clouston, Secretary, H. Easton, Treasurer. The establishment of the Lodge, which was named "Otonabee, No. 13," was under the most favorable auspices, a very large number of the most prominent citizens united themselves with the Lodge. The meetings were then held in the Court House, the sheriff of the county having kindly placed the largest rooms in the building apart for the use of the Lodge in opening. Its earlier years were bright and prosperous, but its very prosperity, it is said, was the chief cause of its ceasing to work. Having a large membership of gentlemen of the highest social standing in the community, they carried the affairs of the Lodge along in keeping with their positions, the result was, it is said by those who are still living, they went into extravagant outlays, one of which was the building and fitting up of their fine hall, now the private residence of Mr. Nichols, which was dedicated with great eclat on the 10th of February, 1848. Many of the grandest balls given in town were held there, given by the Otonabee Lodge. The burdens the members undertook were so heavy that the Lodge soon fell into financial difficulties, and ceased altogether to hold any meetings, Mount Hebron Recompensation sharing the same fate. We believe the officers who filled the different seats of honor about the time the Lodge ceased, 1851-52, were Rev. R. J. C. Taylor, W. H. J. Vizard, J. L. Hughes, Barrister, S. J. Albro, P. M. Grover, Charles Forrest, Barrister, F. Ferguson, James Foley, B. Hudson, Dr. William Bell, James Stevenson, J. A. Henderson, D. Griffith, Dr. Gilchrist, Lorenzo Waller, John Langton, Messrs Boyd, Sheriff Hall, A. C. Dunlop, George Dunford, George Read, etc., etc., etc., very few of whom are now living. Many of our citizens, however, will remember these gentlemen, a third of a century ago, particularly Judge Hall, who was the leading spirit in the Otonabee Lodge of Oddfellows. We understand a movement is on foot to revive the old Peterborough Institution by some prominent Oddfellows of the present day, together with some of the old members, a few of whom are yet living and apparently enjoying good health, many of the former not having heretofore been connected with the society for some years past, some of whom have held distinguished positions in the Grand Lodge and Grand Encampment as well, and are anxious to resuscitate the old Lodge of thirty-six years ago. They have already obtained the consent of the Executive of the Grand Lodge, the old name and number remaining the same. Dr. R. W. Bell has been appointed a delegate to attend the Grand Lodge Annual Communication, which is to be held in Shaftesbury Hall, Toronto, to arrange about the warrant or charter, and other effects. A large number of the old books and papers have been secured already, but no trace of the splendid regalia and solid sterling jewels used by the Lodge in those days, said to have cost \$200, has, as yet, been obtained. There is at present, we understand, a set of jewels, the same as Otonabee Lodge bought at the same time, now in use in one of the Montreal Lodges, a Lodge which numbered among its membership in olden times, known now by their titles:—Sir W. B. Robinson, Sir John A. Macdonald, Hon. C. Dunkin, Chief Justice Draper, Hon. J. Sandfield Macdonald, Hon. L. H. Holton, Hon. G. Sherwood, Rev. Dr. Matheson, Rev. Dr. Cordner, Hon. P. McGill, Hon. J. Pangman, Hon. John Young, Hon. Edward Murney, R. H. Hamilton, Ogle R. Gowan, J. Moir Ferris, T. D. Harrington, J. Molson, Thomas C. Keeler, E. L. Montizambert, J. Torrance, Wm. Workman, W. H. Boulton, Col. Dyde, etc. The society was exceedingly popular in Montreal in those days. The gentlemen who are undertaking the raising up of the old society here will use every effort to keep the Otonabee Lodge up to the respectable position it occupied years ago, at the same time being extremely careful to place it on a sound financial basis, and we hope the Lodge will have abundant prosperity. It is pleasant to record the revival of an institution which was once so prominent amongst us. The re-opening will, it is expected, take place in about three weeks. Many distinguished gentlemen in the society will, no doubt, be present, among whom may be expected Mr. J. Ham Perry, County Registrar, Whitby, Past Grand Master.

Keeping up his Character.

James O'Neill, who distinguished himself by cannibalistic propensities at a lacrosse match here, is keeping up his reputation, as he has appeared before the Toronto Police Magistrate for rowdy conduct on board the steamer Chicago, and for assaulting her officers when they endeavored to keep the peace.

Something New.

Try our really delicious Water Ices, two flavours. Our Ice Cream in four flavours has been pronounced the best in town, without doubt. A nice variety of Cakes and Pastry always on hand. Our Confectionery is also very choice. Chocolate and Coconut Creams and Cream Almonds a specialty. Every thing manufactured on the premises can be safely guaranteed as good. Give us a call and be convinced that we are not making empty boasts. Don't forget the place, one door north of Bailey Bros., Humphreys & Carton.

The best evidence of the superior merit and virtues of Dr. Fowler's Extract of Wild Strawberry for the cure of summer complaints, is that its popularity and demand is greatest where it has been longest known.

BED-RIDDEN AND CURED.—W. E. Huettler, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

STILL GOING ON.

REMNANTS, REMNANTS, AT HALF-PRICE

New Barley.

Mr. D. Roxborough delivered the first new barley this season to Calcutt's brewery yesterday. He had two hundred and six bushels from five acres. The sample was plump and white.

For Camp.

The members of No. 3 Company, 57th Battalion, are requested to meet to-night at the drill shed at 7 o'clock, for the purpose of making arrangements for the forthcoming drill. All who have clothing out will please return it. A few recruits are wanted to fill the ranks.

The 57th Battalion Band.

The members of the Battalion Band are contemplating having a splendid time at camp this year. They are going to turn out very strong, and it is expected that the new instruments will either be here before they go into camp, or else they will be forwarded to them at Cobourg while they are there. We are glad to be able to announce that the old members have all gone back to the band again, and some newcomers have also joined the ranks. If the band do not uphold their already well established reputation this summer, it will be a great surprise to the "knowing" ones.

I. O. G. T.

The following officers of Peterborough Lodge I. O. G. T. were installed on Monday evening for the current quarter by Bro. R. Weir, P. W. C. T.:—

Bro. A. Russell.....W. C. T.
Bro. L. Morry.....W. T. T.
Bro. P. Brislato.....Secretary
Bro. G. Weir.....Fin. Sec.
Bro. J. G. Beane.....Treasurer
" J. Munroe.....Chap.
" W. Peterson.....Marshal
Bro. I. Minson.....I. O. G.
Bro. T. Brown, sr.....O. G.
Bro. Martyn.....R. H. S.
Bro. Nesbitt.....P. W. C. T.

Personal.

General T. B. VanBuren, U. S. A., visited our town on Tuesday en passant to the north on a pleasure trip, and lunched with our townsman, Mr. S. Sherlock, who served under him as captain in the American civil war in 1861-63.

Dr. R. W. Bell left town this morning to attend the annual communication of the Grand Lodge of Oddfellows, which meets in Toronto to-day. Dr. Bell goes to the city as the delegate for the petitioners to have the old "Otonabee" Lodge No. 13 restored, which has been dormant over 30 years.

E. Pauwels, Esq., of Fenslon Falls, is at the Oriental Hotel.

There would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the Stomach and Bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

JACOB'S OIL

THE GREAT GERMAN REMEDY FOR RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains, Tooth, Ear and Headache, Frost-bitten Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals Dr. Jacob's Oil as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.
SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE SCENE OF OPERATIONS.

Arabi Pasha is proclaimed a Rebel by the Sultan—Artillery and Troops for Egypt—Shahs Exchanged—Honneur of a British Defeat—Arabi's Plans Formidable.

THE GITH DEFEATED.

ALEXANDRIA, Aug. 9.—Evidence is accumulating daily which shows that the Ristieh Rifles suffered a disastrous defeat in the engagement on the night of the 1st August near Alexandria. Arabi's plans are daily growing more formidable.

MORE ARTILLERY FOR EGYPT.

LONDON, Aug. 9.—The transports Grecian, with a battery of artillery; California, with a company of engineers; Olympus, with a battery of artillery; City of New York and Greece sailed from Southampton to-day for Egypt. The Queen, Prince of Wales, Princess Beatrice and Duchess of Connaught inspected some of the vessels and witnessed their departure. There was much enthusiasm.

TURKISH TROOPS.

LONDON, Aug. 10.—Five more Turkish battalions have arrived in Crete. Dervish Pashais expected there to-morrow.

THE PORT'S ACTION.

CONSTANTINOPLE, Aug. 9.—Said Pasha to-day gave Lord Dufferin a satisfactory explanation respecting the delay in settling the terms of the proclamation against Arabi and of the military convention. He expressed the hope they would be ready by Thursday. An aide-de-camp of the Khedive has arrived with a detailed statement of the position of affairs in Egypt.

CAIRO QUIET.

ALEXANDRIA, Aug. 9.—The family of Gen. Stone have arrived here. When they left Cairo on the 3rd Aug., everything was quiet.

AN EXCHANGE OF COMPLIMENTS.

ALEXANDRIA, Aug. 9.—An armoured train, in the usual night patrol this evening, exchanged a few shots with Arabi's second line of entrenchments, near Mahalla junction.

ARABI PROCLAIMED A REBEL.

CONSTANTINOPLE, Aug. 9.—The Sultan's proclamation declaring Arabi Pasha a rebel, was sent to the foreign ambassadors in the conference to-day, and will be ordered to be read in the camp at Kafr-el-Dwar, and in the citadel at Cairo. Under the military convention England has proposed to limit the number of Turkish troops to be sent to Egypt to 5,000, and these are to land near Aboukir, fifteen miles north-east of Alexandria. After reading the proclamation time will be given the Egyptians to lay down their arms.

THE SUEZ CANAL.

BERLIN, Aug. 9.—Bismarck's organ denies the rumour of the intention to place the Suez Canal permanently under the control of a mixed commission similar to that on the Danube. As the British traffic on the canal immensely preponderates, it says the powers cannot expect England to subordinate such immense interests to the decision of a non-England majority.

SENATIONAL RUMOURS.

LONDON, Aug. 10.—Constantinople despatches reproduce the sensational rumour that Russia is concentrating troops at Odessa, and connect it with the report that Russia promises to protect Constantinople, in the event of a rupture between Turkey and England. The story makes some sensation, but appears to lack confirmation.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

THE HILDALE CREW.

DETROIT, Aug. 10.—The national association of amateur oarsmen adopted a resolution asking the oarsmen of England to take prompt measures to have the case of the Hildale crew passed upon by the committee, about the representation of which the association can be no doubt; deprecating the furnishing by any American crew to the British Regatta committee, or any aquatic authority any proof of their amateur standing other than the certificate of the executive committee of the national association of amateur oarsmen, and recommending that hereafter no American amateur oarsman can enter any British regatta, whose regulations make any discrimination between native and foreign oarsmen in regard to the time or manner of entry.

BOUGHT AND SOLD.

NEW YORK, Aug. 10.—The Times' Cincinnati despatch says that General Fairbank, governor of the National Soldiers' Home at Dayton, states that the votes of the inmates of the Home carry the balance of power in Dayton Congressional District, and the manner in which the votes are bought and sold is a national disgrace.

AN ABDUCTOR.

NEW YORK, Aug. 10.—The abductor of Cora Lent, of Pekskill, is said to be James Rosenheim, of the 22nd Regiment. He is missing.

A TROTTER.

MILWAUKEE, Aug. 10.—The famous trotter St. Julien was brought to a veterinary surgeon near Bay View recently to be treated for a broken superior ligament on one of its forelegs. The trainer and driver expect to have her in condition for the track in a few weeks.

GAMBLING HOUSES.

NEW YORK, Aug. 10.—It is stated that all the gambling houses here are closed owing to the apprehension of a police raid.

GORED TO DEATH.

NEW YORK, Aug. 10.—A steer escaped from a slaughter house here yesterday. It was pursued a long distance through the streets and jumped into the river. It was taken out on a sling. Edward Farrell then stroked the steer's face and was fatally gored.

Ir Cattarah has destroyed your sense of smell and hearing.

Hall's Cattarah Cure will cure you. 75 cents per bottle. For sale by John McKee, druggist.

C. BATTOR, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

PARLOR. Get your mouth full by using Tassmar, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent samples.

MIDNIGHT TELEGRAMS

CABLE.

THE FRENCH SESSION.
PARIS, Aug. 9.—The decree closing the session was read in both Chambers to-day.

IRISH LABOUR UNION.

DUBLIN, Aug. 9.—At a meeting of Dillon and other supporters of the labour movement a provisional committee was formed with a view to the election of a permanent executive for a new Irish labour and industrial union.

SENTENCED.

DUBLIN, Aug. 9.—Fitzpatrick, who attempted to kill the Recorder of Dublin, has been sentenced to five years' penal servitude. He begged the judge to postpone his sentence until he could have further legal advice. The judge refused saying he was a pest to society and on the border of insanity, but quite accountable for his actions.

HENRY GEORGE ARRESTED.

LOUGHREA, Aug. 9.—Henry George, an American writer, was arrested to-day as a suspicious stranger. He was liberated after a three hours' detention. George has protested.

THE CONSTABULARY.

CORK, Aug. 9.—At a meeting of constabulary to-day, the following resolution, which was approved by the Limerick and Belfast men, was adopted:—"Having seen with surprise and disgust the calumny cast upon our loyalty by the insinuation that we were in collusion with the Fenians, we desire to mark our sense of its utter falsity by withdrawing from further agitation, and rely on a speedy redress of our grievances."

A Terrible Storm.

Referring to the recent fatal storm in the township of Snowflake, Man., the Nelson Mountaineer says:—"Mr. Sautell was standing outside when the storm struck the house, which stood on the top of a rise of ground. Apparently he noticed the building tottering, and sprang to the door with the evident intention of warning those inside, but just as he stood in the doorway the roof gave way, and almost instantly the whole building was levelled to the ground. Mr. Sautell's head was caught between two falling timbers, and literally split open, the brains being splattered on the logs. Inside was Mrs. Sautell, a child three years old, and a man named Charles Sims. Just at the moment the wind lifted the building Mrs. Sautell stooped to put some dough in the oven, and this perhaps saved her life, as the stove served in a measure to protect her. She is nevertheless badly bruised on the head and elsewhere, but is not considered dangerously hurt. Mr. Sims was badly bruised, but is able to be around. The child escaped unharmed. Sautell, we understand, came from Montreal, where he was a partner in the mercantile firm of Sautell Bros. This terrible wind storm came from the west, but does not appear to have extended any great distance. Its course was about half a mile wide, and fortunately does not appear to have taken in many buildings. A new unoccupied log house, belonging to Mr. Cava, five miles distant from the scene of the calamity narrated above, chanced to be in the path of the cyclone, and was levelled to the foundation timbers. This building was an ordinary Canadian log house, with dovetailed corners. Sautell's was what is called a Red River frame. The terrible force of the storm may be gathered from the fact that the heavy oak logs in these buildings were picked up like straw and scattered promiscuously over the prairie."

And Postponement of a Marriage.

A very sad case of shooting by accident occurred at Montreal on Tuesday. A young man named Louis Lavallee, a resident of St. Henri village, a few miles from town, was to have been married this morning to Mlle. Lafortune, who also resides in St. Henri. A sister of Lavallee came to town to be present at the wedding, which was to have taken place at the residence of his father. Last evening Lavallee in high glee was exhibiting the bridal presents he had purchased for his betrothed. Picking up a revolver he remarked that it had been the companion of his travels in the United States. She took the weapon in her hand, after some persuasion, when he told her to pull the trigger. She did so, but could not move it. "Full harder," said Lavallee, and the young girl did so. To her surprise the revolver exploded, and to her horror she heard her brother cry out "Mon Dieu," and saw him fall. Uttering a series of screams she ran out of the room almost distracted. When her father entered he found his son lying upon the floor unconscious, and the blood from his wound oozing the floor. He at once sought medical attendance, and in a few minutes the surgeons were probing for the bullet. Dr. Broseaux, in probing for the bullet, awoke the sufferer to consciousness, and he remarked that he had considerable pain in his left hip. It turned out that the bullet had gone through his stomach from the right groin, and lodged in the left hip, nearly breaking through. After lancing the spot indicated Dr. Broseaux extracted the ball. Needless to say the marriage ceremony was postponed, and it is exceedingly doubtful if Lavallee can recover. His betrothed suffers from the nervous shock severely, and has been confined to the house since learning of the sad affair.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

HALL'S Cattarah Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

THERE would be little if any sickness during the hot months of July and August, if every one would take Carson's Bismach and Constipation Bitters, as they prevent and cure all derangements of the stomach and bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

THE Rev. Charles E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, E. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

JUST ARRIVED!

Another Lot of our

CHEAP MUSIC

(THE LATEST)

This Music which we sell for 5c., is in full Sheet Music size, and has hitherto been sold for thirty to seventy-five cents. Also, an assortment Seaside and Robertson's series.

South End Bookstore.

Late J. I. DAVIDSON.

Daily Evening Review

THURSDAY, AUGUST 10, 1882.

THE COUNCIL'S LATE FEEL.

In reference to our expression of surprise and disgust that no member of the Council stood up openly and manfully for the honour of the town, Mr. Poussette informs us that the Mayor spoke strongly on the subject and that he (Mr. Poussette) followed him, pointing out in unmeasured terms that it would be both inconsistent and dishonourable for the Council to go back on the offer they had made, and that it was only in consequence of the statement that the commissioners had made an offer of the property to others, that he moved the "resolution" merely of the communication from the Ontario & Quebec Railway. Of course from the amount of oratory that is indulged in by the Council, it is impossible to give a verbatim report of all that is said, and we have to deal chiefly with the results, so that full justice is sometimes not done to individuals. We are glad to find, and to make public, that two at least of the Council do not approve of this breach of faith. It will now be in order for other Councilors to repudiate this repudiation, and then for the whole Council to reconsider their discreditable action.

EDITORIAL NOTES.

We are told that Tory agents in Halton placing on the rails farmers' sons who had not reached the age of 21. We do not know if this is true or not, but how about the Township of Smith, near, at hand? We are informed that Reform farmers' sons were placed on the roll, though they had not attained their majority, on the chance of their doing so before the election, while Conservative farmers' sons were refused unless of age at the time of the assessment.

THE HON. ADAM HOPE, a member of the Senate of Canada is dead, and we are informed by the *Globe* that "as a member of the Senate he did as much good as it was possible to do in such a body." Who would imagine that the gentleman who made the *Globe* was himself an ornament and a strong advocate of the Senate.

We do not think that a complaint of the appointment of partisan returning officers comes with very good grace from a Peterborough journal, in fact it is despicably mean under the circumstances that Reformers were appointed in both Ridings of this County, and in most of the neighboring electorates. In fact we believe that the majority of the returning officers were partisans of the Opposition, rather than of the Ministry, if partisans at all, but we do not bring such reckless charges against respectable men.

A RETRACTION.

THE *Montreal Star* of August 8th, contains the following paragraph, retracting the erroneous statements that had appeared in its columns as to Mr. A. White of the Midland Railway:

"With reference to the paragraph published under the head Peterborough, on the 2nd inst., in regard to the alleged champagne dinner given by Mr. White, Traffic Manager of the Midland Railway, we are informed that there were neither special trains nor champagne, nor had the Midland Railway anything to do with the affair beyond earning the same fares for Mr. White's guests as they would have obtained for any similar business. The whole affair was private, and was only participated in by friends of Mr. White, the latter gentleman paying all expenses."

It is creditable to the *Star* that when it finds that it has been deluded into casting an undeserved slur upon an honorable gentleman, it should do him justice in this manly way.

A SERIOUS CHARGE.

The *Quebec Herald* makes the following serious charge against one of Mr. Mowat's License Inspectors. The matter should be investigated and if the charge is proved, the amplest apology should be made:

"Some days ago we challenged the *Globe* to deny the fact that attempts were made during the recent election contest to influence voters by threats of withholding the issue of liquor licenses by the Ontario Government unless the tavern-keepers gave their influence and votes in favor of the Grit candidate. We have had no reply to our serious charge. Perhaps the organ of the Local Government may say that our challenge was too wide, and for the information of the *Globe* we now state that the tavern-keepers to whom we alluded lived in Toronto East. His name is Andrew Dugan, one of the recently retired License Inspectors for the city of Toronto, that when he voted for the Grit candidate, his license would be taken away! Let us hear from the organ."

TWO MEN FROM KENT SERVED WITH A WRIT AT TORONTO.

On Saturday last Messrs. Wetherpoon, Lafleur & Henicker, barristers of this city, received instructions from the well-known London solicitor Mr. Alfred Cox, to look out for Mrs. Grant, who had eloped with a Mr. Newberry, from Kent, England, and been traced to Montreal. The firm were further required to have the parties served with a writ in order that legal proceedings might be taken in England by her husband, Mr. J. G. Grant, of Hall-Head-Corn of Kent against his faithless wife and her paramour as co-defendants for divorce. The case is a very sad one. Mrs. Grant in her flight from her husband's roof, having left five young children behind her, while Newberry is also married, having furnished a young wife and children. The parties arrived in Canada about six weeks ago, came on to Montreal, and put up at the Windsor, after which they removed to the well-known and highly respectable boarding-house which goes by the name of the "Ark." From there they were traced to Ottawa, from there to Kingston, and ultimately to Toronto, where they were found at the St. Thomas Restaurant, and duly served with the writ on Saturday night. It appears that the correspondence was a very old and intimate friend of the family, and not the least suspicion of any undue intimacy was entertained until after the fact of the elopement came to light. Portraits of the parties were also forwarded, the lady being quite prepossessing, while her companion has all the appearance of a man of culture. They are both highly connected and well known in the county of Kent.—*Mer.*

A LOST BROTHER.

Looking for Her Brother Who has been Absent for Twenty Years.

This morning a lady, who gave her name as Mrs. Myron Yates, of Utica, N. Y., called into our office and enquired if we knew any person by the name of James B. Goodfellow. On being answered in the negative, she became crestfallen. She was asked if she were in trouble, when she stated that about 20 years ago her brother left Utica for Toronto, Canada, and since that time no direct tidings had been received from him. Letters were written to a number of Canadian cities, including Kingston; but they were all returned, excepting one that was sent to Cobourg. About sixteen years ago she received a paper from him called the Christian Union, from Toronto, and shortly afterwards she and her mother went to that city, but failed to find him. In the year 1874 her husband died and her family moved outside of Utica, but on going back into the city she learned that two ladies had been looking for them, as they bore intelligence from her brother. Her old friends who saw these ladies did not ask them where they came from, nor did they direct her whether they went. Mrs. Yates, seeing that she could not find her brother by means of the post office, decided to start out herself, with Toronto as the objective point, calling at each of the cities on her way here. She left to-night for Toronto with her little boy, who is accompanying her. Her brother is a man about forty one years of age, but she does not know what business he is following. His father was in the grain trade and he assisted him.—*Kingston News.*

THE SHORTAGE QUESTION.

Regarding the shortage scare at Kingston recently started by the *Tribune*, it appears that a great deal more is made of it by Canadian papers than is warranted by facts. The object of the *Tribune*, of course, is to run down the St. Lawrence route and write up the Erie. The abuses at Buffalo, in the shape of exorbitant charges, which are loudly complained of by vessel-masters, are passed over by the *Tribune*, although "blood-suckers" is the epithet applied to the Buffalonian officials. There can be little doubt that the present regulation in Kingston has put a stop to the many shortages that were constantly occurring there, although it is the opinion in the trade that certain officials are to the effect that that the cargoes have not been broken, ought to be sufficient, and that shortages were never large enough to make it worth while for the Government to take cognizance thereof. We know that one of the forwarding companies at Kingston during the past few days received seven barges containing 104,000 bushels upon which not a bushel of shortage duty was charged, for the reason that not one of them was twenty bushels short. We notice the *Tribune* of August 3rd says: "The steam-barge business, which unloaded 50,000 bushels of wheat at Kingston was 160 bushels short." It so happens there was not a bushel short on any cargo of the business as stated, although 160 bushels was damaged, but upon which no duty was charged.—*Montreal Gazette.*

BURNING.

DWELLING BURNED.—A store and dwelling house on the Canifford road, owned and occupied by Mr. Wm. Allard, was destroyed by fire about two o'clock on Wednesday, with the greater part of its contents. Loss about \$3,000; insured for \$1,800.

BARN DESTROYED.—The barn of Mr. W. E. Vandervoort, second concession of Sidney, was burned on Tuesday afternoon, together with a steam threshing machine and a pair of horses belonging to A. B. Gilbert. The barn contained 600 bushels of barley and 55 bushels of hay. Threshing was going on at the time, and the fire was caused by straw wrapping around the straw-carrier and becoming ignited by the heat induced by the friction of the shaft. The total loss is about \$3,500.

HASTINGS.

COMPLETED.—The *Star* says that the new addition to H. Fowlds' elevator is completed, the building is 120 feet long, 35 feet wide, representing a storing capacity of 80,000 bushels.

REBUILDING.—The bricklayers have completed the first story of the Couglin House, and whilst the carpenters are putting in the joists, will run up the first story at Fowlds' block. The new post office, too, is under way, the foundation of which will be completed in a few days.

Murder as a Cure for Small-Pox.

In the upper end of this county last week a negro, whose name we failed to learn, appeared with small-pox. When it became known, the citizens of that section quarantined him in a cabin isolated from other houses, and warned him to there remain until the disease had subsided, the patient then being in a state of convalescence. But when the negroes at work on the Red Clay and Colterwah connection, now in progress of construction, learned that a case of small-pox was near by, several lawless and heartless scoundrels, fearing a spread of the disease, armed themselves a few nights ago, and proceeded to the patient's cabin, and as he lay in bed shot him through the window, fired the house and literally cremated the poor victim. The wretches then made their escape.—*Georgia Opinion.*

The Ontario immigration returns for the first month ending July 30, have just been quoted by Mr. Spence, Secretary of the Ontario Immigration Department. During this period the total number of arrivals was 55,306, of whom 36,820 went to the United States, 205 to Quebec, 3,941 to Manitoba and 12,119 remained in Ontario.

The total number of arrivals during the first six months of 1882 was 31,364. Of this number 23,917 went to the United States, 237 went to the Province of Quebec, 1,115 went to Manitoba, and the rest, 12,095, remained in Ontario.

The nationalities of the immigrants who arrived during the six months commencing January, 1882, are divided as follows:—English, 5,573; Irish, 3,456; Scotch, 1,906; German, 523; Scandinavian, 142; Swiss, 12; American, 458; other countries, 90. It will be seen by comparing the figures for the corresponding periods that five times as many went to Manitoba this year as in 1881, while there was no great increase in the total number of arrivals.

Through the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. B. McGRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 28th, 1881.

Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks before he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither was the bone to be found.

Respectfully yours, P. E. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 15th, 1882.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two large spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two for the small one. I have used the *Spavin Cure*. This horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure is very in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, calluses, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for every purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success as our knowledge, for years as well as men.

Price four bottles, by mail, for \$1. All drug stores have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Boston, Pa., Vt.

Daily Evening Review

THURSDAY, AUGUST 10, 1882.

LOCAL AND MUNICIPAL.

Personal.

Mr. Henry Denne and Mr. Wm. Chamberlain returned home on Wednesday night from Winnipeg.

Lacrosse Club Meeting.

A meeting of the Lacrosse Club will be held at the St. James Hotel this evening at 8 o'clock. A full attendance is requested.

Cricket.

A team representing the Chicago Cricket Club is expected here during the latter part of next week, when a match will be played with the Peterborough Club.

Books.

Mr. McClelland's photographic studio, Simcoe street, (over Flavelle's feed store) will be closed until Friday noon, August 11th, in consequence of his having to attend to his branch at Robesay-geon.

The Weather.

The weather continues cool. The weather probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Light, moderate winds, mostly westerly; continued fair cool weather.

Successful.

A cable dispatch was received on Tuesday from Mr. Geo. A. Cox, President of the Midland Railway, who is in England, stating that the business of the railway on which he went to England had been arranged, and that he would leave London on his return home on Wednesday. He will sail from Liverpool to-day.

G. B. SPENCER,
ROBERT SMITH.

Toronto Exhibition.

The advertisement announcing the date of the Toronto exhibition, which has obtained the sobriquet of "Canada's Great Fair," appears in another column. It is to be held from the 5th to 16th September next, and promises to be of greater magnitude than either of its predecessors. The prize list has been increased and attractions are promised of a novel and interesting character. Cheap excursions and reduced rates will be granted during the exhibition. Parties deriving prize lists can obtain them on dropping a post card to Mr. Hill, the Secretary in Toronto.

The Midland and Ottawa City.

The Ottawa correspondent of the Globe says that the Ottawa folks are a good deal troubled over the decision of the Midland Railway Company to build a direct line from Perth to Cornwall, through the counties of Lanark, Grenville, Dundas and Stormont, notwithstanding that a connection is still to be made at Ottawa with the Canada Atlantic. It is believed that the short line to Cornwall will capture much of the through traffic, and that Ottawa will not receive the benefit she expected from the construction of this road. As, however, she refused to pay the bonus which was voted a few years ago to this line, we are hardly in a position to find fault.

The Civic Holiday.

Monday next, the 14th of August, has been proclaimed a holiday by the Mayor. In the morning, at 7 o'clock, an excursion will depart on the Golden Eye to Idyl-Wild, under the auspices of McWilliams' Lodge of True Blues. A palace afloat will be attached to the boat for dancing and music will be provided. A pleasant trip is anticipated. In the afternoon, a lacrosse match will take place on the Ashburnham grounds between the Peterborough and Ottawa clubs. The Ottawa club contains good players, and an exciting and well played game may be expected. A cricket match will also be played on the same grounds. The Cobourg club are expected to be present, and will play a game with the Peterborough club. Several private excursions and pic-nics are projected, and our citizens will no doubt enjoy themselves thoroughly on that day.

CRICKET MATCH.

Peterborough vs. Port Hope—The Peterborough Club again Defeated.

The return match for the Association Cup between the above clubs took place at Port Hope on Wednesday, and resulted in a victory for the home team with 43 runs to spare. It is only just to our team to state, for those who do not know otherwise, that when we say the Port Hope team we do not mean that they were all residents of Port Hope, for half the Port Hope team is always made up from picked outsiders. Our own team, as a rule, have always played their own men, but on this occasion they had the assistance of Mr. J. A. Barron, of Lindsay, and Mr. Watson, of Lakeside, on account of a number of their own team being unable to attend. As will be seen by looking over the team the names of three of the old standbys are conspicuous by their absence. Mr. Thos. Rutherford, whom the team depended on for covering half the field himself and making half the runs, was through illness prevented from being there. Mr. Montgomery and Mr. Hallett being absent from town did not get word in time to attend, on account of the short notice the Port Hope team gave the home team, and Mr. Max Hamilton met with an accident that unfitted him for the match, so that considering all the drawbacks the home team did well against the team they had to compete with. Peterborough won the toss and sent Port Hope to the bat. It was not long before Stratton bowled Marshall for nothing. Then there was some fine play between G. F. Hall and Kennedy, of Cobourg, the former getting 21, when he lifted the ball in close proximity to Hutton, who could not resist the temptation and caught it. Mr. Fairbanks, of Cobourg, then joined his townsmen and runs came fast, when he was parried by Stratton for 13. Mr. White, also from Cobourg, then joined Kennedy and gave a beautiful exhibition of batting. Mr. Kennedy, after being in for nearly an hour, raised a ball higher than he should have done, and it was secured by Hutton. Kiroffier then joined White, but succumbed before long to the bowling of Stratton. The rest of their innings finished without anything further of note happening. It was a remarkable event that there was not a single extra. The innings closed for 90. Peterborough then took the bat, sending in Burritt and Stratton; Stratton was caught for nothing. Hamilton then joined Burritt and both batters batted beautifully. Burritt got a fine forward drive over the fence for five. He was soon after unfortunately run out. Hamilton was caught and Hartley then went in. Barron filled the vacant end, Hartley departed for 4 and Rogers took his place. Then there was a stand made by Barron and Rogers for some time. Barron was bowled by Fairbanks for a well-earned 10. The rest of the team made nothing, except Connolly's 5. Rogers carried his bat for 23, the innings closing for 67. Port Hope then went in for their second innings. George Hall was caught at leg by Rogers for 8. There was no stand made till it came to Kennedy and White, who deduced all the efforts of the Peterborough team to part them for over an hour. Stratton at last clean-bowled White for a well-made 31. Kiroffier then made things lively for a time. Kennedy nicked one up, which was taken by Stratton for 20. Kiroffier was caught by Watson for 19, and the rest of the team made up the score to 89. Peterborough then took the bat for their second innings, with 112 to win, but alas! they were doomed to disappointment. Barron, Hutton and Rogers played well for their scores. The total of the team amounted to 69. The match was, in every respect, a first-class match, and enjoyed by all. One cannot help enjoying a match on such a beautiful ground. The day was all that could be desired. People may say that "Peterborough is always beaten," but such is not the case. We are off the main line, and it is difficult to get teams to come back here, as they cannot do so and return the same day. Belleville, Cobourg and Whitby all promised to give us matches, but have all failed to do so. It is against Port Hope that we play most of our matches and have always been beaten, except once, but to be beaten by such teams as they collect together to represent Port Hope and who last year held the championship is no disgrace. They have beaten us before, and beaten us again now, but we are not cowed yet. We are going to beat them yet. We have got the material to do it. We cannot close our account without a word of praise to Stratton and Hartley for the way they handled the leather. The fielding also all round was good. The following is the score:

First Innings.		Second Innings.	
Burritt, run out.	13	c Nicholls, b Hall.	3
Stratton, c Marshall b Kennedy.	0	c Marshall b Hall.	0
Hamilton, c Kennedy b Hall.	4	c Brown b Hall.	6
W. Hartley, b Hall.	4	c Brown b Hall.	8
Barron, b Fairbanks.	10	c Hall b Hall.	9

THREE FIRST PRIZES FOR BOOK-BINDING AT THE CENTRAL EXHIBITION.

TOKER & CO.,

Review Steam Printing Office and Bookbindery.

REVIEWS.

The Canada Methodist Magazine for August, has quite a midsummer flavor of Poetry and Art about it. Dr. Nellis, President of Victoria University, has a charming article on "Whittier the Quaker Poet," with a fine portrait and copious specimens of his finest poems. The editor has a beautifully illustrated article on "Fine Art in New York," and C. S. Eby, of Japan, has a very readable article on "Rhinecland," with numerous graphic pictures. Dr. Sutherland, in a vigorous article, urges the election at the approaching General Conference of two General Superintendents; and the Rev. J. Ross, M.A., has an excellent article on "Methodist Union," giving much needed information about the minor Methodist bodies. John Macdonald, Esq., contributes a fine poem on old Niagara. "Life in a Paragon" recounts a strange midnight adventure, and the queer story of a "Pious Tramp." An article on Patented Inventions, full of interest, and other papers, make a very readable midsummer number.

POLICE COURT.

DRUNK.

WEDNESDAY, AUG. 9.—Robert Miller was charged by Chief Johnston with being drunk on Tuesday. He pleaded guilty. This was the prisoner's second appearance on this charge inside of a month, and he was fined \$2 and \$1 costs or fifteen days in goal. He was committed.

Robert Burns was charged by Officer Adams with being drunk. He was fined \$1 or ten days in goal. The prisoner said that he had worked four days on the railroad and on leaving got an order for \$5.50, which he sold in a store for \$2.35, and of this amount he had only \$1 left, which he paid and departed.

Every Body's Excursion.

Don't fail to take this in. From Peterborough to-morrow (Friday) by morning train to Port Hope, thence by steamer Noreman to the 1,000 Islands, St. Lawrence Park and Brockville. Saturday, by morning train to Belleville and steamer Hero to above places. Return Monday or Thursday. Grand opportunity to enjoy the civic holiday. Only \$3.00 round trip. See posters.

Pictorial Canada.

Mr. Dodd is again in town delivering the ninth and tenth parts of Pictorial Canada, which are as beautifully illustrated, and as well written as their predecessors. The lumbering industry is the principal subject dealt with in these parts.

A Good Chance.

A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the Review office.

ST. JACOBS OIL

\$100

The band will hold forth this evening at the usual time and place, weather permitting. Mr. Millar has finished soliciting subscriptions for the new instruments, and has been very successful, having received quite a large sum. He sent to England to-day for the new instruments—over \$400 worth, we believe—and it is expected that they will sell all of the old ones and devote the money procured for them to buying more new ones of a better and much more improved style. It must not be expected that \$400 is enough money to buy a full set of instruments, as it will only purchase some nine or ten (the style and quality being extra), so that it will be absolutely necessary for them to dispose of the "aged brass" before they can boast of having a complete new set.

FRIDAY, AUGUST 11, 1882.

SAW-DUST AND THE LITTLE LAKE.

To the Editor of the Review.

SIR,—The expenditure of a large sum in dredging the Little Lake appears to me to be scarcely justified in the present condition of things, and I hope it may not yet appear that the grant for this purpose was obtained under something akin to a false pretence or the bidding of what should have been communicated, for I feel very confident no order to expend this money at present would have been made had the fact been communicated that hundreds of tons of saw-dust and slabs were, each season, thrown into the River above the Lake, and settled at the latter place, and that all the dredges in Canada could not, no matter how exist, abate the nuisance or render this beautiful water like what it originally was or should be.

I would earnestly urge upon the Government the appointment of an overseer, who, uninfluenced by mill owners, would prosecute impartially every person who threw refuse of any kind into the river. If this is neglected before dredging is proceeded with, that work will surely and certainly be a waste of money, for the selfish mill owners (vandalism I might say) on the river will fill the Lake again in twelve months.

Not only has the Lake and river below the Town been choked by mill waste and rendered almost un navigable, but fish, no longer, to any extent, can be taken, and the catching of bass and mackinawe will very soon be unknown from Peterborough to Rice Lake.

If the Government mean to do us any kindness or substantial or even temporary good, it must first prohibit this wanton defilement of our one lovely water and enforce the law by severe penalties. It was shown a few years ago that the infliction of a moderate fine would have no effect upon the mill owners. The addition of imprisonment for the second or third offence, without the option of paying a fine, is needed and would be such a salutary provision, as would likely require very few repetitions.

I feel that it would not be fair or honest to the Government to allow an expenditure of this kind without putting it in possession of facts of which I fear it is entirely ignorant, and I write this believing that if attention is called to it, such action will be taken as will make the expenditure a real and lasting benefit.

Yours,
OTONABEE.

August 11, 1882.

Barns Burned.

On Thursday evening, between five and six o'clock, a heavy storm of rain and hail, accompanied by thunder and lightning, passed over the 2nd concession of Douro. During the storm the barns of Mr. Daniel Maloney, on lot 8, were struck by the lightning, and the flames seemed to burst out from the barns, three in number, all at the same time. The barns and a stable were close together, and were, with their contents, totally destroyed. The barns contained about 1,100 bushels of barley, about thirty tons of hay, two fanning mills, and a number of pitch forks, &c., besides five or six sets of harness, all of which were destroyed in the flames. Mr. Maloney's total loss will be between \$5,000 and \$6,000. The buildings and contents were insured in the Phoenix of England for \$2,100.

To-Right.

The band will hold forth this evening at the usual time and place, weather permitting. Mr. Millar has finished soliciting subscriptions for the new instruments, and has been very successful, having received quite a large sum. He sent to England to-day for the new instruments—over \$400 worth, we believe—and it is expected that they will sell all of the old ones and devote the money procured for them to buying more new ones of a better and much more improved style. It must not be expected that \$400 is enough money to buy a full set of instruments, as it will only purchase some nine or ten (the style and quality being extra), so that it will be absolutely necessary for them to dispose of the "aged brass" before they can boast of having a complete new set.

GREAT BRITAIN AT WAR.

THE STATE OF AFFAIRS AT THE SCENE OF OPERATIONS.

The intentions of England Regarding Egypt—Bombardment of the Port of Suez—British Cruisers Ready to Intercept the Turkish Troops—Reinforcements from England.

TROOPS FOR EGYPT.

LONDON, Aug. 10.—Four squadrons of the 19th Hussars, numbering six hundred, are embarking at Southampton for Egypt. Nepal, and many other feudal States of India, have volunteered to furnish contingents for the British army in Egypt. The Shropshire regiment, 750 strong, have embarked at Kingston for Egypt.

ANOTHER OF THE FORT'S TRICKS.

LONDON, Aug. 10.—In corroboration of the statement made this morning by the Constantinople correspondent of the United Press Association, that the reports of the London press that the Porte had declared Arabi a rebel, were premature and not true, and that the Porte instead of having done this, had merely resorted to a trick in submitting for action a form for such a proclamation. Sir Charles Dilke, Under-Secretary of Foreign Affairs, made an official declaration in the Commons this evening. Being interrupted which report was true, Sir Charles stated that no proclamation declaring Arabi a rebel had yet been issued by the Porte. The Porte had merely submitted to Lord Dufferin a draft of such a proclamation, the draft to be submitted to the conference for correction, rejection or approval, the Porte giving no assurance that the proclamation in any form would be issued. Sir Charles Dilke added that the Porte had expressed its willingness to sign a military convention with England.

BRITISH INTENTIONS.

LONDON, Aug. 10.—In the House of Commons Mr. Gladstone stated that Admiral Seymour had given the Khedive distinct assurances relative to the intentions of the Government. An indefinite occupation of Egypt, he said, was not contemplated.

EFFECTS OF THE BOMBARDMENT.

ALEXANDRIA, Aug. 10.—A Council composed of Admiral Seymour and the leading military authorities has been investigating the effects of the bombardment of the forts. The evidence of naval military officers is that masonry is useless against modern guns, but earthworks turn every shot.

ARABI'S LOSS ON SATURDAY.

ALEXANDRIA, Aug. 10.—A Circassian who passed through Arabi's camp states that a colonel, a captain, a subaltern and 76 men were killed in the engagement on Saturday.

MURDER NEAR CAIRO.

ALEXANDRIA, Aug. 10.—It is reported that several murders have taken place near Cairo, and that an Englishman has been killed at Benha by Arab fanatics.

THE BRITISH POSITION.

ALEXANDRIA, Aug. 10.—All is quiet at the front to-night, and no movement of British troops is probable until the arrival of reinforcements. The strength of the British positions under cover of the guns of the fleet is such that no immediate attack is feared. The English cruisers are on the watch to prevent the landing of Turkish troops until instructed to permit it.

THE PROCLAMATION.

CONSTANTINOPLE, Aug. 10.—The Sultan's proclamation declaring Arabi a rebel also condemns the conduct of the military leaders as rebellious and criminal, and mentions the friendly relations of the Porte with England.

TROOPS DESPATCHED TO EGYPT.

ALEXANDRIA, Aug. 10.—The Khedive's agent at Constantinople announces the despatch of Derish Pasha aboard the yacht Izzedin with a small force of troops.

ISMAIL'S INTRIGUES.

LONDON, Aug. 10.—The reports of the presence of Ismail Pasha in Paris, and his alleged intrigues with French politicians, have been anticipated in Government circles. It is stated that Ismail has been under close surveillance, and all his movements have been carefully reported to London. Reports from Paris are that Ismail, the Porte and Arabi for a long time have been endeavouring to reach a tripartite understanding.

CABLE LAY.

ALEXANDRIA, Aug. 11.—The laying of the cable between Alexandria and Port Said is completed.

THE SUEZ CANAL.

CONSTANTINOPLE, Aug. 11.—The assent of England to the proposal of the Italian ambassador for the temporary international protection of the Suez Canal is coupled with a reservation making an exception in case of force, which means that if the international police are organized to guard the canal they shall not interfere with the military operations.

Triple Drowning Accident.

TORRANCE, Muskoka Lake, Aug. 9.—Mrs. G. W. Jestin with three small children accompanied by a girl named Bailey, went to an island to pick berries. The children, being small, Mrs. Jestin provided a blanket for them to play on, while she and Miss Bailey were collecting berries. One of the children managed to get into the lake. Miss Bailey attempted to rescue the child. When Mrs. Jestin, the mother of the child, saw that Miss Bailey was likely to sink she too plunged into the lake, and all three were drowned. The two surviving children were found on the island about eleven o'clock at night, nearly distracted and only able to tell the foregoing sad story.

There would be little if any sickness during the hot months of July and August, if every one would take Carson's Stomach and Constipation Bitters, as they prevent and cure all derangements of the Stomach and Bowels. Sold in large bottles at 50 cents by J. D. Tully, druggist.

Through the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

The nearer we follow nature in the treatment of disease, the more successful we are. Dr. Fowler's Extract of Wild Strawberry is Nature's specific for Cholera Morbus, Dysentery, Colic, and all forms of Summer Complaints. It specifically cures Canker in the stomach or bowels, and is safe for infants as well as adults.

AFTERNOON TELEGRAMS

From Despatches to the Review.

AMERICAN.

AN INDIAN WAR.

TUCSON, Aug. 11.—It has been heard from San Pedro Valley that Estemunkin, a noted Indian chief is preparing for war. He has assembled forty or fifty bucks, rogues from San Carlos, all who act in a threatening manner. The settlers are greatly alarmed, but are prepared against a surprise. Estemunkin for several years has been at peace with the whites, but he is one of the most treacherous and vindictive Indians in the territory.

HEAVY DAMAGE CLAIMED.

WHEELING WEST, Va., Aug. 11.—Seven suits for sums aggregating \$70,000, were entered yesterday against the Wheeling, Parkersburg and Cincinnati Transportation Company, by the legal representatives of sufferers by the Beleta disaster. There were 57 victims and it is likely that a suit will be entered in each case.

THE GRAIN MARKET.

NEW YORK, Aug. 11.—The decline in the breadstuffs market yesterday, caused considerable uneasiness among the members of the Produce Exchange. One feature in the market yesterday was the shipment to Europe of thirty-two thousand bushels of ungraded western unraised corn, which is the first shipment to Europe in two or three weeks.

BODY INCENDIARIES.

PHILADELPHIA, Aug. 11.—Charles Nichols, aged 16, charged with having started a \$300,000 fire at the Carpenter's house recently, has been committed to the House of Refuge until he is of age. His associate Kramer was left free because of his tender years.

STEAMERS IN COLLISION.

NEW YORK, Aug. 11.—The steamship State of Florida and Westphalia yesterday collided in the bay. No serious damage was done.

A LARGE LEGACY.

NEW ORLEANS, Aug. 11.—Hattie Hamilton, the most notorious woman in New Orleans, died at Old Point Comfort on Wednesday. She left \$600,000 to her business agent, a leading merchant.

About a Clocking Man.

Mr. Geo. Laidlaw, of No. 24 Brock street, is the owner of a clocking hen, which nearly caused him a serious loss. It is said to be an exceedingly valuable bird, having always a stock of eggs on hand, until very recently when it commenced to clock, and finally it took to the nest in the stable and refused to leave it. A servant tried several experiments such as tying a red string round its leg and dunking its head in the water, but they were old and of no avail, and it continued its clock as regularly as the one on the City Hall. About half-past three this afternoon she approached the nest cautiously and held a barring paper in close proximity to the nest. Just as the bird was making for the door the straw caught fire and spread so rapidly that it was found necessary to call out the fire brigade, and upon their arrival the flames were quickly extinguished, the damage amounting to \$5. The hen has not since been seen, but the probability is that she has stopped clocking.—Telegram.

A Lover's Desperation.

CHICAGO, Aug. 9.—Last night on the Wentworth avenue, Dietrich Peterson fatally shot his former sweetheart, Frida Krickmar, who had discarded him. He wounded her companion, Francis Kane, and then blew out the brains of the first. The shot hit Miss Kane by accident. Peterson then followed Frida a half block, firing at her. She has a bullet through the body and one in the neck. After she fell he turned into a side street and put the revolver to his own head. Peterson tried to shoot Frida last spring, and was under bonds to keep peace.

Persons! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedily and complete restoration of health and manly vigor. Address as above. No. B.—No risk is incurred, as thirty days' trial is allowed.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung disease by Dr. Souville's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease. Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 433 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Teller, 12 Merinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souville's Spirometer will cure catarrh of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address. Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto. Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

JUST ARRIVED!

Daily Evening Review

FRIDAY, AUGUST 11, 1882.

OUR PACIFIC RAILWAY.

The Winnipeg Times in an article on Mr. Laidlaw's account of the Canada Pacific Railway, and the Globe's attack upon him, describes the situation in a very reasonable manner. It is obvious that the people of Manitoba are not bent upon cutting their own throats by urging the repudiation of the contract with the Syndicate. Of course no sensible man believes the Globe when it accuses the present government of adopting a new policy in opposing railways to tap the Canada Pacific, and divert the traffic to the United States, for it is well known that the Mackenzie administration adopted and enforced the same policy.

The Times speaks as follows:—

"Manitoba would undoubtedly gain much if she were permitted to run lines to the frontier to connect with American roads. But the Globe chooses to forget that the C.P.R. would never have been built in this day or generation had not the company been guaranteed exemption from American competition for a period of years. Monopoly for twenty years is preferable to no road. The Globe forgets, too, that if its political friends had remained in power and been able to build the road from end to end, Manitoba would have been no better off as regards competitive roads than she is now. Mr. Mackenzie, in order to protect the eastern section of the C.P.R., decreed that the main line should not be tapped by any line running to the boundary. The Globe's friends, however, are giving the company the twenty years' monopoly of substantially a copy of his Order-in-Council prohibiting connecting with American roads. The Opposition cannot say, therefore, that they would have treated us better than the man now in power. Exclusion was the policy of both."

But while Manitoba suffers from her exclusion, it cannot be said that Winnipeg is directly affected. If the C.P.R. were tapped, say at Portage la Prairie, by a line running to the frontier and connecting with the American system, Winnipeg would soon cease to be the commercial metropolis of the North-west; just as Chicago would speedily deprive Toronto and Montreal of the roaring trade that awaits them when this vast region is opened up. The monopoly clause is a bad one in many respects, but it is not wholly bad; and, we repeat, better 20 years exclusion than no road."

The Georgia Citizen under the heading "Murder as a cure for small-pox," says that a negro basing the small-pox some neighbouring negroes shot him through the window and burned the cabin with him in it. We beg to call the attention of the Globe to this device to prevent contagion, as a parallel to its own advocacy of squatters murdering granters of crown lands. As there are sometimes cases of small-pox under a depraved Tory Government, the Globe might like the same remedy to be adopted in this case also.

In consequence of assertions that the present Government is distributing an undue amount of advertising patronage, the Hamilton Spectator has computed the amount paid to newspapers for advertising and subscriptions under the two administrations. It finds that the sum thus spent in the last year of Mr. Macpherson was \$19,223.58, while in 1881 it was reduced more than half, being only \$9,072.63. So much for Reform economy and Conservative extravagance.

Canadian Machinery.

The Napanee Reformer repeats an old complaint, and a very well founded one too—that repairs to imported agricultural machinery are always difficult and troublesome to obtain. Suppose that a farmer could actually get an Ohio reaper twenty dollars cheaper than an equally good one made in Ontario, he might in the hurry of harvest easily lose a hundred dollars through trouble and delay in getting repairs done in an emergency. But the various Canadian makers, through themselves or their agents, promptly set on hand in every county town and many other places, to make repairs on short notice. All the leading establishments will, doubtless, soon have their branch shops in Winnipeg and all along the line of the Pacific Railway, where repairs can be quickly made when wanted. On the repair question alone the difference in favor of home-made machinery is enormous, and it is one that farmers can appreciate, too.—Canadian Manufacturer.

The Magog Hydraulic Company, whose largest shareholders are Montrealers, are building a large dam at the outlet of Lake Memphrégog which will give some 3,000 horse power. It is proposed to organize immediately a company to establish a large mill for the manufacture of printed cottons, in connection with which there will be a large bleaching, where the grey cottons of other mills can be bleached. Not a yard of printed cotton is made in this country, while some six yards of this kind of goods are used in Canada to one yard both of bleached and unbleached cotton together.—Canadian Manufacturer.

LORD MAYOR'S BANQUET.

Mr. Gladstone on England's Position With Regard to Egypt.

LONDON, Aug. 9.—At the Lord Mayor's banquet this evening Gladstone said he had been 50 years in the service of the country and expressed a hope that he should not fall during what may be the short remainder of his public life to serve his Queen and country faithfully to the end. I am, he said, no longer a young man, and the moment of danger and that there will be wisdom and harmony in the work and deliberation of Parliament for the remainder of the present year. Referring to the Egyptian question he said it is of vital importance to the position of England should not be misunderstood. Forces have gone to Egypt in the prosecution of the great interest of the Empire. Unless those interests exist it would not have been possible for us to find justification for intervention, but let it be known and proclaimed from this spot which the world cannot infer to the Senate itself that those interests are not ours alone but the interests we have in common with every state in Europe and with the whole civilized world. (Cheers.) Referring to the Suez Canal Mr. Gladstone said it is essential for mankind that that gate should be open and the country in which it is situated should be peaceable, orderly and under a legal government to the utmost point we have in view. Though the burden and honor of performing it may fall upon ourselves it is a work which is essential for every country in Europe to perform and the performance of which cannot be postponed, if it be attended with high and disinterested objects, to the honor of those upon whom the burden is cast. We do not go to war with the Egyptian people but to rescue them from military tyranny, nor do we make war upon the Mohammedan religion, as Englishmen respect the convictions of believers in every other faith. We do not want to suppress the growth of liberty in Egypt; but desire that she be prosperous. England goes to Egypt with clean hands and with no secret intention to conceal from other nations. There is a class of men besides the military who require to be overruled, who were instruments of the former oppressor and who will be instruments of tyranny because they would provide for the revival of the abuses and equally already extinguished or mitigated. Gladstone expressed a hope for a speedy and successful issue to the expedition. He referred to the passing of the land bill and maintained that some progress had been made towards the restoration of settled order in Ireland.

THE CANADIAN CROPS.

Summary of Returns Along the Grand Trunk—Satisfactory Results.

We publish this morning the reports of the condition of the growing crops along the line of the Grand Trunk Railway, received by the Company by telegraph from its agents, on Friday and Saturday last. The information relates to a wide section of country, is accurate, new, and at this time of special interest. The harvest this year, taken as a whole, will equal that of the past three seasons, a sufficiently satisfactory result. But one crop has failed—that of fruit—which seems to have been killed by late frosts in the spring. Although this is the "apple" year, the yield will fall far below the average, and the fruit usually so plentiful, is likely from the most recent reports, to early become a luxury. The unfavorable character of the early spring, and the light snowfall of winter have, however, left their traces in other places. In some sections, for instance, between Lancaster and Belleville, the fall wheat has been killed or less seriously from frost, and will in this district fall somewhat below the average. On the other hand, spring wheat, some grain and hay will yield from an average to more than an average crop. From western Ontario, the most important part of the Province, the accounts rendered are eminently gratifying. Fall wheat will exceed in quality and quantity that of any previous year, the area sown having been considerably increased at the expense of spring wheat, which in spite of hardship in the spring, will give a fair average yield. Oats, peas, barley and hay are all fully up to the average, root crops fair, good, and in some places excellent. That in brief is the character of the crops throughout western Ontario. A noticeable feature in the reports is the absence of any complaint on account of rust, weevil or other pests. Barley everywhere is a good crop, and especially heavy between Kingston and Trenton. In our own province a marked change for the better has come over the crops in the past few weeks. On the whole, as we have said, the harvest promises to equal the splendid crops of the past three years, and there is abundant cause for thankfulness in this fact, since it implies a continuance of the great prosperity which all classes and all sections of the country are now enjoying.—Montreal Gazette.

ORIENTAL MANUSCRIPTS.

A Collection which Throws Light on Biblical Matters.

The trustees of the British Museum have just acquired a most important collection of Oriental manuscripts, consisting of 138 volumes, more or less fragmentary. They contain Arabic commentaries of the Bible, with the Hebrew text written by Karaites Jews; liturgies and hymns, both of the Karaites and the Rabbinic Jews; Karaite polemical treatises, and grammatical, geographical, and philosophical treatises. Among the commentaries on the Hebrew text are some of the highest importance, ranking among the oldest Arabic manuscripts hitherto known. They date back to A. D. 800, A. D. 1004, A. D. 1045. The British Museum has hitherto possessed only one manuscript of this kind, which had the date corresponding to A. D. 1007. These early manuscripts are of the greatest interest to Biblical students in showing the course of the law laid down in the Talmud, "that the sacred scriptures must not be written in any other than the square Hebrew characters," and demonstrate for the first time that the Jews were in the habit of writing the Scriptures in other characters. Another point of extreme interest, which they confirm, is the fact that though the commentaries were written in Arabic they contain large quotations from Anan's commentaries in Aramaic, thus proving beyond doubt that Anan, the founder of the Karaites, wrote in Aramaic, the language spoken in Palestine in the time of Christ. It is now claimed that the British Museum has the most valuable manuscripts of the Old Testament in existence. The Jewish Persian manuscripts have recently been added to the collection.

N. C. POLSON & Co., druggists, &c., Kingston, express themselves as surprised at the sale of Burdock Blood Bitters in that locality, where patent medicines are hard to introduce, but, say they, "the gross last ordered a few days since, will convince you that the demand is good, and that it is giving satisfaction to our customers."

The Rev. Charles E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

Canada in Cairo.

On Sunday morning all Cairo (cablegrams a correspondent) was moved. Crowds rushed about the streets in great excitement, congratulating each other and shouting with joy. The cause was the arrival of a boy of 17, Midshipman De Chair. He was conveyed in a close carriage, through whose blinds could just be distinguished the blue and gold of a British officer's uniform. The thousands of natives who surrounded the carriage would have been captured by Arabi Pasha, and made the air ring with their cries of "The Sultan is victorious!" "The Infidels have been driven off!" The youngster enjoyed the scene immensely, and still more their disappointment, when on his alighting they discovered that he was but a beardless boy in a round jacket, and not the important capture they thought had been made.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, get once and get a bottle of MRS. WINSTON'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not another on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle.

PARLA.—Get your mouth full by using TRAINER, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent sample.

New Advertisements.

J. H. TEMPERTON,

ROOF SLATER, McDonnell Street, Peterborough. Estimates given for all kinds of Roof Slating. Slates are safe-guard from fire and superior to any other kind of roofing.

WOOD FOR SALE.

I AM now prepared to deliver First-Class Hard or Mixed Wood. Parties leaving their orders now at the Grocery Store, corner of Charlotte and Aylmer Streets, will save fifty cents per cord cartage, as I am delivering from the saw mill direct. TERMS STRICTLY CASH.

T. FITZGERALD.

ONTARIO LADIES' COLLEGE,

Whitby, Ontario.

Will Reopen September 7, 1882.

The large and increasing patronage of this institution is the natural result of an exceedingly pleasant situation, of unrivalled buildings and grounds, of the best modern school appliances (to be strengthened next session by a powerful refracting telescope, a new Becker Grand Piano, and the use of a Pipe Organ), and of the earnest and enthusiastic efforts of a large and gifted faculty. Charges Moderate. Send for catalogue to the Principal, J. J. HARRIS, M. A.

R. W. MUNCASTER.

KENDALL'S SPAVIN CURE. The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Framingham Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 30th, 1880. DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the touch be found.

Respectfully yours, P. N. GRANGER.

PERSISTENCE WILL TELL.

STONINGTON, Mass., March 10th, 1880. B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or circulations in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, not only mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man. Five per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Edinburgh Falls, Vt.

Daily Evening Review

FRIDAY, AUGUST 11, 1882.

LOCAL AND MUNICIPAL.

Just What's Wanted.

Merchants and others, can have luncheon at Humphrys & Cartons. Pastry Cooks and Confectioners.

Deaths.

One of the men working in the waterworks trenches, named Patrick Clougherty, aged about 45 years, died this morning, of inflammation of the bowels. He leaves a wife and five children.

Re-opened.

Mr. McClelland's Photographic Studio is now open, and will remain open until further notice—over Flavelle's (food store) Bimcoe street—and don't forget it.

Peterborough Horticultural Society.

At a recent meeting of the directors, it was decided to hold the summer exhibition in Bradburn's Hall on Thursday, 7th September. Prize lists will be ready in a few days and obtainable at the store of Messrs. Ormond & Walsh.

No. 3 Company.

At a meeting of this company a great many recruits came forward to join. All the old members who want to go to camp would do well to let their Captains know immediately, as the uniforms will soon be served out. They will meet for drill every Tuesday evening until they go to camp.

Midland Railway Traffic Returns.

The traffic of the above railway, for the week ending Aug. 5, 1882, was as follows:—Passengers and Mails, \$6,113.95; Freight, \$14,461.01. Total, \$20,574.96, as compared with \$16,237.76 for the corresponding week of 1881, being an increase of \$4,337.20; and the aggregate traffic to date is \$57,901.62, being an increase of \$150,382.24 over 1881.

Successful Mission.

Dr. Bell returned home last night from Toronto, after having secured the unanimous consent of the Grand Lodge of Oddfellows in session to the restoration of the old "Otonabee Lodge No. 13." The Doctor was congratulated by very many old members of the Grand Lodge on the success of his efforts as the delegate from the petitioners here. Steps will now be immediately taken to arrange affairs for the re-opening.

Railway Notes.

The steam excavator used on the "missing link," nearest the town met with a mishap on Tuesday, which disabled it for a couple of days. It commenced work again to-day.

The Mail says as an evidence of the activity of the railway business in the transportation of freight, the Midland Railway Company have been obliged to discontinue their ballast trains, as it is necessary to use all their engine-power and available rolling stock to move the large quantities of freight passing over their rails.

Excursions to Rochester.

On Wednesday night and Thursday morning next the Fire Companies of Cobourg have excursions to the City of Rochester, from Port Hope via the steamer Norsemans. As we understand that quite a number of persons from Peterborough intend going over to witness the grand Firemen's Tournament in the Flower City, in order to prevent any misapprehension we are requested to ask that all those from town who may go, should see that their tickets read via Port Hope, as if they do not it will be necessary for ticket holders to proceed to Cobourg and remain there over night before taking the boat, while if their tickets read via Port Hope, connection can be made with the boat at Port Hope by the regular trains on the night of the 16th and the morning of the 17th.

Veterinary Office Removed.

The Peterborough Veterinary Office has been removed to Brock street, two doors east of the Post Office, where there is a fine private yard and infirmary adjoining the pharmacy. Messrs. Crevier and Paquin have already worked up a large practice here, though some efforts have been made to hurt their business by representing that they are practicing without proper authority. In reply to enquiries on the subject Dr. McEachran, F.R.C.V.S. of England, and Principal of the Montreal School of Veterinary Science, has replied:—"Mr. Paul Paquin is probably the best educated French Canadian that has ever graduated here. He is sure to succeed and will be an acquisition to the place he settles in. I look upon Mr. Crevier as one of our most promising young men."

POLICE COURT.

RETURNED TO SUPPORT HIS WIFE.

FRIDAY, Aug. 11.—George A. Ayling was charged by his wife with refusing to support her and their family.

Mr. Edmison appeared on behalf of the defendant.

Mr. Ayling testified that about seven years ago they moved to the village of Apsley and bought a lot there and went to live on it together. The defendant put a roof on the shanty and put up a fence, and she and his son did all other improvements. The defendant could not support the family there and he came to Peterborough to work. He earned very little, but sent the family what he could spare for about three years.

"For four years. Tell the truth," called out the husband.

The witness, continuing, said that they had for nearly four years received nothing from him by way of support. He wanted her to come to Peterborough to live with him, but he had written before that it took all he earned to keep himself and she did not come. She told him they had made a home at Apsley and she would stay there. Since that he went out to Apsley several times, and was always drunk. On the 4th of May he went out and smashed the things in the house and threatened to kill her with an axe. He took nothing with him when he went out but whiskey. On the 20th of June he went out there again and was very drunk. When he was there a young man came to the door and spoke to him, and her husband sprang at him, struck at him with a chair and ran for an axe, declaring that he was always there with his wife. The young man left and the husband threatened to kill her with the axe. She went for a constable, who came, and her husband said he had expected to see him there with the rest of the fellows. Both these men had never been in the house before. She then left and went to the house of a clergyman with their little girl, and the husband smashed the furniture and strewed it on the road. He went back once after and stayed a week against her will, came back to Peterborough and went again to Apsley in about a week and put her out with threats of murder. She went away and had since remained with the Rev. Mr. Harding. In the cross-examination the witness said that her husband asked her to come to Peterborough and stay with him at intervals.

Mr. Edmison asked to have the case dismissed with costs, as there was nothing on the wife's own showing to sustain the charge.

The MAGISTRATE took a different view of it, and committed the husband for trial at the Quarter Session, with the privilege of giving bail, himself in \$200 and two sureties in \$100 each.

Loose Boards.

We would call attention to a couple of loose boards in the sidewalk at the crossing over the railway on Charlotte street, which forms a dangerous trap.

Photography.

We have been requested to publish the following notice:—

"We the undersigned do call the attention of our customers and the public generally to the following fact. Our studios will be closed and business suspended from the 16th of August to the 24th, both days inclusive.

(Signed)

JAMES LITTLE,
THOS. EDWARDS,
G. B. BROOKS,
ROBERT SMITH.

A Positive Fact.

Some "poor man's cow" was promenading on the sidewalk this morning, evidently looking for a stroke from some of her admirers. Her attention was attracted to the window of one of the fashionable millinery establishments near the corner of George and Bimcoe streets, where she stood gazing at the display therein, possibly with a view to adorning herself previous to her meeting some of her friends. She must have learnt the result of the deliberations of the City Fathers on Monday last.

A Prairie City.

We have been favoured by Mr. Thos. Niblock, now of Denver, Colorado, but formerly of Peterborough, a copy of the Denver Rocky Mountain News. It contains two half page engravings, one giving a representation of the building for the National Mining and Industrial Exposition, a grand edifice for so young a city. The other gives a view of Denver from the Capitol Hill, showing what a fine city it is. As an example worthy of imitation we may state that though a prairie city it looks almost like a grove from the number of flourishing trees planted along the streets.

The Lake George Regatta.

At the Lake George regatta on Wednesday, the first day of the races, the Peterborough canoeists carried off some of the first prizes. In the one mile paddling race for canoes not over twenty-eight inch beam, for men who had never won a published paddling race, there were nine starters, and Mr. J. Emerson, of Peterborough, took the first prize. He used an open Peterborough canoe and single-bladed paddle, while all the others used double-bladed paddles and decked canoes. He made the mile in 11 minutes and 31 seconds. Mr. H. B. Weller took first prize in a single race for canoes not over twenty-eight inch beam, junior class. There were eleven entries for this race, and the distance was one mile and half. Mr. Weller also used an open Peterborough canoe built by Stevenson, and he used a single lateen sail and steered with a paddle instead of a rudder. On the second day there was a sailing contest for decked canoes, for which there were eight entries, including the Verena, sailed by Vice-Commodore Edwards, of Peterborough. The Mail says that her captain showed great adroitness in managing his sail among the breezes of this equally lake, and the Verena came in fully five minutes ahead of the second boat.

IT HAS PROVED THE TEST OF TIME.—For twenty-five years has Dr. Fowler's Extract of Wild Strawberry been before the people, and its popularity is to-day greater than ever, because it has proved reliable in the treatment of all forms of Bowel Complaint incident to the Summer season.

REMNANTS, REMNANTS, AT HALF-PRICE

A Good Chance.
A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the Review office.

Photographic.
Mr. G. B. Sproule informs us that while his studio will be closed to the public for the making of negatives from August 14th to 24th, as announced, he will be prepared during that interval to finish all orders that he has on hand, and that he has secured owing to the overpressure of work.

The Lachine Regatta.
There are a large number of entries for the association regatta at Lachine. The Peterborough Rowing Club has entered for three races, viz., the junior four-oared race, the race for the Lachine B. C. Challenge Cup and the senior four-oared race. We wish them success in carrying off the prize.

Treat Valley Canal.
In answer to an enquiry Mr. Geo. Hilliard, M. P., has received a telegram last night from Mr. Rubidge that the plans and specifications for the works on the Treat Valley Canal would be here to-day. Mr. Aylmer has arrived from Ottawa, bringing with him those plans and specifications, which are to be seen at the office in Cluxton's new block on George street.

Lacrosse Notes.
The following will represent Peterborough in the match with Ottawa on Monday next:—
W. A. Sanderson.....Goal
J. Joyal.....Point
P. Rodkin.....C. Point
J. Hayes.....Defence Field
G. Giroux....." "
J. Sheehy.....Centre Field
A. Toland.....Field
W. McAvlin....." "
W. Morrow....." "
M. Halpin.....Home
R. H. Fortye....." "
W. Rodkin....." "

As will be seen by the above names, two of the old players, Messrs. Rutherford and McDonnell are not on the team, owing to the fact that the former has had one of his hands injured, and the other is not enjoying good health, but the new material is good and we think it but fair that men on the second twelve, who have practised hard, should have a chance on the first team when opportunity offers. The visitors are practicing assiduously and the home team are following suit, and we hope to see a large attendance to encourage the boys before their match for the junior championship of the world. The game commences at 2.30 p.m., and the Fire Brigade Band will be in attendance. The first match for the championship of this district will probably take place about the end of the present month between Peterborough and Orillia. The place has not yet been decided on.

Welland Canal Enlargement.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this Office until the arrival of the Eastern and Western Mails on FRIDAY, the 1st day of SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Ramey's Bend and Port Colborne, known as Section 24, embracing the greater part of what is called "Rock Cut."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 18th day of AUGUST next, where printed forms of tender can be obtained. Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the firm; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order, A. P. BRADLEY, Secretary.

Department of Railways and Canals, (Ottawa, 14th July, 1882.) 6d15-law 2115

Daily Evening Review

SATURDAY, AUGUST 12, 1892.

THE CIVIC HOLIDAY.

How it is to be Celebrated—An Excursion and Lacrosse Match.

Holidays are always welcomed by the people living in towns, and perhaps none are more appreciated than the annual civic holiday. Our holidays have all some peculiar significance. Christmas and Good Friday are more or less religious holidays, as one is celebrated in commemoration of the birth of our Saviour and the other of His death. The 24th of May is an opportunity for festivities in honor of the birth of our much beloved Queen; the 1st of July commemorates the consolidation of the various provinces of British North America into a young and vigorous nation, and New Year's Day, while partaking of the nature of a festival in welcoming the new year, is yet attended with a degree of solemnity, as it counts another knot in the real of years which are rolling around each person. Thanksgiving Day is also a religious day, affording an opportunity for returning thanks for the harvest, and the holiday appointed each year by the Chief Magistrate and known as the civic holiday is celebrated in honor of the town. Its object is chiefly to give all persons a day of recreation in the hot season when business is usually not very brisk, and is generally celebrated in a quiet and healthy manner. This year, for our town of Peterborough, next Monday, the 14th of August, is set apart as the civic holiday, and preparations have been made for a day of enjoyment.

EXCURSION TO IDYL-WILD.

One of the chief events of the day will be the excursion to Idyl-Wild, under the auspices of McWilliams Lodge of True Blues. The steamer Golden-Eye has been chartered for this purpose and will leave her wharf at seven o'clock in the morning. A palace row will be attached to the steamer for dancing, and Martin's Quadrille Band will be present on the boat and on the island and will provide music for those who de-light in this favourite amusement. Those who attend this excursion may feel assured of enjoying a pleasant time.

LACROSSE MATCH.

At half-past two o'clock in the afternoon a lacrosse match will take place on the Ashburnham cricket ground, between the Peterborough and Oshawa clubs. The members of the Oshawa club are known here to be good players, having on a previous occasion crossed sticks with the home club, and the members of the home club have been practising for the game, so that a spirited and well contested game may be expected. The Fire Brigade Band will be present on the ground, and this announcement alone should be sufficient to attract a large crowd. Seats will be provided on raised stands for the ladies. We hope and expect to see a large number of our townspeople present to witness this match, and we hope that they will witness a victory for the Peterborough team.

PRIVATE EXCURSIONS.

A number of private picnics are being arranged, to be held at various places. One is to go to Bobcaygeon, another to Chemung Lake, another to Campbelltown, and still another to Crawford's Grove, a short distance from the town, and smaller picnics and family parties innumerable will be held in the groves in the neighborhood of the town.

Altogether we think there is no doubt, with the programme which has been arranged, that our citizens will enjoy themselves to their heart's content on Monday next.

The Rev. Charles E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

THE POWERS AND EGYPT

A JOINT PROTOCOL ISSUED BY THE AMBASSADORS OF THE POWERS.

Envoys Ask for an Explanation—The Turkish Press Assuming a Friendly Tone—New Egyptian Ministry—More Troops from England.

A MORE FRIENDLY FEELING.

CONSTANTINOPLE, Aug. 11.—The Turkish journals are assuming a friendly tone towards England. The Sheik-ul-Islam has prohibited the Ulemas from preaching in favour of Arabi.

THE COMMAND OF THE JOINT FORCES.

CONSTANTINOPLE, Aug. 11.—It is stated that the Sultan has conferred the chief command of the Turkish expedition to Egypt to the Khedive, who it is expected will appoint Gen. Wolseley to the command of the united forces.

NURSES FOR ALEXANDRIA.

LONDON, Aug. 11.—The St. John's Ambulance Association intends to send a corps of trained nurses to Alexandria under the direction of Viscountess Strangford.

EN ROUTE FOR THE EAST.

LONDON, Aug. 11.—The transports Bolivar and the City of Paris, with the 2nd battalion of the Royal Irish regiment and detachments from the commissariat and medical department sailed for Egypt to-day.

NEW EGYPTIAN MINISTRY.

ALEXANDRIA, Aug. 11.—It is stated that the formation of a new Ministry will probably be announced to-day, with Cherif Pasha as Prime Minister. Most of the present Ministers, excepting Ragheb Pasha, will remain in office. Suleima Pasha will take the portfolio of Minister of Education, and Sherara Pasha that of Minister of Religion. They are both partisans of Arabi.

GOVERNOR EXECUTED.

ALEXANDRIA, Aug. 11.—It is stated that Arabi has executed the Governor of Behera. PREPARATIONS FOR GEN. WOLSELEY'S ARRIVAL.

ALEXANDRIA, Aug. 11.—General Adye will command all the land forces in Egypt until Gen. Wolseley arrives. General Adye will shortly take over the post of chief of the Intelligence Department for the British and Indian contingents. The main body of the British troops will remain on the transports until General Wolseley arrives. This will leave him free to effect a landing elsewhere than at Alexandria if he thinks fit.

ARABI ENTRENCHING.

ALEXANDRIA, Aug. 11.—Arabi is constructing within five thousand yards of Ramleh, a formidable redoubt and embankment 30 feet high. The Soudan line is at the work to-day, four of which have been in close proximity to rebels.

RUSSIA ASKS AN EXPLANATION.

CONSTANTINOPLE, Aug. 11.—At the conference yesterday the Russian representative asked an explanation of the action of the British in occupying Suez. Earl Dufferin replied that the step was taken in consequence of military necessity, and in order to save the town from destruction and pillage. The English draft of the military convention shows that England, while accepting Turkish co-operation in Egypt, is prepared to do the work unassisted.

A PROTOCOL ISSUED.

CONSTANTINOPLE, Aug. 11.—Despite the earnest efforts of Earl Dufferin to secure such action as would allow a continuance of England's military supervision of Egypt and the Suez Canal, the conference to-day issued a protocol signed by all the ambassadors.

WHAT ENGLAND INSISTS UPON.

CONSTANTINOPLE, Aug. 12.—What Lord Dufferin insists upon in order to secure harmony of action in the movement of the Turkish troops, when they are in Egypt, should take place without the consent of General Wolseley.

MIDNIGHT TELEGRAMS

CABLE.

THE COMMONS.

LONDON, Aug. 11.—In the House of Commons to-day Mr. Gladstone stated that the House would adjourn next Friday until the 24th or 26th. Nothing can be said except that the Procedure bill will be taken up at the autumn sessions, except in the event of emergency.

LIBERATED.

DUBLIN, Aug. 11.—Henry George, arrested yesterday, was liberated to-day. The police accused him of associating with criminals.

GARFIELD'S TREATMENT.

LONDON, Aug. 11.—Prof. Esmarch, the eminent German surgeon, publishes a lecture he delivered before the Physiological Society at Kiel on the treatment of General Garfield's wound. It is to the effect that General Garfield might have been alive but for the treatment he received.

IRISH STATISTICS.

DUBLIN, Aug. 11.—One hundred and seventy suicides were in prison in Ireland on August 2nd. Two hundred and thirty-one outrages, including two murders, occurred in July. The number of evictions was 321 families, representing 1,619 persons. Half the evicted families were reinstated as caretakers or tenants.

ARRESTS IN IRELAND.

DUBLIN, Aug. 11.—Stephen J. Meaney, the correspondent of the New York Star, was arrested at Ennis this morning under the Crimes Repression Act. "Scrab" Nally, one of the defendants in the Irish State trials in Dublin, in January, 1881, was arrested at Claremorris last night under the curfew clause of the Crimes Repression Act. Nally had just arrived from Balla. He will appear before the magistrate to-day. Nally was cautioned and discharged. The court directed that he must henceforth reside in his own house at Balla.

IGNATIEFF ARRESTED.

VENICE, Aug. 11.—A telegram from Cernowitz is published reporting the arrival there of several Russian merchants, who state that Gen. Ignatieff has been arrested at Kamenetz and sent under escort to St. Petersburg.

INTERNATIONAL COPYRIGHT.

LONDON, Aug. 11.—At the conference on the codification of international law, a letter was read from Mr. Lowell, United States Minister, stating that he had little hope for the success of the negotiations now proceeding at Washington relative to international copyright, as the publishers have such weighty influence.

THE HOLY WAR.

LONDON, Aug. 11.—A holy war is being preached throughout Morocco against the Christians.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

A TRAIN CAPSIZED.

WABEKA, Minn., Aug. 12.—A construction train on the Minneapolis & St. Louis railway with 57 labourers on board was thrown from the track, turned completely over and dashed down an embankment into a water slough. Two men were fatally injured and many others seriously.

A LARGE FIRE.

SPOKANE FALLS, W. T., Aug. 12.—A fire last night destroyed over \$400,000 worth of property which was partially insured. Several men were severely burned.

LYNCH LAW.

SPRINGFIELD, Ill., Aug. 12.—It is reported that a mob numbering 2,000 at Taylorville last night overpowered the officers and took three prisoners, charged with outraging Miss Bond, out of town to hang them.

JEWISH REFUGEES.

CHICAGO, Aug. 12.—A dozen banished Russian Jews yesterday declared their intention of becoming citizens of the United States.

TO BE INVESTIGATED.

WASHINGTON, Aug. 12.—The acting Secretary of State has telegraphed to Minister Lowell to investigate the arrest of S. J. Meaney.

A DIABOLICAL ACT.

RICHMOND, Ohio, Aug. 12.—Yesterday James Meers, one of the largest stock dealers in this country, found a bottle of poison in a field where his cattle were. Over \$4,000 worth of them are dead and fourteen of them are sick and will probably die.

THE PUGILISTIC CADETS.

WEST POINT, Aug. 12.—General Howard has sentenced the five cadets concerned in the recent prize fight. They will be confined within the limits of Camp Garfield, and within the cordons during the remainder of the present encampment. The sentence is deemed severe. Souder is yet in the hospital.

THE TRANSIT OF VENUS.

NEW YORK, Aug. 12.—The World's Washington despatch says that a preliminary meeting of the commission created by Congress, has been held to arrange for observations of the transit of Venus in December, for the purpose of ascertaining the relative accuracy of the different methods for determining the solar parallax. Washington to be the farthest station north. Further north than this the sky is exceedingly cloudy; at Washington it is so about half the while. On the gulf the clouds are much smaller. Prof. Wm. Harkness, of the national observatory, will have charge of the observations at Washington; Prof. John R. Eastman, of the navy, has been assigned to the station at Key, Florida; Prof. Asaph Hall, of the navy, is to have charge of the San Antonio, Texas, station; Prof. George Davidson, that at Fort Thorne, New Mexico; Prof. Newcomb, Superintendent of the Nautical Almanac, will have charge of the Cape of Good Hope station; Lieut. Berry of the navy will have charge of the Santa Cruz station; the station at Santiago, Chile, will be in charge of Prof. Louis Boss, of the Dudley observatory, and the New Zealand station will be in charge of Edward Smith of the United States coast survey. The party for Easter Island station will leave about the 25th of August, the New Zealand party about the 1st of September. The party for the Stations in the United States will not leave before the middle of October.

SEIZING MAIL MATTER.

NEW YORK, Aug. 12.—The Times' Washington despatch says that the post office department do not consider that in seizing suspicious mail matter, the Government of Great Britain is exceeding her rights as defined in the Convention entered into between the countries forming the universal postal.

AN INTERNATIONAL BOUNDARY.

NEW YORK, Aug. 12.—Barros, President of Guatemala, sails to-day for Europe, whether he goes on matters connected with the public welfare of his country. The Mexican minister and the representatives of Guatemala yesterday signed a convention, which it is believed will end the boundary dispute between Mexico and Guatemala. The convention provides for submitting the differences to the arbitration of the President of the United States. Guatemala abandons her pretensions to Soconusco and recognizes it as belonging to Mexico. A boundary commission will be appointed by both the contracting powers to run a dividing line between them.

A TERRIBLE FALL.

FREDERICK, M. D., Aug. 12.—While Henry Lampe, John Winters, Jacob Veight and Edward Murray were freecoling the ceiling of the Methodist Church yesterday the scaffolding gave way. The two first named fell in the gallery and were badly hurt. The second two fell to the ground floor, a distance of forty feet, and were frightfully mutilated and will probably die.

AN IMPENDING MURDERER.

PALESTINE, Texas, Aug. 12.—Chas. Thomas, a colored man, was hanged yesterday for murdering Hosea McMeans. Thomas joined the clergyman in a hymn which he heard the notorious Browns sing at his execution at Denton four years ago. Thomas prayed for his enemies and for all mankind. Without the least evidence of fear he stepped upon the trap, announced that he was ready to die and expressed his satisfaction at having killed McMeans. His neck was broken.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THROUGH the present month of July the Stomach and Bowels are very liable to become deranged. The proper preventative is Dr. Carson's Stomach and Constipation Bitters, for by their use the Digestive Organs are invigorated, the Bowels kept regular and the Blood rendered pure and cool. Sold in large bottles at 50 cents by J. D. Tully, druggist.

GENERAL DEBILITY AND LIVER COMPLAINT.—R. V. Pierce, M. D., Buffalo N. Y., Dear Sir.—My wife has been taking your "Golden Medical Discovery" and "Pillars" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from Liver Complaint, Sour Stomach, and General Debility. Yours fraternally, N. E. Harmon, Pastor M. E. Church, Elmhurst, Ill.

JUST ARRIVED!

South End Bookstore.
Late J. I. DAVIDSON.

Daily Evening Review

SATURDAY, AUGUST 12, 1882.

THE TRENT VALLEY CANAL.

THE plans and specifications of the Trent Valley Canal Works at Burlington, Buckhorn and Fenelon Falls are now ready for the inspection of tenderers at Ottawa and in this locality, the documents relating to Burlington and Buckhorn being accessible at the office in Claxton's New Block in this town, and those for Fenelon Falls at the office in that village. Our readers will be gratified at this evidence of the immediate progress of the work and of the good faith of the Government in their promise to open up our great navigable route. There would indeed be no necessity to say a word as to their good faith, were it not that the confidence of the more timid friends of the project may have been somewhat shaken by the unscrupulous slanders of some journals, which being more anxious to revile their political opponents than to promote the interests of the country and their own special localities, have falsely alleged that the grant for these works was a mere election dodge and that they would not be carried out. The maintenance by the country of the present Dominion administration in power has ensured the completion of this important work without a doubt.

As to the present operations we would like to see at least a portion of them undertaken by our local men. As there are three independent contracts to be allotted, it is probable that they will not be beyond the scope of some of our enterprising citizens, who should certainly look into the matter carefully and make an effort to keep at least one of the contracts at home.

It is hard to please some people. The *Land* say I invited us to rebuke the *Mail*, and our compliance only calls forth more abuse. We are likened to Pharisees, but the *Post* should remember that we did not volunteer our remarks, which it called forth itself. Our contemporary must excuse us if we form a high ideal of journalism and do our best to act up to it. We certainly must decline the thankless task of searching the files of the *Post*. In response to a similar challenge some months ago, we pointed out that it had falsely represented that farm implements had increased in price under the N. P., and to this day it has neither retracted nor explained. As to our language we never applied one "coarse epithet" to the *Post*, but we did censure it strongly and justly for accusing the chosen leaders of the people of conduct that would place them on a level with the swindler in the dock. Why, in the very same column the *Post* accused an esteemed and honourable gentleman like Mr. Mousson of a "corrupt and disgraceful bargain." Is this reputable journalism?

The *Winnipeg Times* says:—"The snub was well deserved. What would Canadians say if the British House of Commons passed a series of resolutions, instructing the Dominion Government how to govern the Northwest, and settle the Indian question? We fancy that if Mr. John Macdonald showed no more respect in regard to the Northwest than Mr. Gladstone does in regard to Irish affairs, we should soon hear from the Imperial Parliament."

Action Worthy of Imitation.

A company of twenty-five American working people were received by Mr. John Bright at his residence on July 26th. They subsequently met the Lord Mayor at the Mansion House, and were entertained by him at luncheon. Brief speeches of welcome were made by Mr. Bright and the Lord Mayor, and replied to by Mr. E. D. Jordan, under whose guidance the Americans are travelling. They are young men and women chosen from the various departments of the draper's store of Jordan and Marsh, at Boston, one of the largest establishments of its kind in America, employing some 8,000 people. The proprietors have arranged to send twenty-five of the employees abroad every year, making them a free gift of the trip through Europe. This is an example well worthy of imitation, where the generosity is known to be deserved.

A Strange Occurrence.

Last Friday a Mrs. Landry, who had been ill for some time with typhoid fever, died. Although the physician pronounced life extinct, the body did not become rigid and perspired freely during the five days it remained in the house before burial. The members of the family deemed it a trance, but decomposition set in on the sixth day, and the funeral took place. The affair is a strange one and many are of opinion that the woman has been buried alive. The doctor who attended her, however, is convinced that she was dead, although he cannot account for the phenomenon of perspiration after death. —*Montreal Witness*.

A FRESH TRAGEDY.

Four Farmers' Sons Drowned While Boating on a Small Lake.

FRESHWATER, County Grey, Ont., Aug. 10.—A melancholy drowning accident occurred yesterday afternoon about 4 o'clock at Brewster's lake, Opey township about sixteen miles east of here. The orange young brinks from Dunlop, Slingshampton and third line of Opey were enjoying their picnic. Six young men, all farmers' sons, went out in a small row boat. They are named respectively: Edward Myles, John Myles, John Hagheon, Francis Winter, David Winter and Wm. F. Wisdom. The latter stood up in the row boat at the same time using an oar. The boat lurched and Wisdom fell. In falling he put his arm around David Winter's neck, capturing the boat. All were thrown into the water. The two Winters managed to reach the boat, clung on and were saved. The four others sank and never rose once to the surface. The accident happened fifteen rods from the shore, in fifteen feet of water. Scams on the banks saw them go down, but could render no assistance. None of the young men could swim. Their bodies were recovered late last night.

Killed on the Truck.

Peter Currie, a resident of McGill street, Riverside was struck by a Grand Trunk engine and tender, which had been assisting the Eastern Express on the grade at the Kingston road crossing about 7.45 last evening. He fell into the man-hole at the south side of the road, where he lay until a number of persons who witnessed the accident lifted him up and placed him on the grass. Dr. Carroll was telephoned for, but on his arrival was unable to do anything for the unfortunate man. His head was badly crushed, one of his legs was fearfully mangled, and he had received internal injuries. The ambulance wagon was telegraphed for to convey the injured man to his home, but before it arrived he had expired. The body was conveyed to his home on McGill street. Mr. Currie was about 32 years old, and the only son of Mr. James Currie who will be remembered as having been standing divine service in the Central Presbyterian Church several months ago. The signalman was on duty on the north side of the road and saw Currie approach, but taking it for granted that he would remain on the east side until the engine passed, did not warn him. The only way of accounting for the accident is that the signalman was deaf and dumb, in addition to being almost blind. Coroner Hildell has issued a warrant for an inquest should one be deemed necessary by the deceased man's friends. —*Globe*.

Finding a Bride in the Solace.

Paris letter: The son of a rich gentleman residing in the Faubourg St. Germain had fallen in love with a pretty, amiable but dowdier girl. The course of true love ran smoothly enough so long as the young man's father was not aware of what was going forward but when his consent to the marriage was asked, he flatly refused to give it. A last meeting took place, vows of eternal constancy were interchanged, and the lovers separated. The young lady deeply affected at the parting, took the rash determination to drown herself and her sorrow in the Seine, and about twilight on Saturday she carried out her intention. A gentleman walking along the quays at the time saw her struggling in the water, and, without a moment's hesitation, plunged in to the rescue. The would-be suicide was saved, but the poor girl's father, who was told that the gentleman who saved her intended to be the father of the man she loved. The denouement of the affair can be easily guessed. The stern parent's hysterical resolution to refuse his consent to the union gave way when the question of the girl's drowning was raised. He conveyed the poor girl home, sent for his son, told the delighted young people that they were free to take each other for better or worse, and that the wedding might take place as soon as the young lady recovered from the effects of her immersion in the river.

The Late Accident.

RIDGEMOUNT, Aug. 10.—The Associated Press despatches previously transmitted, referring to the untimely death of Wm. Murray, were incorrect, and did an injustice to deceased and his widow. Mr. Geo. Murray, of this place, states that he was up to Detroit on business, and heard of his brother's death while on the road home, upon which he returned to Detroit and brought the body to Ridgemoor the same evening. He also affirms that Mr. Murray and wife lived agreeably together, and were making arrangements to locate at Detroit, as a home was already prepared for the reception of his wife, who was to have met him that evening. She had been, or was home on the occasion of her sister's death, and had not left him as reported. He did not try to commit suicide, as was stated, but the boat capsized through accident, and he made his way to land with the aid of an oar. The engineer of the express says he did not see the deceased till almost on him, and then he thinks he saw him try to get off the track. He lost no property, and had no tussle domestic or otherwise, as far as could be learned. In all his letters he spoke cheerfully of home and life in general, from which it can be seen that his death was purely accidental.

YOUNG, middle-aged, or old men, suffering from nervous debility or kindred affections, should address, with due regard for large treatment, World's Dispensary Medical Association, Buffalo, N. Y.

TUESDAY, AUGUST 15, 1882.

A DAY OF RECREATION.

A QUIET YET ENTHUSIASTIC CELEBRATION OF THE CIVIC HOLIDAY.

A Gladly-Contented Game of Lacrosse—The Peterborough Club the Victors—The Town Square—A Quiet Day in Town.

Monday, the civic holiday, passed very quietly in the town, and the streets during the forenoon, had more the aspect of a Sunday than a holiday. Yet the day was busy—in fact enthusiastically celebrated, for each person was in earnest in seeking relaxation, pleasure and enjoyment, and that in the true way to celebrate such a day. Early in the morning there was a lot of on the streets, caused by the departure of the various excursion and picnic parties, and after this the town gradually quieted down, until the arrival of the Oshawa Lacrosse Club and the preparations for the lacrosse match again awakened the streets to unusual activity. The weather during the day was very favorable. A shower threatened to fall in the afternoon, and there was a very light sprinkle of rain, but not enough to interfere with any amusement, and better weather could hardly be desired.

THE LACROSSE MATCH.

The match between the Peterborough and Oshawa Lacrosse Clubs took place in the afternoon on the Oshawa Common. The Peterborough team was captained by Mr. H. LeBrun, and the Oshawa team by Mr. A. King. Mr. E. English acted as umpire for the home team and Mr. F. McWain for the visitors, and Mr. D. Fitzgerald was referee.

At about 2.30 o'clock the Fire Brigade Band arrived on the ground, and soon after the respective teams took their places on the field. The ball was played for three minutes after three o'clock, and play began. It was at once observable that the visiting team was composed of good players, and that the home club won the match they would have to work for it. The visitors were heavier than the members of the home team and were excellent runners. At the commencement of the game the Peterborough players appeared to be weak, and some play took place on their side of the field, but they soon fell to their work in earnest and the ball made its way towards the visitors' goal, where there was some lively play, but Haynes scored the ball and making a low and quick shot sent it through the Oshawa Club's goal, winning the first game for Peterborough in eight minutes.

The second game was very brief. The ball was thrown to the vicinity of the home club's goal at the commencement, and some sharp play took place there, but Monroe got the ball and punted it through the Peterborough goal, and the game was won for the Oshawa club in about two minutes.

The third game was the longest one, and was very closely contested. Each had won a game, and both teams settled down to earnest work, and some excellent playing was exhibited. The ball was first thrown to the Peterborough side of the field, but did not remain there, as the home team's defence were always on the guard, and each time the ball came that way they sent it back again. The players appeared to be pretty evenly matched, but the agility and skill of the home team counterbalanced the superior weight of their opponents, and individually they made good playing and played well together. The ball in this game did not remain long at any one time on either side of the field, but was first at one side and then at the other, and for some

time the result seemed doubtful. At length, after forty-three minutes of sharp playing, W. Rudkins scored the ball and passed it through the sticks by a running throw, and the Peterborough club had won another game.

The fourth game was also sharply contested and proved the skill of the players. The home team, however, was again more than a match for the visiting team, and after some time spent in struggling for the ball, during which some excellent playing was displayed, Shesby threw the ball from the centre towards the Oshawa's goal, and Rutherford scored it and passed it through the sticks, thus winning the game for the Peterborough in twenty-six minutes, and the Peterborough Club had won the match in one hour and three-quarters after play first began.

The match was one of the best that has ever been played on this ground. Not a dispute occurred during the progress of the game, which was played with the utmost good humour, and the quality of the playing was superior. Of the home team all did well. Sanderson did some good playing in guarding the goal, Joyal made some excellent long throws and Giroux did some excellent playing and a good deal of it, while at the same end of the field P. Rudkins did good work. Shesby's activity was admirable, and Halpin and Morrow did some splendid playing in the field. W. Rudkins and Forty showed some good playing at the other side of the field, and Rutherford, who having a score hand played at a disadvantage, did some magnificent dodging, and good playing generally. Haynes and McAvella, for whom this was their first match, showed good metal and considerable skill and will be reliable players. LeBrun, as usual, showed that he was at home when acting as captain on the field. The visiting team comprised some good players, and A. King and others of the team did excellent playing.

At the close of the match there were given for the visitors and visitors and the club furnished in order of precedence behind the band and marched back to town and proceeded to the St. James' Hotel. The Fire Brigade Band enhanced the pleasure of the afternoon by rendering several good selections in a fine style.

DOWN THE RIVER.

The excursion under the auspices of McWilliam's Lodge of True Blues, left the wharf at about 7.30 o'clock in the morning, on the steamer Golden Eye, and proceeded down the river. After passing through the locks the river was found to be full of logs, and the steamer had great difficulty in getting through them. However, she pushed on for about five miles further, but the wheels of the boat were broken in doing so, and the passage becoming more difficult they went no further than Savary's beautiful picnic grounds, where the excursionists landed at 12.30 o'clock and had their picnic. At 5 p.m. all were on board and homeward was the cry. Arriving at Crawford's Grove, a charming spot near town, the steamer landed the excursionists where copper was purchased, and the stop had the effect of militating the disappointment fell in not reaching Idyl-Wild. The steamer after leaving the grove encountered a vast field of logs, which compelled the captain to drop the scow in the stream, and after a hard struggle she reached her wharf at half-past nine o'clock. In spite of the misfortune which prevented the party from reaching Idyl-Wild, the objective point of the journey, a very pleasant time was enjoyed. The excursion was largely attended, and on the whole the boys have reason to congratulate themselves on the success of the excursion. Much indignation was expressed by the excursionists against Mr. Ulyot for allowing the drive to be let out of the Little Lake before Tuesday after promising to hold them back. As a result of the logs being let into the river the steamer sustained much damage in broken wheels. Mr. Calcutt and all connected with the steamer came in for a large share of the indignation, while he was in no way responsible.

PRIVATE EXCURSION.

Of private picnic parties there was a large number, some of which went a considerable distance. All the houses and conveniences in town were engaged, and many of our townspeople took advantage of the opportunity offered by the invitations for an "outing," and on the return of the various parties the verdict of each person was that they had "a splendid time."

All through the celebration of our civic holiday was a success. It does not require notes to make a celebration successful—in fact, the absence of noise and disturbance and the universal expression of satisfaction are good proofs that the celebration of Monday was one of the best that could be had.

A BRUSHMAN KILLED.

Another accident occurred on the Midland Railway on Saturday evening, at about six o'clock. A special train was going south, and at the Summit, where, we understand, some shunting was being done, Joseph Barnes, a brushman, was getting down between a box car and the conductor's van, when his hands slipped and he fell down on the track. His neck fell across the rail, and the wheels passed over it as he was lying on his back, leaving only a small piece of skin connecting the two. Death, it is hardly necessary to say, was instantaneous. Barnes was about twenty-two years of age, and his father lives in Keppel, near Owen Sound. He has friends living in Port Hope, where the remains were taken.

RUNAWAY.

On Saturday a runaway occurred on McEwen street. Mr. James Snyder was driving a Water street in a buggy, and at the corner of McDonnell street one of the front axles broke, throwing Mr. Snyder out and frightening the horse, which at once began to run. Mr. Snyder held to the lines for a short distance, but the horse broke away, and the noise of the screeching axle on the road and its feet striking the buggy caused the horse to run wildly down McDonnell street, leaving the other front wheel on the road. The horse turned down Aymer street and ran to Brook street, when it again turned and proceeded up the latter street a short distance, when it was caught by Mr. H. J. Kidd. Mr. Snyder was only slightly hurt, but the buggy was badly broken and the horses feet severely cut by striking against the buggy.

THE REVIEW BOOK-BINDERY,

Names Lettered in Gold Leaf on Presentation Books, Bibles, Purse, &c.

THREE FIRST PRIZES FOR BOOK-BINDING AT THE CENTRAL EXHIBITION.

TOKER & CO.,

Review Steam Printing Office and Bookbindery.

A Kingstonian Held for Murder.
A gentleman just arrived from Chicago states that a Kingstonian, McLaughlin, is held there for the murder of a man in a quarrel, having knocked his opponent down and kicked him severely. McLaughlin was on the way to a police station to give himself up when arrested. A leading lawyer declares that he can get McLaughlin clear for \$200. McLaughlin has only been in Chicago three months and was working in a brass foundry. He was a foot racer, but his bragging as such caused a Kingstonian to lose \$50. The accused murderer is married to a woman named Simpson, who formerly lived in this city. The prisoner is well known here.

Conflagration in Quebec.

QUEBEC, Aug. 12.—At an early hour this morning the community experienced another of those disastrous visitations of the fire scourge for which this city has unfortunately become proverbial, though the immediate cause of the calamity was at St. Saviour, outside of the city limits. The Quebec Fire Brigade was summoned, but difficulty was experienced in procuring a sufficient supply of water. The losses will amount to about \$25,000, which is partly covered by insurance. Several persons were severely injured during the fire.

It is said that the cause of the fire was a small fire in a rooming house, which was caused by a candle. The fire spread rapidly, and the building was completely destroyed.

This prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Carson's Bismuth and Castor Oil Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

C. BERTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Berton's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other oral patent medicine."

The most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Balm, which has never been known to fail in curing a single case of temporary rheumatism, weakness and all diseases resulting from colds, as nervous debility, laziness, mental anxiety, languor, lameness, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

DOWN!

KENDALL'S SPAVIN CURE.

From Rev. P. N. GRANGER.

Providing Editor of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1882.

Dr. B. J. KENDALL & Co., Gentlemen:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I started him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STONINGTON, Conn., March 10th, 1882.

Dr. J. KENDALL & Co., Gentlemen:—In answer to you and myself, I think I ought to let you know that I have received two more spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

SMITH'S MARKET

NOW OFFERS

California Peas, Apples, Plums and Watermelons.

Daily Evening Review

WEDNESDAY, AUGUST 16, 1892.

THE POWERS AND EGYPT

THE MILITARY CONVENTION BETWEEN ENGLAND AND TURKEY A FAILURE.

Turkey's Proposal Rejected and England's Offer will be Similarly Treated.—Gen. Wolsley's Arrival—Additional Troops for Egypt—Encounters with the Enemy.

ARRIVAL OF GENERAL WOLSELEY.

ALEXANDRIA, Aug. 15.—The transport with General Wolsley and the household cavalry has arrived.

THE SULTAN TO ARAB.

ALEXANDRIA, Aug. 15.—The Sultan today peremptorily ordered Arabi to lay down his arms. If he refuses the Sultan will leave him to be dealt with by the English.

A RECONNOISSANCE.

ALEXANDRIA, Aug. 15.—Col. Gerard's mounted infantry rode before daybreak to-day on a reconnaissance to within half a mile of the enemy's second line. The reconnoitering party were pursued by horsemen, of whom it killed several. Col. Gerard states that he accomplished the object of his reconnaissance.

M. DE LESAEPPE'S OFFICIOUSNESS.

ALEXANDRIA, Aug. 15.—M. De Lesaepe is impeding the laying of a telegraph line between Port Said and Suez, and operations are consequently suspended.

A DANGEROUS ENTERPRISE.

ALEXANDRIA, Aug. 15.—Lieutenant Smith Dorion, of the Invincible, and Hamilton, of the Alexandra, on Monday night waded across the Mahmoudieh canal and Mariout Lake, the water being only ankle deep. They advanced within 600 yards of the enemy's line, and then retired to report upon the result of the enterprise.

DISMAY AT THE WAR OFFICE.

LONDON, Aug. 15.—It is asserted in semi-official quarters that there is renewed activity and a feeling of concern at the War Office to-day. It is hinted that Gen. Wolsley has found the British losses in Egypt more serious than had been supposed. It is stated that the War Office has ordered three thousand additional troops to get ready to proceed to Egypt immediately to take the place of the sick and wounded. The authorities have refused to allow the organization of a railway corps in India for service in Egypt. The hospital arrangements are so complete that if one-fourth of the British troops in Egypt were to be invalided there would be ample medical accommodation.

THE EMPEROR WILLIAM'S VIEWS.

BERLIN, Aug. 15.—It is reported the German ambassador to England, now at Babelsberg, had a lengthy interview to-day with the Emperor William, principally about Egyptian affairs. The ambassador expressed the opinion that England could not have acted otherwise than she has. The Emperor spoke warmly on the subject, entirely coinciding with the ambassador's views.

MAINTAINING ORDER.

CONSTANTINOPLE, Aug. 15.—The Porte has made the governor of Syria responsible for the maintenance of order in that province, and has authorized the chief of the gendarmerie to increase his force to any extent necessary.

MOVEMENTS OF TROOPS.

ALEXANDRIA, Aug. 15.—The departure of the Life Guards and the Horse Guards for Ramleh will be delayed until the troops on board the transport Calabria are landed.

A BRUSH WITH THE ENEMY.

ALEXANDRIA, Aug. 15.—An encounter between a British mounted patrol and a party of 500 Bedouins occurred this morning near Ramleh. Five of the latter were killed.

THE SUEZ CANAL SAFE.

LONDON, Aug. 15.—The apprehensions regarding the safety of the Suez Canal having been removed, business in the insurance of ships against war risks has ceased.

GENERAL WOLSELEY'S PROCLAMATION.

ALEXANDRIA, Aug. 15.—General Wolsley, with the authority of the Khedive, has issued a proclamation to the people of Egypt, representing that the sole object of the British is to restore the authority of the Khedive. It says that all peaceful inhabitants will be kindly treated.

The mosques will be respected and all supplies paid for. General Wolsley adds that he will be glad to receive all chiefs disposed to assist in repressing the rebellion.

THE MILITARY CONVENTION.

CONSTANTINOPLE, Aug. 15.—The draft of the military convention proposed by the Porte to England was as follows:—The Turkish army undertakes the pacification of Egypt without foreign assistance, the British to remain in their present position and not to participate in the operations. The Turks shall be allowed to use Alexandria as the base of operations, the Turks and British both to withdraw after the pacification of the country. Lord Dufferin rejected this draft and submitted another stipulating that the Turks should not undertake the operations without the previous consent of the British commander, that the British officers should be attached to the Turkish headquarters and that the question of evacuation should be subject to a special convention. It is believed there is no probability of the Porte accepting the English condition.

MIDNIGHT TELEGRAMS

CABLE.

THE EXHIBITION.

DUBLIN, Aug. 15.—The city was astir early for the opening of the exhibition and the unveiling of the statue of O'Connell. The procession of trades was three miles long. It traversed King's bridge, Chapel street, and Tackville street. Good order and regularity were kept by mounted marshals all along the route. The O'Connell statue was unveiled by Lord Mayor Dawson, in presence of Messrs. Parrell, Dillon, and Davitt, and a crowd estimated at a hundred thousand. The greatest enthusiasm prevailed. The Lord Mayor, in accepting the statue for the Irish people, said their struggle was not over and their efforts would still be obstructed; they must endeavour to forget the melancholy past and look for glory in the future, in the hope that Ireland, once a province, would again become a nation.

CETEWAYO'S RESTORATION.

LONDON, Aug. 15.—In the House of Commons the Under Colonial Secretary stated that the Government had determined to consider the possibility of Cetewayo's partial restoration with a proper safeguard. He said no portion of Zululand would be annexed to Great Britain. He stated that Zululand was to be reserved for the chiefs, and people who object to return under Cetewayo's rule would be guarded by safeguards similar to those imposed upon the thirty previous chiefs. A British resident will reside in the country. The restoration of the former military system will not be allowed. This plan it is said was communicated to Cetewayo today.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE PRICE OF CHEESE.

LIVERPOOL, Aug. 15.—Cheese is quoted at 58s. 6d.

AMERICAN.

INCREASED WAGES.

NEW YORK, Aug. 15.—The employees amounting to two thousand of the packing box makers here have demanded an increase of wages of 10 per cent.

AN UNLUCKY SPECULATOR.

NEW YORK, Aug. 15.—George Joyce, a jeweller, has assigned. His liabilities amount to \$30,000. It is asserted that the failure is largely due to speculation.

RAILWAY MORTGAGES.

NEW YORK, Aug. 15.—Mortgages amounting to \$400,000 on the New York Seaboard Railroad, running to Coney Island, have been foreclosed.

A LARGE LAND SALE.

MILWAUKEE, Aug. 15.—The Chicago, Milwaukee and St. Paul Railway, yesterday sold 2,005,000 acres in Minnesota, for five million dollars. This probably is the largest sale of land ever made in one day in the west. The land will be mainly settled by English and Danish colonies.

A BOAT UPSET.

BARTONSTOWN, N. J., Aug. 15.—A boat containing four young men, was upset last night at Bettles point on the Delaware River, drowning Andrew Ayerston and John Doyle.

QUARANTINE REGULATIONS.

NORFOLK, Va., Aug. 15.—Killogg of the United States Steamer Salopoea, has been arrested and held for \$500, for an alleged violation of the quarantine regulations here.

A Cruel Trick.

HALIFAX, Aug. 15.—A few days ago a little son of Charles Baques, of this city, while attending a temperance society picnic at McNab's Island, was asked by an unknown man if he would like a piece of cake, at the same time producing some. The boy took several bites, and soon became sick, vomiting violently. Since then he has been confined to bed, and to-day is reported to be in a bad state, suffering terrible pains, and his face became very much swollen. Yesterday several of his teeth came out. Another boy who was with Baques says the man was a stranger, and that he took one of the early boats to return to town. Baques' suffering is apparently caused by mercurial poisoning.

A Long Branch Romance.

A New York despatch says:—On Saturday evening Louis Mills, son of the distinguished pianist, S. B. Mills, and connected with a leading grain house, went to Long Branch with Miss E. L. Luty, of Brooklyn, to whom he was engaged to be married. They became interested in listening to a band of music, and were otherwise enjoying themselves, when they discovered that the last train had left for the city. Fearing the indignation of the young lady's parents and unfavorable comment should they remain there over night, they were greatly perplexed. Ex-Mayor Wickham, who was present suggested that the young lady pass the night at his house at the Branch under his wife's protection. The whole question was finally submitted to the decision of ex-Senator Thurman, Sam Ward and Oscar Wilde. Thurman delivered the opinion without consulting his conferees, advising the immediate marriage of the couple at the spot. Ex-Father Kearney, who is a guest at the hotel, was called in and tied the knot. The couple went to Brooklyn on the first train on Sunday morning.

YOUNG'S POINT.

From Our Own Correspondent.

HARVESTING.—Nearly all last week farmers were at a perfect standstill, owing to the very heavy rains. A great deal of fall wheat was cut and in stacks, but luckily it has taken no harm as this week has turned out beautiful and dry weather. Barley in this section was all cut and housed before the rain came, therefore the sample is good—so much to be thankful for.

THE LONG CROWWAY.—The long crowway, on the road to Burleigh bridge, has at last been covered with a thick layer of gravel. The Council voted \$20 towards it, therefore Arthur Dugan took advantage of the few wet days and had this done with his gang of men. Arthur is the boy for this sort of work and he has the sincere thanks of the whole travelling community who have to go over this road to the back townships. Hugh Sutherland, the Burleigh stage driver, is loud in his praises. In former years it was only botched.

MR. CHALMERS' BIG CLEARANCE.—The 100 acre clearance on the road to Burleigh bridge, which was sown with fall wheat, has all been cut, and Arthur Dugan, the foreman, along with his gang of men, are busy at work making large stacks all around the clearance and covering with boards. Arthur has taken as much interest in this fall wheat as if it had been his own, so during the wet weather last week he wore his hat peculiar—which is a warning of stormy weather and to keep a respectable distance. Mr. Chalmers is going to thrash where the wheat lies and draw it down to Sandy Point in bags and ship it on board the steamer Fairy to Lakeland. The sample is A. 1, and is expected to turn out very well. Mr. Chalmers will be busy all this week thrashing the fall wheat grown on a large clearance at Julian's Landing, and shipping it off to market by the steamer Fairy to Lakeland, so he has his hands full. He has also the grain from three other farms in this neighbourhood to look after. He is building two very large barns to hold the grain.

CRADLING.—Your correspondent was called on last Monday evening by a man named John Clancy—saying he will beat Tom Kettles or any other man at cradling for a day, within a radius of 50 miles. He felt riled at Tom blowing, so he is going to meet him at one of Mr. Chalmers' farms on Friday first to cradle oats, particulars, of who turns out the best man in next week's paper. There has been a good deal of blowing round here but Tom can whip those that blow for a bet of fifty dollars.

THE WATER.—For the last two weeks the water in the river here has been remarkably low through some cause. The owners of the boats were talking of laying up—but Mr. Thos. D. Belcher, the obliging superintendent of the Trent waters, ordered the slide at Bockhorn to be opened out, the result being lots of water for navigation. If anyone states his case to Mr. Belcher he will attend to their wants at once; the sooner he has the control of the waters from here to Lakeland the better it will be for the public good.

PARANETS AND SPECULATORS.

The *Free Press*, there is reason to fear, does not read its own news with sufficient care. Yesterday it came out thus fiercely:—

"Apparently regardless of the nature and extent of the numerous grants, the Government seems to be possessed of the idea that it holds the fee simple of an illimitable area of arable land in the Northwest that exists solely for the purpose of extracting itself and its friends from their numerous difficulties, or rewarding their most subservient supporters. Such, at least, is the only explanation we can give of the wanton prodigality with which they are squandering the patrimony of the people of the Dominion on the army of political paranets, speculators, land jobbers, and other coterie of the ilk."

In Monday's issue, our contemporary published on its third page a list of recently gazetted colonization companies with the names of the corporations. The Provisional and Commercial Company is offered by, among others, Messrs. F. McMaster, Warrington, Kennedy, A. A. Allan, Hugh Blair and Samuel A. Tree, of Toronto, who may be parasites and possibly jobbers, but who are certainly not supporters of the Dominion Government. The Manitoba Land Company (Limited) is controlled by among others, Messrs. P. J. Brown, B. C. Higgs and Hugh Sutherland, who are neither jobbers nor parasites, because they are sound Reformers. The Rainy Lake Lumber Company includes Messrs. Hugh Sutherland, P. J. Brown and W. Buckingham, all honorable men. The Hamilton Land Company numbers among its corporations Messrs. Robert Jeffrey, of Toronto, and R. A. Kennedy, of the Hamilton Times, both tried and trusty Liberals. Recently the Saskatchewan Fur Colonization Co., which has "grabbed" some twelve townships, is manned, among others, by Messrs. Archibald McNeen and Albert Horton of Winnipeg, who will no doubt bring suit against the *Free Press* for slander. Mr. Mackenzie, Mr. M. C. Cameron of Huron, and Sir Richard Cartwright must also be included among the jobbers and parasites. Our contemporary has a poorer opinion of its own friends than the *Times*.—*Winnipeg Times*.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

The safest, best and cheapest medicine in the world is Dr. Carrow's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

More Worm Medicines are so unpleasant that mothers are obliged to force them down the throats of the innocent. This unpleasant task is obviated by using Dr. Smith's Great German Worm Remedy. 25 cents at J. McKee's, druggist, Peterborough.

ROBERT A. WILSON, Dispensing Chemist, Brockville says under date of June 5th, 1892, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints, Diarrhoea, Dysentery, Pain in the Stomach, Sea Sickness, Piles, etc., you can use my name, etc."

BED-RIDDEN AND CURED.—W. E. Huotier, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

THE COAL DUTY.

There has again arisen a discussion as to who pay the debt on coal imported by us from the United States. The Independent Liberal Toronto World speaks as follows:—

"Of our own knowledge we can give one specific case which clearly shows that the duty comes out of the American shipper. The invoice is of a large shipment of coal to one of our Toronto dealers by Phalen & Burns of Buffalo, who supply most of the Toronto trade. The price of the coal is set down at the regular rate as established by the coal commission, but from this amount is subtracted the two following items: "By allowance, duty, at so much a ton, so many dollars;" "by freight to Hamilton, so much." We do not profess to say categorically this prevails in every case, but we are of opinion that it does and the proof on which we rest the opinion is that the coal dealers themselves have never given an explicit statement of the case. Nor do we say that the fact that the American miners pay the duty is a sufficient reason for the continuance of the coal tax. But it is another example how that in practical business the alleged and eternal axioms of trade as expounded by theorists are often rudely trampled upon."

This is vigorously denied by the *Globe* and other free trade papers, but they do it by quibbling. The fact is that the Pennsylvania coal owners by agreement among themselves fix the price for various localities, according to competition and other circumstances. The price for Ontario is so fixed as to be no greater than it is on the other side of the lake, even after the duty is paid, and sometimes even a part of the extra freight is allowed. Of course this is done to kill off the competition of Nova Scotia, and to a certain extent it is successful, or Nova Scotia coal would come even further west than it does now, which is further than before the present tariff. But in order to affect this the Pennsylvania men have to pay the duty and thus contribute largely to our revenue. This is not an isolated case, for every business man knows that in other goods similar offers to pay the duty or to make allowances for it are far from uncommon.

Sometimes this allowance is made in the invoice by a simple reduction of the price, sometimes by a stated reduction of the amount of the duty, when such a case is presented as the *World* quotes.

EDITORIAL NOTES.

The *Globe* says that nobody can find fault with Mr. Bright realizing 100 per cent profit on his cotton factory, because he did it through his enterprise, ingenuity and thorough business qualities. Mr. Bright and his friends, having had their trade built up for them by stringent protection, till they had a virtual monopoly of the market of the world, selfishly favoured for free trade, which, with them meant the duty off breadstuffs, so that with cheaper food they might pay lower wages, and so increase their profits, what ever, might be the result to the agricultural interest. It was an additional bonus they wanted—not free trade.

Because Sir Charles Tupper's health is reported to be precarious the *Globe* like a vulture, again e-mails him. What a glorious party, whose greatest triumph is in the ill-health of its opponents.

THERE are now at least eight vacancies in the Ontario Legislature and according to law they should have been filled before now. Is Mr. Mowat afraid to face the people? It looks like it.

We are told that the interference of Sir John Macdonald in Provincial affairs is impertinent, while the interference of Mr. Mowat in Dominion affairs is a duty. There is the platform of the so-called "Reform" party in a nutshell. Every thing is virtuous that is done by a good "Reformer" but the very same things are wrong if done by a "Tory." What hypocrisy!

It now appears that Mr. Gladstone's Government sees some good in Beaconsfield's acquisition of Cyprus. Provision is being made there for some of the refugees from Egypt, and the permanent settlement of a portion of them upon the island is contemplated.

The majority of the Provincial Governments are Conservative, including Quebec, Manitoba, British Columbia and Prince Edwards Island, where the Government has just gained another seat. The New Brunswick Government claims neither to be Reform nor Conservative. Of Nova Scotia we know that the Premier Mr. Phips has to hold office without a portfolio because he dares not risk his seat. Ontario is so-called "Reform" for the present.

A MANITOBA SETTLER.

To the Editor of the Review.

DEAR SIR,—Having heard some long stories from some of the boys of that vicinity about this fearful Manitoba and North-West, I just thought I would tell them a little of my mind. I left Elmwood on the 18th of March, was very soon landed in Emerson, and hardly knew where to go or what to do. It turned out very stormy and there was nothing doing, so I had to pay for board and lodging for three weeks. I then left Emerson to go and see the wonderful city of Winnipeg. A short stay there pleased me, so I went on west to Brandon and Flat Creek. At the last-named place I obtained work, loading ties in the C. P. R. yard, and this is no pleasant job when they are all covered with snow. I worked at this for two weeks, and all this time I was wishing for the snow to go, so that I could look for my land; so finally I made a start. I knew nothing about the country, but I determined not to wait any longer, for it was not to work on railroads I came to this country. My first strike was across the Assiniboine River north of the C. P. R. The land here was pretty light and considerably broken by ponds, and timber was pretty plentiful. I next went south to Plum Creek and the Souris. The land between Brandon and the Creek is very good, though there are some sloughs, but south of Plum Creek there is a fine farming locality, though they are at a want for timber. The soil is deep and rich clay. Well, I travelled round here for a while and could not find anything to suit me, that is, that had not been previously taken, so I then started for Turtle Mountain. I joined in with a party of four, all looking for land. We took a pair of cattle and one horse. We did not examine the land between Plum Creek and the Mountains, for it looked pretty rough and there was quite a lot of water lying on it. When we got to the land office, I obtained a list of all the townships in the market lying west. We left Turtle Mountain about the latter part of May. We could make about thirty miles a day. We went west through township number two until we struck the Souris River in range number twenty-seven, a distance of thirty-five miles. The land was very good, but timber was very scarce. We then crossed the Souris, and went on west. The land on the west side of the Souris, that is close to the river is pretty light. We went on until we crossed the South Antler Creek. There is some timber here but the heaviest of it is where the creek takes a bend into Dakota. We struck the North Antler Creek in range number twenty-eight, township number two. Here there is very nice land and a very pretty stream. Doctor Dean, veterinary surgeon of Peterborough, is located here, and a very nice place he has. He had broken some land and sown wheat on the spot, and it looked splendid. He had also planted quite a patch of potatoes, but informed me he had them all sold. I thought to myself this was like counting on chickens before being hatched. The soil here was mixed with gravel, but had a fine clay bottom; there were also quite a few large stones, but to take it as a whole, it is a fine farming country. Through ranges numbers 28 and 30 and up to 32 it is beautiful. All along the North Antler Creek excepting of timber is the only drawback. Where we turned off from the creek to go to the Souris, second crossing the land got quite light, but along the Souris there is quite a strip of timber. We travelled on until we struck Moose Mountain Creek on the evening of the 9th day of June. There are quite a number of poplar bluffs along the creek, and the land is good. We crossed the creek and went north on west side into townships numbers 4 and 5. There are two townships. We went on north until we struck the creek again where it turns and strikes west on south side of Moose Mountain. Here we were informed that the land across the creek and up towards the foot of the Mountains was stony, and that there was no use in going further, so, having seen a liking for it, and 5, we returned. We took the next day to select our land and two of us took horses to ride over the different sections, and the third one the sulky plough. We ploughed on quite a few places that day and at night we didn't know which was the best, but we soon made a choice and commenced breaking. We got along nicely. One of our party broke 25 acres, and the others got about 10 acres each. I did very well too. I broke about 8 acres, so that was very good, not having a team of my own. It must be remembered that the first party I was with I left at the first crossing of the Souris, most of them homestead, and the last party included two men and one woman. They had 2 teams of oxen, 2 horses, 7 milk cows, 514 head of young stock, so we were as no want for milk or butter. We are all situated on Moose Mountain Creek, the best stream of water I have seen in the country; it is quite a four rods wide and five feet deep with about a number of rapids and water-power sufficient to drive any mill and to run a saw. I am a lucky man with a little capital. We also are in need of a store as there is none nearer than the Souris, two miles distant, for business of any kind. It can't be supposed as they expect a railroad in running order next fall, though there are two surveyed through there at the present time. After we had finished breaking we started to see what Moose Mountain looked like as we went up the south side of the mountain and around the west end and came back through the Indian reserve. The land along the south side of the mountain is the prettiest I ever saw, it could not be surpassed if one had the making of it oneself. It is a deep black soil, top with a subsoil composed of clay and limestone gravel; there are some places very stony that will come to be good farming land, but as a general thing there is little stone. There is also a nice piece of land on the southwest end of the mountain, but part of it is on the reserve, so therefore there is not enough of it for a settlement. On the north it is very heavy land, heavily broken, but it is a fine grazing land. Where the Indian villages are situated it is fine land and handy to timber. They are working splendid and have their fields well fenced; their grain looked well and they had a large held broken this season, they were friendly to us though they are the Sioux tribe. On the mountain there is about 15 miles square of solid timber. It is a very fair size averaging from about 8 in. to a foot in thickness and is chiefly poplar. There are also fine streams of water running down from the mountain, the largest called Swift Creek is a fine stream with plenty of fish, it empties into Moose Creek and runs to the Souris. It is down this stream that we propose driving our building timber and I think it will work well. I will have twenty miles to bring it though I can get firewood within eight miles. They claim that the coal fields lie twenty-five miles from me and if that be true I don't care for wood. The townships where the timber is are 9 and 10 in range 1, 2, 3, 4, in the North-West Territory. Township 1 is all clear from the mountain to the boundary line. The Souris river runs through township 2 which leaves here as a fine farming locality as could be desired. Now in conclusion I would say to those intending to come out here to have some set place to start to

look for land when they arrive, for if you once get taken in with the story of Tom, Dick and Harry, you will very soon get sick; there are a class of men going around who are of no benefit to themselves or the country, and the way you can tell them best, is make a schump of one of them and he will soon hand you the bottle for a drink. Now it is with these gentlemen that most of the buyers get their information, they have been in the country so long that they know all about it, so the story of a brutish person is no use, I say pass by the towns and save your money and not one out of twenty will go home sick. As to the time to come the fall has my preference, the land can be travelled over with more ease and comfort and any person who is used to the soil can pick dry land then as well as in the spring. So hoping that you will be kind enough to publish these few lines in your next issue, I remain yours very truly,

JAMES MCALL, JR.,
Emerson, July 4, 1882. of Cavan.

GENERAL DEBILITY AND LIVER COMPLAINT.—R. V. Pierce, M. D., Buffalo N. Y., Dear Sir: My wife has been taking your "Golden Medical Discovery" and "Pellagra" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from Liver Complaint, Sour Stomach, and General Debility. Yours fraternally, N. E. Harmon, Pastor M. E. Church, Elkhart, Ind.

MR. WM. RANSOM, of South Norwick, says: For sixteen years I suffered from Biliousness, never had any medicines do me any permanent good until recommended by our druggists, (J. Wesley Fish & Co., Otterville,) to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

PHARM.—Get your mouth full by using TREASURY, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent samples.

Daily Evening Review

WEDNESDAY, AUGUST 16, 1882.

LOCAL AND MUNICIPAL.

Released.
The charge of vagrancy preferred against the young girl Rose James, by her father, has been withdrawn, and she has been released from custody.

A Good Chance.
A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the Review office.

A Surprise.
Mr. Theo. Kennelly, who has recently leased Mr. C. Young's hotel, in Ashburnham, was surprised on the evening of the 15th by his friends from Peterborough. The number and generous action of his friends were enough to make Mr. Kennelly think that his investment was a success. The hotel has been recently erected and every thing is fresh from cellar to garret.

The Market.
There was a fair attendance on the market this morning, and the prices remained almost unchanged. Butter was selling at from 20 to 25 cts. per pound, eggs 17 cts. per doz., potatoes 20 cts. and apples 30 cts. per bushel, and raspberries \$1.40 per bushel. Vegetables are becoming more plentiful, but the prices are high. Cabbage were selling at from 5 to 10 cts. per head.

Preparing for Camp.
The military of this district are now preparing for the camp at Cobourg on the 5th September. Besides the companies of the 57th Battalion, the portion of the Durham Field Battery located in Peterborough, and commanded by Lieutenant Sanderson, consisting of about twenty men, is actively drilling for that purpose. About a year ago this force was organized here, through the zeal and energy of Lieutenant Sanderson, who has since given much time and attention to it, and the young men composing the detachments have been well drilled and obey the commands promptly. They know how to handle the large gun which is provided for their practice, and should the occasion arise they would handle it effectively. They will make a creditable appearance at the camp at Cobourg.

Suspicious Fire.
At about half-past twelve o'clock on Tuesday night a fire broke out in the frame building which stood close to the river, at the Peterborough end of the Ashburnham bridge on Hunter street. The fire alarm was rung and the firemen turned out and brought the hose to bear on the flames, but the fire had made such headway that the building and a shed attached to the rear of it were totally destroyed. The building was until recently occupied by Mr. G. Brown as a storehouse for rags, etc., and was purchased about two weeks ago by Mr. A. L. Cope, who was sitting it up for a dwelling. It was empty at the time of the fire, there being nothing in it except the tools which were being used in repairing it. The fire appeared to have started near where the connection was made between the main building and the shed attached, and is believed to have been the deed of an incendiary, as there was no fire used in the building, and there was no way in which it could have been ignited within itself. The loss is estimated at \$300. The building was not insured. The sidewalk in front of the house was also burned.

Railway Notes.
Another switch has been put in at the Midland station here, north of the building at the Charlotte street crossing, which will enable the trains from the east to approach the platform from the east to the other end of it, and will make it much handier for the arrival and departure of the Belleville trains.

The fusion of the Grand Trunk and Great Western Railways is now an accomplished fact, the deed of union having been ratified by the shareholders, and the Great Western Company has ceased to exist as a separate corporation. The union took effect at midnight on Friday, the 11th of August.

The Omemee Herald says that the work on Doube's cut of the missing link of the Midland Railway is making good progress. We believe the deepest part (49 feet) will be reached in a few days. Many have visited the scene of operations, and are loud in praise of what a grand sight it is to witness the shovel tearing through the soil. An observer standing on the top of the bank and looking down would imagine the men to be mere boys.

POLICE COURT.

DUNK.

WEDNESDAY, Aug. 16.—Mr. Theo. Monies dispensed justice at the Court this morning. John Primeau was brought before him charged by Chief Johnston with being drunk on the 14th of August. He pleaded guilty, and was fined \$1 and \$2.50 costs, which he paid.

Wm. Walsh was charged by Constable Pidgeon with being drunk on Tuesday. He admitted the charge, and put in the plea that it was his first appearance in the court. He was fined \$1 without costs, and he paid it.

DUNK AND DISORDERLY.

David Lacey was charged with being drunk and disorderly by Constable Pidgeon. The prisoner, who admitted having been drunk but did not think he was disorderly, said that he had been at work at the Indian River, but had been taken sick, and he thought the sickness was caused by a blow he received during a fight a few weeks ago, at which time he was fined \$5. The Magistrate said that should have a warning to him to keep sober, but he would be lenient, and fined him \$2 without costs, or ten days in jail. He paid the fine.

Council Meeting.

A special meeting of the Town Council is called for Thursday evening at 7:30 o'clock.

The Big Drive.

The big drive of logs now running down the lower Ottonabee, is making good progress. These two quiet days have enabled the men to push on the work very satisfactorily. This drive is composed of over 15,000 pieces of fine material as we have seen for a long time.

At Lachine.

The senior and junior crews of the Peterborough Rowing Club, who will represent the club at the Lachine regatta, and left for Lachine on Monday night, arrived there on Tuesday night. Their boat was slightly damaged at Port Hope, but was satisfactorily repaired. They had a long practice row in the afternoon.

The Weather.

The weather to-day is warm, although the sky is cloudy and there are appearances of rain. The prediction of the prob. is not very comforting. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes—Light to moderate winds, and very warm weather.

The Golden Eye.

The repairs to the paddle wheels of the Golden Eye, which has taken two days, are now completed. The work has been thorough. The report of injury to the machinery is incorrect. Additional pipes have been put in from the pumps for the purpose of pumping out scow, and this is no doubt the origin of the story. If people would be more particular to ascertain facts before repeating rumours to others, much less unpleasant feelings would be excited in the mind. On Thursday the steamer will leave for the Lake points as advertised.

Crickets Match.

A match between the Peterborough and Haliburton Cricket Clubs will take place to-morrow on the Ashburnham ground. The wickets will be pitched at 11.30 a. m. Haliburton has the best team in the back country, being composed mostly of Englishmen, and it is expected that they will get outside all also, so some good cricketing may be expected. Admission to the grounds will be free. The following are the names of the home team:—W. Stratton, G. W. Heston, C. Conolly, Miles Hamilton, Max. Hamilton, C. Burritt, W. Hartly, J. Montgomery, E. A. Peck and R. B. Rogers.

A GOOD SUGGESTION.

To the Editor of the Review:

Sir,—The turmoil and din of battle closed at 5 p. m. on the 20th of June. As we all know our member elect Mr. George Hilliard only connected at the eleventh hour to be our standard bearer at the then coming struggle, although at great disadvantage to himself and led us to victory. Now, sir, I think it would be well for the Liberal Conservatives of the West Riding of the County of Peterborough to take into consideration the advisability of celebrating the event, either by a mammoth picnic or public dinner immediately after the gathering of the harvest, during the fine weather and good roads. Let the chairman of each polling division in the different townships consult with their committees respecting the best means of carrying out the above suggestion, and request those in the town to co-operate with them, and I have no doubt of the result. It might be that some Reformers may favour us with their presence, for I believe there never was an election with less personality and conducted on more honorable principles on both sides than the one in June. Hoping the above hints will be productive of good fruits, and that you will excuse me for the large space I have occupied in your valuable paper.

I remain yours etc.,
Kensington, August, 12th, 1882. T. T.

THAT MEAT EXPENSE.

To the Editor of the Review

Sir,—In your last evening's issue the handsome meat express you made mention of purchased by Mr. Wainwright, and manufactured by Tobias Fitzgerald, is one that was got up for me under my directions. My bargain with Mr. Fitzgerald was for him to trade it out with me, which he agreed to do. After waiting all summer and going to his shop about a dozen times to hurry it along it finally got finished, all but lettering, when Mr. Fitzgerald had an offer made to him by Mr. Wainwright which he accepted. This is not a solitary instance of such conduct on the part of Mr. Fitzgerald. Parties ordering work from this gentleman would do well to have it in writing so they would be sure to get what they order.

Yours truly,
H. C. WINCH.
Peterborough, August 16.

WARRIOR.

ACCIDENT.—An accident occurred on the Ontario Central railroad near Wolf Creek by the falling of a tree. A young man named Mason, a son of Mrs. Mason of Warramora, was badly crushed, having his leg broken in two places and otherwise internally injured. He has since died.

REMNANTS, REMNANTS, AT HALF-PRICE

PORT HOPE.

FOOT CRUSHER.—An accident occurred at the harbor here, whereby Mr. John Wright, a coal dealer, will lose the use of one of his feet. He was superintending the running of the donkey engine engaged in unloading coal at the docks, when his foot got caught in one of the large cog-wheels and was completely crushed to a jelly. The medical gentlemen who are attending, express fears that they may have to amputate the leg some distance above the ankle.

The Weather in August.

Mr. H. G. Vennor's predictions for the latter part of August are as follows:—

Third week (14th to 21st). Cooler weather generally first portion of week with cool to cold nights. Hail, rain and wind storms on or about the 17th and 18th. Nights frosty. Severe storms in Virginia through tobacco belt about middle of month or shortly after. Frost through New York state this week, terminating in sultry weather again.

Fourth week (21st to 28th). Heat again, and sometimes with scattered local storms, terminating in cooler weather toward and after the 25th. Storms on "lakes" in Ontario, Canada, 25th or 26th. Storms of wind and thunder at New York and along North Atlantic coast between 25th and 26th, followed by wet weather.

Fifth week (28th to 31st) generally cloudy and cooler weather, with rain in eastern and western sections of country. Nights cool to cold and frosty well to the southward. On the whole a month likely to resemble that of the year 1880.

How ITS WORKS.—The purifying and healing properties of Dr. Fowler's Extract of Wild Strawberry impart a healthy tone to the diseased mucous surfaces of the Stomach and Bowels. Its cooling, soothing properties counteract pain, its antiseptic properties correct canker and foul humor, and its tonic astringent nature corrects all exhaustive discharges—Such as Dysentery, Diarrhoea, Cholera, Morbus, and Summer Complaints generally.

A WORD OF CAUTION.—Beware of Opiates and powerful sedative drug in the treatment of Bowel Complaints, they may kill the pain and check Diarrhoea, etc., but are liable to produce inflammation. Dr. Fowler's Extract of Wild Strawberry is guaranteed safe and reliable, even for Infants, and is a specific for Cholera Morbus, Dysentery, Colic, Acute or Chronic Diarrhoea and Summer Complaints generally.

This prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Carson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

DOWN!

DOWN THEY GO.

Great Reductions in our Dress Department. We are determined to get rid of our Summer Goods, and have marked them accordingly.

HALF PRICE.

Remnants of Dress Goods placed on Special Counter will be sold at Half Price clear.

THE BALANCE.

The Balance of Summer Gloves and Hosiery reduced in price.

BARGAINS.

Great Bargains are now being offered in Table Linens, Roller Towelings and Brown Holland.

CLEARING STOCK.

Remnants in every department all marked down to Half Price.

T. DOLAN & Co

Nos. 1 and 2, Claxton's Block, Corner of George and Hunter Streets.

The Midland Rolling Stock Company, (Limited).

NOTICE is hereby given that a general meeting of the Shareholders of the above Company will be held at the office of the Secretary, in the Town of Peterborough, on THURSDAY, the 24th day of AUGUST, instant, at three o'clock in the afternoon, for the purpose of considering a By-law passed by the Directors of the Company, for increasing the Capital Stock of the Company to the sum of five hundred thousand dollars. Dated at Peterborough the Twelfth day of August, A. D. 1882.

By order, H. READ, Secretary.

ONTARIO LADIES' COLLEGE,

Whitby, Ontario.

Will Reopen September 7, 1882.

The large and increasing patronage of this institution is the natural result of an exceedingly pleasant situation, of unrivalled buildings and grounds, of the best modern school appliances (to be strengthened next session by a powerful reflecting telescope, a new Dicker Grand Piano, and the use of a Pipe Organ), and of the earnest and enthusiastic efforts of a large and gifted faculty. Charges Moderate. Send for catalogue to the Principal, J. J. MARR, M. A. 36d22-w30

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$5.00 on a purchase of 50 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HYSONS.

A leading line of sweet and good drawing JAPAN offering at 25 cents, formerly sold at 45 cents.

W. J. MASON

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER.

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can he be cured by any other means.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

R. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there, I have owned the horse eight months. It took me four months to take the large one off, and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and he bounces to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callosities, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & Co., 409, Essexburgh Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents.

Daily Evening Review

THURSDAY, AUGUST 17, 1892.

THE POWERS AND EGYPT

THE NATIONAL DEBATE BEGINNING TO REVEAL.

An Offer of Surrender from an Entire Battalion—A New Egyptian Ministry About to be Formed—Arabi Offers to Submit to the Sultan.

ROYALTY'S LONG HEART.

ALEXANDRIA, Aug. 16.—A belief in the hopelessness of the struggle is spreading among the Egyptians. The British commander at Mena has received overtures for the surrender of an entire infantry battalion, if it can obtain favourable terms.

A NEW MINISTRY OF THE TAPIS.

ALEXANDRIA, Aug. 16.—The Khedive yesterday sent a telegram to Nice requesting the presence of Riaz Pasha at the palace. Riaz is expected to sail from Marseilles to-morrow. It is hoped to form a combination Ministry under the leadership of Cherif Pasha and Riaz Pasha, who would retain the presidency of the Khedive's Council. Riaz Pasha is probably the most powerful Minister of War, with Osman Pasha Refai as Commander-in-Chief of the army.

COMPLETING TELEGRAPHIC ARRANGEMENTS.

ALEXANDRIA, Aug. 16.—Negotiations are proceeding with the Canal Company for hiring the wire from Suez to Port Said. If accomplished it will complete direct telegraphic communication between Suez and England.

THE SUEZ CANAL.

PARIS, Aug. 16.—The officers of the Suez Canal Company state that after the English troops had taken possession of the water-works at Suez M. de Lesseps proceeded thither and effected a satisfactory understanding with Admiral Hewitt in relation to the duties imposed by the laws affirming the neutrality of the canal, after which he went to Port Said to effect a similar agreement with Admiral Hoskins.

GENERAL'S CONSULTING.

ALEXANDRIA, Aug. 15.—General Aliou held a consultation with General Wolsley to-day, the result of which is that the former will hold the local command of the British troops pending the present deliberations of the conference.

THE LANDING OF THE TROOPS.

ALEXANDRIA, Aug. 16.—The unloading of English transports at Suez has been suspended. It is inferred from this fact that the landing of troops will take place at Ismailia.

AN UNBROKEN REPORT.

CONSTANTINOPLE, Aug. 16.—The report that the Ulema had deposed the Sultan is untrue. The Sultan at the feast of Bairam yesterday received several congratulatory telegrams from Cairo and other parts of Egypt.

ARABI NEGOTIATING WITH THE SULTAN.

CONSTANTINOPLE, Aug. 16.—It is stated in Turkish circles that the hesitation to issue the proclamation against Arabi is owing to the fact that a telegram was received from him five days ago expressing his readiness to submit to the authority of the Caliph, but stating that he could not leave his soldiers without a head until the arrival of Turkish troops in Egypt, when he would instantly hand over the command to the Turkish general. The military convention is still unsettled for the same reason.

THE ENGLISH SUPPLIES.

CONSTANTINOPLE, Aug. 16.—The Porte prohibits the export of supplies from Syria to Alexandria. This prohibition affects English supplies of grain, mules, horses, and other live stock.

IMMEDIATE FIRE.

ALEXANDRIA, Aug. 16.—The soldiers of the 49th Regiment to-day extinguished a fire believed to be incendiary behind the ruins of the Sultania palace. The native police looked on and rendered no assistance.

THE BRITISH ADVANCE.

ALEXANDRIA, Aug. 17.—General Wolsley will command the British advance, which will be made from Aboukir. The troops will embark on Saturday and land and attack the Aboukir forts on Sunday.

NEGOTIATIONS FOR SURRENDER.

ALEXANDRIA, Aug. 17.—Negotiations are proceeding for the surrender at Mena of 2,000 Bedouins now with Arabi.

TO ATTACK THE ENEMY.

ALEXANDRIA, Aug. 11.—It is believed that General Wolsley will make an attack in two columns, one along the route last recommended and the other by way of Lake Aboukir, taking Arabi at the point where his rear rests on the Mahamoudieh Canal.

MIDNIGHT TELEGRAMS

CABLE.

AN ALPINE DISASTER.

GENEVA, Aug. 16.—Dr. Gobat, an Englishman, left Zermatt on Friday with two guides to ascend Mont Blanc. All three were found dead on Sunday, having fallen from a precipice. This is the fourth accident of a similar character in this season.

TROUBLE ON THE GREEK FRONTIER.

ATHENS, Aug. 16.—There has been a concentration of Turkish and Greek troops on the frontier of Thessaly. The Greeks took up two strong positions near the border, as notified by the commission, whereupon the Turks concentrated on the other side, apparently for the purpose of attacking the Greek troops. Explorations carried, and the Turks abandoned their threatening attitude. A conflict is feared.

AN M. P. ARRESTED.

DUBLIN, Aug. 16.—To-day Mr. E. Dwyer Gray, member of Parliament, and proprietor of the Freeman's Journal, was sentenced to three months' imprisonment and fined £5,000 for contempt of court in publishing the letter of the O'Brien, the editor of United Ireland, accusing the jury which convicted Haines of the murder of Doloughy of being drunk on the night previous to the day the verdict was given, and an article commencing thereon.

SUSPECT RELEASED.

DUBLIN, Aug. 16.—Earl Spencer has ordered the release of fifty suspects arrested in the Loughlin district after the murder of Blake.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

AN IMPORTANT ARREST.

DUBLIN, Aug. 17.—While Gray was being escorted to prison yesterday, a horse of the Superintendent of Police fell, and the rider was thrown and his head fell into the carriage on Mrs. Gray's lap, frightening her very much. The Superintendent was unhurt. Gray's progress to prison cannot be much accelerated by the arrest of the member of Parliament in October last under the Contempt Act. The indignation throughout the city is increasing and popular disturbances are anticipated. The fine in all probability will be paid by popular subscription. It is not believed that the sentence of Gray will be sustained by the Minister. It is stated that Gray is in delicate health.

GRAY'S SENTENCE.

LONDON, Aug. 17.—The News says that if Judge Lawson had the courage and prudence to dismiss Gray's case with a few words of contemptuous tolerance it would be better for the ends of justice and peace in Ireland. Other London papers approve of the sentence.

PARNELL'S ADDRESS.

DUBLIN, Aug. 17.—Mr. Parnell, in his speech yesterday, said he believed that they had gained some time for Ireland, but all believed that Ireland had gained much more for herself. He felt confident that they were but at the commencement of a measure of large reform, which might be expected for the masses of the people in Ireland. He had never believed in the possibility of maintaining an independent Irish party in the House of Commons for any length of time, but he thought it possible to increase its numbers and maintain it for such a time as would enable them to gain the great object which was always the possession of the hearts of the Irish people at home and abroad—the restoration of the legislative independence of Ireland. So long as it might be necessary to remain there he would, to attain that end, and no longer.

RIOTING.

PARIS, Aug. 17.—Disturbances have occurred at the Mont Rouelle mines. The mob destroyed the church doors with dynamite, but the police prevented it from attacking the priest's house.

AMERICAN.

SHOCKING MURDER.

YANKEA CITY, Aug. 17.—Dr. B. F. Hutchinson, a highly-respected citizen, and his son, aged 13, were found shot dead yesterday. The murder is supposed to have been committed by an Indian for robbery. He escaped. Armed men are scouring the country. If he is caught, he will doubtless be hanged.

A BRUTAL HUSBAND.

INDIANAPOLIS, Aug. 17.—During the absence of Dr. H. B. Palmer from his residence in Chicago, his wife and Ephraim Adams, a student in the doctor's office, came to this city yesterday. Palmer found them at a boarding house here, and tried to shoot Adams. A brief struggle ensued, when Adams knocked Palmer down and held him until assistance came. Palmer was arrested, but was subsequently released and had Adams arrested, charged with larceny, and then returning to the house he beat his wife shockingly, and would have killed her had not the police arrived and arrested him. Mrs. Palmer claims that her husband has repeatedly maltreated her and forced her to leave him. Her object in coming here was, she says, to obtain a divorce. She claims Adams, who is several years her junior, accompanied her as protector only. The boarding-house people say the relations between the pair have been perfectly harmonious, and no effort was made to derive anyone as to their relations. Mrs. Palmer is in a dangerous condition.

EMBEZZLER ARRESTED.

BLOOMINGTON, Ill., Aug. 17.—Yesterday F. Leslie, book-keeper in the commission house of Ames and Major, was arrested on the charge of embezzlement. Experts have already found a deficiency of \$2,000.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dr. Dr. Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

Most Worm Medicines are so unpleasant that mothers are obliged to force them down the throats of the innocent. This unpleasant task is obviated by using Dr. Smith's Great German Worm Remedy. 25 cents at J. McKee's, drugist, Peterborough.

WINNIPEG SKETCHES.

In the Cedar Rapids Standard there is published a letter description of Winnipeg from Mr. Edwin H. Rogers, formerly of Ashburnham, from which we take the following extracts:—

"July 1st, the Canadian national holiday, was observed in beautifully, and the inhabitants of Winnipeg showed by their loyalty that they were not behind other Canadians in keeping it. I spent the day in seeing the city, and was very much surprised at finding such a class of buildings, in what was a few short years ago a howling wilderness. Private residences are already built equal to almost any city in Ontario, while the noise of the hammer and the hum of the saw from early morning till late at night, show that the inhabitants are bound not to rest until their city takes its place among the first on the continent.

Buildings of all kinds are going up with great rapidity, and it is surprising how they are manufactured. Houses already built are shipped from Ontario to meet the increasing demand for dwellings, and these buildings are being rapidly bought up, as they require very little time and money to place them on a foundation.

The population is increasing rapidly, notwithstanding all that has been said against the country, and what was seven years ago a village of 500 inhabitants is to-day a city of 25,000 souls, and the emigration still continues.

Money can be deposited for safe keeping in no less than sixteen banks, eight of them representing the best chartered banks of Canada, and eight others being private banks backed by private funds. The Merchants' Bank of Canada is known as the pioneer of Manitoba, having been the first chartered bank established in Canada.

Religious bodies are represented by all denominations, who are each striving to take the lead in congregations and churches. The best talent and eloquence to be obtained are employed in all the churches, and the minister of the service is in keeping with the rest of the service, one church boasting of having one of the best choirs in America.

Young as the city is, lodges and societies are numerous and growing rapidly, and visitors can be assured of a hearty welcome on the square, or otherwise.

The country around Winnipeg is flat, but as the traveler proceeds westward the land becomes more hilly and trees more plentiful. The crops this season are going to be very good and the farmers are all looking forward to having a bountiful harvest."

TRADE NOTES.

It is expected that work will shortly be commenced by the Canada Iron & Steel Company at Moosong, near Montreal. Quantities of ore have been received and are being broken up.

The Kingston cotton mill now employs 140 hands and manufactures about 8,000 yards of cotton per day. The manager says that duty has had to be paid on all the machinery imported for this mill.

The new cotton factory at Merriton is progressing. Messrs. Dulan and Dobbin returned from Ohio on Wednesday, where they purchased the water wheels, three in number, for the mill, at a total cost of nearly \$4,000.

The Castlough Cotton Company has declared a 10 per cent. dividend on the profits of the past six months. Shares are at a premium and cannot be bought at \$176. Castlough gave \$300,000 bonus and has been greatly benefited thereby.

A PIECE of the first cotton cloth manufactured by the St. Croix Cotton Mill has been left with us. Our dry goods merchants pronounce it better in every respect—in fineness of texture, smoothness, etc., than any cotton manufactured in Canada, and equal to the best American goods. The sale of St. Croix cotton in Canada will no doubt be very large.—St. Stephen Courier.

The Moncton knitting factory enterprise is getting into shape, though the corporation notice of the company has not yet appeared in the Gazette. Dunlop's hall, up stairs, has been rented, and half a dozen hands are now employed. The goods are giving excellent satisfaction, being better and cheaper than those hitherto imported. Temperance Hall was considered too small for this industry, which would seem to indicate that it will be of very respectable proportions.

THE St. Catharines Journal says: A rumor has been in circulation for some time that a strong company of Canadian and United States capitalists have purchased an extensive area of land near Queenston for the purpose of starting a large iron manufacturing. Those who pretend to know say it is all O.K., and that the abundance of limestone, puddling clay, and its proximity to the attractive coal regions over the line, besides its water communication and the railroad advantages it will have when the bridge over the river is built, makes it just the spot.

A MANUFACTURER of bobbin has leased the upper flat of Leachute saw mill for the manufacture of these articles, which have been supplied from the United States until quite recently. Even this manufacturer has been engaged in Massachusetts, and finding his orders from Canada increasing and the 20 per cent. duty which he had to pay on the bobbins he sent into Canada quite an item, resolved to visit this country to see the extent of the bobbin trade and the facilities for manufacturing here. After visiting several places and getting orders from several cotton factories, he has decided on commencing operations at Leachute, and has rented a house here for his family, and his machinery is to be sent forward at once.—Leachute Western.

On Thursday of last week, Messrs. McIntyre Smith, Kamp, Drinkwater and Smellie were at the Perth car shops on a tour of inspection. They were met at the station by Messrs. F. A. Hall, mayor, John Haggart, M. P., Robert McKeown and John A. McLarn. The party were shown through the shops by Mr. Little, manager. Cars are now in all stages of construction, and several are finished and marked "Made at the G. E. R. Car Works, Perth, July, 1892." The shops are now turning out twelve cars per week. Houses are still very scarce in Perth, and the workmen and the railway company are complaining of the want of them. The people of the old town seem to be very slowly recognizing the fact that a large industry is at work and the population of the town is largely increasing.

PERM—Get your mouth full by using TARRANT, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent sample.

MOTHERS! Mothers! C
Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINDLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is no mother on earth who has ever used it, who will not tell you of once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and comes in the United States. Sold everywhere. 25 cents a bottle.

DAILY EVENING REVIEW.

VOL. VIII.—No. 40.

PETERBOROUGH, FRIDAY, AUGUST 18, 1892.

PRICE TWO CENTS.

GREAT STOCK-TAKING SALE, AT GIROUX & SULLIVAN'S

Preparing for Another Year

In order to reduce our stock of Summer Goods before the 1st of September, when we will have been one year in business, we commenced on the 1st of AUGUST, a Great Stock-taking Sale for Thirty Days, when every line of Goods will be sold at a Great Reduction to reduce the stock. Tremendous bargains may be expected.

THE POWERS AND EGYPT

A COMBINED LAND AND SEA ATTACK ON ABOUKIR IMMINENT.

Turkey Refuses to Send Troops and Opposes British Occupation—Russia Concentrating Troops—Germany Irritated at the Porte—Fearful Misery in Arab's Camp.

LORD DUFFERIN'S INSTRUCTIONS.

LONDON, Aug. 17.—Lord Dufferin has been instructed not to press the Porte for a reply concerning the military convention.

GERMANY AND THE MILITARY CONVENTION.

BERLIN, Aug. 17.—The delay of the Porte in accepting the proposal for a military convention has considerably irritated the German Government. Herr Hirschfeld, the representative at Constantinople, has been instructed to make representations to the Porte concerning the feeling of Germany on this subject.

M. DE LAMOTTE AGAIN TO THE FOR.

PARIS, Aug. 17.—M. de Lamotte telegraphs from Ismailia.—"The governor asked me to-day whether the Egyptians could legally cut a fresh water canal from Cairo to Ismailia. I shall communicate my opinion, which has the sanction of legal decisions, to Arabi, who has always scrupulously respected the rights of the Suez Canal Company."

PREVENTING DISORDER.

CONSTANTINOPLE, Aug. 17.—The Porte has reiterated its instructions to the provincial governors to take precautions to prevent disorder in their respective territories. The Arab sheik Ousaidah, chief of the Kurd tribes, has disappeared, and the Government is endeavouring to ascertain his whereabouts.

GEN. WOLSELEY'S INTENTIONS.

LONDON, Aug. 17.—The Standard says that Gen. Wolseley's parading was for an ostensible purpose, and may have been the best way of concealing his real intentions. Before now the enemy have been deceived by means of the press. The Standard further says the ironclads may increase the deception by the bombardment of the forts, and at nightfall will steam back to Alexandria, disembark the troops, and the entire British force will fall upon Arabi's depleted entrenchments in front of Ramleh. It is almost certain that the reports of a landing at Aboukir spread to throw dust in the eyes of Arabi. The Times is quite silent regarding General Wolseley's intentions.

WILL BE SPEEDILY SETTLED.

PARIS, Aug. 18.—De Freycinet, ex-Premier, is reported as saying that the Egyptian question will be speedily settled by England, thanks to the assistance she would receive from London and the powerful Sheik, El Rasoudi.

TAKING CARE OF NUMBER ONE.

ALEXANDRIA, Aug. 17.—Arabi is said to be negotiating for his escape in case of need, to the residence of a fanatical Mohammedan dignitary on the borders of Tripoli.

PROGRAMME OF THE ATTACK.

ALEXANDRIA, Aug. 17.—The first division with one regiment from the second division will embark to-morrow after the bombardment of the forts at Aboukir, for which all the men-of-war but two will be withdrawn from Alexandria. It is intended to land the first division under the personal command of Gen. Wolseley, while the second division under Gen. Hamley, with Gen. Wood and Alison commanding brigades will co-operate from Ramleh.

MISERY IN ARABI'S CAMP.

ALEXANDRIA, Aug. 17.—A deserter from Arabi's forces who came in to-day gives a graphic description of the misery prevailing in the latter's camp, where the wounded, crawling about, their sufferings unheeded, present a sad picture of distress and neglect. Some of these poor creatures are said to have been shot by their comrades to free them from their agony. Many Egyptians have been compelled against their will to fight.

THE COMING ATTACK.

ALEXANDRIA, Aug. 17.—The 80th, and 90th regiments are breaking up camp at Ramleh and preparing to embark. The transports Egyptian Monarch and Nevada have arrived. Reports continue to assert that a combined land and sea attack on the forts at Aboukir is imminent. According to the latest account the attack will be made on Sunday morning.

THE ROMAN ARMY.

PARIS, Aug. 18.—It is no secret that Russia will concentrate an army in the Caucasus. It is estimated that it will number 7,000.

ROMANIA TO OCCUPY TURKISH TERRITORY.

ERZURUM, Armenia, Aug. 18.—It is believed that Russia is about to occupy the whole of Asia to the Bosphorus, owing to the undeclared state of Turkey. The Romans could easily do this without much bloodshed.

A DENIAL FROM RUSSIA.

ST. PETERSBURG, Aug. 18.—The reports relative to the troops in the Caucasus are officially denied.

THE FLEET MOVING.

ALEXANDRIA, Aug. 18.—The fleet and transports are getting up steam. They will sail with sealed orders.

THE TROOPS EMBARKING.

ALEXANDRIA, Aug. 18, 11.30 a. m.—A division of the Guards and 90th Regiment are now embarking. Gordon and Cameron, of the Highlanders, are going to Ramleh to form a nucleus of the Highland Brigade under Alison.

THE PORTS ACTING CONTRARY.

NEW YORK, Aug. 18.—A Constantinople despatch says that it is now announced that the Porte has declared its intention to send no troops to Egypt and has issued instructions countervailing all preparations in that direction. The Sultan is preparing a formal protest for presentation to Lord Dufferin and the conference, in which he energetically opposes the occupation. This creates a profound sensation.

MIDNIGHT TELEGRAMS

CABLE.

THE COREAN INSURRECTION.

LONDON, Aug. 17.—Private telegrams say the trouble in Corea has culminated in a general insurrection, in which the King and Queen were assassinated. The Japanese legation was attacked by natives belonging to the anti-foreign party. Japanese men-of-war have been despatched to the Seoul river.

WARLIKE PREPARATIONS.

COLOGNE, Aug. 17.—A correspondent of the Gazette expresses the opinion that Russia is preparing for war with Turkey by way of compensation for England's occupation of Egypt.

CETWAYO'S RESTORATION.

LONDON, Aug. 17.—The Standard says an experienced military officer of standing, who remains some time in Zululand as British resident, will accompany Cetwayo on his return, in order to assist in effecting an understanding with the present chief. A Durban despatch says the intention of the Government to restore Cetwayo causes consternation there.

HOME RULE MEETING.

DUBLIN, Aug. 17.—Two meetings were held in Dublin to-day. One was for the purpose of raising a national fund to defray the campaign expenses of Home Rule candidates for Parliament under the plan proposed by Mr. Parnell yesterday to increase the Home Rule representation, and the other to raise a fund for the benefit of evicted tenants.

AMERICAN.

FAR FROM HOME.

DENVER, Col., Aug. 17.—This afternoon Samuel Allen was instantly killed near Aspen, in this State, by a tree falling on him. Allen was a graduate of McGill University and a native of Canada.

DOUBLE MURDER.

YAKIMA CITY, Oregon, Aug. 17.—Dr. B. F. Hutchinson, a highly respected citizen, and his son, aged 18, were found shot dead yesterday. The murder is supposed to have been committed by an Indian for robbery. He escaped, but armed men are scouring the country, and it is thought he will doubtless be lynched.

A WAR OF RACES.

LITTLE ROCK, Aug. 17.—There has been trouble for some time between the white and coloured labourers on the Memphis and Kansas City Railway. To-day the Ku-Klux party forced the coloured men to leave under penalty of death. An appeal was made by the Railway Company to Governor Carroll. He telegraphed to the Sheriff to investigate the matter and protect the workmen.

APACHE OUTRAGES.

TUCSON, Ariz., Aug. 17.—Advises from Magdalena, Sonora, of the 15th say the Apaches continue their raids in the vicinity of Ures. A band of seventy to one hundred is now raiding the Sonora River valley. Don Villano, of Cuernavaca, and a number of others in the valley were killed last week. Over one hundred people have been killed in the vicinity of Ures within the last month.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

PARLIAMENT ADJOURNED.

LONDON, Aug. 18.—The House of Lords and House of Commons have both adjourned till the 24th of October. There was no formality observed, not even a quorum of members present.

AMERICAN.

A CATTLE DISEASE.

PITTSBURG, Aug. 18.—The cattle dealers and farmers in the eastern Ohio counties are greatly alarmed over the outbreak of the Texas cattle disease near Steubenville.

DISTILLERS IN COUNCIL.

CHICAGO, Aug. 18.—The Western Distillery Association yesterday expressed resolutions in favour of the enforcement of the Sunday laws, high licenses and the reduction of the number of saloons, and opposing the arraying of the association as a body against either of the great political parties.

HORRIBLE CRUELTY.

SYRACUSE, N. Y., Aug. 18.—Under a contract with the county, Mrs. Freeland receives pauper babies and also takes children for young women who don't want to be bothered with them. A child which recently died on her hands was found to have been left out in a wood shed all night while fatally ill. Other babies in her keeping were starved to a pitiable condition. Mrs. Freeland says she is not paid enough to keep them properly.

ENTERTAINING THE PRESIDENT.

NEW YORK, Aug. 18.—Entertainments will be numerous upon the arrival of the President next week. It is expected that the President will be obliged to decline at least fifty invitations to dinner.

A DUELIST ON TRIAL.

LOUISBURG COURTHOUSE, V. A. Aug. 18.—Yesterday in the trial of Gerland, a duellist, for killing Addison, a witness testified that Addison fired the first and last shot.

THEFT OF JEWELRY.

NEW YORK, Aug. 18.—Jas. Higgins was arrested for stealing jewelry belonging to his employer, General Sickles. The latter, who is in Michigan, was informed by telegram. He replied, asking the officers to look after a small safe containing \$2,000 worth of valuables. The safe is missing, and it is supposed that Higgins stole it.

FRIDAY, AUGUST 18, 1882.

NORTHWESTERN SQUATTERS.

BECAUSE some professional squatters, not bona fide settlers, have been checked in their efforts to blackmail the genuine colonizers of our great North-west, the *Globe* is holding up squatters as the salt of the earth, (though with a somewhat fainter flavor of murder) and is attacking the Dominion Government, as it would have done with equal vigour if its interesting clients had been encouraged.

Why did not the *Globe* stand up for the rights of the squatters when on December 26th, 1874, an order in Council was passed under the Macmillan administration, from which we take the following extract:—

"On a Memorandum dated 24th December, 1874, from the Hon. the Minister of the Interior stating that in view of the location of the Canada Pacific railway line westerly from the present limits of the Province of Ontario, he submits that in all probability during the coming season there will be a disposition manifested on the part of settlers going into the Province of Manitoba to squat upon lands along the route, thus probably embarrassing the Government in carrying out the provisions of the Railway Act of last session, and under these circumstances he recommends that he be authorized to give public notice to the effect that all lands within twenty miles on each side of the line surveyed, and upon which the telegraph is now under construction, are for the present withdrawn from sale or settlement under the Dominion Lands Act, and that no rights of entry upon the said lands by parties who may have settled thereon after the issue of this notice will be recognized by the Government until further notice."

We need hardly say that in the North-west these professional squatters are not quite so well appreciated as in the *Globe* office. As a specimen we will give a quotation from a letter, published in the *Edinburgh Scotsman* from a correspondent at Winnipeg, who is by no means a thick and thin supporter of the Government land regulations. He says:—

"These squatters, if they have only scratched a few furrows in the soil and put up a shanty inferior to a decent British pig-sty, have a preferential right to the lot it stands on; and I met a young man the other day on his way out to squat on behalf of a well-to-do man, who was but a good wage for a few months to act as a *locum tenens*. I expect that this mode of forestalling eligible settlers by parties who have not the slightest intention of settling on them personally, is far from uncommon. Many of the innumerable farms always on the market have been got hold of in such ways as this. I met many men in town who went up west in the early spring or rather late winter, got a claim lodged before the great western rush set in, and are now prepared to abandon their claims for a consideration of from \$500 to \$1,000."

The fact seems to be that if the Dominion Government have erred at all with regard to these squatters, it has been on the side of too great leniency to them, no doubt with the idea that every point should be stretched in favor of the pioneer settlers, and that in any case of doubt they should have the benefit of it. It is evident that in many instances undue advantage has been taken of this liberality. The next complaint of the *Globe* is as likely as not to be that the Government is unduly favoring squatters. What matters to it whether or not they are long as an attack can be made upon Sir John Macdonald and his colleagues? If the country suffers through the loss of immigration on account of these false and malicious charges, so much the worse for the country, which has had the bad taste to disband from power the *Globe's* friends.

EDITORIAL NOTES.

THE *Mail* has the following paragraph:—"It is now unblushingly alleged that Mr. Mowat has never spent one copper of Ontario money in waste. The following poem by Mrs. D. A. Macdonald, which cost the province \$2,200, fairly contradicts the assertion:—

1,000 cigars,
Ontario, Ontario,
130 bottles of rye,
Ontario, Ontario,
232 bottles of ale,
161 bottles of wine,
22 bottles of brandy,
Ontario, Ontario."

THE *Perry Sound North Star*, following a bad example, is showing its contempt for our highly esteemed Canadian judiciary by grossly abusing Judge Gowan for not counting in Mr. Miller as a member for Muskoka. It appears that there was a deficient supply of printed ballot papers at some polling places, and the deputy returning officers supplied written ones. For not disfranchising these voters the Judge is assailed and he is even charged with the grave offence of accepting ballots on which the name of Mr. O'Brien, the successful candidate, was misspelled "O'Brins."

THE *Globe* endeavours to justify the delay in issuing the writs to fill the vacancies in the Provincial Assembly. The law requires that steps should immediately be taken to provide vacant constituencies with representatives, but Mr. Mowat has before now shown that he interprets "forthwith" to mean "at his own convenience."

A MYSTERIOUS MURDER.

A mysterious death from Malacca on a Secret Expedition.

HALIFAX, N. S., Aug. 16.—The recent purchase here of a schooner named the *Conquest*, about twenty years old, by General Butler, of Boston, has created much comment, and many surmises are made relative to the object of the owner. The vessel called yesterday. The *Evening Chronicle* says:—"As her clearance states, she is bound for Port Crockett, said to be in Madagascar, a long voyage for a small vessel, and the mystery which the whole enterprise has been gotten up makes it seem not improbable that this port is not her destination. As far as we have been able to learn it appears that enquiries for a British bottom of suitable dimensions have been made for some time past by Capt. F. Tarr, of Gloucester, a gentleman well known for the prominent part he took in the late unhappy war of our Southern neighbours. Failing to find a suitable vessel flying the British flag in American waters, Capt. Tarr despatched an agent to Canada, where at last in the required article was found in the schooner *Conquest*, a gloomy, black, piratical-looking craft, with extraordinary high bulworks for a vessel of her class, well fitted to hide the small guns with which our observations lead us to believe she will be mounted. Capt. Tarr, who has been here for the past two weeks, has superintended the alterations that have been made in the vessel to suit her for the peculiar trip whatever it may prove to be. Large quantities of stores, sufficient for thirty or forty men for 9 months, were embarked on the *Conquest*. Notwithstanding that only two boys besides the captain and mate called with him from this port, the departure of some twenty men in the schooner by a land conveyance within a few days lead to the impression that the Madagascar-bound vessel is not going to one light-headed. Added to what we have said the fact that arms and ammunition arrived by the last Boston steamer, consigned to the projections of this enterprise, a not unimportant circumstance in the eyes of Capt. Tarr, either for himself, or more probably for General Butler, is engaged in an undertaking that will bear watching, and the outcome of which may be looked forward to with some interest."

TERIBLE DROWNING ACCIDENT.

A Priest and Four Indians Drowned in Lake Maskagouche.

The details were to-day received in town of a terrible drowning accident, which has taken place at Lake Maskagouche to the north of St. Laurent, by which a young priest and four Indians lost their lives. On Saturday morning, early Rev. Father Chapellier started out, accompanied by four Indians, for a fishing excursion on Lake Maskagouche, which is celebrated for its abundance of red trout. The party embarked in a "dog out" and after enjoying some splendid sport they were returning home with the canoe heavily loaded with fish when a half-storm, accompanied by fierce and heavy squalls, burst over the lake, upsetting the canoe and precipitating its occupants into the icy cold waters of the lake. Only two of the Indians could swim, but even they perished, as the accident took place a long distance from the shore. The priest and the other two Indians, being unable to swim, soon sank, and on for their bodies have not been discovered. The deceased priest, who was only thirty-eight years of age, was the founder of the Indian Mission at Lake Maskagouche and also was in charge of the diocese of St. Albert. He was a universal favorite. The Lake Maskagouche Mission was founded in 1849 and is one of the most successful and religious training of the Indians, who earn a good livelihood by farming.—*Montreal Star*.

CAMPFIRE PIONEERS.

SALE OF REAPERS.—Mr. Fred Peake has sold over forty reapers and mowers in the township of Seymour, this season. This is the largest number ever sold in Seymour in any year, and probably as large as that of any one township in Ontario by one agent.

SCARCITY OF HOUSES.—There is still a demand for good tenement houses which cannot be filled, and those occupied are rented at high figures. If those who have a surplus of means would erect some of the vacant lots a few good houses, they would be taken before the buildings were enclosed. If rent continues at its present standing the investment is profitable. Advancement should be made in this way so that the village may become an abiding place for many who would wish to settle here.

EAGLE SHOT.—Mr. W. Ash, of Lakeside, formerly a resident of Campbellford, in company with Mr. Macdonald, shot a beautiful bald-headed, gray eagle, a short distance below Reaney's Falls, one mile and a half south of the village, on Thursday last. The bird measured nearly six feet across the extended wings. Mr. Ash gave it to Mr. A. W. Trueman, who will have it stuffed. Mr. Ash is one of old Reaney's campfire pioneers, who makes the bullets from his side all every time.

PROGRESS OF THE CHURCH.—If the present desire to worship in fine edifices continues a short time longer among the church-going people of Campbellford, we might be able to boast of the finest lot of churches of any village in the Province. Since the two fine churches now building were commenced, the Roman Catholic congregation here opened their eyes to the fact that they also must be a poor place for worship, and they have in contemplation the re-modelling of the present building, or the erection of a new church.

DEATH.

SUDEN DEATH.—Jonathan Bryana, farmer, living three miles east of this place, died very suddenly on Wednesday morning. He helped to unload some barley, and then went into the stable. Not returning for some time one of the men went to call him, and on entering the stable found him lying as though asleep. On examination he was found to be dead. Cause of death supposed to be apoplexy.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dry's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above, N. B.—No risk is incurred, as thirty days' trial is allowed.

ROBERT A. WILSON, Dispensing Chemist, Brockville says under date of June 5th, 1882, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints, Diarrhoea, Dysentery, Pain in the Stomach, Red Stomach, Piles, etc., you can use my name, etc."

Canadian Meat.

LONDON, Aug. 16.—Another Canadian enterprise has been launched upon the market here. To-day the Canadian Fresh Meat Importation Company issued its prospectus. The Company has been formed for the purpose of placing cheap and wholesome meat at the disposal of all classes. It will import only first quality meat from the United Kingdom into the United Kingdom. The capital stock of the Company is £50,000 in shares of £1 each. The Directors also draw attention to their prospectus to the well-known superiority of Canadian cattle over those exported from the United States. The Company will be their own importers and will direct to the consumer from its own depots. The average cost of the meat delivered in England is 1d. per pound. A contract has already been made with a responsible party in Canada to supply the meat.—*Globe*.

Mr. Wm. Russell, of South Norwick, says: "For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, (J. W. Fisher, 10, Old Bailey, London) to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle."

A CALL IS SOLICITED.

RUSH & ELLIOTT.**Welland Canal Enlargement.****NOTICE TO CONTRACTORS.**

SEALED TENDERS for the enlargement of the Welland Canal will be received at this Office until the arrival of the Eastern and Western Mail on FRIDAY, the 1st day of SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Reaney's Bend and Port Colborne, known as Section 24, embracing the greater part of what is called "Rock Out."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 18th day of AUGUST next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the firm; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the work, at the rate stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order, A. P. BRADLEY, Secretary, Department of Railways and Canals, Ottawa, 18th July, 1882. 6d16-law 7215

FRIDAY, AUGUST 18, 1882.

TOWN COUNCIL MEETING

RAILWAY MATTERS ARE THE PRINCIPAL TOPICS DISCUSSED.

The Midland Bridge at the Quarries—The Grant of Land Made to the Ontario and Quebec—A Dangerous Crossing—An Unhealthy Drain.

A special meeting of the Town Council was held on Thursday night.

PRESENT:—His Worship the Mayor, Councillors Cahill, Alford, McNaughton, Kelly, Patterson, Wilson, Douglas, Rutherford, Maclean, Dennis and Richardson.

On motion, the reading of the minutes was dispensed with.

The Mayor said that he had called the Council together for the purpose of considering a communication from Messrs. Dennistoun & Hall, and Mr. J. C. Bailey, regarding a bridge proposed to be built by the Midland Railway Company near the quarry, and also to consider the matter of the grant of land to the Ontario and Quebec Railway.

COMMUNICATIONS.

From R. Walright, asking for a butcher's license.—Granted.

From Wm. Dolan, stating that a child had been left at his place by Mary Tooman eighteen months ago, and asking the Council to take charge of it.—Charity Committee.

From the Crown Lands Department of Ontario, stating that the 3,000 ft. of Well and west of George street, had been patented to the Town Trust Commissioners, and that lot 4 had been sold to Horatia Kirkpatrick.—Resolved.

From the Engineer of the Midland Railway, stating that he had given instructions to the resident engineer to have any alterations made to Bethune street, opposite the property of Mr. McNamara, made good.—Street and Bridge Committee.

A RAILWAY BRIDGE ON SMITH STREET.

A communication was read from J. C. Bailey, Chief Engineer of the Midland Railway, expressing the hope that no obstruction would be thrown in the way of the railway in building a bridge on Smith street.

Also from Messrs. Dennistoun & Hall, enclosing the foregoing communication, and stating that the Railway Company was willing to furnish an overhead bridge near the quarry as requested, provided they were indemnified against claims for damages.

Councillor McNEIL said that if they indemnified the railway they would have to pay for any damage done to neighboring property, and he did not think the Council should pay any damages.

Councillor PATTERSON said they should not indemnify anyone, but they should hold to the demand for the bridge.

Councillor RUTHERFORD said there was no doubt that the persons owning property there would apply to someone for damages. The proper way was to refer the matter to the Joint Committee.

Councillor RICHARDSON urged that it would be well for the Town and County to look into this matter in time.

Councillor KELLY thought the place would be more dangerous with the overhead bridge.

Councillor McNEIL moved, seconded by Councillor RUTHERFORD, that the matter of the bridge proposed to be built by the Midland Railway on Smith street be referred to the Joint Committee of the Town and County, with power to take legal opinion on the same.

The Mayor—Why not refer it to the Street and Bridge Committee?

Councillor PATTERSON thought it would be better to refer it to the Street and Bridge Committee.

THE MOTION WAS CARRIED.

THE ONTARIO AND QUEBEC.

The following communication was read:—

H. H. Smith, Esq., Mayor.

"With regard to the report of the Finance Committee dated 22nd March last and E. B. Oiler's telegram on the 7th August instant, in reference to the block of land in the south end of the town, the committee are willing to carry out the wishes of the town council and the railway company, and consent that the lot be given for the purpose of connection with the railway company, and in the event of the railway company failing to erect buildings as required in three years from the date of the agreement, should the company cease to use the any time during the said term, then the lot to revert to the Town Trust.

A copy of the resolution passed by the Council on August 15th, 1882.

Councillor RUTHERFORD defended the action of the Council at its last meeting. There was a great deal of opinion as to how the matter stood, and it was laid over to get more light. If the

anonymous writer of a letter in a newspaper could do better than the members of this council, he was willing for him to take his place in January.

Councillor PATTERSON asked to have the original copy of the railway company and the report of the Finance Committee read, along with the communication of the committee, so as to see how matters stood, and this was done.

Councillor McNEIL said the provision should be more guarded, or the company could erect houses for their workmen to live in on the land.

Councillor CAHILL approved of Councillor McNEIL's suggestion. He condemned the practice of writing anonymous letters in the press, and said that the writers of the anonymous letters in regard to the action of the council at its last meeting did not understand what they were writing about. The communication of the committee this evening demonstrated the wisdom of the council in letting the matter lie over.

Councillor RICHARDSON said he understood when the Finance Committee's report was adopted that the company was to fill in Spaulding's Bay. He did not see why the Council or the committee should give the land to the company unless they agreed to this condition.

Councillor McNEIL said that at one time the Council was very anxious to have railway, and to make this grant was as little as they could do. Referring to the anonymous letter in reference to the Council's last meeting, he said the writer had tried to get into the Council and failed.

Councillor PATTERSON said he understood the land was to be used solely for station purposes. If it was to be used for anything else he would not feel disposed to give it.

Councillor RUTHERFORD thought the Company would be willing to accept the condition of filling Spaulding's Bay, as they could do it cheaper than anyone else.

Councillor McNEIL favored making the filling of Spaulding's Bay one of the conditions. The Mayor said that the Company had had the privilege, and still had it, of accepting Spaulding's Bay on condition that they fill it, but they had not accepted the offer.

Councillor DUNN said that it really only losing the land, and if they made this grant and so more they would get good value in return.

Councillor CAHILL moved, seconded by Councillor RUTHERFORD, that the communication of the committee be read, and that they be requested to carry out the proposed arrangement with the company.

Councillor PATTERSON said a clause should be inserted that the land should be used for no other purpose than for a station.

The Mayor said the conditions would be put in by the Commissioners when carrying out the arrangement.

The motion was carried.

WASHING AWAY.

Councillor McNEIL called the attention of the Council to the main road leading to the quarry, which was being washed away and should be repaired. It was an important matter and the Street and Bridge Committee was very slow in attending to it.

Councillor CAHILL said the resolution was only carrying out a recommendation of the Street and Bridge Committee, which had been adopted, and the Township Council had appropriated \$25 and the remainder he believed would be made up by parties on the line.

The motion was carried.

AN UNHEALTHY DRAIN.

Councillor PATTERSON said he had noticed the water dammed back in the drain on Park street, and the stagnant pools were malaria breeders that should be attended to. He moved that the Street Inspector have the Park street drain cleaned out at once, as it is in a very unhealthy state at present.

Councillor McNEIL said that it was throwing money away to clean out these drains every year. He proposed that the drain be cleaned, and then the work would be done for ever.

Councillor DOUGLAS said that if the drain was deepened towards the river it could clean itself. The worst part of the drain was in Menzies.

Councillor DUNN asked what this work would cost? The money this year would all be spent without some wards having any money spent in them.

Councillor McNEIL said they were there in the interest of the whole town, and not of any particular ward.

Councillor RICHARDSON said that the water was dammed in some place by persons to water their cows.

The motion was carried.

Councillor McNEIL moved, seconded by Councillor DUNN, that the Clerk be requested to write to the Council of Monaghan to have the part of the drain in that township cleaned out.—Carried.

THE "MINING LINK."

A communication was read from F. Kingston in reference to the dangerous nature of the connection that was going to be made with the "Mining Link" of the Midland at Bethune street, where there was a cutting and a curve.

Councillor McNEIL said the railroad would have to keep a signal man there to signal the approach of trains.

Councillor RUTHERFORD said there was a dangerous crossing on London street and there was not a signal man kept there. He moved that the matter be referred to the Street and Bridge Committee with power to act.

Mr. KIDMAN was heard by the Council, and urged the necessity of taking some measures for the safety of those who would have to pass there before the road was built. They could not depend on signal men. The company had no right to expose the inhabitants of the town to danger.

Councillor PATTERSON, after further discussion, said that this would be a very dangerous place. The matter was now before the Street and Bridge Committee, and the Solicitor and Clerk had written to the company for the plans of the crossing, &c., and when these were received action could be taken.

The communication was referred to the Street and Bridge Committee.

The Council then adjourned.

Midland Railway Traffic Returns.

The traffic of the above railway, for the week ending Aug. 12, 1882, was as follows:—Passengers and Mails, 96,173.43; Freight, \$13,954.92. Total, \$30,128.35, as compared with \$16,577.66 for the corresponding week of 1881, being an increase of \$13,550.70; and the aggregate traffic to date is \$804,028.77, being an increase of \$153,852.94 over 1881.

The Weather.

The weather has taken a decidedly cool turn, and to-day the air is quite cool again. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes—Light to moderate variable winds, and fine cool weather. East and south winds on Saturday.

Sympathy.
In reference to the melancholy death by drowning of Mr. Ernest B. Bell, son of the Rev. C. Roles Bell, late Incumbent of Lakeside, the Dominion Churchman says:—

"We are sure that all Church people throughout the diocese will heartily sympathize with Mr. Bell in this great trial. The people of Lakeside showed their deep sympathy with him by bearing the expense of the steam-bath which went to search for the body, and the entire expense of the funeral, in addition to a handsome donation to Mr. Bell to cover his expenses—an act honourable to the people and to their late priest."

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung disease by Dr. Souville's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease. Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Wines, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. J. Deloucherville, of the Indian Department, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 483 Adelaide street West; daughter cured of asthma. George Willis, Kester, Ont., catarrh and bronchitis. J. D. Armstrong, 185 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Merinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Bancroft, 114 Cathedral street, daughter of Mr. David Perreault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souville's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Wines, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address. I send details for Illustrated Circular which will show the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

St. Albans, Mass., March 16th, 1882.
B. J. KENDALL & Co., Gentl:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and in less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, calluses, splashes, swellings, and lamenesses and all other ailments of the joints or limbs, or swellings in any part of the body for which a salve is used for some or heat. It is known to be the best liniment for man ever used, acting mild and pleasant in its effects.

I send details for Illustrated Circular which will show the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

THE CONTENTED MAN.
Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say, \$2.00 on a purchase of 20 lbs.

Pure it by inspecting my stock of JAPANESE AND YOUNG HYPOC.

A leading line of sweet and good drawing JAPAN offering at 25 cents, formerly sold at 45 cents.

Daily Evening Review

SATURDAY, AUGUST 19, 1882.

POLITICAL ROADS.

We are told by supporters of the present Ontario Administration, when we complain of the extravagance and the greatly increased expenditure of Mr. Mowat and his colleagues, that instead of blaming them we should give them credit for the money they have spent on colonization roads. We certainly do not oppose a judicious expenditure for the development of the country and especially of its less settled districts, but we do complain, as we are convinced with good reason, of the extravagance of the outlay, and of its being absolutely wasted in many instances, except, indeed, as it secures the desired end of purchasing political support.

That it is not alone in this and the neighboring counties that the road grants are used as a convenient party electioneering fund, is shown by the following extract from a letter as to the system in Muskoka, written from Pelly to the district:

"The manner in which Government money is expended here is, to say the least, original. Two years ago the Chapman Valley road was constructed as far as lot 11, township Chapman. This year \$4,000 was appropriated to extend said road; but not to relate between lot 11 and the boundary line every settler was a Conservative, he the owner of the road received orders to jump the intervening space between lot 11 and a Reform community some three miles farther on. After a great deal of begging on the part of these poor Conservatives, a very hard swamp was cordoned off for them, but the owner was ordered to leave as soon as the swamp was rendered passable. About two miles of the road was left untouched, and Mr. O'Brien, M.P., told me himself that he had to dismount from his horse and take off the saddle in order to keep it dry, and let the horse plunge through the mud as best he could on this piece of road that is good for nothing, and be done on it. I can prove every word of what I write."

Can we wonder when such is the system in vogue that Mr. Mowat's expenditure has exceeded Mr. Sandfield Macdonald's so far more rapidly than the increase of population would justify? We were told in this county that such a use of the Provincial funds was quite legitimate, but we do not believe that the electorate will endorse the practice of using the money of the taxpayers without any consideration of the needs of those who contribute it, and as if it were a mere party election subscription, made with the object of keeping Mr. Mowat in power.

THE RAILWAY LEASE.

We are glad to find that the Town Council has re-considered, though with not very good grace on the part of some of its members, its action in repudiating its offer of a lease of land in the South Ward as a nominal consideration, to the Ontario & Quebec Railway Company. Some of the speakers, with evident impatience of criticism, endeavored to make it appear that it was only an anonymous correspondent who had objected to their breach of faith. We show that this was not the case, but that there was a very general feeling of indignation at such a stigma being placed upon the good name of our town. Steps would have been taken to call a public meeting to protest against it but for the assurance that both the Commissioners and the Council would themselves act on the matter right. If the meeting had been held it would have been regretted that it was so one anonymous individual who objected to the community being held responsible for broken promises.

It is possible that some of the Councilors did not fully know what they were doing when they voted for the offer to be made to the company. It is even possible that they did not put their offer in the best form, but having made it in solemn form as the representatives of the town, they were bound in honor not to repudiate it when called upon to fulfil it. For our part, we do not think that such an indecision was too great to offer to a railway of such a nature as the Ontario & Quebec Company, proposing to pass through Peterborough, and certain, if constructed, to be of so much benefit to the town.

EDITORIAL NOTES.

The *Globe* kindly informs the Kingston News and the public generally that "by far the larger portion of our timber revenues is not from license, but from stumpage dues according to the amount of timber actually cut." This is very true, but the fact remains that the stumpage dues as well as the license fees are being used by Mr. Mowat to meet current expenditure, thus sacrificing our real estate capital, in addition to portions of our cash surplus applied to the same purpose. It is as if one of our farmers sold yearly some outlying acres, as well as drawing upon his bank balance, to pay his household expenses. He would know what result to expect.

The Lindsay Post sneers at us for "trying to act up to a high standard of journalism," and then, to display its own standard, accuses re-

spectable journals of entering upon a "lying campaign" and an honorable gentleman like Mr. Mowat of making a "corrupt and disgraceful bargain." We are glad that our standards are not similar. By the by, the Post has not yet found time to explain why it said that agricultural implements have increased in price, when the contrary is the fact.

At present the *Globe* is giving the factory girls a rest. It is now, according to this "friend of the people," the younger generation of mechanics who "lack in capacity, intelligence and pride in their work."

SQUATTERS' RIGHTS.

The *Globe* of Tuesday last contains a characteristic article respecting the rights of squatters and the so-called "land monopolies." The attack, though general in character, is specially directed against the Qu'Appelle Farming Company. A few weeks ago a correspondent of the *Globe* visited the Bell farm, and the statements made by that voracious wanderer furnish the only foundation for the assault. As usual, those statements are inaccurate, and as a consequence the *Globe's* screed is worthless, and simply amounts to a baseless howl against the Government.

Speaking of the squatters on the Bell farm the *Globe* says:—"Their object in taking up land was that homes might be made, and with that view they commenced building and breaking. Many of them have their houses finished and their first crops ready for the reaper, and now this Government monopoly steps in and bids them clear out!" Now, on authority that cannot be questioned, we may state that the facts are simply these: According to the terms of the agreement between the Government and the Qu'Appelle Farming Company, the latter were bound to deal fairly and honestly with every squatter occupying any portion of the land at the time of the transfer. Such persons were considered bona-fide pioneers, and the Government stood between them and the possibility of unfair treatment. The instructions and intentions of the Government have in every case been fully carried out and adhered to by the company. It is true that the early squatters have been removed, but the removals were effected in the fairest possible way. In every case all improvements were paid for by the company, and the settlers moved off to some other location, thoroughly satisfied with the arrangement. In most instances there was no higgling about the price, the company paying exactly what the squatter demanded. The *Globe's* sympathy for the outcast pioneer is therefore wasted. But there is another class of squatters that must be differently dealt with. When the company entered into possession of the land, they put up notices and sent their agents about to warn off all newcomers. The property was then theirs under the terms of the agreement, just as much as the *Globe* office is the property of the *Globe* Printing & Publishing Company; and no person had any right to settle on it without the permission of the company. Such persons will probably be removed by the Government as they are clearly trespassers but it is not likely that harsh measures will be necessary. The organ raises its voice against "bonanza farming," as another specimen of monopoly; forgetting the fact that the Bell farm is not a "bonanza farm," that is to be looked up in the hands of the company for all time to come. It is specially provided that at the end of five years every farmer who has worked under the company shall have the privilege of buying a farm with all houses, stock and improvements thereon at a price to be arranged by arbitration. A better system of this kind does not exist anywhere on the land could not be adopted; and it proves that the company, instead of being land sharks and monopolists, are desirous of acting in a spirit of fair play and liberality to those who work for them.

In the end of its article, the *Globe* says that "the right of squatters who have located before the fact of a grant is published must be respected." That is exactly what has been and still is being done. In ignorance of this fact, or perhaps conveniently forgetting it, the organ works itself into a fury, and shouts aloud about "stirring up bloodshed." It should put itself better before it allows itself to lose its temper and its common sense this hot weather.—Winnipeg Times.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

Most Worm Medicines are so unpleasant that children are obliged to force them down the throats of the innocent. This unpleasant task is obviated by using Dr. Smith's Great German Worm Remedy. 25 cents at J. McKee, druggist, Peterborough.

Mr. Wm. Ransom, of South Norwick, says: "For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, J. W. Vasey, Fish & Co., Peterborough, to try Dr. Casson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the warmest commendation, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle."

PRICE 25 CTS. PER BOTTLE.

For sale by all Dealers in Medicine. Send address for pamphlet, free, giving full directions. BERRY, HARRISON & LUND, PROPRIETORS, MONTREAL.

DISTRICT INTELLIGENCE

CIVIC HOLIDAY.—The *Evening Review* says the Mayor has appointed Wednesday next, the 23rd inst., a Public Holiday. Would it not be advisable to call a meeting and arrange some means of spending a pleasant day, which the citizens generally could avail themselves of?

POST OFFICE.—The *Evening Review* says that a case of indecent assault was heard before the magistrate in Millbrook on Tuesday. The details are too disgusting to be published, neither parties bearing a good character. The young man tried for the assault was committed for trial, but he escaped the officials the same day, and has not been heard of since.

FOOT CAPTURE.—A distressing accident occurred to Capt. John Wright, on Monday afternoon, while unloading coal from a vessel. In attending to the donkey engine, his foot was caught in the machinery, and badly crushed. An amputation of his toes were considered necessary.

FATAL ACCIDENT.—The *World* says that on Monday afternoon of this week a deplorable accident took place at the G.T.R. station, by which Penney must have lost his life. He intended to go a short distance west, and for this purpose attempted to climb up the brake-ladder of a freight car while the train was in motion. He missed his hold, fell between the wheels, and in a moment his body was almost cut in two. Death was, of course, instantaneous. The deceased was a bright little fellow of only twelve years; and great sympathy is felt for his parents, who had only recently come to this country.

DECEASED.—We regret to record the death of the Rev. Vincent B. Howard, for many years well known as a retired Methodist minister in this town. Though for a long time suffering from various ailments, Mr. Howard was comparatively well up to within a few days of his death. On Wednesday of last week, while at dinner, he was stricken with paralysis, and gradually grew worse until Sunday afternoon, when, without a struggle, his spirit peacefully passed away. The funeral took place on Tuesday afternoon, and was respectfully attended.

THE CHURCH.—The *Evening Review* says that a young lad named McCracken, living in the west end of this town, met with a serious accident on Monday evening. He, with a crowd of boys, were riding on a horse, which request was granted, and when it was thought they were all on, the driver whipped up the horse, and the sudden start threw the above young lad off, and he being only a few years old, he fell between the wheels, and in this position was dragged some distance, and his left leg crushed very badly. Dr. Waters is attending the case.

NEW BRIDGE.—The *Post* says that we have heard that an order for the construction of the new iron bridge for the Midland railway has been given to a Toronto bridge company, and that the material is being made ready as fast as possible. The bridge will cross the river east of the town, and will form a part of the new arrangement connecting the Oshawa and Wick lines.

THE PAPER MILL.—The paper mill buildings are being treated to a coat of dark red paint. One of the local painters has the contract, which is a heavy one, running up the bank. The appearance of the premises will be very much improved. Inside the building everything is ready and awaiting the arrival of the machinery, which Mr. McKee, the manager, tells us he expects to hand shortly.

GAS WORKS.—The *Ward* says that the work of laying the pipes along the various thoroughfares are nearly completed. Work on the gas house is also being pushed forward rapidly. The tank arrived last week and is at present lying at the south ward station.

THE TOWN HALL.—The plans and specifications for the new addition to be made to the town hall building by Mr. Bradburn, of Peterborough, are being prepared by Mr. Duffus, architect, after which arrangements will likely be concluded and the construction goes on with at once.

ON A STUMP.—Wednesday evening of last week met with a curious mishap. While entering the river coming out of the lake the steamboat ran on to a stump in the water and there the boat stuck fast. Every effort was made to get her floating, but not till four o'clock the next morning was she able to proceed on her way up the river, arriving home about five o'clock. The trip was otherwise a very enjoyable one.

Calvary Friday.—For one reason or another, Friday from time immemorial, was reckoned an unlucky day among nearly all the various branches of the Aryan family of nations, embracing the Greek, Latin, Celtic, Teutonic and Slavonic races, or, in other words, the ancestors of pretty nearly all the present population of Europe. This was the case long before any of these races were christianized. The Romans classed Friday in the nefastus dies, on which the courts were forbidden to sit; and it was one of the unlucky days of that sort on which worship of the gods, or, at least, religious feasts, were never celebrated. After the introduction of christianity the day became still more obnoxious to the people because it was held that Christ expired on the cross on Friday, April 3, 33 A.D. It seems that in very early times in the history of English jurisprudence it became a common practice in choosing a day for the execution of criminals to select Friday. This practice was transplanted to the courts of this country in colonial times, and has been generally though not invariably, observed ever since, not only in the original thirteen states, but all the states. There is not statutory provision, so far as we can learn, making it obligatory on judges to follow this old custom. It only remains to add, that the superstition that Friday is an unlucky day, is so deeply rooted in the minds of thousands of intelligent, educated people that they cannot be induced to set sail on a voyage, start on any kind of a journey, or commence any new enterprise on that day of the week. The same superstition prevails among the Hindus.

Personal: To Men Only!
The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Muscular, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

SILVERWARE.

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.
Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

SULPHOLINE LOTION.—AN EXTERNAL MEANS OF CURE FOR SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commences to fade away, even if it comes past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin diseases, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful eruptions, and always produces a clean, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 6d.

SULPHOLINE LOTION.—A FLUID peculiar in itself, is the most potent remedy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Starling, and every year it is used more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KIDDER'S QUININE LIVER PILLS (without Mercury) THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and most reliable remedy for every case.

In Boxes at 1s. 1/4, 2s. 6d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by JAS. KIDDER, London. Specially valuable pills for indigestion, acidity, heartburn, and all other symptoms of disordered liver and dyspepsia. For debilitated health from the effect of "hot climate" this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC improves digestion, invigorates the spirits, recruits the strength. For debilitated health from the effect of "hot climate" this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC restores and develops the nervous energies, enriches the blood, promotes appetite, digests lagging and depressed vitality, cures dyspepsia, indigestion, and all other symptoms of disordered liver and dyspepsia. It is a specific remedy for neurasthenia, ague, indigestion, fever of every kind, sleeplessness, and in wasting diseases, scurvy, and all other symptoms of debility. It is greatly recommended by the medical profession, and is a return to robust health certain. Bottles, 2s. 6d., 4s. 6d., and 6s. 6d. Sold by all Chemists.

The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.—Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is a new use instead of nine pills and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulder, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 6d., and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Thousands of graves are annually robbed of their victims, lives prolonged, happiness, and health restored by the use of the great

GERMAN INVIGORATOR
Which positively and permanently cures Impotency (caused by excess of any kind), Neurasthenia, Weakness, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave. Send for circular with testimonials free by mail. Daily Evening Review

SATURDAY, AUGUST 19, 1882.

LOCAL AND MUNICIPAL.

Just What's Wanted.

Merchants and others, can have luncheon at Humphrys & Cartons. Pastry Cooks and Confectioners.

Re-Opened.

Mr. McClelland's Photographic Studio is now open, and will remain open until further notice—over Flavell's (food store) Simcoe street—and don't forget it.

A Good Chance.

A steady intelligent boy, 14 or 15 years of age, who wishes to learn the printing or book-binding business, will have a good chance by applying at the REVIEW office.

The "North-West Farmer."

We have before us the first numbers of the *North-West Farmer*, published at Winnipeg, by the *Nor.-West Publishing Co.* As it is well and carefully edited, it is well arranged and printed, including the numerous illustrations, and has a very wide field of usefulness, it is likely to have the success which we heartily wish it.

How It Was Done.

The *Cobourg Sentinel-Star*, referring to the cricket match between Peterborough and Port Hope, says:—

"Three of Cobourg's players, who were engaged by the Port Hope, contributed the following figures:—Kennedy, 12, 30; Fairbanks, 13, 2; White, 16, 22. Out of a total 179 runs, our boys made 101."

Old Recollections.

In digging the trench for the waterworks on Simcoe street the covering of an old sewer which ran down the street to the creek was struck, and the old inhabitants were set to work to recollect when it was built. It is evident that it has been there for nearly, if not quite, half a century.

Musical.

Again on Friday evening the Fire Brigade Band gave an open-air concert on the Market Square. A very large number of people came out to listen to the music, and the programme rendered by the band was a good one. These concerts appear to be increasing in popularity, and the playing of the band on this occasion was such as to make them still more popular.

The Weather.

The weather last night was quite cool, and to-day it continues cool and pleasant. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—*Lakers*—Light to moderate winds, mostly east and south, fine weather and rising temperature.

Rudeness.

Some of the boys and girls who were at the Market Square when the band was playing last night—were glad to say they were the smaller ones—acted in a very rude manner. They can enjoy the music, or the fun, if that is what they go for, just as well without disturbing others and making themselves such a source of annoyance. We hope they will take the hint and act on it.

The Hunting Season.

The following will be of interest to sportsmen as showing the time during which they may lawfully shoot or otherwise kill the different kinds of game: Deer, elk, moose, caribou, October 1st to December 15th; grouse, pheasants, prairie fowl, partridges, September 1st to January 1st; wild turkey and quail, October 1st to January 1st; woodcock, August 1st to January 1st; snipe, August 15th to January 1st; mallard, grey and black, and wood duck, August 15th to January 1st; other ducks, geese, swans, August 15th to May 1st; hares, September 1st to March 1st. The season for shooting woodcock, snipe and duck has thus commenced.

Thoroughbred Cattle.

The August report of the Ontario Bureau of Statistics gives the number of each kind of thoroughbred cattle in the different counties of the Province. In Peterborough the number is as follows:—Durham, 173; Devon, 46; Hereford, 37; Aberdeen poll, 2; Galloway, 80; Ayrshire, 83; total, 421. In Haliburton:—Durham, 14; Devon, 3; Aberdeen poll, 2; Galloway, 4; Ayrshire, 5; total, 28. In Victoria:—Durham, 197; Devon, 54; Hereford, 14; Aberdeen poll, 3; Galloway, 16; Ayrshire, 25; total 309. Throughout the Province the Ayrshire breed appears to be the favourite.

POLICE COURT.

DRUNK AND DISORDERLY.

SATURDAY, Aug. 19.—Robert Scott was charged with being drunk and disorderly in a public place, on Friday. He denied the charge, but Chief Johnston said he found him on a corner on George street surrounded by a crowd and making lively demonstrations with a stick. He was fined \$5 and costs or 30 days in goal. "Well, all right," said the prisoner, "I'll take the goal for it." His wife, who was present, offered to pay the fine, but he stopped her and told her to keep her money and it would do for to get him a drop when he got out.

Y.M.C.A.

Among the delegates to the Young Men's Christian Association Convention at Truro, N. S., this week, was Mr. G. M. Roger, of Peterborough. The convention was a very successful one.

Personal.

Among the "Spray," as the local items are termed in the *Old Orchard Sea Shell*, which by the way is edited by a lady, we find the following paragraph:—

"On Sunday morning, August 13th, divine service was celebrated in the chapel of St. John-by-the-Sea by the Rev. Vincent Clementi, B.A., Peterborough, Ont. The subject of the sermon was "prayer."

The Market.

The attendance of buyers and sellers on the market this forenoon was quite large. The prices of produce do not fluctuate much. For butter, 22 to 25 cts. was asked; eggs, 16 to 18; potatoes, 20 cts. and apples 25 to 30 cts. per peck; raspberries, \$1.25 to \$1.40. Vegetables were selling at high prices. Green corn has made an appearance and is selling at 30 cts. per dozen ears.

Railway Notes.

A new time table will shortly be issued embracing the entire Grand Trunk system.

A track has been laid at the Midland station on which to run the official car into the building being prepared for it. The track and yard at the station are undergoing considerable change, with a view of facilitating the business done, and the yard presents an improved appearance.

Mr. Barnecutt has sold sixty thousand feet of inch lumber to the Ontario & Quebec Railway Company, says the *Lindsey Post*, to be delivered at Cavanville, and quite a lot more to be delivered at other parts of the line.

Forty French Canadians went out from Belleville on the Madoc train on Tuesday to work on the Ontario & Quebec Railway. The village of Tweed, we learn from the *Intelligencer*, is filled to overflowing in consequence of the building of this road, which is being energetically pushed forward by the contractors there. At the Indian River and in Cavan the work is also being pushed on with energy.

A Girl's Mistake.

The other day a young lady on G— street found a piece of bent iron that bore a distant resemblance to a horse shoe in the yard, and hastening to the verandah were sat two young men, "Isn't it lucky," she asked, "to find a horse shoe?" and her face was suffused with blushes and the color came and went in her rosy cheeks, as she with charming timidity awaited the answer. "Certainly, it is very lucky to find a horse shoe," replied the most gallant of the two gallants. "Shall I put it over the door?" continued the blushing and delighted damsel, addressing the speaker with a smile that made his heart flutter excitedly and sparkling eyes that riveted his soul, "and the first one that goes under it—what is it? I don't understand?" "But that isn't a horse shoe," interposed the other young man. "No, what is it?" she asked, turning to him with a faint look of distress. "It is a piece of iron off a bedstead!" was the heartless reply. "Oh, dear!" she exclaimed, as she dropped the ugly iron from her slender fingers and glided through the door, and the young men looked at each other and sighed in concert.

Forestry Congress.

We have received from Mr. Wm. Little, Vice-President for Quebec of the American Congress, circulars respecting the meeting of that body at Montreal on August the 31st and 22nd under the patronage of Lieut-Governor Robitaille. Among the more prominent subjects to be brought under discussion are the following:—How to conserve existing forests; the best method of working timber-lands in the interests of the holders, of the public, and of the revenue. The duties of Government in regard to Forestry; how to promote the extension of timber bearing lands in districts where timber is scarce, and how best to introduce it into the treeless regions of the West; the protection of forests from fire; the necessity for special instruction in Forestry; the best trees to plant for commercial, climatic, sanitary and ornamental purposes; utility of roadside planting for towns; fruit tree cultivation and climatology and Forestry. The principal railway and steamboat companies have made arrangements for reduced fares to those who hold certificates from Mr. Little, who will give them, not only to members but to all visitors who take an interest in Forestry. All communications should be addressed to the American Forestry Congress, Forestry Chambers, Montreal.

It is said that he has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

C. BARTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

BIRD-RIDEN AND CURED.—W. E. Huels, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

Excursion to Hastings.

On Monday the Peterborough Separate school will give an excursion over the Grand Junction to the beautiful grove near Hastings. The train will leave the station at 7 a.m. Ample arrangements have been made, and a large number have expressed their intention of going, and the excursion will no doubt be a success.

All the People of the Dominion of Canada are concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung disease by Dr. Souville's Spirometer and instrument, which conveys medicinal properties direct to the seat of disease. Read and judge for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years, now cured; Mr. Geo. Agor, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., Catarrh and Bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Marquette street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma, and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitation in saying Dr. Souville's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of Post and True Witness.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto. Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Try safest, best and cheapest medicine in the world in Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

Price \$1.50. Sold by all druggists, or mailed on receipt of price. For further particulars send for circular. P. O. Box 1,583, J. C. ALLAN CO., 31 John street, New York.

THE CONTENTED MAN, Who is He?

The discussion of this question by an able lecturer was listened to a few evenings ago with interest by a large audience.

We venture to think that one of this class may be represented by the head of a family, who has been instructed to purchase a supply of that essential commodity for the table—TEA.

He has an indefinite idea that the article ought to be cheaper on account of the removal of the duty, but when he finds that he can save 10 cents per lb., instead of 5 he is jubilant.

THE CONTENTED MAN is he who gets the full benefit of the reduction of the duty on his tea for this year by making a saving of, say \$2.00 on a purchase of 30 lbs.

Prove it by inspecting my stock of JAPANESE AND YOUNG HIBONS.

A leading line of sweet and good drawing JAPAN offering at 25 cents, formerly sold at 45 cents.

W. J. MASON

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER, Presiding Elder of the St. Albans District.

Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

St. Albans, Mass., March 16th, 1880. B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is new thing here, but it is good for all that it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, calluses, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unequalled success to our knowledge, for horse as well as man.

Price per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

Daily Evening Review

MONDAY, AUGUST 21, 1882.

THE POWERS AND EGYPT

THE BRITISH THOUGHT FERRING ARAB'S LIVES CLOSELY.

The Suez Canal, which the British and French have been so long in the process of constructing, is now nearly completed. The British and French have been so long in the process of constructing, is now nearly completed. The British and French have been so long in the process of constructing, is now nearly completed.

ALEXANDRIA, Aug. 19.—It is stated that the intention to bombard Aboukir, officially announced on Friday, was either a rumour or was abandoned at the last moment. The fleet and transports went to Aboukir on Saturday afternoon, but at 10.30 o'clock last night quietly steamed eastward, leaving the Achilles and two other vessels in Aboukir bay. These are still anchored in the bay south of Niselon Island, from which point they control the railway to Rosetta, but the canal from Aboukir to Rosetta shows no sign of any landing having been made. The white flag is still flying on the Aboukir forts.

SATURDAY'S SKIRMISH.

ALEXANDRIA, Aug. 19.—In the skirmish yesterday the Egyptian fired shrapnell shells in effectually in the outpost of the 4th Infantry occupying temporarily an entrenchment. The Egyptian infantry then advanced within 800 yards, coming from Kafir-el-Dwar. Some cavalry also appeared from the direction of Aboukir. The Egyptian lines were most irregular, some men being apparently unarmed. The cavalry were also confused by the restlessness of their horses. About five o'clock the British ironclad train sent out a car with a forty-pounder detached, and sent forty guards in advance of the engine. It fired two shells upon the Egyptians, who endeavoured to execute a flanking movement. The forty-pounder after this movement was frustrated, fired towards Kafir-el-Dwar. The Egyptians replied with a shell, which burst between the train and the engine. The train then retired, firing during the retreat. Another shell exploded near the train between the rails, and the train finally retired without damage. The British infantry meanwhile fired from their entrenchments, causing great loss. That of the Egyptian cavalry is estimated at 300. The fighting ceased at sunset.

THE SUEZ CANAL.

PORT SAID, Aug. 20.—Just before sunset last night the gunboat Falcon went out apparently to reconnoitre Fort Ghazal, and anchored at the fort. Two French gunboats, said to bound for Imbassa, entered the canal yesterday. To the astonishment of the Egyptian during the night, the British fleet and transports appeared, and took possession of the canal. At about 3 o'clock this morning the English troops occupied this port. Seventeen transports with troops and five men-of-war, accompanied by Sir Garnet Wolsey and Admiral Seymour arrived in the harbor. The British occupying forces numbered 6,253 rank and file. The Egyptian naval force was dispersed without resistance, and the Government of the Khedive reinstated. The commanders of the Egyptian troops were made prisoners. The officers of the Canal Company and their telegraph offices were occupied by the British. The canal has been closed to merchant vessels, and the dredges in it have been seized. At half-past two this afternoon earthworks were thrown up between the European and Arab quarters of the town.

ARRIVAL OF TROOPS.

ALEXANDRIA, Aug. 19.—The transports Armenia and Galatia, from Bombay, with troops for Egypt, passed Aden on the 17 inst. on the way to Suez. The transports Arab and British Prince with troops have arrived. The transport City of Paris, Ancon, and Capitan, with troops for Egypt have arrived at Malta.

LOOTING BY NATIVES.

ALEXANDRIA, Aug. 19.—Sir Wilford Hunt's house was searched and looted by night by the natives. Seven cases of revolvers and a quantity of ammunition were found in the building.

STILL ANOTHER RECONNOISSANCE.

ALEXANDRIA, Aug. 19.—A reconnaissance made by an armed train this afternoon drew fire from the Egyptian 15-centimetre Krupp gun, but their aim was bad. The British forty-pounders on the armed train replied, and alienated the enemy. The fortifications at Ramleh are being strengthened by armed laborers.

ANOTHER TURKISH PROPOSAL.

CONSTANTINOPLE, Aug. 19.—A special Cab-

net council was held to-day, at which Asyut Pasha was present. It is understood that the Porte is willing to modify the Turkish draft for a military convention.

THE SECOND TURKISH PROPOSAL REJECTED.

CONSTANTINOPLE, Aug. 20.—It is stated that Lord Dufferin, in an interview to-day with Said Pasha, declared that he was unable to accept the Turkish proposal for a military convention even in their new form. Said and Asyut are understood to be strongly in favour of an understanding with England.

TAKING ARAB IN THE REAR.

ALEXANDRIA, Aug. 19.—Sir Garnet Wolsey is now to the east of Aboukir leading the Guards and Rifles to take Arab in the rear. Nine transports are due to-night and to-morrow. It looks as if Sir Garnet Wolsey were trying to finish the whole business before the Indian troops can get to work. Reports from the interior show that Arab is making the whole population work at the earthworks, and that he declares that Kafir-el-Dwar will be another Plevna.

ISMAILIA OCCUPIED BY THE BRITISH.

ALEXANDRIA, Aug. 19.—This morning Ismailia was occupied by the British, and the rebel troops driven from Nefch. The British have possession of the telegraph line from Port Said to Suez. Sailors are landing and disarming the natives, who offer no resistance. The gunboats Des and Den have entered the canal. It is said Admiral Hewitt has stopped the canal traffic.

THE DESTINATION OF THE FLEET.

ALEXANDRIA, Aug. 19.—It is officially stated that the destination of the fleet is Ismailia.

THE FANATIC ASCENDANT.

CONSTANTINOPLE, Aug. 19.—The Sultan is understood to be more averse than ever to the issuance of the proclamation against Arab and the acceptance of the proposal for a military convention. The fanaticism for the moment is the ascendant, and the growing sympathy of the people here with Arab is daily causing the palace increased anxiety. Several arrests have already been made of persons slightly too outspoken in support of Arab. Islamism religious preaching has been prevalent in the mosques, especially in Santa Sophia, during Ramadan, or the annual Mohammedan Lent, which is now being observed.

ARAB'S ENTERPRISING.

ALEXANDRIA, Aug. 21.—Arab is constructing extensive earthworks in the direction of Aboukir, and also intends charging Chief Pasha with the formation of a ministry. He says:—"In a troubled time like the present the direct action of the sovereign authority should be more sensible and efficient. I shall therefore use the right to assemble and command the Ministers under my own presidency, as Supreme Chief of the Egyptian force. I also intend to render the command effective without restricting the power which the Minister of War holds from me."

ANOTHER OF THE PORTE'S TRICKS.

CONSTANTINOPLE, Aug. 21.—The Porte refuses to permit the exportation from Turkey of mules for British service in Egypt. Lord Dufferin says it is a contravention of the treaty of commerce, and has addressed a strong protest to the Porte, stating that Turkey will be held responsible for heavy damage.

THE SKEET OUT.

ALEXANDRIA, Aug. 19.—The secret of the destination of the first division and the ironclads was well kept until Sunday. It was the general opinion that Aboukir would be bombarded, but it is now an open secret that the war vessels have all gone to Port Said. The second battalion of Highland Light Infantry and the first battalion of Irish Rifles have landed and proceeded to Ramleh to join General Alton's division.

A REBEL RUSE.

ALEXANDRIA, Aug. 19.—Within the last few days one of Arab's officers visited Fort Meka, and proposed to surrender with a large body of men. He promised to return on Monday, and make known the decision of his men, whether or not they would accept the terms offered. It is believed this proposition of the officer was only a ruse.

ANOTHER POINT OCCUPIED.

LONDON, Aug. 21.—Admiral Seymour telegraphs from Ismailia that Nebuch was occupied without opposition, the enemy having fled.

PROCLAMATION TO THE NATIVES.

PORT SAID, Aug. 21.—The fleets and transports entered the canal last evening. Before their departure General Wolsey posted a proclamation in the Arabic tongue, declaring that those who respected the authority of the Khedive would not be molested, and that those who rebelled would be treated as rebels.

A CONFLICT WITH THE ENEMY.

LONDON, Aug. 21.—Admiral Hewitt telegraphs from Suez at 4 o'clock this morning:—"Yesterday Capt. Hastings, in command of seamen and marines of the gunboat Sea Gull and Monrovia, assisted by a company of Highlanders under Major Kelsey, proceeded to Shaluf by way of Matruh (Gebel), and found 600 of the enemy standing their way behind the station of the English force. They landed and defeated them, taking 45 prisoners, and a small cannon, and a quantity of ammunition and stores. The loss was two Highlanders dressed and two seamen wounded. The enemy lost 100 killed and wounded. The bank of the Freeport Canal at Shaluf was cut by the enemy, but it has been repaired. It is now guarded. The Brigade re-embarked in force at the same time and in the same direction. The transport Marston Hall with the 70th Bengal Infantry, has arrived at Suez. The French transport Shamrock entered the canal this morning."

STERILISING.

REPAIRING A MILL.—The News-Argus says that extensive repairs are now being made to McDougall's mill, under the direction of Mr. Hope, millwright, of Peterborough. The stones and entire running gear have been taken out, and are to be thoroughly overhauled and put in a first-class shape. Additions will be made in the shape of a new set of stones, a cleaner and purifier, and other improvements, besides which a new belt connection is to be made with the engine. The mill will be again in operation in three or four weeks.

Another Big Fire at Quebec.

QUEBEC, Aug. 19.—The fire in St. Roch's originated shortly after midnight in Arago street in the packing case manufactory of Concedor F. W. Roy. The cause is unknown. Despite the exertions of the brigade the flames quickly burnt all before them, destroying timber, and Mr. Roy's soap and candle factory, containing expensive machinery and stock. The factory of Mr. Richards, manufacturer of leather toys, packing cases, etc., was also destroyed, as well as the residences of Messrs. Chevreton, Ruel, Drolet and Cole, shoemakers. The amount of damage will exceed \$40,000. Roy's loss \$30,000, insurance only \$7,000.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.
A SHIPWRECKED CREW.

LONDON, Aug. 21.—The crew of the last steamer Kira, in the retreat from France Jost land, after crossing eight miles of clear water encountered ice. After that sometimes for days the boats were hauled up on floes. No water could be seen to enable them to proceed south, dragging the boats over the ice being out of the question on account of the roughness of the ice. After six weeks of almost constant toll water was reached and the course set for Nova Zembla. The shipwrecked crew were very fortunate in finding abundance of game.

RUSSIAN INTRIGUES.

LONDON, Aug. 21.—The situation in Roumania is becoming very dangerous. The Russians have apparently commenced their old intrigues. Russian officers are frequently found on the lower Danube studying the passages of the river, and noting the Roumanian garrisons. Moldavia and the Dobruza are the chief headquarters of Russian intrigues.

AMERICAN.
A STRIKE ENDED.

BLOOMING, Ill., Aug. 21.—The strike of the Chicago shop men, caused by the reduction of the working time, has been ended by the company acceding to the request of the men.

A CLOSE CALL.

NEW YORK, Aug. 21.—The bulkhead plates of the Hudson River tunnel gave way at New York and yesterday, and the water rushed in and filled up the heading. Sixteen workmen barely escaped through the air lock. A minute's less warning and these would, in all probability, have been a repetition of the accident on the Jersey City side.

A PITCH-IN.

BALEST, Pa., Aug. 21.—Yesterday on the Pennsylvania railway an engine attached to a freight train ran into another freight train standing still. A dozen men were thrown off the train, and their contents strewn all around. The engineer and fireman were badly injured. Three trains who were standing a ride are believed to be fairly hurt.

TARIFF COMMISSION.

LOUISIANA, Aug. 21.—About eight witnesses besides the appraisers and examiners of the custom house of New York have already appeared before the Tariff Commission. Probably eighty letters have been read in open session. Twenty-one witnesses asked for higher duty, twenty-three asked for the present rates to be reduced, and only seven asked either for a slight reduction of rates or for the abolition of the duty on certain articles. Fourteen advised a general re-classification, and others merely appeared to give general information. The Commission has been asked by witnesses to abolish the duty on less than half a dozen articles of great value or general use.

PITTSBURGH STRIKES.

PITTSBURGH, Aug. 21.—The coal miners' strike is now virtually ended. The workmen lost \$250,000 in wages, the employers lost all their summer contracts and the railroads lost in freight \$300,000. It is stated that the amalgamated association is short of funds to sustain the striking iron workers.

STRUCK AND KILLED.

NEW YORK, Aug. 21.—Patrick Hughes was knocked down on the street on Saturday night by an unknown negro by mistake for a party who had struck the negro. Hughes soon died. The negro escaped.

FATALLY SHOT.

PORT JONES, N. Y., Aug. 21.—Phillips Egin, yesterday fatally shot Jennie Mandaville, for taking an apple from Egin's orchard. Egin died. He shot the hand of a tramp for trespassing on his property four months ago and looked himself up for three months in a garret to escape a judgment of \$3,000, although he is one of the wealthiest men hereabouts. Excited people are now scouring the woods for him.

STRUCK BY A TRAIN.

CATARAUGUS, Pa., Aug. 21.—A train ran into a wagon on Saturday night, killing John Steward and Willoughby Selger and injuring Jacob Stockenberger.

RIVERMAN DEAD.

TROY, Aug. 21.—Captain Frank Teon, one of the oldest river men in this vicinity, died yesterday.

A WITNESS DROWNED.

TROY, Aug. 21.—The body of Joseph Eglin, who left his home in west Troy on Friday, saying that he would not be seen again alive, was found in the canal yesterday. He was considered an important witness in the Mosher-Burnham murder trial.

PORT HOPE.

COTTON MILL.—The News says that from a conversation with Mr. Seth S. Smith we learn that the prospects for the establishment of the cotton factory here are exceedingly favourable. Mr. Young has met with promising success in Montreal and Toronto, both as regards the stock being subscribed and the appointment of personal directors.

A SNAKE STORY.—The Guide says that Mr. John Leach, father of James Leach, our school janitor, was a short time ago at Mr. Wm. Symons, Clarke, while splitting a round stick of wood about four inches through in the very centre of which was a live snake about a foot in length. There was no visible opening in the stick and only a place for the snake to lie in. The question is, how did the snake get there, and what kept it alive?

PELLA. Get your mouth full by using TRAMWAY, the new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent sample.

HOW IT WORKS.—The purifying and healing properties of Dr. Fowler's Extract of Wild Strawberry impart a healthy tone to the diseased mucous surfaces of the Stomach and Bowels. Its cooling, soothing properties counteract pain, its antiseptic properties correct canker and foul humor, and its tonic astringent nature corrects all exhaustive discharges—Such as Dysentery, Diarrhoea, Cholera, Malaria, and Summer Complaints generally.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 5 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money. If the treatment does not effect a cure. See advt. in another column.

Patents obtained for the inventor in the SCIENTIFIC AMERICAN. This large and splendid illustrated weekly paper, 30¢ a year, shows the progress of Science, is very interesting, and has an enormous circulation. Address MURPHY & CO., Patent Solicitors, Publishers of SCIENTIFIC AMERICAN, 37 Park Row, New York. Hand Book about Patents sent free.

The Midland Rolling Stock Company, (Limited).

NOTICE is hereby given that a general meeting of the Shareholders of the above Company will be held at the office of the Secretary, in the Town of Peterborough, on THURSDAY, the 24th day of AUGUST, instant, at three o'clock in the afternoon, for the purpose of considering a By-law passed by the Directors of the Company, for increasing the Capital Stock of the Company to the sum of five hundred thousand dollars. Dated at Peterborough the Twelfth day of August, A. D. 1892.

By order, H. BEAD, Secretary.

INCREASE

YOUR CAPITAL.

Those desiring to make money on small and medium investments in grain, provisions and stock speculations, can do so by operating on our plan. From May 1st, 1891, to the present date, on investments of \$10.00 to \$1,000, cash profits have been realized and paid to investors amounting to several times the original investment, and leaving the original investment making money or payable on demand. Explains every detail and statements of Prof. W. sent free. We want responsible agents, who will report on crops and introduce the plan. Liberal commission one paid. Address: FLEMING & SHERMAN, Commission Merchants, Major Block, Chicago, Ill.

TUESDAY, AUGUST 22, 1892.

THE WAR IN THE EAST.

THE BAYONET USED TO CARRY A REBEL

REINFORCEMENT.

An Advance on Cairo Projected—The Egyptian troops moving from Khartoum—Gen. Wolsey arrives at Ismailia.

DE LINDERS RETURNED.

PARIS, Aug. 21.—In consequence of the incessant protests of De Lesseps, the French Government have sent him an official communication inviting him to employ prudence and circumspection in his language.

RUSSIAN WAR VESSEL FOR ALEXANDRIA.

St. Petersburg, Aug. 21.—The corvette Shchellakoff left yesterday. It is said, for Alexandria.

REINFORCING FIRE.

ALEXANDRIA, Aug. 21.—The outpost at Ramleh made a demonstration this afternoon, and some artillery shots were exchanged. The English met with no loss.

ARABIAN PREPARING TO MOVE.

ALEXANDRIA, Aug. 21.—It is announced from Ramleh that the enemy is moving up trains to Khartoum, probably with the intention of withdrawing the troops from there.

LOOKING AFTER SPIES.

ALEXANDRIA, Aug. 21.—The person arrested for communicating with Arabi is Hanafi Effendi, Arabi's director general of railways. Other arrests on the same charge are impending.

ARABI'S INTENTION.

ALEXANDRIA, Aug. 22.—It is reported that Arabi will concentrate his forces at Damieh, and that he has an entrenched camp at Tantah, to which place he will remove his headquarters. The information comes from Arab sources.

GENERAL WOLSELEY AT ISMAILIA.

ISMAILIA, Aug. 21.—Admiral Hoskins and Seymour arrived here yesterday evening in a launch. Gen. Wolsey arrived to-day. A considerable number of troops have already landed. Mahomed Fahmy, reported arrested in the night quarter at Ismailia, came yesterday to the city, accompanied by two officers, and surrounded. General Wolsey is now reconnoitering at Nefeh.

ALL QUIET AT PORT SAID.

PORT SAID, Aug. 21.—All the shops are open. The Arabs fraternize with the Europeans. The invading force here is estimated at 7,000.

RETURNING TO ISRAEL.

CONSTANTINOPLE, Aug. 21.—Said Pasha has abandoned the idea of reconvoicing the conference. He promised Lord Dufferin he will strongly urge the Sultan to accept the conditions of the military convention, which the British declare indispensable, and the principal one of which is that Turkey shall not undertake any operation in Egypt without the assent of the British commander.

UNFAVORABLE COMMENTS.

PARIS, Aug. 21.—The majority of the French papers comment very unfavorably on the action of the British in occupying the Suez Canal.

INDIAN TROOPS FOR EGYPT.

BOMBAY, Aug. 22.—The 63rd Regiment of Infantry and a Battery of Artillery sail to-day for Egypt.

THE SUEZ CANAL.

LONDON, Aug. 21.—An official telegram from Port Said announces that the Suez Canal Company has resumed the working of the canal.

A SKIRMISH AT ISMAILIA.

LONDON, Aug. 21.—General Wolsey telegraphs that there has been a slight skirmish at Ismailia.

CARRIED AT THE POINT OF THE BAYONET.

SUEZ, Aug. 21.—General McPherson, commander of the Indian contingent, and his staff, arrived at Suez this morning. The Highlanders carried the entrenchments at Shaluf at the point of the bayonet. In the engagement the enemy lost about 100 killed and wounded. The banks of the fresh water canal at Shaluf were cut by the enemy, but it has been repaired. It is now guarded. The brigade reconnoitered in force at the same time and the same direction.

THE ENGAGEMENT AT SHALUF.

LONDON, Aug. 21.—Admiral Hewett telegraphs from Suez as follows at four o'clock this morning:—"Yesterday Captain Hastings, in command of the seamen and marines of the

gunboats Sea Gull and Mosquito, assisted by 200 Highlanders under Major Kelsey, proceeded to Shaluf by way of the Maritime canal, and found 600 of the enemy strongly entrenched behind the station. The English forces landed and defeated them, taking forty-five prisoners, a small cannon, and a quantity of ammunition and stores. Our loss is two Highlanders drowned and two seamen wounded."

A PROJECTED ADVANCE ON CAIRO.

ALEXANDRIA, Aug. 21.—Arabi's troops are believed to be in strong force at Maxama, a town between Ismailia and Zagazig, where he is reported to have 10,000 men and 12 Krupp guns in a strongly entrenched position. Unusual activity prevailed in Arabi's camp at Kafir-el-Dwar, and it is credibly reported that he is moving his personal headquarters to Tantah, where there is an entrenched camp. This point lying nearly equidistant from two of the British bases of operation, viz., Alexandria and Ismailia, his action would seem to indicate a resolution on the part of the rebel leader to make a determined resistance on both lines by meeting his army between Tantah and Zagazig, leaving a sufficient force to hold the entrenchments at Kafir-el-Dwar against the British column moving from Alexandria. The operations at Shaluf and its vicinity yesterday evening are believed to point to a projected advance on Cairo by a column moving from Suez, in which movement the troops coming from India would be employed.

STRENGTHENING HIS POSITION.

ALEXANDRIA, Aug. 22.—Arabi is erecting fresh works and is strengthening his position.

NO INFANTRY FIRE.

ALEXANDRIA, Aug. 22.—The fact that the demonstration at the Ramleh outposts yesterday did not draw any infantry fire, is considerably commented upon as possibly showing that the withdrawal of Arabi's troops had already commenced.

PERSONAL FALLS.

MIL. ACCIDENT.—The Gazette says that on Wednesday forenoon a Frenchman named Paul Sova, who was working at the edge in R. C. Smith's mill, got his head on the palm of one of his hands close to the base of his thumb. Dr. Lowe stitched up the wound, which he thinks will not prove serious, as the bone was uninjured, the teeth of the saw having barely reached it.

A "WHAT IS IT?"—On Monday last Mr. Samuel Johnson, merchant, of this village, found in a hen's egg a queer object which looked like an immense tadpole with a swollen head and rather less than usual allowance of tail. It was nearly as large as a small marble, but what it was or whether or not it had been alive it is impossible to tell. Of the many persons who saw it some of the opinion that it was a snake's egg, which idea was no doubt based upon the fact (or rumour) that a very small snake was once found in an egg laid by a hen that resided in Fenslon Falls or its vicinity.

A MESSAGE FROM THE DEAD.

The London Daily News says:—A Plymouth correspondent says a strange incident is reported in that town. On Tuesday evening a young man, residing at Davenport, called upon the editor of a local paper and begged to be informed if any telegram had been received giving the names of Englishmen killed during the day in Alexandria. He was informed that no such message had been received. He mentioned that during the afternoon the mother and wife of a petty officer named Revington, serving in Alexandria, had what they regarded as "a token of his death." They were sitting together in their house when they heard, or thought they heard, the voice of the absent son and husband say "Mother" three times. With forebodings upon them, the brother was despatched to the nearest newspaper office, with the result indicated. On Wednesday the relatives of Mr. Revington received a telegram from the Admiralty to the effect that he was shot in the streets of Alexandria on Tuesday, while serving on police duty.

The Lien Law.

The dullness of the building trade in Toronto, there is ground for believing, is due in great part to the additional stringency which was given to the law of mechanic's liens, last session of the Ontario Legislature. This measure, designed to afford a sort of paternal protection to mechanics in the building trades, is having economically a very different effect, if it be true that its mere existence has largely diminished the amount of building in Toronto and other places. Should the mechanics become convinced of this, it is probable that they will ask for the severity of the law mitigated. The extent of the danger to money lenders is probably magnified in their own imaginations; but the effect is the same as if the danger was greater. At least seventy-five per cent. of all the buildings erected in our cities are due to borrowed capital, and anything which, checking the movement of this capital, greatly diminishes the amount of building must be injurious to mechanics as well as to others interested. Indeed, the blow must be felt more severely by the wage-receiving class than by any other; for enforced idleness means to it a drying up of the source of existence, while to others it means only a suspension or at the most a loss of profit. —Monetary Times.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See advt. in another column.

Mothers! Mothers! Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and is used in the United States. Sold every where 25 cents a bottle.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

NIHILISTS AT WORK.

COPENHAGEN, Aug. 22.—It is reported that the white horses which were being trained for the Czar's coronation have been killed by Nihilists.

THE GRAY CASE.

DUBLIN, Aug. 22.—The corporation of Dublin has passed a resolution of sympathy with Mr. Gray. The resolution describes Mr. Gray's imprisonment as arbitrary and oppressive, and expresses the opinion that proceedings for contempt should be regulated by statute. The Conservative members of the corporation were absent from the meeting which passed the resolution.

SHOT BY MOONLIGHTERS.

TRALEE, Aug. 22.—A farmer near Killarney named Leach was last evening shot dead by moonlighters. Leach was dragged from his bed by the armed party.

SMALLPOX.

CAPE TOWN, Aug. 21.—The smallpox is spreading in an alarming manner, and the mortality is great.

AMERICAN.

UNSUCCESSFUL LOAN.

LITTLE ROCK, Aug. 22.—The time for receiving bids for a \$100,000 loan to the State expired yesterday. No bids were made.

SHOT BY AN OFFICER.

FORT LEROY, Aug. 22.—During a slight disturbance here on Sunday night, officer Robert Warren needlessly shot and killed John Leachy. The crowd then threatened to lynch Warren, who kept them back with his revolver and escaped in a row-boat. His whereabouts is unknown.

NEGRO HANGED.

SAN ANTONIO, Texas, Aug. 22.—Ward the negro who was hanged here yesterday, for outraging a white girl, had lost a leg and when hanged held a crutch in his hand. He spoke twenty minutes on the scaffold, denying the justice of the sentence. There were no religious exercises.

WRECKERS AT WORK.

LITTLETON, N. H., Aug. 22.—The White Mountain train on the Boston, Concord and Montreal road, between North Haverhill and Woodsville, yesterday struck an obstruction placed on the track by wreckers, whose object it is supposed to have been robbery. The engine and baggage and smoking cars went down the embankment. The parlor car stood on the embankment at an angle of forty-five degrees. The lamps were broken and the oil scattered all over. Nobody was seriously hurt. There were thirty passengers on the train.

"KING OF IRELAND."

MILWAUKEE, Aug. 22.—William Fitzpatrick, claiming to be the King of the Throns of Ireland, has been writing to Mr. Gladstone, urging his "royal sister" Victoria to renounce the title to his country. He does not appear to be a crank.

THE SUGAR DUTIES.

NEW YORK, Aug. 22.—A suit has been brought against the Collector by persons interested in the importation of St. Omer sugar for the return of the duties paid. The basis of their claim is that the Sandwich Islands are allowed to import sugar duty free and our treaty with Denmark provides that her products and those of her possessions shall enter the United States upon the same terms as the products of the most favored nations. The amount involved in the suit is \$40,000.

POISONED BY MILK.

TRIO, Aug. 22.—The members of three families residing at Oakwood have been poisoned by milk given by a diseased cow. All are seriously ill but will be saved. Suits have been commenced against the owner of the cow, who, it is alleged, knew the animal's condition.

ELOPERS CAPTURED.

SONORA, Cal., Aug. 22.—Alfred Walcott, a young musician, and Mrs. Ferdinand Levy, wife of a wholesale dealer of Berlin, who eloped with \$70,000 belonging to the firm, have been captured here. As there is no reward offered, and as Levy is in New York for the purpose of attaching money held by the bank to the credit of the fugitives, it is probable that they will not be held. Levy says it is the money, not his wife, that he wants.

HILL'S SUCCESSOR.

WASHINGTON, Aug. 22.—The Senators and officials who attended Senator Hill's funeral have returned. They say that the man most talked off as Hill's successor is ex-Senator Gordon. There is a strong feeling, however, in favor of Alexander H. Stephens, and Speaker, an independent Congressman, is also mentioned.

DANGEROUS AMUSEMENT.

NEW YORK, Aug. 22.—John Barton, aged 15, and several other boys amused themselves on Sunday by throwing each other into the East River from the dock. Barton was fatally thrown in and drowned.

STEAMER IN DANGER.

WILMINGTON, Del., Aug. 22.—The steamer Republic, for whose safety there has been much anxiety all night, is now anchored off Wilmington creek with a tug alongside.

UNTYING THE KNOT.

BROOKLYN, Aug. 22.—Yesterday Judge Bernard granted a decree of absolute divorce to a lady here. The entire legal proceedings occupied thirteen minutes.

LARGE FIRE.

NEW YORK, Aug. 22.—A fire in Haines' extensive piano factory on 71st Street last night did damage to the amount of \$25,000.

AN ARCHBISHOP SHOT.

MELBOURNE, Aug. 21.—Archbishop Gould, of the Roman Catholic diocese here, has been shot at and slightly wounded. His assailant has been arrested. His name is O'Farrell, and he is a brother of the man who attempted to assassinate the Duke of Edinburgh in a crowd in March, 1868.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electric-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

FRANKS.—Get your mouth full by using FRANKS' new wonder for the teeth and breath. Brush vigorously. See directions. 5 cent sample.

DAILY EVENING REVIEW.

Daily Evening Review

WEDNESDAY, AUGUST 23, 1892.

THE WAR IN THE EAST.

THE BRITISH HAVE AN ENGAGEMENT WITH THE ARABY AT SERAPHEUM.

Rebel Reinforcements at Kafir-el-Dwar. Native Abandoning Positions in Disorder—A Desperate Engagement Nearly Expected—The Campaign to be Short.

ASSISTANCE FOR ARABI.

TRIPOLI, Aug. 22.—It is stated that an Arab tribe holding territory eastward of Benghazi is preparing to assist Arabi. It is said that a powerful chief is at the head of the national movement in Tripoli, and favours assisting Arabi.

DECISIVE WORK NECESSARY.

LONDON, Aug. 22.—The War Office is impressing upon General Wolsey the necessity of a short decisive campaign in Egypt, in order to expel the British troops from the swamps of the Nile, and to dislodge the waters of the various canals in Egypt.

LOOKING INTO THE FUTURE.

PARIS, Aug. 22.—La France devotes a leader to pointing out that England's action with regard to the Suez canal may one day be used against her by the United States in support of their claims to the exclusive control of the Panama canal.

A VISIT TO ABOUKIR.

ALEXANDRIA, Aug. 22.—The gunboat Condor went to Aboukir this morning. She returned here this evening. She reports the Achilles the only man-of-war in the bay, the Sultan having gone to Damietta. Flugs of truce were flying from all the Aboukir forts, which appeared to be almost deserted.

BELOUINS PILLAGING.

ALEXANDRIA, Aug. 22.—A party of fifty Bedouins crept up last night and pillaged two villages in the vicinity of Maki. They carried off three watchmen with them.

A DESERTED VILLAGE.

SUEZ, Aug. 22.—Four hundred men of the 72nd Regiment left here yesterday morning for Serapeum. When they reached that village they found it deserted and the railway stock carried off. From the end of the Bitter lakes the enemy were seen in large numbers three miles off, retreating northwards. The Highlanders, who participated in the fight at Shaluf on Sunday, have occupied the freshwater canal lock at Serapeum, an important position from which the enemy had retreated. The prisoners taken in the engagement state that Arabi forced them to retreat, threatening to shoot them if they refused. They say the chief officers fled soon after the action began. The success of the British forces at Shaluf and the energy displayed by them in searching the coast towards Ismailia, has thoroughly demoralized the enemy, and the opposition on this side of the canal may be considered ended.

THE TROOPS LANDING.

ISMAILIA, Aug. 22, 9 a. m.—The landing of the troops from the transports proceeded actively all night, and continues to-day. The orderly behaviour and general bearing of the soldiers are the admiration of the entire population.

M. DE LESSEPS SATISFIED.

ALEXANDRIA, Aug. 22.—General Wolsey visited M. de Lesseps yesterday and explained the action of the British in regard to the Suez canal. He said everything would be over in a few days, but that the English must use the canal for the present. M. de Lesseps expressed himself as fully satisfied with General Wolsey's explanation, and said he regretted there had been any misunderstanding on the subject.

AN ENGAGEMENT IMMINENT.

PORT SAID, Aug. 22.—Arabi Pasha with a strong force is in an entrenched position near Makama, within seven miles of the British lines. An engagement may be expected to occur within a few hours. The telegraph line between Cairo and Constantinople is again cut.

A SIGNIFICANT VISIT.

CONSTANTINOPLE, Aug. 22.—The Sheikh-ul-Islam and the Minister of Finance visited Lord Dufferin to-day and delivered a message from the Sultan. The visit has caused a sensation.

TELEGRAPH LINES CUT.

CONSTANTINOPLE, Aug. 22.—The telegraph lines between here and Cairo have been cut by the British. El Yalt has been suppressed for publishing news hostile to England.

ARABI'S MOVEMENTS.

ALEXANDRIA, Aug. 22.—The smoke of numerous trains is again visible behind the enemy's lines. The activity of Arabi has increased in a manner indicating a complete change in his plans. In answer to our reconnaissance to-day, his guns opened fire from various directions, showing that during the night the enemy's artillery had been much strengthened. A new battery, armed with six guns, has been placed in position. It now seems that at first a scare was caused by the discovery that the fleet had gone to the canal, and Arabi withdrew a great proportion of his infantry to Damamhour; but last night, on considering that some time must elapse before an advance can be made from Ismailia with sufficient force to carry his defence on the line up to Zagazig, he again advanced to his old position, which he hopes to hold until the rise of the Nile will enable him to flood the country. The report that Arabi has withdrawn a considerable number of his troops from our front is incorrect. On the contrary, the enemy's trains brought in more cavalry. It is stated officially that about two miles out on the road to Kafir-el-Dwar the enemy have thrown up new earthworks, which are stronger than those we actually face.

ENGAGEMENT AT SERAPHEUM.

ALEXANDRIA, Aug. 22.—Yesterday afternoon the 72nd regiment engaged the enemy at Serapeum and repulsed them. Two of our men were killed and six wounded. The enemy lost 100 men and 4 guns.

lines. The activity of Arabi has increased in a manner indicating a complete change in his plans. In answer to our reconnaissance to-day, his guns opened fire from various directions, showing that during the night the enemy's artillery had been much strengthened. A new battery, armed with six guns, has been placed in position. It now seems that at first a scare was caused by the discovery that the fleet had gone to the canal, and Arabi withdrew a great proportion of his infantry to Damamhour; but last night, on considering that some time must elapse before an advance can be made from Ismailia with sufficient force to carry his defence on the line up to Zagazig, he again advanced to his old position, which he hopes to hold until the rise of the Nile will enable him to flood the country. The report that Arabi has withdrawn a considerable number of his troops from our front is incorrect. On the contrary, the enemy's trains brought in more cavalry. It is stated officially that about two miles out on the road to Kafir-el-Dwar the enemy have thrown up new earthworks, which are stronger than those we actually face.

ENGAGEMENT AT SERAPHEUM.

ALEXANDRIA, Aug. 22.—Yesterday afternoon the 72nd regiment engaged the enemy at Serapeum and repulsed them. Two of our men were killed and six wounded. The enemy lost 100 men and 4 guns.

A RECONNOISSANCE AT KAFIR-EL-DWAR.

ALEXANDRIA, Aug. 22.—This afternoon about 600 Highlanders made a reconnaissance at Kafir-el-Dwar. Simultaneously the forty pounders at the Waterworks hill opened fire. The Egyptians replied after the third round. There was no infantry firing. The British are bringing more heavy guns into position about 150 yards in advance of their present position in the Ramleh lines.

MOVEMENTS OF TURKISH TROOPS.

CONSTANTINOPLE, Aug. 22.—Two Austrian Lloyd steamers with Turkish troops passed Rhodes steering south-east.

THE BRITISH POSITION.

ALEXANDRIA, Aug. 22.—Natch forms our advance post. From thence a chain of sentries extends around Ismailia. Nearest the camp of the enemy is Ramman, the next is Foly, fourteen miles away, while their main position is 34 miles distant. General Hamley's division has been ordered to come here at once. A company of engineers is repairing the railway to Natch. They are supplying the locomotives with a quantity of coal captured from the enemy. The household cavalry have now landed.

GOING TO ALEXANDRIA.

CONSTANTINOPLE, Aug. 22.—Halid Pasha, formerly Egyptian Minister of Finance, on the invitation of the Khedive, started for Alexandria by a special steamer.

THE NILE OVERFLOWING.

ALEXANDRIA, Aug. 22.—The Nile is rising rapidly and will soon overflow its banks. An inundation at low points has commenced. Riaz Pasha has arrived.

THE PORT'S OBSTINACY.

CONSTANTINOPLE, Aug. 22.—Lord Dufferin received no reply to the protest against the presence of the Porte of the exportation from Turkey of munitions. If the order is not at once settled a stronger protest will be lodged.

THE ENEMY DEMORALIZED.

LONDON, Aug. 22.—The Telegraph's correspondent at Serapeum does not mention the reported fight at Serapeum. The enemy were too disorganized to fight.

THE LANDING OF THE TROOPS.

ALEXANDRIA, Aug. 22.—The disembarkation of the troops is expected to be complete tomorrow.

THE ENEMY'S MOVEMENTS.

ALEXANDRIA, Aug. 22.—It is said that the natives are now returning and resuming work. It is reported that 3,000 of the enemy with guns have taken up a position ten miles from Ismailia.

EGYPTIAN TREACHERY.

ALEXANDRIA, Aug. 22.—The Austrian gunboat Nautilus, from Port Said to Alexandria, passed Aboukir on Monday. The commander, seeing the white flag above the forts, supposed that they were in the possession of the British and sent a boat with officers and twelve men to the forts, who were made prisoners by the Egyptians.

THE EGYPTIANS RETREATING.

ISMAILIA, Aug. 22.—Since the engagement at Shaluf the enemy has left every position held between Suez and Ismailia, and are retreating in disorder towards Leage. The Indian cavalry will come on here.

ARABI BURNING VILLAGES.

ALEXANDRIA, Aug. 22.—Fires were observed last evening in the neighborhood of Aboukir and Kafir-el-Dwar. It is believed that part of the Egyptian force is burning the villages while they are preparing to retreat.

MIDNIGHT TELEGRAMS

CABLE.

SENTENCED.

DUBLIN, Aug. 22.—In the Commission Court to-day Patrick Walsh was found guilty of the murder, committed in April 1881, of Martin Lyden, and was sentenced to be hanged.

THE HYNES JURY.

DUBLIN, Aug. 22.—Lord Spencer has declined to hold an inquiry into the conduct of the jury who convicted Hynes, but intends to examine the affidavits submitted in the case in order to ascertain sufficient grounds exist for interfering with the due course of the law.

THE EVICTED TENANTS.

DUBLIN, Aug. 22.—Archbishop Croke, of the diocese of Cashel; Bishop Dorrion, of Down and Connor; Bishop Duggan, of Cloyne; and Bishop McCormack, of Achonry, have written in approval of the efforts to establish a fund for the benefit of evicted tenants. Archbishop Croke promises a subscription of £50.

THE BURMESE MISSION.

SIMLA, Aug. 22.—The draft of the treaty negotiated between the Indian Government and the Burmese Mission has been rejected by the Burmese Government, who object to the clauses providing for the abolition of monopolies and the maintenance of an armed guard at the British residence at Mandalay. The negotiations have been finally closed and the Burmese Mission leaves in a few days for home.

ACCIDENT IN A THEATRE.

CONSTANTINOPLE, Aug. 22.—A gallery at the Hamidie Theatre fell last evening during the performance. One hundred and fifty persons were injured; some fatally.

RUSSIAN INTRIGUES.

VIENNA, Aug. 22.—The Prince of Montenegro will leave for St. Petersburg on Thursday. It is believed the visit is made at the invitation of the Czar, and that important results will follow.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

A HEAVY GALE.

LONDON, Aug. 23.—There was a heavy gale throughout England to-day.

THE ARCTIC VOYAGERS.

ST. PETERSBURG, Aug. 23.—Berry, who commanded the steamer Rodgers and Melville, of Keasnett, will be received by the Czar this afternoon. They start for home to-morrow.

AMERICAN.

A NEGRO KILLS HIS FAMILY.

VINALIA, California, Aug. 23.—Yesterday Ben Harris, colored, mortally shot his wife, killed his step-daughter, aged 14, and severely wounded another step-daughter, aged 10, with an axe. Harris escaped. Thirty men are in hot pursuit.

BODY STOLEN.

PHOENIX, N.Y., Aug. 23.—Two men who were passing through the cemetery at Pannelleville yesterday saw the grave of Merriek Corey, a prominent free mason who died six years ago, partly open. When the coffin was uncovered it was found that the body had been stolen. Corey's masonic pin remained in the coffin.

A LAWLESS LAWYER.

ST. LOUIS, Aug. 23.—James J. McBride, a well known criminal lawyer, yesterday probably fatally stabbed John Sharkey, a printer, with whom he was quarrelling. McBride several times previously assaulted people in a like manner.

INDEPENDENT MOVEMENT.

PHILADELPHIA, Aug. 23.—Ex-Senator Cameron yesterday said that all free trade organizations of the country, especially those of New York city, were openly supporting the independent movement in Pennsylvania.

THE PRESIDENT'S POPULARITY.

NEW YORK, Aug. 23.—Ten thousand people assembled at the depot yesterday to see the President, who passed through en route to Newport.

WELCOMING THE PRESIDENT.

NEWPORT, Aug. 23.—A crowd met the president yesterday with cheers and waving of handkerchiefs.

EXTENSIVE FIRE.

KENNEBUNK, N.Y., Aug. 23.—This morning the Nollie House and thirty buildings were burned, comprising stores and dwellings, located on Front, Main and Vine streets.

A FAILURE.

PHILADELPHIA, Aug. 23.—The liabilities of James Woodward & Sons, manufacturers of cotton and yarns, who have failed, are estimated at \$150,000.

THE SOUTHERN WAR.

LIMA, Aug. 23.—The Chilianes retreating from the interior to Lima, burned six undefended villages, rendering three thousand people homeless.

FIGHTING THIEVES.

FAIRVILLE, Ark., Aug. 23.—A fight took place yesterday between the Sheriff's posse and a gang of horse thieves. Webb, one of the Sheriff's men, was killed. The thieves escaped.

ANOTHER FIRE.

KENNEBUNK, N.Y., Aug. 23.—A later fire broke out at about one o'clock this morning. Bedell's paint shop on Main street and several prominent buildings were destroyed. Loss, \$100,000, mostly insured.

OSWEGO REGATTA.

OSWEGO, N.Y., Aug. 23.—The regatta of the Oswego Yacht Club yesterday resulted as follows:—Gray, Trenton, 1st; Grace, Belleville, 2nd; Sours, Oswego, 3rd; Ella, Oswego, 4th.

IRONWORKS BURNED.

SYRACUSE, Aug. 23.—The main mill of the ironworks were burned last night. Loss, \$300,000; insurance \$54,000. 280 operatives are thrown out of employment.

SUICIDE.

AUBURN, N.Y., Aug. 23.—Lena Kahal, a pretty girl 21 years of age, committed suicide by drowning. Jealousy was the cause.

MURDERERS CAPTURED.

CONGO, Ireland, Aug. 23.—The police have found three eye-witnesses to the massacre of the Joyce family. They have positively identified ten of the prisoners, and another witness has identified four of the ten as having been overheard plotting the murder. The police believe the tragedy to be the direct outcome of the secret societies, with which the West of Ireland is permeated. The witnesses are under police protection, and their names are withheld. It is believed the trial of the prisoners will begin in a few days before the judges of the Commission Court at Dublin. The inhabitants of the Congo district profess the liveliest joy over the capture of the band, which has long been a terror to honestly disposed persons.

The St. John Nut and Bolt Works, which commenced with 18 hands, are now employing 28 hands. They have recently received large orders from the Prince Edward Island railway, for car bolts and washers; from Fleming & Sons, for locomotive rivets; from Parks & Son, for anchor bolts and smith work in connection with fitting up their 500 horse-power engine; and from the Intercolonial railway for washers. James Harris & Co. will want, presently 50,000 of their car bolts. And then there is understood that another machine is about to be set up in the works, and others will soon be added. Canadian Manufacturer.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See ad't in another column.

The prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Carson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 30 cents a bottle.

PEARL.—Get your mouth fresh by using THAMBRAY, the new wonder for the teeth and breath. Brush vigorously. See directions. 5-cent samples.

Daily Evening Review

WEDNESDAY, AUGUST 23, 1882.

PROTESTED ELECTIONS.

At one time it was supposed that there would be only a small number of protested seats after the late general election, but already there is a long list, and perhaps it is not yet closed, for in the case of some ridings, the successful candidate has not been gazetted long enough for the time to have expired.

We notice that some of our contemporaries were very indignant over the protest in their particular localities, but we cannot see why they should do so. Every defeated candidate, every elector, has a legal right to appeal to the Courts if he thinks that the return has been procured, not by the lawful votes of the electors, but through bribery, intimidation or undue influence. It is childish to abuse the appellant for exercising a legal right, which has been especially given to him. As to his moral right, that can only be ascertained in each case after he has disclosed the evidence on which he has taken action.

It is too probable that in some instances an appeal has been lodged simply to cause annoyance to the successful party, to gratify a feeling of revenge, or even in the hope that some trifling illegality may be discovered in a substantially pure election. It is very advisable that any systematic use of bribery or other illegal means should be exposed, especially when the true verdict of the electorate has thereby been reversed. But, on the other hand, merely frivolous and vexatious charges should not be brought; there should be no attempt made to unsettle a member who is really the choice of the constituency, because perhaps some two or three electors and reckless agent has, in the face of his instructions, done some act which the law condemns, but which has not effected the substantial result of the poll. It would not be safe to relax the law, for from the natural difficulty of obtaining conclusive evidence in such matters, it may only be possible to obtain proof of one case, through the illegal practices may have been systematic. On the other hand, it is absurd that an elected member should be uneaten, because, even without his knowledge and against his wish, some slight and isolated irregularity has been committed, which may only have increased by uniting a majority of hundreds. Such cases as have occurred of a member being uneaten because a voter has given or received a glass of beer without any corrupt motive, only serve to bring the law itself into contempt. The most honest candidate could not hold himself safe under such a system. The only way of avoiding either evil is to observe moderation and fair play, enforcing a rigid investigation where systematic illegality is believed to have been practised, but abstaining from interfering with the choice of the majority of an electorate, even if some trivial pleadings may have been committed.

EDITORIAL NOTES.

The *Monetary Times* has an article on the Colonization Companies of the North-west, showing that they are not likely to make much money for years to come, on account of the great quantity of land being given away to settlers or sold cheaply by the Government. It seems, therefore, not a bad bargain to have obtained their money to pay for the construction of the railway, and at the same time, their aid in the settlement of the country.

The *Globe* deals the severest blow at Mr. Mowat that we have seen yet. It says—

"The municipal system, of which the federal system is but an extension, has everywhere been the safeguard of popular freedom from the encroachments of centralized authority."

How completely this describes the policy of the present Ontario Premier—his constant invasions of our municipal system, his belittling of our local institutions, and the never-ending encroachments of his centralized authority at Toronto. He would sweep away "the safeguard of popular freedom," but the popular voice is soon to be heard in its defence.

We are told that "any mistakes that may have characterized Mr. Mowat's political career have been those of caution." Perhaps it is from this excessive "caution" that he is now shrinking from the idea of facing the people in eight constituencies, even though his "caution" forces him deliberately to break the law. What a charming spectacle—the Premier of a Province infringing its constitution, the legal adviser of the Crown calmly disobeying the statute! But it is all due to that unfortunate bump of "caution."

TOWN'S POINT.

From Our Own Correspondent.

SAW LOG DRIVE.—Mr. Hazlett, for the Dickson estate, had a very large drive of saw logs pass through here on Saturday last en route for their mills in Peterborough. Mr. H. has also a large drive of saw logs stacked at Harrison's Point, and they will remain there until next spring. The drive that passed through here on Saturday is the last drive of the season, therefore the passengers on the steamers that are plying on these waters will not be sorry. It is sincerely to be hoped that the Dominion Government will have the whole control of the waters on this route before next summer, and then Mr. Thos. Belcher will, no doubt, manage to accommodate the passenger steamers better than the Local Government has done. There has been a little wheel working for the last few years to try and connect this section over to Grimsby for the Local House, but all to no purpose, as the wire pullers had better just give up in despair.

TRUST VALLEY CANAL.—For the last two weeks there has been quite a number of contractors from all parts pass through here in lively rigs from Peterborough to inspect the places at Burleigh where the three locks and dams have to be built for the Trust Valley Canal. I think this looks like business, and none of your election dodges. This shows the operators that the present Dominion Government are men of their word and do all in their power for the public good without regard to party politics. Our respected member, Mr. Hilliard, has taken a great deal of pains about this Trust Valley Canal, and has been largely the means of having the matter pushed through at this early date, therefore he deserves the plaudits of his constituents.

THE SHOOTING.—Messrs. Ulyot & Sadler are busy tanning four add merchandise back to their depot in Burleigh for the coming winter; our old friend, Jim Lynch, expects to begin operations with a large gang of men about the first of September for this firm. Mr. Lewis, of the Niagara Mills, is going to come over with Frank Brabant as foreman. The lumbering prospects are good.

FALL WHEAT.—Mr. George (Chalmers) shipped his wheat on Tuesday (having taken eight days) the fall wheat grown on the 100 acre clearance on the road to Burleigh Bridge. The crops will amount to about 2,000 bushels, and is an excellent sample. The weather was all that could be wished for, throwing in the open air, fine and dry all the time.

THE CHAIRMAN'S BURNING.—Tom Kettles' opponent, Mr. J. W. Ransom, did not turn up on Friday the 18th according to arrangements, to try and beat him at crawling for a day. On Thursday evening he came to the Point and fell in with two hundred spirits named Sandy McWhiskey and Pat Pecos, and after a little while got knocked high by these Gilded Kids, they being two much for him, although he is a stout and bodied fellow and a good worker. So Tom Kettles still remains supreme, as far as this section of Smith is concerned, and there has been no more blowing around this week as to what this one and that one can do at crawling.

HOUSE BUILDING.—Mr. W. McGregor of this place has given the job of building his house to Mr. Henderson of Lakeside. When completed according to the plans it will be a handsome building. Mr. John Young has got his little cottage on the hill finished, and sent it to Mr. Richard Reed, our village blacksmith; it looks well indeed in a beautiful place, commanding a lovely view of the Lake.

Yesterday's Sea Serpents.

Yesterday morning was cool, and perhaps this was the reason why some of the workmen engaged at the targets on the Garrison ranges say the serpent they saw was not more than fifty feet long, and the size of a man's body. The story as told by one of them is in substance as follows:—Between eight and nine o'clock, while placing the targets in position on No. 1 range, a boy rushed up saying that there was a queer thing floating near the shore. Some of the men were curious enough to leave their work and hasten down to the shore. There sure enough was a large, blueish-grey mass floating lazily near shore. It had every appearance of being asleep, as its body yielded to every ripple. Part was submerged, but the upper portion of the head floated just above the water. That part which was visible was covered with short stiff bristles in front, which in-creased in length towards the sides, and extended for a distance of about ten feet on each side. The back, or at least that portion of it which appeared above the water, was lighter-coloured than the head. A good view was had of the monster for upwards of three minutes, when it suddenly raised its head out of the water, it gave a snort with its tail and started directly across in the direction of one of the steamers. Its head, as it raised it above the water, was very much like that of an eel, with the exception of the long trailing hair, or whiskers. Its eyes were small, and as it dashed off one of the men said he thought he heard it give a short, sharp bark. A line of foam marked its progress out into the lake for about half a mile, when, turning sharp around, it dashed towards the Exhibition wharf, and again out into the lake, where they were lost sight of it. The men did not appear at all disposed to speak of the matter, as they feared their veracity would be questioned. As it is, their story is given for what it is worth, but surely the word of three men who saw it is worth that of thirty who did not see it.—Mail.

Great Rivers.

The Amazon is the greatest volume of water flowing through any country of the world, but it is but 3,000 miles long. The Mississippi, from Lake Itasca to its junction with Missouri, is 2,316 miles long, from that point to the Gulf is 1,286 miles, a total of 3,702 miles. The Missouri runs 2,008 miles to join the Mississippi, and, having had given to it the length of the sea, is 4,194 miles long. To the sacred river, the Nile, must be given the credit of running through the greatest stretch of country. The "American Encyclopedia" of 1875, from which the previously quoted figures are taken, says: "It is navigable as far as the district of Faggle, about 1,500 miles from the Mediterranean. Its approximate length throughout all its windings from the limit of stream navigation above Gondokoro 3,300 miles. The additional length to Lake Albert Nyanza can scarcely be less than 200 miles, and consequently, the river traverses a distance of 4,700 miles, or 507 more than the Missouri and lower Mississippi."

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N.B.—No risk is incurred, as thirty days' trial is allowed.

EARTH AND SKY.

There are 2,100 lawyers in Boston.
In the cities of Venice and Amsterdam there are 750 bridges.

The United States has one medical man to every 600 inhabitants, while Canada has only one to 1,200 inhabitants, Great Britain one to 1,572, and Germany one to 2,500.

From six pounds of Havana seed tobacco a cigar maker wrapped 1,408 44 inch large cigars—a little more than four pounds to the thousand. Manufacturers generally calculate on the thousand cigars taking ten pounds of seed leaf.

The St. Lawrence Canal is 65 miles long, 329 feet wide at the top 72 feet at the bottom and 26 feet deep. The total cost was \$57,000,000; the toll charge, one franc per ton for merchandise and ten francs per head for passengers, and the total receipts for 1881 were 51,000,000 francs.

The census bureau has issued a circular showing that there are 11,163 manufacturing establishments in New York, with a capital of \$165,000,000, and employing 218,000 persons. The value of the annual products of these establishments is \$48,000,000. In Buffalo there are 1,157 such establishments, with a capital of \$24,000,000, and 17,000 employees; the value of their annual product is \$40,000,000.

LONDON south of the Thames now has a population of 1,295,578, against 947,693 in 1871; hence the increase of population is 297,886, and the decennial rate nearly 31 per cent, which is not far from three times as high as that of north London. The particulars are as follows:—St. Saviour's Southwark, 75,111; St. Olave's, Southwark, 124,586; Lambeth, 100,000; Wandsworth, 210,207; Camberwell, 186,451; Greenwich, 131,264; Lewisham, 73,314; Woolwich, 94,792. The of St. Saviour's, Southwark, now includes, amongst others, the Parishes of Newington, while that of St. Olave's takes in Rotherhithe and Bermondsey.

DYSPEPSIA is the most common of all diseases, and under ordinary circumstances the most difficult to cure, it is a chronic weakness of the stomach with indigestion. The sensitive mucous membrane coating the stomach becomes irritated, and nearly all that enters the stomach comes back out to the first. The stomach and its contents are not properly digested, and the result is a general debility of the system. The system is not properly nourished, and the result is a general debility of the system. The system is not properly nourished, and the result is a general debility of the system.

How IT WORKS.—The purifying and healing properties of Dr. Foster's Extract of Wild Strawberry impart a healthy tone to the diseased mucous surfaces of the stomach and bowels. Its cooling, soothing properties soothe and soothe its action, and its tonic properties correct all or excessive discharges, such as Dyspepsia, Diarrhoea, Cholera, Mucous, and Nervous Complaints.

Mr. Wm. Ransom, of South Norwick, says: "For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good, until I was cured by Dr. Foster's Extract of Wild Strawberry. I feel better than I have for years, and I can now do all the work I wish to do. I feel better than I have for years, and I can now do all the work I wish to do. I feel better than I have for years, and I can now do all the work I wish to do."

MUNRO & ALEXANDER

Daily Evening Review

WEDNESDAY, AUGUST 23, 1882.

LOCAL AND MUNICIPAL

Excursion at Lakeside.

On Friday night the Lakeside Trip was made. The excursion was very successful, and the party was very large. The excursion was made on the Lakeside Trip, and the party was very large.

School Opening.

The public schools of the town will re-open for the fall term on Friday, the 1st of September, at 9.30 a.m. As the weather is so warm, the school will be made as comfortable as possible.

The Market.

The attendance on the market this morning was not very large. The prices of produce were not much changed. Butter was selling at from 23 to 25 cents per pound, eggs 17 to 18 cents per dozen, chickens 40 to 50 cents and ducks 60 cents per pair, potatoes 20 cents and apples 25 to 30 cents per bushel, and vegetables were still selling at high prices.

To Idyl-Wild.

The third annual excursion of Court Peterborough No. 22, A. O. F., will be held on Thursday to the Idyl-Wild park on the steamer Golden Eye, which will leave her wharf at 8 a.m. A palace now will be attached for dancing and Martin's Quadrille Band will be present. Arrangements have been made for making the excursion a success, and a very pleasant time may be expected by those who attend.

Sunday School Excursion.

The excursion of St. Paul's Protestant Sunday School to the Grand Junction was very successful. There was a very large attendance, and the sports and games at the grove were highly enjoyed. The little steamer Dora was chartered, and the excursionists had the pleasure of a sail on the water as well as the ride on the cars. The whole excursion was of a most pleasant and enjoyable character.

The Weather.

The rain which was threatening yesterday came last night. To-day there are appearances of rain, and the weather is somewhat close and warm. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a.m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes—Light to moderate winds, mostly southeast and south-west; warm, fair to cloudy weather with local rains.

These Horses.

The harness for the thirty French horses brought from Montreal by Mr. Beemer has been supplied by Mr. B. Shortly—fifteen sets, which is quite a large contract. We understand that Mr. Shortly has come into the wholesale saddle hardware business, and would call the attention of lumbermen and the trade to this fact. He can supply everything required in his line on short notice. He employs a large number of first-class workmen.

Railway Notes.

A large quantity of coal has arrived for the "Missing Link," and the rails are now being laid along the line at the end of the Ontario.

The Mail of Tuesday says that Mr. Geo. A. Cox, president, and Robert Jaffray, director of the Midland railway, arrived in the city yesterday from England, where they had been placing the first mortgage bonds of the Company on the market. They report that their mission was entirely successful, they having succeeded in disposing of over \$5,000,000 of their securities.

The Fall Grain Trade.

The alterations and improvements being made to Stevenson's warehouse (No. 3), on the corner of Bethune and Simcoe streets, which we noticed briefly some time ago, are of an extensive character. It is being prepared for the fall grain trade, and the roof has been raised nearly six feet, which will increase the storing capacity of the building nearly one-third, and it will hold from 60,000 to 65,000 bushels. The machinery necessary for elevating the grain will be put in, the motive power being supplied by a seven-horse power gas engine. The grain will be elevated at each end of the warehouse, the carrier raising it about eight feet above the main roof, and will be distributed into the five large bins or apartments in which the upper part of the building is divided, and "chutes" will be arranged for loading the grain into cars. The cost of the alterations will be about \$25,000. The elevator will be used in the grain trade this fall by Messrs. Mathews & Co., of Toronto.

There was no business done at the Police Court this forenoon, no case coming up on decision.

No. 1 Company.

The members of No. 1 Company should remember the drill at 7.30 o'clock this evening. Uniforms will be worn.

The Brigade Staff.

Among the names of the officers who constitute the brigade staff for the military camp at Cobourg, we notice that of Lieut.-Col. Harry Rogers, who is appointed Assistant Brigade Major.

Family Reunion.

Don't forget that on Friday, the Golden-Eye will run a cheap family excursion to Gore's Landing, Harwood and Idyl Wild, leaving the wharf at eight o'clock a.m.

Fugitives.

Mr. Thomas Kelle, formerly President of the Grand Junction Railway, Mr. Wm. Webster, Collector of Customs, and Mr. D. B. Robertson, City Clerk, of Belleville, are at the Ormiston Hotel.

Fugitives.

Some young men attempted to raise disturbances on the steamer at the excursion on Tuesday night, and being prevented from doing so, they renewed their endeavours after landing. The appearance of a constable dispersed them, however, and they were only able to hurl threats at each other as they departed.

Constitutional Excursion.

On Tuesday night the Golden-Eye took an excursion party down the river, under the auspices of McWilliams Lodge of True Blues, to which all who attended the excursion on the civic holiday were invited, in order to make up for any deficiency felt in the enjoyment of that day on account of the excursion not having reached Idyl Wild. Many accepted the invitation, and there was a large party on board when the steamer went down the river. Music was supplied and dancing was the order of the evening. The party went as far as Hale's bridge and returned at about half-past twelve.

Returned Home.

Our Lacrosse Club returned home at noon to-day, and all look hale and hearty after their trip. They played the "Kais" of Kingston on their return trip, and were successful in getting two games in eight and twelve minutes respectively. The third game lasted one hour and fifteen minutes, but could have been finished in a much shorter space of time had Peterborough wished to defeat their opponents in three straight. After the third game had been in progress about one hour and fifteen minutes, the boys had to quit in order to get to the station in time to catch the train. Mr. W. A. Sanderson speaks in the highest terms of the Young Shamrocks of Montreal. They used the Peterborough boys like kings, and nothing was left undone to make their stay a pleasant one. They also gave them some advice about lacrosse sticks, etc., that the team will greatly profit by, and it is for the "Young Shamrocks" visit Peterborough, they can rest assured that the boys will reciprocate the gentlemanly and hospitable manner in which they were treated in Montreal. The Montreal Gazette was in error in stating that the Peterborough team were in any way "played out" at the conclusion of the third game, for we are informed the boys were quite fresh, and went to work immediately afterwards and did some big practice with the Senior Shamrock Club. Mr. Sanderson brought home a photograph of the "Young Shamrocks," and it is now on exhibition in his window.

NOT FAIR CERTAIN.

The Independent Reform Toronto World says:—"We believe that critics, whether they are editors, correspondents writing to editors, or platform speakers, should confine themselves to the matter at issue and leave personal considerations aside. We have endeavored to act thus towards David Blain, but some of our reform contemporaries have overstepped their bounds in dealing with that gentleman. For instance,

Cornwall Freeholder: A few years ago Mr. Blain fell off his horse and struck his head upon a stone. He has never fairly recovered from the effects of that fall, in fact his manner has been so peculiar since then, that sympathy rather than contempt is manifested for him. Halifax Chronicle: Mr. Blain, although said to be a gentleman of intelligence and culture, and possessing a university degree that should have been a guarantee of better things, appears to be one of those weak-minded persons who worship success and are ready to stoop to anything that would give promise of securing it. Now we think there is quite enough in Mr. Blain's letter to call for comment without attacking him personally. Even grant that Mr. Blain has brought in irrelevant matters, as he appears to have done, that does not justify the quotations given."

FINANCING A POLICY.

The New York World's London special says: Parliament adjourned until October 31st. The course of action is entirely without precedent since 1865, when it was adjourned from August the 2nd to October 27th, to allow the Irish Parliament time to consider the proposed commercial resolutions. It is by no means unlikely that the fashion of autumnal sessions of a month or six weeks, to begin about November 1st, will be adopted in future, enabling the legislature to leave London about the middle of July. Although Mr. Gladstone described the session which has terminated as one of "ruin and discomfiture," there can be no doubt it leaves the Liberal party more secure in the enjoyment of power than it has been for months past, thanks to the impudence with which Mr. Gladstone pirated the "spirited foreign policy" of Beaconsfield, so severely attacked and abused by the Liberals then in opposition, though it must almost be remembered that Mr. Gladstone, during the Midlothian campaign, threw his anchor to windward by laying down very much the plan of operations in Egypt that has been followed in the present difficulty, by the army of the late converting Cyprus into a military depot and the employment of Indian troops, the ex-games of the latter being put upon the Indian Government. In fact all the salient points of the "Jingo" programme, by denouncing which the Liberals came into power, secured to the present Government the confidence of the country, which they will retain as long as they show themselves determined to maintain the dignity of the nation at home and abroad.

Ladies by calling at the Store will receive Butterick's New Monthly for September, free of Charge.

NEGOTIATIONS have been going on for some time past between Alderman McDougall, of Ottawa, and a leading railway stock manufacturing company, of the United States, with a view to the establishment at Ottawa of a car factory. The matter is generally looked upon as feasible, owing to the numerous railways which will soon centre at Ottawa. The Corporation will, it is understood, be asked to grant a bonus in favor of the proposed enterprise, but it is scarcely likely that they will grant it, as they seem to have set their face against granting financial aid to manufacturing enterprises.

THE safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

GENERAL DEBILITY AND LIVER COMPLAINT.—R. V. Pierce, M. D., Buffalo N. Y., Dear Sir:—My wife has been taking your "Golden Medical Discovery" and "Purifier" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from Liver Complaint, Stomach, Pain in the Stomach, Sea Sickness, Piles, etc., you can use my name, etc."

ROBERT A. WILSON, Dispensing Chemist, Brockville says under date of June 5th, 1882, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints: Diarrhoea, Dysentery, Pain in the Stomach, Sea Sickness, Piles, etc., you can use my name, etc."

BEN-RIDDER AND CURED.—W. E. Huettel, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Remedy," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

DOWN!

DOWN THEY GO.

Great Reductions in our Dress Department. We are determined to get rid of our Summer Goods, and have marked them accordingly!

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it cures in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER.

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

Dr. B. J. Kendall & Co., Gentles:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can he be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 18th, 1880.

B. J. Kendall & Co., Gentles:—In justice to you and myself, I think I ought to let you know that I have removed two bone spurs with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callosities, sprains, swellings, and humors and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for both as well as man.

Price four bottles for \$1. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

Dr. B. J. Kendall & Co., 230, Broadway, N.Y.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents.

Daily Evening Review

THURSDAY, AUGUST 24, 1892.

THE WAR IN THE EAST.

THE ADVANCE OF BRITISH TROOPS FROM ISMAILIA COMMENCED.

The Military Convention Agreed Upon—Panathetical Disturbances in Syria—The Greeks Favor an Alliance with England—Arab Turning off the Water Supply.

ALARMING RUMOURS.

CONSTANTINOPLE, Aug. 23.—Alarming rumours are prevalent to the effect that the Porte had received unfavorable despatches from the governors of the Syrian vilayets regarding threatening attacks on the Christians in Asia Minor, and the report that the pro-Moslem feeling is rapidly spreading throughout that country from the shores of the Bosphorus to the Persian Gulf together with the Sultan's hesitancy to ratify the military convention with England, have created a profound impression here. The progress of the British operations in Egypt is watched with the closest attention, and ardent hopes are expressed for their success. The Greeks would view with entire satisfaction any action of the Hellenic Government looking towards association with the English in the Egyptian campaign and it is not improbable that in case of a rupture with Turkey, England would have an ally who is not only devoted to the side of the English, but also has the extremely important advantage of being nearer to the scene of operations than any other European nation. The measures recently taken to increase the force and efficiency of the Greek navy indicate an intention on the part of the Hellenic Government to prepare for the possible contingency of becoming involved in the difficulties surrounding the coming settlement of the Egyptian question. The line of existing frontier between Turkey and Greece can never be satisfactory to the Greeks who will not hesitate to avail themselves of the first favorable occasion to enlarge their boundaries, and who firmly believe that Turkey's emergency is Greece's opportunity.

THE PROSPECT IMPROVING.

CONSTANTINOPLE, Aug. 23.—The Sheikh-ul-Islam paid Lord Dufferin a second visit to-day. Lord Dufferin announced that he had received instructions from his Government to sign the draft of the military convention as agreed on between himself and Said Pasha on the 18th inst., which had been left subject to further consideration. Sir Alfred Sanderson had previously conveyed the same intelligence to the Sultan. The interviews between the Sheikh-ul-Islam and Lord Dufferin are understood to have helped to clear the situation. Lord Dufferin gave the Sheikh reassuring explanations in regard to the intention of England. Lord Dufferin will have an interview with Said Pasha to-night, when it is hoped the military convention will be definitely concluded. The Sultan has authorized El Vakit, which has been suppressed for publishing news hostile to England, to resume publication.

THE CONVENTION ADOPTED.

CONSTANTINOPLE, Aug. 23.—The military convention has been agreed upon, and it is expected it will be signed to-morrow.

LEADING REBELS CAPTURED.

ALEXANDRIA, Aug. 23.—The British have captured Ruchdi Pasha, formerly the Khedive's Minister of Finance, and Zulkar Pasha, of the Khedive's household, who espoused the cause of Arabi.

GREEK MARAUDERS.

ISMAILIA, Aug. 23.—The military police have arrested nineteen Greeks who were pillaging the Arab quarters at Ismailia. Ten of the prisoners were shot.

SOME OF ARABI'S WORK.

ISMAILIA, Aug. 23.—The water in the fresh water canal is falling perceptibly, and it is feared Arabi has diverted its course. The Canal Company have issued a notice requesting economy in water.

ARABI PARADE IN CAIRO.

PORT SAID, Aug. 23.—A Government school-master arrived from Cairo on the 14th. He states that torchlight processions parade nightly, men and boys calling on Allah to send death to the English and all Christian dogs. The Coptic Archbishop for fear of his life is doing all demanded of him by Arabi. The latter is levying contributions throughout the country. Every feudal must pay from two to eight piastres, according to his possessions, half his cattle

and a measure of wheat. Midshipman de Chair continues to be treated in princely fashion by his captors.

ARABI'S FORCE.

ALEXANDRIA, Aug. 23.—According to authentic information Arabi has 25,000 men at Kafr-el-Dwar. A large number of men are constantly entreaching at Tel-el-Kebir, and there is little doubt the big fight of the war will occur there. The prisoners taken at Serapeum on Monday report that many of the enemy's wounded died during the retreat across the desert to Tel-el-Kebir.

ENTRENCHMENTS.

ALEXANDRIA, Aug. 23.—During the night the enemy have thrown up entrenchments on the extreme right across the sands toward Lake Aboukir, probably in consequence of the movement of the Highlanders on Sunday, which threatened to out-flank them. It is reported that large bodies of Bedouins have crossed the desert from Tripoli to join Arabi.

GHEMILIS REOCCUPIED.

PORT SAID, Aug. 23.—The Arabs have re-occupied Port Ghemilish, and are erecting entrenchments in the vicinity.

ADVANCE COMMENCED.

ISMAILIA, Aug. 23.—The advance of the heavy cavalry and marine artillery has commenced.

UNITED STATES AND RUSS CANAL.

PARIS, Aug. 24.—Some French papers state that the United States will be invited to join the conference to settle the neutralization of the Suez Canal. Duclercq, President of the Council, says there is no reason to suppose that it is intended to extend such an invitation to the United States.

ARABI SHOT BY A SENTRY.

PORT SAID, Aug. 24.—Two Arabs were shot here for not answering the challenge of the sentry. An exodus of the natives has consequently commenced.

PLUNDERING BEDOUINS FLEEING.

ALEXANDRIA, Aug. 24.—Bedouins reported to be several hundred in number, entered Ramleh and plundered several houses in the outskirts. The British are now exchanging shots with them. Several regiments who had returned to Ramleh have fled.

TORONTO.

Special to the Review, Aug. 24.

THE PARADE of the Ancient Order of Foresters at noon to-day proved very successful, and was witnessed by a large number of people.

A MAN NAMED CUNNINGHAM was arrested for stealing thirty dollars in bills from Mr. Bratley, of London. The money was found in Cunningham's mouth. He was chewing it up preparatory to swallowing it.

SCARLET FEVER is very bad among the children in the eastern section of the city.

MR. WILMOT, Inspector of Fisheries, started to-day for Lakes Huron and Superior to secure specimens of fish in the districts mentioned.

GEO. F. GREAVES, who is held here for extradition on the charge of defrauding his English creditors, was before the police court to-day and further remanded. The English detective has returned home again.

Pecksniff Finds a Friend.

A gentleman writes to a New York paper:—"I once had the honour of dining with Charles Dickens in London, and among the guests was a penitentiary old gentleman whose name I shall not divulge, but who was well known in English society at the time. He had but recently been introduced to Dickens, and he spoke little and then abruptly, until the meal was almost over, then he suddenly turned to Dickens and said in an apparently displeased and irritable tone:—"Mr. Dickens, I think if you had known the more latent worries and private troubles of Mr. Pecksniff's life, and the many provocations which I am sure he must have had, you would scarcely have presented him to the world in so unfavourable a light." But, surely, said Dickens, smiling, "I drew the character as I had created, and to my mind perfected it, and I portrayed Mr. Pecksniff's shortcomings and displeasing attributes as they presented themselves to me in my ideal." "Well," said the old gentleman, "Have it your way, Mr. Dickens, I shall always believe Mr. Pecksniff was no so despicable a man as you make him." And there was considerable suppressed laughter among the company."

Prayer Even in Nature.

A naturalist should be the last man in the world to object to the efficacy of prayer, since prayer itself is one of the most potent of natural forces. The cry of the young raven brings its food from afar without any exertion on its part, for that cry has power to move the emotions and the muscles of the parent bird, and to overcome her own selfish appetite. The bleat of the lamb not only brings its dam to its side, but causes the secretion of milk in her udder. The cry of distress nerve men to all exertions, and to brave all dangers, and to struggle against all or any of the laws of nature that may be causing suffering or death. Nor in the case of prayer are the objects attained at all menaciate with the activities set in motion. We have all seen how the prayers of a few captives, wrongfully held in bondage by some barbarous potentate, may move mighty nations and cause them to pour out millions of their treasure to send men and materials of war over land and sea, to sacrifice hundreds of lives, in order that a just and proper prayer may be answered. In such a case, we see how the higher law overrides the lower, and may cause even frightful suffering and loss of life, in order that a moral or spiritual all or any of the laws of nature that may be causing suffering or death. Nor in the case of prayer are the objects attained at all menaciate with the activities set in motion. We have all seen how the prayers of a few captives, wrongfully held in bondage by some barbarous potentate, may move mighty nations and cause them to pour out millions of their treasure to send men and materials of war over land and sea, to sacrifice hundreds of lives, in order that a just and proper prayer may be answered. In such a case, we see how the higher law overrides the lower, and may cause even frightful suffering and loss of life, in order that a moral or spiritual all or any of the laws of nature that may be causing suffering or death. Nor in the case of prayer are the objects attained at all menaciate with the activities set in motion. Daily Evening Review

THURSDAY, AUGUST 24, 1882.

WILFUL SLANDER.

It is sad to witness the depths of dishonesty to which some journals will descend in order to aim a blow at political opponents. Because a heavy charge has been made upon some cars from Toronto to Brandon the *Examiner* calls the Syndicate "sharpers," though it well knows that the Canada Pacific Railway Co. could no more fix the rates of the other roads over which the cars run than could the *Examiner* office. It is nonsense to talk of the railway company at the terminal point having sole control over these charges, for every business man knows that the company at the terminus has not a word to say to the charges of other companies, but has only to hand over the money to them. The plain truth is that the heavy charges are made by companies in the States, and that the Canada Pacific Company's rates are moderate, being for instance far less than those of the Northern Pacific, a road similarly circumstanced. There is no need for Government interference so long as the Company keeps to its present satisfactory rates. The opening of the through Canadian route under the arrangements made by the present Government, will put an end to our being fleeced by our neighbours, a system which it is the "Reform" policy to perpetuate.

REFORM MISSIONARIES.

THE *Ottawa Free Press* has a long editorial in regard to statements that have been published that Mr. Mowat has an "intention of turning the whole of the teachers in our public schools into missionaries to teach Liberal doctrine," and warmly approves of the idea. The *Free Press* says:—

"If it is within Mr. Mowat's power to do so, he would be repaying to the great trust he holds were he not to make every teacher in the province an exponent of Liberal ideas in thought, word and action."

The idea of such a thing seemed too preposterous even for Mr. Mowat with his mania for centralization, and we took no notice of the rumour. But when such an invasion of local rights and such a prostitution of our educational system is gravely advocated by a leading Reform journal, published in the very capital of the Dominion, the matter becomes more serious.

OUR GREAT RAILWAY.

As false statements are often made that Manitoba is almost in a state of rebellion against the Dominion Government, in consequence of its bargain with the Canada Pacific Railway Co., we will give an extract from a speech made at a recent public meeting by the Provincial Premier:—

"In reference to the C. P. R. charter, he reported the bargain that was made by the Government, because by that bargain we are assured a thorough and complete connection with the eastern portions of Canada. He would say here that if the Government went back on the company, and thus prevented them building the remainder of the line, he for one would go back on the Government, because he believed in order to escape the success of this country it must be bound from ocean to ocean with rails. The speaker dwelt at some length on this important question, and insisted on that portion north of Lake Superior being gone on with, and resumed his seat amid loud applause."

EDITORIAL NOTES.

THE *Examiner* quotes approvingly some remarks of the *Winnipeg Times* in regard to the Ontario Opposition, one sentence being "Mr. Meredith is no doubt the best man in the House." Well, an able leader is half the battle.

A CONVENTION of the Liberal Conservative party is summoned for Wednesday, September 13th, at Toronto.

THE members of the Press Excursion are now enjoying their annual excursion, which is to Winnipeg this year.

AN "own correspondent" of the *Examiner* writing from Prince Arthur's Landing says:—"I understand there is every probability of the Canadian Pacific Railway, from Prince Arthur's Landing eastward to Nipigon, being placed under construction on or about the first of October."

We feel curious to know what history the *Globe* takes as an authority for the events connected with the civil war in the United States. We have always been given to understand that it was the Confederates who favored State sovereignty and the Federals who maintained the central authority of the Union. But for purposes of its own the *Globe* is pleased to assert that "federalism," which it interprets to mean "local autonomy," developed strength and coherence in that great struggle.

THE ALLEGED LAND GRABBERS.

The *Times* purposes this morning to take a short walk with its excellent neighbour through the columns of the last *Canada Gazette*. The *Free Press*, the other day, used these harsh words of the Dominion Government, and of the promoters and incorporators of colonization companies:—

"Apparently regardless of the nature and extent of the enormous grants, the Government seems to be possessed of the idea that it holds the fee simple of an illimitable area of arable land in the Northwest that exists solely for the purpose of extricating itself and its friends from their numerous difficulties, or of rewarding their most subservient supporters. Such, at least, is the only explanation we can give of the wanton prodigality with which they are squandering the patrimony of the people of the Dominion on the army of political parasites, speculators, land jobbers, and other gentry of that ilk."

David said in his haste that all men were liars; and the *Free Press* was probably carried away in a similar manner. This, at least, is the fair inference from the fact that among the promoters and incorporators of the Northwest companies, registered in the last *Canada Gazette*, the names of the following gentlemen appear:—The High Wood Range Company (limited)—Alexander Gunn, M. P., of Kingston; James Trow, M. P., of Perth. The Provincial and Commercial Land Company—W. F. McMaster, A. A. Allan, Samuel Trees and Waring Kennedy, all of Toronto. The Saskatchewan Transportation Company (limited)—Hugh Sutherland, P. S. Brown, Winnipeg. The Qu'Appelle and Long Lake Land Company—Hugh McMahon, Q. C., of London, Ont. (Now of Winnipeg.) The Dominion Cattle Company—John Philip Wier, of Prescott; and Harlow G. Wier, of Brockville. The Standard Homestead Company—Messrs. S. K. Kerr (Mr. Blake's brother-in-law), W. B. McManis, Mayor of Toronto; and Daniel Spay, of Barrie.

The Saskatchewan Colonization Company—Messrs. Albert Huxton, of Toronto (now of Winnipeg), journalist, and Archibald McNea, of Winnipeg, journalist.

One of two things is patent; either the gentlemen named above are Tory parasites, which they are not, or the *Free Press* has outdone its disclaimer, when it accused the Dominion Government of dividing up the land among its own friends.—*Winnipeg Times*.

THE CANADIAN PRESS.

Mr. E. J. B. Spence, of Kingston, retiring President of the Canadian Press Association, in his address to the Association at its meeting in Toronto on Tuesday, said:—

"The press at large in Canada is not only a stable institution, but also a rising one in numbers. To its already imposing list of 565 at our last meeting 26 new subscriptions have been added. Taking the 376 emanating from our own Province as a test, it is plain that the territory is fully occupied. That journalism here in any way approaches perfection none will contend, but it is certainly equal to the capabilities of the country. Very many persons find fault with papers published in small towns and villages because they do not reach the status of lively journals prospering in populous centres. But look among the most industrious and most ambitious to succeed everywhere, and as a rule the conductors of newspapers are there to be found. Scarcely men with such a spirit and with all their experience, besides possessing as high an ideal of the duties and dignities of the press as do their critics, are making it all that circumstances will allow. How rarely do journalists in small places bear words of praise or encouragement at home! They come far oftener from outsiders who can see in the papers a standing equal to that of any institution in the place. Prosperity, they say, is not yet without honor, save in their own country."

Dangers of Egyptian Waters.

The *Times*' correspondent sends the following: Among the diseases to which our troops will be exposed here is the endemic hæmaturia, which prevailed largely among the French troops in the expedition of 1799. About three-fourths of the fallen population suffer from this distressing scourge. It is often fatal, generally leaves permanent mischief, and is always of long duration. It is caused by a parasite, supposed to find its way into the human body by the intermediary of small freshwater molluscs, with which many of the canals abound. Last year about a dozen of the staff of the Eastern Telegraph Company at Suez were invalided within a month or two from this disease. Dr. Morison, assistant to Dr. Mackie, found that all those who were attacked, had when out walking or shooting, drunk directly from the Sweet Water Canal near Suez, swarming, as do most of the canals in the country with minute water-worms. The disease is believed to be entirely preventable by avoiding drinking directly from the canals or bathing much in muddy water, and by using for drinking purposes only water well boiled or well filtered, care being taken that the filter is kept well cleaned and in good order. I understand that the Mediterranean troops are supplied with any filters, and it is to be hoped that the authorities will immediately adopt measures to save our troops from a disease which might decimate the army with permanent invalids after their return from Egypt, as we only in a few cases, when the disease has been severe is there a complete cure, though it may happen in less severe cases.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

If Catarrh has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

Mr. Wm. Ransom, of South Norwich, says: "For sixteen years I suffered from Billiousness; never had any medicine do me any permanent good until recommended by our druggist, (J. Wesley Fish & Co., Otterville), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Billiousness, &c. Sold by J. D. Tully, at 50 cents a bottle."

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

There is no excuse for suffering from CONSTIPATION

and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of DR. HENRY BAXTER'S

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the cause.

Keep the Stomach, Bowels, and Digestive Organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE. For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions. BENT, JOHNSON & LORR, PROPRIETORS, MONTREAL.

AN INHUMAN DEED.

A Toronto Tailor Gags and Beats His Wife in a Cruel Manner.

One of the most disgraceful outrages that the Telegram has had to chronicle for some time past has just come to light. On the evening of Saturday, the 12th inst., Wm. Turner, a tailor, residing at 473 Queen street west, came home drunk and began to use his children rather roughly. Mrs. Turner, fearing mischief, tried to interfere, but was knocked down by her husband, and while prostrate on the floor was further beaten and abused by the infuriated brute. That Turner was not drunk as to be unaware of what he was doing, may be gathered from the fact that he took the precaution of gagging the poor woman, in order that the neighbours might not be alarmed at her cries. Part of the disturbance was heard, however, and several of the neighboring residents came along to see what was the matter. Turner had bolted the door, and at first refused admittance, but was forced to yield to superior numbers. On entering the house Mrs. Turner was found to be quite senseless. Dr. Woods was called in and succeeded in restoring the victim to consciousness. He has been in constant attendance on her until Saturday last, when Dr. McCorbous made an examination of the patient's condition. He found her to be suffering from critical injuries of a complicated nature, and pronounced the chances of her ultimate recovery at least doubtful.

BURNING.

COUNCIL MEETING.—The Council met at the Old Town Hall, Dunsmuir, on August 11th, 1882. All the members were present. The minutes of the last meeting were read and confirmed. The following appropriations were made on boundaries, conditional on the Council concerned granting similar sums:—Between Dunsmuir and Asphodel \$50, under Thomas Webster and Moses Humphries; between Dunsmuir and Deoro \$10, under P. Gilroy, south of lot 12, and \$10, under Joseph Edwards, from lot 11 to lot 16. On motion, the agreement made between the Committees appointed by the Councils of Dunsmuir and Deoro respecting the amounts to be expended on the boundary, was confirmed. Robert McCracken was appointed Township Collector at a salary of \$50. A By-law was passed to close a road on part of lots 12 and 13 in the 2nd concession; also one to make appropriations for highways and to appoint Commissioners for the same, and one to provide for the levy and collection of certain taxes for 1882. The rate was struck for the County, including the equivalent for schools, 37-10 mills; for township purposes, 14 mills. The amounts levied for schools are:—No. 2, \$337.36; No. 3, \$481.74; No. 4, \$377.74; No. 5, \$227.49; Union No. 6, Dunsmuir part, \$149.92, Asphodel part, \$161.36; No. 9, \$253.30; No. 11, \$206; Separate School, \$16.68.

MARTINIS.

NEARLY DROWNED.—The Star says that on Friday last a young son of Mr. Sidney Smith's had a narrow escape from drowning. It either waded or fell into the mill pond and the screams of the little one attracting the attention of Mr. Wm. Stewart he went to the rescue, and not a moment too soon, as the child had sunk twice before Mr. S. reached it.

MAGISTRATE COURT.—On the complaint of David Tullock of Seymour, Mrs. Pomeroy and Victoria Cowan was arraigned before A. C. Haycke and J. Collins, Esq., J. P., charged with wantonly and maliciously inflicting a contumacious and contemptuous blow on the evidence, the magistrates inflicted a fine of 50 cents, \$2.00, and \$1.00 fine, and \$10.00, on the defendants respectively.

Killed by a Poisoned Dagger.

The French papers record a remarkable accident by which the Comte de Belmont has had the misfortune to lose his youngest son. The Count before his marriage had been a traveler and from the Polynesian Islands and elsewhere he had gathered a remarkable collection of lethal weapons showing the ingenuity and in some cases at least the artistic skill and power lavished on kris and yatag, on sword and dagger. In a collection of this nature intended to show the warlike methods of savage races, arrows and other weapons whose shining blades had been dipped in poison were of course conspicuous. His two sons—Albert, aged eight, and Rudolph, aged twelve—having been left alone for a short time in his cabinet, with the inquisitive readiness of childhood took down two of the weapons to play with. Chance placed in the hands of the youngest child one of the poisoned weapons and a slight scratch on the wrist was sufficient to inject the fatal virus. When the unhappy father returned he saw the child writhing in agony upon the ground, a prey to frightful convulsions, from which death alone released him. The medical man who was called in was unable to save him, and could not even recognize the poison on the dagger blade. That most commonly used for such purposes is derived from the *Strychnos toxifer*. The weapon is said in some cases to have retained its poisonous activity after being kept dry for five years.—*Manchester Guardian*.

New Milk Should be Taken.

Milk is a food that should not be taken in copious draughts like beer, or other fluids which differ from it chemically. If we consider the use of milk in infancy, the physiological ingestion, that is, of it, we find that the suckling babe imbibes little by little the natural food provided for it. Each small mouthful is secured by effort, and slowly presented to the gastric mucous surface for the primal digestive stages. It is thus regularly and gradually reduced to curd, and the stomach is not oppressed with a lump of half coagulated milk. The same principle should be regarded in the case of the adult. Milk should be slowly taken in mouthfuls, at short intervals, and then it is rightly dealt with by the gastric juice. If milk be taken after other food, it is almost sure to burden the stomach, and to cause discomfort and prolonged indigestion, and for the obvious reason that there is insufficient digestive activity to dispose of it. And the better the quality of the milk, the more severe the discomfort will be under these conditions. Milk is insufficiently used in making simple puddings of such farinaceous foods as rice, tapioca and sago. Distaste for these is engendered very often, I believe, because the milk is stunted in making them, or poor, skimmed milk is used. Abundance of new milk should be employed, and more milk or cream should be added when they are taken. In Scottish households this matter is well understood, and a distinct pudding plate, like a small soup plate, is used for this course. The dry masses commonly served as milky puddings in England are exactly fitted to create disgust for what should be a most excellent and delicious part of a wholesome dinner for both children and adults.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

By importing our Silverware direct from the Manufactory, we CAN and WILL undersell all other dealers. The LARGEST STOCK, the NEWEST DESIGNS, the BEST QUALITY, and the LOWEST PRICES!

CORNER SIMCOE AND GEORGE STREETS.

MACFARLANE WILSON.

FROM ALL OVER.

The steamship *Castalia* has been chartered to load five hundred mules at Philadelphia, to be taken to Alexandria for the English Government.

No earthly reason exists for suffering with rheumatism. St. Jacobs Oil has reversed the order of things.

At Brownsville, Tex., there were thirty-five new cases of yellow fever and two deaths on Monday; at Matamoros seven deaths and but few new cases.

LATER reports show that the murder of Leahy, a farmer, near Killarney, was committed in a most cold-blooded manner by a drilled and disciplined party of armed men.

HALL's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

SIXTY-FIVE Texas steers stampeded in the streets of Jersey City on Monday, causing considerable alarm. A little boy was fatally trampled, and several other persons narrowly escaped.

A SMALLPOX nurse at Paterson, N. J., has communicated the disease to his family, and one child has died, and his wife and remaining children have been taken to the pest-house. Fears are entertained that his recklessness has disseminated the disease throughout the town.

In Boone county, Iowa, on Monday night the infuriated citizens put a rope around the neck of an old man named Dalaine, and dragged him to goal for soliciting and receiving subscriptions to a magazine, and then failing to send the book.

Most Worm Medicines are so unpleasant that mothers are obliged to force them down the throats of the innocent. This unpleasant task is obviated by using Dr. Smith's Great German Worm Remedy. 25 cents at J. McKee's, druggist, Peterborough.

POSTMASTER GENERAL HATTON has declared B. D. Fly of Ramsey, of Illinois, a fraud, and has directed that no money orders or registered letters be delivered to him. Fly advertised to send five bushels of seed wheat and make no charge except one dollar for freight charges unless the yield were one-third more.

THE Rev. Charles E. Piper, formerly of Pittsfield, N. Y., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

CURIOUS as it may seem, it is nevertheless a fact, that the magistrates of Castlebark, England, held a court in the churchyard of that place, on the 14th November, 1844, to hear evidence respecting a tombstone, with the view of establishing a claim to the parage.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation of this nature is the *Worm Remedy*, which is known to all in having a single dose of it remove all worms, and all diseases resulting from self-poisoning, nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

A NEW brake, the invention of Mr. Tremaine, a conductor, has, after careful trial, been adopted by the Chicago, Milwaukee, & St. Paul Railway Company. The brake is an ingenious contrivance, of such construction as to make it unnecessary to remove the wheels upon which the brake acts more than once during six or eight months. It is reported that Tremaine has been offered by George M. Pullman \$40,000 for the right to use the patent on his sleeping cars.

The Canal Question.

The canal convention held at Duluth, Minn., yesterday endorsed the scheme for constructing forty miles of canal, whereby the waters of the Red River and Lake Superior will be joined and steam navigation be made possible far into the interior of the Northwest. The country tributary to this waterway will be equal to the area of the Middle and Eastern States. Georgian Bay canal will form a complement to this waterway, and preserve the carrying trade for Canada. Many people think the day for canals is passed. As a matter of fact the usefulness of canals is only now beginning to be appreciated. For the carrying of dead freight they can always underbid railways.—*Winnipeg Times*.

WILL YOU EXCHANGE a case of **Dyspepsia or Biliousness** for 75 cents? It is awfully unwise to agonize under the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver**, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you. **ZOPSEA** (from Brazil) cures **Dyspepsia and Biliousness**. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures. It acts directly upon the **Stomach, Liver, and Kidneys**. **Cleansing, Correcting, Regulating**, Zopsea gives energy and vim to the **Brain, Nerve, and Muscle**, simply by working wonders upon the **Digestion**, and giving activity to the **Liver**. Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopsea, and tell your neighbor how it acts. It is warranted to cure **Dyspepsia and Biliousness**.

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURE FOR SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it is some past cure. Ordinary pimples, redness, blotches, eczema, roughness, wash as it by magic; whilst old, scaly skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will eventually attack them. It destroys the poisonous matter, and causes the skin to be healthy, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 6d.

SULPHOLINE LOTION.—A FLUID peculiar in its action, and one of the most powerful remedies for all skin diseases. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Starin, and every year it is used more and more favorably to its widely increasing reputation. Any person who is afflicted with skin diseases, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S LIVER PILLS (without Mercury) THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN IN THE RIGHT HYPochondrium, HEADACHE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and most reliable remedy for every constitution. In Boxes at 1s. 11d., 2s. 6d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. King, London. Specially valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the blood. For debilitated health from the effect of not climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC purifies and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, indigestion, nervousness of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 3s. 2d., 6s. 4d., next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or bilious condition.

TARAXACUM AND PODOPHYLLIN. Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of one pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulder, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, glaucous, disturbance of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the only medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 6d., and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

A POSITIVE CURE

Without Medicines
ALLAN'S SOLUBLE MEDICATED BOUGIES, Patented October 14, 1870. On Box No. 1 will cure any case in four days or less. No. 2 will cure the most obstinate cases, no matter how long standing. No nauseous doses or cubes, capable or oil of sand-wood, that are certain to produce dyspepsia by destroying the coatings of the stomach. Price \$1.50. Sold by all druggists, or mailed on receipt of price. For further particulars send for circular. P. O. Box 1,533, J. C. ALLAN CO., 93 John street, New York. d105

Don't Forget the Place—Church's New Block, opposite McKee & Davidson's, George Street.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

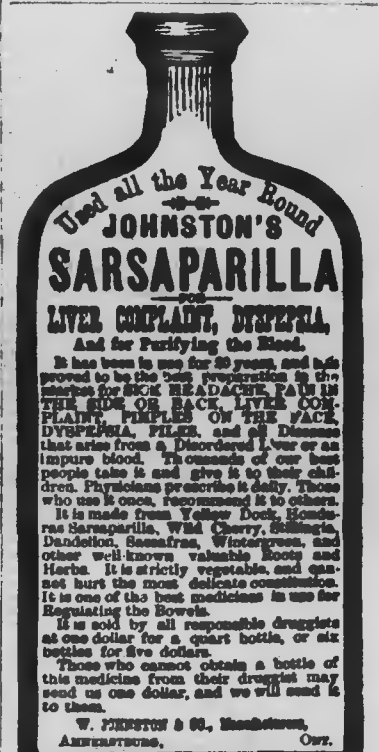

St. Albans, Vt., Jan. 24th, 1880.
Dr. B. J. KENDALL & Co., Gentl:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became worse, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, CHAS. E. PARKER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.
B. J. KENDALL & Co., Gentl:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used the Spavin Cure. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, LYMAN BONS & Co., Montreal, P. Q. Wholesale Agents. 1017

For Sale by Ormond & Walsh, Peterboro.

Daily Evening Review

THURSDAY, AUGUST 24, 1882.

LOCAL AND MUNICIPAL

Division Court.

A sitting of the Division Court for the Peterborough Division will be held to-morrow before the County Judge.

Replaced.

The strip of sidewalk which was burned at this end of the Ashburnham bridge on the occasion of the fire last week, is being replaced, and men are now engaged at that work.

The Town Clock.

We are informed that the clock on the Town Hall will be put forward five minutes at six o'clock this evening, so as to make it agree with the railway time.

Accident.

On Monday Mr. James A. Martin, of Peterborough, met with an accident in Port Hope. He was driving a heavy horse towards the wharf when the horse became frightened and ran away, throwing Mr. Martin out and spraining his ankle. He was otherwise slightly injured.

Foresters' Excursion.

The annual excursion of Court Peterborough, C. O. F., this morning on the steamer Golden-Eye to Idyl Wild secured a large attendance. The steamer left the wharf shortly after eight o'clock, and a pleasant day will no doubt be enjoyed.

The Weather.

Last night was a beautiful moonlight night, and the weather was pleasantly cool. To-day is bright and warmer. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate winds, fair warm weather.

Midland Railway Traffic Returns.

The traffic of the above railway, for the week ending Aug. 19, 1882, was as follows:—Passengers and Mails, \$6,062.32; Freight, \$14,483.37. Total, \$20,545.69, as compared with \$17,836.85 for the corresponding week of 1881, being an increase of \$2,708.84; and the aggregate traffic to date is \$624,575.66, being an increase of \$156,641.78 over 1881.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:—

Name.	Place.	Date.
West Riding	Peterborough	Oct. 3rd & 4th
East Riding	Norwood	Oct. 10th & 11th
Horticultural	Peterborough	September 7th
Central	Cobourg	Sept. 20th to 29th
Provincial	Kingston	Sept. 18th to 23rd
Smith, Ennismore & Co.	Lakeland	Sept. 23rd & 24th
Lakeland		
South Victoria	Lindsay	Sept. 29th & 30th
Industrial	Toronto	Sept. 5th to 16th

Hair Goods.

The ladies of Peterborough and its vicinity will see by an advertisement elsewhere in this paper, that Mr. Dorenwend, of the Paris Hair Works, 105 Yonge street, Toronto, is now in Peterborough at Phelan's Hotel, where he will remain till Friday evening. He has with him a very fine collection of Ladies' Water Waves, Water Frizzes, Switches, etc.; also gentlemen's wigs. Every person in want of a good article should make a note to call and examine his goods, as he is noted to keep the largest and best assortment in that line of any house in Canada. We especially recommend ladies to see his beautiful Water Waves. Mr. Dorenwend will attend at private residences if notice is sent to the hotel.

The Rule of the Road.

An exchange has called attention to the disadvantage of the "rule of the road" which is usually practised in Ontario, teamsters when meeting almost invariably turning out of the road to the right. As the driver always sits on the right side, in order to give him free use of his right arm, the two drivers when passing are on the sides of the vehicle furthest from each other, and cannot see how near to a contact their wheels are going. If the rule was to turn out to the left, as it is in the Maritime Provinces and in England, the person controlling the reins would be in a position to see exactly how close he was driving to the other vehicle, and many accidents would thus be avoided. In driving through crowded streets or on narrow roads the disadvantage is especially noticed. This subject is of sufficient importance to be taken notice of by some central authority—say the Provincial Legislature—when the rule could be changed and uniformly acted upon.

POLICE COURT.

DROKE.

THURSDAY, Aug. 24.—Patrick Daly appeared to answer to the charge of being found drunk, laid against him by Constable Pidgeon, and he did not deny the charge, as he said he "had no doubt that he was on a spree." Eight previous convictions were recorded against Patrick, but he urged that the last one was four years ago, and the Magistrate took this into consideration and fined him only \$2 and \$3 costs, or in default twenty-one days in gaol. "I'll not trouble you for four years more, your honor," said Patrick as he went out.

Horticultural.

The prize list of the Horticultural Society's exhibition are now ready, and may be had at Messrs. Ormond & Walsh's Drug Store.

Lacrosse Meeting.

A meeting of the Lacrosse Club will be held this evening at 8 o'clock at the St. James Hotel. Business of importance will be considered at the meeting, and a full attendance is requested, especially of the first twelve of the Club.

Work Progressing.

The stone work on the wheel house for the waterworks, at Hilliard's dam, is now completed, and the brick and wood work has been begun on it. The mains have been laid on Water street down to Brock street, and are being laid down on Simcoe street east from George towards the river.

Stocks and Shares for the Millions.

The stock of boot and shoes of the estate of the late Joseph Kaele has been sold to a Toronto gentleman, who we understand intends making a very large addition to the stock in every department. The store will be refitted throughout and a fresh new stock of about \$10,000 will be put in immediately, including a very large stock of home-made goods; also Trunks, Valises, etc. This stock will be sold at an enormous reduction. Intending purchasers will do well to make a note of it. Look out for advertisement next week.

Personal.

The Cobourg *Sentinel-Star* has the following complimentary reference to Dr. Halliday and his family, who recently took up their residence in Peterborough:—"Mrs. Halliday and family left Grafton last week to join the doctor, who moved to Peterborough about 3 months ago, taking the practice of Dr. H. C. Burritt, of that place. It is with regret that the people, not only of Grafton, but of Cobourg and the district, part with Dr. Halliday and his amiable family. The doctor is an able practitioner, and as a citizen was universally respected. Although sorry to part with him, we congratulate our sister town on the acquisition of so able a practitioner, and thorough a gentleman as Dr. Halliday."

Dr. W. H. Burritt has returned from a holiday trip, which we are glad to see has completely restored him to usual good health.

Mr. D. J. Lynch, son of Mr. F. J. Lynch, of Peterborough, has purchased the law practice of Mr. J. R. Brown, of Campbellford, where he intends to enter upon the practice of the legal profession. Mr. Lynch was a student in the law office of Mr. E. B. Edwards, and and latterly in Toronto, and passed the examination for barister very successfully at the last examination, standing third in a long list of successful candidates.

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Kidney Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

THE safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

TOKER & CO.

Welland Canal Enlargement.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this Office until the arrival of the Eastern and Western Mails on FRIDAY, the 1st day of SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Ramsey's Bend and Post Colborne, known as Section 24, embracing the greater part of what is called "Rock Cut."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 18th day of AUGUST next, where printed forms of tender can be obtained. Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the works, at the rates stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order, A. P. BRADLEY, Secretary.

Department of Railways and Canals, Ottawa, 15th July, 1882. 6415-law 2415

SATURDAY, AUGUST 26, 1882.

THE WAR IN THE EAST.

A BRILLIANT VICTORY GAINED OVER THE ARMY AT MAGAR.

Another Engagement at Mahalah 16,000 Egyptians held at Bay by 7,000 British. The Austrian Prisoners Released—Russia and Turkey Acting Together.

BATTLE OF MAGAR.

LONDON, Aug. 25.—General Wolsey in a despatch to the War Office recounts an engagement at Magar on Thursday, in which he held the ground the whole day against 10,000 Egyptians. His forces numbered about 2,000 men. General Wolsey says:—"I advanced this morning before daybreak with the Household cavalry, two horse artillery guns, thirty mounted infantry, and 1,000 men from the York and Lancaster regiments and marines. After some skirmishing we took possession of the dam which the enemy had constructed across the canal between the villages of Magar and Mahalah. During the operations two squadrons of the Household cavalry charged the enemy's broken infantry very gallantly. We soon found the enemy being largely reinforced from Tel-el-Kabir, and could see trains arriving. We thought it inconsistent with our traditions for the Queen's army to retire before any number of Egyptian troops, so we decided to hold our ground until reinforcements arrived. All day long I had the Egyptian force of 10,000 men with ten guns, in my front and right flank. The precision of the enemy's fire was good, but fortunately they fired common shell nearly all day, and when they did fire shrapnel their fuses were badly adjusted. The enemy had their cavalry regiments in line. Our horses having recently been on board ship were not in condition to gallop much. The two horse artillery guns were served with pluck and ability. Our casualties have been slight. Captain Hallam Parr was wounded in the leg. Lord Melgund received a wound through the hand. Captain Parr's mounted infantry distinguished itself. All the troops engaged did well. Tomorrow (Friday) I shall attack the enemy's position at Holenoke, and hope to take possession of the dam they constructed this morning. General Wolsey adds:—"I committed to say I had with me yesterday two Gatling guns worked by seamen, who did their work admirably."

ANOTHER ENGAGEMENT.

LONDON, Aug. 25.—"I pushed on again this (Friday) morning at daybreak. The enemy had strongly entrenched their position at Tel-el-Mahalah, and from the bold way they attacked us yesterday I hoped they would stand their ground to-day. They withdrew their guns, however, last night. My intention was to pivot on my left at the dam taken yesterday, swing round my right to take the enemy's position in the flank, and drive them into the fresh water canal, sending the cavalry completely around their position to occupy the railway in their rear, and capture their engines and rolling stock. Gen. Low attacked the rear of the enemy, routing them with considerable loss, taking 5 Krupp guns, 75 railway carriages laden with provisions, and a large quantity of ammunition and rifles. I intend tomorrow to occupy the Kassassin lock or the fresh water canal. Its position will secure a safe passage across the desert lying between Ismailia and the cultivated land of the delta. Our losses yesterday were five killed and fourteen wounded. Admiral Seymour has organized a boat service along the canal, which we shall depend upon for supplies until locomotives get to work."

PRISONERS RESCUED.

PORT SAID, Aug. 25.—Owing to the fall of the canal the Ismailia company has suspended dredging. The English made a reconnaissance on the 24th inst. towards Fort Ghemileh, which they found to be still garrisoned with Arabs. Damiatta has been captured. The sanitary agent of the British Government, a post office official, and two priests were found there. They had been loaded with chains for the last six weeks, and subjected to most terrible cruelties.

PROPOSALS FROM RUSSIA.

CONSTANTINOPLE, Aug. 25.—Following close upon the visit to Lord Dufferin of Asyem Pasha and Said Pasha came the Russian Minister. He stated that he had been instructed by his Government to signify to England through the British Minister at Constantinople that Russia was desirous of signing a military convention with regard to the occupation of Egypt providing that England would declare formally that she was willing to renounce all claims to self advantage from her present action in Egypt at the close of hostilities, and at the end of the war the British Government would submit all questions relating to the final solution of the Egyptian question to the decision of all the European Governments, through their ambassadors, in a conference to be assembled at Constantinople.

RISE OF THE NILE.
ALEXANDRIA, Aug. 25.—Reliable information has been received from the interior to the effect that the Nile is rising rapidly, but is much below the level reached this time last year.

THE ENEMY ENTRENCHING.

ALEXANDRIA, Aug. 25.—The enemy are pitching a number of tents, variously estimated from five hundred to one thousand, in front of their positions, but this is believed to be only a ruse to mask the withdrawal of their troops. It is now known that the enemy are entrenching at Helipoli, a few miles east of Cairo.

DE LEESEPE'S HEAD IN DANGER.

ALEXANDRIA, Aug. 25.—It is rumored that Arabi accuses De Lesepe of having deceived him with false promises, so as to be able to sell the Suez canal to the English, and that he has set a price on De Lesepe's head.

THE CAPTURED AUSTRIANS.

ALEXANDRIA, Aug. 25.—The Austrian man-of-war Nautilus remains off Aoukir. Efforts to obtain the release of her boats and crew, captured by the Egyptians on Monday, have been fruitless. The emissaries sent to Aboukir and Kafir-el-Dwar to endeavor to secure their release have not yet returned. The Austrian consul telegraphed De Lesepe regarding the detention of the crew, but the latter replied that he could give no assistance.

CONCESSIONS BY THE BRITISH GOVERNMENT.

CONSTANTINOPLE, Aug. 25.—Lord Dufferin to-day informed Said Pasha and Asyem Pasha that his Government yielding to some of the objections of the Sultan, was prepared to waive the demand that any movement of Turkish troops must be first approved of by the British. Lord Dufferin therefore proposed that the English and Turkish commanders should first deliberate together. If the English general should not approve of the proposed operations, the Turkish commander would still be at liberty to carry them out. Said Pasha urged that a landing of Turkish troops at Alexandria was indispensable for further combined action of the two armies. He suggested that Turkey would make Alexandria, which the British would evacuate, their base of operations, while the British base would be Ismailia. As far as regards military affairs, this is the only point of difference between Lord Dufferin and the Porte.

RUSSIA AND TURKEY ACTING TOGETHER.

CONSTANTINOPLE, Aug. 25.—Lord Dufferin was considerably taken back at the positive way in which the Turkish and Russian suggestions were made, and at the apparently concerted time at which they were submitted to him, and it is understood that he notified the House of Commons that Russia and Turkey had reached a mutual understanding detrimental to the present interests of England in Egypt.

By Telegraph to the Review.

THE MECCA PILGRIMS.

CONSTANTINOPLE, Aug. 25.—Lord Dufferin promised that pilgrims to Mecca will be permitted to traverse the Suez canal as usual.

REDOUBTING THREATENING.

ALEXANDRIA, Aug. 25.—It is stated that two thousand Albanians have been collected for service in Egypt in the quarantined and other departments, as it is feared that the native troops cannot be trusted. Troops are urgently required at the quarantine station at Mossa Wells, near Suez, as the attitude of the Bedouins there is threatening. The blocking of the Egyptian coast was established yesterday.

MORE TROOPS WANTED.

LONDON, Aug. 26.—The Standard says it has reason to believe that Gen. Wolsey has applied for more troops. This, it adds, probably means the third division of the army corps now mobilized at Aldershot.

ANXIOUS FOR PEACE.

ALEXANDRIA, Aug. 26.—Tanzian merchants who escaped from Kafir-el-Dwar, report that the country is thoroughly discontented with Arabi, and are anxious for peace.

RUSSIAN APPROACH AND RETIRE.

ALEXANDRIA, Aug. 26.—The enemy approached our lines, apparently endeavoring to cut off the British outposts near the Mahmoudieh canal, but retired when the alarm was given.

THE AUSTRIANS LIBERATED.

ALEXANDRIA, Aug. 26.—The Austrian boat's crew of the frigate Nautilus, who were captured by the Egyptians, have been liberated and arrived here this morning.

THE MAGAR BATTLE.

ISMAILIA, Aug. 26.—The enemy's loss in the fighting on Thursday with Gen. Wolsey is estimated at eight or 10,000. The very first shell fired by the enemy on Thursday passed within a few feet over Gen. Wolsey's head and took off the leg of a horse ten yards behind him. The enemy throughout the fight declined to come to close quarters. The two gunners killed were struck down by shrapnel near Gen. Wolsey's position. The troops behaved well. They were without food or water, after marching ten miles through heavy sand. The enemy's cavalry swept around the British right flank, but did not come within striking distance. The Egyptian fire was too hot for the life guards to cross the open space towards them. The British infantry passed down lying down behind the banks and in the ditches. After the engagement on Thursday Gen. Wolsey rode into Ismailia and returned late in the evening.

THE ENEMY'S COWARDICE.

ISMAILIA, Aug. 26.—Reinforcements arrived during the night, but the guns did not arrive until early the next morning, having had great difficulty in getting through the sand. At daylight it was found to the great disappointment of the British that the main body of the enemy had withdrawn. The Egyptian artillery fought well and fired much more accurately than at Kafir-el-Dwar. The infantry were contemptible and the cavalry little better; many of both were observed breaking from the ranks and dispersing under the fire of the shells.

Mother's! Mother's!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, at once get a bottle of MRS. WIGLAW'S SWEETENED SYRUP. It will relieve the poor little sufferer immediately. Depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold every where. 2 cents a bottle. 37c a dozen.

THE FLEAS!—Little played away up on THURSDAY makes it all the cheaper, most perfect, and most effective of all toilet requisites. Get a 1-cent sample.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

A LECTURE SWINDLE.

PORT JARVIS, Aug. 26.—Many people were swindled here buying lecture tickets from a man claiming to be Oscar Wilde's agent.

BOOKKEEPER DISAPPEARED.

FALL RIVER, Mass., Aug. 26.—John Kling, an abductor and the Daily Herald's bookkeeper, has disappeared. An expert is examining his books. His friends claim that he is only on a spree.

CORNELL EXPLAINS.

NEW YORK, Aug. 26.—The Times publishes an interview with Governor Cornell. The latter explains matters touched upon in recent statements by Tillotson and Jay Gould, and maintains that there was nothing in the transaction in question involving either turpitude or impropriety.

PLAYING WITH COAL OIL.

PORT JARVIS, Aug. 26.—Elijah Bythe's children, aged 10 and 12 years, yesterday poured kerosene into the stove and an explosion followed. One child has died and the other is dying.

LARGE SURPLUS.

WASHINGTON, Aug. 26.—It is stated that the surplus in the post office department for the quarter ending June 30th was a million dollars.

ASSIGNMENT.

NEW YORK, Aug. 26.—Louis Wollstein & Co., manufacturers of clocks, shirts and suits, on White street, have assigned; liabilities \$45,000. It is reported that the Santa Anna Valley Bank, of Santa Anna, Col., has closed. It is said that the assets cover the liabilities.

FATAL ROW.

WALIBERRY, N. Y., Aug. 26.—In a bar-room row here on Thursday, Joseph Maxwell and Wm. Riley, killed Wm. Gilmore to death.

A JUDGE DEAD.

RICHMOND, Va., Aug. 26.—Judge Richard C. L. Moncure of the Virginia Court of appeals, died to-day, aged 77.

LARGE FIRE.

REDFORD, N.S., Aug. 26.—A fire at No. 1's mills did damage to the extent of \$40,000.

A WATERBOAT.

ALEXANDRIA, Aug. 26.—A waterboat caused headwinds creek above Stephenville to overflow, destroying property amounting to from forty to a hundred thousand dollars. Mrs. Hart was drowned, her house being dashed to pieces. Other families were saved by climbing on the roofs and trees till the water subsided.

THEFT.

LONG BEACH, Aug. 26.—It is now stated that the jewelry stolen from Wm. Carr and wife at an hotel here the other day by parties who opened the room door with false keys in the absence of the occupants was valued at \$7,000.

FLOODS IN TEXAS.

CORPUS, Texas, Aug. 26.—Heavy rains have caused the north and main Colorado rivers to inundate the towns of San Antonio and Bon Viclin, washing away houses, hotels and stores. The loss is estimated at several thousand dollars. The people have all fled to the adjoining hills. The water is now falling.

MIDNIGHT TELEGRAMS

CABLE.

KILLED BY HIS WIFE.

WORTHINGTON, Ind., Aug. 25.—Wm. Chapman for several days had been watching his insane wife, who was about to be sent to the asylum. Last evening, being fatigued, he fell asleep and his wife killed him by cutting his throat with a razor.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Aug. 25.—Telegraphic advices to Bradstreet's Journal to-day from leading trade centres report a continued improvement in the crop situation in the north-west and west. There is no chance to record as to damage to cotton from rains. General trade continues to expand in volume and points to a heavy fall trade. The industrial situation has slightly improved. The coal strikes in Maryland and Pennsylvania, and the labor troubles at Cohoes, N.Y., have been formally broken. The situation among the iron strikers at Pittsburg is more in favor of the employers than ever. The failures reported throughout the United States during the week were 102, or 16 less than last week and 33 more than in the corresponding week last year. Canada had eight failures.

FATAL EXPLOSION.

The Erie Elevator at Buffalo Destroyed—Three Lives Lost.

BUFFALO, N. Y., Aug. 25.—The roof of the Erie railway elevator was blown off by an explosion, the cause of which is unknown, at 11 o'clock last night. The building was at once fired and burned to the ground. The firemen did some wonderful work in confining the flames to the elevator, with the exception of one or two small shanties. The engineer, John Bonnar, John Kemp and Henry Lee are supposed to have perished. Timothy Driscoll had his skull smashed in and his right leg broken; he will die. These are all that are known to have been in the building at the time of the fire. At this hour (2:05 a.m.) all is confusion, and it is impossible to get the list of insurance. The loss will probably be over \$250,000; probably insured. The fire was the hottest ever seen in Buffalo, and was a most magnificent spectacle. Many thousands of people were attracted to it.

"TWENTY-FOUR YEARS' EXPERIENCE."

Dr. J. C. Allen, a physician, says that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Food, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 30 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money if the treatment does not effect a cure. See ad't in another column.

This prescription of a skillful physician, and composed of vegetable drugs of great medicinal power, Dr. J. C. Allen's Magnetic and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Ad'd by J. L. Tully, at 30 cents a bottle.

SATURDAY, AUGUST 26, 1893.

THE BOUNDARY QUESTION

Tax so-called "Reformers" are so little in the habit of giving fair play to a government of their opponents or of sparing any attempt to harass them, that they cannot understand such liberal conduct in others. With the *Globe* at their head they are now assailing Mr. Meredith, the leader of the Conservative Opposition in this province, because last year he agreed to resolutions calling for a ratification of the Ontario award and this year he declined to do so. On this account he is accused of inconsistency, treachery, corruption and we know not how many other hideous crimes.

Even if Mr. Meredith had changed his mind these dastardly accusations would be unjustifiable, but the truth is that it is not his mind but the circumstances that have changed, and in a new position of affairs adherence to the old line of action would be folly, not consistency.

In the beginning of 1881 the arbitration as to the boundary was open for acceptance by the Legislature of the Province and of the Dominion. The Provincial Legislature accepted it both in advance and after it was given, and they now passed resolution urging its adoption by the Dominion. Mr. Meredith and his friends, though not altogether satisfied with the award, did not choose to cripple the administration of the Province in their efforts to procure its acceptance, but strengthened their hands in advocating a settlement which the government of the day took the responsibility of sanctioning on behalf of the Province. It is sometimes well to accept less than one's legal rights, and the Conservative opposition deemed it fit to bow to the decision of those in power as to the expediency of doing so in this case. They were no factious opposition.

At the time of the session of this year, the Dominion which had reserved the power of ratifying the arbitration or not, had declined by its Parliament to accept the award. The Dominion Government then offered the better means of an appeal to the Imperial Privy Council, the highest court of the realm to settle the question. This did not suit Mr. Mowat and his supporters, who immediately commenced an electioneering campaign against the Dominion Government, and declining to accept the reasonable offer made to them, clamoured for the ratification of the award, and darkly hinted at secession.

Mr. Meredith and his friends declined to be made a party to this political dodge. Knowing that they could not legally coerce the Dominion into accepting the award, and believing that a decision by the Privy Council would be in every way more satisfactory, they very properly advocated that course. If this advice had been taken the question could have been speedily and authoritatively settled, and Ontario would have obtained her full rights instead of only clamoring for a portion of them and postponing the decision indefinitely with the view of making party capital as Mr. Mowat is doing.

If Mr. Meredith is to be blamed at all it is for having been, in 1881, too credulous of the good faith of the Mowat Administration, and of their good judgment in accepting this insufficient award. Subsequent events have thrown an additional light upon the wisdom of his course in the last session of the Legislature. In addition to the confession of one of the arbitrators of the unfair manner in which they gave every doubtful point against this Province, we have the statement in Parliament of the Quebec leader of the allies of Messrs. Blake, Mackenzie and Mowat that he supported the award because he feared a competent court would do us fuller justice, and give us all our rights.

If the people of Ontario wish to have our boundary fixed where it should rightfully be, by the decision of a final and impartial court, they will repudiate Mr. Mowat, who for partisan purpose is urging the acceptance of a portion only of our rightful territory, and is putting obstacles in the way of a speedy settlement, that he may still keep the question for an election cry.

THE BOTHWELL ELECTION.

It is with a feeling of satisfaction that a petition has been filed against the return of Mr. J. J. Hawkins as member of Parliament for Bothwell. We will now have the facts and the law as applied to them by a competent court, instead of a series of virulent attacks upon a variety of individuals, no two of the accounts, as far as we have seen, agreeing as to the facts. The petition seems to cover the whole ground, not only containing the usual bribery and other

illegal means, but also raising the questions of the action of the deputy returning officers, the election clerk, the returning officer, the County Judge, and the final return, concluding with a claim of the seat for Mr. David Mills. Thus the whole subject of the doings of the two candidates and their agents and all the officials connected with the election can be brought fully before the Court. Whatever the result may be, it should at all events have the good effect of putting an end to all the outrageous partisan abuse, that has been showered around so copiously.

For ourselves we only desire that the candidate who has been rightfully chosen may obtain his seat, and that is in a fair way of being properly determined.

LINDSAY'S MANUFACTURERS.

The Peterborough Review says: "We are informed by a Lindsay paper that Mr. James Hamilton shipped on Wednesday another carload of waggons, buggies and a line 'bus to his agent in Brandon, Manitoba. May we congratulate a Lindsay manufacturer upon this beneficial effect of the National Policy, or should we prefer that the Brandon people should buy their vehicles in the States according to the programme of the Opposition?"

To this the *Globe* replies:—"Certainly our contemporary may congratulate the manufacturer on the beneficial effect of the N. P. if it chooses to do so, but it will only be exposing its ignorance. The present condition of business in the United States is such as to prevent them shipping goods to the Northwest to compete with our manufacturers, altogether irrespective of the tariff. Their manufacturers, like ours, are over run with work, and their principal object just now is to fill orders on hand rather than to seek for additional markets. An all kinds of vehicles of American make are selling at higher prices than prevail on this side, the Brandon people would not make their purchases abroad even if there were no tariff to prevent them."

Now, we happen to know from this manufacturer, and who by the way is a Unit in all else but this, that the present tariff is an assistance to him in the sale of these manufactures at Brandon. He would of course like the tariff on iron reduced somewhat, but owing to the much larger market and the consequent greater sale he can turn out his vehicles as cheap, and still have better profits than when the Continental and Leyton vehicles flooded the country and he was confined to a merely local trade. The *Globe's* assertion that the American prices for these manufactures is higher than on this side is equally incorrect. We have the same authority for saying that those manufactures are constructed cheaper than they are here but not so substantial, and this fact is so well known in the Northwest and elsewhere that people on this side will not buy while vehicles can be manufactured here at about the same price. *Lindsay Worker.*

MEREDITH EXPOSED

The Hamilton Spectator in an article on the Provincial campaign issues says:—"What then is 'the issue in the Local election?' It is—'Speak it softly'—the union in danger. Sir John intends to destroy it. He is going to take away the rights of the Province. Well, that is serious, if true. But where is the evidence? Why, Sir John has dissolved Provincial legislation and has refused to ratify the alleged award of the arbitrators who were appointed to find the northwestern boundary of Ontario, and who, not being able to find it, invented a new one. And so the cry is to be that 'the union is in danger.'"

"Now, this is humbug. The union is not in danger. Mr. Mowat does not believe it is in danger for a single instant. Nobody has invaded the rights of Ontario or of any other Province. The Province has certain rights guaranteed them by the British North American act, and if the Dominion Government invades those rights the Imperial authority can be invoked to guard them. Has Mr. Mowat appealed to Britain against any invasion of Provincial rights? No. Then when he affirms that Provincial rights have been invaded he affirms that he has neglected his duty and violated his oath of office. But his practical charge against himself is not true. He has not neglected his duty in that respect because none of the rights of Ontario have been invaded or even endangered."

An American company with live bloodhounds and realistic scenery are astonishing London with Uncle Tom's Cabin.

Dr. Cattaraugus has destroyed your sense of smell and hearing. Hall's Cattaraugus Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

The Rev. Charles E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

ROBBED

Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

Which positively and permanently cures Impotency (caused by excesses of any kind, venereal Weakness, and all diseases that follow as a consequence of self-abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circular with testimonials free by mail. The INVIGORATOR is sold at \$1 per box, or six boxes for \$6, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

JOHN McKEE, Druggist, 40-42 George Street, Agent for Peterborough.

Notice to the Public.

We will in future carry on the business formerly conducted by MR. GEORGE TAYLOR as a Pumpmaker, on Charlotte Street, Peterborough. Having a complete knowledge and long experience of the business, (Mr. Wright has been for 12 years in Mr. Owens' Pump Factory), we hope to give satisfaction to our customers by supplying a First-class article at Reasonable Prices. Repairing promptly attended to.

WRIGHT & PAYTON,

August 14th, 1892. (Charlotte Street, Peterborough. 816-817-818)

Aluminium Pens

The undersigned have been appointed Sole Agents in Peterborough for the above Pens manufactured by H. JACOBS & CO., London, England.

Price \$1.50 per gross, or 20 cents per dozen.

TOKER & CO.

There is no excuse for suffering from

CONSTIPATION

and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S

MADRID BLOOD PURIFIER

will give immediate relief, and in a short time effect a permanent cure. After constipation follows

Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will

speedily cure by removing the cause. Keep the stomach, bowels, and digestive organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters.

Being tonic and mildly purgative they PURIFY THE BLOOD

by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

Solely by all druggists in medicine. Send address for pamphlet, free, giving full directions.

HENRY, JONAS & LEO, PHOS. MONTREAL.

DISTRICT INTELLIGENCE

ILLUSTRATION.
LAWYER.—The *Freemason* says that a late match was played on the Millbrook grounds today, the 23rd inst., between a juvenile club from Fort Hope, and one from Millbrook, and resulted in a victory for the home youths by three games to one, Millbrook taking the first, second and fourth games.

FORECAST.
THE CENTRAL.—The *Sentinel-Star* says that the preparations for the Central exhibition, to be held here next month, are being pushed rapidly forward. It is anticipated that the show of stock and produce will be very large, and we trust that many of the prizes will be kept in this section of the country. Our farmers have about a month yet in which to look up, and prepare their exhibits.

FORWARD.
CONTRACT.—The *Register* says that Mr. Geo. Hendren has secured a contract for building 22 cars for Messrs. McDonald & Hendrie.

PROGRESS.—Work is progressing rapidly on Mr. Brennan's Hotel. When completed it will be quite an ornament to the street.

BRICK-WORK.—The masons engaged in building Mr. Fraser's dwelling house on Queen street, commenced laying the brick last week.

BUILDING.—Mr. R. Wilson, harnessmaker, is having a shop erected between Mr. Brennan's hotel, and Mr. Fraser's hardware store on Colborne street.

BOARDING HOUSES.—The Messrs. Harpess have secured the contract for building five or six boarding houses for Mr. Sims, contractor for the five mile section of the O. & N. Ry, in the vicinity of Havelock.

HASTINGS.
DARING ROBBERY.—The Ontario of Thursday says that a daring burglary took place at Hastings last night in the (large) shooting station and freight shed. The admit robbed a widow in the freight shed sometime during the night, and by this means gained access to both buildings. In the freight shed there was a large quantity of general merchandise, commercial travellers' trunks, clothing and other articles of more or less value. Several pairs of boots were stolen, a large quantity of tobacco, some overcoats and underclothing, and it is probable other articles have been taken but at the time our informant left the village (which was at an early hour this morning) it was impossible to ascertain the exact extent of the robbery. The goods in the trunks were taken out and thrown promiscuously about the shed. There was nothing missing from the station house of much value. The safe contained a sum of money, but strange to say it was untouched, notwithstanding the key was left in the lock. No arrests have been made as yet.

PORT HOPE.
SHORT WORK.—The *New News* says that a wagon left too near the railway track, the back of J. & T. Wicket's store, was reduced to a dilapidated state by coming in contact with a train. It didn't take more than a second to do it either.

BILLIARDS.—The *Times* says that at Monday's session of Council a By-law regulating billiard rooms was passed. The following are some of its provisions:—Billiard rooms in connection with a hotel pay \$100 for the first table, \$20 for the second table and \$10 for the third. Billiard rooms not in connection with any hotel pay \$50 for the first and \$10 for all extra tables. No gambling for drinks or any other consideration is allowed in the rooms, and no liquor is allowed to be taken in or drunk where billiards are being played. No one under 17 years is allowed to frequent or play in these places of amusement. Frequenters who violate the provisions of this By-law are liable to a fine of not less than \$5 and not exceeding \$50. Proprietors of billiard saloons who infringe are liable to a fine of not less than \$5 and not exceeding \$50. Billiard parlors are to close at 11 o'clock each night, except Saturday, when they will close at 7 o'clock.

LEGISLATION.
GAS WORKS.—The *Post* says that several large pieces of the fitting for the gas works have been unloaded (at the union station, including the oil tank and connections for carrying the gas to the gasometer. More is to follow as soon as the premises are ready to put them in.

GROUND IMPROVEMENT.—The grounds around the separate school buildings have been under the care of Father Stafford, fearfully gone over and improved. The walks are re-covered with fresh gravel and coal ashes, and the flower beds and grass trimmed.

OBITUARY.—On the 20th inst., at the home-stead, near Downeyville, passed away one of the first settlers of the township of Emily, Dennis O'Donoghue, at the ripe age of 80 years. The deceased came to this part of Canada from County Cork, Ireland, in the year 1825, under what is historically known as the Robinson Emigration, and settled in Emily when the township was a trackless forest without a house for many miles around. He lived on the farm since his settlement and raised a large family, 4 sons and 6 daughters, who are among the most respected residents of the surrounding township. He was very well connected in the old country and was personally and in his intercourse with all a man of upright principles and strictest honesty. His death is regretted by a large circle of relatives and friends and by all who knew him. The funeral took place on Monday, the 21st inst., to the Catholic cemetery, Downeyville.

KILLED BY THE WOODS.—The *Wanderer* says that the body of a man named McDonald was taken to Toronto Monday over the Midland Railway. The unfortunate fellow was engaged as a lumberer in the woods north of Halliburton, and while felling a tree a couple of days ago was struck on the head by it and terribly injured. The remains, which were shipped on ice, were placed in a coffin at the Union station, Toronto, and subsequently sent to Glangarry, where his friends reside for interment.

PERSONAL: To Men Only.
The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

SILVERWARE.

At the CHINA HALL you can buy a better article in Finest Quadruple Plate, cheaper than at any other house in Peterborough. By importing our Silverware direct from the Manufactory, we CAN and WILL undersell all other dealers. The LARGEST STOCK, the NEWEST DESIGNS, the BEST QUALITY, and the LOWEST PRICES!

CORNER SIMCOE AND GEORGE STREETS. } MACFARLANE WILSON.

FROM ALL OVER.
A VERMONT farmer has invented a water telescope with which he claims he can see a five-cent piece in 40 feet of water.

The apple crop in Massachusetts will be very light. The apples are dropping from the trees in great numbers on account of the drought.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

Two Indians men built a skiff in a cellar where the air was comfortably cool, and then worked three days in the boiling sun digging it out.

A TUMPAHUT (Ohio) County farmer has not cleared his sheep in five years, claiming that God intended that the sheep should wear their wool.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

A MEMBER of the Board of Trustees of Millville, Iowa, advocated an ordinance to compel every adult resident to go to church once every Sunday.

PENNSYLVANIA parties have sent to Germany for 200 servant girls, to be held under a year's contract, with the privilege to employer of two years.

A WEST VIRGINIA farmer recently sold a black walnut tree for \$800, which was but a little less than the sum he paid for the tract on which it grew.

AFTER you have rubbed with almost everything that has been tried with the balance for rheumatism—give St. Jacobs Oil a trial and surprise yourself.

A BOY of six and a girl of two, at Ballardville, Neb., are mated for marriage by their parents, who have signed an agreement that the wedding shall occur in 1897.

YOUNG, middle-aged, or old men, suffering from nervous debility or kindred afflictions should address, with two stamps for large treatise, World's Dispensary Medical Association, Buffalo, N. Y.

A PROVIDENCE Methodist pastor has asked his presiding Elder if there would be any harm in a clergyman taking lessons in boxing, for exercise only. The answer has not yet been given.

KING LOUIS has given to Wagner two well-trained swans, which have drawn the small boat containing King Highness, habited as Lochengrin on the blue and moonlit waters of the lake in the neighborhood of the royal castle of Hohen-swanegg.

MOST Worm Medicines are so unpleasant that mothers are obliged to force them down the throats of the innocent. This unpleasant task is obviated by using Dr. Smith's Great German Worm Remedy. 25 cents at J. McKee's, drugist, Peterborough.

KING ALFONSO has made magnificent presents to his subjects. The Prince of Wales received tapestries worth more than \$30,000. To the others are sent specimens of Toledo arms encrusted with gold.

GENERAL DEBILITY AND LIVER COMPLAINT.—R. V. Pierce, M. D., Buffalo N. Y., Dear Sir:—My wife has been taking your "Golden Medical Discovery" and "Pell's" for her liver and general debility, and has been cured by the good medicines, and would recommend them to all sufferers from Liver Complaint, Sour Stomach, and General Debility. Yours fraternally, R. V. Pierce, M. D., Church, 12, Elmhurst, N. Y.

BED-RIDDEN AND CURIED.—W. E. Huettel, of Emporia, Kansas, says that his wife has been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Invenigor, which has never been known to fail in curing a single case of impotency, spermatorrhoea, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental satisfaction, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, drugist.

WILL YOU EXCHANGE
a case of **Dyspepsia or Biliousness** for 75 cents? It is fully unwisely to agonize unduly over the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver**, when this offer is made to you in your own home in all sincerity.

ZOPESA (from Brazil) cures **Dyspepsia and Biliousness**. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the **Stomach, Liver, and Kidneys**. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure **Dyspepsia and Biliousness**.

SULPHOLINE LOTION.—An EXTERNAL
MEANS OF CURING SKIN DISEASES.—There is
scarcely any eruption but will yield to "Sulpholine"
in a few days, and commences to fade away, even if it
is a bad case. Ordinary pimples, redness, blotches,
eczema, ringworm, and all the skin diseases, even if it
is a bad case, will be cured by "Sulpholine". It destroys
the germs which cause these unsightly, irritable,
painful eruptions, and always produces a clear, healthy
condition of the skin. "Sulpholine" Lotion is
sold by most Chemists. Bottles, 25 cts.

SULPHOLINE LOTION.—A FLUID PREPARATION
ITSELF, is the most potent remedy to all skin dis-
eases. Nothing like Sulpholine has ever before been
produced, nor is there anything else in the least de-
gree comparable for its Healthy Action on the Human
Skin.

SULPHOLINE LOTION.—The first idea of
Sulpholine was taken from a prescription of the
late Dr. Martin, and every year it is used with more
and more favorably to its widely increasing reputation.
Anyone, however deeply and hopelessly afflicted with
Skin Disease, should apply Sulpholine as quickly as
possible. In any of these cases it effect will be
apparent in a diminished appearance of the malady, a
growing tendency to fade away, and complete oblitera-
tion of the eruption.

SULPHOLINE LOTION.—BOTTLES CON-
TAINING NEARLY HALF A PINT.—SOLD BY
CHEMISTS EVERYWHERE. Made in London, Eng.

and all other symptoms of disordered liver and dyspepsia.
Acknowledged by many eminent surgeons to be
the safest and most potent pills for every constitution.
In Boxes at 1s. 1d., 2s. 6d., and 4s. 6d.
Sold by all Chemists and Druggists throughout
the world. Prepared by J. A. R. King, London. Specially
valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC
strengthens the nervous and muscular system,
improves digestion, animates the spirits, and builds
up the system. For debilitated health from the effects of
fever or other ailments it is invaluable.

PEPPER'S QUININE AND IRON TONIC
purifies and develops the nervous system, enriches
the blood, promotes appetite, dispels languor and
depression. Fortifies the digestive organs. Is a
specific remedy for neuralgia, ague, indigestion, fever
of every kind, chest affections, and in wasting diseases,
scrofulous tendencies, &c. The whole frame is greatly
invigorated by Pepper's Tonic, the mental faculties
brightened, the constitution greatly strengthened, and
a return to robust health certain. Bottles, 25 cents,
50 cts., and 1 lb. Sold by chemists everywhere.
The name of J. Pepper, Bedford Laboratory, London,
must be on the label. There is no Tonic so certain in
effect as Pepper's Quinine and Iron. It is strongly re-
commended to residents in India and the Colonies, and
should always be kept ready for use in every case of
fever or febrile condition.

KENDALL'S SPAVIN CURE

KENDALL'S SPAVIN CURE.
The most successful remedy ever discovered, as it is
certain in its effects and does not blister. READ
PRAISES BELOW.

From Rev. P. N. GRANGER,
Presiding Elder of the 4th Albany District.

St. Albans, Vt., Jan. 26th, 1880
Dr. H. J. Kendall & Co., Gentles:—In reply to your
letter I will say that my experience with Kendall's
Spavin Cure has been very satisfactory indeed. Three
or four years ago I procured a bottle of your agent,
and with it, cured a horse of lameness caused by a
spavin. Last season my horse became very lame and
I turned him out for a few weeks when he became
better, but when I put him on the road he grew worse,
when I discovered that a ringbone was forming, I pro-
cured a bottle of Kendall's Spavin Cure, and with less
than a bottle cured him so that he is not lame, neither
can the bunch be found.

Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.
Hingham, Mass., March 16th, 1880
Dr. H. J. Kendall & Co., Gentles:—In justice to you and
myself, I think I ought to let you know that I have
removed two bone spavins with Kendall's Spavin Cure,
one very large one, don't know how long the spavin
had been there. I have owned the horse eight months
it took me four months to take the large one off and
two for the small one. I have used ten bottles. The
horse is entirely well, not at all stiff and no lameness
to be seen or felt. This is a wonderful medicine. It is
a new thing here, but if it does for all what it has done
for me, its sale will be very great.

Respectfully yours,
CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild
in its action, as it does not blister, yet it is potent
and powerful to reach every deep seated pain or to
remove any bony growth or other enlargement, such
as spavins, splints, curbs, callosities, sprains, swellings,
and lamenesses and all enlargements of the joints or
limbs, or rheumatism in man and for any purpose for
which a liniment is used for man or beast. It is now
known to be the best liniment for man ever used, curing
mild and yet certain in its effects.

Send address for Illustrated Circular which we
think gives positive proof of its virtues. No remedy
has ever met with such unqualified success as ours
to our knowledge, for honest as well as man.

Price 50c per bottle, or six bottles for \$5. All drug
stores have it or can get it for you, or it will be sent
to any address on receipt of price by the proprietor,
DR. H. J. KENDALL & CO., Peterborough, Pa. Vt.
Lyman Stone & Co., Montreal, P. Q., Wholesale
Agents. 41-1

Will You Exchange
a case of **Dyspepsia or Biliousness** for 75 cents? It is fully unwisely to agonize unduly over the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver**, when this offer is made to you in your own home in all sincerity.

ZOPESA (from Brazil) cures **Dyspepsia and Biliousness**. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the **Stomach, Liver, and Kidneys**. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure **Dyspepsia and Biliousness**.

Use all the Year Round
JOHNSTON'S
SARSAPARILLA
LIVER COMPLAINT, DYSPEPSIA
And for Purifying the Blood.

It has been in use for 30 years, and has
proved to be the best preparation in the
market for **SKIN DISEASES, RHEUMATISM,**
THE RHEUMATISM, GOUT, LIVER COMPLAINT,
DYSPEPSIA, PILES, and all Diseases
that arise from a Disordered Liver or an
impure blood. Thousands of our best
people take it and give it to their chil-
dren. Physicians prescribe it daily. Those
who use it once, recommend it to others.
It is made from Yellow Dock, Honeysuckle,
Sarsaparilla, Wild Cherry, Sillitoe,
Dandelion, Sassafras, Wintergreen, and
other well known valuable roots and
Herbs. It is strictly vegetable and cannot
hurt the most delicate constitution.
It is one of the best medicines in use for
regulating the bowels.

It is sold by all responsible druggists
at one dollar for a quart bottle, or six
bottles for five dollars.

Those who cannot obtain a bottle of
this medicine from their druggist may
send us one dollar, and we will send it
to them.

Daily Evening Review

SATURDAY, AUGUST 26, 1882.

LOCAL AND MUNICIPAL.

Another Blank.

There was another blank at the police court this morning. No arrests were made and no cases came up.

The Crossings.

When the waterworks mains were laid on the streets the places where the streets cross were passed over. The pipes are now being put in at these intersections.

The Market.

The attendance on the market this morning of both buyers and sellers was large. Eggs were plentiful and were selling at 17 cts. per doz., but butter was scarce and sold at 24 to 25 cts. per pound. Potatoes were unchanged at 30 cts., and apples at 25 to 30 cts. per peck. Vegetables are coming in in larger quantities and lowering a little in price.

The Weather.

To-day the weather, although partly cloudy, is very warm. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate winds, mostly easterly, fair to cloudy weather with light local showers, more particularly in southwestern Ontario, stationary or lower temperature.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:—

Name.	Place.	Date.
West Riding	Peterborough	Oct. 3rd & 4th
East Riding	Norwood	Oct. 10th & 11th
Horticultural	Peterborough	September 7th
Central	Osborne	Sept. 20th to 29th
Provincial	Kingston	Sept. 10th to 22nd
Smith	Lakeland	Sept. 20th & 29th
Commercial & Lakeside	Lakeland	Sept. 20th & 29th
North Victoria	Lindsay	Sept. 20th & 30th
Industrial	Toronto	Sept. 5th to 16th

Railway Notes.

The Norwood Register says that Messrs. McDonald and McMahon, Contractors for the five-mile section of the Ontario and Quebec Railway running through this village, commenced work on the 11th inst., with about fifty men. The trees on "Orange Hill" were first laid low, and then the hill itself attacked with pick-axe and shovel. Our blacksmiths and bakers are kept busy night and day. More men are being hired every day.

The Band.

The Fire Brigade Band gave their usual Friday night open-air concert on their stand last night, and we may say that, although on previous occasions the band have played in a first-class manner, yet last night they surpassed all former rehearsals of this kind. The night was all that could be desired, and the citizens turned out en masse to listen to the music. Several very fine selections were rendered in a very creditable manner, the rendition of "Knight Templar" being faultless. Where all the members of a band play their individual parts as well as those forming the Fire Brigade Band, it is a difficult thing to make any discrimination, but Mr. E. McCabe is deserving of special mention. His euphonium solo was always played with a taste and feeling that is seldom shown by another solo player, and it is a treat to listen to him.

Smart.

Lindsay, in the estimation of its own people, is a smart town, and, as it carries out the delusion, the name of the chief of police is also Smart. Well, that individual has on former occasions given our officers considerable trouble, but after a little incident that occurred this morning it is altogether probable that they will be cautious about acting on his telegrams in the future. On Friday morning a telegram and a letter containing a very full description of an individual, said to have stolen \$75 from the Midland railway office at Lindsay, was received by Chief Johnston from Chief Smart, who asked for the arrest of the person described. The officers were at once on the qui vive and they soon "spotted" their man. At an early hour this morning he was arrested and placed in the county jail. Smart was made aware of the fact at once and asked to come for his man, when, carbon to relate, he telegraphed that it was a mistake and asked to have the arrested person liberated. Such was at once done, but until an innocent man had had three hours experience of a Canadian justice. Of course the victim and the officers are indignant, and for the future all of Smart's telegrams may not receive as prompt attention, unless he comes forward with a satisfactory explanation.

Change of Name.
In future Young's Hotel Ashburnham will be known as the Albion Hotel.

Accident at Nassau Mill.

On Thursday a circular saw at the Nassau Mill was broken. While it was running at a rapid rate, a slab which was being cut, caught the saw, and it burst and flew to pieces. The saw will be speedily replaced.

Lacrosse.

The Belleville Ontario says that the Okeas will probably play a match with the Peterborough Lacrosse Club during the latter part of September. We presume this means that the Okeas would be willing to play with the Peterboroughs about that date.

Kicked by a Horse.

Mr. E. Brown, of Peterborough, received a severe kick from a horse on Friday at Lakefield. The animal's foot struck him on the mouth, loosening several teeth and injuring his lip, and his escape from even more serious injury was a narrow one.

Scanned their Uniforms.

Our Police constables—Messrs. Pigeon and Adams—donned their new police uniform this morning, and they become them well, evidently fitting the regimentals as well as they do their positions as constables. The uniform was made at Mr. T. Dolan's, and is well made and quite tasty, and the constables will no doubt now be even a greater terror to evil doers.

Enlarged Photographs.

We have had the pleasure of visiting Mr. G. B. Sproule's studio and seeing several enlarged photographs finished in oils. There are, among others, portraits of Mr. James Wallis, Mr. Lewis, (father of the Manager of the Bank of Montreal) and the late Mr. William McDonnell, Jr. of Lindsay. They are not only works of art, but are also excellent likenesses. Mr. Sproule's gallery is always worthy of a visit.

WILKINSON.

COUNTY AND COMPANY.—The Ecclesycan Independent says:—A meeting of the municipal council took place on Saturday. The interesting event of the meeting was the presence of Major Evans, the representative of the English Land Company, who addressed the Council at some length, on the injustice of the County Council in taxing the company and the municipalities, for the benefit of the roads in the other municipalities. Major Evans represented to the Council that the English Company had spent, in addition to the amount allowed by government, some thousands of dollars of their own money on roads and bridges in the municipality. Since the formation of the county, the municipality of Dymark had been assessed for County rates, \$32,000, whereas the eight other municipalities, altogether, had only been assessed \$31,700. Dymark had paid the whole of its assessment, but the other municipalities still owed upwards of \$3,700 on theirs. What the County had ever done for Dymark he had yet to learn. The only occasion on which the County co-operated with Dymark was the railway project, and in that enterprise the Company, out of its own funds, had given \$50,000 and the county \$35,000, and the chief burden of the latter amount had to be borne by the Company, it being the largest taxpayer, and will have to pay at least \$30,000 of this amount. Under these circumstances, Major Evans urged that it was the duty of the municipal council to see what steps can be taken to prevent the county from levying rates on this municipality to defray illegitimate expenses, as far as this municipality is concerned, and he trusted that they would see that the interest of their ratepayers were protected. The Council recognized the arguments of the Major to be just, and pointed out that they had passed a resolution refusing to levy the rate in question. The address of Major Evans was listened to with great attention, and his arguments and reasoning evidently exercised a great influence on those who gave them the attention they deserved. Major Evans, during the conversation that ensued, made it known that the Company will in future reduce their prices for land to \$1 per acre in Dymark, and 50 cents per acre in the other townships. This announcement was received with great satisfaction.

A Mormon Insane Asylum.

SALT LAKE, AUG. 23.—The Tribune publishes a letter from G. A. Tucker, an English gentleman from New South Wales, giving a description of his visit to the Utah insane asylum near here, which is in charge of Dr. Seymour Young, nephew of Brigham Young, and three Mormon commissioners. Mr. Tucker says he found nine female and twelve male patients who were in the most filthy condition imaginable. Some were in iron cages outside the main building, others in iron, bound hand and foot. Of these patients two were perfectly sane and have no idea why they are confined. One of these sane persons is a man named Sherman, who has been confined ten years. He was robbed of his wife by a Mormon polygamist and has been confined in this place ever since. He is in one of the iron cages in the yard. The inmates of the institution are punished with a club and strap. Tucker says: "I have, during the last four months, visited four asylums in New South Wales, three in Victoria, two in Adelaide, two in Tasmania, two in New Zealand, one in Honolulu, three in California, one in Nevada, and one in Utah, and in no instance have I seen sights as horrible as those of today."

Mineral in North Hastings.

A correspondent writing to the *Intelligencer* from Bangor says: "The whole geology of the country clearly points out that there are minerals. Quartz is found in abundance, and we firmly believe in that quartz there is gold. The writer of this had in his hand, about two months since, a lump of quartz in which the gold could be seen with the naked eye. Iron ore also, but that would be of little value unless the country was opened up. But though the existence of both gold and iron may be disputed, there is one mineral which is beyond all doubt. There is a settlement (still further back than Bangor) the inhabitants of which sometimes make gun balls out of lead which they get from the top of a mountain. This the writer can vouch for, for he has been in the settlement often, and heard the above mentioned fact from the people who had supplied themselves from this natural storehouse."

C. BURTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Man-drake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh. Bronchitis, Asthma and Lung disease by Dr. Souville's Spirometer and Instrument, which conveys medicinal properties direct to the seat of disease and cures you for yourself.

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeRocheville, of the Indian Department, Ottawa, catarrh of many years, now cured; Mr. Geo. Ager, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. George Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Kester, Ont., Catarrh and Bronchitis. J. D. Armstrong, 188 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Teller, 10 Marinda street, Toronto, asthma; cured. Mr. Earl A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured. Also, the no less surprising cure of Mrs. Bennett, 114 Cathedral street, daughter of Mrs. David Bennett, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease. I have no hesitation in saying Dr. Souville's Spirometer will cure catarrh and bronchitis, John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address. Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto. Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Call or write, enclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto. Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Mr. Wm. RAMSON, of South Norwick, says: For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, (J. Wesley Fish & Co., Ottawa), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surface of the system. Price 75c. For sale by John McKee, druggist.

DOWN!

DOWN THEY GO.

MONDAY, AUGUST 28, 1882.

THE FORESTRY CONGRESS.

THE recent meeting of the American Forestry Congress at Montreal cannot fail to have a beneficial effect. The growing attention paid to the subject of the preservation of the remaining forest, and the establishment of plantations on the prairies, is manifest by the numerous articles on the subject that have with increasing frequency appeared in the journals both of Canada and the United States. It is evident that the conviction is spreading that in the past there has been far too much of a squandering of our forest wealth, and that we must adopt a more prudent and provident course in the future.

The attendance at this Congress shows that it was not a meeting of mere enthusiasts riding a favorite hobby, for among them occur the names of politicians and officials of high standing, both in the Dominion and the States. Neither were they mere amateurs, whose enthusiasm might take an impracticable form, for among them were some of our leading lumbermen. Under such circumstances it might well be supposed that the proceedings would take a practical shape, and this, in truth, was the case. The papers read, the discussions held, and the steps taken, in many cases had a most practical bearing upon the subjects of economical forestry, and the great lumbering industry of this continent.

Among other useful results was the appointment of an industrial committee to confer with the Governments of the Dominion and the United States and the various Provinces and States concerning them. Among other valuable suggestions which will thus be authoritatively brought under the notice of the "powers that be," are the reservation as forests of timber lands unfit for settlement, the prohibition of burning at dangerous seasons, and the formation of forest districts with a competent staff. In some more or less modified form these suggestions, and others, may well be adopted so as to put an end to the present haphazard and wasteful system.

Much knowledge of these and kindred matters must have been disseminated by the late meeting, the contrast between our own uncivilized procedure with the more methodical systems of other countries have been forcibly brought out, and the power of combination and organization to improve the situation has been brought into play.

This meeting of the Forestry Congress in our chief commercial city is a most important event, and we trust that it is only the inauguration of a new era in our dealings with our forest wealth.

THE QU'APPELLE FARM.

The Free Press can have no desire to injure Northwest interests, but it is sadly lacking in discretion. Its article this morning upon the Qu'Appelle farm is founded upon a complete misunderstanding of the matter. It says:—

"No longer ago than yesterday we were informed by a respectable farmer, who had just come from the neighborhood of this company's tract, that there are about twenty settlers upon it, that they all occupy even numbered sections, which they claim in their own right, that many of them have started cultivation, that others of them are locating because of the uncertainty of their tenure, and that there is such a strong feeling among them that they unanimously express their determination to forcibly resist any attempt to evict them."

Now for the facts. The Qu'Appelle Company took possession on April 17th, and the day after notices were posted warning squatters that the land had been purchased from the Government. But every squatter, with one exception, who had taken up land prior to April 17th was even respected in full. The one exception was a squatter named Coleman who sought to "black-mail" the company to the tune of \$5,000. The company offer to submit his case to arbitration, but he declined. Squatters there were on since April 18th, in defiance of the warning, but surely our good neighbor does not mean to contend that the company should recognize their claims. If it does, it cannot object if some poor member of the Canadian Press Association takes forcible possession of the Free Press office next week. Our contemporary, having thus grievously gone astray adds:—

"If this is true, and we have no reason to doubt it, it just shows what a blunder and a crime the Government committed in depriving the honest settlers of perhaps the finest piece of land in the Qu'Appelle Valley—for such we are assured it is—in order to sell it to a set of Tory speculators."

In the first place the members of the Qu'Appelle company are not speculators. They have bought and paid for their farm subject to regulations far more stringent than are imposed upon any other Northwest company. They

have to colonize the land, and to break bonafide eight thousand acres a year during the five years of their tenure. Secondly, they are not Tory speculators. The President of the company, Mr. John Northwood, is a life-long Reformer, so sound in the faith that he actually voted and worked against his uncle, Senator Northwood, when the latter ran in Kent for the House of Commons some years ago. The capital stock of the company is \$800,000, and of this amount Mr. Northwood and Messrs. Hugh Macpherson, the vice-presidents, W. J. Howard and Michael Houston control \$210,000. Messrs. Houston, Howard and Macpherson, like Mr. Northwood, are and always have been staunch Reformers.

What does the Free Press think of its handiwork now? Winnipeg Times.

BRITISH RULE IN INDIA.

On the occasion of his departure from India General Macpherson, commanding the Indian contingent in Egypt, was entertained at a banquet at Allahabad. On that occasion the native troops were toasted and duly honoured. In proposing the toast, Syed Mahmud, speaking on behalf of the Mohammedan population, said:—

"Sir Robert Stuart and Gentlemen.—I trust I shall not be considered guilty of a breach of the rules that govern public dinners like the present if I rise at this late hour to propose 'The health of the Native Army.' I am sure our distinguished guest, General Macpherson, in whose honour we have assembled to-night, and with whose illustrious services we are all acquainted, will be the first to agree with me when I say that in all campaigns connected with the interests of India, Her Majesty's native troops have proved an important element in achieving glory for the British standard."

The late campaign in Afghanistan is still fresh in our minds; we still remember the sufferings and achievements of that campaign; we can still recall the great battles that we won, and the glory which they reflected upon the British arms. I cannot doubt that every British officer who commanded, and every British soldier who fought in that campaign, will allow that him was not found wanting in loyalty, in discipline, in obedience, in power of endurance, and in bravery; and, gentlemen, because these are truths which are known best to the British officers who led their native soldiers into the battle field, because these are truths which must always be recognized in connection with the Imperial power of England, because they are truths which inspire the native British subjects with pride, I am anxious to repeat them in an assembly of Englishmen. This is not an opinion which I would be anxious to say anything which would give a semblance of being political; but, gentlemen, because I belong to a race which supplies England with her native armies, I trust you will forgive me if I speak with some feeling when I say that the Imperialism of England and its martial power owe their maintenance in no small measure to the fact that India forms a part of the British Empire.

While other continental powers boast of their tens of millions of subjects, England can look with pride and with satisfaction to 300,000,000 who can supply her armies with hundreds of thousands of soldiers—soldiers who under British discipline and the leadership of British generals can cope with any army in the world. I have always felt, and I shall feel it to the end of my days, that the union of England and India was always a source of power to the British Empire. That of that power which has enabled us to conquer and to hold so vast a continent and to maintain so large an Empire in India will be as proud of being a British subject as the native of Kent. Upon the present occasion I am convinced that I express the feelings of my countrymen when I say that we are proud to feel that the army which General Macpherson is going to command in Egypt will consist principally of natives of India. As a native of India, I can assure you that I am a guest that he may rely upon the loyalty and devotion of his native soldiers. I can also assure him that he will carry with him the good wishes of the India population, on whose behalf the expedition is undertaken. Whatever the political causes which brought about the disturbance in Egypt may have been, of one thing I am sure, that India cannot tolerate anything which proves a hindrance to free intercourse between England and India."

AGED 137 YEARS.

A Coloured Man Who is Older Than the Republic.

There is at present residing in Camden a negro who has attained the remarkable age of 137 years. His name is William Bennett. He was born in the State of Delaware, near Maryland, in 1745, where his parents were slaves, for many years being owned by the Bayard family. During the war of the Revolution, Bennett, then a young man of 21 or 22, was working for a farmer by the name of Wilson, some twenty miles from Dover, where he had moved shortly before the war commenced. While there he married, and became the father of a large family. Upon the death of his wife Bennett married again. When the war broke out in 1812 he left his home and became the body servant to Colonel Morris, of Jackson's army, whom he accompanied to the front at New Orleans.

While with him he suffered from an attack of typhoid fever consequent upon the change of climate, and his life was despaired of. After recovery he returned to the North, and was 40 years in Colonel Morris' household. He married his third wife upon his return from the north. For the past 18 years he has been taken care of by his children and grandchildren, spending his time between Camden and Meriden, and from which place he has traversed on foot many times. The last trip he made early in the fall of 1861, and as a walk for a man of 136 years the record cannot be excelled. Of late he has been failing very much, for the past two weeks being unable to take any nourishment.

J. R. BORD, Druggist, &c., Schomberg writes, "I have sold medicines for over twenty years, and no medicine could give better satisfaction than your Dr. Fowler's Extract of Wild Strawberry." This medicine is the old reliable cure for Cholera Morbus, Dysentery, and all Summer Complaints.

ROBERT A. WILSON, Dispensing Chemist, Brockville says under date of June 5th, 1882, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints, Rheumatism, Dysentery, Pain in the Stomach, Sea Sickness, Piles, etc. you can use my name, etc."

SCARFED WIFE KIDNAPED.

A Littleville Woman Dead in Her Bath—Arrest of Her Husband.

There was a strong feeling of excitement caused in Littleville yesterday morning when the report became current that a woman named Bibby, about 35 years of age, had been murdered in bed during the night by her husband. The facts appear to be these. James Bibby, who is a laborer working for William Harris, on returning home on Thursday afternoon found his wife lying in bed. He accused her of being drunk and struck her in the face, but not he says, with sufficient force to inflict any serious injury. After getting himself some dinner he put his children to bed in the wife's room, and lay on the floor in the sitting-room himself. During the night he heard a noise and found that his wife had fallen out of bed. He replaced her, and before leaving for work in the morning he went to see how his wife was and found her dead. He at once sent for Dr. Carroll, and not finding that gentleman in he called on Dr. Rogers, who returned to the house with Bibby. The doctor examined the body and found discolorization extending on the left side from the hip to the shoulder. He thinks this was more likely caused by a fall than by blows. Shortly after the doctor left Bibby was arrested by County Constable Bodley. The prisoner did not appear to feel his position, but commented upon the misfortune of having a drunk wife. Last night an inquest was opened at Riverside by Dr. Philbrick, and after some preliminary business it was adjourned till Monday.—World.

MUNRO & ALEXANDER

Daily Evening Review

MONDAY, AUGUST 28, 1892.

LOCAL AND MUNICIPAL

Bound to be Ahead.

Mr. Richard Hall has just finished fitting up his flour mill, having thoroughly overhauled it, and is now ready for a big run as soon as the grain commences to move.

Lacrosse Championship.

The lacrosse match for the district championship of Centre Ontario, between the Peterborough and Orillia Clubs, will be played on the Burnham cricket ground on Friday.

In consequence of a petition signed by and influential citizens, the Governor General has been pleased to commute the sentence of John Dugan, now in the Central Prison at Toronto, from eighteen months to nine months imprisonment.

Sunday School Excursion.

The annual picnic of Charlotte street Methodist Sunday School will take place on Wednesday next, on the Grand Junction Railway, to the grove near Hastings. This grove is becoming a popular resort for picnics, and no doubt there will be an enjoyable time.

Views of Brandon.

Chief Constable Johnston has received some very interesting views of the city of Brandon in the Northwest Territory, from his nephew, Mr. G. H. Johnston, formerly of this town. He has kindly lent them with us for a few days for the inspection of those who feel an interest in that locality.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:

Name	Place	Date
West Riding	Peterborough	Oct. 2nd & 3rd
West Riding	Norwood	Oct. 10th & 11th
Horticultural	Peterborough	September 27th
Orillia	Orillia	Sept. 28th to 30th
Provincial	Kingston	Sept. 18th to 23rd
Emulation	Lakefield	Sept. 28th & 29th
Lakefield	Lakefield	Sept. 28th & 29th
Industrial	Toronto	Sept. 25th to 28th

The Drive.

Mr. Hixlett's drive of logs—the last of the season which came down this far—has reached here. They are boomed above the Grand Junction railway bridge, and the jam of logs reaches from it almost to the dam at Martin's mill and they are still coming down. It might be said that as these logs jam together above the Smith street bridge, they cause a great pressure against the bridge, the force of the current driving them against the pier.

"Patience" and "Mascot."

Lovers of the comic opera in this town have in store for them a treat of the highest order in Gilbert & Sullivan's latest and best opera, "Patience" and "Mascot," which will be produced at the Opera House on Friday and Saturday evenings next and Saturday matinee, which is considered to be the best company that ever rendered these beautiful operas in the Dominion. The casts, both in "Patience" and "Mascot," are very strong, and the support of the choruses is at once good and effective. The Company has just closed a very successful engagement in Toronto, where they have had an average attendance of 1,000, and the last night of 1,500. No one here should miss hearing these fine operas on Friday and Saturday evenings. Reserved seats are on sale at McKenzie's book store on Tuesday morning.

Railway Notes.

The timber for the bridge across the hollow east of the deep cut known as Donb's cut, on the Midland Link, has been placed on the ground. The Belleville Ontario says:—"There was no little surprise and a good deal of indignation in Madoc last Saturday when it was learned that Messrs. Parr & Wood, contractors on the T. & O. Railway, had disappeared, leaving liabilities to the amount of several thousand dollars in wages, supplies and store accounts. The engineer has seized, on behalf of the Company, everything belonging to the contractors along the line. It is probable, however, that a settlement will be made with the men who have not been paid their wages, as the Company have held back a certain percentage from the contractors. The Review says Mr. Parr has been in Belleville with a crew of men, but he expressed surprise at the departure of his partner with the books."

FATAL ACCIDENT.

A Man Falls From the Viaduct at Port Hope and is Killed.

On Saturday afternoon a melancholy accident occurred at Port Hope, by which Mr. W. H. Porter, a bricklayer of that town, lost his life. Mr. Porter was working on one of the piers of the viaduct, and for purposes connected with the work a high scaffold was constructed. From this scaffold he fell to the ground, a distance of about twenty feet, and when he was taken up it was found that his injuries were of a very serious nature, although he was still conscious. He lingered on until Sunday morning, when he succumbed to the effect of his injuries and expired.

A cricket match will be played between the Peterborough and Lindsay clubs on the Ashburnham grounds on Wednesday. The Lindsay club contains some good players, and a good and well played match may be looked for.

A brakeman on the Midland Railway, named J. B. Reid, was killed on a way freight train going south this morning. The accident occurred north of Franklin, but we have not yet heard how it happened.

The weather continues very warm. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Light to moderate winds, mostly east and north, fair warm weather.

The looks at Chisholm's. We understand that Mr. T. M. D. Gray has been chosen by Mr. T. Belcher to superintend the hanging of the lock gates at Chisholm's rapids, in the Trent valley navigation, and as such as the work which he is now doing at the Smith street bridge is completed, he will look after this.

On Saturday evening Mr. William O'Toole met with a serious accident while working on the pier of the Smith street bridge. About three miles out of town, he and another man were chopping together, and Mr. O'Toole's axe stuck in the tree, and while jerking on the handle to pull it out, his comrade's axe descended on his head, almost severing the thumb from the hand, and cutting the arteries and bruising the bones badly. Dr. Kincaid attended him and found the wound of such a serious nature that it is feared that his hand will have to be amputated.

A Bold Thief. On Saturday some person unknown stole a sum of money amounting to \$50 from the safe in Mr. Darcy's hotel. The safe stands in a small room between the hall and the bar-room. On the morning of that day, Mr. Darcy, who had returned from Rochester, placed \$50 in the safe and locked it. At about half past six in the evening he went to the safe and took out the money of \$50, and at about eight o'clock he took from it a further sum of \$15. On going to the safe this time, Mr. Darcy was surprised to find the safe unlocked, and he hastily opened it, but seeing a pile of bills lying there, he thought all was right, and he again locked the safe. On Sunday, however, he again thought of the circumstance, and thinking that an investigation would do no harm, he opened the safe and counted the money, and he found that in place of \$50, which should have been there, there was only \$175 in the safe, some person having the day before extracted \$50 therefrom. Mr. Darcy has no suspicion of any person and there is no clue to the thief.

Smith street Bridge.

The work of raising Smith street bridge, necessitated on account of the railway track running past at the east end of it, and which is being done jointly by the town and the Midland railway, is almost completed. The work is under the direction of Mr. J. Belcher, engineer, and the efficient superintendence of our old friend Mr. Tom. Gray, and is being done in a good and workmanlike manner. The first pier has been raised a little more than three feet, some of the old timber having been replaced and new timber been put in to make it the necessary height. The flume of this and the other piers has been bolted with ranged bolts, in order to make it as firm as possible. The west end of the bridge has not been raised any, so that there will be a slight dip, a slope of about one foot in nearly three hundred. Formerly the approach to the bridge at the east end had been filled in up to the first pier, covering the ends of the timber in the clay, and the wood had been affected by it, but a wall has now been built which keeps the filling from touching the pier, and it will have the effect of preserving the timber. The wall of timber at the north side of the approach at this end is being raised also, and a railing will be put on it rendering the approach much safer, and the ends of the timber has been placed in at the pier in such a manner as to give additional strength to the bridge. A peculiarity of this bridge is that, on account of the direction of the current and the road, it crosses the stream at an angle, and the beams across the bridge are put in "on the skew," so that a load going over them strikes the end of the beam on one side of the bridge first and going off that end the weight rests on the other, which has a tendency to make the structure vibrate. In order to prevent this, bridging or joists will be put in between the upper timbers of the piers and they will strengthen the bridge and counteract the tendency to oscillate. The bridge will be all replanked and the approach to it will be level, so that when the work is completed, which will be in a few days, this bridge will be perfectly safe and in a position to do service for some years longer. There is another small piece of work which should be done here, and probably will be done, and that is filling the hollow on the east side of the railway crossing. The approach to the track should be graded for about fifty feet. The gravel could be drawn from the hill there, and it would lower the hill and greatly improve the crossing.

New Fall Goods!

ARRIVING DAILY, AT

WM. FAIRWEATHER & CO'S.

OPENED THIS MORNING:

A Beautiful Variety of Rich Colored Silks for Fall and Winter wear in six new Shades. Great Value in Black Dress Silks and Rich Corded Gro Grains, Gro Royal and Satin, Gro De Lyons. The grounds embrace five acres of land, and the house is the handsome residence known as St. Leonard's. The sale will take place on the premises.

No. 3 Company. (Clothes, etc., will be served out in the Ashburnham Drill Shed, every Tuesday at 7 o'clock. All old members wishing to go to camp would do well to get their clothes early. There will be drill every Tuesday and Friday evening until the Company goes to camp. The prospects for a full company are good.

A Dwarf Killed by Cats. A showman named Joseph Lumme has been arrested at Lille on a charge of causing the death of a dwarf under very curious circumstances. The dwarf, who was 17 years old, and barely 25 inches in height, had been sold to Lumme by his father to be exhibited in a booth. His purchaser conceived the idea of establishing a miniature menagerie, with the dwarf as tamer. He caused a number of cats to be painted, so as to look like tigers, and giving the dwarf a whip compelled him, by kicks and threats, to goad the cats into a furious attack upon him. The consequence was that the poor little fellow, who had always a great aversion to cats, was literally torn to pieces by the infuriated animals. This took place at the fair of Beaupre-sur-Saone last month, since when the showman has disappeared.—London Daily News.

Mr. Wm. Hanson, of South Norwalk, says: For sixteen years I suffered from Biliousness, never had any medicine, but many permanent good results recommended by my druggists, (J. W. H. & Co., Ottawa), to try Dr. Casson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

A WORD OF CAUTION.—Beware of Unpleasant and powerful astringent drug in the treatment of Bowel Complaints, they may kill the pain and check Diarrhoea, etc., but are liable to produce inflammation. Dr. Fowler's Extract of Wild Strawberry is guaranteed safe and reliable, even for Infants, and is a specific for Cholera Morbus, Dysentery, Colic, Acute or Chronic Diarrhoea and Summer Complaints generally.

HEALTH AND HEALTHY HOMES IN CANADA

BY DR. ROBERT SPOULE, M.A., Black Street, Peterborough.

"This book will fill a gap which is to be regretted has too long remained unfilled. We congratulate Dr. Spoule on his effort to supply the public with a one and practical work on the subject." Canada Lancet.

A work for the general public, giving plain and practical rules for the maintenance of health and prevention of disease. Sold by Booksellers Price Sixty Cents.

Welland Canal Enlargement.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this Office until the arrival of the Eastern and Western Mails on FRIDAY, the 1st day of SEPTEMBER next, for the deepening and completion of that part of the Welland Canal, between Hovey's Bend and Port Colborne, known as Section 24, embracing the greater part of what is called "Black Cut." Plans showing the position of the work, and specifications for the same, may be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 15th day of AUGUST next where printed forms of tender can be obtained. Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except where are attached the actual signatures, the nature of the occupation and place of residence of each member of the firm; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted. The cheque or money must not be returned to the respective contractors whose tenders are accepted. This Department does not, however, hold itself to accept the lowest or any tender.

A. P. RHADLEY, Secretary,

Department of Railways and Canals, Ottawa, 13th July, 1892.

Daily Evening Review

TUESDAY, AUGUST 29, 1882.

MR. MOWAT'S INVITATION.

The Globe in an editorial written in defence of the part taken by Mr. Mowat and his colleagues in the recent Dominion election, asks the following questions:—

"Now, why all this mad rant about Mr. Mowat and his colleagues taking part in the Dominion election? Are they not citizens of the Dominion? Have they not the same rights as other citizens and electors to speak and vote on Federal issues? Have they not the same rights as the Merediths, the Bells, the Landers, and the Morrises? Nay, was it not their duty, as well as their right, to speak and vote? Would they not on all sides have been branded as cowards and traitors did they not take part in the contest?"

It is not much use to say that one reason why the Reform Ministers and their officials should not have made themselves partisans in a Dominion election, is that one of the leading planks in the Reform platform was, that no such interference should be tolerated, for the Reformers have given up even the pretence of consistency. Another reason why they should not have so acted, is that they have thereby prostituted the position in which they have been placed for the purpose of serving the province, by using the influence thus entrusted to them to thwart the wishes of the great majority of the people of this Dominion, not excepting those of Ontario. Instead of attending to the interests of the Province they have devoted their energies to stirring up sectional animosities and prejudices, to the endeavour to not provide against provinces, and race against race, regardless of injury to the country if they could thereby harass their political opponents.

Now, we believe that it is advisable to keep Dominion and Provincial politics as distinct as possible, and we would gladly have done so on this occasion. But such a course has been rendered impossible by Mr. Mowat himself. He has not only invited but he has forced upon the friends of the present Dominion administration a conflict with him. Not only natural rights but all laws hold those who are attacked free to defend themselves.

Not to go further back Mr. Mowat and his colleagues at the commencement of the last session of the Provincial Legislature openly started a crusade against the Dominion Government and have carried it on ever since. The very speech they put in the mouth of the Lieutenant Governor was a mere election campaign sheet in view of the coming election for the House of Commons. The National Policy, though adopted by the people of Canada, was vehemently opposed, in spite of its being a matter utterly outside of Provincial jurisdiction. The boundary question was manipulated in such a way as to make political capital if possible. Mr. Mowat quietly abandoning a great part of what he had formerly claimed as Ontario's dues, and refusing a speedy and authoritative settlement by our highest court, because this sacrifice of our rights gave him a chance, as he thought, of inflaming sectional jealousies through misrepresentation. Even rebellion was threatened, and those who were maintaining Ontario's rights were called robbers—as if robbers were in the habit of appealing to the law courts. The same attempt at exciting sectional strife was made as to the Rivers and Streams Bill disallowance, which though in strict accordance with Reform practice, while they were in power, was misrepresented as being an invasion of provincial rights—as if Ontario wished to have the right to confiscate private property without compensation in order to reward with it a supporter of Mr. Mowat and his administration.

The same open hostility was maintained till it culminated at the general election, when Mr. Mowat, his colleagues and his army of officials avowedly and openly took the field against the Dominion government and its supporters. With the utmost effrontery they used their official influence, the provincial patronage, and even the provincial funds, in their unsuccessful efforts to oppose those who were already the choice of the people of Canada, and who were then again so unmistakably endorsed by the people.

Mr. Mowat has shown that he considers that his first duty as Premier of Ontario, is to obstruct as far as possible, in the interest of his party, the government chosen and trusted by the people of the Dominion, including Ontario. This being the case, and having failed in his efforts, he cannot be surprised if the provincial electorates prefer to him some one who will attend to the interests of the Province instead of those of the discomfited Dominion Reformers, nor if the Government of Canada and its friends exert themselves to render such an op-

ponent incapable of making further mischief by the influence of its present position. They have invited the contest and should have at least sufficient manliness not to whine at the acceptance of their challenge.

THE ONTARIO REFORMATORY

Official Letter to Penetang—The Boys at Home—What a Young Lady Saw.

A correspondent signing herself "Cynthia," sends us a letter on a sojourn trip to Penetang and the adjoining islands, from which we extract the following in relation to the reformatory. After stating that there are two hundred and sixty-one boys in the institution she goes on to say: "On our way through the grounds we passed a number of beds (divided in rather pathetic cottages) busily employed digging. The first room we entered was large dining-hall. The boys had just finished dinner, and the dishes were being replaced on the different tables ready for supper. Each table seats ten boys, and at each place we noticed a large soap plate, a bowl and a spoon. The boys themselves were washing the dishes, having previously washed them. From this room we passed through an arched hall, and came to a dormitory containing eighty beds, which looked very inviting to our weary party, every one of them being airy, pleasantly and as white as snow. The beds are placed in rows a few feet apart. The boys retire at half past seven and are up at half past five. Besides this first dormitory which is for the smaller boys, there are three others, the beds arranged in a similar manner. Again passing through several halls we came to a spacious room, the walls of which were thickly hung with pictures of various subjects, and a large number of chairs, a platform and desk. On enquiry we found this was the theatre, the boys very often giving recitations, songs and the like, and sometimes a concert is got up for them by outsiders. Having taken a peep into the school-room, we passed on to the Catholic chapel, a very neat one. There is also a Protestant chapel, so that boys of all the particular religious learnings may attend either one they choose. The Protestant boys are about two to one Catholic. The boys take turns attending school. Those who go in the morning work in the afternoon, and then allow those who have been working in the morning to study during the afternoon. The boys do their own cooking, lighting, darning, sewing, mending, washing, shoemaking, gardening, carpentering. They are divided into groups, so many boys doing different things in turn. Adjacent to the main building is the gymnasium, from which were issuing the metallic strains of a band. The boys were practising. If they had any more to do they would find it here. The view from the different windows is beautiful. The narrow landlocked bay lies at their feet surrounded by the deep green foliage which looks impenetrable. Everything about the place has an air of neatness and cleanliness which the boys appreciate. We could not help thinking of our return home what a blessing it must prove to some of these lads to be taken away from vile companions and placed where they are well-cared for. Surely the influence brought to bear upon them here is not entirely lost as soon as they are given their liberty. The superintendent told us that he heard frequently from the boys after their leaving the place, and many instances they were doing well for themselves."—Toronto World.

A Drunken Man Shot.

BRANTFORD, Aug. 28.—Last night between the hours of 11 and 12 o'clock, a young man named Henry Ryan, while passing along some what under the influence of liquor, entered the enclosure of Miss M. D. Wright, who is living alone on the farm, and fired a shot at her. The bullet struck her in the arm, and she was seriously injured. Ryan fled, and was pursued by the landlady, who fired a second shot, but missed him. Ryan was then taken to the hospital, and is now recovering from his wounds. The landlady is now recovering from her wounds.

Personal To Men Only:

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Loss of Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

\$100 reward is offered for any case of Catarrh that can't be cured with Malt Catarrh Cure. Taken internally. Price 75 cents.

Rowley A. Wilcox, Dispensing Chemist, Brockville says under date of June 5th, 1882, "I have not the slightest hesitation in saying that Dr. Fowler's Extract of Wild Strawberry has given my customers more satisfaction than any medicine in my store for the cure of Summer Complaints; Diarrhoea, Dysentery, Pain in the Stomach, Kidney, Piles, etc., you can use my name, etc."

PREPARING OUR FORESTS.

The following extracts from the proceedings of the recent Forestry Congress at Montreal are on a subject of great interest and importance—FOREST FIRES.

DR. CHAS. MOHR read the report of the committee of the last meeting of the congress upon the injuries caused by forest fires, among which was mentioned the practice of circling trees in order to secure the gum that exudes from the wound, for purposes of commerce. Another cause of injury to forests is the partial burning over of timber lands by fire, which, though it may not kill the trees, almost entirely arrests their growth. Moreover, these frequent fires finally result in the total destruction of the organic matter in the soil.

The burning of cattle in the woods, a custom very common in the country, is also a cause of gradual but sure destruction to the forests on account of the cattle browsing the leaves off the young and growing trees, so that when the old trees die out, there are no saplings to take their place.

The report was on motion received, and the President called for remarks on the general subject of forest fires.

MR. P. WHITE, M. P., Kennew, Ont., said that there was a difference in the regulations respecting timber lands in the United States and Canada. In the United States timber lands became the exclusive property of the possessor, whilst in Canada the Government retained the ownership, and only leased the use for a term of years. He was convinced that in the Upper Ottawa district as much timber had been consumed by fire as had been cut down and carried away, to the value of at least twenty millions of dollars in high class. Not only were the fires caused by sparks from stoves, but also by the careless use of matches, and even by the criminal carelessness of the employees of the lumbermen themselves. He would suggest that the Provincial Government should intervene. In Ontario settlers were not permitted to burn their brush from April to November, while in Quebec the restriction only applied to the months of July and August. This restriction should be extended at least to the months of June and September. The authorities should take the precaution of dividing the timber lands into convenient districts and place them under the supervision of agents, who should visit every settler and acquaint him with the penalties that the Government should hereafter visit upon the careless setting of fires. There was very little malicious setting of fires, it was in fact those out of the hands of the lumbermen, and not those of the settlers, who were the cause of the trouble. The lumbermen themselves would not object to a special tax to meet the expense of close governmental supervision.

MR. H. G. BAYTON heartily concurred in Mr. White's suggestions as to the means of preventing forest fires. The months of May, June, September and October were those during which nearly all the destructive fires took place on the Ottawa. Some twenty-five years ago he was examined before a committee of the House of Commons, when he stated that for every tree that was cut down and destroyed by fire, that proportion did not continue now, but his opinion was that for a forest many years ten times as much timber was destroyed by fire as was cut and used.

MR. THURTELL advocated Government supervision of the forests in order to prevent devastating fires. The immense regions beyond the Ottawa forming the water shed toward Hudson's Bay, were once covered with valuable forest which had been almost completely destroyed by fire.

MR. J. K. WARD said if the authorities took half the pains to protect the forest in Canada that they did to punish a poor wretch who stole a dollar's worth of goods, it would have a beneficial deterrent effect.

Several other members spoke to a similar effect. The Chairman, then being no more speaker on the subject, thanked the Congress for the practical suggestions and suggestions which had been put forth. He especially wished to emphasize a suggestion that a man who would set fire to the woods but not to a barn, should be treated that one crime was as great as the other.

APPEAL TO THE GOVERNMENT.

HON. MR. JOLY moved that it is the duty of this Congress to draw earnestly the attention of the Government to the necessity of protecting effectively the public forests against fires. He proposed that a memorial should be sent to the Government of the United States and Canada.

The motion was carried.

The following gentlemen were elected a committee to memorialize the Governments of the United States and Canada on the necessity of protecting public forests:—Messrs. Peter White, M. P., J. K. Ward, Dr. Mohr, Hon. George Bayton, Prof. Hough, and P. E. Furness.

The Congress then adjourned until two o'clock.

LEGISLATION SUGGESTED.

The Hon. Mr. BAYTON presented the report of the committee appointed to memorialize the Governments on forest fire recommending legislation as follows:

1. The reservation of all pine and spruce lands under for settlement for lumbering purposes exclusively.

2. The prohibition of burning brush by settlers in the vicinity of fir trees during May, June, September and October.

3. The division of timbered country into districts and the appointment of forest police under a superintendent with magisterial powers, whose duty it shall be to detect and punish offenders and provide for the extinguishing of fires.

4. The cost of maintenance of this protective force, might partially be met by the imposition of a moderate tax on the parties owning or leasing timbered lands.

MR. J. K. WARD suggested that August be substituted for October in the prohibitory season. October was, he thought, in Canada, a wet month.

MR. BAYTON thought October a very bad month for fires, as the leaves were dry. The report was adopted.

THE CONSTITUTION.

MR. FURNESS presented the report of the committee appointed to revise the constitution, which was adopted.

BRANCH ASSOCIATIONS.

MR. BRADLEY offered a resolution that the secretary and officials furnish information and assistance for the organization of State and Provincial Forestry Associations.—Carried.

ELECTION OF OFFICERS.

The following gentlemen were elected officers for the ensuing year: President, Hon. G. B. Loring; First Vice-President, Hon. H. G. Joly; Second Vice-President, Dr. John A. Ward; North Bend, Ohio; Recording Secretary, Dr. F. B. Hough; Chief of Forestry, Washington; Corresponding Secretary, Mr. William Little, Montreal; Treasurer, Joseph S. Fay, Wood's Hall, Mass.

Swamped.

WINNIPEG, Aug. 25.—A terrible drowning accident took place at Shant Lake on Sunday, 26th inst. Edward Walworth, aged 19 years, Nelson Ryan, aged 31, son of Thos. Ryan, and George Stephenson tried to cross the head of the lake, and when nearly across their small boat swamped in the heavy waves. Stephenson could not swim, and was helped on the bank by the others, who, being good swimmers, struck out for where they nearly reached. Walworth and Ryan were, however, drowned. The bodies were grappled six hours after

CORNER SIMCOE AND GEORGE STREETS. } MACFARLANE WILSON.

PRESERVING OUR FORESTS.

The following extracts from the proceedings of the recent Forestry Congress at Montreal are on a subject of great interest and importance—FOREST FIRES.

DR. CHAS. MORRIS read the report of the committee of the last meeting of the congress upon the injuries caused by forest fires, among which was mentioned the practice of circling trees in order to secure the gum that exudes from the wounds for purposes of commerce. Another cause of injury to forests is the partial burning over of timber lands by fire, which, though it may not kill the trees, almost entirely arrests their growth. Moreover, these frequent fires finally result in the total destruction of the organic matter in the soil. The pasturing of cattle in the woods, a custom very common in the country, is also a cause of gradual but sure destruction to the forests on account of the cattle browsing the leaves off the young and growing trees, so that when the old trees die out, there are no saplings to take their places.

The report was on motion received, and the President called for remarks on the general subject of forest fires.

MR. P. WHITE, M. P., Montreal, Ont., said that there was a difference in the regulations respecting timber lands in the United States and Canada. In the United States timber lands became the exclusive property of the occupant, while in Canada the Government retained the ownership, and only leased the use for a term of years. He was convinced that in the Upper Ottawa district as much timber had been consumed by fire as had been cut down and carried away, to the value of at least twenty millions a year in high class. Not only were these trees caused by arson, but also by carelessness, but also by the criminal carelessness of the employees and even by the criminal carelessness of the lumbermen themselves. He would suggest that the Provincial Government should intervene. In Ontario settlers were not permitted to burn their brush from April to November, while in Quebec the restriction only applied to the months of July and August. This restriction should be extended at least to the months of June and September. The authorities should take the precaution of dividing the timber lands into convenient districts and place them under the supervision of agents, who should visit every settler and acquaint him with the penalties that the Government should impose after visit upon the careless setting of fires. There was very little malicious setting of fires, it was all done out of ignorance, the result of carelessness. In the Ottawa district the lumbermen had destroyed trees growing in a burning area, but their experience showed that only Government authority would suffice. The lumbermen themselves would not object to a special tax to meet the expenses of close governmental supervision.

MR. MORRIS, Chairman, heartily concurred in Mr. White's suggestions as to the means of preventing forest fires. The months of May, June, September and October were those during which nearly all the destructive fires took place on the Ottawa. Some twenty-five years ago he was examined before a committee of the House of Commons, when he stated that for every tree that was cut, ten were destroyed by fire. That proportion did not continue now, but his opinion was that for a forest many years ten times as much timber was destroyed by fire as was cut and used.

MR. THURTELL advocated Government supervision of the forests in order to prevent devastating fires. The immense regions beyond the Ottawa forming the water shed toward Hudson's Bay, were once covered with valuable forests which had been almost completely destroyed by fire.

MR. J. K. WARD said if the authorities took half the pains to prosecute malicious forest incendiaries that they did to punish a poor wretch who stole a dollar's worth of goods, it would have a beneficial deterrent effect.

Several other members spoke to a similar effect. The Chairman, then being no more speakers on the subject, thanked the Congress for the valuable evidence and suggestions which had been put forth. He especially wished to emphasize a suggestion that a man who would set fire to the woods but not to a barn, should be treated that one crime was as great as the other.

APPEAL TO THE GOVERNMENT.

HON. MR. JOLY moved that it is the duty of the Congress to draw earnestly the attention of the Government to the necessity of protecting effectively the public forests against fires. He proposed that a memorial should be sent to the Governments of the United States and Canada.

The motion was carried. The following gentlemen were elected a committee to memorialize the Governments of the United States and Canada on the necessity of protecting public forests:—Messrs. Peter White, M. P., J. K. Ward, Dr. Morris, Hon. George Brown, Prof. Hough, and P. E. Furness.

The Congress then adjourned until two o'clock.

LEGISLATION REQUIRED.

The Hon. MR. BAYSON presented the report of the committee appointed to memorialize the Governments on forest fire recommending legislation as follows:

1. The reservation of all pine and spruce lands unfit for settlement for lumbering purposes exclusively.
2. The prohibition of burning brush by settlers in the vicinity of fir trees during May, June, September and October.
3. The division of timbered country into districts and the appointment of forest police under a superintendent with magisterial powers, whose duty it shall be to detect and punish offenders and provide for the extinguishing of fires.
4. The cost of maintenance of this protective force, might partially be met by the imposition of a moderate tax on the parties owning or leasing timbered lands.

MR. J. K. WARD suggested that August be substituted for October in the prohibitory season. October was, he thought, in Canada, a wet month.

MR. BAYSON thought October a very bad month for fires, as the leaves were dry. The report was adopted.

THE CONSTITUTION.

MR. FURNESS presented the report of the committee appointed to revise the constitution, which was adopted.

BRANCH ASSOCIATIONS.

MR. BRADLEY offered a resolution that the secretary and officials furnish information and assistance for the organization of State and Provincial Forestry Associations. Carried.

ELECTION OF OFFICERS.

The following gentlemen were elected officers for the coming year: President, Hon. G. B. Loring; First Vice-President, Hon. H. G. Joly; Second Vice-President, Dr. John A. Warder, North Bend, Ohio; Recording Secretary, Dr. F. B. Hough, Chief of Forestry, Washington; Corresponding Secretary, Mr. William Little, Montreal; Treasurer, Joseph S. Fay, Wood's Hall, Mass.

SWAMPED.

WINNIPEG, Aug. 25.—A terrible drowning accident took place at Shot Lake on Sunday, 20th inst. Edward Walworth, aged 19 years, Nelson Ryan, aged 21, son of Thos. Ryan, and George Stephenson tried to cross the head of the lake, and when nearly across their small boat swamped in the heavy waves. Stephenson could not swim, and was helped on the boat by the others, who, being good swimmers, struck out for shore where they nearly reached. Walworth and Ryan were, however, drowned. The bodies were grappled six hours after.

MUNRO & ALEXANDER

Daily Evening Review

TUESDAY, AUGUST 29, 1882.

LOCAL AND MUNICIPAL.

To Idyl Wild.

The choir of St. Paul's Church and a number of friends went down on the Golden-Eye on Monday to Idyl Wild, where they held a picnic. They had a very pleasant time, and returned at about nine o'clock in the evening.

Look After It.

If the Street Inspector would direct his attention to the sidewalk running south from the Bank of Montreal, and have it repaired, he would confer a great favor on the residents of the said street. This sidewalk is in a deplorable condition, and it certainly should be looked after, or else someone will surely meet with an accident.

The Weather.

Last night was another beautiful moonlight night, and to-day the weather is bright and very warm. The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day by the Great North-Western Telegraph Company are as follows:—Lakes—Moderate winds, mostly easterly, continued fine, warm weather and local rains on Wednesday.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:—

Name.	Place.	Date.
West Riding.	Peterborough.	Oct. 3rd & 4th
East Riding.	Norwood.	Oct. 10th & 11th
Horicultural.	Peterborough.	September 7th
Central.	Cobourg.	Sept. 29th to 32nd
Provincial.	Kingston.	Sept. 18th to 23rd
Smith.	Lakefield.	Sept. 28th & 29th
Knights.	Lakefield.	Sept. 28th & 29th
South Victoria.	Lindsay.	Sept. 29th & 30th
Industrial.	Toronto.	Sept. 15th to 18th

A Bad Smash.

Last evening shortly after ten o'clock some young men engaged in a scuffle in front of Mr. Muncester's jewelry store on George street, and one of them was thrown against the large plate glass with such force that it completely shattered the glass. Constables Pidgeon and Adams were a short distance down the street at the time and heard the crash, but the persons who had done the mischief hastily decamped and made good their escape. The glass was the full size of the window and very thick, and it will cause considerable trouble and expense to replace it.

Improved by the Railway.

The *Whitby Chronicle* has the following remarks regarding Peterborough and the Midland Railway:—

"Peterborough is very much improved and its material interests daily advanced on account of its favorable position on the Midland Railway. A short run to that town last week disclosed to our view a marked change for the better, and many new improvements made since a former visit. The Midland station is now quite an imposing and commodious building, and its ample surroundings are both roomy and convenient for the transaction of business. Up town the Company have also good roomy offices, in which are the Secretary, Treasurer, Traffic Superintendent's offices and other departments. The offices are centrally situated, and well adapted to every way for the Company's growing requirements. And we are pleased to hear from all with whom we come in contact the obliging civility and courtesy of the officers spoken of in terms of the highest commendation."

Railway Notes.

In reference to the sudden departure of the Toronto and Ottawa Railway contractor from Madoc, the *Review* of that village says:—

"On Tuesday evening Mr. Bacon was despatched here to investigate matters, and we understand from what he says that there is a prospect of all claims being paid in full, the Company having held back a certain percentage from the contractors, which now amounts to between eight and ten thousand dollars. We believe the workmen will be paid in full first, and the other accounts after. About five thousand dollars will complete their contract, and why the contractors chose to leave in such a manner is hard to understand."

The *Globe* says that it is authoritatively stated that the Ontario and Quebec Railway Company intend making connection with Montreal by a direct line from Smith's Falls. The country is an easy one to build a railway through. A large number of ties now lie the track of this railway near Perth to be laid down west of that place, and five cars of steel rails have been purchased for the same track, to be delivered shortly.

TOWN STATISTICS.

Gleanings from the Assessment Roll of the Town of Peterborough for the Year 1882.

The following information compiled from the Assessment Roll of the Town of Peterborough may be relied upon as authentic, and the statistics put into this concise form will be of interest to many who would not have leisure to wade through the voluminous original documents, or the patience to make the computations. The first table shows the property and income by wards:—

Ward.	Value of Real Property.	Value of Personal Property.	Assessable Income.	Total Value of Real and Personal Property and Assessable Income.
First.	668,810	6,800	9,500	675,110
Second.	908,575	175,130	124,773	1,208,478
Third.	548,940	21,300	28,000	598,240
Fourth.	267,250	2,100	18,300	287,650
Totals.	\$2,393,575	\$290,530	\$151,713	\$2,835,818

Property in the Town of Peterborough exempt from Taxation:—

Ward.	Amount.
First Ward.	\$ 16,300
Second Ward.	60,500
Third Ward.	300,500
Fourth Ward.	64,500

Total.....\$342,800

Value of Lands on the Non-Resident Roll:—

Ward.	Amount.
First Ward.	\$ 9,100
Second Ward.	9,725
Third Ward.	3,075
Fourth Ward.	2,500

Total.....\$24,400

Assessments for the support of Public and Roman Catholic Separate Schools including Non-Resident Roll:—

Ward.	Public Schools.	Rom. Cath. Sch.	Total.
No. 1 Ward.	\$ 329,230	\$ 106,000	\$ 435,230
No. 2 Ward.	1,115,453	182,750	1,298,203
No. 3 Ward.	538,700	63,625	602,325
No. 4 Ward.	264,400	30,800	295,200
Totals.	\$2,247,883	\$379,255	\$2,627,138

FATAL ACCIDENT.

A Young Man Killed While Breaking on the Railway.

On Monday a brakeman on the Midland Railway, as noticed briefly in our issue of yesterday, named John B. Reid, was killed on a way freight train going south. The accident occurred about two miles north of Franklin. It appears that Mr. Reid was breaking on the top of a box car, and while passing under an overhead bridge, he was struck and knocked off. He fell on the track in front of the wheels, and his legs were run over and his arms were also caught. Death was instantaneous. The body was bruised in several places and his limbs were mangled terribly.

Mr. Reid had only been engaged on the railway a few days. He had been living in Peterborough, and is spoken of by those who know him here in the most favorable terms. He came to this country about two years ago, and his friends are living in England.

The remains of the unfortunate young man, who was about twenty-two years of age, were brought here to-day in a beautiful coffin, and were buried this afternoon in the Little Lake Cemetery.

An inquest on the sad occurrence is proceeding at Millbrook.

POLICE COURT.

DRUNK.

MONDAY, Aug. 28.—An evening session of the Court was held to-day, Mr. T. Menzie, J. P., presiding. Robert Goldy was charged with being drunk on the street. He was arrested shortly after noon and refused to walk to the cells, and he was given a ride down. He acknowledged before the Magistrate that he was drunk, and was fined \$1 and \$2.50 costs.

TUESDAY, Aug. 29.—Mr. Menzie presided at the Court again to-day. James Welsh appeared to answer to the charge of being drunk on the 23rd of August. He had been summoned but did not appear, and kept out of the way of the policemen until yesterday, when he was arrested. He pleaded guilty and was remanded for the Police Magistrate to deal with.

John Dingman appeared on the same charge, the offence being committed on Monday. "Correct, sir," was his reply in answer to the charge, and when he was fined \$1 and \$2.50 costs or twenty-one days in goal, perhaps he thought that was correct too.

RUELTY TO ANIMALS.

W. Trotter was charged with ill-treating a horse which he was driving. He pleaded not guilty.

Constable Pidgeon testified that he saw Mr. Trotter driving fast and whipping the horse unnecessarily.

LOUIS LAPLANTE gave evidence to the same effect. The defendant said he had witnesses whom he wished to call if he was allowed time to bring them.

The case was enlarged till Monday next.

This safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

MR. Wm. RANSON, of South Norwalk, says: "For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggists, (J. Wesley Fish & Co., Ottawa), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle."

Daily Evening Review

WEDNESDAY, AUGUST 30, 1882.

CONSERVATIVE CONVENTION.

The Convention of the Liberal-Conservative party that has been invited by Sir John Macdonald and Mr. W. R. Meredith to meet at Toronto on Wednesday, September 13th, will be as important and we trust it will be as successful as its predecessors. Before previous contests the heads of the Conservative party have in a similar manner taken council with those who recognise them as leaders throughout the country, and thus strengthened by the intelligent co-operation of zealous supporters, have marched on to victory. Thus the Conservative party acts harmoniously through the cordial agreement that results from mutual consultation and council, not with the slavish subservience of those who lately asked to be elected "to support Mr. Blake" nor of those who would aid Mr. Mowat and his little clique at Toronto to centralise all power there and strip the rest of the country of the privilege of managing its own affairs in each locality. If under the Conservative standard some are officers, it is by the free choice of the rank and file, whose wishes and opinions they are not above consulting.

The present juncture is one that calls especially for such intelligent co-operation. A general election for the Province of Ontario may be sprung upon us at any time, and cannot be delayed further than next year. Besides this there are a tenth part of the seats in our legislature now vacant and waiting to be filled till Mr. Mowat can summon courage to obey the law and face the people.

This approaching contest is one of grave importance. It is against an organized conspiracy led by Mr. Mowat to abuse his position in order to bring to naught the verdict of the people of Canada as to the fiscal policy by which they hope to build up this Dominion. It is idle for Reformers to say that the Ontario Government has no power to interfere with our tariff regulations. They have the power to work great mischief, and they have used that power unscrupulously. After the last general election, their success was blazoned as a great victory—a strong proof that Ontario was deserting the National Policy, though before the election, as now, that question was declared not to be at issue. This time indeed they are farther more frank, for their leading organ has called upon foreign capitalists to watch the provincial election for signs that the National Policy is losing favour. The people of Ontario should not be thus hoodwinked a second time. The maintenance of Mr. Mowat in power would mean their payment of an army of officials to work for the overthrow of that which the people of Canada have established.

With Mr. Mowat in power we should again see our territory sacrificed to afford them an election cry. We would again be exposed to have our private property confiscated, like Mr. McLarnie, to reward some subservient follower. We would witness the continuation of that system of centralization, which would concentrate all power at Toronto and deprive us of the old Saxon privilege of managing our own local business. Above all we would see our cash surplus dwindling, and our public lands and timber, which are our capital, steadily alienated to provide funds for the extravagance springing from the present system of rewarding supporters from the public treasury.

We trust that the Convention, which is now to be held, will take such action as will relieve us from the burden of such rulers.

As to our local proceedings in regard to this grand assembly of the party, we have no doubt that early steps will be taken by the Conservative Associations of the two Ridings of Peterborough to assemble, so as to appoint fitting delegates. We hope that this county will be adequately represented at the Convention. To those who might be deterred from going on account of the expense, we may state that for the week during which the Convention is to be held single fare tickets to and from Toronto will be issued, on account of the exhibition then taking place, so the cost will be reasonable.

We trust that the Convention will be successful in its praiseworthy object, and that Peterborough will do its share towards ensuring this success.

PORT HOPE.

A SMALL BUSINESS.—The Guide says that while a game of lacrosse was in progress on Thursday at Pearyn Park, some one was mean enough to "go through" the pockets of the coach of some of the players. They got about \$3.50 by the operation. They had better return the amount taken or they may figure at the police court, as they are "spotted."

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

ONE HUNDRED CATTLE KILLED.

In a Railroad Accident on the Grand Trunk at Highland Creek.

About 7 o'clock on Monday night a Grand Trunk live stock train consisting of twelve cars of cattle and one of sheep, belonging to a drover named William Kelly, were thrown off the track at Highland creek by a broken wheel. Nine of the cars were hurled down an embankment 60 feet high. The wreck of the cars was most complete, and the scenes around the smash-up were terrible. With protruding tongues and eyes the dying cattle moaned piteously. Out of 102 cattle fully 100 were killed and buried in the wreck. It was 8 o'clock yesterday morning before the track was clear for traffic. The carcasses of the dead brutes were laid out on the grass and it has not yet transpired what will be done with them. The other horses and sheep were sent out to Montreal. The loss will be heavy to Mr. Kelly and to the company.

When the accident occurred William Terry, a brakeman, was running along the top of the train. When he felt the car on which he was running going over the embankment he leaped for his life and succeeded in clearing the wreck. Although badly shaken up, he was uninjured. There is scarcely a worse point on the whole line for such an accident to occur. *Toronto World.*

WEDNESDAY, AUGUST 30, 1883.

A BRAKEMAN'S DEATH.

Struck from the cars by an Overhead Bridge and Crashed by the Wheels.

On Tuesday morning Coroner Maxwell, of Port Hope, opened an inquest on the death of John B. Reid, who was killed on the Midland Railway on Monday morning. The inquest was held in Raper's hotel, at Millbrook. Mr. H.B. Weller appeared on behalf of the friends of the deceased.

The jury was impaneled and Mr. W. Russell was chosen foreman. After viewing the body the following evidence was taken:—

W. G. PIERCE (brakeman on the mail train going south), sworn, said:—We came to Omemee to cross the way freight, and Conductor Pym said, "We have lost a man, who has either fallen off or been left at Franklin." We kept a look out as we were going south, one brakeman on each side of the train, and coming near Franklin the engineer blew for the brakes. We stopped as quickly as we could, and went back and found the deceased in the centre of the track. We left the fireman to watch him and went to Franklin and put two cars on the siding. We got a door and a sheet and went back again to where he was and picked him up. As far as I know he was then quite dead. We brought the corpse to Millbrook and put it in the freight shed, and I know nothing further of it. The body was about forty car lengths from an overhead bridge north of Franklin. Deceased was a brakeman on the way freight, and was a green hand. I do not know anything about the deceased, but heard he was a baker in England. I have no idea of how he was killed, but saw blood marks on the gravel between one and two car lengths north of the bridge on the track—it might have been less than one. We passed his train at Omemee. I did not see the deceased since Saturday night until after the accident. A brakeman's place is not necessarily on the top of the train, unless approaching a station or unless he had to stop the train. The smoke was sometimes so dense that it was impossible to see, as they generally fire up at the bridge. I think a man could stand on the edge of a box car in passing the bridge, but I could not do it standing on the centre, and the deceased was a taller man than I am. He might have been walking along the car towards the van and not thinking, having been accidentally knocked off. The man was all mangled up. The boat was on the outside of the rail when it was cut off. Our train went over the body without touching it. The engineer saw the body and reversed the engine. The cars could inflict all the wounds on the body. He had been dragged about twelve feet, as near as I could judge. The accident occurred about 9.30 o'clock on Monday, August 28th, 1883. His watch stopped at 9.30 o'clock. His vest was lying about twenty feet south of the body and cut in two.

HENRY ROSEYAR, sworn, said:—I was conductor of the train going south. When we came to Omemee, our crossing point with the way freight, Conductor Pym said he had lost a man and that the last he saw of him was at Franklin. We were ready to start, and we put a man on each side and kept watch. We found him, as near as I can judge, about forty or fifty car lengths from the bridge. We could see where he had fallen in between the cars and where the car had taken off his foot. I cannot swear that he was hit by the bridge, but we formed the opinion that he had been upon the cars he might have been struck by the bridge. Could not find his hat. It is hard to say where he was struck, but if he was on the centre of the car he might have remained on the car, but if at the end he would in all probability have dropped off. He might have remained on the top of the car for some distance after death before he fell, which might account for the body being found so far north of the bridge—about ninety feet. I observed blood marks just inside of the east rail down as far as the body was found. Mr. Pym was the conductor of the train off which the deceased was killed. I heard that some of the boys had examined the cars, but do not know whether they examined the bridge or not. I think the bridge was not high enough to allow a man to pass in safety under it.

MAXIE MOUNGRAW, sworn, said:—I am a brakeman on the express and was coming south from Omemee. At Omemee, Conductor Pym, of No. 16 way freight, said that he had lost a man off the train. We kept a look out until the engineer blew for brakes. After stopping we went back and found the body lying on the track. When we came to the bridge near Franklin I formed the opinion that he might have been killed either by falling between the cars or by striking the bridge. I saw the blood all along up to the bridge.

To Mr. WELLS.—This bridge was built in an oval and the pieces on the sides were clear of the cars and everything. I make it a rule when approaching a bridge to lie flat, no matter how high it is.

DR. E. L. BURNHAM, sworn, said:—I went over to view the body, as requested by Mr. Maxwell, and found the nature of his injuries to be as follows:—The skull was fractured into a number of places. There was a large contused wound on the posterior part of the

head—the bone was depressed. There was another wound on the middle of the forehead and still another at the external corner of the left eye. There was also a wound over the superior anterior corner of the parietal bone, and the bone was very much fractured immediately under it. The lower jaw was broken in the middle line and also a large contused wound, and there was also another wound at the right angle of the lower jaw, but no fracture. The right forearm was crushed, as it might be by a car wheel, and there was a compound fracture of the right knee joint. The left leg was cut off just above the ankle and the left foot crushed. I would judge that the wounds in the head were produced by striking against some hard object, and not by car wheels.

C. FALLIS, constable, gave evidence as to what was found on the body, the principal things being \$34.42 in money and a watch. The inquest was then adjourned, at twelve o'clock, and was resumed again at seven o'clock in the evening.

W. Pym, sworn, said,—"I was conductor of way freight train No. 16 going north on Monday last, the 28th August. The deceased was brakeman on the train. The last time I saw him was at Bethany. We did some there at Franklin, but did not notice him there. We left Franklin at 9.25 and crossed the mail at Omemee. John Tucker, a brakeman on my train, asked me if Reid was on the hind end of the train. I told him I had not seen him. We thought he had been left at Franklin. We told the men on the mail that we had lost Reid. The mail proceeded south. While we were unloading freight J. Tucker noticed blood on the car next to the one we were unloading out of, and called my attention to it. We examined the cars and found blood and pieces of flesh on four or five, and also found a piece of his shirt on a bolt. We waited there till the mail arrived at Franklin, and inquired and found out that he was killed. We thought of the bridge as soon as we heard of his death and formed the opinion that he must have been killed by striking the bridge. All overhead bridges are dangerous. The deceased was over six feet high. I think the deceased was about a month or three weeks on the Midland in the capacity of brakeman. I think he had not been long out from the Old Country.

To Mr. WELLS.—I did not examine the upper parts of the cars. I found blood on the next car to the one I suppose the deceased was knocked from. I think he must have been standing near the centre of the car, and that he must have been knocked from that position by the bridge.

To THE CORONER.—I could not tell what speed we were going at, probably eighteen or twenty miles an hour. There was E. Pym, J. Brock, J. Tucker, the deceased and myself on the train. W. Pym was the engineer and Robert Johnson, fireman.

JOHN TUCKER, sworn, said,—"Mr. Pym was conductor on the train from which deceased was killed and I was one of the brakemen. I have heard Conductor Pym's evidence and I corroborate all his statements, excepting that I saw the deceased at Franklin. He was standing on the edge of a box car motioning to the engineer. The bridge as near as I could judge, is half a mile north of Franklin. I saw no blood on the railroad track, but I did on the cars.

THOMAS MALLOCH, sworn, said,—"I know the railroad bridge at Franklin. I do not think the bridge is a safe one for brakemen if standing on the cars. I know nothing of how the deceased came to his death.

The CORONER said that all the evidence seemed to show that Reid was killed by being struck by the bridge. If the jury thought he had been killed by the bridge, they had it in their power to bring in a verdict of manslaughter against the officials of the railroad, or to acquit them.

The jury were then left alone, and after about twenty minutes' deliberation they found the following verdict:—"That according to the evidence the deceased, J.B. Reid, came to his death by striking an overhead bridge near Franklin, on the Midland Railway, and that the said bridge was lower than was safe for brakemen to pass under in the ordinary discharge of their duty."

Medical.

Dr. O'Sullivan is resitating for a time and proposes taking a holiday trip for a few weeks, so his patient will not find him at his office till his return, which we will announce.

The Weather.

The weather continues very warm. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—continued light to moderate winds, mostly east and south, fine warm weather.

Excursion to Hastings.

The annual excursion of the Charlotte Street Methodist Sunday School on the Grand Junction Railway this morning was attended by a large number. The train consisted of six coaches. The party got to Hastings, and they will doubtless enjoy the trip and the day there, as the grove is well adapted for picnics, and arrangements had been made to provide for a pleasant time.

The Rev. Father Felix Hackett.

We find in a New York paper of August 22nd the following particulars relative to the lamented death of the Rev. Father Felix Hackett, brother of Mr. John Hackett, of Peterborough:—"The Rev. Father Felix Hackett, assistant pastor of the Roman Catholic church in Enniskillen, county Fermanagh, Ireland, died last night at St. Peter's Hospital. Deceased had come to this country about four months ago on a mission to collect funds for the completion of the great Catholic cathedral at Clougher, in his native county. His efforts during his brief sojourn here had been confined to this city and vicinity. Two weeks ago, while stopping with a family in Warren street, he was stricken with typhoid fever, and last Thursday was removed to St. Peter's Hospital, where, in spite of the most careful medical attention and nursing by the good sisters of the institution, the attack proved fatal. Father Hackett was 37 years of age and had no relatives in this country. He was educated at Maynooth College and has been nine years in the priesthood. Father Gavin, who was a close friend of deceased, speaks of him as a most devoted priest and of a peculiarly amiable disposition. The funeral will take place at St. Paul's Church, corner of Court and Congress streets, to-morrow at 10 a. m."

We learn from the paper of the following day in addition to the above particulars, that the interment took place at the cemetery of the Holy Cross, Flatbush, and that a requiem mass was celebrated on the occasion.

HOW IT WORKS.—The purifying and healing properties of Dr. Fowler's Extract of Wild Strawberry impart a healthy tone to the diseased mucous surfaces of the Stomach and Bowels. Its cooling, soothing properties counteract pain, its antiseptic properties convert cancer and foul humors, and its tonic and stimulant nature corrects all exhaustive discharges. Such as Dysentery, Diarrhoea, Cholera, Mucosa, and Summer Complaints generally.

Ladies by calling at the Store will receive Butterick's New Monthly for September, free of Charge.

The Market
There was about the usual attendance on the market this morning, and the prices of produce remained unchanged.

Money Returned.

The money which was stolen from the safe in Darcy's Hotel on Saturday evening was returned to-day through the post office. The whole amount, fifty dollars in five dollar bills, was enclosed in an envelope and addressed to Mr. Darcy. This is a mysterious occurrence throughout, and can hardly be understood. While only fifty dollars were taken while there were over two hundred dollars in the safe, and why the money was returned after being stolen, are difficult questions to answer. It is barely possible that it was done in a joke, or the thief may have become frightened and returned it on that account.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

J. R. BOND, Druggist, &c., Schomberg writes, "I have sold medicines for over twenty years, and no medicine could give better satisfaction than your Dr. Fowler's Extract of Wild Strawberry. This medicine is the old reliable cure for Cholera Morbus, Dysentery, and all Summer Complaints."

MR. Wm. RANSOM, of South Norwick, says: "For sixteen years I suffered from Billiousness, never had any medicine do me any permanent good until recommended by your druggists, (J. Wesley Fish & Co., Ottawa), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Billiousness, &c. Sold by J. D. Tully, at 50 cents a bottle."

A WORD OF CAUTION.—Beware of Opium and powerful astringent drug in the treatment of Bowel Complaints, they may kill the pain and check Diarrhoea, etc., but are liable to produce inflammation. Dr. Fowler's Extract of Wild Strawberry is guaranteed safe and reliable, even for Infants, and is a specific for Cholera Morbus, Dysentery, Colic, Acute or Chronic Diarrhoea and Summer Complaints generally.

DOWN!

DOWN THEY GO.

Great Reductions in our Dress Department. We are determined to get rid of our Summer goods, and have marked them accordingly!

MILLS BROS,

In the course of two weeks will have for the Fall Trade, the Largest and Best Assorted Stock of Hats, etc., ever shown in the town of Peterborough. We

KEEP

No Old Stock whatever, every hat a perfect model of beauty, clean, and fresh from the factory, and prices which

NO

Hat House in the Dominion can compete. A passing glance at our show window will at once attest the truth of this assertion, and convince the most skeptical of the desirability of purchasing new and fashionable goods in preference to the

OLD

Styles and old prices of by-gone days. We hold that no firm watches the American Market for Young Men's Goods (especially) closer than we do, and claim the honor of selling the Nebbiest and Finest

STOCK

Of Hats in Canada. Young men will find it to their interest to examine carefully our styles and prices for fall before purchasing elsewhere. We have the right goods at the right prices.

Miscellaneous.

Notice to the Public.

We will in future carry on the business
formerly conducted by MR. GEORGE
TAYLOR as a Pumpmaker, on Charlotte
Street, Peterborough. Having a complete
knowledge and long experience of the
business, (Mr. Wright has been for 12
years in Mr. Owen's Pump Factory), we
hope to give satisfaction to our customers
by supplying a First-class article at
Reasonable Prices. Repairing promptly
attended to.

WRIGHT & PAYTON,

Charlotte Street, Peterborough.
August 14th, 1892.

INCREASE

YOUR CAPITAL.

Those desiring to make money
on small and medium investments
in grain, provisions and stock
speculations, can do so by op-
erating on our plan. From May 1st,
1892, to the present date, on in-
vestments of \$10,000 to \$1,000, cash
profits have been realized and
paid to investors amounting to
several times the original invest-
ment, still leaving the original in-
vestment making money or pay-
able on demand. Explains the cir-
cumstances and statements of fund
sent free. We want responsible
agents, who will report on crops
and introduce the plan. Liberal
commissions paid. Address:
FLEMING & BERRIAM, Com-
missioners, Chicago, Ill.

THURSDAY, AUGUST 31, 1892.

POUR COURT.

DRUNK.
THURSDAY, Aug. 31.—Mr. Thos. Menzies dis-
posed justice this morning. Henry Revolt
was charged with being drunk on Wednesday.
He admitted the offence and was only anxious
to know how much it would cost him. He was
fined \$1 without costs.

FURIOUS DRIVING.
Mr. Trotter pleaded not guilty to the charge
that he did, on the 27th of August, drive a horse
at an immoderate rate of speed. The case was
enlarged until Monday, the 4th of September,
when a charge against Mr. Trotter for ill-treat-
ing a horse will also come up.

A SWIMMING CASE.
Wm. Armour, who had been swimming in
Rogers' lake, was charged with exposing his per-
son. He acknowledged that he had been swim-
ming there, but said that he could not be seen.
He was allowed to go with a caution.

The Cricket Match.
The Cricket Match yesterday between the
Peterborough and Lindsay clubs resulted in the
defeat of the home team by two wickets. We
will publish the score to-morrow.

Presentations.
The handsome piece of plate that has just
been presented to Dr. H. C. Burrill, is to be
seen in the window of "China Hall," having
been procured from Macfarlane Wilson. It is
greatly admired.

Ashburnham Voters List.
The Judge of the County Court sat to-day to
hear appeals against the present year's voters
list of the village of Ashburnham. Six Con-
servative votes were added and one Reform vote
was struck off and one added, making a gain of
six votes so far.

Laying the Corner Stone.
A new Methodist church is going to be built
at Ballisboro, in the circuit of South Mon-
aghan, and the corner stone will be laid on Fri-
day afternoon at 2 o'clock. The Rev. John
Shaw, Chairman of the District, will conduct
the services, and the stone will be laid by Geo.
Hilliard, Esq., M. P.

Law Examination.
Among those who passed the recent law ex-
amination at Osgoode Hall, Toronto, were Messrs.
C. J. Leonard, W. A. Stratton and D. J. Lynch.
Mr. Leonard passed both the examinations for
solicitor and barrister with credit. Mr. Stratton
passed the second intermediate examination,
taking a foremost place in the ranks of the suc-
cessful candidates, and Mr. Lynch passed as
solicitor.

Sunday School Excursion.
The annual excursion of the Charlotte Street
Methodist Sunday School on Wednesday, on the
Grand Junction Railway to Johnson's grove,
near Hastings, was attended by a large number
of the scholars and teachers and their friends.
The train consisted of six coaches, which were
all filled. The run on the cars was a pleasant
ride, and the party enjoyed a very pleasant day
at the grove. They returned at about half-past
six in the evening.

Concert To-Night.
The 57th Battalion Band will give a prome-
nade concert in the Drill Shed to-night, under
the patronage of the officers of the battalion.
The concert was announced for Friday night,
but owing to unavoidable circumstances the date
has been changed. This will be the last oppor-
tunity of hearing the band until they return
from camp. A good programme has been pre-
pared, and the members will turn out in full
military dress.

Borford's Acid Phosphate
In sickness is of great value. Its action on
the nerves of the disturbed stomach is soothing
and effective.

THE WAR IN THE EAST.

**ARABI APPLIES TO GENERAL WOLSELEY
FOR AN ARMISTICE.**

**The Request Refused—The Main Army
Marching to the Front—The Losses in
the Battle at Kassassin—Discussion of
the Convention Closed.**

THE KASSASSIN FIGHT.
LONDON, Aug. 30.—General Wolseley tele-
graphs that only the Household Cavalry and
7th Dragoon Guards were seriously engaged in
the fight at Kassassin. The former had three
troopers killed and eight wounded. Major
Townsend received a sabre cut on the wrist.
The Guards had two troopers wounded.

AT THE SCENE OF THE CHARGE.
LONDON, Aug. 30.—The News' Ismailia cor-
respondent telegraphs:—"I rode over the scene
of the cavalry charge at Kassassin lock, and
found two acres thickly strewn with corpses of
the enemy. Some of our cavalry are still seek-
ing for our dead and wounded. Two dead Life
Guardsmen are so mutilated as to be unrecogniz-
able; their faces were horribly gashed, one had
one hand completely severed from the arm, and
the other nearly so; one his eye scooped from
the socket. The hands of another body was
just hanging to the wrist by pieces of flesh and
snows. A wounded Guardsman relates that in
the charge his horse was shot, and falling broke
his rider's thigh. While lying on the field he
saw some Egyptian soldiers ride by. He called
for help, whereupon an Egyptian rode up and
seized the Guardsman's face from temple to
chin. The man, however, is doing well. The
enemy's loss is at least 400.

READY FOR ANYTHING.
ISMAILIA, Aug. 30.—The British did not an-
ticipate the recent attack. The result shows
that we are ready for anything. It is reported
that the enemy has fled to Tel-el-Kebir. Our
positions remain much as they were, but the
cavalry have advanced a few miles on the ex-
treme right.

COMMUNICATION NEARLY ESTABLISHED.
ISMAILIA, Aug. 30.—The British have now
nearly established their line of communication
with Tel-el-Kebir. The railway along the
route is nearly completed, and several trains
have been already sent forward. Gen. Wolse-
ley and the entire army are marching to the
front.

ARABI TRYING TO BLOCK THE CANAL.
ISMAILIA, Aug. 30.—Arabi is doing his ut-
most to block the Suez canal. A telegram from
Arabi to Mahmoud Fahmy ordering him to in-
duce the Bedouins at Kantara to effect a stop-
page there was recently intercepted.

DISCUSSION CLOSED.
CONSTANTINOPLE, Aug. 30.—Lord Dufferin
has informed the Porte that he cannot continue
further discussion of the terms of the military
convention, and that Turkey must take action
in regard to the terms proposed by England at
once.

ARABI AT TEL-EL-KEBIR.
ALEXANDRIA, Aug. 30.—A Greek merchant
who left Cairo on the 25th reports that Arabi,
Ali Fahmy, and a number of troops from Kaf-
el-Dwar, were at Tel-el-Kebir when he passed
there.

CONCENTRATION OF TROOPS.
ISMAILIA, Aug. 30.—The concentration of
British troops around Kassassin continues. The
men are suffering severely from heat, and many
cases of sunstroke are reported daily.

AN ARMISTICE REFUSED.
LONDON, Aug. 31.—A Port Said despatch says
that Arabi asked for an eight days' armistice.
Gen. Wolseley refused the armistice, but noth-
ing will be done for several days unless Arabi
again forces the British.

NOT CONFIRMED.
LONDON, Aug. 31.—The confirmation of the
reports concerning negotiations between Arabi
and General Wolseley have been received by
the Government, and they are believed to be
unfounded.

DOUBTFUL REPORTS.
CONSTANTINOPLE, Aug. 31.—The *Vakit* an-
nounces that a victor has been won by Arabi
Pasha. *Deferre* states that the British lost
four hundred men in the fight at Kamleh, other
reports are being industriously circulated.

THE ARMISTICE.
NEW YORK, Aug. 31.—An Ismailia despatch
says that Arabi asked for an armistice with the
view of negotiating for discontinuance of hostil-
ities.

WITHDRAWS TO TEL-EL-KEBIR.
PORT SAID, Aug. 31.—A return in the direc-
tion of Cairo will be made to-day. It is
believed that the Egyptian garrison has with-
drawn to Tel-el-Kebir.

ENEMY STILL ENTRENCHING.
ALEXANDRIA, Aug. 31.—A train from Ram-
leh is now run 200 yards beyond the water-
works. Many residents living beyond that
limit are clearing into the city. The enemy
have retired a thousand yards further from
the Malhah Junction in the direction of Dom-
anhour, but continue entrenching opposite
Maka.

A SHARP TRICK.
Napaeer Merchants Victimized by Two
Sharpers out of \$60.

The Kingston Whig gives an account of a
sharp trick played on several merchants in
Napaeer, by two men, on Saturday evening.
The fraud was done in this manner: One man
would enter each store and purchase a 10 cent
box of blacking, toothpowder, candy or whatever
the store made a specialty. He would proffer
for payment a \$10 bill. After the clerk count-
ed out \$9.90 in change the sharper would re-
mark, "Oh! I have found a 10 cent piece in
my pocket." He would then lay the 10 cents
on the counter and ask for a \$5 bill for change,
at the same time bothering the clerk so that he
would leave the change on the counter and go
off for the \$5 bill. Having returned with it and
laid it on the counter the sharper would say to
the clerk, "I wish you would give me my \$10
back now and keep the \$5 in change." Then
the sharper would quickly pick up one \$5 and
leave \$10 on the counter, \$5 of which was
really the merchant's own money. In this
manner the two victimized about a dozen per-
sons, making some \$60 by the evening's work.
One merchant, probably about the last one
victimised, discovering the game immediately
after the sharper had left his shop, placed the
matter in the hands of Constable Holmes, and
the men were arrested.

MIDNIGHT TELEGRAMS

CABLE.

SECOCOENI'S MURDER.
DUBRAU, Aug. 30.—Besides the Kafir chief
Secocoeni, his son and fourteen of his followers
were killed. The killing was done by Man-
poer, the chief put into his place by the Brit-
ish.

THE FRONTIER TROUBLES.
ATHENS, Aug. 30.—Additional troops have
been ordered to the frontier, where the Gov-
ernment has determined to concentrate four
thousand men immediately. It is stated that
this will be sufficient if the movement of the
Turks is only instigated by the Turkish local
commander, but if the impulse emanates from
Constantinople the struggle will prove serious.

THE CONSTABULARY.
DUBLIN, Aug. 30.—The agitation among the
Irish constabulary is rapidly spreading. None
have yet refused duty, but the dissatisfaction
with the course of the Government in delaying
payment of the additional compensation asked
for seems to be general.

AMERICAN.

A BISHOP DEAD.

LONDON, Aug. 30.—Bishop Steere, of Central
Africa, is dead.

PIRATES CAPTURED.

NEW YORK, Aug. 30.—The schooner transit,
owned by Jex & Co., of this city, and engaged
in the Central American trade, was recently
seized on the Nicaraguan Coast by six pirates,
who imprisoned the captain and crew. The cap-
tain was released that he might take the vessel
over the bar, and the pirates becoming drunk,
the captain released the crew, when all the pi-
rates were secured and subsequently turned over
to the authorities.

ON THE WAR PATH.

SAN FRANCISCO, Aug. 30.—A Calaveras de-
spatch says that the Apaches raided the valley
last evening, and it is reported that they killed
twenty men, women and children. They have
taken all the ranches from Calaveras to the
line, and the people are coming to Calaveras
for safety. John's Band has recrossed the line
into Arizona. Captain Madden, commanding
Fort Huachuca, is in pursuit. The Indians
are also raiding the Santa Cruz valley. They
killed Martinez and his family yesterday, and
they attacked the American miners, H. Barnes,
Payson, Barnes and Hinfenthal and two Mexi-
cans south of Fronteras, Sonora, on Tuesday
last. Hinfenthal was killed and Payson and
Barnes were wounded. The others entrenched
themselves and stood off the savages several
hours. The hostiles retired at night. Mexican
troops are also pursuing the savages.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

A REPORT DENIED.

NEW YORK, Aug. 31.—The *Herald's* Wash-
ington despatch says that Folger denies the re-
port that he will resign the Secretaryship of the
Treasury if nominated for Governor of New
York.

HUDSON RIVER TUNNEL.

NEW YORK, Aug. 31.—Breaks have occurred
at both ends of the Hudson River tunnel and it
is flooded. The damage is not considered seri-
ous.

DISEASED CATTLE.

AUBURN, Aug. 31.—All the cattle stricken
with Texas fever in Seneca have been ordered
to be killed by the State Cattle Commission.

INDIAN TROUBLES.

NEW YORK, Aug. 31.—The *Herald's* Wash-
ington despatch says that telegraphic advices
confirm the report that Payne and a number of
followers are in the Indian territory. The com-
missioner of Indian affairs has recommended
to the Secretary of the Interior that the war-
department be called upon to remove Payne.

MURDER.

Daily Evening Review

THURSDAY, AUGUST 31, 1882.

THE ONTARIO GOVERNMENT.

In reply to the charge in some of the election petitions that the Government of the Province of Ontario and its officials were guilty of using "undue influence," an answer has been made that reads like a bad joke on a very serious subject.

In answer filed for the defence it is said:— "The Government of the Province of Ontario is vested in Her Majesty the Queen as lawful sovereign of the said Province, and that at the time of the said election, by letters patent under the great seal of Canada, Her Majesty's local executive functions were exercised in Her Majesty's name by Her Majesty's Lieutenant-Governor of the Province of Ontario, under the designation and title of the Government of the Province of Ontario."

Her Majesty may be left out of this question, for though she is Sovereign of the British Empire of which Canada and Ontario form part, she has entrusted, with the assent of the other branches of the imperial legislature, a portion of her powers to the Governor-General of Canada and another portion to the Lieutenant-Governor of this province.

But to come to the Provincial Government as distinguished from the Governments of the Empire and the Dominion—the local Government established to deal with certain defined local matters, and which is the body against which the charges are made. It will certainly be startling to old-fashioned Reformers, as well as Conservatives, to learn that the Lieutenant-Governor is the Government of the Province. We had thought that as the head of the Government (as distinguished from the position he also holds as a Dominion officer) he came under the well-known maxim that "The King can do no wrong." We had thought till now that it was his constitutional advisers who were responsible—in short that the Government of Canada was, as regards executive powers, the Lieutenant-Governor-in-Council, and as regards legislative powers the Lieutenant-Governor and the Legislative Assembly as the two estates of our provincial legislature, and not in either case the Lieutenant-Governor in his own personality. Here is another strange instance of Reformers advocating "the divine right" of Lieutenant-Governors "to govern wrong."

The Mowat administration can hardly wriggle out of their responsibility for their actions by such a quibble. Not being "learned in the law" we cannot say whether they constitute such an entity as to be held legally responsible for a breach of the election law—that is a question we leave to the bar and the bench. Neither will we discuss the matter of their guilt in the cases that now have to be legally investigated, for this also we are content to leave to the Courts, without committing the indecorum of ourselves prejudging the question. But in the case of our own locality, which is not before the Courts, and of which we have knowledge, we need not thus keep silence. It is an undoubted fact that in this County officials of the Provincial Government acted zealously and openly as electioneering agents and used both undue influence and corrupt promises in behalf of the candidate favored by the Government of the Province. It is as notorious that one of the Reform candidates openly and publicly avowed and justified their interference.

We had no member of the Ontario administration here to work openly and illegally for their allies, but their officials certainly did so with their connivance, and without any disavowal by them.

EDITORIAL NOTES.

SOME of the "Reform" journals are urging Mr. Mowat to "follow the example of Sir John Macdonald and gerrymander the constituencies before the Provincial general election." If Mr. Mowat follows the example of Sir John he will wait till the law compels him to increase the representation, and will then rearrange the constituencies so as to equalize the population in a great measure. If, on the other hand, Mr. Mowat follows the example of Mr. Macdonald in 1874, he will add to the representation without legal compulsion, and contrary to the best interests of the Province, and in so doing will disarrange over 30 constituencies, without regard to the municipal boundaries or the population of the electoral districts, but solely with a view to strengthen himself as much as possible. If he abstains from such gerrymandering now it may be because he did the work so effectually in 1874 that he feels unable to improve upon his tinkering.

The London Advertiser, one of the leading Reform journals, speaks as follows in reference to Mr. Mowat's centralizing proclivities:— "The municipalities are not Federal bodies. They derive their authorities from the provinces

and they are allowed to retain so much authority as experience proves to be wise and beneficial."

This is pretty plain speaking. The municipalities are to be allowed so much authority as may seem "wise and beneficial" to Mr. Mowat. And they derive their authority from the Province, do they? Why, some of our municipalities are of older date than the Province of Ontario. But at all events the system of local self-government—the unwritten constitutional right of our people to manage their own local affairs, antedates the settlement of Canada, or even the discovery of America, or indeed the Norman conquest, and even Norman kings and nobles dared not interfere with it—that is left for Mr. Mowat.

Our gracious lord and protector, Oliver II. is not quite so bold in his method of invading the popular rights as was his namesake Oliver I. of the Cromwell line, who, ordering "that bauble" to be taken away, kicked out the Parliament, and ruled at his own good will and pleasure. Our present Protector, of the Mowat line, more craftily, but as effectively, accomplishes his purpose, by cajoling his legislature into establishing a bureaucracy, by means of which he rules us; his commissioners and inspectors and rangers and surveyors and bailiffs and clerks and gaolers—his whole army of officials, in short, whose appointment he has usurped from the local authorities, filling the place of the Ironsides of Oliver I. By this means Oliver II. is equally though more covertly despotic than his great prototype.

The commissions of a number of Deputy County Court Judges having been cancelled; the Globe, with that dishonesty for which it is notorious, accuses the Dominion Government of being influenced by partisan considerations. To take this locality, it will be hard for the people of Peterborough and Lindsay to understand why Mr. R. H. Denniskoun and Mr. Adam Hudspeth should have been made the victims of partisan hostility by a conservative administration.

An attempt is made to show that the Conservatives are opposed to the construction of colonization roads. On the contrary the Conservatives are so strongly in favor of colonization roads that they wish the whole of the sums appropriated for that purpose to be applied to road building, and not squandered, as at present, in rewarding Mr. Mowat's adherents. If the amount had been expended by contract instead of being used as an electioneering fund, at least twice the amount of road might have been constructed.

We are given to understand by Reform journals that the people of Quebec are ground to the dust by an extravagant "Tory Government." Yet they have elected Mr. Mowat, their new Conservative Premier, by a majority of nearly 400. No one dared to face Mr. Chapleau and he is returned without opposition for the House of Commons on taking office in the Dominion Cabinet.

The Examiner again parades in a list of excuses for the recent defeat of its party "the appointment of partisan returning officers." Not very complimentary to Sheriff Hall and Colonel Haultain.

TOWN STATISTICS.

Gleanings from the Assessment Roll of the Town of Peterborough for the Year 1882.

The following information compiled from the Assessment Roll of the Town of Peterborough may be relied upon as authentic, and the statistics put into this concise form will be of interest to many who would not have leisure to wade through the voluminous original documents, or the patience to make the computations.

Voters' and Jurors' Lists:—

Ward	Voters	Incomes	Freeholders	Tenants	Total
No. 1 Ward	5	263	142	420	
No. 2 Ward	21	163	306	490	
No. 3 Ward	7	256	236	400	
No. 4 Ward	4	152	100	276	
Totals	37	674	878	1,606	

Jurors:—

No. 1 Ward	250
No. 2 Ward	221
No. 3 Ward	256
No. 4 Ward	118
Total	845

Ratepayers and acreage:—

Number of Ratepayers	1,873
Number of Non-Resident Ratepayers	42
Number of acres assessed on the Resident Roll	1,343
Number of acres assessed on the Non-Resident Roll	59
Total number of acres Resident and Non-Resident	1,402

Personal: To Men Only:

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dry's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

C. BRITTON, Lindsay, Ont., writes:—"I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine."

DISTRICT INTELLIGENCE

TOWN'S POINT.

From Our Own Correspondent.

AN EXCURSION OF TRUE BLUES.—Last Friday there was according to advertisement a moonlight excursion of True Blues from Peterborough and Lakefield on the steamer Cruiser, which arrived here about 10 o'clock p. m. About 12 or 14 young men came off here when the steamer was in the locks, and as they stayed too long imbibing at the hotel, the Cruiser proceeded on its journey for a sail around the Clear Lake, and if those young men belong to the Order of True Blues, which we doubt, the sooner they are expelled from the Order, the better it will be for the well behaved. Their conduct was disgraceful, their language disgusting, and their swearing abominable. The very next time any such characters kick up such a row, when all the people of the village are in their beds—they will be taught a lesson they won't forget in a hurry. Outsiders must not think they can do as they like when they come to the Point; we must have law and order. Your correspondent trusts that this will be the last time he will have to call attention, as it will not be tolerated.

SINGLE MILL.—Mr. Geo. Chalmers has sold his present shingle machine to a man in the township of Harvey, and has personally purchased from the manufacturers at Grand Rapids, Michigan, U. S., a machine capable of cutting 20,000 per day. Henceforth Mr. W. I. Kearns, will do his best, as he always has been doing, to make a first class shingle, and in fact they are the best shingles that go into the market, and sell at eight. It will take Mr. Kearns three months to keep up to the orders that are all the time pouring in. Mr. Chalmers deserves credit for his business push and energy.

DISGRACEFUL CONDUCT.—On Tuesday evening between the hours of ten and twelve o'clock a. m., four young fellows and a boy, were watched stoning poor harmless geese, belonging to people of the village, trying to kill them, no doubt to have a feast. If they were not successful in stoning them to death, at least they maimed several. Their modus operandi was this; two of the fellows got into a canoe opposite Stewart's store and drove the geese on to the shore. Then the two fellows and the boy fired a volley of large stones among the flock. They all crowded about for two or three minutes, and then the two fellows and the boy came down the river, and their names were down. It is to be hoped that they will be severely punished for their cruelty, for certainly they will be punished.

BUTCHERS.

From Our Own Correspondent.

THE TRINITY VALLEY CANAL.—Some contractors have been here lately looking at the site laid out for the locks for which tenders are invited. It will make quite a business place of this dull neighborhood. Colonel Williams of Port Hope, will also build the long talked of grist mill whenever the locks commence, therefore, all the empty houses will once more be occupied.

SCHOOL TRUSTEE'S FARE FIGHT.—About ten days ago, two of our well to do farmers living about the 10th Concession of Smith had a nice little fight, biting included. It commenced about the School Law; one knew the act better than the other and vice versa, when the one Trustee who knew the best called the other a liar, which brought things to a focus, and he was knocked down with the fist and got a kicking and a little biting into the bargain. He now carries a black eye. So much for calling his colleagues a liar in plain English. There is some talk of having the thing argued before a J. P. one day soon.

SURVIVING THE DROWNED LAND.—An employee of the Local Government has been here since Monday, surveying all around the water's edge, and some diked land, for reasons least known to the Department he represents. If he had come two weeks ago he would have found the water three or four feet lower than at present. Thanks to Mr. Thomas Belcher for the full supply we have now. I cannot mention the number of times this sort of work has been done by the employees of the Local Government, for reasons least known to themselves. I presume they are going to examine all the drowned lands in the district. The property owners who have claims will be so much the better off for having this work measured when the water is extra high for this season of the year.

OTHERS.

THEFT.—The Herald says that on the 23rd inst., information was laid before Dr. Norris, J. P., that one Charles Milloy did on the 22nd inst., steal from Wm. J. Jeffs a pair of boots, a suit of clothes and six dollars which were in the pockets of the pants. Both parties were boarding with Mr. Samuel English. Up to the time of our going to press Milloy has made good his escape.

BIO WORK.—On Tuesday of last week on "Clover Valley Farm," south of the village, 2nd Con., Lett's, Emily, the following remarkable work was done and is couched for by several disinterested parties. Messrs. George Fee, W. Bannan and Ed. Bannan bound 25 acres of wheat in eleven hours. It was an average crop of not more than 15 bushels to the acre. The remarkable part of this tough story is that master John Bannan, aged 14 years, did the stooking and kept up with the binders.

HORRIBLE CRUELTY.

Alleged Attempt by a Servant to Poison an Infant with Eye.

MONTREAL, AUG. 28.—An outrage, fortunately rare in the annals of the servant girl of the period, came to light here to-day. It appears from the police report that Phoebe Noel, joiner, lives at 368 Panet street with his wife, an infant ten months old, named Virginia, and Julie Bolavert, a domestic servant. On Friday last whilst Noel was absent at his work, and Mrs. Noel in a neighbor's house, she was startled by hearing strange, unnatural cries proceeding apparently from the infant that she had left behind under the charge of Julie. The mother rushed upstairs, and discovered the baby evidently suffering severe pain, black and swollen, a thick, whitish matter oozing out of its mouth. Julie declared she could not account for the child's state. Dr. Clouston, after examining the infant, declared that poison of a caustic nature had been administered. The girl when questioned by Dr. Laford, who, with others was called in, is said to have paid him a large sum of money if he would make a favourable report. She declared she could not tell how it happened, and said it must have been the result of some medicine previously given the child. A search was made, and a small tin containing concentrated lye was found. This the physicians declared would produce all the effects shown by the patient. Julie was accordingly arrested. The father said that he knew of no reason why the prisoner should have acted as she did. There was no quarrel, as far as he knew, between his wife and Julie, nor could he assign any motive for the horrible deed. The child is still alive, but sinking fast.

WEDDING PRESENTS!

CHINA HALL is Headquarters for Wedding and Birthday Presents of Every Description in Silverware, China, Majolica, Glass, Etc. Our stock of Crockery, China, Silver and Glassware is by far the Most Complete in the Town. A MORE satisfactory state of affairs is reported from the disturbed districts in Syria.

Dr. PIERCE'S "Favorite Prescription" is the debilitated woman's best restorative tonic.

TYPHUS FEVER is carrying off many of the Italian labourers on the West Shore, N. Y., Railway.

A COMMUNICATION was received by the United States Tariff Commission yesterday asking that foreign iron ore be placed on the free list.

UPWARD of 60 per cent. of those attacked by cholera, which is now raging in Japan, succumb to the disease.

An Indiana paper, we notice, cites the case of Colonel Samuel H. Taylor, of Washington, that State, who was cured by St. Jacobs Oil of a severe attack of rheumatism.

All the revolting Tunisian tribes are returning home from Tripoli, where they took refuge from the French troops. All is quiet in Tunis.

THE wheat crop in almost every wheat-growing county in Michigan has been injured by the heavy rains during the harvest.

THIRTEEN Indians who were engaged in the recent rebellion of the Creeks have been punished by public whipping at Little Rock, Arkansas.

HALL'S Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

In only one department in France is the wheat crop reported bad. In the majority of departments it is reported from good to excellent.

A NUMBER of vicious rats badly disfigured a young child's face recently while it was asleep in its father's residence in Ottawa. The little animal came from the main sewer.

It Catarrh has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

On the withdrawal of the Royal Munster Fusiliers from the Halifax garrison in September but one regiment of the line will remain, and it is not probable there will be a second one sent there for some time.

THE Rev. Charles E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes:—"I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these bitters have cured her."

YOUNG or middle aged men suffering from nervous debility, loss of memory, premature old age, as the result of bad habits, should send three stamps for Part VII of Dime Series pamphlets. Address World's Dispensary Medical Association, Buffalo, N. Y.

DYSPEPSIA is the most common of all diseases, and under ordinary drug treatment the most difficult to cure, it is a chronic weakness of the stomach with indigestion. The sensitive mucous membrane coating the stomach becomes irritated, and nearly all that enters the stomach continues to add fuel to the fire. Heartburn and Sour Eructations, Belching of Wind, Nausea, Headache, Variable Appetite, Constipation, etc., are its prominent symptoms. Buxdock Blood Bitters is a positive cure for this miserable disease.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system.

CAPT. PATER, of Oklahoma notoriety, is encamped on the Deep Fork, Canadian river, Indian Territory, with a colony embracing 27 fighting men, well armed and mounted. The colony has not been interfered with by Federal troops or Indians.

ST. JACOBS OIL.—TRADE MARK.

THE GREAT GERMAN REMEDY FOR RHEUMATISM.

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frostes Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals St. Jacobs Oil as a safer, surer, simpler and cheaper External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption that will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—A FLUID peculiar in itself, is the most potent remedy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—BOTTLES CONTAINING NINE HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE
THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEADACHE, DYSPEPSIA, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and most potent pills for every constitution.

In Boxes at 1s. 1/4, 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the World. Prepared by J. R. King, London. Specially valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the blood. For debilitated health from the effects of "hot climates" this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC restores and develops the nervous energy, enriches the blood, promotes appetite, dispels languor and depression, fortifies the system, and is a specific remedy for neuralgia, ague, indigestion, fever of every kind, chest affections, and in wasting diseases, nervous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 2s. 6d., 4s. 6d.; next size, 11s. Sold by chemists everywhere.

The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.—This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, tormented tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

KENDALL'S SPAVIN CURE

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 30th, 1880.
Dr. B. J. KENDALL & Co., Gentls.—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the hunch be found.

Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOCKTON, Mass., March 16th, 1880.
B. J. KENDALL & Co., Gentls.—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months and he has been sound since. I have used ten bottles. The horse is entirely well, not at all stiff, and no hunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but it does for all what it has done for me, its sale will be very great.

Respectfully yours,
CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for every purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which will give positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price 50c per bottle, or six bottles for \$5. All drug stores have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Stockton Falls, Vt.

Lyman Sons & Co., Montreal, P. Q. Wholesale Agents.

JOHNSTON'S SARSAPARILLA

LIVER COMPLAINT, DYSPEPSIA.
And for Purifying the Blood.

It has been in use for 30 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAINT IN THE SIDE OR BACK, LIVER COMPLAINT, PILES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Horseradish, Sarsaparilla, Wild Cherry, Siliqua, Dandelion, Cassia, Wintgreen, and other well-known valuable roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

THURSDAY, AUGUST 31, 1882.

LOCAL AND MUNICIPAL.

Moonlight Excursion.

The Cricket Club and a number of friends went down the river on Wednesday night by moonlight on the Golden-Eye. They had a pleasant time and returned at a good hour.

No. 3 Company.

The above company will meet for drill at the Ashburnham Drill Shed, on Thursday, Friday and Saturday evenings of this week. A full attendance is requested. The company require the services of a good cook for camp. Applications should be sent to Captain Geo. C. Rogers at once.

T. H. C. A.

The Secretary of the Young Men's Christian Association has received notice of a convention to be held in Chicago, from the 11th to the 13th of October, at which it is expected that five thousand clergymen will be present, in addition to a large number of laymen of different denominations. It is probable that Peterborough will be represented at the convention.

Personal.

The following gentlemen are staying at the Calcare House:—Mr. A. Drysdale, Northern Passenger Agent of the Chicago & Alton Railroad; Mr. J. C. Lavon, Canadian Passenger Agent of the Michigan Central Railroad; Mr. J. A. Richardson, travelling agent of the Union Pacific Railroad.

The Weather.

The weather continues very warm, though cloudy and with appearance of rain. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lake: Moderate to fresh southeasterly veering to south-westerly winds, generally cloudy warm weather with light local rain.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:—

Name.	Place.	Date.
West Riding	Peterborough	Oct. 2nd & 3rd
East Riding	Norwood	Oct. 10th & 11th
Agricultural	Peterborough	September 17th
Central	Cobourg	Sept. 20th to 23rd
Provincial	Kingston	Sept. 19th to 23rd
Exhibition	Lakefield	Sept. 23rd & 24th
South Victoria	Lindsay	Sept. 29th & 30th
Industrial	Toronto	Sept. 31st to 10th

Lacrosse Match.

On Friday afternoon the match for the District Championship of Centre Ontario, and the district championship medal, will be played on the Ashburnham cricket ground, between the Peterborough and Orillia Lacrosse Clubs. The ball will be faced at two o'clock sharp. This will be one of the most important matches of the season, and as the visiting club is said to contain good players, a good match may be expected. There will be a grand stand free to ladies.

"Patience" and "Mascoott."

The New York Comic Opera Co., formerly "Mascoott," intend giving Peterborough a visit, and will present "Patience" and the "Mascoott" in the Opera House here. On Friday "Patience" and on Saturday the "Mascoott." Both of these operas are very popular in Canada, as our readers are no doubt aware of. The press in our Dominion says that this is the best company that has been here for many a day. This company has just closed a most successful engagement in Toronto, whither they go again, at the request of the people there, to remain during the two weeks of the fair.

Large Belts.

The Iron Age says:—
"Messrs. P. Jewell & Sons, of Hartford, Conn., have acquired an enviable reputation for making large belts. According to an item in the Buffalo Express, the largest belt ever made from a single width of hide was recently produced by this firm for a New York flouring mill. It was 48 inches wide, 90 feet long, and weighed 1,000 pounds. We learn that this firm are at present making two belts larger than the above, to be used in one of the largest rubber factories in the country. One is 48 inches wide and 120 feet long, and the other 44 inches wide and 150 feet long, both double thickness. These are the largest belts that can be made from a single hide, as no hide can be solid and thick more than 4 feet in width. It is comparatively few years since belts of these proportions could be made, or pulleys on which to run them. No country except the United States is making use of articles of this kind of the dimensions given."

We understand that Mr. Geo. Stetham, of Peterborough, is the only dealer in Ontario who keeps a stock of this belting.

Address and Presentation.

Yesterday evening an interesting event took place at the residence of Dr. W. H. Burritt, Water street. It has been known to our readers that his son, Dr. H. C. Burritt, relinquished his practice here some time ago, and is just now winding up his affairs preparatory to taking up his residence in Toronto. The doctor during his sojourn here has made many staunch friends, and a few of them were desirous of testifying their esteem and regard for him previous to his departure by getting up an address and presentation which might show that their sorrow at his removal was genuine and unfeigned, and that he went away with their warm wishes for his future success. For this purpose a number of them clubbed together and purchased through Mr. Wilson of the China Hall, a magnificent epergne. On this was engraved a suitable inscription, and the presentation took place last night. The epergne is one of the very finest made. It is of the choicest damascene alloy, gold inlaid, and stands over three feet high. A number of the subscribers, among others Hon. R. Hamilton, H. H. Smith, Esq., Mayor, John Burnham, Esq., M.P., and Rev. W. C. Bradshaw, met for the purpose of making the presentation, and Mr. Bradshaw read the following address:—

To H. C. Burritt, Esq., M.D., Peterborough:—

DEAR SIR,—A few weeks since the announcement of your intention to remove from Peterborough, produced among a very wide circle of your friends, much real regret and sorrow, and fell upon the entire community as a genuine surprise. For fourteen years you have been identified with our town as an industrious and honored citizen, a skillful and successful physician, a pugnacious, energetic and rising man—one in fact who in every position in life, discharged his duties with zeal, fidelity and unflinching earnestness and devotion. In these things you won readily the esteem and regard of your fellow citizens, and the circle of your friends gradually became enlarged, while in social life your many estimable good qualities endeared you to them more and more.

As a citizen you stand to-day among our best—honored and valued by all whose esteem is worth having and your removal is sorely regretted by those who for a considerable period have watched your career with interest and who have predicted for you an unbounded success.

As a physician your skill in battling with the various diseases to which flesh is heir, your patient careful attention to all who required your service; your sympathy with the sick and suffering; your steadfast Christian deportment and unflinching gentlemanly courtesy to all with whom you came in contact, have won for you hosts of friends in all grades and classes of life. Such testimony as this (and it may be heard everywhere in our midst), is, we are sure, no empty eulogy, but the heartfelt and genuine expression of attached and genuine friends.

We sincerely trust you will be as highly appreciated as you deserve in the new and wider sphere to which you now remove, and we most heartily wish Mr. Burritt, yourself, and your family every useful blessing, that may tend to your happiness and success.

In wishing you farewell, we beg your acceptance of the accompanying epergne, as a slight souvenir of our good will and regard, and we trust that as often as you look upon it, it may recall most pleasantly the many friends you leave behind in Peterborough, whose earnest wish is that your future prosperity may be commensurate with your deserts, and who now, with unalloyed sorrow at your departure, subscribe themselves.

Very faithfully yours,

ROBT. DERRINGTON, JOHN BURNHAM, E. J. TORRE, ROBT. HAMILTON, J. H. BORN, R. H. DERRINGTON, J. COLLINS, E. H. SMITH, R. C. BRICKLAND, O. C. BOESCH, JAS. WALLIS, W. C. BRADSHAW, J. D. TULLY, V. CLARKE, J. T. I. HALLIDAY, OSO. HILLIARD, T. P. AYRILL, R. NINHO, A. P. FOWLER, AND OTHERS.

Peterborough, August 30th, 1882.

Dr. Burritt read the following reply:—
My DEAR FRIENDS,—Language fails me to express in adequate terms my feelings on the present occasion; but let me assure you, I duly appreciate the strong feelings of friendship, affection, and expressed in your flattering address, and the very kind motives which actuated the promoters of it, and the contributors to the elegant and costly testimonial, with which you have presented me this evening.

It is the course of my professional career, during the 14 years I have resided amongst you, my success in battling with disease, and my conduct both professional and otherwise, have been such as to merit your approbation, (and such reliable authority as the prominent gentlemen whose names are appended to your address convince me that I have not altogether failed in that respect). It is to me a source of extreme satisfaction; and of which I think, I have every reason to be proud, and very justly so, for in all the relations of life in which I have been placed, I have endeavored to do my duty, and to have that appreciation is certainly satisfactory.

Rest assured, I duly reciprocate the very warm feelings of friendship expressed in your address, and not alone expressed, but which I have experienced in all my intercourse with you and your families during my residence here, and I never expect to make better, or more firm and staunch friends, than I am leaving behind in Peterborough and its vicinity.

I regret exceedingly that I should have considered it necessary to relinquish my practice in Peterborough; but I find that after 19 years of hard work, the fatigue and exposure consequent on the country practice, in addition to the constant mental strain to which every busy medical practitioner is subjected, would, if continued, seriously impair my health, consequently I could only prevent such a contingency by removing to where I will not be subjected to the same fatigue and exposure to which I have been subjected here.

On behalf of Mrs. Burritt and my family I tender you my sincere thanks for your kind wishes for their future welfare.

As to the costly and beautiful epergne which you have presented to me, and of which I feel exceedingly proud, and for which I beg to thank you most heartily, I shall never look upon it without its producing most agreeable remembrances of friends I have left behind.

It now only remains for me to bid you farewell, and although the cord that has hitherto bound us together is now about to be broken, still I trust it may not be entirely severed; but that some strands of affection may still remain, and twine about our hearts in mutual affection and esteem, to the latest period of our existence.

Yours sincerely,

H. C. BURRITT.

Peterborough, August 30th, 1882.

We need hardly say the sentiments of the above address are echoed very generally by our citizens, and we sincerely hope the doctor's removal may be to his personal advantage and to the welfare and prosperity of his family.

T. DOLAN & Co

Nos. 1 and 2, Claxton's Block, Corner of George and Hunter Streets.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

TO CONSUMPTIVES.—Readers, can you believe that the creator afflicts one-third of man-kind with a disease for which there is no remedy? Dr. R. Pierce's "Golden Medical Discovery" has cured hundreds of cases of consumption, and men are living to-day—healthy, robust men—whom physicians pronounced incurable, because one lung was almost gone. Send two stamps for Dr. Pierce's pamphlet on Consumption and Kindred Affections. Address World's Dispensary Medical Association, Buffalo, N. Y.

Mr. Wm. Ransom, of South Norwalk, says: For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggists, (J. Wesley Fish & Co., Ontarioville) to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

Hailway Notes.

Boyd, Nicholls & Co., who have the contract for building the bridges on the Missing Link, have a steam saw mill at work at Garden Hill cutting the bridge timber, which is turning out from 10,000 to 12,000 feet per day. They have six teams drawing from Omssee to the works, and have 100,000 feet on the ground to start with. They intend to commence the construction of the bridge in a few days, and are advertising for fifty men accustomed to bridge work. The Mill says that one hundred tons of rails arrived at Carleton Station on Tuesday for the Ontario and Quebec Railway.

WILL YOU EXCHANGE
a case of
Dyspepsia or Biliousness for 75 cents?
It is actually
unwise to
agonize
under the many
ailments
arising from
Dyspepsia,
Indigestion,
Disordered
Stomach and
Liver, when
this offer is
made to you
in your own
home in all
sincerity,
with an absolute certainty of
curing you.

ZOEPA (from Brazil) cures
Dyspepsia and Biliousness.
A single dose relieves; a sample
bottle convinces; a 75 cent
bottle cures.

It acts directly upon the
Stomach, Liver, and Kidneys.
Cleansing, Correcting, Regu-
lating, Zoepa gives energy
and vim to the Brain, Nerve,
and Muscle, simply by work-
ing wonders upon the Digest-
ion, and giving activity to
the Liver.

Get this out, take it to any
dealer in medicines, and get
at least one 75 cent bottle of
Zoepa, and tell your neighbor
how it acts. It is warranted
to cure Dyspepsia and Bil-
iousness.

As to the costly and beautiful epergne which you have presented to me, and of which I feel exceedingly proud, and for which I beg to thank you most heartily, I shall never look upon it without its producing most agreeable remembrances of friends I have left behind.

It now only remains for me to bid you farewell, and although the cord that has hitherto bound us together is now about to be broken, still I trust it may not be entirely severed; but that some strands of affection may still remain, and twine about our hearts in mutual affection and esteem, to the latest period of our existence.

Yours sincerely,

H. C. BURRITT.

Peterborough, August 30th, 1882.

We need hardly say the sentiments of the above address are echoed very generally by our citizens, and we sincerely hope the doctor's removal may be to his personal advantage and to the welfare and prosperity of his family.

Daily Evening Review

FRIDAY, SEPTEMBER 1, 1882.

OUR TRANS-CONTINENTAL ROAD.

It is satisfactory to learn that the engineers of the Canada Pacific Railway have found peace through the mountains affording a more direct route than those previously surveyed. Some small-minded people are grumbling because the Company will thus save some miles of construction without any reduction in their bonus in money and land. For our part we would be glad if their engineers could so straighten the road as to save many more miles, for it will be a great advantage for the Canadian through route, in its competition with those of the United States, to have the most direct and shortest line. Besides this, the engineers estimate that the shortening of the line by the new pass can only be effected at the cost of an increased instead of a diminished expenditure. Any saving in working expenses will also be counteracted by the decrease of mileage charges for freight and passengers. The only gain of the Company will be in the greater traffic attracted by the shorter route. The great gainers will be the customers of the road, who will save both money and time, and the country at large, which will gain additional business.

The satisfactory nature of the bargain with the Company and the facility of the objections to it are daily shown more conclusively as their operations progress. The thoroughness and the rapidity with which the work is being pushed forward, the good faith with which they are attacking the more costly and difficult portions of the route, as well as the easier and less expensive portions, and the exceptional lowness of their rates are all evidences of their faithful performance of their contract, and of the judiciousness of the arrangement with them. If the inducements offered to them were liberal, they are doing good work in return for them, and that is all that honest or sensible men could desire.

EDITORIAL NOTES.

AMONG other excuses for the defeat of its friends the *Examiner* mentions the "Gerrymandering Bill." Our contemporary is making a mistake. Mr. Mowat's Gerrymandering Bill of 1874, when he added without any necessity to the number of members of the local legislature and interfered with more than thirty constituencies for the purpose of gaining a party advantage, had no effect upon the recent Dominion election, though it may be of service to him in the coming Provincial election. There has been no Gerrymandering Bill since then, the only change in the constitution being that made this year, when, according to law, Ontario's representation in the House of Commons had to be increased, and the opportunity was taken to equalize, in a great measure, the population of the constituencies. The true reason for the defeat of the Opposition was that the public of Canada, including Ontario, did not like the policy of the so-called Reformers, and that they did not do like the policy of their chosen leaders. That is reason enough without seeking any other.

The *Toronto World*, which has been a strong opponent of railway amalgamation, gives, in an article in favor of reducing passenger rates, the

following very conclusive reasons for judicious amalgamation, such as that of the Midland Railway system:—

"Another reason is urged why the plan would be especially practicable now. The bulk of the Canadian railroads have lately been united into one concern under one head. This union will, of course, consolidate their several resources, lessen their expenses and increase the working facilities of the whole. Less workshops, less workmen, less officers and overmen will be the immediate result, so that with increased advantages and reduced expenditure, the new Grand Trunk might now very reasonably test the matter."

It seems that we have misunderstood the *Examiner*. When it denies Mr. Blake's claim to manhood it only means that he may some day become a "Tory." We shall understand in future, when our contemporary accuses a man of some personal defect of body or mind, or showers abuse upon him, that it is simply its playful way of saying that it does not like his opinions, either present or future.

Mr. Mowat has already begun his electioneering campaign, and Mr. Blake has already appeared more than once at his places to give him aid and assistance. We notice that as in the House of Commons, so on the platform, Mr. Blake avoids the Boundary question and does not care to maintain that Mr. Mowat is right and Sir John Macdonald wrong in their respective contentions. As an able lawyer, Mr. Blake does not dare to sacrifice his professional reputation by maintaining the validity of the award, which he knows will have to be reviewed by a competent court.

A LOST CHILD.

A little one suddenly and mysteriously disappeared—A Frantic Search.

An Amherstburg correspondent furnishes the following particulars of the mysterious disappearance of Mr. V. Badgley's child:—

Victor Badgley is a farm laborer in the employ of Hyman Sprague, Esq., living about midway between Roblin's Mills and Union. Thursday his wife and his only child, two years and four months old, went down to Jacob Vanwart's who lives on the road about one mile below the Union school house. About 11 o'clock the child was playing outside with a little boy four years old, when the latter went into the house for "a piece," which was given to him, and another piece was sent out to the little girl outside. The child who took out the piece came in again almost immediately and said that Elsie was gone. Search was made at once by Mrs. Vanwart, Mrs. Noble and the child's mother. Mrs. Noble had seen the child only five or ten minutes before, but no one has seen her since. At noon the school children commenced the search and kept it up all afternoon. In the evening until 11 o'clock it was continued by the men of the neighborhood, and the same went on all next day. A strip of open woods stretches from the road allowance, northward into a thick cedar swamp. A path led towards this, and on one of the roads traversed by cattle, it is thought that the tracks of little feet have been found. They are about 100 yards from the house. Beyond where they are no child of that age could penetrate very far. A little to the eastward commences one of those extensive marshes which stretch down to the waters of Big Bay. A path was tried from where the child was playing towards the shore of this marsh. To the westward is the old camp meeting ground on Mr. C. H. Sprung's lot. All the woods, swamp, and marsh for a considerable distance around have been searched, the water holes drained, and everything done that could be thought of without any trace being found except the faint and very faint and dubious ones which we have mentioned. It seems impossible that a little girl of that age could go far away in so short a time, and it seems strange that on no calm day and evening her cry was not heard. That she has been stolen no one believes, for though healthy and well developed she was not attractive in appearance.

Personal! To Men Only!
 The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THERE is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints for infants or adults, than Dr. Fowler's Extract of Wild Strawberry.
 Mr. R. W. CARMICHAEL, Chemist and Druggist of Belleville, under date of May 31st 1882, writes as follows:—"Your Balm, Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

COLLAPSE OF A BRIDGE.

The Railway Bridge at St. Eusebe, near
St. Eusebe, near St. Eusebe.

St. Eusebe, Aug. 30.—An accident which might have turned out to be a repetition of the tragedy which occurred at St. Eusebe, on the Canadian Pacific railway, between the city and Ottawa. The circumstances are as follows:—A train consisting of a locomotive, a passenger car, and a freight car, was on its way to town, when passing over the St. Eusebe bridge on the north river one of the cars containing a load of lumber fell off, it is supposed from a stick of wood falling across the rails. This shock caused the bridge to yield so violently that the locomotive and passenger car fell into the river. The train was on its way to town, when passing over the St. Eusebe bridge on the north river one of the cars containing a load of lumber fell off, it is supposed from a stick of wood falling across the rails. This shock caused the bridge to yield so violently that the locomotive and passenger car fell into the river.

and the passenger car fell into the river. The train was on its way to town, when passing over the St. Eusebe bridge on the north river one of the cars containing a load of lumber fell off, it is supposed from a stick of wood falling across the rails. This shock caused the bridge to yield so violently that the locomotive and passenger car fell into the river.

OVER A FENCE.

Accident at Niagara—A Man Killed—His
Body Caught in a Tree and Buried.

NIAGARA FALLS, Ont., Aug. 28.—This morning about 5 o'clock Mrs. Bennett, residing on River road, near the English church, on stopping out of doors heard a cry for help in the direction of the banks of the river. She at once called Thomas Wynn, of the Ontario police, who on examining the place found a woman lying in a ditch about ten feet over the edge of the bank, and overlooking a precipice of 100 feet. A man was secured, and with the assistance of Mr. Wynn, Mr. Bennett and Joseph Bennett, the woman was brought to the ground. She was found near the place, and the officer on making further examination found a man dead on the ground, having fallen a distance of 100 feet. The woman being questioned gave the following particulars: The dead man was her husband, and it seems they came here from Hamilton, Ont., three weeks ago. She said her husband's name was James Cramley, but he had been going under the alias of Rathford. He was a Scotchman, 40 years old, and her age is 50. Both have been drinking very heavy of late, and having no place to go, laid down some time during the night, and when asleep and intoxicated, fell over the bank. Had she not caught on the tree she would also have been a corpse this morning, and no one would have ever known how they met with their death.

BATHING.

It is important to recognize that the only virtues of water as a bathing agent are two—namely its value as a cleansing agent as a surface stimulant. In this capacity it simply acts as a medium affecting the temperature of the part to which it is applied, or which is immersed in it. Right views of facts in relation to this matter are important, because there can be no question that some persons overrate the use of cold water, and run considerable risks in their pursuit of it. Every beneficial action that can be exerted by a bath is secured by simply dipping in the sea, or a very moderate affusion of cold water! Except in cases of high fever, when it is desired to reduce the heat of the body by prolonged contact with cold, a bath of any considerable duration is likely to be injurious. Then, again, it is necessary to recognize the risk of suddenly driving the blood from the surface in upon the organs. The "plunge" or "dip," or "shower," or "douche," is intended to produce a momentary depression of the temperature of the surface in the hope of occasioning a reaction which shall bring the blood back to the surface with increased vigor, and almost instantly. If this return does not take place; if, in a word, redness of the skin is not a very rapid consequence of the immersion, it is impossible that the bath can have been useful, and in nine cases out of ten when the surface is left white and cold it does harm. The measure is in reality the redness which causes promptly after the bath, and this reaction should be produced without the need of much friction, or the bath is not worth taking. The rubbing employed to recover the circulation lost by the bath would probably have done more good without it. Another effect of the bath when it acts properly is to stimulate the nervous system, through the vast series of its terminal fibres which are distributed in the skin. In this way also the action must be very rapid, or it is not efficacious. Unless the vigor of energy is quickly called out, the agent is useless, and if it produces either drowsiness or depression it acts mischievously, and lowers the power it is intended to stimulate and augment.

Bathers should bear these facts in mind, and be warned by them not to trifle with any agency which it is not of value, in words than action, and can scarcely fail to do harm.—Household.

A TALE FOR THE TIMES.

There was once four flies, and, as it happened, they were hungry one morning. The first settled on a saucer of singularly appetizing appearance, and made a hearty meal, but soon died of intestinal inflammation, for the saucer was adulterated with arsenic. The second fly breakfasted upon flour, and forthwith succumbed to contraction of the stomach, owing to the inordinate quantity of alum with which the flour had been adulterated. The third fly was slinking his thumb with the contents of the mill jar, when violent cramps suddenly convulsed his frame, and he soon gave up the ghost, a victim to chalk adulteration. Seeing this, the fourth fly mattered to himself, "The sooner I die over the saucer to sleep," alighted upon a most succulent sheet of paper exhibition, the counterfeited promissory of a dandy's head, and the history "By poison." Applying the tip of his proboscis to the device, the fourth fly drank to his heart's content, growing more vigorous and cheerful at every mouthful, although expectant of his end. But he did not die. On the contrary, he thrived, and gained fat—eye out even the fly gained was adulterated.—Gleanings of Science.

Two Remarks—Little plumed crew lay on Thames made to the channel, most perfect, and most graceful of all birds, creation. Got a 5 cent sample.

CHINA HALL is Headquarters for Wedding and Birthday Presents of Every Description in Silverware, China, Majolica, Glass, Etc. Our stock of Crockery, China, Silver and Glassware is by far the Most Complete in the Town. We feel confident that our efforts will be appreciated by a keen buying public, and by comparing our Prices with those of other Dealers, intending Purchasers will find that it Pays to buy from First Hands.

Corner of George and Simcoe Streets, Peterboro'.

MACFARLANE WILSON.

UNDER ALL OVER.

It is now stated that the Year will not be crowned until next May.

JOHN DUFF has advised the Zulu chiefs to give Cetewayo a friendly welcome on his return.

A hail storm in Perth has killed many persons and destroyed an immense amount of property.

A gun type of fever, which paralyses the physicians, has broken out among factory operatives of Little Falls, N. Y.

The Government is taking precautions to prevent the Texas cattle fever extending into Canada.

Two officers by the Michigan forest fire will hold a general reunion and jubilee at Minden on the 5th September.

A military guard near Berlin—so far as known—has been provoked—fired into a gang of working men and killed one.

Of fifty-seven vessels of the Newfoundland steamer fleet at North Cove only one rode out the recent heavy gales in safety.

The recent floods in Texas have, it is estimated, swept away from 60 to 75 persons and 200,000 sheep, besides cattle and horses.

The Imperial War authorities have granted seventy-five specially selected Martini-Henry rifles for use at the Dominion Rifle Association meeting.

Mr. J. H. HOFFMANN, Medicine, Ind., bears hearty testimony to the wonderful cure by St. Jacobs Oil of his catarrh and indigestion.

The Corporation of Cork has demanded E. Dwyer Gray's release and conferred the freedom of the city upon him. The Down County Constabulary have demanded an advance of pay and pensions.

The statistics of St. John's, Nfld., last year only amounted to \$2,000,000; but this year only amounted to \$2,000,000. The population has increased from 10,000 to 20,000 in one year. Building operations this year are estimated at nearly \$2,000,000.

SATURDAY, SEPTEMBER 2, 1882.

OUR RAILWAY SYSTEM.

SOME people through sheer ignorance, and others, more designing, through a wish to raise what may be a popular cry, are too much in the habit of showering general abuse upon railway companies and representing them as extortionists. Even those who ought to know better and to be above pandering to class prejudices sometimes join in the hue and cry. This is unfortunate, for railways have been most beneficial, especially in new countries, which they have done so much to develop, enormously increasing the value of the land and its products, and facilitating the means of rapid communication that civilization demands. In many cases indeed on this continent, settlement has followed and has not preceded the railway, without which it would have been well-nigh impossible. It is plain then that the railways should be encouraged, rather than thwarted and denounced without discrimination.

As to the main charge that railway rates are too high, it is evidently too often made at random and without foundation. Statisticians tell us that railway stock on an average does not pay the holders two per cent., so it is certain that for every case where too large profits are exacted there must be others where they are far too low. The public which has derived so much benefit from railways certainly cannot wish that those who have put their money into them should have ruin for their reward, and we all know of instances where it almost amounts to this even in cases of investments for widows and orphans. To say nothing of the individual hardship, it is not even for the public good that such things should be.

But there is another reason why these general and indiscriminate attacks are to be regretted. Railway companies, like other human institutions, are fallible and have their defects. Being used by every body, being of so much importance to the welfare, the comfort and the progress of the community, it is very desirable that such defects, when existing, should be remedied. But those who abuse, right or wrong, with or without reason, necessarily sacrifice any influence they might possess in favour of improvement. Their censure of the abuse has no weight because they have been equally censorious without a cause.

For instance there is a great outcry because railways sometimes give advantageous rates to large customers. Well does not every business man do the same, and for the very simple reason that large transactions offer more profit and entail less comparative expense than small ones. But by censuring an ordinary business arrangement the critics lose their influence when they would condemn really unfair discrimination. So, too, the grumbling on account of lesser proportionate rates for long distances, obscures the real cause for complaint, when this is done to the extent to cause loss, for which others have to recoup the companies. We trust that the Canadian Companies will continue in their present course of paying more attention to the development of local traffic and less to the mad scramble for through freight to be carried even at a loss. We believe that they will find it to their lasting interest to do so. We also hope to see them in union make a trial of a substantial reduction of passengers' fares, believing, as we do, that, as in the case of cheap postage, the increased business thereby fostered, would prove amply remunerative. It would also be well to have more thorough government inspection, so that defects of permanent way or plant should not endanger the safety of the public. The government might also have more efficient machinery to control rates in the exceptional cases where they are excessive. But such improvements are not aided, they are rather thwarted and postponed by careless and indiscriminate abuse.

Law and the Colonies.

A legal work has just been published in London, by Messrs. Stevens and Haynes, of Bell Yard, Temple Bar, which ought to prove of considerable service to lawyers in the Dominion and the other colonies. It is entitled "Chapters on the law relating to the colonies," and the author is Mr. C. J. Tarring, of the Inner Temple. The laws to which the colonies are subject are first dealt with in the volume; then the legal aspect of the executive, the legislative power, and the judiciary and the bar in the colonies is discussed. Another chapter is devoted to appeals from the colonies, after which a full list is given of the Imperial statutes relating to the colonies. One of the most valuable and original features is, however, a topical index of cases decided in the Privy Council on appeal from the colonies up to July of the present year. —*Globe*.

Borford's Acid Phosphate

In search of a great value. Its action on the nerves of the disturbed stomach is soothing and effective.

FIRE AT OLD BRUNSWICK BEACH.

Hotel Brunswick and Pleasant House Burned—Harvey Rogers of the Cause.

OLD BRUNSWICK BEACH, Me., Aug. 31.—Last night the Hotel Brunswick and the Pleasant House, with the Central House hall room, were burned, and are a total ruin. The guests were asleep, and jumped from the third story on to the verandah roof in their night clothes. Every person in the Hotel Brunswick lost their clothing, jewelry and all their personal effects. This morning they are borrowing from other hotels the garments they wear at breakfast. Miss Richards, of Ottawa, and some other Canadians are among the sufferers. The Central House was saved with great difficulty. The fire commenced at 1 o'clock in an attic of the Hotel Brunswick, and at 2.30 nothing but a heap of ashes remained. The guests of the hotel turned out en masse. The illumination was magnificent. On the Hotel Brunswick the star-spangled banner braved the fire gloriously. Although enveloped in flames, fire and again the clearing of the smoke revealed it working bravely over the doomed edifice until the roof fell in. The fire is supposed to be the work of an incendiary. The loss is estimated at \$16,000. Two persons are reported missing.

A Wonderful Woman.

Toronto is excited over a woman who performs all sorts of surgical operations, from pulling teeth to healing broken backs, by magic. The World says of her:—

One of her so-called cures in this city is that of a boy who went to her on his crutches. She magnetized him, as his friends say—"he felt it going through him," to use his own words—and he was able to walk home without the crutches. He went to bed and has not yet been able to get up and go back for his wooden supports. The old apple man at the corner of York and Front still asserts that her medicine is curing him of thirty years of rheumatism. Several dentists were interviewed. They had no objections to her practicing. People are very easily led away; they see her put in the force, give a pull, and then put the tooth in the patient's hand. They do not see the patient's mouth. A World reporter saw one little girl get down with a mouth full of gnashing blood. One dentist had five of her patients come to him for relief. She had silvered their jawbones, and ulceration had set in. Her many teeth she breaks the public never see or know. She will never tell them. But the crowds are bigger than ever. You can form no conception of the number of deformed children in the city till you see the crowd of anxious mothers shoving and beseeching to get up to the chair. And men and women are there in scores trying to get to the wheels. They are damaged more in trying to get up than the good she will do them. And don't forget the financial aspect of the case; she is taking in from \$1,000 to \$2,000 a day.

Personal: To Men Only: The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

To Consumptives.—Readers, can you believe that the cross afflicts one kind of man-kind with a disease for which there is no remedy? Dr. R. Pierce's "Golden Medical Discovery" has cured hundreds of cases of consumption, and men are living to-day—healthy, robust men—whom physicians pronounced incurable, because one lung was almost gone. Send two stamps for Dr. Pierce's pamphlet on Consumption and Kindred Affections. Address World's Dispensary Medical Association, Buffalo, N. Y.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

One dose of Bartlett's Mandrake Bitters will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

New Advertisements.

57th Battalion Orders

PETERBOROUGH, Sept. 1st, 1882.

No. 1.—A special train will convey the Battalion to camp at Colborne on the 4th inst.
No. 2.—No. 5 Company, Keweenaw, will assemble in time to reach the Hastings Railway Station at 9 a.m.
No. 3 Company, Hastings, will also arrange to board the train at 9 a.m.
No. 4 Company, Keene, will reach the Keene Station at 9.30 a.m.
No. 1, 2 and 3 Companies and Band will assemble in time to reach the Peterborough Station at 10.30 a.m.
No. 3.—No carpet bags, valises, &c., to be taken by the men to camp. All necessaries to be carried in knapsacks, haversacks and mess tins.
No. 4.—Great coats to be folded and, together with forage caps, placed on the back of knapsacks. Helmets to be worn.

No. 5.—The attention of officers commanding Companies is called to General Orders, 30th June, 1882, particularly under heading of Subalterns, Clauses 2 and 3; Rules, Clauses 3 and 3; General Regulations, Clauses 4 and 5.

By order,
B. W. BELL,
Major and Adj.

Funeral Notice.

THE BROTHERS of Peterborough Lodge No. 155 A. F. & A. M., are requested to attend an emergency meeting to be held in the MARONIC HALL, on SUNDAY, September 3rd, at ONE P. M., for the purpose of attending the funeral of our late V. W. BR. SAMUEL WHITE. A full attendance is requested. Brothers of sister lodges are cordially invited to attend this emergency meeting and funeral.

By order of the W. M.
ROBT. W. MCFADDEN, Secretary.

I. O. O. F.

FUNERAL NOTICE.

THE MEMBERS of Peterborough Lodge, No. 111 I. O. O. F., are hereby summoned to meet at the Lodge Room on SUNDAY, 3rd of September, at 1.30 p.m., for the purpose of attending in a body the funeral of the late Bro. Sam'l White. All visiting brethren are invited.

J. C. T. LACKY, By order, J. R. SMITH, Secretary.

JACOBSON'S

GERMAN REMEDY.

RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals Dr. Jacobson's as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Welland Canal Enlargement.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this Office until the arrival of the Eastern and Western Mails on FRIDAY, the 1st day of SEPTEMBER, next, for the deepening and completion of that part of the Welland Canal, between Ramsey's Bend and Port Colborne, known as Section 34, embracing the greater part of what is called "Rock Out."

Plans showing the position of the work, and specifications for what remains to be done, can be seen at this Office, and at the Resident Engineer's Office, Welland, on and after FRIDAY, the 1st day of AUGUST, next, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the firm; and further, an accepted bank cheque for the sum of four thousand dollars must accompany the respective tenders, which sum shall be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY, Secretary.

N. H. DOWNS' ELIXIR!

Vegetable Balsamic

This valuable medicine is purely vegetable,

the discovery of which was the result of

many years' close study, it is now to discover

the cause, the symptoms and the cure—viz.,

Consumption, Coughs, Colds,

Catarrh, Croup, Asthma, In-

fluenza, Pleurisy, Hoarseness,

Spitting Blood, Bronchitis,

and every species of oppression of the Chest

and Lungs. In all cases where the Elixir has

been administered its efficacy has been

manifestly manifested, curing the most

incurable.

It is not intoxicating, it properly stimulates in-

creases the vitality of the system, and it is

not irritating to the membrane which

covers the lungs, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

stimulant, and it is not a

STORIES OF CHILDHOOD.

Let me linger by the brookside when the evening shadows fall:
Gazing at the trout which, leaping, playfully
Vibrates with all departed life the shadows in
a dream.
Laying me in life's dark valley, hoping not for one
bright beam.

Fancy sees the vine-clad cottage, nestling on the
And in front the tiny garden, where we have
wreaths of yore:
Sitting on the shaded doorstep, with her knitting on
her knee:
I behold my aged grandma smiling tranquilly on me.
Standing by her is another, with dark curls of au-
burn hue:
With a face of rapt beauty, lit by eyes so soft and
blue:
Darling sister, how we missed her since the sad and
weary day
When the unrelenting Reaper bore our lovely flower
away.

Now before my mistletoe eyes comes a scene of
dim and gray,
When my noble brother Harry proudly donned his
coat of gray:
Once again I see him kneeling by our mother's
bed:
And I hear her fervent blessing on her eldest son—her
pride.

Soon, alas! fate, stern and cruel, laid a blight on all
our joy,
For, one bright and sunny morning, home they
brought our soldier boy:
Home the brought our noble Harry, with no blot upon
his name,
And about his youthful forehead angels twined a
wreath of fame.

In the old, familiar churchyard, by the other grassy
ground,
Sadly there we placed our hero, in the cold and damp-
dew ground,
Then we laid upon his headstone snow-garlands pure
and white—
Emblems of the soul departed when life's morn was
shining bright.

Brother, sister, are you waiting for me on the golden
strand?
Are you yearning to enfold me, or to grasp my out-
stretched hand?
Ah! the meeting is not distant, for I feel life's day
grow long:
Soon in heaven we'll be united when I, too, have
reached the gate.

—Florence Battle, in Louisville Courier Journal.

THE MURRAY CANAL.

Ceremony of Turning the First Sod Yesterday—A Great Demonstration.

The first sod of the Murray Canal was turned on Thursday, the 31st of August. We extract the following history of the Canal and account of the ceremony from the Mail:

"The question of connecting the Bay of Quinte with Presque Isle harbor has occupied the attention of the country, and particularly of this section for many years. Its history as a scheme dates back as far as the year 1800, and its agitation has been more or less active ever since. The inhabitants of this section have shown their appreciation of the work by turning out in thousands to celebrate the turning of the first sod, and to witness the commencement of the actual construction by Messrs. Silcox & Mowry, the contractors, with a staff of men and teams. The Murray Canal will connect the Bay of Quinte at its western limits with the waters of Lake Ontario through Presque Isle bay. While making a western outlet for the Bay of Quinte trade, one of its chief advantages will be the shortening of open lake navigation on Ontario by about 100 miles, thus making navigation much safer in bad weather, and it is hoped preventing many of the disasters that would otherwise occur off the south shore of Prince Edward county; besides which vessels which now are storm-strayed for days in Presque Isle or under the lee of Long Point can, by taking the Bay of Quinte route, either pass safely down to the St. Lawrence, or move further on their way westward. This canal will prove one of the most important public works in the Dominion. The contract has been awarded to Messrs. Silcox & Mowry, who were on the ground and ready to commence operations at once. The work will likely be completed in about two years, as the contractors are energetic men who have shown their business push in other contracts in which they have been engaged. The officials and foremen of the operations are chiefly from the Welland canal, and are thoroughly accustomed to this class of work. Mr. Silcox will personally superintend matters.

The morning opened cloudy, but dry, and cleared as the day grew older. By twelve o'clock at which time the tables were spread, not less than 6,000 people had assembled on the grounds. A fine band from Trenton and another from Brighton, enlivened the picnic with music.

About half-past one o'clock the ceremony of breaking the sod commenced. A ring was formed into which the members of the committee with a few leading visitors entered. Mr. Thos. White, reeve of Brighton and chairman of the committee, read an address to Mr. Keeler, reeve of the late Joseph Keeler, M. P., and she replied in appropriate terms.

The chairman presented Mrs. Keeler with a beautiful spade which had been procured for the occasion. The spade is of silver, with a maple leaf of gold upon its front, and a gold plate upon the handle with the following inscription upon it:

Presented to Mrs. J. Keeler
By the citizens of Brighton and vicinity
On the occasion of turning the first sod of the
Murray Canal,
August 31st, 1892.

Mrs. Keeler then proceeded to turn the sod, after which a number of leading citizens availed themselves of the opportunity of placing a spade of earth in the barrow that was prepared for the occasion, and the contractor at once set some half dozen teams to work broke up quite an excavation was made.

The sod being turned, the crowd moved to the grand stand, where speaking commenced.

Now, Mr. BOWELL was first called upon, and referred briefly to the history of the canal, the desirability of its construction, and the certainty of its early completion in view of the sterling qualities of the contractors. He said the route chosen was the one recommended by the engineering staff, and he believed the best, and that it would prove to be such.

The meeting broke up at about 4 o'clock, with cheers for the Queen.

One of the largest and most enthusiastic ever seen in this section of the country, and happily closed without any accident of any kind.

In the evening a banquet was held at the Clark House, Brighton, many of those who had taken part in the proceedings of the day attending.

An elegant range of Scotch Tweed Suits, suitable for Fall wear, just opened out at Habili-ment Hall.

The Evening—Little played away top on THUNDER makes it the cheapest, most perfect, and most effective of all relief remedies. Get a 5 cent sample.

MACFARLANE WILSON.

FROM ALL OVER.

THE Hungarian harvest is an abundant one. There will be a large surplus of wheat and rye for exportation.

THE Governor of Hermosilla, Mex., is gathering troops to resist his removal from office. A revolution is expected.

DR. PIERCE'S "Favorite Prescription" is the debilitated woman's best restorative tonic. UPWARDS of 500 navies were carried off by cholera in one of the Philippine Islands on Tuesday and Wednesday.

As a cure for all diseases of the Lungs Down's Elixir has no equal.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

THE Citizens' Committee of York County, South Carolina, have notified two Mormon missionaries to leave, with the alternative of hanging.

BETTER than a galvanic battery and a doctor besides is a bottle of St. Jacobs Oil, the Great German Remedy for rheumatism.

ADMIRAL BRAUCHMAN'S REMOVAL is to have a baronetcy for his well-directed bombardment of Alexandria.

THE Texas cattle fever has spread into New Jersey. Farmers in New York State, where its ravages have caused great loss, are anxiously awaiting action by the State authorities.

THE Irish Constabulary at Cork have repudiated the manifesto demanding the Inspector-General's resignation and re-instatement of the discharged constables. They decide to stay employed, and place their grievances in the Inspector-General's hands.

YOUNG or middle aged men suffering from nervous debility, loss of memory, premature aging, as the result of bad habits, should send these stamps for Part VII of Dime Series pamphlet—Address World's Dispensary Medical Association, Buffalo, N. Y.

A DELEGATE to the *Oikos* says that the British Association for the Advancement of Science are determined to make their meeting in Montreal in 1894 a success, and with that end in view, have appointed a committee consisting of representatives of every section for the purpose of co-operating with the council to secure a thoroughly representative gathering.

THE Committee of the Methodist Episcopal Church, appointed to consider the question of Methodist Union, have reported to the General Conference, approving the efforts now being made to merge the Methodist Churches into one united Methodist for British America, and recommending that a committee be appointed to confer with committees of the other Methodist bodies to negotiate a union if possible with all or any of these bodies.

MR. Wm. KENNEDY, of South Norwalk, says: For sixteen years I suffered from Billiousness, never had any medicine do me any permanent good until recommended by our druggist, (J. Wesley Fish & Co., Otterville), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with all utmost confidence, recommend them to all suffering from Billiousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

THE most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation palmed upon the market in this country, is the Great German Remedy, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lameness, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

To Poets.

Avoid metres invented or revived by Mr. Swinburne; they are master and meritorious, but you cannot well write them with originality. As you value your reputation, do not call the waters "wan," and if tempted to use a violet or orange sunset, try if a tomato sunset will not do as well or better. The colour of the tomato is beautiful, and only its association with chaps prevents this vegetable from being as poetical as oranges. Try something like this:

Tomato-red the sunset glowed
On verdant waves cummerbund.
Till night, descending, indigo'd
With blue the mournful deep divine.

WILL YOU EXCHANGE
a case of
Dyspepsia or Billiousness
for 75 cents?
It is awfully
unwise to
neglect the
many ailments
arising from
Dyspepsia,
Indigestion,
Disordered
Stomach and
Liver, when
this offer is
made to you
in your own
home in all
sincerity,
with an absolute certainty
of curing you.

ZOPESA (from Brazil) cures
Dyspepsia and Billiousness. A
single dose relieves; a sample
bottle convalesces; a 75 cent
bottle cures.

It acts directly upon the
Stomach, Liver, and Kidneys.
Cleansing, Correcting, Reg-
ulating, Zopesa gives energy
and vim to the Brain, Nerve,
and Muscle, simply by work-
ing wonders upon the Digest-
ion, and giving activity to
the Liver.

Out this out, take it to any
dealer in medicines, and get
at least one 75 cent bottle of
Zopesa, and tell your neighbor
how it acts. It is warranted
to cure Dyspepsia and Bil-
liousness.

**SULPHOLINE LOTION—An EXTERNAL
MEANS OF CURING SKIN DISEASES.**—There is
no cure for any eruption but will yield to "Sulpholine"
in a few days, and commences to fade away, even if it
is some past cure. Ordinary pimples, redness, blotches,
scurf, roughness, vanish as if by magic; whilst old, on-
dulating skin diseases, that have plagued the sufferer
for years, however deeply rooted they may be, "Sul-
pholine" will successfully attack them. It destroys
the miasmatic which cause them, and usually effected with
painful affections, and always produces a clear, healthy
natural condition of the skin. "Sulpholine" Lotion
is sold by most Chemists. Bottles, 25c. d43

SULPHOLINE LOTION, A FLUID peculiar in
itself, is the most potent remedy to all Skin Dis-
orders. Nothing like Sulpholine has ever before been
produced, nor is there anything else in the world so
effective and powerful for its Healthy Action on the Human
Skin.

SULPHOLINE LOTION.—The first idea of
Sulpholine was taken from a prescription of the
late Dr. Martin, and every year it is used more
and more favourably to its steadily increasing reputation.
Anyone, however deeply and hopelessly afflicted with
Skin Diseases, should apply Sulpholine as quickly as
possible. In two or three days the effect will become
apparent in a diminished appearance of the malady, a
growing tendency to fade away, and complete oblitera-
tion of the eruption.

**SULPHOLINE LOTION—BOTTLES CON-
TAINING NEARLY HALF A PINT.—SOLD BY
CHEMISTS EVERYWHERE.** Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE
LIVER PILLS (FOR BILIOUSNESS), STOM-
ACH DERANGEMENT, FLATULENCE, PAINS BE-
TWEEN THE SHOULDERS, BAD APPETITE, INDI-
GESTION, ACIDITY, HEADACHE, BRUISES, RHEUMATISM,
and all other symptoms of disordered liver and dyspepsia.
Acknowledged by many eminent surgeons to be
the safest and mildest pills for every constitution.
In Bottles of 1s. 6d., 2s. 6d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout
the world. Prepared by Jas. Rowe, London. Specially
valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC
strengthens the nervous and muscular system,
improves digestion, animates the spirits, recruits the
faint. For debilitated health from the effect of hot
climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC
restores and develops the nervous energy, enriches
the blood, promotes appetite, dispels languor and
depression, fortifies the digestive organs. It is a
specific remedy for neurasthenia, ague, indigestion, fevers
of every kind, chest affections, and in wasting diseases,
scrofulous tendencies, &c. The whole frame is greatly
invigorated by Pepper's Tonic, the mental faculties
brightened, the constitution greatly strengthened, and
a return to robust health certain. Bottles, 2s. 6d.,
4s. 6d., next size, 11s. Sold by chemists everywhere.
The name of J. Pepper, Bedford Laboratory, London,
must be on the label. There is no Tonic so certain in
effect as Pepper's Quinine and Iron. It is strongly re-
commended to residents in India and the Colonies, and
should always be kept ready for use in every case of
fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—
Prepared only by J. Pepper, London. This fluid
combination extracts from medicinal roots, in new
ways instead of crude pill and calomel for the cure of
dyspepsia, biliousness, and all symptoms of congestion
of the liver, which are generally pain beneath the
shoulders, head-ache, drowsiness, no appetite, furred
tongue, disagreeable taste in the morning, giddiness,
disturbance of the stomach, and feeling of general
depression. It sets the sluggish liver in motion, very
slightly and on the bowels, giving a sense of health
and comfort within 24 hours. It is the safest medicine
Taraxacum and Podophyllin is a fluid made only by
J. PEPPER, Bedford Laboratory, London, where
it is sold in every label. Bottles, 2s. 6d., and 4s. 6d.
Sold by all Chemists. A most valuable and essential
medicine for India, Australia, the Cape, and Colonies
generally.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is
certain in its effects and does not blister. READ
PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 29th, 1890.
Dr. R. J. KENDALL & Co., Omaha:—In reply to your
letter I will say that my experience with Kendall's
Spavin Cure has been very satisfactory indeed. Three
or four years ago I procured a bottle of your agent,
and with it, cured a horse of lameness caused by a
spavin. I had occasion my horse became very lame and
I turned him out for a few weeks when he became
lame, but when I put him on the road he grew worse,
when I discovered that a ringbone was forming, I pro-
cured a bottle of Kendall's Spavin Cure, and with less
than a bottle cured him so that he is no lame, neither
can the bachel be found.
Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.

Proctorville, Mass., March 12th, 1890.
Dr. R. J. KENDALL & Co., Omaha:—In reply to your
letter, I think I ought to let you know that I have
removed two bone spurs with Kendall's Spavin Cure,
one very large one, don't know how long the spavin
had been there. I have owned the horse eight months.
It took me four months to take the large one off and
two for the small one. I have used ten bottles. The
horse is entirely well, not at all stiff, and no bachel to
be seen or felt. This is a wonderful medicine. It is
a new thing here, but it is done for all what it has done
for me, its sale will be very great.
Respectfully yours,
CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild
in its action, as it does not blister, yet it is penetrat-
ing and powerful to reach every deep seated pain or to
remove any bony growth or other enlargement, such
as spavins, splints, curbs, callous, sprains, swellings,
and all American and all ailments of the joints or
limbs, or rheumatism in man and for any purpose
for which a liniment is used for man or beast. It is now
known to be the best liniment for man ever used, acting
mild and yet certain in its effects.

Send address for Illustrated Circular which we
think gives positive proof of its virtues. No remedy
has ever met with such unqualified success to our
knowledge for bone as well as muscle.
Price 50c per bottle, or six bottles for \$5. All drug-
stores have it or can get it for you, or it will be sent
to any address on receipt of price by the proprietors,

Daily Evening Review

MONDAY, SEPTEMBER 4, 1882.

THE BOUNDARY QUESTION.

The *Monetary Times* in an article on "The Boundary Imbroglio," put the subject very fairly upon the whole before its readers. It shows that an award fixing a conventional and not the legal boundary cannot bind third parties. But as regards Mr. Mackenzie the article does not do full justice to the Quebec Frontier. If his position is truly stated, his claim is by no means absurd. If merely a conventional boundary is indicated by the award, Quebec has a fair claim; if the true legal boundary has been found our sister province has no grievance and no justifiable claim, unless it be to have her own debatable boundary similarly settled. But this question of whether the award gives the legal or a conventional boundary is the very main point at issue. It is not really claimed even by the advocates for the ratification of the award that it really gives the true legal boundary. One of the arbitrators admits that it is not, showing that there were doubtful points, all given against this Province, and that for a great part of the boundary, a river was chosen, not by the arbitrators but by a government official, as being a convenient limit, though not doing so full justice. Mr. Mackenzie does not claim that it is the true boundary, for in the Ontario Statutes, in official despatches, in speeches in the Legislature and elsewhere, he claims a far wider territory as rightfully ours. Mr. Blake does not claim that it is the legal boundary, for he the leader of the party and a great legal authority, obstinately keeps silence on the subject. Mr. Laurier, the leader of the Quebec Reformers in the House of Commons, does not claim that it is our rightful boundary, for he urges the ratification of the award on the express ground, that a legal tribunal would probably give us the enlarged territory we claim.

Some of our local members of the legal profession, speaking in public on behalf of the Reformers in the recent election contest, virtually admitted, on being pressed, that the award did not fix the legal boundary. But they argued that this could be rectified under our constitution by acts of the Dominion and Ontario Legislatures, as they were given power to alter the boundaries. This is in fact to give up the contention that Parliament is bound to ratify the award. The two legislatures may have the power claimed, but not the two governments, which therefore could not bind the legislatures. Mr. Mackenzie indeed did not assume the power to bind Parliament; he did not even ask Parliament to ratify the award in advance, reserving, as the *Globe* says, with his usual caution, the right to consider it afterwards. Well, Parliament did consider the matter and refused the ratification. We think they did wisely, for it is to the interest of the whole Dominion that the question should be authoritatively settled without leaving room for doubt or counter claims, while we in Ontario have the additional desire to obtain that full justice which the award denies. It is also certain that Parliament acted within its rights, for the boundary of the award is admittedly not the legal one, and an alteration of the boundary is reserved for their consideration not for that of the cabinet. Mr. Mackenzie's government had no more right to bind them in the matter than our town council would have had, unless we are to admit that Mr. Mackenzie and his twelve colleagues were the Parliament of Canada.

EDITORIAL NOTES.

We are told by Mr. Blake that the Ontario Conservatives have a larger proportional representation than the Ontario Reformers. The facts as shown by the official figures are that, taking the averages, the Conservative members each represent a larger population than the Reformers, and that they were elected by larger majorities. If the parliamentary majority is not in the same ratio as the popular majority that is an incident of our system, which Mr. Blake should endeavour to alter when he is in power, if he thinks it faulty, not when he is in opposition.

Mr. Blake is again airing his old opinion that minorities are not sufficiently well represented. That is always Mr. Blake's cry when he is in a minority. When he and his friends obtained a temporary majority through misrepresentation and a conspiracy with disappointed speculators, dishonest clerks and letter stealers, we heard nothing from the minority not being adequately represented.

The *Monetary Times*, which certainly does not sympathize strongly with the present Dominion Government, says:—

"The National Policy divided the Opposition at the general election; they could not agree to be an unit upon the question, and it was much as each man could agree with himself for six months, and more than some could accomplish."

OUR FAVORITE PROVINCE AFFAIRS.

The *Mail and Guardian* thus editorially sums up the British Columbian view of our Dominion politics:—

"That the N. P. has been, and will continue to be, the best system for the country, everyone must admit; that it has been an ugly pill for many to swallow, is conceded; but the time for very faces is past, and the grumbling of the few will be drowned in the general rejoicing over prosperity. The Canadian Pacific railway is perhaps the greatest success, and will raise the country to a position of importance that it could never have attained under a Grit administration. They have neither the boldness of conception nor the executive promptitude of execution required in the present day; they appear to belong to a class that was very numerous fifty years ago, and are now looked upon as 'old fogies.' They are, nevertheless, very useful, as they act as breakers on the Government wheels when that machine is likely to move at too rapid a rate, and they will never be able to hold the reins of Government for any length of time. If Mr. John A. Macdonald can only educate his colleagues into his own system of policy so that, when age or infirmity—which, we trust, will spare him many years yet—compel him to hand the reins to a successor of his own party, they will do credit to their master, and the Conservative party will remain at the helm for many years to come, and make the Dominion the great nation which her extent and resources entitle her to be."

TRADE NOTES.

THERE are now employed regularly at the knitting mill of Messrs. Ellis & Stokes at Port Dover, more than one hundred hands. The firm is adding new machinery to keep pace with an expanding business.

Messrs. Tew & Marshall are just now overhauling their flouring mill says the *Woodstock Sentinel*. They are putting in eight sets of new rollers, and four new water wheels. "The Arcumetodon," manufactured by Goldie & McCulloch of Galt, and other new machinery.

The hub, spoke and bent staff factory of Messrs. Vandenbosch & Co., which was removed to Bangor from Woodstock in February last, is stated to have doubled the extent of its output. The principal market for their manufactures is Montreal, but they dispose of large quantities in other places and contemplate breaking ground in the Northwest.

The town of St. John's, Que., and its surrounding district of Therville are likely to become the pottery centre of Canada. Besides the six potteries, some of them on a very extensive scale, already in operation there, two other similar concerns are now preparing for work. The larger of these will make a specialty of drain pipes and the goods generally, the other will run on Rockingham and cane-ware. Messrs. Liverley & Co., who have only been a short time in operation, are now adding a third kiln to their establishment, and are going into the production of decorated ware, samples of which have been highly spoken of.—*Monetary Times*.

Committed for Manslaughter.

On Monday last, strong rumours became general that an old lady named Connors, who had died, had come to her death through the ill-usage of her son. There seemed so much of truth in what could be gathered from these reports, that it was deemed advisable to hold an inquest. Accordingly a jury was summoned, and their evidence on the evening of that day, but as a post mortem examination had not at that time taken place, the further inquiry into the matter was adjourned till Wednesday evening, when the facts brought out were of so damaging a nature to the man accused, that he was committed to take his trial for manslaughter. It appears that he is the stepson of the deceased woman, and having returned home to where his father and step-mother resided, through whiskey, to say the least of it, made things very uncomfortable. The father died on Saturday last, some say that he as well as the wife, received his death blow at the hands of his son. The evidence in the case of the woman, however, went to show treatment of a brutal nature, one witness testifying that Jack Connors had his mother on the ground and was choking her. Another said he saw her knocked down by some one, and others spoke of her being found ill in the wood shed, afraid to go into the house. Whether the man is guilty of the deed attributed to him, the *Amice* will tell.—*Port Hope News*.

A Musical Curiosity.

An effort is being made to have Von Brunt, of Watertown, bring over, for the Provincial Exhibition, his musical invention, called by some a fog-horn, by others a cider mill. Von Brunt is a musician and a genius, and in his leisure constructed an instrument something like an organ, but much more powerful, the maker alleging that when played vigorously it can be heard four miles. A Kingstonian says nothing resembles so much as a huge packing case, out of the top of which stick various funnels. These are the pipes, made of galvanized iron, and so arranged as to admit of the most perfect tuning. Upon the front are pedals, arranged upon which Von Brunt performs with marvellous ease, producing tones louder and probably just as pleasing as those of the ordinary brass bands.—*Wig.*

A Proposed Tunnel.

Under the River Elbe, at Hamburg, it has been proposed to build a tunnel to connect that city with an island a third of a mile distant. The great Hanseatic city, which has hitherto been a free port, is shortly to lose that privilege and to be included in the Zollverein or German Customs Union. It is intended however, to make an exception in favor of the island in question, which bears the name of St. Nikolai, and to permit it to retain the privileges of the free port. Large bonded warehouses will be built there for the accommodation of merchandise before paying duty, and in order to bring the island into closer connection with the city the above-mentioned scheme for a tunnel under the river has been started. The tunnel will be 500 metres or nearly a third of a mile in length. This will be upwards of 300 feet longer than the Thames tunnel. The cost of the Elbe tunnel is estimated at £900,000.

Mr. Wm. Ransom, of South Norwalk, says: For sixteen years I suffered from Billiousness, never had any medicine do me any permanent good until recommended by Dr. J. D. Wesley Fish & Co., of Oshkosh, Wis., to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Billiousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

To CONSUMPTIVES.—Readers, can you believe that the creator afflicts one-third of man-kind with a disease for which there is no remedy? Dr. R. Pierce's "Golden Medical Discovery" has cured hundreds of cases of consumption, and men are living to-day—healthy, robust—men—whom physicians pronounced incurable, because one lung was almost gone. Send two stamps for Dr. Pierce's pamphlet on Consumption and Kindred Affections. Address World's Dispensary Medical Association, Buffalo, N. Y.

HARK! HARK!

From Our Own Correspondent.
Pic-nic.—One day for the long expected picnic has at length arrived, to the great joy of the children and satisfaction of the older ones. The ground selected for the purpose was part of the beautiful park belonging to Mr. W. H. Hall, who kindly threw it open to the public during the picnic. An arch of evergreens tastefully interwoven was erected over the front entrance and bore the motto "Welcome to All," and was surmounted by a collection of farm produce representing "Peace and Plenty," while several Union Jacks were planted at either side of the gate and in various parts of the park. Inside the grounds a platform had been built for the accommodation of the choir and others who should take part in the entertainment, seats for the audience being placed in front in amphitheatre style, while further off could be seen the swings provided for the younger members of the party, and in the back the tables groaning under the burden of provisions so plentifully provided, and which at 12.30 we were called upon to partake. They were in taste really delicious, and reflected credit on one and all of those who took part in the baking. Immediately after dinner came the races for the children, among whom over one hundred prizes, comprising candies, nuts, raisins, etc., done up in small bags made of netting, were distributed. But this was quickly forgotten in the flutter of excitement when the young men's race was announced, and as a prize one of the ladies held to view a sealed parcel, 19 inches long and 4 in. square, the contents of which were a secret. The young gentlemen's minds were probably filled with the thought of a gold medal or some such trophy. Many ran and put forth every effort to obtain the much coveted prize, which when obtained and carefully opened disclosed a large wax doll dressed up in bridal costume. The joke was fully appreciated by all. The gathering now adjourned to the grounds especially fitted up for their reception to enjoy the intellectual part of the entertainment. Mr. Fletcher, superintendent of the Lark Hall school, being selected chairman, made a short speech suitable to the occasion. Then followed a recitation, Alexander Selkirk, very fairly rendered, music by the choir, a recitation, a solo "Rocked in the cradle of the deep," by Mr. Ingles, a recitation "The Wreck," by Miss Nellie Hamilton, drop down rounds of applause. Music by Miss Cook and Mr. Yeckie, followed by a play by the audience and the school, combined by Miss Cook, who has evidently been very successful as a teacher. A short pointed speech by Mr. Ingles, followed by the singing of several hymns brought to a close this most successful entertainment. There being still some hours before tea, some enjoyed themselves admiring the beauties of the park, swinging, &c., while others amused themselves on the water, Mr. Parker having kindly given the use of his boats and canoes for the purpose. After tea the many pleasure seekers began to disperse, amid numerous remarks indicative of entire satisfaction with the day's outing.

YOUNG'S POINT.

From Our Own Correspondent.
SURVEYING DROWNED LAND.—The item sent to you last week in regard to the survey of drowned lands by an official of the Provincial Government, by some mistake appeared under the heading of Buckhorn instead of Young's Point.

VENKON FALLS.

DROWNED.—The *Gazette* says that on Saturday last a little boy about ten years of age, second and youngest son of the Widow Fittle, of this village, was drowned in the Fenelon river, close to Smith & Fell's shingle mill, where he was employed.

THE IRON BRIDGE.—The work of raising the iron bridge has been begun, but when it will be completed not even the Toronto Bridge Company's representative, who is superintending the operation, will hazard a guess; but it will almost certainly take several weeks.

FATAL ACCIDENT.—A terrible accident happened on Thursday in the Township of Verulam, on a farm owned by Mr. Wm. Hetherington, about two miles from the one on which he resides. A son of Mr. Hetherington sent a younger brother to cut a gad, and soon after heard him cry out. The elder brother ran to him and to his horror saw that blood was coming in short, sharp spurts from a wound in the right side of his neck. His father, who was working in a pea field close by, was at once summoned, and every method that could be thought of was tried to stop the bleeding, but without effect, and the child breathed his last a few minutes after he was carried into the house on the farm. How the accident happened, will never be known, as the poor little fellow was past speech when his brother reached him; but after cutting the gad—for he held that in one hand and the knife in the other—he by some means stabbed himself in the neck, inflicting a wound about an inch long and completely severing the jugular vein. Deceased was the sixth of Mr. Hetherington's eight sons, and was about seven years of age.

CHURCH.

CIVIC HOLIDAY.—The *Herald* says that by a requisition from all the business men for a holiday, His Honor, George A. Norris, reeve of the village, has appointed next Thursday, Sept. 7, and requested all the citizens to observe the same.

LAUNCHED.—On Thursday afternoon Dr. Higinbotham launched his beautiful new boat at Kincaid's landing. There were a large number of villagers present; all seemed well pleased with the appearance of the craft.

FOR THE EXHIBITION.—On Thursday last we visited Mr. Samuel English's factory to see the grain cradles and barley forks which he has finished for exhibit at the Industrial, which opens in Toronto on Tuesday next. He has two cradles and six forks, on all of which great taste of workmanship has been displayed. If the judges are just we are sure Mr. English will be awarded first prizes.

IMPROVEMENT.—During this week the Omeo High School Buildings have been much improved under the supervision of Mr. Elliott, head teacher in the school.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Food, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

MUNRO & ALEXANDER

Daily Evening Review

MONDAY, SEPTEMBER 4, 1882.

LOCAL AND MUNICIPAL.

Board of Education.

A meeting of the Board of Education will be held on Tuesday evening in the Collegiate Institute building at 7.45 o'clock.

Council Meeting.

A meeting of the Town Council will be held this evening at 7.30 o'clock in the Council Chamber.

A Lost Job.

We have received from the office of the Lindsay Post a very neat specimen of printing, being a card circular for the Lindsay branch of the Ontario Bank. The workmanship is good and the colors quite pleasing.

That Broken Window.

We are informed that the large plate glass in the window of Mr. Munro's jewelry store, which was broken by some boys in a scuffle, was not insured, as was stated by a contemporary, and the loss will be borne by Mr. Munro.

The Weather.

A heavy thunder storm passed over the town on Saturday night, and there was another heavy fall of rain at an early hour this morning. Today the weather is not very warm and partly cloudy. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a.m. today, by the Great North-western Telegraph Company, are as follows:—Light to moderate winds, mostly from west and north, fine weather, and stationary or slightly lower temperature.

Shipping News.

Mr. T. Cavanagh a short time ago secured 115 immigrants off the ocean vessels at Quebec to work on the Midland Railway near Coldwater. They were a fine body of men, composed of representatives of the three kingdoms, English, Irish and Scotch. Mr. Cavanagh started on Saturday for Quebec to engage another hundred or two hundred men, to work for Messrs. Hendrie & McDermid on the Quebec & Ontario Railway. Contractors in want of men seem to do well when they go to Mr. Cavanagh.

Druggists.

The following challenge to draught players appears in the Mail:—
"Sir, I hereby challenge any person in the Dominion, Mr. George Fletcher, of Toronto, preferred, to play a match at checkers of twenty games for \$50 a side. If Mr. Fletcher accepts, the same arrangement will be governed our previous match. If any other accept, outside of Toronto, I will be willing to play in Toronto, each to pay their own expenses, or I will give \$10, and match to take place in Peterborough. I will fail to notice an acceptance unless accompanied with a deposit. Challenge to remain open two weeks. Enclosed \$10 forfeit.
Yours, &c.,
"B. McLAUREN."

"Peterborough, Aug. 31.

The Comic Opera Company.

On Saturday afternoon the New York Comic Opera Company produced the satirical opera "Patience" at a matinee. In the evening of the same day they presented the comic opera "La Mascotte." The attendance in the evening was not very large, but the audience appeared to be even better pleased than on the evening before. Miss Louise Manfred appeared to good advantage as "Bettina, the Mascotte." Mr. W. Paul Brown was an infatigable "Prince of Plombino," but Mr. C. M. Pyke, as the shepherd "Pipino," was, next to "the Mascotte," the chief favorite. Miss Hattie Delore, as "Fiametta," and Mr. E. F. Temple, as the farmer "Booze," sustained their parts well, and the other parts were well taken. The opera necessitated numerous changes of apparel and the costumes worn were elegant.

Going to Camp.

There is great activity among the officers and volunteers just now preparing for the annual drill at Cobourg, for which place they depart tomorrow. The detachment of the Durham Field Battery, commanded by Lieutenant Sanderson, will go to Port Hope on the 7.30 o'clock a.m. train, as they wish to report themselves at the headquarters of the Battery sooner than they could if they should go on the special train. The 37th Battalion will go by a special train, which will leave the Midland station at 10.30 a.m. This train will leave Hastings at 9 a.m. with the Morwood and Hastings Companies, take on the Kewee Company at the Kewee station at 9.30 and reach Peterborough at 10.30. The companies will assemble in time to reach this station at that hour.

WELL MERITED HOLIDAY

ANNUAL PIC-NIC OF THE MIDLAND RAILWAY EMPLOYEES AT THE SUMMIT.

A Grand Success—Large Attendance—Presentation of an Address to the President—The Games and Sports—Scenes and Incidents on the Ground—Festive of Amusement for all.

Perhaps in this Canada of ours there is no class of people who deserve a holiday more than the employees of our large Railway Company, and the opportunities they have of enjoying themselves are so few and far between that it is no wonder that when a chance offers, the hard worked employees take full advantage of it, and enjoy themselves to the fullest extent and such was certainly the case at the annual picnic of the employees of the Midland Railway of Canada, which took place at the Summit on Saturday last.

This railway, which now ranks amongst the longest on the continent, is rather extensive, and in order to accommodate all the employees and their friends who may wish to participate in a holiday, we are inclined to think that at least two or three more such gatherings will be necessary.

The Summit, the place chosen on this occasion, cannot in many respects compare with Hutton's magnificent grove at Lindsay, where the last picnic was held, the grounds being too limited for such a large assemblage. On Saturday some 3,500 people were present, fully two-thirds of whom came from Port Hope and vicinity, the other third coming from all portions of the line from Millbrook to Midland, Millbrook to Lakeside, and Peterborough to Belleville.

The majority of those from Peterborough went down in the regular 10.30 a.m. train and in a special at 12.15, and upon arriving at the scene of the picnic, it was found that those from the other places had already arrived and were busily engaged in demolishing the edifices so lavishly provided. That portion of the programme having been attended to, the new arrivals took a walk around the grounds to see the sights. Swings had been erected in every direction, and, as may be imagined, the ropes had very little rest all day. A large platform for the dancers was never empty, and the nice pianos and croquet grounds, old and new, were always fully occupied while the 4th band discoursed sweet music from an elevated platform all the day. The scene was an exceedingly animated one, and there was no lack of amusement for young and old.

About 1 o'clock Mr. Lewis Horn, who had been appointed chairman, called the throng to the band stand, whereon were Messrs. Geo. A. Cox, J. R. Dundas, R. White, H. Read, W. B. Ferguson, Atkinson, Hoggan, A. Cox, Cheest, Giddens, Tate and many other officials of the road. After order was called Mr. Horn called on Mr. Wm. Gothwaite to read the following address:

To George A. Cox, Esq., President Midland Railway of Canada:—

KANSAS, Kan.,—We, the employees of the Midland Railway, take this opportunity to express to you the pleasure your presence affords us at this our second annual gathering under your presidency.

A year ago you kindly invited us to join you in a day of recreation, which action on your part had the happy effect of encouraging that good feeling which should at all times characterize the relations existing between the manager and employees, and we assure you, sir, it affords us much pleasure to know that on this, as on the former occasion, you have laid aside the distinction which your position imposed, and generally assisted us to make this day's proceedings enjoyable to all present.

In consequence of your absence in Europe, and anticipating the pleasure of your company, we concluded to defer taking action until your return, and we assure you that amongst your numerous friends there are none to wish you a happier welcome home, than the employees of the Midland Railway.

(Signed) Wm. Gothwaite, Chairman of Committee.

Mr. Cox in rising to reply was received with loud applause. He was very much pleased to be present at the second gathering under his management and returned thanks for the very flattering address. He spoke of the good feeling existing between the employees and officials of the road and hoped it would long continue. He had now passed through four years fraught with labor and anxiety which had been greatly lessened by the loyal and cordial support he had received from the employees. When he assumed charge there was but 166 miles of road and now there were 450 miles. They were already running their trains into the Provincial capital, and he hoped that before another two years expired they would be running them into the Dominion capital. The increasing popularity of the road was not due to himself alone, but to the efforts and assistance of directors, officials and employees, who had stood shoulder to shoulder in order to advance the interest of the line. He took the present opportunity, the first he had had, of returning thanks to the employees for the magnificent present to his daughter upon the occasion of her marriage. Such a gift was greatly appreciated by himself and family and he felt confident that it would be kept as an heirloom by his daughter. Those present had met for pleasure and he hoped that all would enjoy themselves to the fullest extent. He again returned thanks for the address and assured those present that at all times he was willing and ready to do anything that lay in his power to promote the safety and comfort of all in the employ of the company. After wishing all prosperity and comfort throughout the coming year, he resumed his seat amidst loud applause.

At this stage little Emily Walton, daughter of the foreman of the blacksmith shop at Port Hope, came on the platform and in a very graceful manner presented a handsome bouquet of flowers to Mrs. Cox, who in return kissed the little girl.

Mr. Cox briefly returned thanks for the present.

Mr. J. R. Dundas also spoke, expressing his great pleasure at being present, after which the games commenced, consisting of all the usual athletic sports, for which handsome prizes were given principally by Port Hope merchants and the officials of the road.

To the following committee is due in a great

New Fall Goods!

ARRIVING DAILY, AT

WM. FAIRWEATHER & CO'S.

OPENED THIS MORNING:

A Beautiful Variety of Rich Colored Silks for Fall and Winter wear in six new Shades. Great Value in Black Dress Silks and Rich Corded Gro Grains, Gro Royal and Satin, Gro De Lyons. Rich Black Brocaded Satins, A MARVEL OF CHEAPNESS. Moire Antiques and Watered Satin Stripes all new for Trimmings in great variety. Black and Colored Satins in every Shade. Light Colored Dress Silks for Evening Wear, Reduced to 75 Cents, worth \$1.50. See them early, and you will not be disappointed.

A Lot of Remnants in Black and Colored Satins, Brocaded Silks and Strips, WILL BE SOLD CHEAP. Ladies by calling at the Store will receive Butterick's New Monthly for September, free of Charge.

measure the success of the gathering:—Messrs. Wm. Gothwaite, T. Walton, Wm. Woods, J. A. Cheer, Wm. Boyd, T. Pratt, H. Rosevear, Geo. Henderson, A. J. Thrapp, J. McMillan, S. Laidlaw, W. Pilling, J. Mahar, Geo. S. Fortin, H. Hamly, F. Grimsdon, C. Kemp, R. Lethbridge Geo. Stephens, F. Hobbs, J. H. Rowland.

The following gentlemen acted as judges:—P. R. Randall, W. Reynolds, J. R. Dundas, T. B. Tate, A. Hugel, W. J. Foster, L. Ross, Capt. James, W. Gaudrie, M. Geddes.

The train for the north was the first to leave and it was quickly followed by the others, so that by eight o'clock the grove was entirely deserted and every person fully, satisfied with the day's enjoyment, were either home or on the way.

We must congratulate the management upon the manner in which everything was carried out and upon the fact that not a single thing occurred throughout the day to mar the enjoyment, a fact which speaks volumes for the Midland Railway employees and their friends.

The regular monthly meeting of the Peterborough Boating Club will be held in the boat house at 7.30 o'clock this evening.

No. 1 Company. There will be drill to-night. Every member must attend to prepare for camp. There is room for a few more good recruits.

Church Parade. No. 3 Company of the 57th Battalion attended service in St. Luke's Church on Sunday morning in uniform, and an eloquent sermon was preached by the Rev. Mr. Bradshaw.

Photographic. Except in cases of urgency no negatives will be taken at Mr. Sproule's Studio on Tuesdays and Fridays of the 5th and following two weeks. His pressure of business compels this course. Customers will kindly favor him by governing themselves accordingly.

Law Examinations. In giving the names of the successful candidates from this vicinity at the recent examinations of the Law Society at Toronto, we omitted that of Mr. J. W. Bennett, who passed his first examination as a law student. Mr. Bennett studied in the office of Messrs. Poucette & Roger.

Chamberlain's Restaurant. Mr. W. H. Chamberlain would respectfully intimate to the public that he has opened his Oyster Parlour for the season, and begs to intimate that the lovers of Oysters can be supplied in a first class way. The very finest old ale, whiskeys and rums in Peterborough always in stock. No adulteration, and don't you forget it.

Military Appointments. The following military appointments appear in the Canada Gazette:—57th Battalion of Infantry, "Peterborough Rangers," No. 1 Company, Peterborough—To be second lieutenant, provisionally, Sergeant Ernest Morgan, vice William Palmer Shaw, whose resignation is hereby accepted. To be assistant surgeon, Constantine O'Gorman, Esquire, M.D., vice Thomas M. Miller, left the limits.

DOWN!

DOWN THEY GO.

HEALTH AND HEALTHY HOMES

IN CANADA.

BY DR. ROBERT SPROULE, B.A., BOOKSHELF, PETERBOROUGH.

"This book will fill a gap which is to be regretted has too long remained unfilled. We congratulate Dr. Sproule on his efforts to supply the public with a sound and practical work on the subject."—Canada Lancet.

A work for the general public, giving plain and practical rules for the maintenance of health and prevention of disease. Sold by Booksellers. Price Sixty Cents.

MILLS BROS.

In the course of two weeks will have for the Fall Trade, the Largest and Best Assorted Stock of Hats, etc., ever shown in the town of Peterborough.

KEEP No Old Stock whatever, every hat a perfect model of beauty, clean and fresh from the factory, and prices which

NO Retail House in the Dominion can compete. A passing glance at our show window will at once attest the truth of this assertion, and convince the most skeptical of the desirability of purchasing new and fashionable goods in preference to the

OLD Styles and old prices of by-gone days. We hold that no firm within the American States, except the Young Men's Goods (especially) closer than we do, and claim the honor of selling the Neeliest and Finest

STOCK Of Hats in Canada. Young men will find it to their interest to examine carefully our styles and prices for fall before purchasing elsewhere. We have the right goods at the right price.

LOCAL AND MUNICIPAL.

ARAB. BEWARE!

The Departure of the 57th Battalion and the Battery for Camp.

The militia of No. 3 District assemble to-day at Cobourg for the annual drill. The portion of the Durham Field Battery located here departed for the camp this morning. They assembled at the Drill Shed, and marching down Murray, Aylmer and Charlotte streets, they went south on the regular 7 a.m. train.

At about ten o'clock the 57th Battalion Band marched from their Hall to the Drill Shed. They looked well in their military uniform of blue trousers and scarlet coats, with a large white plume waving on the top of their helmets.

At the Drill Shed No. 1, 2 and 3 companies of the 57th Battalion assembled, and after drilling for some time, they formed in column four deep, and with the band at the head of the column, they marched down George, Simcoe and Charlotte streets to the Midland station.

At the station a hat was made, to wait for the arrival of the special train which conveyed the battalion to Port Hope. The train arrived shortly before twelve o'clock, with the companies from Norwood, Keene and Hastings, and upon the arrival of the regular train from Port Hope, the special train steamed off with the volunteers on board. Cheers were given as the train departed, and the band played a lively air.

As they marched, the 57th presented a good appearance, their uniform and accoutrements being clean and bright, and they marched in good order and in good time. A number of people witnessed their departure at the station.

Laureate Club Meeting.

A meeting of the Laureate Club will be held this evening at the St. James' Hotel at 8 o'clock.

Board of Education.

A meeting of the Board of Education will be held in the Collegiate Institute building at 7.45 o'clock this evening.

Chamberlain's Restaurant.

Mr. W. H. Chamberlain would respectfully intimate to the public that he has opened his Oyster Parlour for the season, and begs to intimate that the lovers of Oysters can be supplied in a first class way. The very finest old ales, whiskeys and wines in Peterborough always in stock. No adulteration, and don't you forget it.

Mechanics' Institute.

At a meeting of the Directors of the Mechanics' Institute on Monday evening, Mr. A. P. Poussette and the Rev. V. Clementi were appointed delegates to represent the Institute at the meeting of the Association of the Mechanics' Institute of Ontario. A vote of thanks to Mr. J. Burnham, M. P., was passed for his donation of a copy of Hansard for the last session of the House of Commons of Canada.

Railway Notes.

Eighty men have arrived from the Lower Province within the last three days, to work on the "Missing Link." There are now about four hundred men employed on this line between Peterborough and Oshawa, and the construction of the line is being energetically pushed forward with as much speed as possible.

The Globe says that about 100 men are at work on the Toronto and Ottawa Railway in the vicinity of Sharbott Lake. Some heavy cuttings are to be made.

Ir Cattaraugus has destroyed your sense of smell and hearing, Hall's Cattaraugus Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

THE WAR IN THE EAST.

THE MILITARY CONVENTION BETWEEN TURKEY AND ENGLAND SIGNED.

The British Flanks Threatened—Lock of Provisions Prevents the British Advance—The Rebels Near Alexandria Reinforced—Commanding at Hamieh—Fort Ghemilich Abandoned by the Enemy.

MORE TROOPS FOR EGYPT.

LONDON, Sept. 4.—Though Gen. Wolseley does not require the third division, the Government is determined to strengthen his hands by sending three battalions of infantry, so that Gen. Wood may be set free without leaving a garrison of less than 5,000 at Alexandria. Reserve depots of 150 men for each regiment at the front with Gen. Wolseley will also be formed at Alexandria, and a large depot of a thousand reserve men will be formed to replace these as they are drafted to the front to supply casualties. The result of these measures will be that Gen. Wolseley will have 23,000 men on the main line of operations, besides the garrison of Alexandria and the Indian contingent.

A FEMINIST VIEW.

LONDON, Sept. 4.—The contradictory and unsatisfactory details of the operations in Egypt given in the official despatches of the past week have caused unmistakable depression here in military and commercial circles as well as among society generally. It has become impossible any longer to disguise the self-evident fact that Gen. Wolseley, partly through paucity of force and partly in consequence of the inexhaustible incompetency of the supply and transport departments, has met with a serious check in his projected advance on Cairo, while the spirit of the army is good, and the men evince an ardent desire to be led against the enemy.

ARAB'S PLAN OF ATTACK.

ISMAILIA, Sept. 4.—Reports from the front show that Arabi's forces are actively engaged in making a concentrated flank movement in the direction of Karaim. In anticipation of such a movement Gen. Graham pushed out on Saturday, and lodged a strong body of troops near enough to Karaim to check any ordinary flank movement. On Saturday an attack was threatened from the direction of Sallabeh. Today large numbers of Egyptians are moving down towards Karaim from Mandarah, and those previously advanced from Sallabeh are again active.

A FIGHT IMMINENT AT ALEXANDRIA.

LONDON, Sept. 4.—News from Alexandria shows that Arabi's forces at Melk and Aboukir mean to engage the British at Alexandria to prevent further reinforcements going thence for General Wolseley.

LIVELY CANNONADING.

ALEXANDRIA, Sept. 4.—At five o'clock Sunday evening the British heavy guns near the Cairo railway began shelling Arabi's camp. The enemy replied, their shells falling within ten yards of the depot in the Hamieh lines. Two more British guns joined in the fire, whereupon a lively cannonade ensued. The enemy continued to make excellent practice, all their shells falling close to the British camp.

PROVISION BOAT ATTACKED.

ISMAILIA, Sept. 4.—Another provision boat was attacked last night fifteen miles north of Ismailia. Captain Gore, of the Marines, was pursued and attacked, and shots were exchanged, but no casualties occurred.

TURKISH TROOPS TO LAND.

CONSTANTINOPLE, Sept. 4.—Earl Dufferin yesterday informed the Sultan that he had been authorized to consent to the landing of 2,000 or 3,000 Turkish troops at Port Said. It is understood that Dervish Pasha will command the expedition, and that Baker Pasha will be chief of the staff.

SITUATION AT CAIRO.

ALEXANDRIA, Aug. 4.—A Greek recently arrived from Cairo gives a gloomy account of the situation there. Fears are entertained that when Arabi is defeated he will destroy the city. He estimates that there are only 1,500 troops at Cairo, who will join in pillaging the city on the first opportunity. Citizens are maltreated if seen on the streets at Cairo.

MURDERERS TO BE HUNG.

ALEXANDRIA, Sept. 5.—The murderers of the Englishmen Richardson and Dobson have been sentenced to be hung on Thursday.

SALINETER ABANDONED BY ARABI.

ISMAILIA, Sept. 5.—Salineter has been abandoned by Arabi.

REDOUBTS APPEARING.

PORT SAID, Sept. 5.—Large numbers of Bedouins have again been seen on the banks of the canal between Port Said and Ismailia.

THE CONVENTION SIGNED.

CONSTANTINOPLE, Sept. 5.—The Anglo-Turkish military convention has been signed.

LACK OF PROVISIONS.

ISMAILIA, Sept. 5.—The British will not have enough provisions to be ready to advance for at least a week.

REBEL OFFICERS SUBMITTING.

PORT SAID, Sept. 5.—Some rebel officers from Salineter have arrived at Ismailia to render submission.

ABANDONING PORT GHEMILICH.

LONDON, Sept. 5.—A Port Said despatch says that over 8,000 Arabs are fortifying Salineter. The enemy are embarking their baggage and military stores from Port Ghemilich.

REBEL REINFORCEMENTS.

ALEXANDRIA, Sept. 5.—There has been considerable movement in the enemy's camp, apparently occasioned by the arrival of reinforcements.

Rough Justice.

Many logs have been stolen from the Muskegon booming company. Logs escape from the booms, and float into the lake; and a man was detected regularly employing a steam tug to gather them up and tow them to Grand Haven, where he had them sawed up as his own before the booming company's tug got around. The other day the booming company loaded a tug with a gang of men, chartered a barge for Chicago, and went to Grand Haven and loaded the barge with sawed lumber bearing their marks before the Sheriff of Ottawa could get out a warrant, and sent out the barge with 75,000 feet. This makes things nearer even, and if the man who had the sawing done goes to law he will be arrested for stealing the logs.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

THE PANAMA CANAL.

ASPENWALL, Sept. 5.—Richie, Senior Commander in the French navy, has resigned and accepted the superior agency of the Panama Canal Company. Fifteen canal men went to Panama from Ecuador and the Sumatras in one afternoon recently, and are all sick with fever. The canal men are dying in Panama as usual. As many as five corpses left the hospital in a single day. The canal engineer reports that the hospital is full to the doors. The majority of the patients are suffering from yellow fever.

A COLLISION.

ALBANY, Sept. 5.—Fourteen persons were injured by a collision on the Southern Central road yesterday, the most of them receiving flesh wounds.

TRAINS WRECKED.

HARRISBURG, Sept. 5.—A wreck occurred at midnight between three freight trains on the Pennsylvania Railroad in this city. Twenty-seven cars were wrecked and two men were injured. The accident was caused by one train running into another, while the third ran into the first wreck. Travel was blocked.

BANK FAILURE.

SALIDA, Col., Sept. 5.—The bank of Salida closed its doors yesterday. The deposits amount to about \$50,000, mostly made by the working class. The capital of the bank is said to be only \$5,000. The deposits are a total loss. Hartall Bros., proprietors of the bank, have left the city.

FIRING AT HUNTERS.

NEW YORK, Sept. 5.—During a house hunt here yesterday, an Irish farmer came out with a gun and his farm hands were armed with stones. The hunters were warned not to cross his premises. No sign of the hunters obeying being made, he fired, the ball coming near the face of Wm. K. Thorne, of New York. The farmer claimed that he fired at the hounds. The hunters then took another route.

SUICIDE.

VALTECHILLO, Mexico, Sept. 5.—Frank McHolland, Superintendent of the Beane Vista and other surrounding money institutions owned by New York capitalists, has committed suicide. The cause is unknown.

MURDERING FOR HIRE.

FRANKLIN, N. Y., Sept. 5.—Wm. Alden and his son Felix have been arrested for an attempt to murder Circuit Clerk Wade. Wright had been engaged to kill them at \$100 a head. Wright was paid half the money and stationed himself near the town to assassinate the Wades, but weakened and exposed the scheme.

DIFFICULTY SETTLED.

HOLY SPRING, Miss., Sept. 5.—A difficulty between Ghalmeers and Mowbray, candidates for Congress, has been adjusted, and joint discussions between them will continue.

SHOT HIMSELF.

SALEM, Ohio, Sept. 5.—Byron Smith, for ten years agent of the Express Company here, committed suicide last night by shooting. No cause is known.

MINING EXHIBITION.

DENVER, Sept. 5.—The mining exposition continues to be a great success. It is visited daily by large numbers of people from the east.

YELLOW FEVER.

RATANORAH, Sept. 5.—Two hundred cases of yellow fever are reported at San Bernards Townships. There were 75 new cases at Brownville yesterday.

THE COREAN REVOLT.

WASHINGTON, Sept. 5.—Admiral Chilly has made a report regarding the outbreak in Corea. Great excitement prevailed at Yokohama, and it was thought that Japan would declare war, but later news showed that the movement was not national. It was learned from the American Minister that there is no intention of a declaration of war, but simply to reestablish the Japanese Minister with proper dignity, and to guard the legation so as to afford a refuge to Japanese subjects. 15,000 Chinese troops have entered Corea. A large number were approaching the frontier and ten gunboats and corvettes were to rendezvous off the south coast. It is impossible to say what bearing this may have on the action of Japan.

About Coal.

The Belgians claim to have been the first to discover the use of coal; and this discovery they say, was made by one Hullo, a blacksmith of the village of Pleurovan, near Liège, in the year 1640, from whose name they derived the word "houille." The Scientific American says, "Bituminous coal, or sea coal was known upwards of a thousand years ago, in the year 1053 but did not come into general use until the sixteenth century, and was not used in the manufacture of iron until the seventeenth century. Anthracite coal came gradually into use so late as the nineteenth century, and was not used as fuel in the manufacture of iron until about sixteen years ago. So early as 1700 anthracite coal was known to abound in the County of Schuylkill, in the State of Pennsylvania, but it being of a different quality from that known as sea coal or bituminous coal, and being hard of ignition, it was deemed useless until the year 1785, when a Pennsylvania blacksmith, named Whetstone, brought it into notice. His success in burning it induced persons to dig for it; but, when found, every person connected with the enterprise had to experiment on its combustion, and vain were the attempts to burn it by the majority of them, and all came to the conclusion that it would not come into general use. About the year 1800, Mr. Morris, who had a large tract of land in Schuylkill County, Pennsylvania, procured a quantity of coal therefrom and took it to Philadelphia city, but he was unable, with all his exertions, to bring it into notice, and abandoned all his plans. From that time until 1805 it was talked about as a humbug; when accidentally a bed of coal was found in digging a tall race for a water wheel for a forge, which induced another blacksmith, David Derris, to make a trial of it. His success was generally made known, which induced others to try to burn Pennsylvania coal.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

TUESDAY, SEPTEMBER 5, 1882.

TOWN COUNCIL MEETING

TREASURY-LAW REGARDING STRAY HORSES, CATTLE AND GESE FINALLY PASSED.

Bridge Street to be Opened on Friday—The Fire Limits—Finance Committee's Report—That Pigeon-Hole Table—The Collector's Roll—Building Inspectors Appointed—Faintful Police Constables—Street Improvements, &c.

A regular meeting of the Town Council was held on Monday evening.

Present:—His Worship the Mayor, Councillors O'Neill, McNaughton, Kelly, Patterson, Fountaine, Wilson, Douglas, Rutherford, Menzies, Dene and Richardson.

The minutes of the last regular meeting, and of the special meeting, were read and confirmed.

COMMUNICATIONS.
From Henry Tetten, stating that the Provincial Secretary had authorized him to state that the License Commissioners had the power to refuse Mr. Bell a liquor license until he complied with their demand to remove the pigeon-hole table.—Received.

From E. Dunford, who had purchased four more horses than he had at the beginning of the year, and asking to pay license for them only from the time at which he purchased them.—Granted.

From the Board of Managers of St. Andrew's Church, asking that the sidewalk on Bridge street near the church be repaired.—Street and Bridge Committee.

From C. W. Sowers, asking that McDonald street be water tabled.—Street and Bridge Committee.

ACCOUNTS.

The following accounts were read and ordered to be paid when certified to:—

Wm. Telford.....\$ 50
T. Farrant, watching fire at bridge..... 3 00
J. H. Sturges..... 119 50
Times Printing Co..... 65 00

THE FIRE LIMIT.

Councillor MENZIES read the following report of the Building Committee:—
To the Mayor and Town Councillors of Peterborough:—

GENTLEMEN,—Your committee beg leave to report that they have considered the petition of Mr. Michael Fawcett in regard to the erection of a wooden addition to his livery stable on Hunter street. Your committee cannot recommend the building of a wooden building within the fire limits of the town, as it would be in contravention to the Building By-law.

All of which is respectfully submitted.

THOMAS MENZIES, Chairman.

Councillor McNAUGHTON understood that Mr. Fawcett wanted to put up a wooden addition to his stable, and that he would brick it around in the fall. However, he believed that they should stick to the By-law. But if he would brick the wooden building in a short time it would be a hardship not to grant the request.

Councillor DENNE moved in amendment that the request be granted on condition that the building be bricked around as required by the By-law by the first of January next. Mr. Fawcett to give a guarantee that this would be done. Mr. JOHNSON, Street Inspector, said that he had seen a man commence to put up a wooden building in the fire limits, and had told him that it was contrary to the By-law, and the work was stopped.

Councillor CAMILL said that there had been granted similar requests, but the case of a poor man was singled out in which to enforce the By-law. Mr. Fawcett was commencing business here and needed more accommodation, the addition was a small one, and it would be a small matter to grant the request.

Councillor PATTERSON said Mr. Fawcett only wished to put a temporary building for the summer, and would have it bricked and made comfortable for the winter.

The amendment was put and carried.

FINANCE COMMITTEE.

Councillor PATTERSON read the report of the Finance Committee, which was as follows:—

GENTLEMEN,—Your Committee recommend the payment of the following accounts:—
E. B. Edwards.....\$ 67 50
H. Bell..... 9 70
John Bartram..... 1 25
Adam Hall..... 1 00
Geo. Sturges..... 2 00
Geo. Sturges..... 7 50
Geo. Sturges..... 12 00
Tobler & Co..... 45 47
J. M. Irwin, when certified to..... 1 50

As to the accounts of Geo. Barrie, \$5, and A. Davidson, \$5, your Committee cannot recommend their payment.

In reference to the petition from the Fire Brigade Band, asking for a grant towards purchasing a new set of band instruments, your Committee has instructed your Treasurer to issue his cheque to the Treasurer of the Fire Brigade Band for \$200 to enable them to purchase a new set of instruments, the said instruments to cost about \$700 and to be the absolute property of the town, and that the bandmaster shall be the custodian of the said instruments and accountable to the corporation therefor, and that each custodian shall at any time, when required by the Mayor or the Council, deliver the said instruments to the corporation.

All of which is respectfully submitted.

W. PATTERSON, J.A., Chairman.

The report was adopted.

THAT PIGEON-HOLE TABLE.

Councillor KELLY moved, seconded by Councillor PATTERSON,—That a rebate of \$30 be refunded to Mr. Bell on the license for a pigeon-hole table which he had taken out.
Mr. McNAUGHTON was heard, and said that Mr. Bell's house had been reported as a disorderly one, largely on account of the pigeon-hole table, and a liquor license had been refused him until the table was removed. Mr. Bell understood perfectly well that if the table were used again his license would be cancelled. Since the table had been removed the house was a quiet one. It would only be justice to Mr. Bell to refund him \$30.

The motion was carried.

THE COLLECTOR'S ROLL.

The CLERK, in reply to Councillor Rutherford, said the Collector's roll for 1881 had not been returned yet.

Councillor RUTHERFORD moved, seconded by Councillor DOUGLAS,—That the Clerk be authorized to demand from the Collector the roll for the year 1881.—Carried.

PERMITS TO RUN CATTLE.

Councillor FOUNTAINE moved, seconded by Councillor PATTERSON,—That the by-law to prohibit the running at large of horses, cattle, geese, &c., be read a third time.—Carried.

THE AGRICULTURAL GROUNDS.

Councillor McNAUGHTON asked if anyone had a right to keep the townspeople out of the old graveyard? Had the Council any control over it? He was told that cattle were put in there at night and that ratepayers were refused admission.

The MAYOR said the Council had control of it, and if any ratepayer had been refused admission he would inquire into it.

OPENING BRIDGE STREET.

In reply to a question of a Councillor, asking why Bridge street was not opened,
Mr. JOHNSON said that Mr. Bradburn was away, but he had left a notice with Mrs. Bradburn that the street would be opened on Friday next.

SMITH STREET BRIDGE.

Councillor CAMILL moved, seconded by Councillor PATTERSON,—That the Town Treasurer be authorized to pay "progress estimates" on the work being done on Smith street bridge, upon the certificate of Mr. Belcher, Town Engineer.—Carried.

BUILDING INSPECTORS.

Councillor PATTERSON moved, seconded by Councillor KELLY,—That Messrs. Pidgeon and Adams, the constables, be appointed Building Inspectors, and that a by-law be prepared for that purpose.

Councillor CAMILL said that it was well understood that the constables had been appointed permanently, so long as they were satisfactory. He asked if they visited the outskirts of the town, as many of the petty crimes were committed there?

Councillor RUTHERFORD said the constables had not considered their appointment as permanent, as they had applied to the Council to be appointed in Mr. McDonald's place.

Councillor McNAUGHTON said that he knew that the constables visited the outskirts of the town as late as twelve and even two o'clock. People were well satisfied with them, and they were doing their duty.

The motion was carried.

STREET WATERING.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES,—That Mr. O'Donnell be paid \$30 on his contract for watering the streets.—Carried.

APPROPRIATIONS FOR STREETS.

Councillor PATTERSON moved, seconded by Councillor FOUNTAINE,—That \$50 be expended on Park street, between McDonald and Smith streets, to have the street water tabled.

Councillor McNAUGHTON said that the motion should be referred to the Street and Bridge Committee.

Councillor DENNE moved in amendment, seconded by Councillor MENZIES,—That \$50 be expended on Antrim street by the Street Inspector to the best advantage and also \$100 on Water street.

Councillor FOUNTAINE said that the money for Park street was appropriated last year, but had not been expended.

Councillor RUTHERFORD said that he understood that Mr. Rogers was going to spend \$300 in beautifying his grounds, and the Council should spend something on the street, as it was at present in a very bad state. He also called attention to the sidewalk on London street.

Councillor McNAUGHTON again urged that these matters should go to the Street & Bridge Committee, and he raised the point of order that no notice had been given.

Councillor RICHARDSON bore testimony to the faithfulness of the Chairman of the Street and Bridge Committee. The Street Inspector had up to the present as much and more than he could attend to. He asked the condition of Water street was a disgrace to the town; it had not been water tabled in twenty years.

Councillor CAMILL said he did not pretend to see everything that was done. There was an inspector paid to do this work, and he believed that he did his duty. He (Mr. Camill) had been as well and but for that the committee would have had a report this evening. If the Council would adjourn for two weeks they would have a report that would dispose of all this work.

The motion and amendment were referred to the Street and Bridge Committee.

WOOD FOR CHARITY.

Councillor PATTERSON moved, seconded by Councillor KELLY,—That the Charity Committee purchase one hundred cords of wood as cheaply as possible, by tender or otherwise.

Councillor RUTHERFORD thought that little wood would be required this winter for charity.

Councillor FOUNTAINE raised the point of order that notice of the motion had not been given, and the point was sustained by the Mayor.

BURYING DEAD ANIMALS.

Councillor PATTERSON moved, seconded by Councillor DENNE,—That \$10 be deposited with the Clerk for the Health Inspector, for the purpose of burying dead animals.

Councillor MENZIES raised the point of order that no notice had been given, but the Council by a vote granted leave to introduce the motion, and it was carried.

WOOD FOR THE TOWN.

Councillor CAMILL moved, seconded by Councillor PATTERSON,—That the Finance Committee be authorized to purchase a quantity of wood for the use of the town, the cost not to exceed \$100.

The same point of order was again raised, leave to introduce the motion was granted, and the motion was carried.

The Council then adjourned for two weeks.

THE BALANCE.—Little played away top on TUESDAY makes it the cheapest, most perfect, and most desirable of all. Get a 5 cent sample.

THE REVIEW BOOK-BINDERY, PETERBOROUGH.

Our facilities for BOOK-BINDING enables us to execute every description of work as well as it can be done in the cities, and at current CITY PRICES.

Blank Books and Account Books of any size Ruled to any pattern desired, and bound in the most appropriate and durable manner.

Books taken out in parts, Bibles, Works of Art, Illustrated Works, Music Books, Magazines, Periodicals and Newspapers bound in any style desired.

Old Books, Albums, &c. Repaired and Rebound.

Maps, Pictures, &c. Mounted and Varished.

Names Lettered in Gold Leaf on Presentation Books, Bibles, Purces, &c.

THREE FIRST PRIZES FOR BOOK-BINDING AT THE CENTRAL EXHIBITION.

TOKER & CO.,

Review Steam Printing Office and Bookbindery.

POLICE COURT.

TUESDAY, Sept. 5.—Mr. Thos. Menzies, J.P., presided at the Court this forenoon.

LARCENY.

John Ferguson was charged with stealing seven dollars, the property of Jos. Enos. He pleaded guilty to stealing five dollars. He was remanded till Saturday, for the Police Magistrate to deal with.

FALSE PRETENCES.

T. W. Robinson was charged with obtaining by false pretences a quantity of earthenware of the value of \$22.77, with intent to defraud, from S. F. Allen.

Mr. C. W. Sowers appeared for the prosecution and Mr. G. M. Roger for Mr. Robinson.

Mr. ROBINSON asked for a remand till Monday. Mr. SOWERS objected to the remand. He said that Mr. Robinson could call as witnesses, as this court could only send the case to a higher court, and nothing would be gained by an enlargement.

The case was enlarged till Wednesday.

Tall Corn.

Mr. Benjamin Green left at this office a good sample of tall corn, the height of the corn being ten feet. Can it be beaten?

The Golden Eye.

The Steamer Golden Eye will leave her wharf on Thursday morning at 8 o'clock for Gore's Landing, Harwood and Idyl Wild. One fare (50 cts) for the round trip.

Photographic.

Except in cases of urgency no negatives will be taken at Mr. Sprule's Studio on Tuesdays and Fridays of this and the following two weeks. His pressure of business compels this course. Customers will kindly favor him by governing themselves accordingly.

Football.

A meeting of the Football Club will be held at the Casino House on Wednesday evening at eight o'clock, to organize for the season. A full attendance is requested, as arrangements have to be made for two matches, one with the Royal Military College, Kingston, and the other with Toronto.

The Weather.

The weather to-day is warm. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m., to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Light to moderate winds, fine warm weather. Wednesday, fine and warm.

Sure, safe and effectual, that old remedy, Down's Elixir, for the cure of Coughs and Colds.

Mr. Wm. RAMSON, of South Norwich, says: For sixteen years I suffered from Bilioune, never had any medicine do me any permanent good until recommended by our druggists, (J. Wesley Fish & Co., Ottawa), to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Bilioune, &c. Sold by J. D. Tully, at 50 cents a bottle.

CABLE.

TROUBLES IN SYRIA.

CONSTANTINOPLE, Sept. 5.—An Arab paper at Beyrouth, Syria, has been suppressed for publishing an article against the Christians.

THE CZAR'S CORONATION.

St. PETERSBURG, Sept. 5.—The preparations for the coronation of the Emperor to Moscow are being severely criticised. Explosive substances have again been stolen from the Russian Imperial depot, chiefly from Vladivostok.

GRAY'S IMPRISONMENT.

DUBLIN, Sept. 5.—A letter from Mr. Dwyer Gray states that he will not enter into recognition after the expiration of his three months' sentence. He will consequently have to endure a further and similar term of confinement.

FATAL ACCIDENT.

LIMERICK, Sept. 5.—The parapet of a spirit warehouse near an office occupied by Mr. Clifford Lloyd fell this evening, killing two men. The occurrence gave rise to a rumour that an attempt had been made to blow up Mr. Lloyd's house.

THE CZAR'S ESCAPE.

VIENNA, Sept. 5.—It is believed that the falling of the bridge at St. Petersburg on Monday was caused by a torpedo placed in a ravine for the purpose of injuring the Czar. Grand Duke Michael and the Minister of War were swept from the bridge and severely injured.

AGRARIAN OUTRAGES.

DUBLIN, Sept. 5.—An official report places the number of agrarian outrages in Ireland during August at 166, including one murder, 10 cases of intimidation, and 83 cases of sending threatening letters.

POLICE TROUBLES.

DUBLIN, Sept. 5.—It is expected that about 300 of the dismissed constables will not be reinstated. The special constables sentenced to six months' imprisonment for assaulting the military has been liberated on bail pending an appeal to the Recorder's Court.

OBITU.

LONDON, Sept. 5.—Mr. Montague Bernard, one of the high commissioners who signed the Treaty of Washington in 1871, died on Saturday in Herefordshire. He had been slowly sinking for some weeks.

AMERICAN.

HOG CHOLERA.

READING, Pa., Sept. 5.—Alarm has been caused in this township, this county, over the appearance of a disease among swine. Dark red blotches appear upon the body before death. Some farmers pronounce the disease hog cholera.

THE CHINESE LAW.

SAN FRANCISCO, Sept. 5.—In the case of alleged Chinese merchants from Panama, Judge Fildes has decided that merchants coming from other countries than China may land without certificates.

THE TEXAN CATTLE FEVER.

LEWISTON, Me., Sept. 5.—Texan cattle fever has appeared in Lewiston, Penobscot Co. Eight animals died and the authorities have taken the matter in hand.

SUIT AGAINST THE GRAND TRUNK.

PORTLAND, Me., Sept. 5.—Legal proceedings were commenced here to-day by Attorney General Cleaves against the Grand Trunk Railway of Canada to compel payment of taxes due the State from that corporation. Damages are laid at \$30,000. The action is returnable at the Supreme Judicial Court of this country, and will be in order for the next January term of the Court. The result is awaited with great interest.

An elegant range of Scotch Tweed Suits, suitable for Fall wear, just opened out at Habliment Hall.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

DEATH OF A RACE HORSE.

LONDON, Sept. 6.—Blair Athol, the celebrated race horse, is dead.

AMERICAN.

A WEST INDIAN HURRICANE.

HAVANA, Sept. 6.—A hurricane passed over Cienfuegos yesterday.

MORE CUBAN TROUBLES.

HAVANA, Sept. 6.—A number of persons having been carried off for ransom in Puerto Principe and Santiago de Cuba, the Captain General has proclaimed those provinces under martial law. It is reported from Spain that the Cuban insurgent Maceo has escaped from prison.

A DISHONEST LAWYER.

BROOKLYN, Sept. 6.—Francis G. Salmon, the lawyer who was accused of forgery and swindling, has been arrested in Florida.

NAVY YARD DISCHARGES.

BROOKLYN, Sept. 6.—Orders have been given for the discharge of half of the force in the construction and engineering department of the navy yard here on September 15th.

A CASE OF FASTING.

St. LOUIS, Sept. 6.—Phillipina Tengel, aged 28, living in North St. Louis, has taken no solid food for three months and is rarely able to retain liquid food in her stomach. The physicians are unable to diagnose the case satisfactorily. The woman is growing weaker and will probably die.

ALMSHOUSE IRREGULARITIES.

PHILADELPHIA, Sept. 6.—The committee which has been investigating the Alms house irregularities has decided to request the resignations of several members of the Board of Guardians who were in the old board. It is understood that warrants will be issued for three of the ex-members.

ASTRANGE LOSS.

MURKIN, Indiana, Sept. 6.—There was a small fire on Monday in James Boyer's flour and bagging mill. A quantity of oats became saturated with water and swelled, bursting the building yesterday, causing a loss estimated at twenty thousand dollars.

DEATH FROM HYDROPHOBIA.

DALLAS, Texas, Sept. 6.—The Speaker of the House, Reeves, who died of hydrophobia yesterday, was bitten by a mad dog several weeks ago. At the time he tried to apply a plaster to the wound, but it could not be made to adhere. He did not suffer the actual attack of hydrophobia until a few days ago, when, finding that he was going mad, he instructed his friends to shoot him while he lay in bed. He was killed by a bullet in the head.

A MEXICAN REVOLUTION.

TOMBSTONE, Arizona, Sept. 6.—Nearly every gunshop here has been cleaned out by Mexicans who are looking in by dozens, buying up all the arms and ammunition they can obtain, for use in the impending revolution in Sonora. It is reported that Governor Ortiz has ordered all the able bodied men in the State to be drafted to sustain him.

MARINE DISASTER.

FRANKFORT, Mich. Sept. 6.—Capt. Mathews, of the life saving station, was found by the side of a steamer's upper cabin, corresponding to that of the anchor line boats. The agents of the line think the description does not tally with that of their boats. The steamer Young, however, may possibly have met with a disaster.

A TORONTO LAD ABROAD.

NEW YORK, Sept. 6.—Douglas Oliver, a lad of fourteen, ran away from home in Toronto, to-day, to the Court of General Sessions sent to the house of refuge on pleading guilty to forging and passing a cheque for \$5 on the Mercantile Bank.

A CONGRESSMAN ARRESTED.

MILWAUKEE, Sept. 6.—Congressman Bragg was arrested yesterday on a warrant sworn out by John Rice, of Chicago, who claims that Bragg owes him \$1,200. Bragg gave \$2,000 bail.

A HORRIBLE TRAGEDY.

KENNESAW, N. Y., Sept. 6.—Albert Montford, who was murdered in his store on Sunday night, intended to visit New York on Monday to purchase goods. Montford was found with his forehead split open, the gun being eight inches in length. His left ear was cut in two and the gun extended nearly to the back of the neck, while another blow with an axe or hatchet had cut a gash from a point about an inch from the second cut to within a short distance of the right ear, this nearly severing the back part of the head from the body. A blow had also been struck on the top of his head with the blunt portion of an axe. Montford's pockets were turned inside out and not a cent of money could be found anywhere. The room was bespattered with blood. Mr. Montford went to Terrytown on Saturday to visit his sister-in-law, Her brother, Charles Reynolds, has been in the penitentiary and on Saturday the sheriff of Terrytown was looking for him at Kenesaw, having tracked him there from Terrytown, on account of a new charge against him. A quarter of a mile from the house an axe was found covered with blood and gray hair. A shirt spotted with blood was also found at the house of Montford's father-in-law in White Plains near a barn, on this farm another shirt was found torn and covered with blood. The coroner has arrested Mrs. Montford, her mother, Mrs. Stillson, her father-in-law and her sister, Mary Reynolds.

Instantly Killed.

KINGSTON, Sept. 5.—A man named Keith, working on the K. & P. P. Railroad, between Sharnot Lake and Clyde, was killed this morning. A train passed, and he stepped on the track, but behind him came a detached car, which ran over and instantly killed him.

The well known drug firm of N. C. Polson & Co., Kingston, writes that Dr. Fowler's Extract of Wild Strawberry has long been considered the best remedy for summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentery and all Bowel Complaints.

THE WAR IN THE EAST.

THE BRITISH NOT EXPECTED TO ADVANCE UNTIL SATURDAY.

The strength of Arabi's force—Aden to be fortified—The enemy's boldness increasing—Reinforcements from England—Arabi proclaimed a Rebel.

THE DAMAGE TO THE CANAL.

LONDON, Sept. 5.—In the report of the Suez Canal Company, M. de Lesseps says General Wolsey informed him that the English Government would accept the responsibility of any damage and the obstruction of traffic.

MORE TROOPS FOR SOFT.

LONDON, Sept. 5.—Orders have been received at Woolwich to despatch four thousand troops to Egypt—3,000 to Alexandria and 1,000 to Ismailia.

THE SUPPLIES.

ISMAILIA, Sept. 5.—General Wolsey is making every effort to organize a complete system of supply for the field force. The task is much more serious than the foreign element in Egypt is willing to admit. Meanwhile the enemy is content to be purely on the defensive. It is rumoured that Arabi has brought heavy guns from Cairo to Tel-el-Kebir to silence the British forty-pounders on the armed trains. Matters are proceeding smoothly at Kassasin. Food is abundant, but the daily consumption is so great that it will not be easy to provide supplies for the future.

MAHMOUD FOMY'S REVELATIONS.

ALEXANDRIA, Sept. 5.—Mahmoud Fomy has written a report to the Khedive revealing the position and strength of the enemy. A translation will be sent to General Wolsey. From internal evidence it is believed its statements are correct.

FILLING LAKE MAREUT.

ALEXANDRIA, Sept. 5.—Operations have been commenced for opening the old channel beyond Maki with a view to letting the sea into Lake Mareut. It will take two months to reach a depth of two feet.

THE WATER SUPPLY.

ISMAILIA, Sept. 5.—The fresh water canal is falling rapidly, and the Water Company has reduced the supply at Ismailia and Port Said.

TURKISH TROOPS FOR SOFT.

CONSTANTINOPLE, Sept. 5.—It is stated that 5,000 Turkish troops will embark immediately for Egypt.

FLOODING THE COUNTRY.

ISMAILIA, Sept. 5.—It is reported that Arabi has flooded the entire country above Zagazig by cutting the canal.

ARABI PROCLAIMED A REBEL.

CONSTANTINOPLE, Sept. 5.—The Sultan's proclamation to the Egyptians has been issued. It declares Arabi a rebel for disobeying the orders of the Khedive and Dervish Pasha, thereby provoking the intervention of England. It states that the decoration conferred upon Arabi was bestowed at the instance of Dervish Pasha in consequence of Arabi's protestations of fidelity. The proclamation exhorts all Egyptians to obey the Khedive.

ALLEGED TREASON IN HIGH PLACES.

ALEXANDRIA, Sept. 5.—Mahmoud Fomy denies that he was captured by the British. He says he was surrounded. He accuses many of those composing the entourage of the Khedive, including Cherif Pasha, the Prime Minister, of having communicated with Arabi.

FIRE IN ALEXANDRIA.

ALEXANDRIA, Sept. 6.—A fire broke out early this morning in the residence of Cherif Pasha. Several persons suspected of starting the fire have been arrested.

ADEN TO BE FORTIFIED.

LONDON, Sept. 6.—It is stated that the authorities have decided to fortify Aden at once. A number of heavy guns will be sent there.

SUSPECTS ADVISED TO LEAVE.

ALEXANDRIA, Sept. 6.—Anton Paulo, who was arrested on suspicion, being connected with a plot against the lives of Europeans, will be sent to Greece. He is not a consular agent, as was stated. The police have advised several other suspected persons to quit the city.

BOLDNESS OF THE ENEMY.

KASSASIN, Sept. 6.—The enemy are showing increased boldness. Yesterday a force of two hundred was observed within half an hour's march of the British Camp. Infantry degraded as peasants are frequently at the British vanguard.

THE ROYAL COMMANDER.

ISMAILIA, Sept. 6.—The Duke of Connaught's brigade of foot guards will arrive at Kassasin on Wednesday.

THE ADVANCE DELAYED.

ISMAILIA, Sept. 6.—No advance can be expected before the 9th of September.

TRANSPORT ARRANGEMENTS.

ISMAILIA, Sept. 6.—The transport arrangements are being rapidly completed. A party of natives have been engaged to bury the dead at Kassasin.

ARABI'S POWER.

ISMAILIA, Sept. 6.—It is reported that Arabi has 25,000 troops at Tel-el-Kebir, well armed and in good condition. He has large forces at Shabara, Ghiza and Monakata, where he is constructing formidable earthworks. He has 6,000 men at Cairo and several thousand camped out by the side of the city, close to the pyramids. Diametta is garrisoned by a regiment of black troops, and a large number of the same troops are within reach in case of necessity. Arabi has an Italian and four German on his staff, all able officers. It is reported that he has flooded the entire country above Zagazig by cutting the canal.

Dr. JONES, M. D.

Special to The Review, Sept. 6.

A FINEST BRISTOL commanded by John Chisham was struck by a squall and sank in Placentia Bay yesterday. Crew perished.

Personal to Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

The Reviewer.—Little noted over top on Thompson makes in the church, most quiet, and most thorough of all collections. Get a cent sample.

Daily Evening Review

WEDNESDAY, SEPTEMBER 6, 1882.

A PALTRY SUBTERFUGE.

The Reform journals are making a very general attempt to palm off a delusion upon the public. A short time ago the handful of Reformers who are now left in Quebec started an absurd story that Mr. Mousseau, the new Premier of that Province, had approached their leaders with the view of forming a coalition ministry. The gentlemen in question, Mr. Mercier and Mr. Langlois, had advocated an appeal to the Dominion authorities to increase the subsidy to a dollar a head, and it was asserted that the coalition was to be formed on the basis of an insinuation upon this substantial consideration. The whole story has been authoritatively contradicted, though a contradiction was hardly necessary, so absurd was the idea that an abnormally strong government was seeking assistance from an utterly insignificant opposition. If the whole story was not a mere invention to affect the recent provincial elections in Quebec, it was simply a case of the wish being father to the thought. But in spite of the exposure of the fallaciousness of these rumours many of the Reform journals in Ontario continue to repeat them with the object of giving the erroneous impression that the Conservative Ministry in Quebec is weak instead of strong. But they go even further than this for they dishonestly attribute the design of their own allies upon the Dominion exchequer to the Conservatives. They then proceed to use their own invention to bolster up their other falsehood that the Quebec Blues are endeavouring to obtain more than their rights and to do so at the expense of the other provinces, notably of Ontario. It is atrocious, this attempt of the so-called "Reform" press, for mere party ends, to set provinces against provinces and race against race. There are no more loyal subjects in the Dominion than the people of Quebec, yet they are abused and slandered because being conservative they give Conservative votes—being patriotic they support the National Policy.

EDITORIAL NOTES.

The Montreal Witness, a staunch Reform journal, lets out the truth about the origin of the "better terms" cry, showing that Mr. Mercier, the Reform leader, not Mr. Mousseau, the Conservative Premier, is the author of the demand. The Witness says:—
"Mr. Mercier's better terms move is extremely clever. He has fairly turned the Government's position by a flank attack. We do not want to spend less, says Mr. Mercier, what we do want is to have more to spend. We do not want to tax ourselves for this; let us wring it from the Dominion Government, from the people of the whole Dominion."
Yet it is from the allies of such men that we hear cries of Blue influence and French domination. Heaven preserve us from the rule of these men and their Grit allies.

The Independent Toronto Telegram says:—
"Mr. Meredith is a fine type of politician, and is almost as popular on one side of the House as he is on the other. He is a man of ability and integrity, and would make a good member of a government."

Our contemporary thinks, however, that Mr. Meredith needs more able lieutenants. Without admitting that there are not even now Conservatives in the House fully equal to Messrs. Crooks, Wood, Hardy, Fraser and Pardo, we may suggest that it would be well to have a little patience—the elections have not yet taken place, nor have even the nominations been made. We have no doubt that in the next Legislative Assembly there will be ample material to form a Conservative administration to relieve us from the centralizing bureaucracy and the wasteful extravagance of Mr. Mowat and his colleagues.

The Independent Montreal Star says:—
The burden of the speeches at the demonstration in honor of Hon. Mr. Mackenzie at Toronto was the danger of French domination, and the purity of the Ontario Government. All the speakers were very eloquent over the wrongs of poor despoiled Ontario, forgetting in their zeal the immediate object of the gathering—a mark of respect to Mr. Mackenzie. But people are growing tired of this cry about French domination, and if Ontario persists in keeping up the strain, that province, termed the keystone of Confederation, will do more to destroy Canadian unity and harmony than all the discontent in the Maritime provinces in past times.

The prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Chamber's Bile Beans and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia, and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

THE NORTH-WEST SQUATTERS.

The Winnipeg "Assault Correspondent" of the Globe has his say about the squatters in the North-west. It will be seen that the Globe correspondent does not quite agree with the Globe editor, who would have these squatters hold the land against legitimate settlers, even if murder has to be resorted to. The correspondent says:—
"The speculative squatter I understand to be a summary settler with. To-day, if my information be correct, orders were issued from the Land Office to clear off the speculators from the Ball farms, by compelling them to show that those who have taken the country, one only is entitled to hold his land at his own discretion. He is a Frenchman, who settled there two years ago. There is no necessity for my discussing this question, for the press and courts are already well understood by the readers of the Globe. It may be enough for me to say that it is undoubtedly true that hundreds, if not thousands, of squatters have been sent out from here by speculators, who have paid these men weekly or monthly wages, with no other object in view than to compel intending settlers to buy eligible lands from them. The press and public opinion are unanimous in saying that no mercy should be shown to such speculative squatters. I am afraid, however, that some honest men will have to suffer by the uprooting of the dishonest squatters. The Government professes to be concerned with anxiety for the honest man, and aver that such men will receive justice, full and ample. For my own part I do not see how speculative squatting is to be extirpated so long as squatters' rights are maintained. In a few weeks we will be able to see if the policy which the Federal Government intend to pursue is practicable."

SOUTH MONAGHAN.

From Our Own Correspondent.

CORNER STONE Laid.—The corner stone of the new Methodist Church building, South Monaghan Circuit, was laid on the 1st September, by Geo. Hilliard, M.P., for West Peterborough. A profitable time was enjoyed. The service was conducted in the Baptist Church by the Rev. John Shaw, Chairman of the District, who preached a very suggestive, suitable and profitable sermon, after which the audience repaired to the new building to witness the laying of the stone. The Chairman, assisted by the Rev. J. Weldon, (Colborne,) read the ceremony, after which the pastor the Rev. F. Johnson read the usual document which was placed in a bottle and covered in the stone. He then in behalf of the trustees presented Mr. Hilliard with a suitably inscribed silver trowel, with which he laid the stone, placing on it at a noble subscription of \$100 to add to the committee in completing the building. A telegram was also received from Mr. Guillett, M.P., Cobourg, expressing regret at his not being able to be with us and promising to cheerfully aid us. The building is 50x60 with an alcove for the choir behind the pulpit, and a tower in the front, and is progressing rapidly.

WEATHER NOTES.

From our own Correspondent.

WEATHER NOTES.—August, the farmers' busy month has not been a repetition of 1881 as regards bush fires. Although the temperature has been high, averaging 65° to 70° degrees still the continued, gentle showers and the 5 days of thunder storm early in the month had the effect of keeping fires under control. The hottest days were on the 6th and 7th with the thermometer standing at 80° at 10 o'clock in the shade. The coldest was on the morning of the 19th, being only 50°, or 2° above the freezing point. Rain fell on 15 days to the depth of 2.13 inches, while in August of 1881 it only fell on 2 days. We had white frost on the mornings of the 13th and 19th, and thunder storms on 9 days.

THE CROPS.—The harvest is mostly secured, only a few fields of grain remaining out. The threshing machines followed in its wake, its hiss and boom being heard in the land. Spring wheat is not yielding what many thought it would by its appearance before harvesting. A large quantity of the barley is badly colored by the rust and by having to stand after being ripe, waiting for settled weather.

YOUNG'S POINT.

From Our Own Correspondent.

MOONLIGHT EXCURSION.—Mr. Geo. Chalmer's gave all his employees and the villagers a free excursion on the steamer Fairy to Julien's Landing and back on Friday evening, the 1st of September. There were about 80 persons, young and old. It was a very pleasant trip, and all enjoyed themselves. On their way up they called in at Sandy Point and took Arthur Dugan and his gang of men on board.

METHODIST SUNDAY SCHOOL.—The Lakeside Methodist Sunday School held their annual picnic on Thursday the 21st of August at Julien's Landing, on Clear Lake, the steamer Cruiser and the Palace Row being chartered for the occasion. It was very well patronized, and was, as in former years, quite a success. The day was beautiful and cool.

THE GRAVEYARD.—Mr. William Young, Land Agent for Col. Williams of Fort Hope, has recently had erected to his late wife's memory a very handsome marble pillar monument, which stands 9 feet high, also six marble pillars with handsome chains and crosses, enclosing 12 x 14 feet of ground. Messrs. S. A. Moore & Sons, of Peterborough and Belleville, erected it and it reflects great credit on the workmanship. It cost \$170.

THE STEAMER CRUISER.—The steamer Cruiser passed through here on Tuesday morning last, with the members of the Synodical camping party—viz., Messrs. Alex. Stewart, A. McNeil, W. J. Ferguson and A. Hall and a man cook. They camp for two weeks at Josephine Narrows on Money Lake. We predict for them a jolly time.

THE LAST SAW LOG DRIVE.—Mr. Irwin of the Napanee mill has a large drive of 30,000 logs running through here en route for his saw mill. This is the last drive of the season.

"NOW WELL AND STRONG."—Dr. R. V. Pierce, Buffalo, N.Y.: Dear Sir—I wish to state that my daughter, aged 18, was pronounced incurable and was fast falling as the doctors thought, with consumption. I obtained a half dozen bottles of your "Golden Medical Discovery" for her and she commenced improving at once, and is now well and strong. Very truly yours, Rev. Isaac N. Angustin. "Discovery" sold by druggists.

Just opened out, New Fall Scotch Tweed Suitings, Twilled and Fancy Worsted Coatings in all the new makes. Irish and West of England Serges at Habilitation Hall.

GRAVE DECAPITATION.

Two Hundred and Twenty-Six Taken from Widows, Orphans and Others.

There has been great excitement in Montreal for some time on account of the discovery that Mr. Hunter, of that city, was a heavy defaulter. New cases in which he has defrauded people of large sums are continually being brought to light. The Mail publishes the following list of claims against the gigantic defaulter, and for which there is not a vestige of security or asset so far as the poor dupes are concerned, which, it says, was received from a reliable source:—
Mrs. Haywood.....\$ 8,000
Mrs. Johnson.....4,000
Mrs. Dows.....15,000
Mrs. Orkney.....8,000
Mrs. Turner.....2,000
Mrs. Lawford.....4,000
Mrs. James Thompson.....1,500
Mrs. Hamilton.....8,000
Mrs. Anderson.....6,000
Miss Robertson (school mistress).....2,000
Lockhead family.....6,000
Miss MacIntosh.....2,000
St. Andrew's Temperance.....14,000
Due an estate in Huntingdon.....8,000
Due heirs of a Montreal estate in England.....10,000
Mr. Grant, for English client.....4,000
A farmer at Longue Point.....1,000
Mortgage debt received for Cote street church and for sale of land to Fraser estate.....20,000
Total.....\$123,700

This shows a total deficiency for which Hunter is responsible, including the estate of Phillips, of nearly \$24,000. It should be borne in mind, however, that it is the belief of those who are acquainted with Hunter's operations, that nothing like all the claims are yet preferred; that, in fact, it will take months yet to bring them all to light, as his unfortunate clients are dispersed over the world.

ALLEGATIONS FROM THE PULPIT.

The ministers in several houses of worship here on Sunday referred in condemnatory but respectful terms to Hunter's frauds upon widows and orphans, in Chalmers Presbyterian church the pastor said he had deeded the dignified office of an elder by misappropriating the money of others. He eloquently pointed out the moral to be gleaned from the conduct of the defaulter to those who aimed at keeping up a style that their legitimate means did not warrant.

CROPS ON THE MIDLAND RAILWAY.

The Midland Railway Company has secured reports relating to the state of the crops in the districts traversed by its lines. Fifty-two stations report, and we question if ever a set of reports more uniformly delineating bountiful crops was ever issued. Of the fall wheat the reports are almost invariably good. Notwithstanding that, when the spring opened, the plant was found to be badly winterkilled; that which was left alive developed in a surprising manner, and of course the land on which the wheat was absolutely destroyed was put under some spring crop. The spring wheat is reported of less favorably than the fall variety, but the indications are that the crop in the Midland district will be a full average. Barley is a very large crop, and a great breadth has been secured in first-class order. The crop of oats promises to be above the average, and peas have given a satisfactory yield. Hay was a good crop, and if the average quantity of rain falls during the next six weeks the root crop will be an enormous one. The Midland reports therefore fully bear out the expectations of a good harvest which have been founded on the official and other reports previously issued.—Globe.

CANALS AND RAILWAYS.

The London Globe says:—
"Since the introduction of railway communication into England, it has been the custom to think that roads and canals have had their day, and should yield in every case to the locomotive and rolling stock of railroad companies. Only now are the English recognizing that their enthusiasm overstepped itself at a cost of many millions to the country that might have been saved by the cheaper transport by canals, and speculating how best to retrieve their losses by following the example of France, whose river valleys bristle with the picks and shovels that have recently completed a canal system so stupendous in extent that the country a good deal more than \$40,000,000. The reappointed Select Committee on railways sat during the session of 1882 until July 17, when they met to consider their report. Two drafts were presented, and both agreed as to the necessity of empowering the Railway Commission to fix and enforce through rates on canals, and to put a stop to that throttling of the inland navigation by the prepotency of the railway companies."

BAXTER'S MANHARTEN BITTERS never fail to cure Constipation and regulate the Bowels. There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effective remedy for Cholera, Dysentery, Cramps and other summer complaints for infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

Young and middle-aged men, suffering from nervous debility and kindred affections, a loss of memory, and hypochondria, should include three stamps for Part VII of World Dispensary Time Series of pamphlets. Address World Dispensary Medical Association, Buffalo, N.Y.

MOTHERS! MOTHERS!

Are you distressed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, once and get a bottle of MRS. WILKINSON'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it, there is no mistake about it. There is not another on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold every where. 25 cents a bottle. Beware.

MUNRO & ALEXANDER

Daily Evening Review

WEDNESDAY, SEPTEMBER 6, 1882.

LOCAL AND MUNICIPAL

Acknowledgment.

Our Warden, Mr. Henry Collins, left a fine sample of his apples at this office for our boys who fully appreciated the attention.

The Golden Eye.

The Steamer Golden Eye will leave her wharf on Thursday morning at 8 o'clock for Gore's Landing, Harwood and Lay's Wild. One fare (50 cts) for the round trip.

Personnel.

We notice that Mr. J. W. Wallis, formerly of Peterborough, was on the committee for the celebration of the Press Association when they visited Brandon.

Board of Education.

There was no meeting of the Board of Education on Tuesday evening. The members evidently thought the holidays were not yet over, as not one member of the Board put in an appearance.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m., to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh, southerly winds; fine warm weather.

Chamberlain's Restaurant.

Mr. W. H. Chamberlain would respectfully intimate to the public that he has opened his Oyster Parlor for the season, and begs to intimate that the lovers of Oysters can be supplied in a first class way. The very finest old ale, whiskies and wines in Peterborough always in stock. No adulteration, and don't you forget it.

The Two Prophets.

The Young Men's Christian Association have secured the prophet of Bond Street Church, Toronto—the Rev. Joseph Wild, D. D. to deliver a lecture here on the 3rd of October. The subject of the lecture will be the "Prophet Jeremiah's visit to Ireland." We are sure that our citizens will be pleased to have this opportunity of hearing this able lecturer on his favorite theme.

Railway Notes.

Mr. H. J. Baumer, the contractor, has issued a notice that any person found under the influence of liquor, or having any liquor in his possession, on the "Missing Link," will be immediately discharged.

The Napawan River says that both the Toronto and Ottawa, and the Ontario and Quebec railways are being pushed rapidly forward through the northern townships of Lennox county. The contractors are erecting two mammoth boarding houses about ten miles north of Erieville, which will be capable of accommodating one thousand people.

Barnyard Accidents.

An accident from Orono to Peterborough and Lakeside, under the auspices of Lorne Lodge, A. F. & A. M., No. 378, G. R. C. of Orono, will take place to-morrow (Thursday), which is the civic holiday of that village, on the regular morning train. A cricket match between the Orono and Lakeside clubs will take place on the grounds of the latter. The excursion will remain at Peterborough an hour after returning.

Park Packing.

The foundation for Mr. Mathews' park packing establishment, on George and near Wolf street, has been completed, and work has been commenced on the brick-work of the main part of the building. Mr. Geo. A. Nelson, of Peterborough, has the contract of putting up the whole building, and Mr. Theo. Williamson, of Lindsay, has from him the contract for doing the mason work. The building will be one hundred feet long by fifty feet wide, and one and a half stories high, with a large basement. Mr. Mathews will carry on in it the business of slaughtering, packing and curing pork the whole year round, and he will have it fitted up in the most approved manner and with the best appliances for the purpose. He is already engaged in this business in Lindsay, and has established a more than provincial trade, his custom extending from Toronto to Quebec. The building is located in a good situation, on the bank of the river, and it will be completed with as much speed as possible.

POLICE COURT.

WEDNESDAY, Sept. 6.—There were more cases than usual at the Police Court this morning. Mr. T. Menzie, J. P., presided.

DRESS.

Richard Stevens pleaded guilty to the charge of being drunk on Tuesday, and was fined \$1 and costs, or ten days jail.

John Dwire appeared on the same charge, and also pleaded guilty and received the same sentence.

ASSAULT.

Theo. G. Hazlett was charged by A. Kernaghan with assaulting him on Tuesday.

Mr. W. H. Moore appeared for the complainant and Mr. A. P. Poussette for Mr. Hazlett. Mr. Poussette admitted the assault, but said there were extenuating circumstances.

Mr. Moore would not admit that there was any extenuating circumstances, and the case proceeded.

A. KERNAGHAN and JAS. FOX gave evidence, which went to show that Kernaghan was driving a horse for Mr. Hazlett, when it ran away. The horse was caught by Fox, and when Kernaghan got it he jerked the horse across the road by a halter. Mr. Hazlett told him to stop, and Kernaghan not obeying he struck him with a stick.

Judgment was reserved.

ILL-TREATING A HORSE.

A. Kernaghan was charged by T. G. Hazlett with cruelly ill-treating a horse. The evidence taken was similar to that in the previous case against Mr. Hazlett.

Mr. Moore objected to the form of the complaint, which should specify the by-law under which the complaint was laid.

Mr. Poussette said the objection was taken too late.

Judgment was reserved.

BLASPHEMOUS LANGUAGE.

A. Kernaghan was charged by Mr. Hazlett with using blasphemous language.

Judgment in this case was also reserved.

FALSE PRETENCES.

The case of Queen v. Robinson, in which Mr. T. W. Robinson was charged with obtaining goods under false pretences from H. P. Allen, was called.

Mr. SAWYER said Mr. Robinson was not present, and the case could not proceed without him.

Mr. Poussette said that Mr. Sawyer could not do the Magistrate to issue a warrant for his arrest.

Mr. SAWYER said his client considered the amount too small to have a warrant issued, and the case would have to drop.

Mr. Poussette—Then the case will be dismissed.

Some further discussion took place between the counsel, when

The Magistrate said the case would be adjourned until Monday, the 11th of September.

Photographs.

Except in cases of urgency no negatives will be taken at Mr. Sproule's Studio on Tuesdays and Fridays of this and the following two weeks. His pressure of business compels this course. Customers will kindly favor him by governing themselves accordingly.

Cricket.

An eleven of the Peterborough Cricket Club will start for Toronto this evening to play the Toronto Cricket Club there to-morrow.

The Market.

The attendance on the market this morning was not very large, and there was almost no change in prices.

Bicycling.

A preliminary meeting of bicyclists is to be held at the exhibition grounds, Toronto, on Monday, Sept 11th, to form a Canadian Bicycle League. It is hoped that each town will send a delegate.

At the Camp.

The Y. M. C. A. of Cobourg have put up a large tent on the volunteer camp ground, which is used by the officers and men as a reading room and for letter writing, &c. Besides general news, the camp will be supplied with local papers, so that the volunteers will receive the news from home.

Child Description.

(TORONTO, Sept. 5.)—The following note was left with a perambulator containing a six-months' old baby at the door of a lady's residence on the Richmond Road to-day:—"Mrs. —, extend your motherly love to my little darling. His parents you may never know. 600 a year will be sent to you by mail—\$40 every six months he is with you. He is a good little fellow, and may God look down in pity and bless him and you. George was born March 24."

PORT HOPE.

SABBATH FURNERALS.—The Guide says that the Ministers of Port Hope, of all denominations, have signed the following in regard to Sabbath funerals:—"From the conviction that funerals on the Sabbath interfered with the proper observance of that day, and with the performance of its public duties, we the undersigned ministers of the Gospel in the town of Port Hope, county of Durham, Ontario, do hereby bind ourselves not to attend on the Sabbath day:—(1) Any funeral, understanding by a parade funeral, one which is accompanied by a band march, or at which banners are carried, or society regalia worn; nor (2) any other funeral except in a case of necessity on sanitary grounds, and at such a time as will not interfere with the ordinary church services or Sunday School."

THE SWEET, BEST AND CHEAPEST MEDICINE IN THE WORLD IS DR. CARSON'S STOMACH AND CONSTIPATION BITTERS. Sold in large bottles at 50 cents by J. D. Tally.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleans the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin and circulation, and strengthening while it regulates and purifies.

Ladies by calling at the Store will receive Butterick's New Monthly for September, free of Charge.

Export of Iron Ore.

The other day Mr. S. C. Roberts, of the Charlotte Iron Furnace, near Rochester, sent to the American Tariff Commission a communication, asking that foreign iron ore be placed on the free list. This, he argued, would have the effect of admitting various kinds of ore mined in Canada, not found in the United States, and would materially assist in developing mining in Canada. Much obliged to you, Mr. Roberts, for the interest you take in Canadian mining, but we would rather have our iron mines developed in another way, more conducive to our own profit and less to yours. The above bit of news is referred to by some Canadian papers apparently in a tone of satisfaction or approval; and we must say that we regret to see any Canadian journal so far mistaken with regard to Canada's true interest in this matter as to look pleased at the prospect of greatly increasing our shipments of iron ore to the United States. We hold, on the contrary, that it is Canada's interest not to export to foreign countries her treasures of iron ore, but to reduce these ores at home, thereby creating employment for labor, for capital, and for railways and vessels in our own country. It is a fact that some Canadian ores, valued at only a dollar or so a ton, at point of shipment for the States, are worth nine dollars per ton at Cleveland, and bring that price delivered at the furnace there. What is it that makes these ores of ours so valuable there, while they are so little worth here? We would do well to push this inquiry, and to find the true answer to it, if we can. We may depend on it that the more iron mining is "developed" with us through the export of ore to Albany, Charlotte, Black Rock, and Cleveland, the less chance will there be of our seeing smelting furnaces in operation at Kingston, Belleville, Port Hope and Toronto. One of the first things the Dominion Government should do, if they want to see iron-making developed in Canada, is to slap a good round export duty on ore taken out of the country to feed foreign furnaces. The duty should not be moderate but prohibitory. This will be all the more necessary should our neighbors act on Mr. Roberts' recommendation. And it is what we will undoubtedly do, so soon as we become enlightened enough and practical enough to kick aside these Free Trade bugbears which still continue to frighten us more or less, even with all the progress we have recently made in the right direction.—*Canadian Manufacturer.*

For a handsome range of New Fall Overcoatings, try Habbitment Hall.

DOWN!

DOWN THEY GO

Great Reductions in our Dress Department. We are determined to get rid of our Summer Goods, and have marked them accordingly.

DESTRUCTIVE CONFLAGRATION.

The City of Quebec Visited by Another Destructive Fire.

Special to the Review, Sept. 7.

THE EARLY MORNING HOUSE, which of late have proved so fertile with disastrous conflagrations in this city, brought with them to-day another destructive fire, which has left the greater part of one of the richest and most valuable blocks in St. Roches nothing but a pile of black and smoldering ruins. The block referred to is that bounded by St. Joseph's church on Desfontaines and Crown streets. The largest amount of the loss is that sustained on the interior of the block, on most sides the outer buildings remaining intact. The alarm sounded from box 37, corner of St. Joseph and Church streets, at about 2.10 a.m., and the alarm was repeated some ten minutes later and called out the whole brigade to the scene of the fire. On its way through St. Joseph street a wheel of the Stand & Mason engine was smashed on the street-car track in front of the Palais Market, and the engine had of course to leave there. The origin of the fire is said to have been in the rear of Mr. W. Davis' confectionery store, 199 St. Joseph street. Whether this be correct or not, it is certain that the flames first burst out to any extent from the dry goods store of Messrs. P. Pelletier & Co., No. 209 and 211 St. Joseph street. This was an immense building, but appears to have been quite a shell inside, if one may judge from the rapidity with which the flames shot through it. A great deal of the stock was thrown over the convent fence at the other side of the street and subsequently removed in carts. To the general surprise there was no water in the streets when the fire showed itself, and reports vary as to the time required to bring it, some going so far as to say that it was not available for fully half an hour. It is not surprising under the circumstances that there should have been quite a panic in St. Roches, and fears of repetition of the disaster 1845 and 1886 were entertained. Thousands of people ran through St. Joseph and surrounding streets only half dressed, as the roar and reflection of the fire were quite terrific, all within a hundred feet of the outbreak of the fire commenced to pack up the majority of their household goods and throw the balance out of the windows. Grave apprehensions were felt for a while for the safety of the church, and undoubtedly it would have been in imminent peril had a strong wind been blowing. The arrival of the water enabled the firemen to subdue the flames very considerably. Shortly before four o'clock the fire seemed to be a good deal under control. The houses burned on St. Joseph street are as follows, commencing from the Crown street side, W. Hudson's store at the corner being intact—No. 217, Mrs. Andre Picard, photographer; 215, E. Hele & Co., dry goods; 213, Chas. Gagnon, clocks; 211 and 219, P. Pelletier & Co., dry goods; 220, Arthur J. Turcot, grocer; 205, Ed. Angers, joiner; 201 and 203, Dolphis Droest, dry goods. The two last mentioned are but partially destroyed, but are believed to be pretty well gutted. On Desfontaines street the small wooden house of Louis Locasse, joiner, was burned to the ground. The flames tried hard to get possession of Mr. Gagnon's carpet warehouse, on Desfontaines street, but were fortunately kept back. On Church street the fire reached the back of the block occupied by Richambert, ex-Mayor, and Mr. Chas. R. Michaud, notary. At the back these houses are badly burned. The fire was fortunately circumscribed by a solid cut wall in the rear of the premises of Mr. J. B. Z. Duban. The loss by this fire is very heavy, and including stock, will probably exceed \$100,000.

LATE.

Shortly after 4 a.m. another alarm from the same vicinity was sounded from No. 47, corner of Queen and Crown streets.

For a handsome range of New Fall Overcoatings, try Hebliment Hall.

AFTERNOON TELEGRAMS

From Despatches to the Review.

CABLE.

ARRESTED FOR STEALING.

VIENNA, Sept. 7.—The police searched several more houses in connection with the recent discovery of stolen property at the homes of members of the Radical Workingmen's Society, and arrested twenty-six persons, including Most, a brother of the editor of the London Freiheit.

A SECRET TREATY.

LONDON, Sept. 7.—A despatch from Paris says that the rumour that England, with the assent of Russia, has signed a secret treaty with Turkey relative to the ultimate organization of Egypt, gains ground.

ACCIDENTAL DEATH.

LIMERICK, Sept. 7.—The jury in the case of the man killed by the fall of a parapet of a house adjoining Mr. Clifford. Lloyd's office, returned a verdict of accidental death. There was no evidence of any attempt to blow up or injure the building occupied by Mr. Lloyd.

AMERICAN.

INDIAN TROUBLES.

WASHINGTON, Sept. 7.—The Secretary of the Interior does not credit the report of the outbreak of Arapahoes and Cheyennes. Should it prove true, troops will be sent in pursuit immediately.

THE GREENBACKERS.

SAN FRANCISCO, Sept. 7.—The session of the Greenback convention yesterday was turbulent. On one occasion the members came near resorting to blows.

STAR ROUTE FRAUDS.

NEW YORK, Sept. 7.—A Washington despatch says that Judge Wylie has prepared his charge to the jury in the Star Route cases, and may deliver it to-day. In this event the case will go to the jury this afternoon.

ARRESTED FOR MURDER.

KENNESAW, N. Y., Sept. 7.—The widow of the murdered man Montfort, has been placed under arrest. Her brother, Charles Reynolds, was arrested at Bridgeport, Conn., yesterday. Blood stained papers were found in his pocket. He was seen in the neighborhood of Montfort's store on Monday morning. The blood stained shirt found under the bridge has been identified as belonging to Reynolds. It is said that \$300 was taken from the store at the time of the murder.

FAMILY TROUBLE.

CHICAGO, Sept. 7.—At the stock yards yesterday Samuel Williams kicked to death a man named Norman for alleged intimacy with Williams' wife.

GOVERNOR SPRAGUE'S TROUBLES.

PROVIDENCE, Sept. 7.—F. D. M. Eldon filed a bill in the United States court against Chaffee, trustee, and Wm. Sprague, for the possession and title of Canochet.

VESSELS ASHORE.

CORPUS CHRISTI, TEXAS, Sept. 7.—Five vessels, it is reported, went ashore at Aransas Pass last night in a hurricane.

POLICEMEN ON TRIAL.

NEW YORK, Sept. 7.—A hundred policemen were on trial here yesterday for assaults on citizens and offences against discipline.

INDIAN LEGISLATURE.

LITTLE ROCK, Sept. 7.—The Chickasaw Indian Legislature met yesterday. Governor Overton was declared elected.

UNDER MARTIAL LAW.

HAVANA, Sept. 6.—A number of persons having been carried off for ransom in Puerto Rico and Santiago de Cuba, the Captain-General has proclaimed those provinces under martial law. It is reported that the Cuban insurgent Maceo has escaped from prison.

DISEASED CATTLE.

CHICAGO, Sept. 6.—It has been discovered that many cattle and hogs slaughtered here for shipment to New York are covered with festering sores. An investigation will be instituted.

MIDNIGHT TELEGRAMS

CABLE.

ANOTHER MURDER IN IRELAND.

DUBLIN, Sept. 6.—A man named Thomas Quinn was shot dead to-day while driving on the highway near Athlone.

THE DUBLIN POLICE.

DUBLIN, Sept. 6.—All the dismissed constables were summoned to the Castle to-day. Over two hundred attended, when they were interrogated as to whether they had been present at any meetings and informed that their cases would be considered. The services of the special constables have been dispensed with.

THE KURDISH FIREBRAND.

CONSTANTINOPLE, Sept. 6.—The Persian Minister at Constantinople has sent a fresh note to the Porte demanding the arrest of the Kurdish chief Obaidallah, whose tribe are committing hostilities on the Turco-Persian frontier. The Russian ambassador supports this note. Chief Obaidallah has submitted to the Sultan, and has been ordered to reside at Medina, in Arabia, where a pension will be allowed him.

FRENCH AFFAIRS.

PARIS, Sept. 6.—A number of persons belonging to the League of Patriots, last evening assaulted Major, manager of the Lanterne newspaper. The affair is connected with the recent anti-German demonstrations by the League.

THE JEWS IN RUSSIA.

ST. PETERSBURG, Sept. 6.—The recent speech of General Drentin, Governor of Kiev, accusing the Jews of slander in asserting that the authorities connived at the anti-Semitic disorders, and advising them to give the country a little of the inordinate love they lavish on money, has caused a sensation. General Drentin pointed out that many Jews had been obliged to return from America, and were starving in Palestine. They were better in Russia than anywhere else they only knew it.

TURKEY AND GREECE.

ATHENS, Sept. 6.—The Turks propose to compromise the frontier difficulty by offering to cede three disputed places to Greece if the latter will cede to Turkey the remaining two. Greece refuses to make any concession, and will mobilize her army if the negotiations fail. A force of four thousand men is held in readiness to join the troops concentrated on the frontier.

THE WAR IN THE EAST.

REMOVAL OF A SECRET AGREEMENT BETWEEN TURKEY AND ENGLAND.

The Enemy's Outposts Driven Back—General Wolseley to go to the Front—Arab's Large Army—A Conspiracy to Assassinate Europeans and the Khedive.

FIRING BETWEEN THE OUTPOSTS.

ISMAILIA, Sept. 6.—Brick firing is proceeding between the outposts to-day.

THE ENEMY'S OUTPOSTS DRIVEN IN.

ISMAILIA, Sept. 6.—The British outposts were strongly reinforced to-day, and drove the enemy back. Lieutenant Holland, of the 18th Hussars, was wounded.

INFORMATION NOT OBTAINABLE.

LONDON, Sept. 6.—The absence of reliable information as to the strength and whereabouts of Arab's forces in the principal obstacle to Gen. Wolseley's advance. All efforts to obtain such information have failed. Not the slightest reliance can be placed upon the statements of the natives, and British spies are instantly detected. Arab, however, manages to keep himself well advised of the movements of the British troops, and every movement is promptly met. The few deserters to the British lines have been driven from Arab's camp as physically unfit for military service. Private advice states that in Egypt there is not the slightest credit to be placed in statements either of any alleged desertions from Arab's ranks or of any alleged betrayal of Arab's plans.

THE ENEMY RECONNOITRING.

LONDON, Sept. 6.—Gen. Wolseley telegraphs that the enemy reconnoitred the English position at Kassasin lake to-day with cavalry. They had no guns, and only musketry fire was exchanged.

A MULE TRAIN ATTACKED.

PORT SAID, Sept. 6.—An English train of 200 mules was attacked near Ramessis to-day by Bedouins, whom the escort repulsed.

POISONING THE CANAL.

PORT SAID, Sept. 6.—The Arabs have thrown the carcasses of horses and other foul matter in the Ismailia canal, and it is feared the water will become unfit for drinking.

INDIAN REGIMENT ARRIVED.

ISMAILIA, Sept. 6.—Another regiment has arrived from Bombay. The men will be kept on board ship for the present. It is estimated that the railway is now capable of carrying 200 tons of stores daily to the front.

THE TURKISH TROOPS.

LONDON, Sept. 6.—A Turkish force of 2,800 men left Suda Bay for Port Said to-day. General Wolseley proposes to direct the Turkish expedition to Kassasin to operate against the entrenched camp of the enemy at Salih yeh.

CONSPIRACY AT ALEXANDRIA.

ATHENS, Sept. 6.—The Greek consul at Alexandria informs the Greek Prime Minister that the object of the conspiracy discovered there was to massacre the Khedive and the Christians and attack the forts. Pasha was the only Greek implicated. He was appointed consular agent at Hout in 1878, but was never installed.

ARAB'S STRENGTH.

A correspondent of the News at Alexandria obtained from a most reliable source the actual strength of Arab's army. The total—infantry, 44,000; cavalry, 12,000; guns, 143; and Bedouins, 30,500. An Arab was caught at Ramleh this morning striking a gun.

THE OUTPOST AFFAIR.

LONDON, Sept. 7.—A Kassasin correspondent says that the Egyptians lost in the outpost affair yesterday was heavy, considering the brief duration of the skirmish. Six corpses were found close together. This was by far the most determined demonstration by the enemy since the fight at Kassasin and indicates the near approach of a decisive conflict. All the British cavalry with Generals Lowe and Wilkinson, are now here. General Wolseley will proceed to the front on Saturday.

ESCAPED AND CAPTURED.

PARIS, Sept. 7.—Radegonde Castillo and Macedo, Cuban leaders, lately escaped from prison at Cadix and reached Gibraltar with the view of going to America. The British police, notwithstanding their protestations, surrendered them to the Spanish authorities. The two were returned to prison, and Macedo will be sent to the gallows.

MURDERERS EXECUTED.

ALEXANDRIA, Sept. 7.—The murderers of some Englishmen were executed by a detachment of English soldiers, who formed a square around the gallows. Several hundred Europeans witnessed the execution. A few natives were present. When the troops withdrew the Arabs came out in large numbers.

THE MILITARY CONVENTION.

CONSTANTINOPLE, Sept. 6.—After a conference of three hours between Lord Dufferin and Said Pasha, to-day, the Turkish military convention was informally signed.

THE INDEMNITY QUESTION.

ALEXANDRIA, Sept. 6.—The council of Ministers is now engaged with the question of indemnifying the inhabitants for the losses sustained by incendiary and pillage. It is almost certain that the Ministry will propose that the powers appoint an international commission to settle the claims, the decision of the commission to be final.

THE NILE RISING.

ALEXANDRIA, Sept. 6.—The Nile has risen very high, and it is reported that part of the enemy's position at Kafr-el-Dwar is flooded.

"TWENTY-FOUR YEARS' EXPERIENCE."

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Food, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

A. L. DAVIS & CO.

Daily Evening Review

THURSDAY, SEPTEMBER 7, 1882.

A DISHONEST PROGRAMME.

The Ottawa Free Press, the "Reform" organ at the Dominion Capital, says:—

We agree with the Belleville Ontario that it would be but reasonable, as the Conservative party made use of every wicked device within their reach to disfranchise the Liberals of Ontario. Mr. Mowat should fight them with their own weapons. He should gerrymander the constituencies, appoint his own partisans returning officers, and make every person and office under him instruments to avert the calamity of a government under New Dominion being set up in Ontario. What the Liberals want is a man who can win battles, and as Sir John and this organ have inaugurated a *la outrance*, by all means give him a taste of his own tactics. It will be delightful then to read Conservative comments on the gerrymander, a dishonest election law, partisan returns, and the Civil Service as a political engine!"

The injudicious nature of this advice to Mr. Mowat to endeavour to retain himself in power by fraudulently misrepresenting the will of the people, is only equalled by the baseness of the pretence that in so doing he would be following the example of Sir John Macdonald. The truth is that Mr. Mowat has already committed all these offences, with which the conservatives are falsely charged. Mr. Mowat in 1875 gerrymandered the constituencies, adding unnecessarily and at great expense to the number of members, and disarranging over thirty constituencies to serve the cause of his party, while Sir John Macdonald, being legally compelled to provide new seats for additional Ontario members after the census, took the opportunity largely to equalize the population. Mr. Mowat has already his own appointees as returning officers, and some of them so grossly partisan, that it was necessary for Sir John to obtain power to appoint others in lieu of those who proved themselves to be mere electioneering agents, though where, as in this county, the officials, though appointed by Mr. Mowat, were too honest to prostitute their position to serve their party, they were appointed by Sir John as returning officers. Mr. Mowat has already made use of the public servants of the Province as partisan agents, taking from the local authorities their right of appointing them, for this very purpose, so we do not see how he can do much more in this line, unless indeed he adopts the other nefarious policy of advice given him by the *Free Press* and usurps the power of appointing partisan school teachers. As to the bugbear of *New Dominion*, it would certainly be preferable to domination by the *Rangers* with their Mr. Mowat, Mr. Casgrain, the Montreal *Heard*, &c., urging a raid upon the Dominion treasury, and their Mr. Laurier advocating the ratification of the Boundary award, because it does not give us our rights, which he fears a competent court might allow.

In this disgraceful article the *Free Press* is however right in one point, when it says, "that the Liberals want a man who can win battles." That is certainly what they "want" in both senses of the word, and what they are likely to want for some time to come unless they mend their ways.

MR. MOWAT'S DISALLOWANCE.

The St. Thomas Times shows in the following scoldish manner that Mr. Mowat has no objection to disallowing local legislation, when it is in the shape of a municipal decision carried by an overwhelming majority of the freeholders of a city. Mr. Mowat disallows disallowance, but he disallows municipal self-government still more. The Times says:—

"While Mr. Mowat is howling about 'disallowance' and seeking to excite his followers to rebellion on this head, we wonder if he is ever moved by remorse at the recollection of the disallowance practised by him upon the Corporation of St. Thomas with reference to the Frontage Tax Bill carried by an overwhelming majority by the freeholders of this city in January last and presented to the Legislature for ratification last session. It was thrown out by Mr. Mowat, who thought the people of this city incapable of judging for themselves what legislation they required for the amelioration of the evils under which they suffer, while, with singular irony, the *Albion*, a short time previously, had announced that St. Thomas would be the first city in Canada to adopt the frontage tax system in entirety. It is to be hoped, for his own sake, that Mr. Mowat will not bring on the elections late in the fall when the citizens of St. Thomas, wading through the mud and mire of their unenforced streets, may be tempted to pick up some of the mud and fling it at the *Free Press*."

Tex prescription of a skillful physician, and composed of vegetable drugs of great remedial power. Dr. Carson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

"A MENDACIOUS CORRESPONDENT."

Under the heading of "Resident Correspondent" in the *Edinburgh Scotsman* justly censures a correspondent of the *Edinburgh Scotsman*. It will be observed that the "mendacious correspondent" of the *Scotsman* tells precisely the same falsehoods as the mendacious editor of the *Toronto Globe*. The *Globe* correspondent, more truthful than the *Scotsman* editor, writes as follows:—

A correspondent of the *Edinburgh Scotsman* is doing a course of letters from this place which are calculated to do the country great injury, owing to the judicious mixture of truth with falsehood and misrepresentation. He tries to make out that land is not to be had except by purchasing from squatters, whose claims are steady. The enormous rush, he says, has forced settlement far ahead of survey. I am quite free to admit that settlement has, along the projected line of the railway, kept ahead of the survey, but a few miles back of the line there is any amount of good land waiting for settlers. The trouble is that settlers all want to be on the line of the railway and within a township of a town site. It is manifest that everybody cannot secure such eligible locations—those who do not are the persons who grumble."

NOTE MOWATMAN.

From our own Correspondent.

Council Meeting.—The council met pursuant to a call of the Reeve, at 10 a.m. on August 31st, at the Council Chamber, Centreville. Present—the Reeve, Mr. Rutherford, Councilmen Lightfoot, Davison, Riddell and Perrin. The Reeve in the chair. The minutes of the last regular meeting and Court of Revision were read, and on motion of Mr. Perrin, seconded by Mr. Lightfoot, were confirmed.

COMMUNICATIONS.

A communication was received from the County Clerk enclosing the county rates for current year as follows:—

For county rate, \$441.00

The trustees of the different school sections throughout the municipality handed in their applications, requesting the council to levy their local school rates for 1882.

The following accounts were received and laid on the table:—

Wm. Rutherford, for plank	\$1.20
J. H. Stratton, for plank	11.75
A. E. Hayer, for plank	3.00
Wm. Rutherford, provisions for S. Bonar	4.00
Joseph Wood, for gravel	4.00
Andrew Fennell, for gravel	4.00
James Perrin, for gravel	2.25
H. Davison, for gravel	2.25
John Macdonald, for gravel	2.25
M. Macdonald, gravel for W. Boundary	1.25

REPORTS OF COMMITTEES.

The committee to whom were referred the letting of the contracts for cutting down a portion of Clark's hill, and for graveling a part of the road on 3rd concession, reported that they were only successful in letting one of the contracts by cutting down Clark's hill. David Higgins and Alexander Kriska were the contractors and the price paid per cord for cutting down the hill and removing the clay to the swamp was twenty four cents. The work was done to the satisfaction of the committee and immediate payment was recommended.

(Signed) Wm. RUTHERFORD, JOHN RIDDELL.

The committee appointed last meeting to advertise and sell the timber on the 5th concession, and between lots 4 and 5 on 4th concession, and to let the contract for graveling on 4th concession, reported as follows:—Your committee appointed last meeting to sell the timber on the 5th concession, and between lots 4 and 5 on the 4th concession, but were to report that they duly advertised the sale of timber, and on the day of sale were unable to procure any offer for the same, and in consequence it remains unsold. Your committee also beg leave to report that the contracts for graveling on 4th concession were duly let to Emerson and Goodfellow, and the same paid not exceeding the amount appropriated by the council for said road. The prices paid per yard were twenty-six and forty cents respectively.

(Signed) Wm. RUTHERFORD, JOHN RIDDELL.

Moved by Mr. Riddell, seconded by Mr. Perrin.—That the foregoing committee reports be received and carried. Carried. Mr. Riddell introduced a by-law to levy the rates for the year 1882. The by-law went through the different stages the general rate being fixed at 2 mills on the dollar. Mr. Davison introduced a by-law to levy certain local school rates for the current year. The by-law was read a 1st, 2nd and 3rd time and was finally passed, signed and sealed. The accounts were then taken up. Moved by Mr. Riddell, seconded by Mr. Perrin.—That the accounts now on the table be paid and that orders be drawn on the treasurer for the payment thereof, viz:—

Wm. Rutherford	\$4.00
J. H. Stratton	11.75
A. E. Hayer	3.00
Wm. Rutherford	4.00
Joseph Wood	4.00
Andrew Fennell	4.00
James Perrin	2.25
H. Davison	2.25
John Macdonald	2.25
M. Macdonald	1.25

Carried.

Moved by Mr. Riddell, seconded by Mr. Perrin.—That the sum of two dollars be allowed Mr. Emerson for cutting the gravel pit on parcel 1 of lots 5, 6, 7, Con. 4.—Carried. Moved by Mr. Perrin, seconded by Mr. Lightfoot, that a sum of money be granted, sufficient to repair the culvert on third concession at Robert Lippert's gate and to terrapin and gravel the road out of said bridge to the top of the hill. Carried. Moved by Mr. Davison, that this council do now adjourn subject to a call of the Reeve.—Carried.

True Demonstration of Friendship.

It is seldom that we hear of such an exhibition of loving regard and friendship as we are about to record. Some time ago a young girl from Gananoque left her home to seek work, and found it in an establishment in Watertown. Here in time she was taken very ill. Two young friends waited upon her until death closed her eyelids. The body was confined by them, but no man could be found to convey it to the dead one's late home. Driven to the last extremity, they took it to the station themselves, brought it by boat to Kingston, and went with it down the river to Gananoque, via steamer Princess Louise. They did not leave the remains on the dock, but securing a team, had them conveyed to the deceased mother's home; afterwards they saw them decently interred. Then they left for home, having performed a duty that few would have thought of undertaking. The girls, we are told, not only showed how they valued their friend by kind attentions after death, but looked all the expense in connection with the removal and burial of the body. All honor to them. Could we secure their names we would gladly publish them.—*Kingston Whig*.

Stearns' Acid Phosphate. In stock here in great value. Its action on the system of the disturbed stomach is soothing and effective.

JACOBSON'S OIL

GERMAN REMEDY.

THE LAND REGULATIONS.

The Dominion land regulations are much more liberal than those of the United States. The settlement duties are more onerous and the fees higher, against the line. Second homestead is not allowed. In our Northwest, the settler obtained full possession of his homestead at the end of three years; in the States, five years must elapse from the date of entry. The American regulations are so framed that speculative squatting, the curse of this country, is practically impossible. Thus the settler is compelled to swear that he enters upon the land not for the purpose of speculation, nor directly or indirectly for the use or benefit of any other person or persons; but that he intends to hold and cultivate the land for a continuous term of five years and to fulfil the prescribed settlement duties, and that the homestead is for his own exclusive use and benefit. And in making final proof at the end of the five years, he must swear that no part of the land has been alienated except for church, cemetery, school or railway purposes. If it is found that the settler has in any manner abused the confidence of the Government, his homestead with his improvements reverts to the public domain.

When dishonest squatters come to grief in the Canadian Northwest, kind-hearted sympathizers, like the *Toronto Globe*, warmly warn the Dominion Government that the injured innocents will be compelled to seek homes across the line. By all means let them go. The Canadian regulations are so liberal that the man who abuses them and robs the Government, either in his own interest or in behalf of some "boss" speculator who employs him, deserves no consideration here as he will receive none there. The department of the interior cannot do better than copy the oath administered in the United States. It would not alarm the honest settler, while it would bring the dishonest one within the bonds of the law. Whatever action it may see fit to take, the department should not relinquish its exertions until the nefarious business is stamped out. The speculative squatter is the worst enemy of the country. He retards the settlement, deprives honest settlers and immigrants of their just rights, and brings odium upon the Northwest.—*Winnipeg Times*.

MACFARLANE WILSON.

A FOOL AND HIS MONEY.

Placed One of them on an 80-Mythical Confidence Game.

The fools are not all dead yet is certainly true if the story that James Doyle told the detectives yesterday can be relied on. On the register of the St. James' hotel last night appears the following name: "James Doyle, Middlesex." The man is apparently about 50 years of age, and he has the appearance of being a farmer. He was brought to the hotel early in the morning by a detective. His story is that he fell in with a stranger yesterday morning, and they did considerable drinking together, or at least Doyle did the drinking and the stranger kept his head level. About noon the two men got on a Great Western railway train at the Union station with the ostensible purpose of going to London. They were sitting in a seat together, when a third man entered the car and said to Doyle: "new-found acquaintance: 'If you don't pay for that baggage I will throw it off.' He protested that he had nothing but a check for \$1900. Would Mr. Doyle oblige him with \$500 until the check was cashed, which he could keep as a security. Although this is a shrewd and oft-played confidence game, Doyle said he advanced the stranger \$750 in hard cash, for which he got a worthless check, purporting to have been drawn by a certain Morgan & Co. The stranger hastily disappeared with their booty. This is Doyle's story. There was another color put on the matter when it was stated that the man had lost the money by gambling, but there seems to be a certainty that he lost it. —Toronto World.

Making Better Hapings.

Man is the only animal that can be taught to sleep quietly on an empty stomach. The brute creation resent all efforts to coax them to such a violation of the laws of nature. The lion roars in the forest until he has found his prey, and when he has devoured it he sleeps over until he needs another meal. The horse will paw all night in the stable, and the pig will squeal in the pen, refusing all rest and sleep until they are fed. The animals which chew the cud have their own provisions for a large meal just before dropping off to their nightly slumber. Man can train himself to the habit of sleeping without a preceding meal, but only after long years of practice. As he comes into the world nature is too strong for him, and he must be fed before he will sleep. A child's stomach is small, and when perfectly filled, it is no stomach at all, and sleep follows naturally and inevitably. An digestion goes on the stomach begins to empty. A single fold in it will make the little sleeper restless; two will wake it, and if it is hushed again to repose its nap is short, and three folds put an end to the slumber. Paregoric or other narcotic may stop its eyes again, but without either food or sleeping drug it will not sleep, no matter how healthy it may be. Not even an angel who learned the art of ministry in a celestial choir can sleep a baby to sleep on an empty stomach. We used the oft quoted "sleeping as sweetly as an infant," because this slumber of a child follows immediately after its stomach is completely filled with wholesome food. The sleep that comes to adults long hours after partaking of food, or when the stomach is nearly or quite empty, is not after an infantile repose. There is all the difference in the world between the sleep of refreshment and the sleep of exhaustion. To sleep with the blood that swirls the veins in the head during our busy hours must flow back, leaving a greatly diminished volume behind the brow that lately throbbled with such vehemence. To digest well the blood is needed at the stomach and near the fountain of life. It is a fact established beyond the possibility of contradiction that the process of sleep is digestion and that the process of digestion is conducive to refreshing sleep. It needs no argument to convince of this mutual relation. The drowsiness which always follows the well-ordered meal is itself a testimony of nature to this inter-dependence.

BOHEMIAN.

TOMATO PILAF.—Scald, peel and slice fresh, ripe tomatoes; place a layer of them in a porcelain-lined kettle, then sprinkle a layer of rice over that, and then another layer of tomatoes, and another of rice until there is as much as is wanted; cover the kettle closely; set it over a gentle fire or in the oven, and cook until the rice is perfectly tender, which will be in about one hour from the time it begins to boil. Serve as a side dish for dinner.

BAKED TOMATOES.—Select those of equal size, fresh and ripe; wash and cut out the hard centre; place them in an earthen pie dish; put a little butter in the core of each, and a little would for baked apples, and bake in a quick oven about one hour, or until tender. They are best placed on the oven-shelf first, and when half done transferred to the bottom to finish and reduce the juice. Grated cracker or bread crumbs can be sprinkled over them if liked. Well prepared, this is a most welcome addition to the table.

HALIBUT makes a very nice chowder. Procure a thick slice, remove the skin and cut it in squares about two inches across. Two pounds will be sufficient for a family of four or five. Slice six medium sized potatoes; put a heaping tablespoonful of butter into a stew pan, put in the potatoes, add cold water to cover them, salt it well, and cover closely. Boil fifteen minutes, lay in the fish and cover with split crackers. Boil gently fifteen minutes. Heat a pint of milk boiling hot, and pour in; mix a heaping teaspoonful of flour smooth with a little cold milk, and pour in around the sides; lift the stew pan or kettle and shake it well, to mix the thickening; it is better than to stir it. Return to the fire, let it boil up once and pour into a tureen. We make any fish chowder in this way never using pork, and I never tasted nicer chowders. Those who like can add what comes to pleasure, but we prefer them without. —Household.

The Effect of a Dog Bite.

A boy named Henry Arlovich, was brought to the Central Police yesterday by his parents, who complained that last Tuesday he had been bitten in the leg by a bulldog belonging to Mr. Quinn, saloon-keeper, doing business on the corner of Lagachetere and Bligny streets; since the occurrence, the boy has lost the use of both limbs, and is suffering great pain. The parents of the child wanted an order from the dog license department for the destruction of the animal. The request was granted, Mr. Quinn, being notified to put it to death instantly. —Montreal Post.

BAXTER'S MANDRAKE BITTERS never fail to cure Constipation and regulate the Bowels.

Mr. Wm. RANDOLPH, of South Norwick, says: For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, (J. C. Gentry Fish & Co., Ottawa), to try Dr. Carter's Bile Beans and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, &c. Sold by J. D. Tully, at 50 cents a bottle.

FROM ALL OVER.

VESSELS from Egypt, Malta and Cyprus are quarantined at Spanish ports.

INSURRECTION in Tunis has again broken out and the French position is threatened.

A PORTVILLE, Pa., minister has been arrested for breach of promise of marriage.

ONE dose of Baxter's Mandrake Bitters will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

PATENTS for car couplers are issued at the average rate of one every day in the United States.

FOURTY-EIGHT Swiss convents contain 546 nuns and 2,020 female inmates. The aggregate wealth is 25,000,000 francs.

It is said that the receipts of the Gloucestershire Fisheries will be \$1,000,000 in excess of last year. It sounds large.

SWISS, safe and effective, that old remedy, Down's Plaster, for the cure of Coughs and Colds.

A FRENCH authority reports a general abundance of crops throughout Europe and America. The French harvest will be slightly above the average.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

It is stated that the state coffers of Italy now contain 550,000,000 of lire held up toward the abolition of the forced paper currency.

Dr. SMITH'S Great German Worm Remedy is an agreeable to the palate of the child as the most delicious confection.

Dr. PALMER, county attorney of Taylor Co., Louisville, Ky., strongly recommends St. Jacobs Oil for rheumatism. He personally experienced its benefits.

Dr. STANLEY calculates that the greatest annual yield of all the coal mines of the world would suffice to keep up the fire of the sun, at its present intensity of light and heat, for about the forty millionth part of a second.

VICTOR HUGO is rapidly declining physically and mentally. There is now a constant silent struggle between the sighs which would push the old man to write, and the family circle which endeavor to restrain his lyric overflow.

Gov. CAMERON of Virginia has refused to commute the sentence of death passed upon a colored girl of fourteen, who poisoned two persons by putting arsenic in their coffee, and a lad of twelve in St. Louis county, Missouri, who killed his father, has been found guilty of murder in the first degree, and nothing but the governor's interference can save him.

The most wonderful sensitive remedy of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhoea, weakness and all diseases resulting from self-abuse, nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

Personal To Men Only.

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Loss of Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. No risk is incurred, as thirty days' trial is allowed.

Religious Wars.

The Egyptian embroglio has developed this fact, that a religious war is not so much to be feared as people had come to conclude. The Indian contingent has reached the scene of operations and no doubt will be found as loyal as could be expected. In a few days we shall probably see Mohammedans fighting against Mohammedans, a spectacle which many people looked upon as being all but out of the bounds of probability. Religious fanaticism, which requires to be pumped up, as Arab's skulls are pumping it up now, cannot be either very deep or very lasting. —Toronto Telegram.

Daily Evening Review

SATURDAY, SEPTEMBER 9, 1882.

DISLOYAL AND FACTIOUS.

MR. MOWAT and his advocates are screaming that the Conservatives are forfeiting the national honor by repudiating the boundary award. Though it is pointed out that the arbitrators did not obey their instructions but exceeded their powers, and that their very appointment was irregular and a usurpation of the rights of the legislature, this has no weight with these critics. Because Mr. Mowat and Mr. Mackenzie with their respective colleagues made this little arrangement without authority, the honor of Canada, forsooth, is implicated in carrying it out. We can assure these gentlemen that the honor of Canada is not in their hands.

Does Mr. Mowat when raving or encouraging the ravings of others about the iniquity of repudiating an award, ever allow his memory to go back to an episode in our history, with which he was very familiar a quarter of a century since? Perhaps as it is so long ago he has forgotten that then a disputed question between Upper and Lower Canada was submitted to arbitration, not by a stretch of the prerogative, but by a solemn address to the sovereign, in accordance with a deliberate vote of Parliament? Perhaps he has forgotten that the arbitrator thus chosen by each undoubted authority was no less a person than Her Majesty Queen Victoria. Can it have slipped his memory that our sovereign, when thus invoked, decided that Ottawa should be our capital, a decision which though assailed at the time for factious motives, is now acknowledged to have been a wise one? Does Mr. Mowat forget that in his very first session he voted for a motion repudiating the decision of Her Majesty, and the action thus taken by the Canadian Ministry and Parliament? Can he dismiss from his mind the recollection that having carried this insult to our sovereign and our legislature by a factious combination with those who continued to support the claims of their own sections, he took office, for the first time, on the question of repudiating the Queen's award and the previous decision of Parliament, though in a minority on every other question.

Fancy a man who assumed office as the result of the repudiation of a solemn award, though in so doing he had to insult both the sovereign and the legislature of his country, now vituperating those who decline to recognize the validity of an irregular and unjust award made by arbitrators appointed by a stretch of the prerogative in contempt of the legal authority of Parliament.

As in the past Mr. Mowat sacrificed his loyalty and his regard for the honour of his country pledged by its parliament, and revived all the bitterness of a sectional contention in order that he might attain power, so now he is sacrificing the interests of his province by upholding an irregular award, that refuses full justice to Ontario, and is again stirring up sectional animosities and jealousies, while declining a speedy, authoritative and impartial settlement by a competent court, which would probably give us more than the award, in order that, by making political capital he may retain office. And yet he has the effrontery to condemn those who claim our rights at the hands of the highest court of the realm. Out upon such a combination of disloyalty, hypocrisy and factiousness.

EDITORIAL NOTES.

So now the Mowat administration is threatening our local constables with dismissal if they do not carry out Mr. Crooks' liquor law. It is true that they do this under the law, but it is precisely because they make laws by which they usurp our right of managing our own local affairs that we object to their centralizing policy. Fancy Mr. Mowat dismissing one of our town constables, whom we pay, because he does not do the work for which Mr. Mowat makes us also pay the license inspector appointed by him at our cost.

The supporters of Mr. Mowat persist in shouting, to keep up their courage, that the Conservatives cannot form a Government for the province because they have not material in the Legislature out of which to construct a cabinet. Even if this were admitted, what has that to do with the next legislature. Even if Mr. Meredith were not far above Mr. Mowat, or if he failed to secure a seat in the next House, the choice of a leader or of his colleagues would not be restricted to members. Why, Mr. Mowat himself jumped down from the Bench to head the present crusade against municipal government. He had no seat then.

The Independent Winnipeg Sun, after considering various Toronto World reports about the proposed North-West land to the explanation of the matter thus summarized the matter:—

"The truth is that nearly all the land which our contemporary supposes to be 'locked up' is offered to settlers on a merely nominal price, and on the easiest terms."

The Galt Reporter, commenting upon information that the proposed general old Reformers, prominent gentlemen in the political world, are about to oppose Mr. Mowat's Government at the next Provincial election, says:—

"The fact is assigned is that they have become satisfied that the whole aim of the Government is to take power out of the hands of the people and concentrate it in themselves, and by a system of patronage to compel support where they otherwise would not obtain it."

The Globe of Sept. 8th, in an article on the "Results of confederation" says of Ontario:—

"Her local administration has been practically liberal and unconfessedly it has been accomplished, for Mr. John Sandfield Macdonald was a Liberal at heart."

Yet the Globe and its friends hounded Mr. John Sandfield Macdonald to his death. Mr. Blake entered into conspiracy with a treacherous colleague and a purchased speaker to supplant him, and Mr. Mowat greedily succeeded to the heritage thus basely obtained.

WORKING AND NOT.

That undoubted authority Prof. Macoun, in his recently published work "Manitoba and the great North-west" does not support the absurd over-estimation made by the Globe and its satellites of the debatable territory. He says:—

"Kewadin is a tract of rough, broken country, lying between Ontario and the North-West Territories. Its southern boundary is the United States, and its northern the shores of Hudson's Bay. This region is but little known in its eastern part, but it may be characterized as a land of rocks, lakes, rivers, marshes and muskeg, with occasional islands, or small patches of good land intermixed."

POST OFFICE.

A TERRIBLE CHASE CALL.—The Times says that at noon on Tuesday one of the volunteers in uniform, from the country, attempted to jump on a train passing toward the station. His hand slipped and he fell between the cars, directly across the rails. His light flying coat prevented the wheel from catching the cloth, and he slipped along for some distance, every moment in danger of being cut in two. Several of his comrades, perceiving his extreme peril, rushed to his rescue and succeeded in freeing him without his being in the least injured. It is almost a miracle that he escaped a terrible death.

RELEVANCE.

INCENDIARY FIRE.—Two fires, both believed to be incendiary, occurred in the early hours on Thursday morning. The first broke out shortly after three o'clock in a stable in rear of Dr. Ouellet's residence, Hotel street, near Pimack, which was destroyed. Loss, \$50. While the engines were busy here, flames were discovered in one of Lake & Jackson's livery stables on the north-east corner of Aridge and Pimack streets, two blocks distant. The flames spread with such rapidity that these houses were burned, together with a large number of vehicles and the whole of the contents of the stables, which, together with the sheds, were totally destroyed. The dwelling was also damaged considerably, but the new Government building, which stands on the opposite corner, fortunately escaped so harm. The losses amounted to about \$4,000, of which about \$4,000 is insured. It is believed that both fires were started by the same person. Lake & Jackson's premises had been fired twice previously, about nine years ago and again last winter. A third and fourth incendiary attempt was made on Johnston's wood-yard, Pimack street. At about 1 a. m., the wife of Wm. Lank, employed in the wood-yard, saw two men enter the place, who went and gave an alarm, when the incendiaries ran away. Shortly after two o'clock she saw them again firing a wood pile in another part of the yard, and her husband caught the men, who wore long coats and hats slouched over their faces, but failed to overtake them. The fire was put out with a few pails of water. A number of partially burnt matches were picked up near by.

LINDSAY.

NAVENELY BURNED.—The Post says that during the time of the fire which destroyed the premises of Mr. Michael Pearson of Ore, his son, John Pearson, was severely burned. He had carried out a fanning mill and was in the act of carrying out the stove when a large portion of the burning wood fell on his arms and neck, burning him in a shocking manner. He now lies in a very critical condition.

A GENEROUS GIFT.—An event eminently pleasing to the congregation of the Baptist church took place after prayer meeting at the church on Wednesday evening. For some time past a debt of some \$1,500 has remained on the personage and lot on which it was built. Mr. George Matthews had a mortgage for the amount. On Wednesday evening after the service Mr. Matthews generously presented the church with the mortgage in full of all incumbrances. The members of the church were exceedingly gratified, and the following resolution was passed, having been moved by Mr. Mitchell:—"Whereas Brother Matthews has kindly handed over to the trustees of the Lindsay Baptist church the lease held by him of the personage and lot on which it stands as security for money which he paid for the same, thereby cancelling a debt of some \$1,500 owed him by the church. Be it therefore resolved, that we as a church tender to Brother Matthews our sincere and hearty thanks for this generous manifestation of Christian charity." A pleasant hour was then spent and refreshments served, followed by music and singing.

PAPER MILL.—The Warden says that the machinery of the Lindsay paper mill begins to arrive and in a few days at farthest the most of it will be here and placed in position immediately. A few days ago one of the latest improved steam pumps arrived capable of pumping water at the rate of 2,500 gallons per hour. It is an elegant piece of machinery. Everything is now ready for the running of the mill, which Mr. McKay is to bring with him from Brantford, Va., next week, when operation begins at once.

NEURALGIC ACID PHOSPHATE. In Nervous Debility. Dr. Edwin F. Voss, Portland, Me., says: "I have prescribed it for many of the various forms of nervous debility, and it has never failed to do good."

Weight and Yield of Eggs.

A correspondent of the Country Gentleman gives the standard yield and weight of eggs for the different varieties of domestic fowl as follows: They lay according to treatment and keeping, from 80 to 100 per annum, oftentimes more if kept well. Dark Brahmas 8 to the pound, and about 70 per annum. Black, white and buff cochin, 8 to the pound; 100 is a large yield per annum. Plymouth rocks 8 to the pound, lay 100 per annum. Houdans 8 to the pound, lay 150 per annum; non-sitters. La Fleche 7 to the pound, lay 130 per annum, non-sitters. Black Spanish 6 to the pound, lay 150 per annum. Dominiques, 9 to the pound, lay 130 per annum. Games 6 to the pound, lay 130 per annum. Crevecoeurs, 7 to the pound, lay 150 per annum. Leghorns, 9 to the pound, lay 150 per annum. Hamburgs, 9 to the pound, lay 170 per annum. Polish, 9 to the pound, lay 150 per annum. Bantams, 16 to the pound, lay 60 per annum. Turkeys' eggs 5 to the pound, lay from 30 to 60 per annum. Ducks' eggs vary greatly with different species, but from 5 to 6 to the pound, and from 14 to 20 per annum, according to the age and keeping. Geese, 4 to the pound, lay 20 per annum. Guineas' 11 to the pound, lay 60 per annum.

HAIR'S MANDRAKE BITTERS never fail to cure Constipation and regulate the Bowels. If Catarrh has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

A LITTLE SMITH, child of Patrick Smith, living at 96 Chevreuil street, Montreal, passed 11 large stomach worms, on Saturday last, with one dose of Dr. Smith's great German Worm Remedy. —Post.

SICK HEADACHE.—Mrs. J. C. Henderson, of Cleveland, Ohio, writes: "The use of two of Pierce's 'Pleasant Purgative Pills' to-day, for a few weeks, has entirely cured me of sick headache, from which I formerly suffered terribly, as often, on an average, as once in ten days." Of all druggists.

An elegant range of Scotch Tweed Suitings, suitable for Fall wear, just opened out at Habillment Hall.

MACFARLANE WILSON.

A MYSTERIOUS CASE.

A Body Recovered from the Canal.
VALLEYFIELD, Sept. 5.—This morning at 6.30 the body of Robert Alexander, of the 2nd Concession of St. Louis de Gonzague, was found floating in the canal opposite the store of G. W. Shuman. It was found to be fearfully cut up, how or by what means remains a mystery. There are three cuts on the head, one in the chest, one in the abdomen and one leg broken. It is supposed he fell in the canal and was drowned, and the crew of some passing steamer may have inflicted the severe wounds. The unfortunate man was last seen about 11 p. m. on Saturday, at which time he arrived from Beauharnois, and entering the Salaberry Hotel, informed the proprietor he was on his way to Michigan and would take the first chance of a boat passing west. He left the hotel immediately and it is the opinion of a few he may have attempted to board the propeller "Dominion," and in the dark walked into the canal. He had in his hand a carpet bag, of which no trace can be found. The more intelligent people of the place are very much surprised at the unsatisfactory way in which the Coroner conducted the inquest. Scarcely an effort has been made to find any evidence that would lead to the discovery of how the man met his death. It is remarked by a great many who saw the body that nothing but a sharp instrument would cut so clean, and the supposition that it was done by a propeller wheel is not believed by them. Two of the deceased's brothers arrived at 6 p. m. and took charge of the body.

How to Forecast the Weather.

Mr. A. J. DeVoe, of Hecksbeck, N. J., sends to the Farmers' Club of the American Institute, the following ten short rules by the use of which, it is said, one in any part of the Northern Hemisphere (north of latitude fifteen) can form an accurate opinion of how the wind and weather are progressing for a hundred miles around him.

1. When the temperature falls suddenly there is a storm brewing south of you.
2. When the temperature rises suddenly there is a storm forming north of you.
3. The wind always blows from a region of fair weather towards a region where a storm is forming.
4. Cirrus clouds always move from a region where a storm is in progress, towards a region of fair weather.
5. Cumulus clouds always move from a region of fair weather, towards a region where a storm is forming.
6. When cirrus clouds are moving rapidly from the north or south-west, they will be rain in less than twenty-four hours, no matter how cold it may be.
7. When cirrus clouds are moving rapidly from the south or south-west, there will be a cold rain storm on the morrow if it be summer, and if it be winter there will be a snow storm.
8. The wind blows in a circle around a storm, and when it blows from the north the barometer is out of its normal position, the barometer is low; from the east, the barometer is high; from the west, the barometer is low; from the south, the barometer is high.
9. The wind never blows unless rain or snow is falling within one thousand miles of you.
10. Whenever a heavy white frost occurs, a storm is forming within one thousand miles north or north-west of you.

RECOMMENDED RECIPES.

Always remove the yellow rind from lemons that are to be sliced and used as a garnish for cardines, salmon, etc.

When using the eggs of bantams for any of the recipes given in this column, use three of the eggs for each of two eggs.

Milk and nutmeg molasses out in slices, with pepper and salt scattered over them, make a good beginning at the breakfast table.

If you find that your clothes that you put aside for the summer are rusty, rub them over with a little kerosene. Apply it with a flannel cloth. This will prevent rust.

White kid shoes can be cleaned by dipping a perfectly clean white flannel cloth in a little ammonia, and then rubbing the cloth over a cake of white soap; after doing this rub the kid gently and thoroughly, and the soiled places will be white again. As the flannel becomes soiled change for a clean one.

If you have trouble get your last year's catnip bottles perfectly clean, after washing them thoroughly in soda and rinsing in clear water, chop a potato quite fine, mix it with a little warm water, put this in the bottle and shake it well; it will surely remove any foreign substance.

Curry vinegar is made by adding three ounces of curry powder to one quart of vinegar; let it stand in a covered earthen dish or jar near the fire for three days. This gives an excellent flavor to all kinds of our pickles. Remember, when using it, that a little goes a great way.

It is a good plan when baking new potatoes to turn them occasionally in the oven, as the skin is up this that there is danger of their burning on one side before they are done on the other. If they are very small, bake them in a dripping pan; if you do this you will not need to turn them, but give the pan a shake once in a while.

If vegetables that are to be pickled are put into cold salt and water, and are gradually brought to the boiling point, it is not necessary to let them lie the customary three days in cold salt and water. The right proportion to use is one-quarter of a pound of salt to one quart of water. It is sometimes a great convenience to be able to do up the pickles in one day.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

"Now Well and Strong."—Dr. R. V. Pierce, Buffalo, N.Y.: Dear Sir—I wish to state that my daughter, aged 18, was pronounced incurable and was fast falling as the doctors thought, with consumption. I obtained a half dozen bottles of your "Golden Medical Discovery" for her and she commenced improving at once, and is now well and strong. Very truly yours, Rev. Isaac N. Anguish. "Discovery" sold by druggists.

Just opened out, New Fall Scotch Tweed Suitings, Twilled and Fancy Worsted Coatings in all the new makes. Irish and West of England Serges at Habitment Hall.

The house in oil in the new Pennsylvania fields is likely to weaken. Salt water has succeeded the oil in several wells.

Mr. Adam Ruck of the Penna. R. R. Co., residing in Centerville, N. J., says: I was cured of severe rheumatism of many years standing by the use of St. Jacobs Oil.

The Mormon priesthood is straining every nerve to evade the Edmunds bill against polygamy. They have instructed their people how to act by means of private circulars.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

In the annual report of the British Commissioner-General, it is stated that the United States sent to Great Britain 3,000,000 newspapers and reading matter there 7,000,000 during the past fiscal year.

The prescription of a skillful physician, and compound of vegetable drugs of great remedial power, Dr. Carson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia, flat Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

JUDGE TACHÉREAU, of Montreal, yesterday decided that sales of stock or grain upon margin is really betting, and as money lost in gambling cannot be recovered, dissolved the suit which was to recover the amount of a dishonored cheque given in payment of a margin.

Young and middle-aged men, suffering from nervous debility and kindred affections, as loss of memory and hypochondria, should know three stamps for Part VII of World Dispensary Dispensary of pamphlets. Address World's Dispensary Medical Association, Buffalo, N.Y.

A Correspondent, writing home to his friends in Ontario thus describes the country of his adoption: "This is a great country. Its chief productions are wheat that can't be beat, potatoes that weigh a pound, muskatoes, half-centa, grubbers, blizzards and bachelors. If you can beat that in Ontario show up."

RECENTLY the manager of the Maskoka and Nipissing Navigation Co., received a letter containing a dollar, from some party in Maskoka, who did not give his name. The writer explained that about nine years ago he defrauded the purse of one of the boats out of his passage money, and that he wished now to return it in order to ease his troubled conscience. That man took a long time in making up his mind to bet on the square. —Maskoka Herald.

The most wonderful curative remedy of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Invigorator, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

Highway Robbery.
MONTREAL, Sept. 7.—A stranger from Paris, France, named Victor Eugene Hammett, was attacked late last night on Beaver Hall Hill by two men, one of whom placed a revolver at his head and the other rifled his pockets of \$85, besides taking two valuable rings off his fingers. The parties made off with the booty.

Removal of Brock Street, two doors East of Post Office. Good laundry. Examination of animals as to soundness and surgical operations, etc., performed in a private yard in connection.

Daily Evening Review

MONDAY, SEPTEMBER 11, 1882.

JUDGES BETWEEN THEM.

If Mr. Mousseron has really committed a great offense, why is it necessary to misrepresent what he says, every time he is censured for his recent speech. It would not be necessary to falsify his words if they were in themselves so heinous. The *Globe* now states that "Mr. Mousseron frankly tells us that the territorial spoliation of Ontario was the price, or part of the price, agreed to be paid by Sir John Macdonald for the presence of Mr. Mason and his friends in the Dominion Capital, and that on Sir John Macdonald's pleading himself to this spoliation of Ontario they entered his cabinet." The *Globe* well knows that it is uttering a deliberate falsehood—that it is plagiarizing words to Mr. Mousseron that he did not utter, but that matters little to a journal that has already shown that it does not hesitate to forge a paragraph in a public document if the same text does not suit it. It falsely attributes words to Mr. Mousseron that he did not utter, in hope that some of its readers may believe it, utterly regardless of the truth so long as it succeeds. Mr. Mousseron did not state that Sir John had consented to any such thing or that Mr. Mason entered the Cabinet on any such pledge from him. Neither did Mr. Mousseron admit that he asked for any territorial spoliation of Ontario. What Mr. Mousseron says he urged upon Mr. Mason was not that the territory of Ontario should not be extended beyond what the law—the British North America act, gives us—that is our rightful boundary. We agree and we believe that every honest man in Ontario, that is an immeasurable large majority of the population, agree with Mr. Mousseron in this. We want what the law gives us, we want no more, and we want no less. We have therefore two strong reasons for wishing to have an authoritative judicial settlement of the question. We wish in the first place to have the decision of a competent court, not an agreement between the Ontario Government and an Ontario Premier of the Dominion, which would leave a reason for other Provinces to complain and to claim a compensating extension. In the second place we wish to obtain, as we would from an impartial court, our full and just rights, a portion of which we believe that Mr. Mowat is wilfully sacrificing.

Which party in a dispute do men of common sense consider likely to be in the right,—the one that is willing to submit to the law, or the one that abuses the courts, and threatens violence. Sir John Macdonald and his friends appeal to the highest court of the realm; Mr. Mowat and his friends threaten invasion and rebellion. Is it hard to judge between them?

EDITORIAL NOTES.

When Mr. Mowat takes the advice of the *Ottawa Free Press* and appoints good Reformers as teachers in our public schools, perhaps these gentlemen will instruct us what is the meaning of "forthwith." Mr. Attorney General Mowat evidently believes it to mean over four months at least, or else he is deliberately breaking the law by withholding the writs for the vacant seats in the Ontario Legislature.

Mr. JOHN KERR, County Attorney of Northumberland and Durham, squarely contradicts in a letter to the *Cobourg Sentinel-Star* the serious accusations made against him by Mr. The Hon. Mr. Heenan in a letter reproduced from that paper. Mr. Heenan in a letter refused by the *Cobourg World*, but, published by the *Sentinel-Star*, as squarely maintains his charges and appeals to his record in the community as insuring belief in his word. It is to be hoped the matter will be thoroughly investigated, but the sneaking way in which the midnight protest against Mr. Guilford was made, thrown, as was of course intended, difficulties in the way of examining into the conduct of his opponents.

Electric Railways.

The development of electric railways in Europe is considerable. Putting aside numerous lines that are merely projected, those which are working show a length of about 100 miles. These now in operation include one at Lichterfeld, and that from the Spandauer Park to Charlottenburg, near Berlin; another from Port Beach to Beach Mills, in the north of Ireland, and in Holland from Zandvoort to Knivverloren. Among lines in construction the following are noted:—In Austria, the Mondfing line, near Vienna; in Germany, from Wiesbaden to Nuremberg, and from the Royal mines of Garmisch to Zankeneck; in England, under the Thames, connecting Charing Cross and Waterloo stations; also in South Wales, from which the line will be derived from a fall of water. In Italy, Turin and Milan will soon begin the construction of electric roads.

ONTARIO.

The Reformers have been quoting with approval some remarks of the *Windsor Sun* holding Macdonald and the Ontario opposition concerning Mr. Mowat and his party. The *Sun*, but they will hardly give publicity to its remarks, say:—

"One may well doubt whether the Liberals gained anything by raising the 'Ontario-roy' (how) in the late Dominion Campaign. Sir John Macdonald was disgusted by the 'Ontario-roy' and the 'Ontario-roy' was felt that its champions had a talent for making themselves ridiculous. The 'Ontario-roy' was not merely of- fensive to the Reformers, but to the entire Dominion, that feeling is the Dominion, which is infinitely strong- er than that of the political support. Ontario men, being loyal to the Dominion, themselves voted down those who proclaimed that the Union would not be worth preserving if Ontario could not get her alleged rights excepting by bringing her case before the courts, as can easily be done. If, at the coming Ontario election, the ministerial candidates ask support that they may set the power of the Provincial against those of the General Legislature, a sound beating that they should not otherwise deserve, will probably be administered to them. Canadian electors here, we think, too much sound common sense to back a Local Ministry which proposes to use force against the Federal authority, if a provincial agent cannot otherwise be gained. The Mowat Government have hitherto proposed to do exactly that or nothing. They refused to accept a new arbitration or a reference to the Privy Council; they have taken no steps to test in the courts Ontario's title in the disputed territory; they simply invite the Dominion Government to yield under threats of dire consequences. What are they going to do if Sir John keeps his ground? Fight? Ontario men surely don't think the province's claim worth the spilling of blood. Yet there would be nothing to do but fight, or do without the territory. If the Federal Government remained firm after another Mowat victory. An acceptance of a new arbitration, or an agreement to go before the Privy Council, would make the Provincial Government especially ridiculous if it refused to proceed to take a violent course. Perhaps the electors will not think it wise to give such encouragement in the circumstances."

CAMPBELLTON.

VICTIM OF FIRE.—A fire occurred here on Friday morning about three o'clock in the stables of Dr. Byam, which were consumed with a pair of fine horses, carriages, and harness. The St. Lawrence Hall stables, which contained four large bays, also a horse and buggy owned by Dr. McCrae, and the back stable owned by Mr. Gibb and occupied by T. Diney, of the Windsor Hotel, and a large and comfortable dwelling owned by Mr. Gibb and occupied by Dr. Byam, were also consumed. Mr. Gibb's insurance on stables and dwelling is about \$1,500; Dr. Byam's on furniture \$700.

CHURCH.

CRICKET MATCH.—The *Herald* says that on Thursday our club played their initial match with the Lakeside club on the ground of the latter. Our boys went in first, and the last wicket fell for 82 runs. Lakeside faced, the bowling of Williamson Bros. and the entire side was put out for 14 runs. They followed their innings and were more successful, partly owing to the laxity of the fielding, and ran up a score of 63 runs. Our local club winning the match by ten wickets and five runs to spare. It was a very pleasant game, and was witnessed by a large number of ladies and gentlemen, who made up the fielding.

VIOLENCE.—A black snake nearly seven feet long was killed in Mud Lake recently. It fought furiously, having the marks of its teeth on the skin with which it was despatched. A snake was killed in the house for some days. On driving down the hill to his residence the pole slipped through the neck-yoke and the horse became unmanageable. He jumped from the carriage and was thrown on the rough road which cut and scratched his face terribly. One of the horses had one of its legs broken and he is now, Arthur's many friends will be glad to hear of his recovery.

COBROUR.

REDECORATED.—The *Sentinel-Star* says that the Masonic Hall, the decorations of which were destroyed at the time the roof of Victoria Hall leaked, is to be redecorated. The work is in the hands of Mr. O. H. Kestenberg, who, no doubt will make a fine job of it.

IMMERSED.—At a late hour on Saturday night or early Sunday morning one of our citizens had a hard time battling with the water in the harbor. It appears that during his wanderings on one of the piers he lost his reckoning, and fell in, but was rescued by some people near at hand, and found to be none the worse for his sudden dunking.

TO BE EXHIBITED.—The Presbyterian Church on King Street is to receive a complete renovation. The gallery is to be so arranged as to give a clear view of the platform from every part; the pulpit will be removed, and a neat platform, with reading desk substituted; the heavy wooden front of the gallery is to be removed, and a light one put in its place; the windows are to be remodelled; the whole of the inside of the church redecorated and painted, and the seats cushioned in a uniform manner. The church, when completed, will present a greatly improved appearance, and the Rev. Mr. McCrae, the new pastor, is an energetic worker, and will soon fill it.

Drinking Water by the Highroad.

It has been carefully estimated that not far from fifty hogheads of mineral waters are drunk directly from the Saratoga Springs every twenty-four hours, of which amount the Hathorne springs probably supplies twenty hogheads, the Congress ten and the other springs the other twenty. The Hathorne has become the favorite resort. Around this thronged Bethesda, and under its ample pavilion, may be seen any morning the honored and honorable of the nation, the great men and the good men, both in church and state, sitting and sipping and admiring the sparkling beverage as it laughingly leaps up from its hidden sources, cool, fresh, beautiful and perfectly delicious. But the old Congress has probably done more to give a name to Saratoga, as a watering place than all others during about a century since its discovery. Scores of visitors drink more or less from the old Congress because it has been in years gone by the fashionable resort of their ancestors—their beloved fathers and grandfathers. —*Free Press.*

A NEW ANTI-ACADIAN SCHOOL.

Supporters of the Acadian Cause in Canada.

A Maine State Academician contemporary has come out with a new idea which, if it happens to be carried out, will cause the annexation of a large section of the present Maine of the State of Maine to Canada. There are a great many theories about the Acadians, but the proposal, however, is an indication what the feelings of the Acadians of Maine, who number some 40,000, are towards Canada. Our Acadian contemporary goes on to say that the Acadians are all Democrats and hold the balance of power in the State, and that the Republican party during late years has done everything in its power to destroy their influence, and moreover, that it went so far as to attempt to establish a Swedish colony to counterbalance their votes, which scheme utterly failed. Now our Acadians are in Canada to hint a little scheme of annexation to the Republican party in power at Washington, and the contemporary is positive that, with a small compensation, the northern part of Maine would be ceded to Canada with pleasure by the Republican party, who would thus rid themselves of a dangerous obstacle to their success. *La Minerve* of this morning seriously comments upon this new departure, saying: It is probable that the Republican party would be disposed to lend itself to such a combination, by consenting its own immediate interests, but now poses up a national question; the Democratic party perhaps would not be brought about so easily at making terms, and then again it is England and not Canada which would negotiate in the matter; all these are numerous obstacles. But in the abstract it would only be just and right, in theory, that this region, which is exclusively Canadian, Acadian and French, alienated from Canada by the stupidity of British diplomatists, should come back to us again. And as to the means, it would be necessary that the scheme should be pleasant to Uncle Jonathan, and not be offensive to John Bull. In the meantime, however, the idea will work and matters will go their way.

The World's Iron Trade.

A critical estimate of the annual iron product of the world shows the yield to be close upon nineteen and a half million tons a year. Statistics for the more important countries are obtainable as late as 1881. For the others it is assumed that the yield has not fallen off since the latest figures reported. Under "other countries," in the table below, are included Canada, Switzerland, and Mexico, each producing about 7,500 tons a year, and Norway, 4,000 tons a year.

	Year.	Gross Tons.
Great Britain	1881	8,877,384
United States	1881	4,145,284
Germany	1881	2,865,400
France	1881	1,899,438
Belgium	1881	622,358
Austria-Hungary	1880	448,085
Sweden	1880	399,628
Luxembourg	1881	389,712
Spain	1881	313,341
Italy	1879	75,000
Spain	1878	75,000
Turkey	—	66,000
Japan	1877	10,000
All other countries	—	46,000
Total	—	19,467,510

The first four countries produce 88.4 per cent of the world's iron supply; the first two 64.3 per cent; the first three 83 per cent. The chief consumer in the United States, 25 per cent; next Great Britain, 23 per cent; these two using more than half of all.

Barley.

I wish to say a word of favor for barley as a general article of food. As a regular breakfast dish, and it will be liked better than oatmeal by many persons—especially ladies and children. It takes a medium position between brain and muscle feeders, and supplies equally well both needs, while wheat is essentially a brain-feeder, and oats is largely a muscle-feeder. In ancient times barley was the staple cereal; the old Homeric heroes used mainly for bread fruit, and the Roman soldier received his ration in barley for intellectual work, wheat constituted the king of the cereals, but one might call barley the queen and artists will prefer it if they cleverly observe the effects. I believe the most effective way of combating alcoholic drinks will be the general use of cereals in undivided and undecomposed form as food; it has been proven in England in many cases that the taste for liquor entirely disappears when cereals in their entire substance as grists or unfermented bread form a regular component of the meals. Man has to educate and train himself into regaining the lost instinct for what constitutes his proper food, once obtained one is surprised how it was possible to feed only on the decomposed appearances of food instead of on their full realities.

Astronomical Signs.

Notwithstanding the comparative absence of hieroglyphics met with in English reading, there are yet a few, the true inwardness of which is seldom understood. We refer to the astronomical symbols that are found in every almanac. A tour through the country in the winter months will show an observer, the important position taken by the yellow-backed almanac among the parades of the farmer, an explanation of which is not to be found in any easily available text books on astronomy. Referring the curious to the almanac for the hieroglyphics themselves, the symbol of Mercury is derived from the caduceus, the serpent wreathed with a lance partly covered with a buckle, a becoming tribute to the god of war; Jupiter by his Grecian name; Saturn or Chronos (Time) by the proverbial sickle; while the figures of the earth and moon explain themselves without comment. These last occur on the Egyptian monuments, and are mentioned as far back as the second century. The others are not as old as the Arabian manuscripts, and were invented by the superstitious astrologers of the middle ages. A globe surmounted by a cross, the sign of the earth and its Christian nature, is a survival of the sixth century. Quite recent are the signs for Uranus and Neptune, the former a modification of the initial H, of Herschel, and the latter a trident the distinguishing emblem of the old man of the sea.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all summer complaints.

The prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Carson's Stomach and Constipation Pills purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion, and all other ailments of the stomach and bowels. Sold by J. D. Tully, at 50 cents a bottle.

CANADIAN LUMBER.

Michigan Lumbermen Asking for Protection.—The Demand Reconsidered.

CHICAGO, Sept. 9.—The lumbermen had a hearing before the Tariff Commission to-day. The Saginaw men and others had urged a duty of two dollars a thousand feet of lumber. Mr. Dean, of Chicago, a wholesale and retail dealer, took an opposite view. He could see no reason why a duty of two dollars a thousand feet should be paid on lumber from the neighboring Dominion; but he could see many reasons why there should be no such duty. The Saginaw men the other day had estimated their supply of lumber at only enough for ten years. If that were so, it was the part of prudence to draw from other sources. He himself was not in full sympathy with the idea that there was but ten years' supply of lumber on hand in Michigan, but still the supply was growing rapidly less. The "stumpage" men had formed combinations, and the effects was to "bull" the price of lumber, which had been advancing for the last two or three years out of proportion to former years. He had been in the business many years, and up to the time of the fire lumber had cost him an average of \$14.46 per thousand. The year after the fire the rebate which was allowed on iron, glass, etc., not having extended to lumber, it cost him \$16.90 per thousand, so that the lumbermen made a profit of over two dollars per thousand by the great fire. In 1873 it fell to \$12.73, in 1875 to \$11.78, and in 1876 to \$9. It remained at about the same figure from 1877 to 1879, but in 1880 a "little boom" started, the stumpage being confined to a small number of owners, and the average cost of the lumber in that year was \$11.02; in 1881, \$13.92, and in 1892, so far, between \$14 and \$15. That was the direction which things had been taking in consequence of the manipulation of stumpage. He could see no earthly reason why the American lumber interest should have any protection. Corn, pork and beans were what entered into the lumber business; Illinois produced them. As to the difference in the cost of labour he had no faith in it. He did not see why a fool across the imaginary line would work for \$15 a month when he could cross that line and get \$20 a month. He believed that the labour in Canada was as well paid as in the United States. Besides, the Canadians had to pay at least \$1 more a thousand for freight on lumber than the Michigan lumbermen. Another advantage which the Michigan men had was that they could utilize their slabs and sawdust. With these advantages on the side of the American lumbermen he could not see why they should be further protected by a duty of \$2 a thousand.

"The duty on Canadian lumber," as Mr. Dean insisted that a duty should be retained for the purpose of restricting the importation of Canadian lumber and of confining American buyers to the rapidly dwindling American supply. A more greedy, selfish and scandalous demand was never made. Europeans look with horror upon the recklessness with which we are using up our national inheritance, and wonder that there is not enough foresight in the country to adopt some measure for keeping a constant supply of forest timber. Our children will know what we have thrown away, and while the Canadian forests can yield us the product of all products that it is to our advantage to import as much of as we can, since many generations cannot reproduce the timber which one reckless generation can destroy, the men who profit for the time by this recklessness are allowed and encouraged to argue in behalf of a duty which insures that the denudation of our forests shall go on at a more breakneck pace than ever."

New York, Sept. 10.—To-day's World says:

"The Chicago, showed yesterday, is one of the greatest scandals of the whole tariff. The Michigan lumbermen had testified before the commission that the supply of Michigan lumber would be exhausted in ten years at the present rate of diminution, and they had at the time insisted that a duty should be retained for the purpose of restricting the importation of Canadian lumber and of confining American buyers to the rapidly dwindling American supply. A more greedy, selfish and scandalous demand was never made. Europeans look with horror upon the recklessness with which we are using up our national inheritance, and wonder that there is not enough foresight in the country to adopt some measure for keeping a constant supply of forest timber. Our children will know what we have thrown away, and while the Canadian forests can yield us the product of all products that it is to our advantage to import as much of as we can, since many generations cannot reproduce the timber which one reckless generation can destroy, the men who profit for the time by this recklessness are allowed and encouraged to argue in behalf of a duty which insures that the denudation of our forests shall go on at a more breakneck pace than ever."

Some, safe and effectual, that old remedy, Down's Elixir, for the cure of Coughs and Colds.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

THE WAR IN THE EAST.

ARRANGEMENTS FOR THE ATTACK BEING MADE BY GENERAL WOLSELEY.

Further Particulars of Saturday's Fight.—Same in the Fresh water Canal—Arabi Menaced by the Albany Land League—A Reconnoissance from Hamleh to Atchaf.

PASSA RESTRICTIONS.

LONDON, Sept. 12.—Correspondents in Egypt bitterly resent Gen. Wolseley's restrictions on the press, and condemn him for his slow progress by making it appear that he has but a contemptible enemy to fight.

A DENIAL FROM TRIPOLI.

LONDON, Sept. 11.—A despatch from Tripoli denies that Arabi forces have gone thence to Egypt.

SATURDAY'S ENGAGEMENT.

KARABAH, Sept. 11.—The prisoners report that the object of Saturday's operations was to capture Karasin, which the enemy believed would be weakly defended. The Egyptians lost was one hundred killed; the number of their wounded is unknown. The first attack came upon the British in the nature of a surprise. About five in the morning thirty Bengal Lancers, who were out to set vedettes, to their astonishment found themselves suddenly in the presence of three squadrons of the enemy's cavalry and a number of infantry advancing in regular attack formation. Col. Pennington dismounted his men and opened a galling fire. Three squadrons of cavalry advanced to surround him, and being hard pressed, he mounted his men and charged the nearest body of the enemy with such fury that he killed ten. Col. McNaughton then galloped back to camp, and soon the rest of the regiment, 400 strong, came to the rescue. They found a picket of Hunsars with mounted infantry already posted side by side with the gallant party.

PROPOSAL DECLINED.

CONSTANTINOPLE, Sept. 11.—The British and Foreign Secretary declines to accept the proposal of the Porte to land Turkish troops at Port Said.

THE ARABI ACTIVELY DRILLING.

ALEXANDRIA, Sept. 11.—General Wood yesterday reconnoitred the coast from Hamleh to Aboukir in a steam barge. One officer who deserted from Arabi, and who accompanied General Wood, asserts that the regiment at Mandara is prepared to desert at the earliest opportunity. The firing heard last week behind the enemy's position, and which caused the supposition that desertions had broken out in the camp, arose from the active drilling and firing practice of the new levies. Arabi has been at Tel-el-Kabir since the 25th of August.

THE SICK AND WOUNDED.

ISMAILIA, Sept. 11.—The British sick and wounded at Ismailia number 240 in hospitals ashore, and 201 aboard the hospital ship. The bulk of the English forces have arrived. The camp has the appearance of a tent city, three miles long and half a mile broad.

THE ADVANCE.

ISMAILIA, Sept. 11.—The army is ready to move, and will probably advance on Wednesday morning. Gen. Buller, who accompanied the cavalry, was in consultation with Gen. Lowe Saturday upon the expediency of the cavalry pushing forward to Zagazig, when Gen. Wolseley's forces arrived for the force to return to Karasin.

ARRANGING FOR THE ATTACK.

KARABAH, Sept. 12.—General Wolseley has left the camp to arrange for the attacks.

ARABI HONORED BY A LAND LEAGUE.

ALBANY, Sept. 12.—John Dallon at the Land League last night, elected Arabi Pasha an honorary member.

An elegant range of Scotch Tweed Suits, suitable for Fall wear, just opened out at Habilitation Hall.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

FIRE-PROOF JOISTS.

A Philadelphia paper notes the use of wood joists in the construction of a fire-proof building in that city, on Walnut street, above Fourth. It says that, strange as such a statement may appear, it is a matter of fact that many New England builders, content that the wood joists, encased in plaster, are proof against any ordinary fire, and for many reasons are much preferred by them to the ordinary regulation fire proof joists. The joists are "stripped" on the outside, and over these strips irons are run, and on these the plaster is spread. The theory is that in an ordinary fire these joists thus treated will be fire-proof, and only when the fire has reached such a fury that the building must go anyway will they be affected. Here comes in one of the advantages claimed for them. When a building is being burned by a furious fire the iron joists expand and crush out the walls and do other damage. The wood joists would simply be burned up without injuring the walls at all.

HALL'S Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

A Little Smith, child of Patrick Smith, living at 36 Cheneville street, Montreal, passed 11 large stomach worms, on Saturday last, with one dose of Dr. Smith's great German Worm Remedy.—Post.

This prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Casson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

AFTERNOON TELEGRAMS

From Despatches to the Review.

CABLE.

PRINCE BISMARCK ILL.

PARIS, Sept. 12.—It is rumored that Prince Bismarck is seriously ill.

AMERICAN.

TROUBLESOME APACHES.

ATCHESON, Sept. 12.—Advices say that the Apaches have been driven south of the Sierra Madre mountains.

SCARLET FEVER.

KINGSTON, N.Y., Sept. 12.—Scarlet fever is raging to an alarming extent in the highlands of this county. The town board of health has ordered the Sunday and public schools to be closed and have taken precautions.

A DISHONEST JURYMAN.

NEW YORK, Sept. 12.—The Herald's Washington despatch says that it is impossible to describe the feeling which exists against the foreman of the Star Route jury. In the beginning of the case several government counsel did not regard him as a safe man. Merrick, who has known him intimately for fifteen years, said he would stake his professional honor upon his honesty, and he was accordingly accepted by the government. For several weeks there have been stories that he would sell out the government, but his friends repelled with indignation all such reports, and he was the last man the prosecution would have suspected of being against the government.

THE STAR ROUTE JURY.

WASHINGTON, Sept. 12.—It is said that the jurors were approached by a man named Brown, and also that several jurors told Dickson that he was either a knave or a fool. He became greatly excited. The jurors who thought the defendants guilty made the statement to Dickson, which he repeated to other jurors. The Attorney-General was anxious to secure great reputation by convicting the accused. Kerr, counsel for the prosecution, denies that Dickson was ever approached by any man on behalf of the prosecution and says that the parties accused by Dickson are in Arizona on business and it will require two weeks to bring them to Washington.

LAWLESSNESS.

FAIRFAXVILLE, Ark., Sept. 12th.—Fateful lawlessness exists in the southern part of the county. Recently the United States Marshall and a posse were fired on while attempting arrests at the house of Jeff Gill, and two or three were wounded. On Friday night Jim Webb and two others passed an old man and two boys camping by the roadside. Webb deliberately shot the old man through the head. The Sheriff and two hundred men are scouring the country. The two men were arrested, but Webb has not been found.

A FEMALE THIEF.

SYRACUSE, Sept. 12.—Mary Dixon, a notorious sneak thief, has been sentenced to Onondaga penitentiary for twenty-one months. She robbed fifteen dwellings in two weeks.

THE EFFECTS OF ALCOHOL.

NEW YORK, Sept. 12.—Twenty-one men suffering from the effects of alcohol were in the cells of Bellevue Hospital yesterday.

PRESENTATION.

The following items copied from the Huron Signal may be of interest to many readers of the REVIEW, as the parties mentioned were at one time residents of Onondaga:—

MCCAMUS—JAMIESON.—On the 6th Sept., by the Rev. J. A. McCamus, brother of the bridegroom, at the residence of the bride's mother, Rev. D. U. McCamus, of Bethany, Toronto Conference, to KATE, youngest daughter of Mrs. Jamieson, Goderich, and sister of Rev. W. S. Jamieson, London Conference.

PRESENTATION TO MISS JAMIESON.

Miss Kate Jamieson, who for many years has been an active member of the North Street Methodist Church, was married on Wednesday last to Rev. D. U. McCamus, of Bethany. On Monday evening the members of the choir met at the residence of the leader, Mr. S. P. Hall, and presented Miss Jamieson with a handsome silver bouquet holder containing an exquisite bouquet, accompanied by the following address:—

DEAR MISS JAMIESON.—We, the members of the North Street Methodist Church choir, Goderich, on this eve of your departure from us to assume other relationships, and with them other duties and responsibilities, take this opportunity of expressing to you our high esteem for you in your own private character as well as in the more public walks of life. As a member of the choir you have always been to us a valuable aid, and we have admired that zeal, faithfulness to duty and ardent desire for the efficiency of the "service of song" so eminently displayed by you. By your wise counsel, unassuming manner and cheerfulness of disposition you have won an enviable place in our affections, and we feel that in your removal we are losing not only a warm friend but a faithful and efficient member of our choir. As a token of our high regard for you, we present to you this silver bouquet stand with its contents, and as you from time to time fill it with the choicest products of the floral world, our desire is that it may be to you a souvenir of the donors, and that the varied hues as well as the rich fragrance of its contents may bring prominently to your mind each of those with whom you have so often associated, in singing the praises of the Most High. Be assured that our best wishes shall follow you, and our ardent desire is that in your separation from us to enter upon other spheres of duty, your usefulness may be still more abundant, and that at the last we shall all be permitted to swell the grand chorus of the choir.

S. P. HALL, Leader.
K. ANDREWS, Organist.

Goderich, Sept. 6, 1892.
Miss Jamieson made a neat reply. Refreshments were served and the evening was spent in a most pleasant manner. On Tuesday Miss Jamieson was made the recipient of a touching address, accompanied by a pretty silver fruit dish by the teachers and officers of the Sunday school. She had been a teacher in that institution for six years, and a "visiting superintendent" for three years. The wedding presents were numerous and handsome, and the happy pair were accompanied to the railway station by a number of friends.

A. L. DAVIS & CO.

Daily Evening Review

TUESDAY, SEPTEMBER 12, 1882.

A WARNING.

The fire which recently destroyed the carriage factory of Mr. Tobias Fitzgerald with the neighbouring dwelling houses, should be looked upon as a warning by all reasonable men. Such a disaster may be repeated at any time and even upon a larger scale, if we do not exert our selves to take proper precautions. For a long time the Review pointed out the insufficient nature of our means of protection against fire, and the great facilities afforded by our position for the construction of an efficient system of waterworks at a comparatively small cost. It therefore urged the town to undertake the work as a municipal one, but as the opinion of our ratepayers seemed to be opposed to this on the score of the probable expense, we turned to their decision. Of course we rejoiced when a number of our private citizens, more enlightened than the town as a body, undertook the construction of an efficient system of waterworks, which they have now nearly completed. But to our surprise we found that some of our sapient councillors, at the instance of a few selfish opponents, envious of any more energetic and public spirited than themselves, now put all possible obstacles in the way of the company and refused to accept the boon thus offered to them. The only reason for this foolish and imprudent conduct, as far as we can ascertain, is that those who opposed public waterworks because they were sure to cause a heavy loss to the town, now have shifted their ground, and oppose the company because they are likely to make too much money out of them.

We certainly think there is a profit to be made, or we would not have advised the town to undertake the work. In fact we hope there will be a profit for these enterprising gentlemen, for they richly deserve it, but we do not care to see the town left exposed to a great risk rather than allow any money to go into the pockets of others, and we believe the sensible portion of the community agree with us. Even the few malcontents would be converted by one destructive conflagration.

SUPERSTICIOUS CONGRATULATION.

The *Fergus News Record*, a staunch Reform journal, in an article on the Ontario License system, after praising and defending it through a column of editorial makes the following damaging admission. It says:—

"There is one feature of the present system, however, which we consider objectionable. The public are not given sufficiently detailed information regarding what is done with the license monies. The ordinary tax payer is an inquisitive being, and he would like to know precisely where the license fees go to. It is generally understood that about one half of the money is handed back to the municipalities, and that the balance after meeting necessary expenses goes into the Provincial treasury. But there is a vague indefiniteness about this that is at least unsatisfactory if not suspicious. A detailed statement should be issued once a year showing the various amounts and by whom paid; also the amounts that go into the municipal and provincial treasuries, the salary, fee, paid to the inspector, and the amounts consumed by 'commissioners' expenses."

EDITORIAL NOTE.

The *London Advertiser* is now to be added to the list of so-called Reform papers that, like the *Ottawa Free Press*, the *Bellefleur Ontario*, and the *Kingston Free Press*, are advising Mr. Mowat to repeat his gerrymandering operations of 1874.

The *Montreal Gazette* says:—

"The *Globe* having failed by its attacks upon the Government for the Pacific Railway contracts and the Northwest land policy to deter emigrants from going into Manitoba and the territories, has adopted a new role, that of reproaching, with all the emphasis of editorial endorsement, letters from so-called disgraced settlers, abusing the country and warning people against going there. Even this, we hope, will fail to retard the progress of the country, which is so harrowing to the feelings of the Brit stalwarts."

At length the *Globe* has discovered that the N. F. does raise the price of grain. It says:—

"Prices have been, as a matter of fact, for the past few weeks, higher than they would have been if the old tariff had prevailed."

Our candid contemporary, however, denies that farmers obtained the benefit, which, according to it, fell only to the speculators and grain-dealers. Even if so, are grain dealers so utterly beyond the pale of humanity that we must grieve if they derive any benefit? But the *Globe* will not persuade our shrewd farmers, to believe that if grain dealers obtain better prices they will not give better prices to the grower. The competition among them is too keen, at all events in Peterborough, for the grain dealers to absorb the profit.

Mr. BLAIR has sent another letter in which he makes further charges against Mr. Blythe and his followers as to the party funds. Of course he is called by the "Reform" journals. It is a question of oats, and we cannot prevent our opponents from washing their dirty linen in public.

The Kingston *Whig* is to be added to the list of Reform journals in favor of gerrymandering. It says:—

"Mr. Mowat is at liberty to readjust two or three seats in order that according to the population, they may be properly represented in the Local House, but to change the boundaries of fifty or sixty constituencies for no other than a party purpose would not be a wise and patriotic proceeding. We opposed such work on principle, and still oppose it, the more so since we believe it to be unnecessary."

In spite of its opposition on principle we do not remember that the *Whig* censured Mr. Mowat when in 1874 he altered the boundaries of over thirty constituencies, added unnecessarily to the number of representatives, and did not readjust the seats so that according to their population they might be properly represented.

CROP REPORTS 1882.

Estimates of the Present Harvest Prepared by the Midland Railway.

We have received from Mr. A. White, the traffic manager of the Midland Railway, the following interesting crop report collected by that Company for 1882:—

LAKEFIELD.—Cereals over average of last year. Hay and clover better. Roots good. Prospects for fruit medium.

PETERBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

MIDLAND.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

VICTORIA HARBOR.—Fall wheat, 30 bushels per acre. Spring wheat, 25 bushels. Barley, 25 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

WATERLOO.—Area of land cleared very limited. Crops on that cultivated above the average.

COLDWATER.—Fall wheat, 22 bushels per acre. Spring wheat, 18 bushels. Barley, 25 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

OKEMIA.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

UNTHORP.—Fall wheat, 30 bushels per acre. Spring wheat, 25 bushels. Barley, 25 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SPRINGBROOK.—Fall wheat, 30 bushels per acre. Spring wheat, 25 bushels. Barley, 25 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

BRANDON.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

MARSHALL.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

LINDSAY.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

MARILLA.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

PORT FRANK.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

SCARBOROUGH.—Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 20 bushels. Oats, 40 bushels. Peas, 30 bushels. Rye, 25 bushels. Hay, 2 tons per acre. Clover, 2 tons. Quality all good. Roots, good average yield. Fruit, with exception of apples, short crop.

THE BRITISH FLAG INCIDENT.

The Trip-Color Planted on British Territory—A Cause Belligerent.

Dr. John's, M.D., Sept. 9.—Intelligence was received here last night of an outrage of almost unparalleled daring committed on British territory by the commander of a French naval coast-guard. Having dropped anchor off Jackson's Arm, situated on the north-west side of White Bay, he went on shore with a company of marines and posted the French tricolor on Cumberland stage. He erected two temporary monuments, one on each side of the arm, and the greatest indignation has been aroused by this unwarranted act. A portion of the British North American squadron, the 1st and 2nd Grenadier and Fusilier Regiments, have left for the north-west this morning, and Commander Fane will shortly have an opportunity of investigating and officially reporting the affair to the British Admiralty.

A LOST CHILD.

Probably Swallowed by Snake—A Scorching Death.

Mr. Bradley, of Amherstburg, opposite Belleville, which disappeared some time ago. The following letter, written by a prominent gentleman in Toronto township, appears in the Ontario regarding the child's mysterious disappearance:

"When last seen the child was standing near the big haystack in front of the house of Mrs. Bradley, a branch of the Bay of Quinte. It then appeared sleepy and stupid. That sleep gives us a clue to what befell the child. In my juvenile days (some fifty-five years ago) I was the only child in the neighborhood of the Eight Town (Murray) tell tales of wonder concerning the poisonous reptiles and huge snakes that had at different times been seen in the Seventh Town (Amherstburg) marshes opposite.

"All the snake family—the whole serpent race—have the faculty or power of first stupefying their intended victims. They will coil up in the arms of the victim, and then with their venomous fangs pierce the neck, throat, or breast, and the victim falls into a state of insensibility, and the snake then feeds on the brain of their victim, and renders it helpless.

"The probability is that when last seen the child was being sucked by some reptile coiled in the grass, and when the attendant left for the house the victim, perhaps, seized the child and conveyed it down among those logs laid by. The whole snake race have the faculty or power of being able to swallow a substance much larger than their own body.

"The chances are that no fragment or bone or vestment of that little unfortunate will ever be seen again."

—Thurston, Sept. 8, 1882.

A TOWEL ROW.

Major General Leard Fined an Officer Under Arrest—An Unpopular Act.

Major General Leard has once more brought his name prominently before the public. This time his action has caused even more unpleasantness than the memorable London camp affair, and will no doubt be investigated by the proper authorities. The circumstances of the affair are as follows: At the Rideau race range last week, after the skirmishing match was finished, the different squads were undergoing inspection by Col. Laurie. The conditions of the match provide the squads be inspected before and after firing to show that each one's kit is complete, and Major General Leard, who was in civilian's clothes and consequently unknown to a great many of the competitors, was among the large crowd of spectators lining both sides of the men who were being inspected. Sergeant Duffell, of the 4th Royal Rifles (Quebec) squad happened to notice that he was minutes a towel, and informed one of the officers of the battalion of the fact. Major Madge, Secretary of the Quebec Rifle Association, proceeded to him and procured a towel, and was returning to give it to Duffell when he was stopped by Gen. Leard, who was eagerly observing the whole proceedings, having previously missed the towel from the man's kit. General Leard asked Madge what he was doing with the towel and requested him to state who he was. Here Major Scott stepped up and told that having sent Madge for the towel he was responsible. The Major-General then told him he might consider himself arrested and he dismounted the squad, thus barring them out for the match. Major Scott then took off his sword and gave it to Colonel Laurie, who requested Captain Balfour, of the 8th, to take charge of it. The affair caused no little excitement on the field.

Neurotic Acid Dyspepsia.
In Nervous Debility, Dr. Edwin F. Voss, Portland, Me., says: "I have prescribed it for many of the various forms of nervous debility, and it has never failed to do good."

KNIVES, FORKS & SPOONS.

"CHINA HALL," MARKET BLOCK, GEORGE STREET.

MACFARLANE WILSON,

FROM ALL OVER.

YELLOW fever has been declared epidemic at Pensacola, Fla.

Every farmer in America is, or should be, interested in St. Jacobs Oil.

Typhoid fever is prevalent to an alarming extent in Eddy township, Carlton county. Eighty-seven houses were burned and one hundred and fifty families rendered homeless by a fire at Port au Prince, Hayti.

One dose of Barker's Mandrake Bitters will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

In case of further invasion by the French the Chinese forces on the frontier will march to the assistance of the ruler of Annam.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

Further discoveries confirm the opinion that the recently discovered saline basins near Warsaw, N. Y., are of great purity and value.

This Therianthrope volcano in Japan, after seventy years' silence, has erupted. An earthquake has also been felt at various points upon the island.

Dr. Catarrh has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. For sale by John McKee, Druggist.

The Constantinople police have confiscated a number of photographs of Arabi Pasha, which were being offered for sale in the streets.

The Sultan's proclamation against Arabi has caused great excitement at Constantinople. Arabi himself intends to reply to it with a counter-proclamation against the Sultan.

For the first time in fifty years all the gambling halls in New York city were closed on Saturday. There was no ball, school or professional, but the gamblers were terrified by wild rumors.

A young sharp shoot of earthquake occurred at Tientsin on Saturday, and the terrified inhabitants are now afraid to remain in their houses at night, the majority jumping out in the open. Traffic on the Lichuan railway has been suspended.

Mr. W. R. RANBY, of South Norwick, says: "For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, J. Wesley Fish & Co., (Ottawa) to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness. Sold by J. D. Tully, at 50 cents a bottle."

The most wonderful curative remedies of the present day are those that come from Germany or at least originate there. The best remedy preparation palmed upon the market in this country, is the Great German Bitters, which has never been known to fail in curing a single case of dyspepsia, gastritis, indigestion, and all diseases arising from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

TASTE FOR LINGERED! A new remedy for the cure of all cases of indigestion, flatulence, and all other ailments arising from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

SULPHOLINE LOTION.—An external remedy for curing skin diseases. There is scarcely any remedy so well adapted to "Sulpholine" in a few days, and commences to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, spots, roughness, and all other skin diseases, during skin diseases, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the elements which cause blemishes, irritations, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 25c.

SULPHOLINE LOTION.—A fluid remedy for skin diseases. It is the most potent remedy to all skin diseases. Nothing like Sulpholine has ever before been produced, nor is there any other remedy so effective and comparable for the Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Martin, and every year it is used more and more favorably to its widely increasing reputation. Ointment, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING FULLY HALF A PINT. SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE
THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERBLADES, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, BRUISES, and all other symptoms of disordered liver and dyspepsia. Acknowledged by every competent surgeon to be the safest and most potent pills for every complaint.

In Bottles of 1 lb., 50c., and 25c. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Korte, London. Specially valuable pills for residents abroad and travellers.

PEPPER'S QUININE AND IRON TONIC
improves digestion, stimulates the muscular system, improves the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, acute indigestion, fever of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health secured. Bottles, 25c. each; next size, 1 lb. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.
Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of nine pills and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulder-blade, head-ache, drowsiness, no appetite, hurred tongue, disagreeable taste in the morning, flatulent disturbances of the stomach, and feeling of general depression. It acts the digestive liver in motion, very slightly acts on the bowels, giving a sense of heat and comfort within 24 hours. It is the most reliable Taraxacum and Podophyllin in a fluid combination by J. PEPPER, Bedford Laboratory, London. The name is on every label. Bottles, 25c. each; next size, 1 lb. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

W. S. ANDERSON'S.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Frederick Elder of the St. Albans District.

St. Albans, Vt., Jan. 10th, 1880.

Dr. B. J. KENDALL & Co., Gentl:—In reply to your letter of 4th inst. I am glad to hear that your Kendall's Spavin Cure has been very successful in curing these four years ago I procured a bottle of your cure, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks, when he became better, but when I put him on the road he grew worse, when I discovered that a spavin was returning, I procured a bottle of Kendall's Spavin Cure, and with it, I cured him, but I am not sure that it is not a new cure, but I am sure that it is a cure, and can be found.

Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 10th, 1880.

R. J. KENDALL & Co., Gentl:—In justice to you and myself, I think I ought to let you know that I have recovered two bone spavins with Kendall's Spavin Cure, one very large one, and one small one. The small one I had for four months to take the large one off, and the small one, I have used ten bottles. The horse entirely well, not at all stiff, and no blemish on his leg. This is a wonderful medicine. It is a new cure, but I am sure that it is a cure, and can be found.

Respectfully yours,
O. H. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callosities, swellings, and lameness and all enlargements of the joints or limbs, or obstructions in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success or knowledge for bone spavins as this.

Price per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietor, DR. B. J. KENDALL & CO., Stoughton Falls, Vt.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1817

JOHNSTON'S SARSAPARILLA
LIVER COMPLAINT, DYSPEPSIA, and for Purifying the Blood.

It has been in use for 50 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAINT IN THE EYES OR BACK, LIVER COMPLAINT, DYSPEPSIA, and all other ailments arising from a disordered liver or an impure blood. Thousands of our best people testify to it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others. It is made from the best of other herbs, Kender's Sarsaparilla, Wild Cherry, Sassafras, Dandelion, Cassia, Waterbury, and other roots, and is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for purifying the blood.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist, may send us one dollar, and we will send it to them.

Cheaper than any other house in the County. Making a Specialty of the above lines we can and will undersell all other dealers.

"CHINA HALL," MARKET BLOCK, GEORGE STREET.

MACFARLANE WILSON.

Wooden Images.

A New York paper says that the wood used for figures, no matter what use they are put to, is white pine. The best kind of wood for carving is the purpose best, and is generally used. When green the wood cuts much easier than when dry, and is not so liable to split. The carving is done mostly by the eye. Chisel or pencil lines are drawn on the log in making the general contour. If the figure is that of a man or woman, it is made eight times the length of the head. Ordinarily, the image is one solid block of wood, but if the arm is extended a separate piece is put on, so that the grain will run the right way, to prevent its breaking off. Regular carvers' tools are employed, such as chisels, gouges, etc. It takes from a week to a month of steady work to make a figure, and the prices of images range from \$50 to \$250, according to size. A mermaid three and a half feet high costs \$100. The tug boats mount eagles on their pilot houses. These are worth from \$40 to \$75. Figures have been known to last 200 years. If a thick coat of paint is kept on them they will last much longer than if neglected. The paint does up the cracks and cracks, and prevents decay to a great extent. The figures are fastened to ships' bows with bolts. There are only four or five places in New York where the figures are carved.

A Frenchman.

A Frenchman bought an island off the coast of Australia for about \$350, and announced his intention of founding a New France. The project called himself a Marquis, and succeeded in obtaining subscriptions amounting to 10,000 francs from colonists who joined in the expedition. The emigrants sailed vessels bought with their own money, the "Marquis" not accompanying them. When the colonists reached their destination, a desert, and not the rich soil and attractive surroundings promised, greeted them. Hunger and sickness killed many of them, and the rest were brought home by kind shipmasters. The project, meanwhile, was organizing new enterprises. It was reported that engineers had procured stones in the land of New France, and that agriculture was flourishing. More subscriptions poured in. Soon, however, the imposture was discovered. The "Marquis" is to be tried for manslaughter, embezzlement, and for enrolling a military command in France, whereby one hundred soldiers who were to guard New France. Two fresh vessels were being being equipped at Barcelona when he was exposed.

New Musical Instrument.

Various experiments have been made for months past with "the electrical phonograph," as it is called, thus preparing to show the success of the contrivance for composing and reproducing tunes which are played on the piano. Each key has a separate wire connected with it, and the touching of a note on the piano makes an electric contact which acts as long as the note is depressed. The wires pass to a series of revolving toothed wheels, and the passage of the current through a particular wire brings the corresponding wheel in contact with a moving band of paper, continuing to ship off bits of paper as long as the current is passing. The result is that, after a piece has been played, the band of paper is marked with holes and slits corresponding to the notes. To reproduce the music, the paper is passed between a metal rod and a number of springs, each one connected with a note on the piano. When any hole or slit is opposite a certain spring, contact is made with the metal rod, a current passes through the corresponding wire, and acting upon an electric magnet, it strikes the same key whose depression had originally cut the hole in the paper.

Sheep Farming.

The Duke of Sutherland has just decided to make an experiment the result of which will be watched with keen interest by agriculturists and others interested in land. The fine sheep farm of Kinbrace, extending to about 44,000 acres, has been broken up into nine separate holdings, which are to be let under very favorable conditions. It has long been a standing grievance among middle class and small farmers that the hill-grazings of Scotland are almost all laid out in holdings of from 20,000 to 70,000 acres, which are only accessible to the capital list. With a view to remedy this state of things His Grace has resolved on making the above experiment at Kinbrace. The farm, was taken over by His Grace in 1877, when the well-known series of land reclamations was effected upon it, from 1,300 to 1,400 acres having been brought thoroughly into cultivation and now bearing excellent crops of oats, turnips, and grass. At together a sum of £20,000 has been spent by the Duke of Sutherland in reclaiming the land and putting it in its present condition. Part of the letting condition is that His Grace will supply all the capital needed to meet the requirements of the nine farms in the matter of houses and fences, leaving the capital of the tenants free to be devoted to stocking the farms and like purposes.

Robbins' Over the Line.

The Northwestern Lumberman says:—A manufacturer of bobbins in Massachusetts, finding that he was receiving a large number of orders from Canada, in order to avoid the customs duty of 20 per cent, has set up a factory on the upper list of a Lacoste, Que., saw-mill. He has received a large number of orders in the Dominion as a result of his new enterprise.

The well known drug firm of N. C. Polson & Co., Kingston, writes that Dr. Fowler's Extract of Wild Strawberry, has long been considered the best remedy for summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentery and all Bowel Complaints.

The prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Cassin's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 30 cents a bottle.

BAD BLOOD.—The blood is the true source of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtain a healthy action of the liver, bowels, kidneys, skin etc., and strengthening while it regulates and purifies.

Just opened out, New Fall Scotch Tweed Suitings, Twilled and Fancy Worsted Coatings in all the new makes. Irish and West of England Serges at Habliment Hall.

FROM ALL OVER.

GREAT damage has been done by storm and floods in the south of Spain.

If you are bilious, take Dr. Pierce's "Pleasant Fungicide Pellets," the original "Little Liver Pills." Of all druggists.

Monks missionaries are meeting with great trials in the Southern States. Two of them have received notices to leave South Carolina or they will be hanged.

The Lowell, Mass., Courier says: The healing properties of St. Jacobs (oil) are becoming better and better known every day, and its sale is increasing correspondingly.

A conflict of jurisdiction between France and Italy in Tunis has been brought about by a French Council of War passing sentence upon an Italian subject. Grave complications are feared.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

This jury in the Star Route case agreed upon the acquittal of Turner and the conviction of Nimmer and Kerdel. In the case of the other defendants they were unable to agree. A motion for arrest of judgment will be made in the case of the convicted defendants.

A Little Smith, child of Patrick Smith, living at 98, Chevreuil street, Montreal, passed 11 large stomach worms, on Saturday last, with one dose of Dr. Smith's great German Worm Remedy.—Post.

The Monetary Times says:—Commercial paper has rarely been more promptly met than this season, according to the experience of Montreal wholesale dealers and bankers. At one bank in that city, where 150 notes came due on the 4th inst., not one, it is said, was unpaid when three o'clock struck.

A partial attempt to enforce the Sunday laws in Milwaukee and Wisconsin is creating great excitement, and it is probable that the question has been forced into the political arena. The efforts to put a stop to Sunday trading has been paralyzed for the present by a counter-attack to close all the livery stables and eating houses on Sunday.

Mr. Wm. Hanson, of South Norwiche, says: For sixteen years I suffered from Biliousness, never had any medicine do me any permanent good until recommended by our druggist, (J. Wesley Fish & Co., Oshkosh, Wis.) to try Dr. Carson's Stomach and Constipation Bitters, which have done me more good than any medicine I have ever taken. I would, with the utmost confidence, recommend them to all suffering from Biliousness, etc. Sold by J. D. Tully, at 50 cents a bottle.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convince me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

ST. JACOBS OIL

GERMAN REMEDY. RHEUMATISM, Neuralgia, Sciatica, Lumbago, Backache, Sprains of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains, Tooth, Ear and Headache, Frostbit Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals Dr. Jacobs Oil as a safe, sure, simple and cheap Remedial Agency. A trial will show the comparatively trifling cost of its use, and every one suffering with pain can have cheap and positive relief of its pains.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE. A. VOGELER & CO., St. Albans, N.B.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER, Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 29th, 1880. Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found. Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 10th, 1880. B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two horses afflicted with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing for me, but I do for all what it has done for me, the sale will be very great. Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, far be it from us to say so. Price four bottles, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Rochester Falls, Vt.

LYMAN SONS & CO., Montreal, P. Q., Wholesale Agents. 1017

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURING SKIN DISEASES.

There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, various as it may be; white old, scaling skin diseases, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these ugly, irritable, painful eruptions, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 6d.

SULPHOLINE LOTION.—A FLUID SPECIFIC IN SKIN DISEASES.

It is the most potent enemy to all skin diseases. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Huxley, and every year it has used more and more favorably to its widely increasing reputation.

Anyone, however deeply and hopelessly afflicted with skin disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS. DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury).

THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAIN IN THE RIGHT SHOULDER, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent physicians to be the safest and mildest pills for every constitution. In Boxes at 1s. 1d., 2s. 6d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by J. B. King, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC

strengthens the nervous and muscular system, improves digestion, animates the spirits, restores the flesh. For debilitated health from the effects of bad climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC

is the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for scurvy, ague, indigestion, nervous debility, loss of sleep, and in various diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the muscular faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 6d. each, 1s. 6d., next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.

Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of new pill and eminent for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, dizziness, an appetite, turned sour, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the most reliable medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, which cannot be mistaken. Bottles, 2s. 6d. each, 4s. 6d. 6. Sold by all Chemists. A most valuable and constant medicine for India, Australia, the Cape, and Colonies generally.

It has been in use for 30 years, and has proved to be the best preparation in the market for BILIOUS HEADACHE, PALE IN THE FACE, OR BILIOUS LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, FLATULENCE, and all Diseases that arise from a Disordered Liver or an impure blood. Try a bottle of our Johnstone's Sarsaparilla, and give it to your children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Horseradish, Sarsaparilla, Wild Cherry, Bittersweet, Dandelion, Scammony, Water-pump, and other well-known vegetable roots, and cannot hurt the most delicate constitution. It is one of the best medicines in use for purifying the blood.

It is sold by all respectable druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

MUNRO & ALEXANDER

Daily Evening Review

WEDNESDAY, SEPTEMBER 13, 1882.

LOCAL AND MUNICIPAL

A Vigorous Tree.

Mr. T. J. Gabin, who resides in the south part of the town, has a crab apple tree which is in full bloom and has fruit at the same time.

Family Excursion.

The steamer Golden-Eye will run the regular family excursion trip to-morrow (Thursday), leaving at 8 o'clock. Tickets 50 cents for the round trip.

Shore Tug-Boat.

Specimens of tall corn seedlings to make their appearance. One stalk 10 feet 9 inches high has been left at this office by Mr. N. Nichols, and another 10 feet 10 inches by Mr. Benjamin Cross.

Runaway.

On Tuesday evening a team of horses attached to a buggy ran away on McDonnell street. The occupants of the buggy, a man and a woman, were thrown out, but not seriously hurt. The vehicle was badly broken, but the horses did not injure themselves much.

Foot Ball.

A meeting of the foot ball club will be held to-morrow (Thursday) evening at 7.30 o'clock, in the Casino House. A challenge has been received from the Royal Military College, Kingston, consequently a full attendance is desirable.

Photographic.

Except in cases of urgency no negatives will be taken at Mr. Sprague's Studio on Tuesdays and Fridays of this and the following two weeks. His pressure of business compels this course. Customers will kindly favor him by governing themselves accordingly.

Will Rebuild.

We are pleased to be able to state that Mr. Tobias Fitzgerald will rebuild immediately his carriage factory, which was destroyed by the recent fire, and will carry on his business the same as formerly. He has secured part of the agricultural warehouses of J. Whyte & Co., on Hunter street, as a storehouse in the meantime.

Fall Exhibitions.

The dates of the following fall fairs and exhibitions have been announced:—

Place.	Date.
West Riding	Peterborough, Oct. 2nd & 3rd
East Riding	Norwood, Oct. 10th & 11th
Central	Cobourg, Sept. 28th to 30th
Provincial	Kingston, Sept. 12th to 23rd
South	Lakefield, Sept. 20th & 21st
Kenilworth	Lakefield, Sept. 20th & 21st
South Victoria	Lindsay, Sept. 20th & 21st
Industrial	Toronto, Sept. 24th to 26th

St. Paul's Church.

The Mail gives some statistics regarding the Presbyterian Church in Canada, taken from the report of the last ecclesiastical year. In the list of churches with the largest congregations, St. Paul's Church, Peterborough, of which the Rev. E. F. Torrance is pastor, stands fifth with 410 communicants. This church had during last year a larger addition to its communion roll than any other church in the Presbytery.

The Weather.

The weather, although the temperature is slightly higher, continues cool. The probabilities predict local rains, and the appearances seem to confirm the predictions. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. today by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh easterly to southerly winds, fair weather with a few local showers and higher temperatures.

Another Fire.

At about one o'clock on Sunday morning Constable Pidgeon discovered a fire in the Agricultural grounds, in a stall at the west end of the grounds, and he extinguished it. The origin of the fire is a mystery. On the forenoon of Sunday two young men were passing on McDonnell street, and noticed smoke arising from the same place, and it was put out with a couple of pails of water. The fire had got into some gins roots which are partially buried in the ground, and it may have smouldered in them from the time it was first discovered until it broke out again in the day. The fire first started in the centre of the stall and burned in the east, but the boards in the fence and partition were not injured. On Monday night the police searched the grounds, but nothing was found.

POLICE COURT.

VAGRANCY.

Robert W. Barrow, a youth who says he is twenty but looks much younger, was charged with being a vagrant.

He appeared on the same charge a few days ago, and was allowed to go on promising to go to work. He was found loitering around the streets again and was arrested.

The Magistrate said that as he appeared to be idle, and lazy, he would send him where he would learn to work and sentenced him to six months in gaol at hard labor.

INJURY TO PROPERTY.

The case of Mrs. Elizabeth Vout against Mrs. Susan McMaster for malicious injury to property was disposed of to-day.

Mrs. Vout's statement was that Mrs. McMaster told another woman's child that she would give it a cent to break "Mother Vout's window," and that the child did so.

Two witnesses testified that Mrs. McMaster was not at home when the window was broken. The Magistrate dismissed the case. At the same time he said that it was a pity that these families could not live as neighbours in a better spirit, and if there was any more about this trouble, and any bad language was used, he would punish the guilty parties severely.

Treat Navigation Works.

The Mail's Ottawa correspondent says that the lowest tenders for the Trent Navigation works have been offered the contractors. Mr. A. P. Macdonald is the lowest for the Peelson works, and Mr. George Goodwin for the work at Bechboro and Burleigh.

The Market.

The attendance on the market this morning was about as large as usual. Butter sold at 25 cts. per pound, eggs 17 cts. per doz., and potatoes 90 cts. a bag. The price of vegetables was unchanged. There is not much grain offered yet. Wheat is \$1.00 a bushel, oats 40 cts. and barley 60 cts. Activity in the grain market will soon commence.

The Championship Medal.

The medal presented by the National Amateur Lacrosse Association to the champions of the District of Central Ontario, which was won by the Peterborough Club in the recent match with the Orillia Club, is now in the possession of the home club. It is a handsome and tasteful medal, and is encased in a beautiful case. First there are two diminutive silver lacrosse sticks crossed, and under these a gold beaver with the word "Championship" above it in silver. Beneath the golden beaver is a silver plate with lacrosse sticks, flags, and other emblems of Canada's national game engraved on it, and surrounded by the words "National Amateur Lacrosse Association," and "Our Country and Our Game." On the reverse of the plate is the following inscription:—"Presented by the National Amateur Lacrosse Association for the championship of Central Ontario, 1882." The medal is a handsome piece of workmanship, and is a trophy of which the members of the Peterborough Club should feel proud. The dividing of the province into districts, and the awarding of these medals, will do much to make the game of lacrosse even more popular, and much credit is due to Mr. J. McNaught, of Toronto, Secretary of the Association, for the interest he has taken in the matter.

Railway Notes.

While Thomas McIlvrey was unloading timber from a car on the Grand Junction wharf at Belleville on Monday, a crowbar fell and penetrated his hip. He will probably be lamed for life.

A Trenton despatch says that the Messrs. McMullen have the grading of their railroad completed for some distance beyond Frankford, and it is expected the road will be finished this fall to Stirling.

The Mail says that Mr. Gooderham, vice president Midland railway, and Mr. Bailey, chief engineer, went over the new Wick and Manilla branch lately, and found Mr. Wheeler was well advanced with the grading. About one month will complete it. Some 75 men are grading, and the number will be increased after this week when more teams can be obtained. The track-laying and ballasting has been commenced, the steel being all on the ground. The line will be straight and very level, and when completed will shorten the distance between Toronto and Lindsay and Peterborough about eleven miles. It is intended that the road will be open for traffic by the 1st November.

The following telegram has been received at the Midland Railway office regarding the excursion over the Midland to the Toronto exhibition:—

"Toronto, Sept. 12.

"W. E. Morrison and A. White:—
"We brought in four passenger trains consisting of about forty cars to Toronto. There must have been at least 2,500 people. Everything passed off without an accident and the trains made very good time, considering the very large crowd."
"J. Dureau."

Major-General Board's Statement.

MONTREAL, Sept. 12.—Major-General Board passed through to-night for Halifax. The General commented upon the recent troubles at Ottawa in his conversation with some of the commandant officers here. He said he had been sent here by the British Government to enforce discipline. Unless he did so he would be held to have connived at breaches of it. He insisted that all the officers were aware that the kits of the firing squad were to be inspected, and those found wanting were to be ruled out, yet he saw an officer running from a tent with a towel under his coat, and was slipping it into the kit when he (the General) interfered in the manner already described in the press. He said the public looked upon the matter as a trifling affair, when the truth was such conduct would be denounced even at a horse race.—Globe.

Boundary Question.

BUREAU ARMY, Sept. 12.—The Minister of Foreign Affairs has proposed to the Government to refer the boundary question to the arbitration of the United States Supreme Court or the Federal Courts of the Swiss Confederation.

Ladies by calling at the Store will receive Butterick's New Monthly for September, free of Charge.

Escaped from Penitentiary.

KINGSTON, Sept. 12.—Last evening between five and six o'clock a convict named Murray, of Ottawa, having a two years' term for larceny to serve, escaped from the penitentiary. He was working about the Warden's residence, and when missed could not be found. He is believed to have hid in some nook until dark, then changed his clothes, donning what was supplied him by an outsider, and departed for the other side. His prison clothing was found in an alley near the Methodist Episcopal Church this morning.

NEVER BE WITHOUT IT.—Tourists and all who are subjected to a change of climate, water, diet &c., should never be without Dr. Fowler's Extract of Wild Strawberry, the infallible remedy for all Summer complaints.

Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir—For many months I was a great sufferer. Physicians could do me no relief. In my despair I commenced the use of your "Fowler's Prescription." It speedily effected my entire and permanent cure. Yours thankfully, Mrs. Paul R. Baxter, Iowa City, Ia.

A WISE PRECAUTION.—During the Summer and Fall people are liable to sudden attacks of bowel complaint, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

An elegant range of Scotch Tweed Suitings, suitable for Fall wear, just opened out at Habillment Hall.

MILLS BROS.

In the course of two weeks will have for the Fall Trade, the Largest and Best Assorted Stock of Hats, etc., ever shown in the town of Peterborough. We

KEEP

No Old Stock whatever, every hat a perfect model of beauty, clean and fresh from the factory, and prices which

NO

Retail House in the Dominion can compete. A passing glance at our show window will at once attest the truth of this assertion, and convince the most skeptical of the desirability of purchasing new and fashionable goods in preference to the

OLD

Styles and old prices of by-gone days. We hold that no firm watches the American Market for Young Men's Goods (especially) closer than we do, and claim the honor of selling the Noblest and Finest

STOCK

Of Hats in Canada. Young men will find it to their interest to examine carefully our styles and prices for fall before purchasing elsewhere. We have the right goods at the right prices.

THE WAR IN THE EAST.

THE OFFICIAL ACCOUNT OF THE CAPTURE OF TEL-KEBIL.

The Losses on Both Sides—The Bravery of the Troops—Kannig Occupied by the British—An Immediate March on Cairo Expected.

OFFICIAL ACCOUNT OF THE ACTION.

LONDON, Sept. 13.—General Wolsey's official despatch to the War Office says:—"We struck camp at Kananin lock last evening and bivouacked on a high ridge above the camp until 1.30 this morning. We then advanced upon a very strong fortified position held by Arabi Bey with twenty thousand regulars, of whom twenty-five hundred were cavalry, with seventy guns, and six thousand Bedouins and irregulars. My force was about 11,000 bayonets, 2,000 sabres and 60 guns. To have attacked so strong a position by daylight with the troops I could place in the field would have entailed very great loss. I resolved, therefore, to attack before daylight, marching the six miles that intervened between my camp and the enemy's position in the darkness. The cavalry and two batteries of horse artillery on the right had orders to sweep round the enemy's line at daybreak. The first division, composed of the second brigade, under General Graham, supported by the Foot Guards, under the Duke of Connaught, seven batteries of artillery, numbering forty-two guns, with a supporting brigade; then the second division, the Highland brigade leading, and the Indian contingent—these on the south side of the canal, with the naval brigade on the railway, advanced. Great emulation was displayed by the regiments to be the first in the enemy's works. All went at them straight. The Royal Irish particularly distinguished itself by its dash, and the manner in which it closed with the enemy. All the enemy's works and camps are now in our possession. I do not yet know exactly the number of guns captured. The enemy ran away in thousands, throwing away their arms when overtaken by their cavalry. Their loss is very great. General Wills is very slightly, and Colonel Richardson severely wounded. Major Colville and Lieutenant Madoc and Monerville of the Highland Light Infantry were killed. Of the "Black Watch" Lieutenant MacNeill was killed and Captain Cumberland and Fox wounded. General Allison's side-de-camp, Captain Hutton, was wounded. Colonel Stirling and the burghers of the Coldstream Guards are wounded; Colonel Balfour, of the Grenadier Guards, wounded in the leg, and a colour sergeant killed. The cavalry is now on its march to Belbeis and the Indian contingent on its way to Zagazig, to be followed this evening by the Highland brigade. Three Lieutenants of the Cameronian Highlanders were wounded. The canal is cut in some places, but the railway is intact. It has been discovered that Basib Pasha and Ali Fahmy Pasha were wounded in the engagement Saturday."

ARABI'S ESCAPE.

LONDON, Sept. 14.—General Wolsey telegraphs to the secretary of war that Arabi escaped on horse back to Zagazig.

AN IMMEDIATE ADVANCE ON CAIRO.

PORT SAID, Sept. 13.—Detachments of troops from Kafir-el-Dwar are reported to be fleeing towards Cairo. It is believed the British will push on to Cairo without delay.

ZAGAZIG OCCUPIED.

LONDON, Sept. 13.—General McPherson telegraphs from Zagazig that he made a forced march after the capture of Tel-el-Kebir and occupied Zagazig this afternoon. He seized five trains. The Governor surrendered to the British, and the people are submissive.

LOSERS ON BOTH SIDES.

LONDON, Sept. 13.—A correspondent at Kananin telegraphs:—"The Egyptian loss is estimated at 2,000. The British loss is probably 200, including many officers. The Highland brigade bore the brunt of the action. Arabi's sharpshooters before the fight of the garrison stood well out from the works and shot down many English officers. In loss of officers the British suffered most. The British cheered Gen. Wolsey after the battle."

A TREATY FROM TURKEY.

CONSTANTINOPLE, Sept. 13.—It is stated in official circles that if no agreement is arrived at by Thursday regarding the military convention, the Porte will break off diplomatic relations with England.

THE HIGHLANDERS' GALLANTRY.

KARASIN, Sept. 13.—The Highland Brigade distinguished themselves notably at the re-doubt, all of which along the entire enemy's line were carried at the point of the bayonet at half-past five o'clock this morning. The Highlanders dashed in on the left, completely surprising the enemy. The latter, however, soon rallied from their surprise, and pluckily repelled with volleys of musketry, inflicting loss on their assailants. The Highland Brigade while in action presented the most martial sight imaginable. Lieut. Gordon in the melee killed three Egyptian officers with his claymores.

CONGRATULATIONS FROM FRANCE.

PARIS, Sept. 13.—The Minister of Foreign Affairs has instructed the French ambassador in London to convey to Earl Granville the congratulations of the French Government, and to assure Earl Granville of the cordial satisfaction he feels at the news of the splendid English triumph in Egypt.

Wonderful Grotto.

The most wonderful natural grotto in the world, has just been discovered in Sardinia. It was discovered by youths, who descended into a ravine by means of ropes, in search of water.

The grotto contains fifteen magnificent galleries, and a gentleman who has visited it, says that for three hours he met with new surprises—now discovering a pavement that seemed composed of the finest basalt, now a colonnade of marble, now lofty vaults like the dome of a church, now figures resembling an infant, or a condalium, or a pulpit, or a chapel, or a mandorla, or a richly embroidered thorn.

Personal To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

TO OUR READERS.

Urging to the telegraph wires having been disarranged by the heavy gale, we have not received our usual amount of cablegrams and American despatches this afternoon.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

TROUBLED RUSSIA.

St. Petersburg, Sept. 14.—The decision of the ministry to postpone the Czar's coronation till next year, in consequence of revolutionary indications by the Moscow police, as the preparations had progressed, has surprised every one, as it will furnish to the party of the Duke Constantine ground to work on, as it bears its hopes on the theory that the Russian sovereign is not really Emperor until he is crowned, and that the people should depose a prince who will not submit the ceremony. To mitigate an evil effect of the decision their Majesties will soon pay a private visit to Moscow.

AMERICAN.

FATAL SLEEP.

LORENCE N. J., Sept. 14.—Charles Euben and James Parker fell asleep on the railroad track last night and a train killed both parties.

OBIT.

NEW YORK, Sept. 14.—General Henry Kierster, a retired merchant and formerly a prominent citizen, died yesterday, aged 60.

AN IRISH LEADER.

NEW YORK, Sept. 14.—A. M. Sullivan, the well-known Irish agitator and leader of the Home Rule party, arrived here yesterday. He was cordially received by a committee of his countrymen.

THE YELLOW SCOURGE.

LAREDO, Tex., Sept. 14.—Yellow fever of a most fatal type has broken out in Mexico. The fever was brought from Matamoros. The inhabitants are leaving in all directions.

BLAINE'S DEFENCE.

CHICAGO, Sept. 14.—A magazine here publishes a paper by Jas. G. Blaine, vigorously defending the South American policy of the Garfield administration.

MIDNIGHT TELEGRAMS

CABLE.

IRISH AFFAIRS.

DUBLIN, Sept. 13.—The committee appointed by the police has prepared a document setting forth their grievances to the authorities. It was expected from the police that they would omit references to the discipline, the rigor of which, however, is the chief matter of which the police complain.

RUSSIA IN CENTRAL ASIA.

St. Petersburg, Sept. 13.—Major-General De Tcherniaeff, Governor of Yakoutsk, has left for Tashkent. De Tcherniaeff informed a correspondent of the London Times that if England and Russia should mutually arrange their interests in Central Asia they would have no need to quarrel. If ever there should be serious trouble it would not be the fault of Russia.

AMERICAN.

SUICIDE.

LONG ISLAND, N.H., Sept. 13.—John R. Morris, aged 35, treasurer of this city, ended his moving by throwing himself into the East River. It is reported that the treasurer's relations with his son, the Deputy-treasurer, were very unpleasant, and this, with the investigation of his department by the citizens, prompted the suicide. Morris' brother killed himself in a similar manner some months ago, and his son-in-law shot himself last year.

SUNDAY TRAVELLING.

PITTSBURGH, Pa., Sept. 13.—The Alleghany Presbytery yesterday refused Rev. John Kerr permission to ride on a train on Sunday to and from church, fifteen miles distant, where he holds services. The Presbytery decided that he would either have to travel with a horse on Sunday or relinquish his charge. The question excited animated discussion.

CAMPBELLFORD.

EXPORT OF SHEEP.—The Herald says that Mr. W. Whitton shipped over two hundred sheep from here on Saturday night. They were driven to Colborne, and will be shipped on board the Norseman for transport to the Albany (N. Y.) market.

THE CHURCHES.—The roof of the Presbyterian Church has been put on, and the rafters of the Methodist Church have been put into position. Work on the latter has been delayed for three weeks past for want of brick. The brick-yard has been taxed this year with the many orders from builders.

NEARLY BUILT.—The Rev. Father Casey's dwelling on the hill, near the Catholic Church, will require only a few weeks to complete. It is a two-story brick, 40 by 32 feet, with a large wing to the rear, for kitchen, &c. The roof has been put on, and the shingling is about completed. The contract price for building the same was over \$8,000.

THE TAXATION.—The financial engineers of the village after computing what will require to move the municipal machinery of Campbellford another year, find that it will be necessary to levy a rate of 13 1/2 mills on the dollar. Therefore, for every \$100 a ratepayer is assessed, he will have to pay 13 1/2 cents. The assessment is the same as last year.

A CRIMINAL PRISON.—An old man named Johnston, was confined in the lock-up on Monday night, for pointing a loaded revolver at Mr. Thos. Calahan. He was under the influence of liquor at the time, and seemed to justify himself in the act because of some difference of opinion between him and Mr. Calahan, in whose employ he had been for a short time. The offender was a stranger to this place, and is a "sandy" looking individual. He was driven to Cobourg on Tuesday morning, in charge of Mr. Bailor, policeman, and Mr. Johnston, another employee of Mr. Calahan's, and will be held until the next session for trial.

Daily Evening Review

THURSDAY, SEPTEMBER 14, 1882.

CAR WORKS.

The Kingston British Whig gives a long and interesting account of the successful establishment of the Kingston Car Works now happily accomplished. It gives a full description of the works, the machinery, and the first castings. Details are given of the number of men employed in the various departments, of the contracts that have already been secured and of the capabilities for turning out a great amount of work. Our contemporary is naturally and properly jubilant over the inauguration of such an important local industry, which must so greatly benefit their city, and we on our part tender our congratulations and our best wishes for their success.

But while congratulating our neighbours we cannot but be reminded of our own case. Why should we not have a similar industry, a similar benefit in Peterborough? Car works were also projected in our town, but latterly we have heard nothing of the matter. We trust that the project is not to be abandoned, and that we are not as a community to lose the prospect of so great a benefit. In regard to some industries that are now thriving in Canada, owing to our sensible and patriotic tariff policy, timid investors might perhaps have some reason in alleging the possibility of competition being overdone. This, however, is far from likely to be the case with carworks. What with the maintenance of old lines and the construction of new ones, the demand for rolling stock is so great that it is not likely to be easily overtaken. Without speaking of extensions, the mere replacing of rolling stock, with its necessarily great wear and tear, is in itself an enormous item in the accounts of our railway companies, and certainly many more car works could not overstock them.

And if car works are to succeed anywhere certainly they should do so in Peterborough. This has become a great railway centre and the lines centring here are rapidly extending. The demand from these should of itself be great, and with such a network of lines we have easy communication with more distant points. And as to expenses, if freight may be a little higher on some imported materials, a large proportion of the raw material can be obtained here on exceptionally advantageous terms.

With such advantages we believe that the enterprise could not fail of success, and we hope still to see it pushed on to its completion.

HISTORY REPEATS ITSELF.

It is often interesting to see how history repeats itself. In 1860 in the Legislative Assembly of the then united provinces of Upper and Lower Canada, Mr. John Sandfield Macdonald, who was then in opposition to the Cartier-Macdonald administration, found it necessary to administer a rebuke to his brother Reformers, including Mr. George Brown, for their stirring up of sectional and denominational prejudices. This is the same Mr. John Sandfield Macdonald, who, as we were assured the other day by the *Globe*, was a Liberal at heart. Mr. Macdonald said, according to the *Mirror of Parliament*:-

"He belonged to the old Reform party—the party which had for its object to see Upper Canada governed as she ought to be. This party never desired to make political capital out of religious cries—they did not desire to set one section of the Province against the other."

And again in the same speech he asked:-

"How was it to be expected that the process of fusion should be very rapid here, when the lower Canadian French were daily insulted and their institutions slandered and spoken of with the extreme of contempt?"

Now we have a repetition of the very same unpatriotic offence, which this honest Reformer thus deprecated. The actors in the scene have changed; we have no longer Mr. George Brown to commit the offence nor Mr. Sandfield Macdonald to censure it. But we have the *Globe* and many leaders of the so-called Reform party of the present day again trying to make political capital out of sectional differences, and the Lower Canadian French are again daily "insulted, slandered and spoken of with the extreme of contempt." Is there no honest Reformer in these days to censure this wicked work of fomenting intestine differences and sectional prejudices? There are indeed such honest Reformers, and in great numbers too, but despairing of obtaining better things from the present self-styled, renegade Reformers, they are giving their support to those true Liberals and constitutional reformers, Sir John Macdonald and his colleagues.

A STUPID ATTACK.

It is really too bad that the *Globe* should have gone out of its way, in giving an account of the articles displayed at the Industrial Exhibition, to belittle the efforts of any of those who have taken part. It is constantly doing the most stupid and inopportune things, either through ignorance or wilful perversion. In the field of politics we all saw the stupid blunder it made by attacking the morality of the factory operatives on the eve of the general election. No possible good could be done by such a course, and in the case of these young girls they were held up as a class to the contumely of the whole world, although no sane person would dream of arguing that because some factory operatives go astray all must necessarily be bad. There are good girls among them as well as girls who are not good. A later instance of the *Globe's* utter stupidity is in ridiculing the exhibit of wearing apparel at the Industrial Exhibition. It would be an error to say that the *Globe* is desirous of injuring the Exhibition. It cannot possibly have any reason for doing that. Yet if this were the very purpose it set out with, it could not have gone about it in a better way than to sneer at and belittle the display of wearing apparel made by the merchants of Toronto. The leading dealers in ready-made clothes in the city went to a good deal of expense, considerable labour and no end of trouble in order to present attractive exhibits at the Industrial. If it were not for these merchants, there would be a good many empty counters and shelves at the Exhibition. The *Globe*, however, must needs go out of its way to cry down the "inevitable production of cheap houses," and to find fault with the exhibits in the department devoted to wearing apparel. If it imagines that the interest of our merchants in the Industrial Exhibition can be maintained—to say nothing of being increased—by crying down their efforts, it is making a sad mistake. Throwing cold water upon them by the bucketful is very little reward for the interest they have shown, and very little encouragement to them to prepare an exhibit for the next fair. It is to be hoped that those who have exhibited at the Exhibition will estimate the remarks of the *Globe* at their proper value. Everybody knows that the organ is of a bilious temperament, and that it is never so happy as when it is abusing public individuals or belittling private enterprises. In the present instance it has succeeded in putting a good weapon in the hands of the opponents of the Toronto Industrial Exhibition, which they will not be slow to make the most of. The true lovers of the whole matter is that the goods were of Canadian manufacture, and to have praised them would have been to pay a tribute to the National Policy.—*Toronto Telegram*.

AMERICAN PRESIDENTS.

Who They Were and Whom They Married—Remarkable Coincidences.

The United States have had twenty-one Presidents during the century, of whom George Washington was the first and Chester Arthur is the last. Four of these have obtained the position by the death of their predecessors before the expiry of their term of office, viz., Tyler, who succeeded Harrison on the 4th of April, 1841; Fillmore, who succeeded Taylor on the 9th of July, 1850; Johnson, who succeeded Abraham Lincoln on the 15th of April, 1865; and Arthur, who succeeded Garfield on the 19th of September, 1881. Washington, Madison, Jefferson, Monroe, Jackson and Grant were elected to serve two terms, and there were attempts made to have the first and last mentioned elected a third time. John Adams, the second occupant of the chair, lived to be ninety-one years of age; Garfield died at fifty. Eleven of the twenty-one held rank in the army, the last five being included among these. During the first period of national life Virginia was the nurse of statesmen and mother of Presidents; from this state came George Washington, Thomas Jefferson, James Madison, James Monroe, William Harrison, John Tyler, and Zachary Taylor. Of late years Ohio has come to the front with Grant, Hayes, and Garfield. New York is responsible for Van Buren and Fillmore; North Carolina for Jackson, Polk, and Johnson; Massachusetts for the Adamses; New Hampshire for Pierce; Pennsylvania for Buchanan; Kentucky for Lincoln; and Vermont for Arthur. Maine, Connecticut, Rhode Island, Maryland, Tennessee, Alabama, Georgia, Florida, Louisiana, Texas, Mississippi, and the Western and Northwestern states have failed to produce a man who has risen to be first citizen of the republic. No doubt, however, as culture spreads in the newly settled districts of the west, the vigorous character of their people will bring their statesmen to the front. Michigan, especially we hope, will grasp the golden keys, since the state was in a large measure a Canadian colony. Most of the Presidents were University men and lawyers, no less than fifteen having devoted studious attention to the mysteries of the black letter science. Jefferson was by far the most profound and finished scholar; Andrew Johnson was a taught reading, writing and arithmetic by his wife. The majority, we are told, married accomplished and beautiful women; three were captured by widows; Madison and Lincoln married ladies of the name of Todd; the wives of two bore the Christian name of Abigail; Arthur is still a widower. A remarkable coincidence is to be seen in the fact that Thomas Jefferson, author of the declaration of Independence, and John Adams, his most eloquent advocate and defender, died on the 4th of July, 1826; and that Monroe, who greatly distinguished himself in Washington's army, died on 4th of July, 1831. Thus the darkness of the prison house fell upon three of the first five Presidents on the day which was symbolical in their minds with light and liberty.

The Latest Move.

The latest move by the Ontario Government, if we are to believe their organs, is to make the common schools nurseries for the teaching of Clear Grit principles, and to accomplish this the appointment of teachers, it is urged, should be assumed by the Government, and none but the most orthodox selected for the position. It would not surprise us to learn that the *Mowat* Government had acted upon this suggestion. They have already centralized in the hands of the Executive much of the patronage which was before distributed among the people, and they could certainly as easily justify their claim to appoint teachers, as they have been able to justify their other usurpations.—*Montreal Gazette*.

Borlford's Acid Phosphate.

In Nervous Debility, Dr. Edwin F. Voss, Portland, Me., says: "I have prescribed it for many of the various forms of nervous debility, and it has never failed to do good."

JACOBS OIL

THE GREAT CURE FOR RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains, Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals Dr. James O. Jacobs' Oil. It is a safe, sure, simple and cheap remedy for all the above ailments, and the only one giving relief in all cases. It is a true and reliable remedy, and every one suffering with pain can have cheap and positive proof of its efficacy.

Directions in Every Language. SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE. A. VOGELER & CO., Baltimore, Md., U.S.A.

A Thrilling Situation. Amongst the most thrilling experiences of the wood fires that have been raging over the Province of Nova Scotia recently, was that of a family named McLean, living at Hubbard's Cove, in this city. They were at Hubbard's Cove burning brush-wood, and noticed at once a fire, but absorbed in their occupation did not observe it till too late that the fire was surrounding them. They took refuge on a granite rock, but the fire closing in on every side they were soon roasted then alive. The heat became unbearable, and they started to beat their way through the flames, finally getting beyond the fiery ring alive, but all, especially the children, were badly burned.

\$100 REWARD is offered for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents.

BOOKS FOR THE MANY READERS.

THE WORLD PUBLISHING COY OF GUELPH, which is the largest in the Dominion, is being represented by Mr. Geo. S. Wilson, General Agent for Northern Ontario, who is introducing the following valuable works: "Treasury of Song," "Prof. Macdonald's work on Manitoba and the Great North West," "Royal Path of Life," "The Kingdom of God," "Encyclopedia" and "Family Bible." He has met with grand success in Hastings and other counties, and has been the recipient of a large number of testimonials, some of which are here reproduced.

From Prof. W. E. Sherwin, of Cincinnati, well known as a popular composer and leader, and as Director of the famous Chautauque School of Music: "Treasury of Song is in all respects a most charming book for the home circle. Its selections show a refined taste and excellent judgment, while the variety is wonderful, stretching away from the simple credence song, to Haydn's aria 'With Verdure Clad.' Its contents will bring genial sunshine and refreshment to the home."

Rev. James Hastie, Presbyterian Minister, Lindsay, says: "The contents and character of the 'Royal Path of Life' entitled it to be called 'Apples of Gold in Pictures of Silver,' as Solomon puts it. Not a chapter can be spared—scarcely a sentence can be improved. Here are found some of the finest passages in the English language. The topics sweep the whole domain of man and ethics, and are expressed so sentimentally that a little library is bolted down into one volume. What a boon were this handsome volume to find its way into every family? What a luxury were a chapter served up to the mind thrice a day as its literary repast. In fine, this book is one of the best 'Edictal' extant. After a thorough examination I give it my most hearty commendation."

The following is clipped from the *Bellefleur Ontario*: "In compiling the 'Treasury of Song,' the musical works of all the nations have been thoroughly searched, and characteristic pieces have been gathered from the repertoire of American, English, Irish, Scotch, Welsh, Swiss, Italian, French, Spanish, Russian and African Singers and Composers."

The collection embodies the widest diversity in the character of its contents, including compositions which are powerful, pathetic, martial, descriptive, didactic, sentimental, humorous, pathetic and devotional. Mr. Voss has been the recipient of the following testimonials:

"We have pleasure in certifying that we have examined the new work entitled 'Treasury of Song,' and that we are highly pleased with it in every respect."

"The very large collection of 'Real Gems,' both classical and popular, its beautiful typography, the portraits and biographical sketches of eminent musicians and singers, make it eminently suitable to promote happiness in every home."

"We cordially recommend it to the music-loving people of Bellefleur."

Signed, Herbert Oldham, Professor of Music, Organist St. Thomas Church; J. A. Stanistreet, Organist St. Andrew's Church; Prof. of Music in Albert University; James Smith, Professor of Music, Organist St. E. Tabernacle; J. B. McMurray, Lullabye vocalist and composer; Organist Holloway Street Methodist Church; J. W. Vethersone, Prof. of Music, Organist Christ Church; Minnie Jones, Organist Bridge Street Methodist Church; Jessie O'Carroll, Teacher of Music, Choir Leader St. Michael's Church; Miss Ockerman, Teacher of Music.

Peterborough, Sept. 13, 1882.

We have pleasure in certifying that we have examined the recent work entitled 'Treasury of Song,' and that we are pleased with it throughout. It embodies a very large collection of classical and popular songs which have been selected from the repertoire of American, English, Scotch, Irish, Welsh, Swiss, Italian, French, &c., singers and composers. These, together with the biographical sketches and portraits of the most eminent musicians, will tend to make every home into which it is introduced happy and attractive. We cordially commend it to all the lovers of music in Peterborough.

A. T. HEATHFIELD, Organist George Street Methodist Church.

CHARLES W. EWING, Organist St. John's Church.

Mr. Wilson desires to engage a few energetic men to introduce these works which are sold only by subscription. Call and see him and examine his books at his office in the Phelps House, Simcoe street, each day at noon and any hour on Saturdays. 2603-1457

VOICE OF THE SEA.
 Whistled I lay at night and heard
 The sobbing of the restless sea.
 The morning surge
 From some far back eternity,
 Whose spirits from the deep are stirred.
 Awakening with the morning light,
 Again I listened to the sea;
 But with its surge
 We heard no deeper
 But only life's activity;
 Morning dispelled the gloom of night.
 At noon I ventured forth to view
 The throbbing of that living sea,
 Still it was surging,
 But only surging,
 All men to be both strong and free—
 Strong in the soul with conscience true.
 At closing day once more I stood,
 Gazing across the mighty sea;
 Far above the world
 The light was falling;
 Time, lost in immortality,
 Was the reflection of my mood.
 It is the mind, and not the place,
 Our moods, and not a varying voice,
 That fills with sadness
 Or thrills with gladness,
 And whose one great ruling choice
 Reflects in all things its own force.

A SHADY CROWN.

A Case of Intoxication Following a Charge and Counter Charge.

HALIFAX, Sept. 12.—Truro is occupied in trying to find out the rights of what seems to be a very complicated case of robbery and counter-robbery. A man named James Henson Hard charged two brothers named Morrison with having robbed him of \$1,000. Henson is blind, and he says that one evening last week one of the Morrisons asked him for a drink: he opened his trunk to get a glass of liquor, and a package of money being asked for by Morrison while the lid was raised, he grabbed it. Henson seized him, and Morrison called "murder!" whereupon Oliver Hurd, brother of the blind man, and a man named Currie appeared on the scene. A general melee ensued, during which Currie aided the Morrisons who finally got away with \$800. That in effect is Henson's version of the affair. The statement of the Morrisons is somewhat different, and rather damaging to the Hurd. They said that Oliver Hurd had several times approached them with a view to selling what they called "goods," offering them \$1,000 for \$150. On two occasions they were shown what, so far as they could see, was good money, but which the Hurd claimed to be counterfeit. The Morrisons having heard of other people being victimized were on their guard, and refused to pay \$150 in advance. It appears that the package of money that was shown to the Morrisons, the decoy package, was really good money, and it was an attempt to substitute for it a worthless package that led to the robbery. Having been caught in their own trap, the Hurd raised a cry of robbery. Morrison has had the Hurd arrested for assault and attempted robbery.

A Semblance Incident.

A gentleman who has just returned from Old Orchard Beach tells the following story. One night recently a lady guest of the Sea Shore house put a fifteen hundred dollar diamond pin into her son's shoe as he was retiring, so that in the event of burglars, it would be in a safe place. Later, her husband went up, and before embracing her, put his son's shoe on and he saw outside the door to be blacked. John, otherwise known as "the faithful," took the shoe away in the morning and out dropped the diamond pin. He immediately took it to the jeweller, and the clerk, foreseeing something, told him of no more of the discovery. At quite an early hour the lady presented herself at the office exclaiming, "Those shoes! Was anything found?" The clerk's heart almost melted when he saw her pale, anxious face, and he told her everything was all right. John was remembered, and desecrated to be, as it is not every one in his place who would have acted the honest part he did. The lady's husband says she will never put a diamond in a shoe again.

Antiquity of Money.

Precious metals are older than history. Two thousand years before Christ, Abraham, the Chaldean shepherd, whose children have never lost their faith and thrift through a hundred and fourteen generations, returned to Egypt, very rich in cattle, silver and gold. Afterward, says the Biblical record, he bought the cave of Machpelah—where his bones were to rest beside those of Sarah, the wife of his youth—for four hundred shekels of silver, current money with the merchant. Herodotus asserts that coinage originated with the Lydians. The world's coins since have been like leaves of autumn. Most are extinct, but the British museum preserves more than one hundred and twenty thousand varieties. The Paris collection is still greater, and is continually increasing. The cabinet of the Philadelphia mint contains many antique specimens. Here are the self-same coins which please ancient placed between the gold lips of their dead to pay old Charon the ferryman of the Styx. Here are the faces of rulers and captains down to our own day, from Alexander and Cassius, and the night Julius who bestrides the narrow world like a Colossus.

Tennyson's New Poem.

The Nineteenth Century for September contains a new poem by Alfred Tennyson. It is inscribed "To Virgil," and was written, we are told, at the request of the Mantuan for the nineteenth century of Virgil's death. We append a few of the verses:—
 Roman Virgil, thou that singest
 How's lofty temple robed in fire,
 How falling Rome arising,
 Wars, and filial faith, and Diad's pyre;
 Landscapes—low, lord of language
 More than he that sang the Works and Days,
 All the chosen coasts of fancy
 Sweeping out from many a golden phase;
 Thou that singest wheat and woodland;
 With and vineyard, hive and horse and herd;
 All the charm of the Muse
 Often flowering in a lonely word;
 Now the Rome of slaves hath perished,
 And the Rome of freemen holds her place,
 I from out the Northern Island,
 Wanderer of once from all the human race,
 I salute thee, Mantuan,
 I that loved thee since my day began,
 Wielder of the stainless measure
 Ever moulded by the lips of man.

Mothers! Mothers!

Are you distressed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of **WINDLOW'S SOOTHING SYRUP**. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not another on earth who has ever used it, who will not tell you as much as that it will regulate the bowels, and give rest to the mother, and comfort and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle.

Our dose of **Baxter's Mandrake Bitters** will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

KNIVES, FORKS & SPOONS.

"CHINA HALL," MARKET BLOCK, GEORGE STREET.

MACFARLANE WILSON.

FROM ALL OVER.

As a cure for all diseases of the Lungs Down's Bitters has no equal.

No efforts will be made at London to secure next year's provincial fair for that city.

BAXTER'S MANDRAKE BITTERS never fail to cure Constipation and regulate the Bowels.

A Destructive storm visited East and Middle Florida on Sunday, committing great destruction. A number of lives were lost.

Safe, safe and effectual, that old remedy, Down's Bitters, for the cure of Coughs and Colds.

MAJOR-GENERAL LEARD has requested Major Scott and Mudge to make an explanation of the facts in regard to the affair of the towel. As yet so apply to this has been made.

HALL'S Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by John McKee, druggist.

The United States wheat yield this year will not be quite as large as those of 1879 for 1880. The German crop is better than expected, and that of France fully up to the average.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by J. D. Tully.

The investigation into the defalcations of W. D. McNeil, of the Montreal city treasury, are still in progress. They are expected to be very large.

The National Convention of the Fire Chiefs of the United States and Canada met at Cincinnati this week. Two hundred were present, including Captain Shaw, of the London, England, fire brigade.

A LITTLE Smith, child of Patrick Smith, living at 98 Chevening street, Montreal, passed all large stomach worms, on Saturday last, with one dose of Dr. Smith's great German Worm Expeller.

LEADY HARBOR reported from Yakutat on June 22nd that he had been the first to reach the centre of the Lena delta on July 3rd, establish a provision depot there, and immediately commence the search of Lena Chippa party.

STEPHENSON J. MEANY, who surrendered his bail in order to test the legality of the arrest and detention in Ireland of an American citizen under the Coercion Act, denies that he is acting under instructions from the United States Government.

MR. R. C. MOORE, of the house of Messrs. Varnam & Co., 34 New street, New York, says that he was almost instantly relieved of severe pain, consequent upon an attack of pleurisy, by one application of St. Jacobs Oil.

The prescription of a skillful physician, and composed of vegetable drugs of great remedial power, Dr. Carson's Stomach and Constipation Bitters purify the blood, give tone and vigor to the system, cure Dyspepsia and Indigestion when all other medicines fail. Have you tried it? Sold by J. D. Tully, at 50 cents a bottle.

The Supreme Court of Leipzig has just delivered an important decision, in view of the extensive Anglo-German traffic. It refused to sanction the enforcement in Germany of a judgment obtained in the English courts. There is no precedent in any decision of the High Court of Justice of England guaranteeing reciprocity, as is demanded by the German common law.

The most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the Great German Expeller, which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self-abuse, nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangement of the nervous system. For sale by John McKee, druggist.

An Explanation.

For a long time people have been wrong in respect to a very important matter. Now we are told that the old saying, "nine tailors make a man," should be "nine takers make a man." It is said that "taker" is the old form of a word connected with tally. In certain parts of England the bell was always tolled nine times for the death of a man and the listening rustic as he counted the strokes telling of the death of some one in the neighborhood would close at the ninth with the remark "Nine takers make a man."

WILL YOU EXCHANGE
 a case of **Dyspepsia or Biliousness** for 75 cents? It is actually **unwarranted to exchange** under the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver**, when this offer is made to you **in your own home in all sincerity**. **ROFESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.** It acts directly upon the **Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Rofesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.** Out this out, take it to any dealer in medicines, and get at least one 75 cent bottle of **Rofesa**, and tell your neighbor how it acts. It is warranted to cure **Dyspepsia and Biliousness**.

THE UNDERIGNED are prepared to make a loan on Real Estate security in sums of four hundred dollars and upwards, at SIX PER CENT PER ANNUM interest. No bonus or commission charged.
HATTON, HATTON & BECK

INCREASE

YOUR CAPITAL.
Those desiring to make money on small and medium investments in grain, provisions and stock speculations, can do so by operating on our plan. From May 1st, 1891, to the present date, on investments of \$10.00 to \$1,000, cash profits have been realized and paid to investors amounting to several times the original investment, still leaving the original investment making money or payable on demand. Explains circulars and statements of fund sent free. We want responsible agents, who will report on crops and introduce the plan. Liberal commissions paid. Address: PETERSON & WHEELER, 123 Madison Street, Chicago, Ill.

THE VICE-REGAL TOUR.

The Princess not injured by the collision—An Address at San Francisco.

SAN FRANCISCO, Sept. 14.—The Princess Louise found awaiting her congratulatory despatches from the Queen on her safe arrival, and also on the victory of the British troops at Tel-el-Kebir. The Marquis stated that the Princess, although not injured by the accident, was startled by the concussion, but only required rest to recover from the excitement. Twenty of the finest rooms and parlours at the Palace Hotel are at their disposal and have been lavishly decorated with flowers. Shortly before noon today British Consul Booker introduced the representatives of the British societies to the Marquis of Lorne, and an address of welcome was made. The Marquis responded briefly. The Princess assigned fatigue as an excuse for her absence. The party then accepted the invitation of Gen. McDowell to take a trip around the bay in the Government steamer.

ACCIDENT.

—The Register says that while Mr. McGregor was out driving on the afternoon of Wednesday of last week, accompanied by his wife and little son, and when a short distance from the village, one of the buggy wheels came off. The result was that all three were suddenly thrown to the ground. Fortunately the horse was very quiet or the consequences might have been serious. As it was Mrs. McGregor was slightly bruised about the shoulders and out on the forehead from having come in contact with the frame-work of the buggy top in her fall. The others escaped without injury. The Show.—The Agricultural Society of the East Riding of Peterborough will hold their fall show here on Tuesday and Wednesday, 10th and 11th of October. The prize list which has been out for some time is extensive and well arranged, and as the show has always been a success when held in November, this year is not likely to be any exception. As all are aware the success of these shows largely depends on the farmers, and on their ability and readiness to place good stock and produce on exhibition. However the people and especially the business men of the place, have it in their power to lend material assistance, which we have no hesitation in saying will be freely granted.

AGENCY TO BE CLOSED.

—The News says that the agency of the Bank of Commerce here will be closed in a few weeks.

A SINGULAR CASE.—A collar button caused an abrasion on the forehead of Mr. Lewis Ross' neck. He was unfortunate enough to get cold in the scratch, the result being that it became very sore, swelled to an alarming extent, and he had to resort to medical treatment.

IN A WELL.—A child of Mr. D. J. McLennan's fell into a well last Friday. Mr. R. Westaway happened to be near and immediately slid down the rope, and saved the little one from drowning. He was assisted out again by Mr. Hawkins. The child is now quite itself again, and apparently not any the worse of the accident.

RATE OF WAGES.—The Guide says that at a regular meeting of the association, held at their rooms Wednesday night, the Loughshoremen passed a resolution to raise their wages five cents per hour. It will now be twenty five cents for handling lumber; other work five cents extra.

AMONG the most prevalent fatal and sudden attacks of diseases, are those incident to the Summer and Fall, such as cholera morbus, bilious colic, diarrhoea, dysentery, etc., that often prove fatal in a few hours. That ever reliable remedy Dr. Fowler's Extract of Wild Strawberry, should be at hand, for use in emergency.

An elegant range of Scotch Tweed Suits, suitable for Fall wear, just opened out at Habili-ment Hall.

THE WAR IN THE EAST.

THE FIGHTING THOUGHT TO BE VIRTUALLY OVER IN EGYPT.

Cairo Entered by the British-Arabic Pasha Stunned by the Populace and Taken Prisoner—Khal-el-Dwar, Begging and Benha Occupied—The Military Convention.

THE FIGHTING ENDED.
